THE GREAT REDUCTION IN PRICES OF BULBS

IN OUR CATALOGUE will, we trust, bring us hundreds of new customers and larger orders. In QUALITY they are as fine as ever imported.

OUR LIST OF DAFFODILS OR NARCISSUS

(page 21) calls for particular attention. The VARIETY is great, the BULBS specially fine, and the PRICES GREATLY REDUCED. The same remarks are true of our TULIPS, HYACINTHS, and LILIES.

WE SELECT OUR BULBS AND SEEDS PERSONALLY

Our Mr. James Farquhar has been in Europe during the past season. The Bulbs and Seeds he has selected are greatly superior to the average stock offered elsewhere. Advantageous purchases for cash admit of the VERY LOW PRICES WE NAME.

LAWN GRASS SEEDS,

And in fact all other Grass Seeds, are specialties with us. Not only do we have these NEW and FRESH, but ENTIRELY FREE FROM WEED SEEDS. Samples and quotations readily given. (See last pages of this catalogue.)

FOR AUTUMN USE

The lists on last pages, of FLOWER SEEDS, VEGETABLE SEEDS, FERTILIZERS, HOT-BED MATS, STRAWBERRY and other PLANTS, and SUNDRIES, may be consulted. Our Seed Catalogue gives our full list.

OUR BULBS ARE NOW IN STOCK,

And we respectfully solicit your patronage.

R. F. Farquhar & Co.

BULBS POST-PAID BY MAIL.

WE SEND BULBS BY MAIL POST-PAID, to all parts of the United States, at the single and dozen prices quoted in the catalogue, excepting a few heavy species for which the mail prices are given.

TO CUSTOMERS AND FRIENDS.

We have pleasure in handing you our Autumn Catalogue, and, grateful for your patronage in the past, we respectfully solicit a continuance of your confidence.

THE QUALITY of the Bulbs and Seeds we sell is always our first consideration, and we invite you to look over our stock of Bulbs this Autumn and compare them with others before purchasing. Such sound, well-ripened, and healthy specimens cannot fail to please those who are interested in their culture.

OUR PRICES ARE THE LOWEST of any reliable firm for the fine quality supplied.

A MEMBER OF OUR FIRM has visited Holland almost annually for twelve years for the sole purpose of getting the finest supplies to be got anywhere, and we have got them.

WE RELY SOLELY upon the high character of the Bulbs we sell for the extension of trade; we neither employ extravagant pictures nor sensational descriptions.

OUR STOCK IS VERY LARGE and in great variety, but early orders are solicited from those who look to us regularly for their supplies, as the quality of our Bulbs is now so widely recognized, that late in the season we are sometimes sold out of varieties called for.

THE VARIETIES offered have been selected by ourselves from a great number, and our list contains the names of nearly all the favorite varieties found in prize collections at European and American exhibitions of bulbous flowers.

PERSONAL ATTENTION GIVEN TO EVERY ORDER.

SPECIAL NOTICE.

Should you have no use for this Catalogue, kindly hand it to some friend who cultivates flowers.

HYACINTHS.

REMARKS ON CULTIVATION.

HYACINTHS for POT CULTURE may be planted from September to December, though October is perhaps the best time for potting the mass. The soil should be rich and light; good loam, with a very liberal mixture of old rotten cow manure, and a little leaf mould and sand, will suit them well. Before potting, clear off all small bulbs or offsets, place a piece of broken pot over the hole of the pot, and then fill with soil, leaving the apex of the bulb just above the surface, and press the soil firm. The soil under the bulb should not be pressed before it is planted. After potting, give a good watering, and place them in some out-of-the-way corner of the garden, where they can have the requisite amount of protection from frost, till they are well rooted, when they may be removed to the greenhouse, forcing-house, or drawing-room, as may be required, keeping near the light, giving abundance of water, and a moderately moist atmosphere. If new pots are used, they should be plunged in water at least one or two days before planting the bulbs.

HYACINTHS IN GLASSES.—The water should only just touch the base of the bulbs; use pure pond or rain water mixed with two or three grains of salt in each glass, to keep the water clear, changing when it becomes foul; but at whatever time it is given, it ought to be of the same temperature as the air in which the bulbs are growing. Place them in a dark cool room or closet or cellar for four or five weeks, until the roots have grown considerably, when they may be removed to the light. Full light, the sunniest situation, and air are very desirable, as they keep them dwarf and give full development and brightness to the flower and color. On no account should they be placed near the fire or in a dry atmosphere, as they will not succeed well unless put in a cool situation, where frost cannot reach them. Fill up the glasses with water as the level sinks by the feeding of the roots and by evaporation. *Single* Hyacinths are the best for Pot and Glass culture.

HYACINTHS OUT OF DOORS should be planted from October till frost sets in. They succeed in any good garden soil. Add some two inches of well-rotted manure, dig deep, and plant the bulbs about five or six inches apart, with a little sand round them, and three inches below the surface, covering during the winter with leaves, straw, or pulverized manure, to protect them from frost. No spring flower can compete with the Hyacinth in intrinsic beauty, grand and varied effect, and delicious fragrance.

Double Hyacinth.

Single Hyacinth.

CHOICE UNNAMED HYACINTHS.

Farquhar's Mixed Sorts for Bedding, Forcing, etc.

All these are sound flowering bulbs, and will be found far superior to those usually sold as *Mixed Hyacinths*, as they comprise free-flowering varieties of the most attractive colors and shades. All are varieties which bloom about the same time and grow of nearly uniform height.

SINGLE VARIETIES.

	Each.	Doz.	100.
Rose and Pink	.05	.50	\$3.50
Red	.05	.50	3.50
White	.05	.50	4.40
Blue, light	.05	.50	3.50
Blue, dark	.05	.50	3.50
Yellow	.05	.50	4.00
All Colors, mixed	.05	.50	3.50

DOUBLE VARIETIES.

	Each.	Doz.	100.
Rose and Pink	.05	.50	\$3.50
Red	.05	.50	3.50
White	.05	.50	4.00
Blue, light	.05	.50	3.50
Blue, dark	.05	.50	3.50
Yellow	.08	.75	6.00
All Colors, mixed	.05	.50	3.50

Twenty-five of a kind sold at 100 rates; 6 at dozen rates.

By mail, add 15 cents per dozen, or 2 cents per bulb, to pay postage.

NAMED BEDDING HYACINTHS.

Taking into consideration the fine, solid bulbs we furnish, these are remarkably moderate in price.

They are specially adapted for planting in lines, or forcing in pans. Each color being of one effective variety, a most beautiful effect is produced. They comprise the following colors:—

BRIGHT RED.	BLUSH.	LIGHT BLUE.	ROSE.
PURE WHITE.	DARK BLUE.	YELLOW.	VIOLET.

Price, each, 6 cents; dozen, 60 cents; per 100, \$4.50.

By mail, add 20 cents per dozen, to pay postage.

NAMED HYACINTHS.

FARQUHAR'S CHOICEST SELECTED BULBS.

Mailed Free at Single Prices.

Having visited Holland almost annually for the past twelve years, for the sole purpose of selecting our bulbs personally, we have pleasure in being able to offer our customers the largest and finest specimens produced of the respective kinds. The varieties we catalogue are the finest in cultivation.

These selected bulbs are most reliable and satisfactory for culture in pots, vases, boxes, glasses, etc. The single varieties are best adapted for growing in water, sand, or moss, and they are equally as beautiful as the double.

SINGLE RED, ROSE, AND PINK.

	Each.		Each.
Amy, carmine, large truss; fine . . .	.08	Lord Percy, new; rose striped; extra . . .	.25

COLLECTIONS OF NAMED HYACINTHS.

For the convenience of purchasers unacquainted with the best varieties, we offer the following Collections of our selection. They comprise those sorts which our experience has led us to select as the most beautiful. In ordering, please state whether the bulbs are for culture in pots or glasses.

Collection No.	1,	12 Distinct named Hyacinths for pots	\$1.00
"	"	2, 12 Distinct named Hyacinths for pots or glasses	1.50
"	"	3, 12 Choicest named Hyacinths, best exhibition sorts	2.50
"	"	4, 25 Distinct named Hyacinths; very fine	\$2.75 and 1.75
"	"	5, 50 Named Hyacinths in 8 colors, for beds, etc.	2.75
"	"	6, 50 Choice Hyacinths in 25 sorts	4.50
"	"	7, 100 Choice Hyacinths in 25 sorts	9.00
"	"	8, 100 Choice Hyacinths in 50 sorts	12.00

By mail, add 25 cents per doz., for postage.

HYACINTHS FOR EXHIBITION.

We supply specially selected bulbs of the best sorts known, and such as are invariably found in the show collections in Europe and America.

Collection No.	9,	12 Selected Hyacinths, distinct sorts; extra fine bulbs	\$2.50
"	"	10, 25 Selected Hyacinths, distinct sorts; extra fine bulbs	5.00
"	"	11, 100 Selected Hyacinths, distinct sorts; extra fine bulbs	18.00

By mail, add 25 cents per doz., for postage.

MINIATURE HYACINTHS.

Very pretty for house or flower garden; fragrant and quite hardy.

	Each.	Per Doz.	Per 100.
Fine Mixed	\$0.04	\$0.30	\$2.00
Red, Blue, or White, separate	.04	.40	2.50

By mail, add 15 cents per doz., for postage.

EARLY ROMAN HYACINTHS.

This beautiful and very valuable variety of Hyacinth is more and more used every year for forcing and house culture. If planted in September and gently forced they will bloom in November, or their flowering may be retarded by keeping in a cool place. The flowers, which are smaller than the ordinary Hyacinth, are produced very freely, each bulb throwing up several spikes of delicately scented blossoms.

In pots or pans they show to best advantage when five or more bulbs are planted in each.

	Each.	Doz.	100.		Each.	Doz.	100.
Pure White, strong flowering bulbs	\$0.04	\$0.35	\$2.50	Pure White, mammoth bulbs	\$0.08	\$0.75	\$5.00
Pure White, extra large bulbs	.05	.45	3.25	Blue	.04	.40	2.35
				Rose, or Light Pink	.04	.40	2.35

ITALIAN OR PARISIAN HYACINTHS.

Valuable for forcing, coming into bloom a little later than the Roman Hyacinth, and therefore valuable for succession. The graceful, fragrant spikes are valuable for cutting purposes.

	Each.	Per Doz.	Per 100.
Pure White	\$0.05	\$0.45	\$3.00
Pale Yellow	.08	.70	5.00

GRAPE HYACINTHS.

Perfectly hardy, very pretty, and admirably adapted for permanent beds, clumps, edges, and partially shaded situations. Height, about 5 inches.

	Each.	Per Doz.	Per 100.
Blue Grape Hyacinths	\$0.02	\$0.10	\$0.75
White	.03	.20	1.50

MUSK AND FEATHERED HYACINTHS.

Hardy, showy, early-flowering plants, with beautiful spikes of bell-shaped flowers.

	Each.	Per Doz.
Musk Hyacinth, yellow and blue; fragrant	\$0.10	\$1.25
Feathered Hyacinth, violet; in feathery plume form	.03	.25

HYACINTHUS CANDICANS.

An elegant border plant, perfectly hardy, and growing to the height of three feet. The flowers surmount the stout, central stem, and are large, white, and drooping.

Fine roots, each, 5 cents; per doz., 50 cents.

By mail, add 2 cents per bulb, for postage.

TULIPS.

All our Tulips are selected bulbs; they have no superior in size and quality.

For beauty of form and brilliancy of color, the Single and Double Tulips cast all other spring flowers into the shade. Nothing can equal, much less excel, their gorgeous appearance in Beds, Lines, Ribbons, or Groups in the spring garden, to which they impart as gay and rich an appearance as the finest of summer bedding plants. In form, they are the most perfect of all Florist's flowers, whilst their wealth of colors and the purity and variety of their markings furnish abundant evidence of their extreme beauty and effectiveness in any and every position in which they may be placed. In selfs there are the finest shades of purple, crimson, scarlet, pink, yellow, and purest whites. Of striped flowers, there are purple, violet, crimson, rose, puce, cerise, and yellow stripes on snow-white grounds, and crimson, scarlet, maroon, and red flakes and feathers on rich gold grounds. As they succeed with every one, we recommend them with the greatest confidence. In addition to using them for bedding purposes, they should be largely grown in herbaceous grounds, in shrubbery borders, etc., etc., in which a few clumps introduced at intervals have a most magical effect. In pots, also, with from 5 to 12 bulbs in each, they make fine specimens for the Greenhouse or Conservatory; force equally well with Hyacinths, and require similar treatment. For keeping up a succession of bloom, we advise alternate planting of single and double varieties, and undergrowths of Forget-me-nots, pink Silene, etc., etc., for the fine contrast they afford, and also to furnish the necessary foliage.

For out-door, plant in October and November, and even in December should the weather be open and favorable, about four to six inches apart, according to the size of the bulbs, and from four to six inches deep. The same soil, etc., as for Hyacinths will suit them well. A light covering is necessary as a protection from sharp winds. The prices at which they are offered place them within the reach of all lovers of spring flowers. All the varieties of Single Tulips force readily.

The bulbs may be lifted at the end of May and be laid in, in some reserve spot, until the foliage has ripened off, when they must be taken up, dried, and stored away in sand.

SINGLE EARLY MIXED TULIPS.

Per Doz. Per 100. Per 1,000.

Farquhar's Rainbow Mixture. This mixture is unrivalled, and we unhesitatingly recommend it as excelling in the fine quality of the bulbs, and in the magnificent brilliancy and endless variety of the colors. All the charming shades of color, embracing white and yellow, are included. All the bulbs flower nearly at the same time, and are about the same height. For massing and out-of-door effects our Rainbow Mixture is quite unsurpassed.

No Tulips offered are superior to these in size and fine quality

Superfine Single Early Tulips. Very superior grade in endless variety; selected bulbs

NEW DARWIN TULIPS.

This newly introduced race of late flowering single tulips has created a great deal of interest in Europe. The flowers are single, of very elegant form, and of many fine shades. They are mostly of one color and are borne on tall, stout stems. They begin to bloom after other tulips have disappeared, and continue attractive for a long time. They are not suitable for forcing, but are destined to be extensively grown for bedding, massing, and planting in clumps in garden borders, etc. They have been enthusiastically written about by the horticultural press and were awarded the Grand Gold Medal in Paris.

Chionodoxa Lucillæ.

Colchicum.

COLCHICUM.

These lovely hardy little flowers spring into bloom, as if by magic, in September. The leaves appear in spring and the flowers, which are of a variety of colors, greatly resemble the crocus.

	Each.	Per Doz.	Per 100.
Autumnale, mixed colors	\$0.05	\$0.45	\$3.00
Autumnale alba, pure white	.10	1.00	6.00

CHINESE NARCISSUS OR SACRED LILY.
NEW YEAR'S LILY.

This is a beautiful and interesting variety of *Narcissus Tazetta*. It was introduced in Boston a short time ago by the Chinese, who grow and flower it admirably in their shop windows. It is very easily grown in water, and if set in the centre of a shallow dish, with small pieces of marble or stones, the roots will form a beautiful net work, and the bulb will flower freely. One bulb we grew had ninety-seven expanded flowers at one time. The flowers are yellow and white. Very attractive and excellent for window culture.

We offer the true Chinese-grown variety.

	Each.	Per Doz.
Fine large bulbs	\$0.10	\$1.00
Extra large bulbs	.15	1.50

By mail, add 6 cents each for postage.

CONVALLARIA. (See Lily-of-the-Valley.)

CRINUM.

Handsone Amaryllis-like bulbous plants for the greenhouse or window. The flowers are carried on stout stems, and continue beautiful for weeks. The bulbs are ready in November.

	Each.	By Mail.
Crinum, mixed, fine bulbs	\$0.30	\$0.40
Crinum Kirkii, flowers very large and remarkably beautiful; petals white with purple stripe	.90	1.00

CROCUS.

This favorite of the garden is one of the earliest to flower in spring, often displaying its bright and lovely blossoms early in March. Plant the bulbs two or three inches deep; they are hardy, and may remain in the same ground undisturbed for many years.

SPLENDID, LARGE NAMED CROCUS.

For Beds, Borders, Lawns and Pot Culture; large, picked bulbs of finest quality.

EUCHARIS AMAZONICA. LILY OF THE AMAZON.

Superb hot-house plant with large, perfectly pure white, fragrant, waxy flowers. They should be grown in a compost of loam, leaf mould, sand, and rotted manure; water freely, giving liquid manure once a week. Each, \$1.00.

FREESIAS.

The Freesia is one of the most popular and valuable early spring flowers, either for pot culture or in the house or greenhouse; also for florist's use. Should be planted early, from six to eight bulbs in a six-inch pot; use sandy loam with a mixture of decomposed cow manure. The flowers somewhat resemble a small tuberose, and are delicately fragrant.

As this beautiful flower is very easily cultivated, we recommend free planting for both window and greenhouse.

	Each.	Doz.	100.

Susiana, bluish ground tinted with brown, very fine	.15	1.75
Tuberosa (<i>Snake's Head Iris</i>), rich, velvety black and green flowers	.06	.60

IXIAS.

Beautiful, gayly colored flowers, exceedingly well suited for frame and greenhouse culture, where they readily yield an abundance of rich flowers in the brightest colors. Charming in bouquets. Plant several bulbs in a six-inch pot, and treat the same as *Hyacinths*.

	Each.	Doz.
Finest mixed sorts	\$0.03	\$0.20
Finest named	.05	.35
Crateroides major, true scarlet, extra fine	.03	.25
Viridiflora, green with black eye; striking	.05	.50

JONQUILS.

Most excellent for early blooming; charming large golden and deliciously odoriferous flowers, freely produced; of the finest effect either in garden, greenhouse, or conservatory. May be successfully grown by everyone. These are delightfully fragrant and charming flowers, and excellent for early blooming. They are species of the *Narcissus* tribe, and possess many points of similarity with the small-flowered section of that large genus. Very attractive flowers for pot culture. In common with other *Narcissi*, they prefer a rich, loamy, and porous soil, and when grown in pots may receive precisely the same treatment as that to which *Hyacinths* are subjected.

	Each.	Doz.	100
Large Double Sweet-scented, fine yellow	\$0.05	\$0.50	\$3.00
Large Double Sweet-scented, extra large bulbs	.06	.70	5.00
Single Sweet-scented, yellow	.03	.25	1.40
Campernelle, single, yellow, large	.03	.25	1.40

LILIUM LONGIFLORUM.

This is one of the best varieties for forcing, and equally desirable for out-of doors, being perfectly hardy. It resembles the *Lilium Harrisii*, but is dwarfer and more stocky in habit.

	Each.	Per Doz.	Per 100.
First Size Bulbs	\$0.10	\$1.00	\$7.00
Extra Size Bulbs	.15	1.50	12.00
Mammoth Bulbs	.30	3.00	20.00

Mailed free at single prices.

LILIUM CANDIDUM.**THE ASCENSION LILY.**

Pure white, very free flowering and beautiful. Perfectly hardy in the open garden, and invaluable for forcing.

Our bulbs are the true variety, with massive petals.

	Each.	Per Doz.	Per 100.
Large Flowering Bulbs	\$0.08	\$0.70	\$4.00
By mail, add 2 cents per bulb for postage.			

Monstrous Bulbs. Northern Grown	.10	1.00	6.00
By mail, add 4 cents per bulb for postage.

Lilium Candidum.

LILIES.**FOR THE GARDEN, ETC.**

No class of plants capable of being cultivated out-of-doors possesses so many charms as the Lily; rich and varied in color, stately and handsome in habit, profuse in variety, and of delicious fragrance, they stand prominently out from all other hardy plants, and no herbaceous border, however select, should be without a few of the best sorts. With a well-selected collection, Lilies may be had in bloom from June to October.

They should be planted from October to March, in good, loamy soil, abundantly mixed with very rotten cow manure. Plant about six inches deep, and during the winter it is advisable to cover the surface of the bed with a thin layer of manure, which will not only afford a slight protection to the bulbs, but will materially enrich the soil. In spring the manure may either be removed or dug in between the rows.

Nearly all of them are deliciously fragrant, and the cut flowers are the most excellent for the table, bouquet vases, and glasses, the flowers being very lasting, and opening full to the last bud in water.

Lilium Auratum.

	Each.	Per Doz.
Auratum, Golden Rayed Japan Lily. The most magnificent hardy flowering bulb in cultivation	\$0.20	\$2.00
Auratum, extra; largest sized bulbs	.30	3.00

By mail, postage paid, at price of single bulbs.		

LILY-OF-THE-VALLEY.

CONVALLARIA.

This deliciously fragrant and lovely flower is a favorite with everyone. It is hardy, and does well in any soil not too dry. When forced, the roots must be firmly planted, and the flowering crowns well covered with soil or moss at first.

The roots we offer are very strong, and every pip is selected. They will be found very early and sure in flowering. We sell large quantities, and are in a position to give very satisfactory pips. They are ready for delivery in November.

	Doz.	Per 100.
Finest Flowering Pips , imported	\$0.25	\$1.50

	Each.	Doz.
Large Strong Clumps , imported, containing a number of flowering pips	\$0.30	\$3.50

Clumps by mail, 10 cents each extra.

Lily-of-the-Valley.

MADEIRA VINES.

	Each.	Per Doz.
Rapid and beautiful climber, with fragrant yellow flowers; excellent for window culture during winter or spring	\$0.06	\$0.60

MILLA BIFLORA.

	Each.	Per Doz.
A dwarf and charming summer-flowering bulb; flowers white, star-shaped. It is not hardy, but of easy cultivation in house or greenhouse	\$0.06	\$0.70

MONTBRETIAS. FIRE LILIES.

Very showy and free flowering border plants which stand the winter if well mulched. They bear long spikes of star-shaped flowers which continue beautiful for several weeks in summer.

	Each.	Per Doz.

Pottsii , bright orange with red; splendid	.05	.60
Fine Seedlings , mixed colors	.15	1.25

NARCISSUS.

The *Narcissus* is a very fine genus of early blooming plants including the Daffodil and Poet's *Narcissus*. Most of the varieties are perfectly hardy, and may be planted like the Hyacinth. Do well in nearly any soil, and are very effective when planted in groups and lines; with a little extra care in providing an undergrowth of Anemones, Scillas, blue *Myosotis*, pink *Silene*, or other dwarf spring flower, the effect is truly magnificent. Yields an endless amount of cut bloom when flowers are scarce, and being hardy, with no trouble. The finest sorts are not excelled in size, chasteness, purity, or intrinsic beauty, and most of them are adapted for pot culture as well as the Jonquils. We recommend gardeners and amateurs alike to grow at least a few of all varieties.

For Forcing, almost all the varieties are suitable. The best and most commonly used for conservatory and house culture are the **Bicolors**, **Trumpet Major**, **Bulbocodium**, **Von Sion**, and **Single** and **Double Poeticus** varieties.

Our Assortment of *Narcissus* is not surpassed in the United States for variety and excellence.

Mailed free at Single and Dozen prices.

Single Narcissus.

	Each.	Per Doz.	Per 100.
Abscissus (<i>Muticus</i>). A Trumpet Daffodil with sulphur petals and deep yellow, long, narrow trumpet. Late	\$0.03	\$0.35	\$2.50

Crocata type, orange, scarlet and other beautiful colors	.05	.30	Fine Mixed	.03	.30

TIGRIDIA.**SHELL OR TIGER FLOWER.**

These singular plants have few equals among bulbs for garden display, when we consider their ease of culture, the length of time they are in flower, and their magnificent colors. During winter the bulbs should be stored in a dry room beyond the reach of frost. In April they should be set out in the garden six inches deep.

	Each.	Per Doz.	Per 100.
Conchiflora . Deep yellow, crimson spotted	\$0.05	\$0.35	\$2.50
Grandiflora . Bright orange red; large	.05	.35	2.50
Grandiflora Alba . White, crimson-spotted cup	.05	.35	2.50

TROPÆOLUM.

These old favorites are very beautiful when well grown. As climbers for window or conservatory, they are charming.

	Each.
Tropæolum Tricolorum , scarlet and black	\$0.12
“ Jaratti , bright scarlet and yellow	.12
“ Pentaphyllum , scarlet and green	.35
“ Polyphyllum , fine deep yellow.	.40

TUBEROSES.

We make a specialty of these, having our bulbs grown annually, in large quantities, on contract; planted, cultivated, and dried in the most careful manner, thus securing sound bulbs that have never failed of giving excellent results.

All our Tuberoles are northern grown, and are harder, more productive of large blooms, and of finer habit than southern bulbs.

	Each.	Doz.	100.

*Double Pearl Tuberose.***VIOLETS.**

Marie Louise. The well-known double dark-blue fragrant Violet. This is an admirable variety for winter culture, producing its delightful blossoms continuously almost from the time of setting the plants.

Plants, each, 20 cents; per doz. \$2.00. By mail, add 5 cents each for postage.

WINTER ACONITE. ERANTHIS HYEMALIS.

	Per Doz.	Per 100.
Very fine dwarf yellow, earliest spring flower; makes a pretty edging plant; hardy and easily grown	\$0.20	\$1.25

C. L. ALLEN'S NEW BOOK ON BULBS.

Handsomely Illustrated, Cloth, 12mo. Price, post-paid, \$2.00.

This is the most practical, inexpensive work on Bulbs and Tuberous-rooted plants we have seen. It gives their history, description, methods of propagation, and complete directions for their successful culture in the garden, dwelling, and greenhouse.

Tall Glass.

15 cents each; \$1.75 Doz.

HYACINTH GLASSES.

Hyacinths grown in glasses are beautiful and interesting, from the first appearance of the long, white, waxy roots of the bulb, until the lovely flower-spikes have faded. They are objects of so much interest, and afford so much pleasure to the family circle for months, at a nominal expense, that we urge upon our friends to start, at least, a few for window decoration.

Tye's Low Pattern Glass.

20 cents each; \$2.00 Doz.

HYACINTH OR BULB POTS.

These are made specially long, so as to allow the roots of the Hyacinth to develop naturally and fully.

POTTING SOIL FOR BULBS, ETC.

We prepare a soil specially for Bulbs which will be found very satisfactory. It is composed of Leaf Mould, Peat, Loam, Sand, and a sufficient amount of Fertilizer. Per peck, 30 cents; per bushel, \$1.00; barrel, \$2.00.

LEAF MOULD FOR PLANTS, ETC.

This valuable soil is essential to success in the growth of many bulbs and plants. We offer a **Leaf Mould** of very superior quality. Per peck, 30 cents; per bushel, \$1.00; barrel, \$2.00.

ROTTED FIBROUS PEAT.

This material is valuable for mixing with other soils for many kinds of bulbs, orchids, and other plants. It is the best peat offered, and is in excellent condition.

Per peck, 30 cents; per bushel, \$1.00; barrel, \$2.00.

SPHAGNUM MOSS.

We furnish a moss of excellent quality for the gardener's use. At most seasons we can supply it freshly gathered or dried.

Per peck, 30 cents; per bushel, \$1.00; barrel, \$1.50.

PULVERIZED SHEEP MANURE.

The best manure for potting, top dressing, etc. This material has been recognized from time immemorial as the **richest Natural Manure**. It gives better and more lasting results than any Artificial manure. It is a pure natural manure reduced to a fine condition by pulverizing. It is quicker in action than guano, and its results are more stimulating, lasting, and healthful.

For Mixing with Soil, — take one part manure to eight parts soil, and mix thoroughly.

For Making a Liquid, — take one pound of manure to five gallons of water; mix thoroughly, and after settling, the liquid may be used daily.

For Lawn Top Dressing, — use at the rate of 500 pounds per acre.

Price, per original bag of 100 lbs., \$3.00; 50 lbs., \$1.75; 10 lbs., 50 cents; 4 lbs., 25 cents; 1 lb., 10 cents; 1 lb., by mail, 25 cents.

FERTILIZERS.**FOR FALL TOP-DRESSING, ETC.**

Complete Animal Fertilizer. For Gardens and Lawns most excellent, being a plant food of lasting properties.

Price, in bags, 2½ cents per pound. Per ton, \$38.00.

Price, in neat boxes, 10 lb. box, 50 cents; 25 lb. box, \$1.00; 50 lb. box, \$1.50; 100 lb. box, \$2.75.

Pure, Fine Ground Bone. This is being more generally used every year, and is one of the best fertilizers.

Price, in bags or barrels, 2 cents per pound. Per ton, \$35.00.

Price, in neat boxes, 10 lb. box, 50 cents; 25 lb. box, \$1.00; 50 lb. box, \$1.50; 100 lb. box, \$2.50; barrel, \$4.50.

Grape or Inch Bone. The best fertilizer for grape vines, fruit trees, shrubs, and trees. Should be used at setting out, mixed with the soil to the depth of a foot or more.

Price, in bags or barrels, 2½ cents per pound. Per ton, \$36.00.

Flour of Bone. Made from selected bone, powdered very finely. The results of the application to crops of this new, finely-powdered bone, are almost marvellous.

Price, per 100 lbs., \$3.00; barrel, \$5.00, ton, \$40.00.

Lawn Dressing. Far superior to lumpy straw manure, which disfigures the lawn, and is full of weed seeds. *Price*, trial bags for 1,000 square feet, 50 cents; bag for 2,500 square feet, \$1.00; fifty pounds, for 5,000 square feet, \$1.75; one hundred pounds, for one-fourth acre, \$3.00.

CANADIAN UNLEACHED WOOD-ASHES.

As a fertilizer for lawns, gardens, and fruits, hardwood ashes are unequalled. *Price*, per barrel, \$2.50. *Price* per ton, \$18.00.

FERTILIZERS FOR POT PLANTS.

Bowker's Ammoniated Flower Food. A clean, dry powder, soluble in water, rich in ammonia; and one of the best Flower Foods known. **Trial Package**, sufficient for 20 plants for three months, 15 cents; by mail, 25 cents. **Package** sufficient for 20 plants for one year, 25 cents; by mail, 50 cents.

Darling's Flower Grower. Excellent fertilizer, quickly producing healthy, luxuriant plants, and blossoms of rich color. Per box, 25 cents.

FARQUHAR'S EVERGREEN LAWN GRASS SEEDS.

EXTRA CLEAN, PURE, FRESH, AND TESTED.

We make a specialty of Grass Seeds, and send out only such as will meet the views of the most critical.

Our mixture of Grasses for Lawns is celebrated throughout New England as producing a most perfect, rich, deep-green sward from early spring till late in fall. *The varieties are specially selected, tested, and blended by our Mr. James Farquhar, for many years Superintending Gardener at Forest Hills Cemetery, Boston, where the lawns are one of the most beautiful and noted features.* As a result of our care in invariably furnishing clean, pure, fresh Lawn Seed, our trade in this specialty is enormous. We annually furnish seed for the parks and gardens of Boston, and ship large quantities to Newport and other summer resorts.

Per Bu. Per Pk. Per Qt.

MUSHROOM SPAWN—NEW AND FRESH.

FARQUHAR'S "SPECIAL" IMPORTED MUSHROOM SPAWN.

*Made expressly for R. & J. Farquhar & Co., by the most successful
Mushroom Specialist in England.*

When in Europe we ascertained that the leading English growers almost invariably purchased their Mushroom Spawn of a noted manufacturer whose spawn *never failed* under proper conditions. We imported a trial lot of forty bushels, and all our customers who used it were much pleased, the mushrooms coming early, very plentifully, and of fine form. We have arranged for a regular supply of the same fine quality. Our friends may rely on its freshness, as we import four times a year. In quality and productiveness there is no spawn made to equal it.

In Bricks, per pound, 12 cents; 100 pounds, \$10.00.

NEW FIBRE HOT-BED MAT.

MOUSE PROOF; ROT PROOF; ALMOST INDESTRUCTIBLE.

The new Singapore Fibre Mat for Hot-beds, will be hailed with pleasure by all gardeners and florists. It is very firmly put together, and weighs about thirty-two pounds. It is very much more durable than anything that has yet been introduced for this purpose, and its effectiveness as a frost resister is of the highest order. Size, 6 x 6 ft., each, \$2.00.

STRAW MATS FOR HOT-BEDS.

Made by hand from fresh rye straw; thick, and well put together. Excellent protection from frost. All our mats are very carefully and firmly made, being tied with the finest quality of twisted, tarred marline. Special price given for large lots. Odd sizes made to order at very reasonable prices. Regular size, 6 x 6 ft., each \$1.50. Extra heavy, \$2.00.

SASHES FOR HOT-BEDS.

These are well made from thoroughly seasoned lumber, and glazed. Frame, 1½-inch, 3 x 6 feet, \$2.25; 1¾-inch, 3 x 6 feet, \$2.40. Unglazed and unpainted sashes, each, \$1.15 to \$1.35.

INSECT DESTROYERS.

- Little's Antipest.** A cheap, harmless, and effective insecticide. It is sure death to green fly, thrip, mealy bug, red spider, ants, wire worms, slugs, etc. Pint, 60 cents; quart, \$1.00; two quarts, \$1.50; gallon, \$2.50.
- Tobacco Stems.** For fumigating. Invaluable also as a mulch for Rose beds, Lettuce beds, etc. Per barrel, \$1.00; small crate, \$3.00; medium sized crate, \$4.00; large crate, \$5.00. All packages hard packed.
- Tobacco Soap. Rose's Perfected.** The most effective soap against green fly, red spider, lice, and eggs of insects. In tin boxes, with directions, sufficient for five gallons of water, 25 cents; by mail, 38 cents.
- Tobacco Flour and Sulphur.** Very finely pulverized and mixed. Per pound, 10 cents; ten pounds, 75 cents; 100 pounds, \$6.00.
- Tobacco Dust.** Cheaper than snuff, and quite as effectual. A sure remedy for green fly. 5-lb. package, 40 cents; 100 lbs., \$6.00.
- Persian Insect Powder.** One of the best insecticides. Per pound, 50 cents.
- Pure Flour of Sulphur.** Prevents and cures mildew on roses. Per pound, 8 cents.
- J. L. Virgin Sulphur.** Most effective for mildew. Per pound, 10 cents.
- Gishurst's Compound.** A famous English preparation for destroying red spider, mealy bug, thrip, etc. In boxes. Price, 60 cents; by mail, 80 cents.
- Soluble Fir-Tree Oil.** For destroying all insects that infest plants. Directions with each package. Price, one-half pint, 50 cents; one pint, 75 cents; one quart, \$1.25.

SOMETHING NEW.

THE FARQUHAR VIOLET.

.....

THE FINEST VARIETY IN CULTIVATION. VERY LARGE AND PERFECT DOUBLE FLOWERS. REMARKABLY PRODUCTIVE. EXQUISITELY FRAGRANT, AND OF HARDY CONSTITUTION.

WE HAVE PLEASURE IN OFFERING TO OUR FRIENDS THIS FINE *NEW VIOLET*, WHICH WE HAVE GROWN SUFFICIENTLY LONG TO TEST FULLY. WE CAN RECOMMEND IT WITH EVERY CONFIDENCE.

THE *FARQUHAR VIOLET* IS OF HEALTHY AND VIGOROUS HABIT OF GROWTH; PRODUCING IN GREAT ABUNDANCE ITS BEAUTIFUL DARK-BLUE FLOWERS, OF A SIZE AND SUBSTANCE FAR IN ADVANCE OF ANY VARIETY NOW IN CULTIVATION. WE RECOMMEND IT TO EVERY ONE WHO GROWS THIS POPULAR FLOWER, WHETHER FOR PROFIT OR PLEASURE.

THE OPINIONS OF SOME OF THE BEST FLOWER JUDGES IN THIS VICINITY ARE APPENDED; THESE GENTLEMEN HAVE IN MOST CASES SEEN THE VIOLET GROWING IN OUR GREEN HOUSES, AND ARE THEREFORE ABLE TO JUDGE OF ITS MERITS.

PLEASE READ THE FOLLOWING:

MR. DENYS ZIRNGIEBEL, Needham, Mass., under date of July 21st, 1894, says: "Without question the *Best Violet I ever saw*, and I have seen many; and such a healthy constitution too! Let me know when ready to send out."

THE EDITOR OF "GARDENING" March 1st, '94, says: "Mr. James Farquhar, of R. & J. Farquhar & Co., the Seedsman of Boston, exhibited a bunch of uncommonly fine double violets before the Massachusetts Horticultural Society, on the 17th ult. The flowers were fully larger than those of Lady Hume Campbell which were staged alongside of the new variety for comparison's sake, and very much darker; they were also deliciously fragrant. Mr. Farquhar claims for it an extra strong constitution and blooming well under difficulties the common violets do not easily surmount."

MR. ROBERT CAMERON, SUPT. OF HARVARD UNIVERSITY BOTANIC GARDENS, writes: "Dear Mr. Farquhar, — Your new violet, as I have seen it, is a very robust grower, and produces in great profusion very large flowers, upon extra long, stout stems. The flowers are of good color and deliciously fragrant. It has a much harder nature than 'Marie Louise', both grown in the same bench, your new violet is more robust and produces more flowers."

MR. KENNETH FINLAYSON, writes: "I was fortunate enough to be in Horticultural Hall at the first exhibit of your new violet. I was so captivated with its superior excellence in regard to size of flower and its deep blue color, that, if it keeps true to itself in the future in all particulars, I am inclined to think, it will have no rival. I regret that I could not partake of your kind invitation to visit your place and criticise of its other meritorious qualities. I take it for granted however without seeing it that it is not lacking in robustness, for no weakly plants could produce flowers as superb as I saw."

Brookline, July 9th, 1894.

MR. ELIJAH CARTWRIGHT, of Wellesley, writes: "I understand that you are going to introduce that new violet of yours this fall. I consider it in size, color, and all other points, the best violets I have seen. Please send me price list when made out."

June 4, 1894.

MR. GEORGE A. SUTHERLAND, the well-known Florist, Bromfield St., Boston, says: "I have pleasure in certifying that I have carefully compared the new *Farquhar Violet* with *Lady Hume Campbell* and *Marie Louise*, growing side by side. The two latter were badly diseased, while the *Farquhar* was perfectly healthy, with fine foliage and an abundance of large and beautiful bloom. It is the finest *Violet* I have ever seen, and is sure to displace all other varieties when known."

Price of Strong Flowering Plants.

PER DOZEN, \$6.00;

EACH, 60 CENTS.

By Mail 10 Cents Each Extra.

PLANTS WILL BE DISTRIBUTED AFTER SEPTEMBER 15th, 1894.

As our Stock of Plants is Quite Limited, Orders will be Filled in Rotation to the Extent of Stock.

FOLDING WIRE PLANT STAND.

Each.

3 shelf stand (see cut)	\$4.00
2 shelf stand	3.00

These are made of wire, neatly painted green and bronzed, and have strong castors. When not in use the parts can be folded together, so the stand can be hung on a hook in a small closet if desired.

COMMON WIRE PLANT STANDS.

Neatly and strongly made, mounted on castors, and painted beautifully. Elegant for conservatory or parlor.

- No. 1. — ORB LONG STAND, 24 in. high, 30 in. long, 9½ in. wide, \$2.50.
- No. 2. — SQUARE STAND, with 2 shelves; 33 in. high, 18 in. deep, 33 in. long, \$3.25.
- No. 3. — SQUARE STAND, 3 shelves; 36 in. high, 24 in. deep, 33 in. long, \$4.00.
- No. 4. — SEMI-CIRCULAR STAND, 3 shelves; 36 in. high, 26 in. deep, \$4.75.

WOOD PLANT STANDS.

Made of ash and pine, of various sizes and patterns; prices from \$1.00 to \$3.00 each.

HITCHINGS' PATENT HOT WATER BOILERS.

Customers requiring boilers, or contemplating changes in their heating apparatus, are invited to get our prices before placing orders with other manufacturers than Messrs. Hitchings.

Our Complete Seed Catalogue for the Coming Year will be Mailed Free on Application.

PINK-FLOWERING LILY OF THE VALLEY.

DELICIOUSLY FRAGRANT, PERFECTLY HARDY, FREE-BLOOMING.

This is a most beautiful specialty, and will do well in any garden. It is hardier, if possible, than the white variety, and is much more profuse in blooming. In bouquets it is charming, as the spikes of pretty pink bells are strikingly attractive.

Price, 4 for 25c.; per dozen, 60c.; per 100, \$4.00; postage paid.

THE BERMUDA BUTTERCUP OXALIS.

AN UNRIVALLED WINTER FLOWERING POT PLANT OF THE EASIEST CULTURE.

This is not strictly a new plant, but a greatly improved selection from *Oxalis Cernua*, grown in Bermuda until the bulbs have attained great strength, producing plants and flowers larger and more luxuriant in all parts than the type.

It is a most useful plant for pot culture, and is such a strong grower that one bulb will be sufficient for a 6 or 8-inch pot. Place in a cool, dark position for a few weeks to root thoroughly, and remove to a sunny situation in the window or conservatory, in a temperature of about 60°, and it will then bloom in uninterrupted abundance for weeks.

The flowers are a bright buttercup yellow, and well grown plants have produced as many as seventy flower stems at one time. The flowers, and frequently the leaves, fold up at night and open again in the morning, but when grown in a partially shaded position the flowers will remain open.

Imported roots, each, 10c.; per dozen, \$1.00; postage paid.

JONQUIL ODORUS RUGILOSUS.

NEW LARGE-FLOWERING FRAGRANT JONQUIL.

This fine addition is desirable for culture indoors or out, being quite hardy. It is larger and more attractive than any of the Jonquils hitherto grown.

Price, 4 for 15c.; per dozen, 40c.; by mail post-paid. Per 100, \$2.00.

Francis' Improved Glaziers' Points.

Made from brass, and can be used either right or left. When in position they leave a smooth finish to paint on, and are as easily driven as tacks.

Letter C shows the point as sold; letter D represents it bent; letters A and B when in position. Price per box of 1,000, 50c.; by mail, 62c.

When in want of GREENHOUSE FUMIGATORS, RUBBER HOSE, GREENHOUSE SYRINGES, HOSE NOZZLES, WATERING POTS, Etc., please send for list. We carry a stock of best quality goods at most reasonable prices.
