THE LEADING ROSE GROWERS OF AMERICA

The Famous D. & C. Flower Seeds

NONE BETTER—THE BEST THE WORLD PRODUCES.

THOUSANDS of planters in all sections of the country will testify to the surpassing excellence of the D. & C. Flower Seeds. We claim for them that they are the best (not because they are the cheapest) offered anywhere, and that they are the cheapest because they are the best the world produces. We take special pride in the Seed Department of our business, and propose that every packet of Seeds bearing the D. & C. imprint shall contain the best and purest seed that can be grown. Our seeds are grown for us by the most experienced seedsmen of this country and Europe. We guarantee every packet of seed sent out by us to be this year's crop. We buy the best, send out full-sized packets, and sell at prices lower than the lowest. Full cultural directions on each packet.

\$1.25 Worth of Seed for \$1.

Orders for seeds amounting to \$1 can select seeds to the value of \$1.25; orders for \$2 can select seeds to the value of \$2.50, and so on. 25 cts. worth of seed free with each dollar's worth ordered. ♣ ♣ ♣ ♣ ♣

Three Brilliant New Dwarf "Cupid" Sweet Peas.

By crossing and recrossing the original White Cupid upon the different tall Sweet Peas, the three splendid new varieties have resulted. These are all black-seeded, of vigorous growth, with full-size flower yielding a rich profusion of bloom. They have the same dwarf habit of growth peculiar to the original Cupid, rarely exceeding 8 inches in height.

NEW CUPID SWEET PEA, "TRILBY."—Fine, large, flowers, color deep, glowing scarlet. Brilliant and startling. A wonderful variety. Pkt. 24 seeds, 25 cts. each; 5 pkts. for \$1, or \$2 per dozen pkts.

NEW CUPID SWEET PEA, COUNTESS OF RUDUOR.—Flowers of immense size, 3 and 4 on a stem. Color a clear light lavender throughout. Superb. Pkt. 24 seeds, 25 cts. each; 5 pkts. for \$1, or \$2 per dozen pkts.

NEW CUPID SWEET PEA, BOREATTON.—Large, bold flowers. Color deep mauve, underlaid and suffused with rosy purple, keel heavily striped with rich purple. Glorious form. Pkt. 24 seeds, 25 cts. each; 5 for \$1, or \$2 per dozen pkts.

OUR NEW SWEET PEAS.

EASE of culture, their sureness and prolonged profusion of bloom, beauty and exquisite fragrance have made Sweet Peas preëminently the *People's Flower*. They have always been prime favorites with us, and in OUR NEW GUIDE for 1892 we first predicted that it was our belief that Sweet Peas were destined to become the popular Summer flower. This prediction has been fulfilled, and their popularity extends from one end of the country to the other. We offer for 1900 the choicest and most distinct new varieties and the best standard sorts that we cannot do without. Prices are as low as can be made, furnishing liberal packets and the *best seed*. Full cultural directions on each packet. Don't fail to plant a few Sweet Peas this year.

STANDARD LIST OF SWEET PEAS.

Complete Set of 6 new Eckford Sweet Peas for 50 cts.; any 3 pkts. for 25 cts.

OUR NEW SWEET PEAS MIXED.

This surpassing mixture includes the very finest and most distinct varieties now in cultivation, including those described above. No strain offered will give better results. Large pkts., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 15c.; lb., 40c., postpaid. **Eckford's Mixed Sweet Peas.**—A standard and reliable quality. Pkt., 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 15 cts.; lb., 45 cts.

OUR GRAND Success Coleus.

THIS valuable selection has attained widespread popularity, and to all has proven a *success, surprise and delight*. In our picture we had the artist show single leaves of four of the most distinctly colored and marked varieties; but every variation, color and marking we have ever seen in the finest assorted Coleus is included in the "SUCCESS COLEUS." The directions for culture are extremely simple. Start the seed in pots, boxes or pans, whichever is the most convenient, just as you would seed of any other tender plant that is usually started indoors. When the little plants show four leaves, thin out by transplanting a proportion to other pots, etc., and thus "SUCCESS COLEUS" can be grown until the season for planting out in the open ground, which should not be done until all danger of frost is past. We have thoroughly graded and mixed "SUCCESS COLEUS" and put it into liberal packets, so that a single packet can be depended on for a complete collection of colors and

markings and sufficient plants for a medium-sized bed. Per pkt., 15 cts.; 2 pkts. for 25 cts.; 4 pkts., 50c.; 9 pkts., \$1. Trade packet of 1000 seeds for 75 cts.

Superfine Strain.

TO easily grow the best Verbenas, they should be raised from seed, as plants raised from cuttings seem to be more subject to disease and rust than ever, while plants raised from our Superfine Mixed Seed, sown in March, are a mass of healthy flowers and foliage, almost as dense as Sweet Alyssum Little Gem and nearly as fragrant. The superb strain of Verbenas here offered is beyond question the finest ever sent out. The trusses are large, with flowers of unusual size, embracing a remarkable range of colors, shades and markings. From early Summer until late Fall the plants produce their magnificent flowers in great abundance. The seed should be sown early in pots, boxes or hot-beds, and transplanted when three or four inches high. Per pkt., 10 cts.; 3 pkts. for 25c.; $\frac{1}{2}$ oz., 40 cts.; $\frac{1}{2}$ oz., 75 cts.; per oz., \$1.50.

TRUFFAUT'S PEONY-FLOWERED PERFECTION ASTER.

ASTERS.

Betteridge's Prize.—An improvement on the German Quilled Aster; splendid large flowers of varied colors. Mixed seed, 2 feet. 10c.

Chrysanthemum-Flowered Dwarf.—Plants 10 to 12 inches high, bearing handsome Chrysanthemum-shaped flowers; all colors mixed. 10c.

Cocardeau, or New Crown.—Large, double; centre white, quilled, with bright color petals. 10c.

New Queen of Spring.—Of all Asters it is the earliest; if the seed is started early it will flower in full perfection before the calendar months of Spring have ended. In any case, started with other Asters, it will flower from two to three weeks earlier. The plants are vigorous and healthy, of low, dwarf growth, and produce their queenly white double flowers profusely on long stems, making them unsurpassed for cutting. 10c.

New White Branching Aster.—Flowers pure white, extra large and can hardly be told from a Chrysanthemum. Blooms early. 10c.

New Diamond Mixed.—The flowers are extremely beautiful, 2 to 2½ inches across, each petal being distinctly incurved. The plants grow 18 to 20 inches high. The colors range from pure white to blackish purple and dark, rich crimson. 10c.

New Triumph.—This novelty forms compact plants only 8 inches high, each with large flowers 2½ to 3 inches across. Color pure scarlet. 10c.

New Dwarf Bouquet Mixed.—Plants 6 to 8 inches high, compact and covered with flowers. 10c.

New Dwarf Peony Perfection.—The plants do not grow over 12 inches high, and are of neat, compact habit, blooming profusely; the flowers are very large, of fine form, perfectly double; the colors are strikingly rich and brilliant. 10c.

—Light Blue, Shining Dark Scarlet, Pure White. 10c.

—Black Blue, Black Blue and White. 10c.

—Crimson and White, Rose. 10c.

—Finest Mixed.—All the above colors, ¼ oz., 75c.

Set of 8 Perfection Asters, 65 cts.

Prince of Wales.—New and very fine. The plants grow about 15 inches in height. The flowers are deep red. 10c.

Truffaut's Peony-Flowered Perfection Asters Mixed.—One of the best varieties in every respect; flowers very large, double and beautifully incurved; grows about 18 inches. Over twenty-five distinct colors are included in the splendid strain we offer (see cut). Mixed seed, ¼ oz., 50 cts. 10c.

Mixed Varieties of Asters for General Planting.—Our own mixture, embracing many of the choice varieties described. ¼ oz., 25 cts.; oz., 75 cts.

FOUR GRAND NEW ASTERS.

SEMPLE'S BRANCHING.—This is a magnificent new American strain producing handsome double flowers on large stems. We offer finest colors mixed.

WHITE QUEEN.—Without exception the best dwarf Double White Aster ever introduced. Wonderfully free bloomer. 10c.

QUEEN OF THE MARKET.—New and entirely distinct. Blooms early and profusely. Assorted colors.

COMET MIXED.—The long, wavy and twisted petals form a dense half globe resembling the Japanese Chrysanthemum.

MARGUERITE CARNATIONS.

Giants of California.—This is a greatly improved strain of the New Marguerite Carnation, which is so popular because it produces fine, fragrant, double flowers in only four months from seed (see cut). The plants are dwarf and compact, though of vigorous growth. Come into bloom earlier even than the Marguerites. Produce much larger and more finely double flowers and continue to bloom profusely until the flower buds are destroyed by heavy frosts. Seed scarce! A packet contains only about 75 seeds. Finest colors, mixed, per pkt., 15 cts.; 2 pkts., 25 cts.

Marguerite New Dwarf Double.—This is a grand novelty, producing in wonderful profusion throughout the entire season flowers of splendid form, equaling the finest Carnations in size and substance. It grows as readily from seed as a China Pink, and is in full bloom twelve to fifteen weeks after sowing. Equally good for pot or garden culture. Fully ninety per cent. of the flowers are double; their fragrance is delicious. The range of color is marvelous and includes yellow. Be sure to try this lovely Carnation.

GIANTS OF CALIFORNIA. One plant, from a photograph.

A sensational looking plant, the red and yellow plumes producing a strikingly beautiful effect.

**NEW
CELOSIA**

SPECIMEN PLANT, NEW CELOSIA OSTRICH FEATHERED MIXED.

Beautiful Celosias.

Ostrich Feathered Mixed.—The beautiful red and maroon flower plumes are borne in marvelous profusion single plants producing 25 to 50 plumes, ranging in length from 6 to 8 inches. Grows quickly, making blooming plants three months after seed is started. Oz., 50 cts.

Golden Feathered.—Identical with Ostrich Feathered Mixed, excepting color of flowers, which are beautiful golden yellow. Superb in every way.

Balsams.

OUR PERFECTION BALSAMS ARE UNSURPASSED.

When Extra Fine Show Flowers are wanted, Balsams should be started in boxes or hotbed, and transplanted when 3 or 4 inches high, but they are generally sown in open ground, where they are to remain, and in this way give excellent satisfaction.

Perfection Double White.—The most perfectly double, pure snowy-white flowers imaginable. $\frac{1}{4}$ oz., 50 cts.

Perfection Apple Blossom.—This dainty Balsam well deserves its name; exquisitely colored.

Perfection Flashing Red.—A brilliant variety.

Perfection Bright Yellow.—Novel and valuable.

Perfection Lavender.—Exquisite double flowers.

Solferino—The Best.—White spotted and striped with red.

Perfection Camellia-Flowered Balsams, Finest Mixed.—We have taken great pains with this mixture, and we do not feel the slightest doubt but that it is the finest selection of mixed Balsams ever offered. Oz., 50 cts.

Two New Begonias.

Vernon.—The flowers are of an intense brilliant deep red color, and are magnificently set off by handsome foliage. Seeds started in February or March will make flowering plants by early Summer, and continue in most striking effect until Autumn: are completely true from seed. A superb novelty. 10 cts.

Vulcan.—This grand new variety might be called appropriately "The Scarlet Vernon Begonia." Planted side by side, the Vulcan is identically of the same growth and free-flowering character, while it completely eclipses the Vernon in the intense brilliancy of the flowers. Each plant is covered with intense fiery scarlet flowers, even the stamens tipped with fiery red. 10 cts.

DOUBLE LARGE-FLOWERED DAHLIA.

Dahlias from Seed.

Each year this new plan of raising Dahlias finds increased favor with flower people. Dahlia seeds germinate quickly, and the plants grow very rapidly. For best results start the seed indoors early and transplant when all danger of frost is past.

Dahlia, Choicest Mixed Pompon.—Beautiful flowers.

Gracilis (New Single Striped).—Immense single flowers, embracing a brilliant variety of colors, striped variegated, flaked and dotted; foliage lacinated. 10 cts.

Double Large Flowered Mixed.—Very choice.

Superb Single Mixed.—Many consider single Dahlias the most beautiful and graceful of all. The flowers are extra large, star-striped and borne in great profusion from July to October. 10 cts.

COSMOS HYBRIDUS.

Cosmos Hybridus.

This magnificent race of plants is of rapid growth, quickly attaining a height of 5 to 7 feet. The bushes are a mass of elegant foliage until they bloom in September. From then until November the plants are literally covered with showy flowers resembling Dahlias. They range in color through all shades of rose, purple, flesh and pure white. They are easily raised from seed, and increase in popularity year by year. A writer in *Success with Flowers* says the plants will continue blooming into the Winter if taken up and potted and brought indoors.

5 Cents per packet

for all Seeds offered on this page, except where noted; any 6 packets for 25 cts.; 12 pkts. for 50 cts.; 25 pkts. for \$1, postpaid.

LARGE-FLOWERED NEW DWARF DOUBLE PINK. *Nat. size flower.*

DIANTHUS PINKS.

Few flowers can equal Dianthus in variety and brilliancy of color, blooming all Summer and Fall until prevented by severe frost. They live over Winter, and give satisfaction and pleasure the second season. Splendid for bedding.

New Large-flowered Dwarf Double Pink (see cut).—New and very fine. Grows only 9 to 10 inches high, producing immense numbers of extra-large double flowers of perfect form. Colors from pure white to deep crimson.

Dwarf Fireball.—A greatly improved, very dwarf variety, covered with showy double large flowers.

Dwarf Snowball.—The companion variety of Fireball; like it in every particular, except pure white flowers.

The Bride.—Flowers 3 inches across; color pure white, with large crimson centre, shading off into the white.

Chinensis (Double Chinese Pink).—Clusters of pretty double flowers; mixed colors. Per oz., 25 cts.

— **Albus fl. pl.**—Best double white.

Imperial fl. pl. (Double Imperial Pinks).—Finest mixed seed; bright and showy colors. Per oz., 50 cts.

Heddeggewig, Finest Single Mixed.—Per oz., 50 cts.

— **Finest Double Mixed.**—All colors. Per oz., 60 cts.

— **Mourning Cloak.**—Darkest of all Dianthus; the almost black petals each have a margin of pure white.

Heddeggewig, Dwarf Snowball.—Double white flowers.

Crimson Belle.—Very large, dark-red flower.

Eastern Queen.—Beautifully marbled, maroon.

Laciniatus Double Red Blotched.—White, blotched red.

Dianthus Mixed Seed for Bedding.

We have prepared a careful mixture of the above varieties, suitable for beds and borders. Per $\frac{1}{2}$ oz., 30c.; oz., 50c.
Complete set of 15 Dianthus, 50 cts.

MIGNONETTE.

It is unnecessary for us to praise this popular flower; everybody is familiar with its well-known sweetness and graceful sprays of bloom.

Pure Machet.—We offer absolutely pure seed. Heretofore it has been badly mixed. Per $\frac{1}{2}$ oz., 20 cts.

Giant White Spiral.—Grows 2 or 3 feet high, perfectly erect. Spikes 15 inches long. Color pure snow white, much unlike anything else in cultivation.

Common Sweet Mignonette.—The good, old-fashioned Sweet Mignonette; it is the flower for the millions; we offer the best strain. Per oz., 10 cts.

Parson's White.—Very sweet, one of the best whites.

Golden Queen.—Masses of golden yellow. Per oz., 20 cts.
The set of 5 Mignonettes for 20 cts.

Fine Mixed Seed for General Sowing.—For a succession of bloom we recommend our *Standard Mixture, Warrented Fresh Seed.* Per oz., 25 cts.

NASTURTIIUM LADY BIRD.

NASTURTIIUMS.

The improved or dwarf Tom Thumb varieties offered below are unrivaled in gorgeous color and graceful effect; they can be planted in the poorest soil, and will bloom profusely until after frost. A bed of Tom Thumb varieties is a splendid sight.

Cloth of Gold.—A valuable new variety; very scarce; the foliage is of bright golden yellow, which, with the intense scarlet flowers borne in great profusion, makes an unusually attractive display. Per oz., 15 cts.; $\frac{1}{4}$ lb., 50c.
Crystal Palace Gem.—Sulphur spotted maroon. Oz., 10c.
Empress of India.—Its profusion of bloom and dazzling richness of color is remarkable. The plants are of dwarf, bushy habit, the leaves being a very dark purple, making a fitting background for the brilliant crimson flowers. Per oz., 10 cts.; $\frac{1}{4}$ lb., 35 cts.

Golden King.—One of the best yellows. Per oz., 15 cts.; $\frac{1}{4}$ lb., 50 cts.

King of Tom Thumbs.—Intense scarlet flowers; magnificent for bedding and vases. Per oz., 10 cts.; $\frac{1}{4}$ lb., 35c.

King Theodore.—Deep, rich crimson flowers. Oz., 15 cts.

Lady Bird (see cut).—A strikingly beautiful variety; the ground color of the flowers is rich golden yellow; starting from the base, each petal is barred with a vein of bright ruby crimson. Per oz., 15 cts.; $\frac{1}{4}$ lb., 50 cts.

Pearl.—The best white sort. Per oz., 10 cts.; $\frac{1}{4}$ lb., 35 cts.

Rose.—A most delicate color; a very beautiful variety. Per oz., 20 cts.; $\frac{1}{4}$ lb., 65 cts.

Ruby King.—Flowers a rich ruby color; foliage dark. Per oz., 10 cts.; $\frac{1}{4}$ lb., 35 cts.

Spotted King.—Rich orange, spotted maroon. Oz., 15 cts.

Tom Thumb Varieties Mixed.—One of the best mixtures for color and variety. Oz., 10 cts.; $\frac{1}{4}$ lb., 25 cts.; lb., 90c.

Set of 12 Dwarf Nasturtiums above for 45 cts.

Tropæolum.

Tropæolum or climbing Nasturtiums are among our very best and cleanest climbers; they require little care and flourish in almost any soil.

10 cts. per pkt.; any 3 pkts. for 25 cts.

- Fire King.**—Rich, deep colors; the three lower petals set off the intense deep red mahogany of the blotches on each of these petals, the perfect tone of which is brought out by the rosy red of the two upper petals.
- Peacock.**—A gorgeous Pansy; each petal is blotched with dark purple violet on lighter blue ground, changing to a light claret color, distinctly edged with white (see cut).
- Rosy Morn.**—Exquisite rosy red, distinctly edged with white; the red in the lower petals is almost purple.

PHLOX GRANDIFLORA MIXED.

PHLOX DRUMMONDI GRANDIFLORA.

For a splendid mass of color and constant display Phlox is invaluable. The profusion of bloom is remarkable. It grows with little trouble, but likes rather rich ground. Seeds can be sown where plants are to grow; have plants about 10 inches apart.

Alba.—Pure white, large flowers.

Black Brown.—A distinct color, the darkest in Phloxes.

Crimson Bouquet.—New and distinct, color bright crimson, flowers large.

Dwarf Fireball.—Brilliant fiery scarlet; splendid for edging or massing.

Dwarf Snowball.—A grand white sort. Indispensable in massing; forms a striking contrast with the brighter colors.

New Large Yellow.—A superb variety; large heads of rich straw-yellow flowers.

Starred and Fringed.—Of rare beauty, a great novelty.

Star of Quidlinburg.—The flowers of this distinct variety are totally unlike any others; they are perfectly star-shaped, five pointed, and frequently measure 1½ inches from tip to tip.

Half Dwarf Varieties Mixed.—A desirable mixture for plants of medium height; can be used for borders with good effect, ¾ foot.

The set of 9 Grandiflora varieties named above for 55 cts.

Phlox Grandiflora Mixed.

We believe Grandiflora Mixed Phlox to be the *grandest strain ever introduced*. The habit of growth is very neat and compact; the flowers are of uniform size (about one inch in diameter) and are produced in the greatest profusion; the colors embraced in this mixture show a wonderful diversity, comprising 28 distinct shades and markings. Every order should include some of this superb strain. Per ¼ oz., 30 cts.; per oz., \$1.

CHRYSANTHEMUMS.

Golden Feather.—Beautiful, large, Daisy-like flowers, 2 to 3 inches in diameter, dark, velvety centre, circled with bright glowing yellow, outer circle rich crimson; a superb variety.

Inodorum Plenisimum.—It flowers abundantly the first season from Spring-sown seed producing hundreds of perfectly pure snow-white flowers, which can be continually cut, and new blooms at once appear; remains in bloom all Summer; a most valuable variety.

Fine Mixed Varieties.—Embracing the above and other varieties. Per oz., 50 cts.

Japanese Chrysanthemums.—We recommend to amateurs our selection of Japanese or perennial Chrysanthemum seed; it is saved from a prize collection, and includes all the latest improved types. It is not generally known that large, vigorous plants of Chrysanthemums for Autumn blooming can be raised from Spring-sown seed. We offer choicest mixed seed, as described above, per pkt., 15 cts.; 2 pkts., 25 cts.

BEAUTIFUL NEW FRENCH CANNAS.

Originated by a skillful and celebrated French grower, Mons. Crozy. They are entirely distinct. The profusion of bloom is something remarkable. Colors range through crimson, rose, scarlet, yellow, salmon, etc., many flowers being beautifully striped and spotted. Per oz., 40 cts.

SPECIMEN FANCY-FLOWERING PETUNIA

PETUNIAS.

Our New Fancy-Flowering Strain.

This is unquestionably the finest and most valuable strain of Petunias in existence. Every year the crop is graded to a certain high type, which is few seeded, and the minute seeds carefully gathered by hand. The cost of production is so great that the crop is actually worth more than the same weight of gold. The flowers are grand in size and are produced in great abundance. The colors range from pure white through the delicate shades of rose to deep pink, some flowers being marked and stained in the most beautiful manner, while the purple and dark colors are rich and striking; our mixture is made with care, so that a fine collection of distinct varieties, double and fringed, can be raised from a single packet. Sure to satisfy. 20 cts. per pkt.; 3 pkts. for 50 cts.; 7 pkts. for \$1.

Giants of California—Gigantic flowers (often five inches and more in diameter), of every conceivable shade of crimson, pink, lavender, pure white, etc. One of the chief points of excellence is the deep throat and diversity of veining in the throat. Many of the flowers have a clear yellow throat, while others have a pure vegetable black one, so deep that it seems to show no veining. 15 cts. per pkt.; 2 pkts. for 25 cts.; 5 for 50 cts.

Red Star—Fine for bedding. Each flower has a distinct white star on rich purplish red ground.

Large Flowering Double—Will produce a fair proportion of double flowers.

New Striped and Blotched—Dwarf strain of great excellence; large flowers, beautifully blotched and striped.

Hybrids Superfine Mixed—Magnificent bedding Petunias. Flowers are of large size, embracing all colors known to Petunias. Per $\frac{1}{2}$ oz., 40 cts.

Set of 6 Petunias named above for 40 cts.

VERBENAS.

If there is anything that can be called the flower for the millions, it is the Verbena. Good, healthy plants can now be produced from seed with such little expense as to make it entirely unnecessary to buy plants or cuttings.

Scarlet Defiance—Brilliant scarlet. This is the best deep colored variety grown. 10 cts.

Sea Foam—Candidissima—Beautiful pure white. The fine trusses of flowers are very sweet. 10 cts.

Primrose (Lutea)—The nearest yellow of any.

Hybrida Mixed—Good imported seed, mixed colors. Per $\frac{1}{4}$ oz., 35 cts.; $\frac{1}{2}$ oz. 60 cts.; oz., \$1.25.

SUPERB NEW SALVIAS.

Coccinea Grandiflora Rosea—Very beautiful flowers of an orange-rose color; height three feet.

Patens—Handsome bluish-green, leathery foliage, and erect, strong stems, bearing heads of broad, tubular-lipped flowers, which for superb rich blue color are unsurpassed. 10 cts. per pkt.; 3 pkts. for 25 cts.; 7 for 50 cts.

Splendens Nana Compacta—New and distinct. Our stock is direct from our special grower, and the finest type of its class, having four times the blooming capacity of the ordinary Salvia. Habit of growth very compact, branching freely and producing the greatest profusion of gorgeous miniature scarlet flowers; flower spikes very erect and all above the foliage, forming a plant 2 feet high and 2 $\frac{1}{2}$ feet in diameter. A foot high of almost solid flowers, far surpassing in beauty all other varieties of Salvias. Full cultural directions on each packet (see cut).

ZINNIAS.

The Zinnia has been so much improved, it would hardly be recognized as the Zinnia of ten years ago. Flowers are large, finely formed, and as double as Dahlias; the colors bright, showy and attractive.

New Giant Mixed—This is by far the largest Zinnia in cultivation; the flowers are borne in great profusion and are of immense size, frequently 5 to 7 inches across, and perfectly double; the petals being of great consistency, they are not affected by heat, remaining in good condition for weeks; the colors are clear and vivid.

Dwarf Snowball—Compact bushy plants, covered with snowy white flowers.

Dwarf Fireball—Exactly like Snowball in habit, but flowers in direct contrast: dazzling fiery scarlet.

Tom Thumb Mixed—This is the dwarfest of all Zinnias; grows only 4 to 6 inches high. Flowers perfectly formed and as large as those of the tall Zinnias. All colors.

Zebra Striped Mixed—A large percentage of the flowers are double and perfect in shape, of all colors, such as orange, crimson, pink, yellow, violet, rose, scarlet, white, etc., three-fourths of which are striped, spotted and blotched with different shades, no two plants alike.

New Double Lilliput—The range and variety of colors is remarkable—the most vivid scarlet and deep, shining crimson, the purest white, deep golden yellow and salmon pink, with many intermediate shades.

Best Double Mixed—A special collection of splendid colors; the flowers are perfectly double and beautifully formed. Per oz., 40 cts.

Set of 7 Zinnias named above for 30 cts.

VIOLAS, or Tufted Pansies.

Extremely popular in Europe for bedding, *Violas*, or *Tufted Pansies*, should be used more generally in America. Sow the seed in May, and when in flower in August or September, transplant into well-enriched beds, assorting as to color or arranging in any design desired. They bloom from early Spring well into Summer. **Finest mixed**. Per pkt., 10 cts.; 3 pkts., 25 cts.

5 Cents per packet for all Seeds offered on this page, except where noted; any 6 packets for 25 cts.; 12 pkts. for 50 cts.; 25 pkts. for \$1, postpaid.

Perennials.

In the following list will be found Biennials and Perennials that do not bloom until the second season. They include many of our oldest and most popular flowers. The seed can be sown in the Spring with the Annuals, or in the early Autumn; in the latter case the beds should be shaded and watered until the plants appear.

Carnations and Picotees.

Magnificent flowers, large, perfect in form, and delightfully fragrant. Seed sown in May or June will bloom splendidly the following season. A succession of young plants should be had every year, as old plants are injured by the Winter, while young ones are perfectly hardy.

Carnation German Extra Double Mixed.—Seeds from named flowers; very choice. Per pkt., 15 cts.; 4 pkts. for 50 cts.; 10 pkts. for \$1.

Choice Double Mixed.—A good selection. 10 cts.

Picotee, Finest Double Mixed.—A splendid strain. 10 cts. per pkt.

Phlox Perennial.

Can be readily grown from seed. Plants grow in splendid clumps, which are gorgeous with brilliant heads of bloom. Entirely hardy.

Finest Varieties Mixed.—Saved from our own collection, embracing the newest and best kinds. Per pkt., 10 cts.; 6 pkts. for 50 cts.; 15 pkts. for \$1.

Pea Perennial.

Perennial Peas being perfectly hardy give much satisfaction; they die down to the ground every Winter and start again in the Spring.

Perennial Pea Splendens.—A beautiful species from California; handsome dark red flowers. 15 cts.

Perennial Peas.—All varieties mixed.

Sweet William Dianthus.

A very old and popular flower, unsurpassed for border or bedding plants. We offer the best double varieties.

Sweet William Perfection.—Finest double, mixed; large. **Auricula Flowered.**—Flowers in trusses; colors beautiful. **PÆONY.**—A well-known, hardy, herbaceous plant; with large, double flowers of various shades of rose, crimson, white. 15 cts. per pkt.

VIOLA ODORATA (Blue).—The popular Sweet Violet; flowers early in the Spring; seed slowly germinates.

WALLFLOWER.—Fine German Double Mixed.

EVERLASTING FLOWERS.

Everlastings are very pretty for growing in the flower beds, and are valuable for drying for Winter decoration. All the varieties we offer are of the easiest cultivation. The flowers should be picked somewhat before they expand, and be hung up to dry in small bunches, using care to have stems so they will dry straight.

Acrolinum.—One of the most beautiful of the Everlastings; grows about 18 inches, and bears a great number of Daisy-like flowers. Mixed colors.

Ammobium.—Small, pretty little white flowers, very distinct in habit; 18 inches.

Gomphrena (Bachelor's Button).—Very pretty and distinct; globular-shaped flowers. Best to start seed in a hotbed. Mixed colors. Do not pick flowers for saving before they are fully expanded.

Helichrysum.—Splendid, large and full flowers, of good variety of colors; seeds can be sown in open ground.

— **Monstrosum.**—Double flowers, mixed colors.

— **Golden Ball.**—Rich golden yellow.

— **Fire-Ball.**—Splendid fiery red.

— **Dwarf Varieties Mixed.**—All colors.

Helipterum Sandfordi.—One of the choicest of Everlastings; grows a foot high. Beautiful little yellow flowers.

Waitzia Grandiflora.—Fine large yellow flowers, borne in clusters; best to start the seeds in hotbeds.

Xeranthemum.—Very neat, free-blooming plants of compact habit; the leaves are silvery, and flowers borne on long stems. Finest mixed colors.

Mixed Everlastings.—Our own mixture. A single packet includes a great variety.

The complete set of 10 named Everlastings for 40 cts.

FOR GREENHOUSE and CONSERVATORY.

THE DINGEE & CONARD CO'S EXTRA EARLY PEA THE EARLIEST of ALL

WE recommend our **Extra Early Pea** as the earliest of all, and best for the family garden. This superb variety is our own tested stock, and we stake

our reputation on it. As will be seen by our illustration, the pods are of fine size and borne in the greatest abundance and perfection; indeed, the yield is extraordinary for an Extra Early Pea, and it ripens up evenly, allowing the crop to be cleared away promptly, which is a strong point in its favor. We are confident that all who once plant **The Dingee & Conard Company's Extra Early Pea** will have no other.

Large pkt., 10 cts.; pint, 20 cts.; quart, 40 cts., postpaid. By Freight or Express, $\frac{1}{2}$ peck, 60 cts.; peck, \$1; bushel, \$3.75.

Burpee's Bush Lima Bean.

"**BURPEE'S BUSH LIMA** comes absolutely true from seed. The bushes grow 18 to 20 inches high, of stout growth and always erect, yet branching so vigorously that each plant develops into a magnificent circular bush from two feet to three feet in diameter. The bush character is thoroughly established, not one plant in a thousand showing any disposition to 'run.' Bears large crops and is also a sure cropper. It is an immense yielder, each bush bearing from 50 to 200 of the handsome large pods, well filled with very large beans, which are identical in size and luscious flavor with the well-known large Pole Limas."

Per pkt., 10 cts.; per pint, 25 cts.; per quart, 45 cts., by Mail, postpaid. By Express or Freight, per quart, 30 cts.; 2 quarts, 55 cts.; 4 quarts for \$1; per peck, \$1.75; $\frac{1}{2}$ bushel, \$3.25; per bushel, \$6.50.

AUSTRALIAN BROWN ONION.

Is of medium size, wonderfully hard and solid; the most attractive for market both in form and appearance. Ripens early, never making any stiff necks or scallions. Every seed seems to produce a good-sized Onion. Four weeks earlier than Red Wethersfield. Keeps indefinitely. Color of skin clear amber-brown. Pkt., 10 cts.; oz., 20 cts.; 2 oz., 30 cts.; $\frac{1}{4}$ lb., 50 cts.; lb., \$1.75, postpaid.

The Dingee & Conard Co.'s Lawn Grass Seed.

A Special Mixture of the Best Natural Grasses for Making New Lawns and Renovating Old Ones.

This mixture of Lawn Grass Seed is the result of careful experiment and comparison, and we regard it as the best combination for general sowing. It produces a smooth, even and velvety green sward that is particularly attractive and pleasing.

In preparing the ground for seeding, break to the depth of 10 to 12 inches with plow or spade and pulverize thoroughly; be careful to see that the surface grading admits of free upper drainage, so that the water will not collect in pools after heavy rainfalls. Sow the seed carefully and evenly in quantities of about one quart to each 300 square feet (15 x 20 feet), or five bushels to the acre; then with a fine harrow or rake cover and give a top dressing of animal manure, ground bone or some other good commercial fertilizer. Seeding may be done at any time during the Spring, Summer or Fall months; but the best results are obtained by sowing during April, May, September or October; if the work is done during the Fall months, a heavy top dressing of stable manure may be applied; in the Spring, the gross matter may be removed, leaving the surface clean. If manure is used in preparing the soil, in the Spring it should be incorporated with the earth. To renovate lawns where the grass has disappeared in places—with a steel rake scratch the surface thoroughly and after sowing a liberal quantity of seed rake the spot over well in order to cover. In cases where the surface earth has been removed or covered by a clayey or sandy subsoil it will be necessary to restore at least a part of the original loam. The use of manures and compost in liberal quantities will be of great assistance.

Price by Mail Postpaid.—One quart, 25 cts.; four quarts, 90 cts.

By Express.—\$1.25 per peck; one-half bushel, \$2.25; \$4.00 per bushel.

“Out o’ Sight” Mole Trap.
