FRUIT DEPARTMENT

BERRY PLANTS

Blackberries

MACDONALD

A cross between Blackberry and Dewberry; a fine early bearer.

Dewberries

ROGER'S

Season about April; one of the earliest.

Hauptberry

Bears very large, sweet, luscious berries.

Prices for the above three varieties:

\$1.00 per 10.....\$5.00 per 100.....\$30.00 per 1000

Strawberry

KLONDYKE

The most popular Strawberry for the Gulf Coast Country.

MISSIONARY

One of the best berries in the Southern States.

\$1.25 per 100.....\$5.00 per 500.....\$8.00 per 1000

CITRUS FRUITS

Oranges

SATSUMA

The hardiest orange known. Tree is thornless; fruit seedless.
Season, October to December.

Grapefruits

MARSH SEEDLESS

Almost seedless. Very popular on that account.

Lemons

PONDEROSA (So-called American Wonder)

Fruit very large, often weighing 3 to 4 pounds.

MYERS

The hardiest variety, introduced from China by the late Mr. Myers of the United States Department of Agriculture. It will stand frost as well as the grapefruit and is a heavy bearer. Fruit large and superior in quality.

Prices for Oranges, Grapefruits and Lemons:

1½-2 ft., B/B.....	\$1.00 ea.
2-2½ ft., B/B.....	1.25 ea.
2½-3 ft., B/B.....	1.50 ea.
3-4 ft., B/B.....	\$2.00 to 2.50 ea.

Larger specimen trees on application.

Kumquats

NEIWA

The best of all Kumquats to eat raw and to preserve. Very prolific and hardy.

15-18 in. B/B with fruits	\$1.25 ea.
18-24 in. B/B with fruits	1.50 ea.
12-15 in. B/B without fruits	.75 ea.
12-15 in. N/B	.50 ea.

Choice specimen trees with fruits on application.

DECIDUOUS FRUITS

Apple

✓ BECKER

A summer apple, one of the few varieties that succeed in South-western Texas.

Large specimen trees only.....\$2.00 to \$2.50 ea.

Figs

MAGNOLIA

The most popular fig planted by commercial growers.

CELESTE

Sometimes called "Little Sugar Fig." Sweetest and earliest of all. Season, June and July.

GREEN ISCHIA

Fruits of medium size; flesh, rosy-red. Very sweet when well matured. Tree a very vigorous grower.

1-1½ ft.	25c ea.	\$2.00 per 10
1½-2 ft.	30c ea.	2.50 per 10
2-3 ft.	40c ea.	3.50 per 10
Larger sizes	\$1.00 to \$1.50 ea.	

Grapes

CONCORD (Blue-Black)

Good table variety. Season, July.

MOORE'S EARLY

Large, black, resembling Concord, but about ten days earlier.

NIAGARA

Large, white, market variety. Does well in our section. Season, early July.

SCUPPERNONG

A muscadine grape, native to the South. Well known for its jellies, preserves and juice. Four to six large berries make a cluster.

1 year	30c ea.	\$2.50 per 10
2 year	50c ea.	4.50 per 10

Japanese Persimmons

HACHIYA

Almost seedless, very large and oblong. One of the largest and handsomest.

TANE-NASHI

Seedless, large, early ripening and productive. One of the best.

TOMOPAN

Chinese origin, large, flattened and seedless. Good bearer.

2-3 ft.	\$.50 ea.
3-4 ft.	.75 ea.
4-5 ft.	1.00 ea.
5-6 ft.	1.25 ea.

Large sizes on application.

Jujube

(Zizyphus)

CHINESE JUJUBE

The tree is very hardy, resembling Prickly Ash. Fruit is chocolate-colored, of apple-texture.

75c to \$1.00 each

Mulberries

ENGLISH

Large berries, April and May. Will serve also as shade trees.

HICK'S EVERBEARING MULBERRY

April to July. Poultryman's favorite.

5- 6 ft.	\$.50 ea.
6- 8 ft.	\$.75 to 1.00 ea.
8-10 ft.	1.00 to 1.50 ea.

For Weeping Mulberry, see under Ornamental Trees.

Peaches

HONEY (Freestone)

Medium, white. Fine quality. Mid-June.

MAMIE ROSS

Large, cling. Early July. Prolific in the Gulf Coast.

PALLAS (Freestone)

Medium, white. Season, Mid-June.

3-4 ft.	\$.50 ea.
4-5 ft.	.60 ea.
5-6 ft.	.75 ea.

Pears

GARBER

Vigorous grower. Fruit large and firm. Season, August.

KIEFFER

Fruit large. Fine for preserving. September and October.

PINEAPPLE PEAR

Large. A good bearer and immune from pear blight. Extensively planted all over Gulf Coast States.

	Each	Ten
4-5 ft.	\$.65	\$6.00
5-6 ft.	.75	7.00
6-7 ft.	1.00	8.50

Prices of Pineapple Pears on large quantity on application.

Plums

BURBANK

Large purplish-red. One of the best for the South. Season, June to July.

HAPPINESS

Large. Quality very fine. Good bearer. Season, June.

BRUCE

Early June. Large, red. Productive.

GONZALES

Late June. Red, juicy. A fine keeper.

ADVANCE

Late May. Large, bright red. Sure bearer.

NONA

Large, bright red. High quality, good bearer. Season, July.

4-5 ft.	\$.65 ea.
5-6 ft.	.85 ea.
6 ft. up.....	1.00 ea.

Pomegranates

WONDERFUL

Handsome and desirable variety with very fine flavor.

SPANISH RUBY (Purple Seeded)

Large, bright colored fruit with deep crimson pulp. The best of subacid varieties.

3-4 ft., bushy.....	\$.75 ea.
4-5 ft., bushy.....	1.00 ea.

NUT TREES

Pecans

(Guaranteed to Live)

SCHLEY

Nut 1½ to 1⅞ inches long. Flavor rich; quality best.

STUART

Large, 1½ to 2 inches long. Heavy bearer; one of the most widely planted.

SUCCESS

A good grower and regular bearer of large nuts.

	Each	Ten
3- 4 ft.	\$.70	\$ 6.50
4- 5 ft.	.90	8.25

3-3½ ft., B/B.....	1.50
3½-4 ft., B/B.....	1.75
4-5 ft., B/B.....	2.25
5-6 ft., B/B.....	3.00

BAY TREE

(Laurus Nobilis)

See under Laurus

BAY

(Persea)

PERSEA BORBONIA or P. CAROLINENSIS

(Native Sweet Bay, Red Bay, or Bull Bay)

A handsome evergreen tree with long-pointed, aromatic leaves; a native as far north as North Carolina.

	Each
3-4 ft., B/B.....	\$1.25
4-5 ft., B/B.....	1.50
5-6 ft., B/B.....	\$2.00 to 2.75
6-8 ft., B/B.....	3.00 to 4.00

Larger specimens on application.

BIGNONIA

See under Vine

BOTTLEBRUSH

(Callistemon)

CALLISTEMON SPECIOSA (Showy Bottlebrush)

The beauty of this plant lies in its long, bright red anthers, forming a cylinder, much resembling a bottle brush in shape.

	Each
In 4 in. pot.....	\$.75

BOUGAINVILLEA

See under Vine

BOXWOOD

(Buxus)

B. SEMPERVIRENS (Common Box)

A compact, symmetrical bush with glossy, green leaves. When trimmed, is unsurpassed as specimen plant for porch or lawn decoration.

	Each
10-12 in., B/B.....	\$.75
12-15 in., B/B.....	1.00
15-18 in., B/B.....	1.25
18-24 in., B/B.....	\$1.50 to 1.75

B. SEMPERVIRENS SUFFRUTICOSA

(Dwarf Boxwood)

Very dwarf and slow grower.

	Each
6-8 in., B/B.....	\$.45
8-10 in., B/B.....	.65
10-12 in., B/B.....	.75

BUTTERFLY BUSH

(Buddleia)

B. MAGNIFICA

Flowers, purple. Very fragrant, blooming all through summer. Good garden variety.

	Each
1 yr. old.....	\$.50
2 yr. old.....	.75

B. JAPONICA

Flowers lilac with grayish outside. Hardy, grows 3 to 6 feet high. Prices same as above.

BARBADOS CHERRY

(Malpighia Glabra)

A very bushy shrub, growing about 3 to 4 feet high, covered with tiny pink flowers resembling crepe myrtle in shape, followed by red cherry-like berries in fall. Usually evergreen, but if injured by freeze shoots from roots and never misses blooms. Very satisfactory as low hedge.

	Each	Ten
10-12 in., from pot	\$.35	\$2.50
10-12 in., bushy B/B	.40	3.00
12-15 in., bushy B/B	.50	
15-18 in., bushy B/B	.75 to \$1.00	
18-24 in., bushy B/B	1.25 to 1.50	
24-30 in., bushy B/B	1.50 to 2.00	

ARTEMISIA

Advertised as "Silver King." A hardy, aromatic shrub much used in gardens for its cottony silvery foliage.

	Each
Small division	\$.35
Medium division	.50

AZALEA

AZALEA INDICA

Single flowering kind.

PHOENICIA (Omurasaki)

Flowers very large, light lavender, hardy, vigorous grower.

PRIDE OF MOBILE

Bright watermelon-pink flowers in mass; hardy, vigorous grower; One of the best single flowering variety.

	Each
8-10 in., B/B or pot.....	\$1.00
10-12 in., B/B or pot.....	1.50

HINODEGIRI (Evergreen Japanese Azalea)

Compact dwarf with mass of watermelon-red flowers in spring. Hardy as far north as coast of New Jersey.

	Each
6- 8 in., B/B or pot.....	\$.75
8-10 in., B/B or pot.....	1.50
10-12 in., B/B or pot.....	2.00

ASPIDISTRA LURIDA

See under House Plants

BARBERRY

B. TRIFOLIATA (Agarita)

A beautiful evergreen, medium sized shrub commonly called Agarita or Chaparral. The leaves sharply horned like Holly, in ashen gray, and edible red berries in spring present striking appearance. Very hardy.

B. SWASEYI (Agarita Swaseyi)

Resembling the above in all respects, except this has five to fifteen leaflets instead of three, as in B. Trifoliata.

	Each
3-4 ft., B/B.....	\$3.50 to \$5.00
4-4½ ft., B/B.....	5.00 to 7.50

CAMELLIA**C. JAPONICA**

Its handsome waxy flowers sparkling from among the lustrous deep green foliage is a sight familiar to plant lovers. The choicest plants grown from cuttings. Double red and double pink.

	Each
15-18 in., B/B.....	\$2.50
18-24 in., B/B.....	3.50
24-30 in., B/B.....	4.50
30-36 in., B/B.....	5.50

C. SASANQUA

Compact and faster growing Camellia with single flowers of white, pink or red with large yellow anthers. They bloom in October till December and are a great addition to our plant list for the South. Since they are seedlings, we are offering them in separate colors.

	Each
15-18 in., B/B.....	\$1.00
18-24 in., B/B.....	1.50

C. SASANQUA (Mine-no-yuki)

Double white, flowers pure waxy white, very double, blooming very freely from October to December. Foliage dark green and compact. Hardy and easily grown in far South.

	Each
12-15 in., In pot.....	\$.75
12-15 in., B/B.....	1.00
2-3 ft., B/B.....	3.50

C. THEA (Tea Plant)

This is a fine, ornamental tree with fragrant white flowers in winter and spring. The leaves, steamed and cured, will produce commercial tea.

	Each
12-15 in., B/B.....	\$.50
15-18 in., B/B.....	.75
18-24 in., B/B.....	1.00

CAMPHOR TREE

(Cinnamomum Camphora)

One of the fine, broad-leaved evergreen trees for the South. A rapid grower, well adapted for general planting, as shade, avenue or specimen tree, and as windbreaks.

	Each
1-1½ ft., B/B.....	\$.50
1½-2 ft., B/B.....	.75

Larger specimen on application.

CAMPSIDIUM**CAMPSIDIUM (Evergreen Bignonia)**

Evergreen shrubs with dark green leaves and with deep orange-red flowers blooming in spring and fall. Well adapted to seaside planting.

	Each
Small plant	\$.75
Specimen plant	2.00

CAPE JASMINE

(Gardenia)

GARDENIA GRANDIFLORA, GARDENIA FLORIDA (Cape Jasmine)

A bush with beautiful, glossy, dark green leaves, bearing the familiar waxy, white flowers with wonderful fragrance from May to June.

	Each
1-1½ ft., B/B.....	\$.35
1½-2 ft., B/B.....	.50
2 ft. spread, B/B.....	1.00
2½ ft. spread, B/B.....	1.50

GARDENIA RADICANS

(Dwarf Creeping Cape Jasmine)

A beautiful, compact, spreading shrub, much similar to above, but produces masses of pure white blossoms smaller in size. Rarely grows taller than one foot, but spreads three feet in diameter. Makes fine border plant and is almost indispensable for rockery in the South. Blooms all through the spring and summer.

	Each
8-10 in. spread, B/B.....	\$.75

G. STRICTA NANA (Dwarf Cape Jasmine)

Similar to G. Grandiflora except its habit is more upright and leaves are small as Gardenia Radicans. Very symmetrical. Desirable for low borders or formal gardens. Better than Boxwood, for which it may be substituted, being a fast grower and bearing very fragrant flowers besides.

	Each
10-12 in. spread.....	\$.75
12-15 in. spread.....	1.00
15-18 in. spread.....	1.25
18-21 in. spread.....	1.50

G. VEITCHI

Winter-blooming Cape Jasmine, used by florists as greenhouse plants for winter flowers. Semidwarf in growth.

	Each
8-10 in., B/B.....	\$.50
10-12 in., B/B.....	.75
12-15 in., B/B.....	1.00

CEDARS

(Cedrus)

CEDRUS DEODARA (Deodar, Indian Cedar)

A magnificent conifer of pyramidal growth introduced from the Himalayas. One of the most beautiful trees for the lawn. Thrives best on well drained soil.

	Each
1½-2 ft., B/B.....	\$1.50 to \$1.75
2-2½ ft., B/B.....	2.00 to 2.25
Specimen trees of 7 to 15 ft. on application	

CEDAR OF LEBANON (C. Libani)

	Each
4-5 ft., B/B.....	\$ 4.50
5-6 ft., B/B.....	6.00
6-7 ft., B/B.....	\$ 8.00 to 10.00
7-8 ft., B/B.....	12.00 to 15.00

Larger specimen on application.

COTONEASTER

COTONEASTER PANNOSA (Silverleaf Cotoneaster)

A shrub having oblong, grayish green, velvety leaves; flowers are white, followed by beautiful scarlet berries.

	Each
2-2½ ft. well branched, B/B.....	\$1.00
2½-3 ft. well branched, B/B.....	1.25
3-4 ft. well branched, B/B.....	1.75

CYPRESS

(Cupressus)

CUPRESSUS SEMPERVIRENS (Italian Cypress)

A tall-growing, slender tree with erect branches, the whole making a pillar of green.

2-5 ft., B/B.....	\$.50 per ft.
5-8 ft., B/B.....	.60 per ft.

Prices on larger specimen on application.

C. HORIZONTALIS (Horizontal Cypress)

A tree similar to the above but branching out almost horizontally or broadly upright. Very vigorous grower. Prices same as Italian Cypress.

C. LUSITANICA (Portuguese Cypress)

A beautiful, tall-growing tree with foliage in a striking tone of grayish-green peculiar to this species. Does not contract the burnt appearance common to the Arizona Cypress.

	Each
1-1½ ft., B/B.....	\$1.00
1½-2 ft., B/B.....	1.25
2-3 ft., B/B.....	1.50
3-4 ft., B/B.....	2.25
4-5 ft., B/B.....	3.00
5-6 ft., B/B.....	4.00

Larger specimen on application.

ELAEAGNUS

(Elaeagnus)

ELAEAGNUS PUNGENS ARGENTEA VARIEGATA
(Yellow-edge Elaeagnus)

Erect shrub with variegated leaves; flowers yellow-tinted, very fragrant; bears red berries.

	Each
1-1½ ft. bushy, B/B.....	\$1.25
1½-2 ft. bushy, B/B.....	1.50
2-2½ ft. bushy, B/B.....	1.75
2½-3 ft. bushy, B/B.....	2.00

E. PUNGENS MACULATA (Goldenleaf Elaeagnus)

With large, deep yellow blotch in the middle of leaves. Color remaining same all year around. Very beautiful shrub, not many in trade.

	Each
1½-2 ft., B/B.....	\$1.50
2-2½ ft., B/B.....	2.00
2½-3 ft., B/B.....	2.75
3-4 ft., B/B.....	3.50

E. PUNGENS REFLEXA (Bronze Elaeagnus)

A fine, drooping shrub with leaves and stems covered with frosty, shiny scales; silvery on upper surface and bronze beneath. Has long, slender branches.

	Each
2-3 ft. bushy, B/B.....	\$1.25
3-4 ft. bushy, B/B.....	1.50
4-5 ft. bushy, B/B.....	1.75

E. SIMONI (Big Leaf Elaeagnus)

Leaves rather larger with less scales beneath the leaves.

	Each
2-2½ ft., B/B.....	\$1.25
2½-3 ft., B/B.....	1.50
3-3½ ft., B/B.....	1.75

EUCALYPTUS RUDIS

One of very hardy varieties of the Eucalyptus family. Grows fast, does well in Galveston.

	Each
3-4 ft., 4 in. pot.....	\$.75 to \$1.00

EUONYMUS

(Euonymus)

EUONYMUS JAPONICA (Evergreen Burning Bush)

A handsome evergreen, compact and erect. Leaves glossy dark green throughout the year.

	Each
12-15 in., B/B	\$.50
15-18 in., B/B	.75
18-24 in., well branched	1.25
24-30 in., well branched	1.50

E. ERECTA COMPACTA

Upright, dense grower with small dark green leaves.

	Each
10-12 in., B/B.....	\$.40
12-15 in., B/B.....	.50
15-18 in., B/B.....	.75

E. JAPONICA ALBO MARGINATA

The leaves of this variety have a narrow margin of white.

	Each
18-21 in., B/B.....	\$1.00
21-24 in., B/B.....	1.25

E. JAPONICA AUREO VARIEGATA

(Yellow-mottled Euonymus)

Leaves edged and marked with creamy white or pale yellow. Slow grower but hardy. Almost immune to a common disease of Euonymus.

	Each
10-12 in., B/B.....	\$.50
12-15 in., B/B.....	.75
15-18 in., B/B.....	1.00
18-24 in., B/B.....	1.25

E. PULCHELLA (Small-leaved Euonymus)

One foot. A dwarf form of E. with small, dark green foliage. Fine for low hedge.

	Each
2 in. pot.....	\$.15
3 in. pot.....	.25

E. SIEBOLDI

Semiclimbing or creeping Euonymus with medium dark green leaves.

	Each
10-12 in. spread, B/B.....	\$.50
12-15 in. spread, B/B.....	.65
15-18 in. spread, B/B.....	.75

E. PATENS (Winter Creeper)

Same as above, but small, bright green leaves; makes fine ground cover in semishady situation.

	Each
18-21 in. spread, B/B.....	\$1.00
21-24 in. spread, B/B.....	1.25
24-30 in. spread, B/B.....	1.50

E. VIRIDIVARIEGATA (Duc d'Anjou Burning Bush)

Leaves are dark green with pale yellow blotches in the center.

	Each
12-15 in. spread.....	\$.50
15-18 in. spread.....	.75

ENGLISH CHERRY-LAUREL

(Laurocerasus Officinalis)

Small tree, reaching ten feet, with handsome evergreen foliage; leaves thick and glossy and flowers white in short racemes in spring. The most popular evergreen plants in Southern Europe. In the following varieties:

L. ANGUSTIFOLIA

With leaves very long and narrow; plant hardy as far north as Washington, D. C.

L. ROTUNDIFOLIA

With short, blunt leaves.

	Each
2-2½ ft., B/B.....	\$2.00 to \$2.50
2½-3 ft., B/B.....	2.50 to 3.00
3-4 ft., B/B.....	3.50 to 5.00

L. LATIFOLIA

With larger and thicker leaves, hardy.

	Each
10-12 in., B/B.....	\$.75

For other Laurels, see page 19.

GUAVA

PINEAPPLE GUAVA (Feijoa Sellowiana)

The leaves are glossy-green with velvety growth beneath. Purple-white flowers are conspicuous and attractive. The taste of the fruit reminds one of pineapple and guava combined. Hardy and easy of culture.

	Each
15-18 in., B/B.....	\$1.00
18-24 in., B/B.....	1.25

Prices of larger sizes on application.

GUAVA

(Psidium)

See under Fruit Trees

FIRETHORN

(Pyracantha or Crataegus)

or

EVERGREEN HAWTHORN

PYRACANTHA YUNNANENSIS

Its dark green leaves and mass of red berries present a very striking aspect in fall and winter.

	Each
2-2½ ft., B/B.....	\$1.50
2½-3 ft., B/B.....	1.75
3-4 ft., B/B.....	2.25

P. COCCINEA LALANDI (Laland Firethorn)

Of spreading habit. Bears clusters of white blooms in the spring followed by orange-red berries in the fall.

	Each
18-21 in., B/B.....	\$1.00
21-24 in., B/B.....	1.25
24-30 in., B/B.....	1.50
30-36 in., B/B.....	1.75

P. CRENULATA

This variety has the reddest berries of all Pyracantha. The leaves are long and narrow, glossy green.

	Each
12-15 in., B/B.....	\$1.00
15-18 in., B/B.....	1.25
18-24 in., B/B.....	1.50
24-30 in., B/B.....	1.75

P. FORMOSANA

Eight feet. With very small leaves of dark green color, and a solid mass of brilliant red berries in fall and winter.

	Each
15-18 in., B/B.....	\$1.00
18-24 in., B/B.....	1.25
3½-4 ft., B/B.....	\$3.00 to 3.50

HIBISCUS

HIBISCUS ROSA-SINENSIS (Chinese Hibiscus)

Shrubs with large, bright green leaves and gorgeous flowers of many pleasing colors. We carry them in double pink, double red,

single red, single pink, double peachblow, etc. During winter, they can be supplied only in pots.

	Each
4 in. pot.....	\$.50
5 in. pot.....	.75
6 in. pot.....	1.00
7 in. pot.....	1.25
8 in. pot.....	1.50

Prices of B/B plants during summer on application.

HOLLY

(Ilex)

ILEX AQUIFOLIUM (English Holly)

A tree with short, spreading branches; leaves dark, shining green with strong thorns; bears berries of beautiful scarlet.

	Each
12-15 in., B/B.....	\$1.00
15-18 in., B/B.....	1.25
18-21 in., B/B.....	1.50
21-24 in., B/B.....	1.75

ILEX CORNUTA (Chinese Holly)

Shrubby in habit; branches spreading; foliage of glossy green; bears clusters of scarlet berries. Very hardy, resists both heat and cold. Newly introduced by the United States Department of Agriculture.

	Each
10-12 in., B/B.....	\$.75
12-15 in., B/B.....	1.00
15-18 in., B/B.....	1.50

ILEX OPACA (American Holly or Christmas Holly)

A symmetrical upright, evergreen tree with dark green spined leaves. Scarlet berries in winter.

	Each
3-4 ft., B/B.....	\$1.75
4-5 ft., B/B.....	2.25
5-6 ft., B/B.....	3.00
6-8 ft., B/B.....	\$3.25 to 4.50

For trees with berries add 50% over above prices.

DAHOON HOLLY (Ilex Cassine)

Bright spineless leaves. Produces abundance of red berries.

	Each
1½-2 ft. high, B/B.....	\$1.00
2-2½ ft. high, B/B.....	1.25
2½-3 ft. high, B/B.....	1.50
3-4 ft. high, B/B.....	2.00

ILEX INTEGRA (Othra Japonica)

Bears red berries. Leaves rarely toothed, thick and leathery.

	Each
1-1½ ft., B/B.....	\$.75
1½-2 ft., B/B.....	1.00
2-2½ ft., B/B.....	1.50
2½-3 ft., B/B.....	\$1.75 to 2.00

YAUPON HOLLY (Ilex Vomitoria) (See Yaupon)

JASMINE

(Jasminum)

JASMINUM FLORIDUM

(Erroneously called J. Humile)

A new and hardy Jasmine from Japan, with rather small, dark green foliage and golden yellow flowers blooming in spring, summer, and late in fall until frost. Perfectly hardy as far north as Washington, D. C.

	Each
15-18 in. well branched, B/B.....	\$.50
18-24 in. well branched, B/B.....	.75
24-30 in. well branched, B/B.....	1.00
30-36 in. well branched, B/B.....	1.25

JASMINUM GRANDIFLORUM (Spanish Jasmine)

A shrub with most fragrant white flowers and very graceful, slender branches.

Good specimen in 6 in. pot.....\$1.25

J. HUMILE (Italian Jasmine)

A hardy, dark green, erect shrub; flowers bright yellow and fragrant. Stands in open as far north as Maryland. This is usually known as *J. Revolutum* and is commonly planted in glass houses in the North.

	Each
12-15 in., N/B.....	\$.35
15-18 in., N/B.....	.50
18-24 in., N/B.....	1.00

J. NUDIFLORUM (Winter Jasmine)

This variety sheds all its leaves in autumn, and produces waxy yellow flowers in winter.

	Each
18-24 in. well branched, N/B.....	\$.35
24-30 in. well branched, N/B.....	.50

J. PRIMULINUM

(Primrose, or Chinese Yellow Jasmine)

A rambling evergreen shrub with arching branches. Produces a profusion of bright, yellow flowers.

	Each
2-2½ ft. bushy, B/B.....	\$.75
2½-3 ft. bushy, B/B.....	1.00
3-3½ ft. bushy, B/B.....	1.25
Large specimens, B/B.....	\$1.25 to 2.50

J. SAMBAC (Grand Duke of Tuscany)

Semicleimbing shrub with heart-shaped, glossy green foliage and very fragrant, large double white flowers.

	Each
8-10 in. from pot.....	\$.60
10-15 in. from pot.....	.75

JUNIPERS

(Juniperus)

The Junipers are among the most important and effective of all plants for landscape work. Our collection of these plants is very extensive and affords our patrons a very wide range of selection. The Junipers are distinguished for showing two kinds of leaves on the same trees, those that are needle-shaped and those that are scalelike.

J. CHINENSIS ALBO VARIEGATA

(Variegated Chinese Juniper)

A compact and upright growing Juniper. Its bluish-green foliage is profusely tipped with creamy white variegation. The variety we offer is by far superior to the kind commonly offered by the trade under this name.

	Each
10-12 in., B/B.....	\$.75
12-15 in., B/B.....	1.25
15-18 in., B/B.....	1.50
1½-2 ft., B/B.....	1.75
2-2½ ft., B/B.....	2.25
2½-3 ft., B/B.....	3.00

Large sizes on application.

J. CHINENSIS No. 103

Semispreading Juniper, irregular in outline, with dark green, compact leaves entirely imbricated; does not burn during summer. Hardy in winter. Very satisfactory. New introduction by us.

J. CH. DEPRESSA No. 102

Low-growing Juniper similar in form to *J. Canadensis*, but having only soft scalelike leaves of light green. Hardy through summer or winter. Very satisfactory where medium low effect is necessary. New introduction by us.

	Each
10-12 in. spread, B/B.....	\$.75
12-15 in. spread, B/B.....	1.25
18-24 in. spread, B/B.....	1.75

J. CHINENSIS JAPONICA PROCUMBENS

A fine, trailing Juniper exactly same as J. Japonica Procumbens, but having both scale and needle-like foliage. Does not burn, but does well.

	Each
12-15 in. spread, B/B.....	\$1.25
15-18 in. spread, B/B.....	1.50
18-24 in. spread, B/B.....	2.00
2-3 ft. spread, B/B.....	\$2.75 to 3.25

Larger specimens on application.

J. CH. JAPONICA PROCUMBENS VARIEGATA

Similar to the above, but foliage variegated like J. Ch. Albo variegata. A splendid rock garden plant.

	Each
10-12 in. spread, B/B.....	\$1.25
12-15 in. spread, B/B.....	1.50
15-18 in. spread, B/B.....	2.00

J. JAPONICA PROCUMBENS

(J. Chinensis Procumbens, J. Procumbens, or Japanese Creeping Juniper)

"This is the best known of the prostrate Junipers which Japan has sent to the gardens of the West." It is a plant with wide-spreading procumbent stems. Blue-green, sharply pointed leaves marked on the upper surface by two white lines. It is perfectly hardy. This variety can be used in almost any planting for beds, low border, terraces, hillsides or rock gardens.

	Each
10-12 in. spread, B/B.....	\$1.00
12-15 in. spread, B/B.....	1.25
15-18 in. spread, B/B.....	1.50
18-24 in. spread, B/B.....	1.75

Larger specimen on application.

J. CH. MASCULA

Similar to J. Sylvestris but having symmetrically upright branches with darker blue-green foliage.

	Each
2-3 ft. high, B/B.....	\$1.50
3-4 ft. high, B/B.....	2.50
4-5 ft. high, B/B.....	3.50

J. CHINENSIS PFITZERIANA (Pfitzer Juniper)

Of very graceful habit; low in form with spreading branches. A Juniper that thrives in the hot climate of the South and still stands cold, Northern winters without injury. Practically immune from plant pests of all kinds.

	Each
12-15 in. spread, B/B.....	\$1.25
15-18 in. spread, B/B.....	1.50
1½-2 ft. spread, B/B.....	1.75
2-2½ ft. spread, B/B.....	2.25
2½-3 ft. spread, B/B.....	\$3.00 to 3.50
3-4 ft. spread, B/B.....	4.00 to 6.00

Larger sizes on application.

J. CHINENSIS SABINA FASTIGIATA

A tall and narrow-growing Juniper with dark green foliage entirely scalelike, subject to few insect enemies. Hardy against cold and heat. Very satisfactory where columnar effect is required.

	Each
2½-3 ft. high, B/B.....	\$1.50
3-3½ ft. high, B/B.....	2.00
3½-4 ft. high, B/B.....	2.50
4-5 ft. high, B/B.....	\$3.00 to 3.50

J. CH. SCHOTII

Similar to J. Cannarti but more compact foliage, tufted.

	Each
2-2½ ft. high, B/B.....	\$2.00
2½-3 ft. high, B/B.....	2.25
3-4 ft. high, B/B.....	\$3.00 to 3.50

J. CH. NANA VIRIDIFOLIA (J. Ch. Densa Glauca)

A conical Juniper of medium height with beautiful blue-green foliage, having both scale and needle-like leaves. Introduced by us.

	Each
12-15 in. high, B/B.....	\$1.00
15-18 in. high, B/B.....	1.25
18-24 in. high, B/B.....	\$1.50 to 1.75
24-30 in. high, B/B.....	2.00 to 2.25
30-36 in. high, B/B.....	2.50 to 3.00
36-40 in. high, B/B.....	3.25 to 3.75

J. COMMUNIS AUREA PYRAMIDALIS

An upright English Juniper of very narrow type with light golden foliage.

	Each
12-15 in. high, B/B.....	\$.75
15-18 in. high, B/B.....	1.00
18-24 in. high, B/B.....	1.25

J. COMMUNIS DEPRESSA (J. Canadensis)

A dwarf Juniper rarely exceeding two feet in height but sometimes spreading 15 feet or more in diameter. Foliage grayish green.

	Each
12-15 in. spread.....	\$1.00

J. COMMUNIS DEPRESSA AUREA

(Golden Canadian Juniper)

A dwarf Juniper similar to J. Communis Depressa, but leaves become intensely yellow during summer.

	Each
8-10 in. spread.....	\$.50
10-12 in. spread.....	.75
12-15 in. spread.....	1.00
15-18 in. spread.....	1.25
18-24 in. spread.....	1.75

Larger specimen on application.

J. COMMUNIS DEPRESSA PLUMOSA

Very fine low-growing Juniper of recent introduction which is thoroughly hardy and does not burn. The foliage is a rich, bright green in the spring and summer and a beautiful purple bronze in the winter. Not over 18 inches in height.

	Each
15-18 in. spread, B/B.....	\$1.50
18-24 in. spread, B/B.....	1.75
24-30 in. spread, B/B.....	2.50

J. COMMUNIS HIBERNICA (Common Irish Juniper)

Foliage glaucous green, with spreading branches. Dwarf in height.

	Each
10-12 in. high.....	\$.75

J. COMMUNIS KIYONOI

Very compact columnar Juniper with bluish green leaves which assume plum color in winter. Very uniform in form and well adapted for formal planting.

	Each
12-15 in. high, B/B.....	\$.75
15-18 in. high, B/B.....	1.00
18-24 in. high, B/B.....	1.50

J. CONFERTA (J. Litoralis)

Shore Juniper. Low, prostrate Juniper with slender spreading branchlets. Foliage a willow green in color. Desirable for sea-side planting, but does well in the interior; particularly adapted to sandy soils.

	Each
12-15 in. high, B/B.....	\$.75
15-18 in. high, B/B.....	1.00
18-24 in. high, B/B.....	1.50
24-30 in. high, B/B.....	1.75
30-36 in. high, B/B.....	2.25

Larger specimens on application.

J. HIBERNICA FASTIGIATA (Column Irish Juniper)

Of columnar habit, grows to 8 feet in height but very narrow in diameter.

	Each
10-12 in. high, B/B.....	\$.75
12-15 in. high, B/B.....	1.00

GOLDEN ENGLISH JUNIPER

Of dense upright growth, with light yellow foliage, the color intensified when making new growth in spring.

	Each
12-15 in. high, B/B.....	\$.75
15-18 in. high, B/B.....	1.00

J. HORIZONTALIS DOUGLASSI (Waukegan Juniper)

Low and compact, making a dense mat. Silvery blue in summer like blue cedar, changing to a rich coppery purple in winter. It grows very close to the ground and spreads ten feet or more.

	Each
10-12 in. spread, B/B.....	\$.85
12-15 in. spread, B/B.....	1.00
15-18 in. spread, B/B.....	1.25
18-24 in. spread, B/B.....	1.50
2-2½ ft. spread, B/B.....	1.75
2½-3 ft. spread, B/B.....	2.50

J. SYLVESTRIS

(J. Japonica, J. Femina, Reeves Juniper, etc.)

Growth unique and distinctive, upright with twisted spreading branches from ground up, making beautiful specimen tree in a lawn. Very hardy and easy of culture.

	Each
18-21 in., B/B.....	\$1.35
21-24 in., B/B.....	1.50
24-30 in., B/B.....	1.75
30-36 in., B/B.....	2.00
3-3½ ft., B/B.....	2.50
3½-4 ft., B/B.....	3.50
4-4½ ft., B/B.....	\$4.50 to 5.00
4½-5 ft., B/B.....	5.25 to 6.50

Larger sizes on application.

J. SABINA (Savin Juniper)

A low-growing Juniper with full, radiating branches of bright green foliage. Very useful for rock garden, also for border, etc.

	Each
10-15 in. spread, B/B.....	\$.75
15-18 in. spread, B/B.....	1.25
18-21 in. spread, B/B.....	1.75
21-24 in. spread, B/B.....	2.00
24-30 in. spread, B/B.....	2.50

J. SABINA TAMARICIFOLIA

(Tamarix Savin Juniper)

An excellent dwarf, creeping variety; average height about 2 feet with a spread of 6 to 8 feet, when fully grown. Forms a dense, compact mat of gray-green leaves.

	Each
10-12 in. spread, B/B.....	\$.75
12-15 in. spread, B/B.....	1.00
15-18 in. spread, B/B.....	1.50

J. VIRGINIANA (Red Cedar)

Well-known evergreen tree, native to this continent. Useful for large landscape, windbreaks, etc.

	Each
1½-2 ft. high, B/B.....	\$1.00
2-2½ ft. high, B/B.....	1.25
2½-3 ft. high, B/B.....	1.50
3-3½ ft. high, B/B.....	1.75

Have large specimen pruned in pyramidal shape.

Prices on application.

J. VIRGINIANA CANNARTI (Cannarti Red Cedar)

Narrow, upright grower reaching 15 to 20 feet in height. Has rich, dark green foliage. Very satisfactory plant. Does well in this section.

	Each
12-15 in. high, B/B.....	\$1.00
15-18 in. high, B/B.....	1.25
18-24 in. high, B/B.....	1.50
2-2½ ft. high, B/B.....	1.75
2½-3 ft. high, B/B.....	2.25
3-4 ft. high, B/B.....	\$3.00 to 3.50
4-5 ft. high, B/B.....	4.00 to 4.50

J. VIRGINIANA ELEGANTISSIMA**(Gold Tip Red Cedar)**

Of graceful, but irregular outline, with drooping branches. The new growth is of a rich, creamy color, making it one of the most beautiful Junipers.

	Each
12-15 in. high, B/B.....	\$1.50
15-18 in. high, B/B.....	1.75
18-24 in. high, B/B.....	2.25
2-3 ft. high, B/B.....	\$2.50 to 3.50

Larger specimens on application.

J. VIRGINIANA GLAUCA (Silver Juniper, Blue Cedar)

A stately Juniper of extremely beautiful green color with silvery sheen. One of the most admired types in this section, and well adapted.

	Each
18-21 in. high, B/B.....	\$2.00
21-24 in. high, B/B.....	2.25
24-30 in. high, B/B.....	2.50
30-36 in. high, B/B.....	2.75
36-42 in. high, B/B.....	3.50
42-48 in. high, B/B.....	4.25
4-5 ft. high, B/B.....	\$5.00 to 6.00

Larger specimen on application.

J. VIRGINIANA GLOBOSA

A dwarf Juniper with most unusual form of foliage. Very compact, very dark green leaves, all imbricated. Does not burn during summer and never changes color in winter.

	Each
2-2½ ft. spread.....	\$5.00 to \$7.00

J. VIRGINIANA KOSTERI (Koster Red Cedar)

Similar to Pfitzer Juniper; equally satisfactory in all respects, but foliage of lighter green and more open in outline.

	Each
12-15 in. spread, B/B.....	\$.85
15-18 in. spread, B/B.....	1.15
18-24 in. spread, B/B.....	1.50
24-30 in. spread, B/B.....	2.00

LAUREL**(Laurus)****LAURUS CAROLINENSIS**

See Wild Peach

L. NOBILIS**(Bay tree, Apollo's Laurel or Greek Laurel)**

The leaves are very aromatic and are used as a spice for culinary purposes.

Bush of 6 to 8 canes, B/B.....	\$2.50
Bush of 10 to 15 canes, B/B.....	\$4.00 to 6.00

LAVENDER**(Lavandula)****TRUE LAVENDER (Lavandula Vera)**

Planted because of its pleasant odor. One to two feet in height, symmetrically round, good rock garden object.

	Each
Small plant from pot.....	\$.35
6-8 in. diameter from field.....	.75
8-12 in. diameter	\$.75 to 1.25

LAVENDER COTTON (Santolina)

CHAMAECYPARISSUS—A hardy half-shrubby, much branched plant 1½ to 2 ft. high, with evergreen silvery-gray leaves and yellow flowers in summer. Very aromatic, used for borders and summer bedding.

	Each
Small plants from pot.....	\$.35
From field	\$.50 to 1.25

LAWSON CYPRESS

(*Chamaecyparis Lawsoniana*)

Very variable in form and color of foliage; some open, others compact. Beautiful, symmetrical trees, desirable as single specimens.

	Each
2½-3 ft., B/B.....	\$1.75
3-4 ft., B/B.....	\$2.25 to 3.00
4-5 ft., B/B.....	3.50 to 4.50

LIBOCEDRUS DECURRENS

(Incense Cedar)

	Each
12-18 in., B/B.....	\$1.00
18-24 in., B/B.....	1.25
24-30 in., B/B.....	1.75

LIGUSTRUM OR PRIVET

(Ligustrum)

This is a group of plants most useful and valuable for landscape work in the greater part of the coastal section, and far into interior. Very few broad-leaved evergreen trees give the immediate effect and lasting satisfaction that Ligustrum offers. We have a long list of these plants suitable for divers requirements. Some of them our own introduction.

L. JAPONICUM (Japan Privet)

One of the easily grown varieties. Much used in foundation planting and as tall hedges, etc.

	Each
2- 3 ft. well branched, B/B.....	\$.50
3- 4 ft. well branched, B/B.....	.60
4- 5 ft. well branched, B/B.....	.75
5- 6 ft. well branched, B/B.....	1.00
6- 8 ft. well branched, B/B.....	\$1.50 to 2.50
8-15 ft. well branched, B/B.....	On application

L. CHINENSIS (Amur River Privet, South)

The most commonly used hedge privet in the South.

	10	100	1000
1½-2 ft. well branched, 2 yr.....	\$.50	\$ 4.00	\$ 35.00
2-3 ft. well branched, 2 yr.....	.75	5.00	45.00
3-4 ft. well branched, 2 yr.....	1.00	6.50	60.00
4-5 ft. well branched, 2 yr.....	1.50	10.00	90.00
5-6 ft. well branches, 2 yr.....	2.00	12.50	100.00

5, 50, and 500 take 10, 100 and 1000 rate respectively.

Larger specimen on application.

SEEDLINGS PARTLY BRANCHED:

	100	1000
12-18 in., 1 yr.....	\$2.00	\$15.00
18-24 in., 1 yr.....	2.50	20.00

We have Amur River Privet sheared for landscape use.

	Each	10
2-3 ft., B/B sheared specimen.....	\$.50	\$4.00
3-4 ft., B/B sheared specimen.....	.75	6.00
4-5 ft., B/B sheared specimen.....	1.00	7.50

Specimen sheared in different shapes, pyramid, standard, etc., on application.

L. HENRYI

Medium tree with small dark green leaves, glossy and leathery. Very beautiful but not quite hardy in Houston. Does well farther south.

	Each
2-2½ ft., B/B.....	\$1.00
2½-3 ft., B/B.....	1.25

L. CILIATUM VARIEGATUM

Of dwarfish growth. Leaves dark green on edge, blotched with light green center.

	Each
15-18 in., B/B.....	\$.60
18-24 in., B/B.....	\$.75 to 1.00

Larger specimen on application.

L. JAPONICUM TRICOLOR (L. Excelsum Superbum)

The leaves of this Privet have yellow and pink variegations, especially on the new growth. In other particulars similar to *Ligustrum Japonicum*.

	Each
1-1½ ft., B/B.....	\$.75
1½-2 ft., B/B.....	1.00
2-2½ ft., B/B.....	1.25
2½-3 ft., B/B.....	1.50

L. LOWDENSE (L. Ovalifolium Compactum)

This is a dwarf form of California privet. The foliage is dark green in summer, changing to coppery purple after frost. Hardy and easy of culture.

	10	100
12-15 in. well branched.....	\$.40	\$2.50
15-18 in. well branched.....	.50	3.50

L. LUCIDUM COMPACTUM (Variously called by the trade, *Ligustrum Lucidum*, *Wax Ligustrum*, *Griffing's Wax Ligustrum*, etc.)

It is the handsomest privet ever introduced. A vigorous grower of easy culture, with dark green, waxy leaves. Compact in form, reaching height of about six feet, and almost equal in spread. Indispensable for landscape work in the South as foundation planting, and for individual specimens. Hardy as far north as Baltimore, Md.

	Each
12-15 in., B/B.....	\$.75
15-18 in., B/B.....	1.00
1½-2 ft., B/B.....	1.25
2-2½ ft., B/B.....	1.75
2½-3 ft., B/B.....	2.25
3-3½ ft., B/B.....	\$2.75 to 3.00
3½-4 ft., B/B.....	3.50 to 4.00
4-4½ ft., B/B.....	4.00 to 5.00

Prices of larger specimens on application.

We have this variety grafted and trained in standard form. Prices on application.

L. LUCIDUM PYRAMIDALE

Similar to *L. Lucidum Compactum* in general character but the plant is more upright and pyramidal in outline. Well branched and in good form.

	Each
2-2½ ft., B/B.....	\$1.00
2½-3 ft., B/B.....	1.25
3-3½ ft., B/B.....	1.50

L. LUCIDUM GRACILE

(Weeping Waxleaf *Ligustrum*)

This is a horticultural variety of *L. Lucidum*. Growth is tall, but branches are slender and inclined to droop over. The leaves are narrow, pointed and thinner, making a very graceful shrub.

	Each
1½-2 ft., B/B.....	\$.75
2-2½ ft., B/B.....	1.00
2½-3 ft., B/B.....	1.25
3-3½ ft., B/B.....	1.50

Larger specimens on application.

L. LUCIDUM REPANDUM

(Crinkly-leaved *Wax Ligustrum*)

A horticultural variety of *Wax Ligustrum*, having wavy, crinkly leaves.

	Each
1½-2 ft., B/B.....	\$.75
2-2½ ft., B/B.....	1.00
2½-3 ft., B/B.....	1.25

Prices of larger specimens on application.

L. OVALIFOLIUM (California Privet)

A slender, upright form of privet used extensively for hedges in the North.

	10	100
2-3 ft. well branched.....	\$.75	\$5.00
3-4 ft. well branched.....	1.00	7.00

Prices of larger specimens on application.

L. OVALIFOLIUM AUREO MARGINATUM

A yellow-margined California Privet.

	Each
1-1½ ft., B/B.....	\$.35
1½-2 ft., B/B.....	.50
2-2½ ft., B/B.....	.65

L. OVALIFOLIUM ARGENTO MARGINATUM

A silver variegated variety similar to the above.

	Each
1-2 ft., N/B.....	\$.35
2-3 ft., N/B.....	.50
3-4 ft., N/B.....	1.00
4-5 ft., N/B.....	1.25

Larger specimen on application.

L. OVALIFOLIUM VARIEGATUM

(Golden California Privet)

	Each
1-1½ ft., N/B.....	\$.50
1½-2 ft., N/B.....	.65
2-2½ ft., N/B.....	.75

L. QUIHOU (Quihoui Privet)

A Chinese Ligustrum of fall blooming habit. Glossy, dark green leaves.

	Each	10
2½-3 ft., B/B.....	\$.50	\$4.00
3-3½ ft., B/B.....	.75	5.00
3½-4 ft., B/B.....	1.00	7.50

L. REEVESI

The leaves are small and wavy. Form compact. Is not strictly evergreen here except in mild winters.

	Each	10
1-1½ ft., B/B.....	\$.35	\$3.00
1½-2 ft., B/B.....	.50	4.00

L. MACROPHYLLUM (Big-Leaf Ligustrum)

A variety similar to Japan Privet, but has very large and very lustrous leaves. Grows fast and reaches height of 15 to 20 feet. Should be used more extensively.

	Each	10
2-3 ft., B/B.....	\$.75	\$ 6.00
3-4 ft., B/B.....	1.00	8.00
4-5 ft., B/B.....	1.25	10.00

Prices of larger specimens on application.

L. MACROPHYLLUM AUREO MARGINATUM

(Golden Big-Leaf Ligustrum)

Similar to the preceding except the leaves are bright yellow with pale green blotches in the center.

	Each
3-4 ft., B/B.....	\$1.00
4-5 ft., B/B.....	1.25

Larger specimens on application.

LILAC

(Syringa)

SYRINGA PERSICA (Persian Lilac)

The well known shrub of sweet-scented blooms. They do not blossom in the South unless grafted on some suitable stock. Ours are grafted and guaranteed to bloom.

Each B/B\$.75 to \$1.50

LOQUAT

An evergreen tree known as "Japan Plum" or "Japanese Medlar;" enjoys a wide acquaintance. The leaves are exceptionally large, and are very dark green outside, downy underneath. The fragrant, creamy flowers are borne in panicles during fall or winter.

For prices, see under Fruit Trees.

MAGNOLIA

(Magnolia)

MAGNOLIA FUSCATA or MICHELIA FUSCATA (Banana Shrub)

One of the most popular evergreen shrubs for the South. From April to June, it produces numberless creamy white blooms edged with maroon, and noted for their agreeable banana-like scent wafting in all directions.

From open field, well branched:	Each
12-15 in., B/B.....	\$1.00
15-18 in., B/B.....	1.50
18-24 in., B/B.....	1.75
2-2½ ft., B/B.....	2.00
2½-3 ft., B/B.....	\$2.50 to 3.00

Larger specimen on application.

MAGNOLIA GLAUCA (Sweet Bay Magnolia)

Leaves very glaucous, flowers very fragrant.

	Each
1½-2 ft., B/B.....	\$1.00
2-2½ ft., B/B.....	1.25
2½-3 ft., B/B.....	1.50

MAGNOLIA GRANDIFLORA (Southern Magnolia)

The grandest broad-leaved evergreen of the Southern forest, famous for its large, white, fragrant blooms and beautiful, broad, glossy leaves.

	Each
1-1½ ft., B/B.....	\$.75
1½-2 ft., B/B.....	1.25
2-2½ ft., B/B.....	1.50
2½-3 ft., B/B.....	1.75
3-4 ft., B/B.....	2.25
4-5 ft., B/B.....	2.50
5-6 ft., B/B.....	\$3.75 to 4.00
6-7 ft., B/B.....	4.50 to 5.00

Larger specimen on application.

CHINESE

or

PINK MAGNOLIA

See under "Deciduous Trees"

MYRTUS

(Sweet Myrtle)

MYRTUS COMMUNIS (Roman Myrtle)

A dwarf shrub with bright green leaves, very aromatic. Flowers pure white and fragrant.

ROSEMARY MYRTLE

Similar to above, but leaves are smaller; dwarf in habit.

Prices of these two:

	Each
10-12 in. high, B/B.....	\$.50
12-15 in. high, B/B.....	.75
15-18 in. high, B/B.....	1.00
18-24 in. high, B/B.....	1.25

Prices of larger specimens on application.

MYRTUS COM. COMPACTA (Dwarf Myrtle)

A new species that is very dense and compact, with small dark, shining leaves. Attains 3 feet in height and stays there.

	Each
10-12 in., B/B.....	\$.60
12-15 in., B/B.....	.85
15-18 in., B/B.....	1.25

MYRTUS COM. VARIEGATA

(Variegated Roman Myrtle)

Leaves beautifully variegated white and green.

	Each
10-12 in., B/B.....	\$.50
12-15 in., B/B.....	.75
15-18 in., B/B.....	1.00

MYRTUS COM. ITALICA

Branches short, leaves dark green, pointed and crowded. Very rare.

	Each
2½-3 ft., B/B.....	\$1.75
3-4 ft., B/B.....	2.00

NANDINA

NANDINA DOMESTICA

A beautiful shrub from Japan, with numerous upright, reedlike stems springing from same root. Leaves rich red when young, dark green at maturity, assuming coppery red hue in winter. Produces clusters of red berries in winter.

	Each
12-15 in., B/B.....	\$1.00 to \$1.25
15-18 in., B/B.....	1.25 to 1.50
18-24 in., B/B.....	1.50 to 1.75
2-2½ ft., B/B.....	2.00 to 2.50
2½-3 ft., B/B.....	2.25 to 3.00
3-4 ft., B/B.....	2.75 to 3.50

Larger specimen on application.

OAK

(Quercus)

QUERCUS GLAUCA (Blue Japanese Oak)

A tree of medium height, leaves bright glossy green, silvery pink, like tuft of flowers as the leaves start to grow in spring. Hardy in Dallas.

	Each
3-4 ft., B/B.....	\$1.50
4-5 ft., B/B.....	\$2.00 to 2.50
5-6 ft., B/B.....	2.75 to 3.50

Large specimens, 6 to 8 feet, quoted on application.

Q. VIRGINIANA (Live Oak)

There is no better evergreen avenue or street tree than this, which will thrive in almost any soil, defying the most inclement weather conditions.

4-6 ft., B/B.....	\$.25 per foot
6-8 ft., B/B.....	.30 per foot
1½-1¾ in. cal., B/B.....	\$3.00 to \$4.00
1¾-2 in. cal., B/B.....	4.25 to 5.00
2 -2½ in. cal., B/B.....	5.00 to 6.00
2½-3 in. cal., B/B.....	6.50 to 8.50

We have Live Oaks up to 12-inch caliper measure, and of great beauty. Prices will be furnished on application.

For Pin Oak, Willow Oak, and Scarlet Oak, etc., see under "Deciduous Trees."

OLEANDER

(Nerium)

Well-known evergreen flowering shrub of the South. We have them in single pink, double red, single white, pink and white variegated, and yellow.

	Each
2-2½ ft. B/B, white, and double pink.....	\$1.00
2½-3 ft. B/B, white, and double pink.....	1.25
3-4 ft. B/B, white, and double pink.....	1.50
12-15 in. B/B, double red and yellow.....	.75
15-18 in. B/B, double red and yellow.....	1.00
18-24 in. B/B, double red and yellow.....	1.25

Larger specimens on application.

PHOTINIA

PHOTINIA GLABRA (Red-leaved Photinia)

The new growth of this plant is bright red, hence it is best to prune very often to encourage fresh growth.

	Each
15-18 in., B/B.....	\$1.00
18-24 in., B/B.....	1.25
24-30 in., B/B.....	1.50
30-36 in., B/B.....	2.00

PHOTINIA SERRULATA (Low Photinia)

A hardy shrub with thick, leathery leaves, sharply toothed, which turn red in winter. Very pretty in spring with scarlet new growth.

	Each
2-2½ ft., B/B.....	\$1.25
2½-3 ft., B/B.....	1.50
3-3½ ft., B/B.....	\$1.75 to 2.50

Larger specimen on application.

PITTOSPORUM

(Pittosporum)

PITTOSPORUM TOBIRA

Leaves of lustrous green, forming a dense, globular head, which can be pruned. Bears pretty, if small, white flowers in clusters early in spring.

	Each
12-15 in. high, B/B.....	\$1.00
15-18 in. spread, B/B.....	1.25
18-24 in. spread, B/B.....	1.75

Prices of larger specimens quoted on application.

P. TOBIRA VARIEGATA (Whitespot Tobira)

Similar to above, but leaves are variegated in green and white.

	Each
15-18 in. spread, B/B.....	\$1.50

For larger sizes prices on application.

PLUMBAGO CAPENSIS

See under Miscellaneous

PODOCARPUS

PODOCARPUS MACROPHYLLA

A tree that attains 50 feet in height with spreading branches having pendent branchlets. Leaves bright green and lustrous. It stands shearing and can be trained into sharp-pointed pyramidal tree. It will thrive in shady nook where other trees fail.

	Each
1½-2 ft., B/B.....	\$1.00 to \$1.25
2-2½ ft., B/B.....	1.50 to 1.75
2½-3 ft., B/B.....	1.75 to 2.25

Larger specimen on application.

P. MAKI

A horticultural variety of the above. Leaves darker green and shorter. Tree is upright and slender in form. This also makes fine columnar form if sheared, and makes fine tub plants.

	Each
1½-2 ft., B/B.....	\$1.00
2-2½ ft., B/B.....	1.50
2½-3 ft., B/B.....	2.00

Larger specimen on application.

P. NAGEIA

With large leathery, glaucous leaves much resembling broad-leaved evergreen trees. Not hardy, except in the South.

12-15 in., B/B.....	\$.75
15-18 in., B/B.....	1.00

PINE

(Pinus)

NATIVE YELLOW PINE

7- 9 ft., B/B.....	Prices on application
9-12 ft., B/B.....	Prices on application
12-15 ft., B/B.....	Prices on application

PINUS MARITIMA (Maritime Pine, Pinaster Pine)

Sometimes called Cluster Pine, with spreading branches forming a pyramidal head. It is much used for seaside planting. Worth trial in Galveston.

	Each
1½-2 ft., B/B.....	\$1.00
2-2½ ft., B/B.....	1.25
2½-3 ft., B/B.....	1.50

PONDEROSA PINE (Long-Leaf Pine or Bull Pine)

Tree grows to immense height of 150 to 250 feet. One of the most important and tallest trees of the Western States.

	Each
2 yr. old transplanted.....	\$.50

PUNICA

(Pomegranate)

PUNICA GRANATUM NANUM

Dwarf variety of Pomegranate, well known for its beautiful red blossoms borne all through the summer. Bears small fruits.

	Each
10-12 in., B/B.....	\$.50
12-15 in., B/B.....	.75
15-18 in., B/B.....	1.00
18-24 in., B/B.....	1.25
2-2½ ft., B/B.....	1.50

RAPHIOLEPIS

(Yeddo Hawthorn)

RAPHIOLEPIS OVATA

A low-growing evergreen shrub with stout, stocky branches and dark green leaves; becomes covered with pinkish-white, fragrant blooms in spring, followed by purple berries in autumn.

	Each
15-18 in. spread, B/B.....	\$1.00 to \$1.25
1½-2 ft. spread, B/B.....	1.25 to 1.50

ROSEMARY

(Rosmarinus)

ROSMARINUS OFFICINALIS

A low-growing evergreen shrub, native of Southern Europe. The plant is aromatic, even its pretty, pale blue flowers. Used for culinary purposes.

	Each
10-12 in., B/B.....	\$.50
12-15 in., B/B.....	.65
15-18 in., B/B.....	.75
4 in. pot.....	.35

SERISSA FOETIDA

Dwarfish plant with small variegated evergreen leaves and small white flowers, desirable as border plants or low hedges.

	Each
1-1½ ft., B/B.....	\$.50
1½-2 ft., B/B.....	.65

VIBURNUM

(Viburnum)

VIBURNUM ODORATISSIMUM (Sangoju)

A shrub with large, leathery glossy, dark green leaves, exposed portion of which turns to vivid red in winter.

	Each
1½-2 ft., B/B.....	\$1.25
2-2½ ft., B/B.....	1.75

V. SUSPENSUM (Sandanqua Viburnum)

Evergreen viburnum of drooping form producing clusters of sweet-scented flowers of pinkish-white in very early spring, followed by red berries.

	Each
18-24 in. spread, B/B.....	\$1.50 to \$2.00
2-2½ ft. spread, B/B.....	2.25 to 2.75

WILD PEACH

or

CHERRY LAUREL

(Laurocerasus Carolinensis)

A valuable native evergreen. Leaves bright green, finely toothed around the edge; can be used singly or in mass, sheared to different shapes.

	Each
1½-2 ft., B/B, not sheared.....	\$.75
2-2½ ft., B/B, not sheared.....	1.00
4-5 ft., B/B, not sheared.....	2.00
5-6 ft., B/B, not sheared.....	2.75

Prices of sheared specimens on application.

· YAUPON

(Ilex)

ILEX VOMITORIA

Dark green leaves much like those of Boxwood. Strikingly attractive in winter when it is laden with scarlet berries. Of easy culture. Stands heat and cold equally well. Its naturally compact and dwarf, slow-growing habit make it an excellent hedge plant. It is almost immune to insects and plant diseases. It can be trained into various forms like Boxwood.

	Each
1-1½ ft., B/B, not sheared.....	\$.50
1½-2 ft., B/B, not sheared.....	.75
2-2½ ft., B/B, not sheared.....	1.00
2½-3 ft., B/B, not sheared.....	1.25
3-4 ft., B/B, not sheared.....	1.75

Larger specimens and quantities for use as hedge quoted on an application.

For plants with berries add 50%.

We have Yaupons trained in pyramids, standards, globes, etc., ranging in height 2 to 5 feet. Prices on application.

ILEX V. PENDULA (Weeping Yaupon)

As a hedge or single specimen, this is a valuable acquisition.

	Each
18-21 in., B/B.....	\$1.00
21-24 in., B/B.....	1.25
24-30 in., B/B.....	1.50
30-36 in., B/B.....	2.00

ILEX V. MICROPHYLLA (Small-Leaf Yaupon)

A compact, small-leaved variety grown from cuttings of selected trees. A most excellent variety for low hedges and trimming into formal shape.

	Each
1½-2 ft., B/B.....	\$1.25
2-2½ ft., B/B.....	1.50
2½-3 ft., B/B.....	2.00
3-4 ft., B/B.....	\$2.25 to 3.00

DECIDUOUS TREES AND SHRUBS

ALTHEA

ALTHEA (Rose of Sharon)

Well-known flowering shrub of medium growth. Blooms from summer to late fall. In pink, purple, white, and pink and white variegated, in single and double flowers.

	Each	10
2-3 ft.	\$.25	\$2.25
3-4 ft.	.35	3.00
4-5 ft.	.45	4.00

AMORPHA

(False Indigo)

A bush of medium height, bearing deep purple flowers in racemes during summer.

	Each
5-6 ft.	\$.75 to \$1.00

ASH

(Fraxinus)

ARIZONA ASH (Fraxinus Velutina)

Of clean, straight, grayish-white trunk, with bright green foliage in spring, turning darker in fall. Excellent as shade and avenue trees.

Larger specimen on application.

BUSH CLOVER

(Lespedeza)

PURPLE BUSHCLOVER (Lespedeza Formosa)

A low-growing shrub throwing up strong, wiry shoots each year from crown, which bear abundance of rose-purple flowers drooping in long racemes. Blooms in spring and fall.

	Each
Small clump	\$.35
Medium clump	.50
Large clump	.75

CITRUS TRIFOLIATA

CITRUS TRIFOLIATA SEEDLINGS

An excellent stock on which to grow all kinds of orange, kumquat, and other citrus fruit trees. Also very useful for hedge where impenetrable barrier is desired against animals, etc.

	10	100
1-2 ft., 1 yr.....	\$.50	\$3.00

Prices for larger quantity upon application.

CHASTE TREE

VITEX AGNUS-CASTUS

A vigorous shrub of medium height. Produces beautiful flowers in spikes through spring and summer.

WHITE CHASTE TREE

Same as above, only flowers are white.

Prices of both varieties:	Each
3-4 ft., N/B.....	\$.50
4-5 ft., N/B.....	.65

Large sizes on application.

CREPE MYRTLE

A free-flowering shrub of vigorous growth. The flowers, beautifully fringed and crimped, borne in great panicles, certainly present a grand display. Colors in stock are pink, purple, white, crimson (popularly called watermelon color), and dwarf lavender, also dwarf crimson. Prices of all the above except the last two:

	Each	10
2-3 ft., N/B.....	\$.40	\$3.50
3-4 ft., N/B.....	.50	4.50
4-5 ft., N/B.....	.75	6.50
5-6 ft., N/B.....	1.00	7.50
Large specimens	\$1.25 to \$3.00 each	

Prices of dwarf lavender and dwarf crimson:	Each
2-3 ft., N/B.....	\$.50
3-4 ft., N/B.....	.75

We have some plants trained in "tree form," with stems 5 to 6 feet high for avenue planting at \$1.25 to \$1.50 each.

DEUTZIA

PRIDE OF ROCHESTER

Erect shrub, producing an abundance of double-petaled, rose-tinted white blooms in spring and early summer. Very effective in any garden.

	Each
2-3 ft.	\$.50
3-4 ft.	.75

Large specimen on application.

DOGWOOD

(Cornus)

WHITE FLOWERING DOGWOOD (Cornus Florida)

A veritable tuft of cloud on branches among leafless surroundings, their white blossoms suffused with pink, give one an unforgettable picture of beauty in early spring.

	Each
2-3 ft., B/B.....	\$.50
3-4 ft., B/B.....	.75
4-5 ft., B/B.....	1.00

ELM

(Ulmus)

AMERICAN ELM (Ulmus Americana)

A handsome, stately, rapid-growing tree with long and graceful branches. Useful for shade as well as avenue planting.

	Each
5- 6 ft., N/B.....	\$.60
6- 8 ft., N/B.....	\$.75 to 1.00
8-10 ft., N/B.....	1.00 to 1.50
10-12 ft., N/B.....	1.50 to 2.50
12-14 ft., N/B.....	2.50 to 4.00

CHINESE ELM (Ulmus Pumila)

Very fast growing trees recently introduced from China by the Agricultural Department of the United States of America and extensively planted. Our trial in nursery shows satisfaction.

	Each
4- 5 ft.	\$.75
5- 6 ft.	1.00
6- 8 ft.	1.25
8-10 ft.	\$1.50 to 2.00
10-12 ft.	2.25 to 3.50

Larger specimens on application.

CORKBARK ELM (U. Foliacea Suberosa)

Distinguished for a growth of corky wings over its branches. Used for shade tree.

	Each
8-10 ft.	\$1.00 to \$1.50
10-12 ft.	1.50 to 2.50

FORSYTHIA

Locally called Golden Bell. Deciduous shrub with deep yellow flowers in early winter before leaves come out. Five separate varieties.

	Each
Medium bush	\$.50 to \$.75

FLOWERING ALMOND

(*Prunus Glandulosa*)

A highly desirable, ornamental variety of plum, producing wealth of either double pink or double white flowers.

	Each
1-2 ft. bushy, B/B.....	\$.50 to \$.75
2-3 ft. bushy, B/B.....	.75 to 1.25
3-4 ft. very bushy, in white only.....	1.25 to 1.75
4-5 ft. very bushy, in white only.....	2.00 to 3.50

FLOWERING QUINCE

(*Cydonia Japonica*)

This is sometimes erroneously called burning bush. A handsome, low-headed, bushy plant that blooms very early in the spring when all else is bare.

Have following colors: Watermelon-red, scarlet, orange, red, large light pink, and white.

	Each
15-18 in., B/B.....	\$.75
1½-2 ft., B/B.....	1.00
2-2½ ft., B/B.....	\$1.25 to 1.75
2½-3 ft., B/B.....	1.75 to 2.50

FLOWERING WILLOW

or

DESERT WILLOW

(*Chilopsis Linearis*)

A tall-growing shrub much resembling willow, producing bell-shaped flowers of lilac-purple striped with yellow. Succeeds well in dry climate, blooming during summer.

	Each
3-4 ft.	\$.50 to \$.75
4-5 ft.	.75 to 1.00
5-6 ft.	1.00 to 1.50

HACKBERRY

(*Celtis*)

A deciduous shade tree much planted along street, with light green leaves, rarely injured by insects or fungi; it thrives in almost any soil. Easily transplanted.

	Each
12-15 ft.	\$3.00 to \$4.50
15-18 ft.	5.00 to 7.00

Larger specimen on application.

HONEYSUCKLE

(*Lonicera*)

WINTER HONEYSUCKLE (*Lonicera Fragrantissima*)

A large shrub with numerous spreading branches. Produces pinkish white flowers of exquisite scent early in the spring.

	Each
1-2 ft., well branched.....	\$.25 to \$.35
2-3 ft., well branched.....	.35 to .50
3-4 ft., well branched.....	.50 to .75
4-5 ft., well branched.....	.75 to 1.50

TARTARIAN HONEYSUCKLE (*L. Tartarica*)

A vigorous, erect-growing shrub, blooms profusely in spring, followed by beautiful red berries. Can furnish in pink, white, and red.

	Each
2-3 ft., B/B.....	\$.50 to \$.65
3-4 ft., B/B.....	.75 to 1.00

HYDRANGEA

HYDRANGEA OTAKSA

Shrub heavily enshrouded by its huge, bright green leaves, and producing still huger, globular clusters of panicle flowers. Color of bloom seemingly varies in different soils, but usually light bluish purple with pink suffusion predominates. All Hydrangeas thrive best in shady location and in moist, loamy soil.

Can supply in pink and blue.

Each

Small plant, 1 to 3 stalks.....	\$.25 to \$.50
Medium plant, 3 to 5 stalks.....	.75 to 1.00
Large plant, 6 stalks or more.....	1.25 to 2.00

JUDAS TREE OR REDBUD

(*Cercis Siliquastrum*)

A hardy ornamental tree, literally covered with rose-pink flowers early in spring, before leaves appear.

Each

2-3 ft.	\$.35 to \$.50
3-4 ft.	.50 to .75
4-5 ft.	.75 to 1.25

Large specimen on application.

CHINESE DWARF VARIETY

Tree not higher than 10 to 12 feet, but bushy with many purplish-pink flowers.

Each

1-2 ft.	\$.35 to \$.50
2-3 ft.	.50 to .75
3-4 ft.	.75 to 1.25

MAGNOLIA

MAGNOLIA PURPUREA OR LILIFLORA NIGRA

(Chinese Purple Magnolia)

A large shrub of compact growth with magnificent purple flowers in spring before the leaves appear.

Each

Plant with 2 to 3 stems, B/B.....	\$2.50 to \$3.00
Plant with 3 to 4 stems, B/B.....	3.50 to 4.00
Plant with 4 to 5 stems, B/B....	4.00 to 5.00

MAGNOLIA SOULANGEANA

(Chinese Pink or Saucer Magnolia)

Flowers pink, white inside. Blooms a little earlier than the above.

Price same as Purpurea.

MAPLES

(*Acer*)

SILVER MAPLE (A. Dasycarpum)

A rapid-growing, native species, foliage bright green above and silvery white beneath.

Each

5- 6 ft. high.....	\$.75 to \$1.00
6- 8 ft. high.....	1.00 to 1.25
8-10 ft. high.....	1.25 to 1.50

MIMOSA TREE

(*Mimosa*)

A tree of rapid growth, with spreading branches and low, flat-topped head. Beautiful pink flowers in the spring.

Each

2-3 ft.	\$.50 to \$.75
3-4 ft.	.75 to 1.00
4-5 ft.	1.00 to 1.25
5-6 ft.	1.25 to 1.50
6-8 ft. specimen.....	1.50 to 3.00

MOCK ORANGE

See Philadelphus

MULBERRY

(Morus)

TEAS WEeping MULBERRY

An ornamental tree with long, slender branches gracefully drooping to the ground, very unique.

	Each
6 to 8 ft. high	
1 year head.....	\$1.50 to \$2.00
2 year head.....	2.00 to 2.50
3 year head.....	3.00 to 3.50
Specimens with well formed heads, 3 to 5 feet in diameter, \$5.00 to \$10.00.	

For fruit-bearing varieties, see under Fruit Department.

OAKS

(Quercus)

SCARLET OAK (Quercus Coccinea)

A tall-growing tree with spreading branches. Valuable as an ornamental for its brilliant coloring in the autumn.

	Each
1½-2 in. cal., N/B.....	\$3.00 to \$ 4.25
2-2½ in. cal., N/B.....	4.50 to 5.50
2½-3 in. cal., N/B.....	6.00 to 7.00
3-3½ in. cal., N/B.....	7.50 to 10.00

PIN OAK (Q. Palustris)

A rapid grower with symmetrical head; foliage bright green, turning brownish-red in the fall. Very desirable for avenue planting.

	Each
6- 8 ft., B/B	\$1.50 to \$2.00
8-10 ft., B/B	2.50 to 3.50
2-2½ in. caliper, B/B	5.00 to 6.00
2½-3 in. caliper, B/B	6.00 to 8.50
Prices of larger specimen, 3 to 10 in. caliper, on application.	

WILLOW OAK (Q. Phellos)

Very symmetrical tree with leaves resembling willow. Used extensively as shade and avenue trees.

	Each
4-5 ft., N/B.....	\$.75 to \$1.00
5-6 ft., N/B.....	1.00 to 1.25
6-8 ft., N/B.....	1.25 to 1.75
Prices of oak trees for more than 5 trees on application.	

PHILADELPHUS

(Mock Orange)

A valuable, hardy shrub producing pure white and fragrant flowers. Varieties: Falconeri, Mt. Blanc, Grandiflora, Cornelia, and Virginalis.

	Each
2-3 ft.	\$.50 to \$.65
3-4 ft.	.65 to .85

POMEGRANATE

(Punica)

FLOWERING POMEGRANATE

A hardy and free-flowering shrub known throughout the South. Foliage lustrous green, flowers double, blooming from spring through summer. In colors of red, white, pink and white variegated.

	Each
2-3 ft.	\$.40 to \$.50
3-4 ft.	.50 to .75
4 ft. and up	.75 to 1.00

For dwarf variety, see under Broad-leaf Evergreen Department.

POPLAR

(Populus)

LOMBARDY POPLAR (Populus Nigra Italica)

A shade or avenue tree well known for its symmetry, spire-like form and rapid growth.

	Each
2- 4 ft.	\$.25 to \$.30
4- 6 ft.	.35 to .50
8-10 ft.	1.00 to 1.25
10-12 ft.	1.50 to 2.00
12-15 ft.	2.50 to 5.00

CHINESE POPLAR (Populus Simoni)

Tall and slender-growing poplar like the preceding. Does not grow as fast as Lombardy Poplar, but is somewhat broader in form.

	Each
5- 6 ft.	\$.50
6- 8 ft.	\$.75 to 1.00
8-10 ft.	1.25 to 1.50

POSSUMHAW HOLLY

(Ilex Decidua)

A small tree or shrub native to the South. Its wealth of orange-scarlet berries contrasts very agreeably with the spreading light gray branches when bereft of their foliage in winter.

	Each
1½-2 ft.	\$.50
2-3 ft.	\$.60 to .75
3-4 ft.	.75 to 1.00

PRUNUS TEXANUM

(Native Cherry of Texas)

Though fruit is poor, can be used as stock for grafting. Beautiful foliage and symmetrical form make desirable as garden tree.

	Each
5-6 ft.	\$.75
6-7 ft.	1.25
7-9 ft.	1.75

PURPLE-LEAF PLUM

(Prunus Pissardi)

A very ornamental type of plum tree having rich purple foliage throughout the season, giving a striking touch of color to any landscape planting. Its red fruits with cherry flavor are deliciously edible.

	Each
3-4 ft.	\$.50
4-5 ft.	.75
5-6 ft.	1.00
6-8 ft. specimen	\$1.25 to 2.50

Larger specimen on application.

SALVIA GREGGII

Very showy in autumn when it blooms best. Flowers purplish-red, shrub one to three feet high. Native of Texas and Mexico.

	Each
1½-2 ft., B/B.	\$.50
2-2½ ft., B/B.	.75

SPIREA

(Spirea)

SPIREA ANTHONY WATERER

Remarkable for its profusion of bright rosy-crimson blossoms, borne in flat-top clusters all through summer and fall. Leaves variegated in many colors.

	Each
8-10 in., N/B.....	\$.25
10-12 in., N/B.....	.35
12-18 in., B/B.....	\$.75 to 1.00
18-24 in., B/B.....	1.00 to 1.50

SPIREA FROEBELI

Similar to the above but its leaves are of purple tint through the summer and are not variegated.

	Each
12-15 in., B/B.....	\$.50
15-18 in., B/B.....	\$.65 to .75
18-24 in., B/B.....	.85 to 1.25

S. REEVESIANA (Florepino)

Produces early in the spring large clusters of double white flowers which almost cover the entire plant.

	Each
1½-2 ft.	\$.50
2-3 ft.	.75

SPIREA BILLARDI

An erect, free-flowering shrub with brownish branches. Produces bright pink flowers in dense plume during the summer.

	Each
1-2 ft., N/B.....	\$.25
2-3 ft., N/B.....	.35
3-4 ft., N/B.....	.50

SPIREA VANHOUTTE (Bridal Wreath)

A graceful, medium sized plant with numerous arching branches, which become heavily loaded with clusters of delicate single white blossoms in spring.

	Each
1-2 ft., bushy.....	\$.35
2-3 ft., bushy.....	.50
3-4 ft., bushy.....	\$.65 to .75
4-5 ft., bushy.....	.75 to 1.00
Large specimens	1.25 to 2.00

SPIREA THUNBERGI

A very attractive dwarf variety. Blooms during winter. Effective as low hedge or in mass planting.

	Each
18-24 in., B/B.....	\$.50 to \$.75
24-30 in., B/B.....	.75 to 1.25
Extra large clumps.....	1.50 to 2.00

SWEET GUM

(Liquidambar)

An upright and symmetrical tree, very showy in autumn with its maple-like leaves changing from green to mixed shades of yellow, scarlet and purple.

	Each
6- 8 ft.	\$.75 to \$1.25
8-10 ft.	1.50 to 2.50
10-15 ft.	3.00 to 5.00
15-20 ft.	On application

SYCAMORE

ORIENTAL PLANE TREE (Platanus)

A fast growing, hardy shade tree, adapted to wide range of this continent.

	Each
6- 8 ft., well formed.....	\$.50 to \$.75
8-10 ft., well formed.....	.75 to 1.00
10-12 ft., well formed.....	1.00 to 1.50

Prices of large sizes on application.

We have a large quantity of these trees, and special quotation will be given on request.

TAMARIX

Locally the name, "Salt Cedar," is applied to this tree from the fact that some varieties grow near sea shore where no other trees succeed.

JAPANESE TAMARIX (*Tamarix Plumosa*)

Of medium height, with graceful feathery green foliage. Blooms early in April. Suitable for seaside planting.

1-2 ft.	Each \$.35
Large specimen on application.	

FRENCH TAMARIX (*Tamarix Gallica*)

Similar to above, with light, glaucous green foliage. Produces pink flowers in summer.

5-6 ft.	Each \$.50 to \$.75
--------------	--------------------------

TAMARIX ARTICULA (*Evergreen Tamarix*)

Very fast growing variety with feathery bright green foliage. Used as windbreaks in Lower California and in warmer regions.

1-2 ft.	Each \$.35
2-3 ft.	.50

TEXAS UMBRELLA TREE

(*Melia Azedarach Umbraculiformis*)

A vigorous tree with spreading, umbrella-shaped top growth so familiar in Texas landscape.

4-5 ft.	Each \$.35
5-6 ft.	.50
6-7 ft.	.75

TULIP POPLAR

(*Liriodendron Tulipifera*)

A rapid-growing, stately tree with its pyramidal crown of lustrous green foliage, bearing large tulip-like flowers of yellow-green blotched with orange. This tree has few insect enemies and diseases and is adapted to our section and should be planted more extensively, especially as an avenue tree.

2-3 ft.	\$.35
3-4 ft.	.50
4-8 ft.	.15 per foot
Specimen 8 ft. to 12 ft.	\$1.75 to \$3.50 each

VARNISH TREE

(*Sterculia Platanifolia*)

A handsome shade tree of slow growth; leaves bright green, very large, three to five-lobed like maple. Produces large panicle of yellowish white flowers in June.

5- 6 ft.	\$.75
6-10 ft.	.15 per foot

WEeping WILLOW

A rapid grower with long, slender, olive-green branches extending downward.

4-5 ft.	Each \$.50
5-6 ft.	.60
6-7 ft.	.75
Larger specimen on application.	

WEIGELA

(*Diervilla*)

A free-flowering, vigorous shrub, producing in spring large and showy flowers covering its spreading branches.

Colors: Pink, red, white, pink and white variegated.

1 yr. small size	Each \$.35
2 yr. medium size	.50
3 yr. large size	.75

VINES AND TRAILERS

AMPELOPSIS

A. TRICUSPIDATA (Japanese Creeper or Boston Ivy)

A graceful, close-climber suitable for covering walls. Bright green leaves changing to brilliant tone of orange and scarlet in autumn. Deciduous.

Each

In pot\$.35 to \$.50

ANTIGONON LEPTOPUS

(Rosa de Montana or Mountain Rose)

A beautiful climber with tuberous roots. Bears rosy-pink blossoms in profusion from June till frost. Very satisfactory.

Each

1 year root blooming size.....\$.25
 2 year root blooming size..... .35
 3 year root blooming size..... .50
 From pot50

ANTIGONON LEPTOPUS ALBIFLORA

(White Flowering Antigonon)

This is a very rare variety with pure white flowers instead of pink.

Each

1 year old vine from pot.....\$1.00

BIGNONIA

BIGNONIA SPECIOSA (Painted Trumpet)

A hardy evergreen vine with glossy dark green leaves and clusters of large, purplish, trumpet-shaped flowers from spring to summer.

Each

Medium plant from field.....\$.50 to \$.75
 Large plant from field..... 1.25 to 2.00

B. VENUSTA (Flaming Trumpet)

An exceptionally vigorous vine, reaching 80 feet or more; clings tight to any support unaided after getting a little foothold. Foliage beautiful green; flowers in dense clusters of orange-red, tubular in form. Too tender below 30° Fahrenheit.

Each

Plant from pot.....\$.50 to \$.75

B. GRANDIFLORA (Campsis Chinensis)

The large-flowering bush type of trumpet vine. Has very large showy orange-yellow flowers in great profusion during late spring and summer.

Each

Grafted, 2 yr. old.....\$1.25 to \$1.75

B. RADICANS

This is useful for covering unsightly places, such as stumps, rock piles, etc. The dark red trumpet-like flowers with orange throat are attractive. Very hardy.

Each

2 year\$.25
 3 year35
 Large plant\$.75 to 1.00

BOUGAINVILLEA

A showy evergreen vine bearing large masses of strikingly beautiful flowers. A strong grower and reaches a great height. Doesn't stand much frost.

B. GLABRA SANDERIANA (Japanese Paper Flower)

Very bright magenta purple flowers.

	Each
5 in. pot.....	\$.75
6 in. pot.....	1.25
8 in. pot.....	2.00

Prices on larger specimens on application.

B. CRIMSON LAKE

Introduced through the Bureau of Plant Industry of the United States Department of Agriculture. The formation of the flowers is about the same as the former, but in coloring none compares with its richness and brilliancy. On opening they are a brilliant crimson lake lasting for 20 to 30 days, then gradually turning to a crimson-carmine. In Florida, California and southern Texas all bougainvilleas make gorgeous outdoor climbers. Farther north they are useful as greenhouse subjects or pot plants for conservatory.

	Each
4 in. pot.....	\$.50 to \$.75
5 in. pot.....	1.00 to 1.25
6 in. pot.....	1.50 to 2.00
7 in. pot.....	2.50 to 3.50

Larger specimen on application.

FICUS REPENS

FICUS REPENS (Climbing Fig)

A very attractive evergreen vine for covering stones, bricks or walls, clinging very closely. Somewhat slow grower at the beginning, but after once getting a hold, it is as lasting as it is beautiful.

	Each
In pot	\$.35 to \$.75

GELSEMIUM SEMPERVIRENS

(Carolina Jasmine)

An evergreen climber of easy culture with very fragrant yellow flowers which bloom very early in spring.

	Each
Small vine	\$.35
3 yr. old vine, B/B.....	1.25

HEDERA HELIX

HEDERA HELIX (English Ivy)

An evergreen vine with large star-shaped leaves, especially adapted to shady location, climbing on walls of brick, stone, or wood. A fine ground cover under trees, etc., where few plants succeed.

	Each
Small plant	\$.25 to \$.35
Medium plant	.35 to .75

VARIEGATED ENGLISH IVY

With variegated leaves of white and green. Very rare.

	Each
In pot	\$.50

KADZURA VINE

A hardy, evergreen climber with dark green, glossy leaves.

	Each
Large plant	\$1.00 to \$1.50

MILLETIA JAPONICA

(Summer Wisteria or Formosa Wisteria)

Leaves glossy dark green, flowers of dark purple delicately scented, borne on long racemes blooming gradually from base to tip

throughout summer. Nearly evergreen, and hardy as far north as Oklahoma.

	Each
1 year, small	\$.50
1 year, medium	\$.75 to 1.00
2 year to 3 year.....	1.25 to 2.00

TRACHELOSPERNUM

(Confederate Jasmine or Star Jasmine)

An evergreen vine bearing star-shaped, white, sweet-scented flowers which bloom from April till May. Can be trained to bush form by pruning.

	Each
3 yr. old vine, B/B.....	\$1.25 to \$2.00

WISTERIA

CHINESE WISTERIA

Well-known variety producing clusters of bluish-purple flowers, 7 to 12 inches long. Blooms before leaves appear.

JAPANESE WISTERIA

Similar to above, but flower clusters are pronouncedly longer. Can supply only in white color and large sizes (reaching 3 to 4 feet).

	Each
Medium plant	\$.75
Large plant	\$1.25 to 2.00
Specimen plant	3.00 to 5.00

JAPANESE PINK WISTERIA

A very rare variety. The flowers same as those of the other Japanese variety, borne in long racemes, and very attractive.

	Each
2 year plant.....	\$1.75 to \$2.50

FORMOSA WISTERIA (See *Milletia Japonica*)

PALMS

COCOS AUSTRALIS (Pindo Palm)

A very hardy palm, and one of the most beautiful, with its grayish-green pinnate leaves gracefully curving outward, then downward. Bears edible fruit of agreeable acid flavor. Especially recommended for a situation where a palm of too large size is not desired.

	Each
2-2½ ft., B/B.....	\$ 3.50
3-3½ ft., B/B.....	6.50
3½-4 ft., B/B.....	8.50
4-5 ft., B/B.....	\$12.00 to 15.00

CYCAS REVOLUTA (Sago Palm)

A handsome palmlike plant, reaching to 2 to 3 feet in height, with dark, waxy, green leaves growing outward from a stout trunk, forming a crownlike top. Very hardy; grows well in Gulf Coast region.

	Each
3 in. pot.....	\$.35 to \$.50
4 in. pot.....	.75 to 1.00

Larger specimen on application.

LATANIA BORBONICA

The Chinese Fan Palm. A fine decorative palm, rather slow in growth, therefore very suitable for displaying in pot or tub. It also does well in gardens.

	Each
4 in. pot.....	\$.50 to \$.75
5 in. pot.....	.75 to 1.00
6 in. pot.....	1.00 to 1.25
7 to 8 in. pot.....	1.50 to 2.00
In tubs 10 in. to 14 in.....	3.00 to 5.00

PHOENIX CANARIENSIS (Canary Island Date Palm)

One of the finest and hardiest palms for the Gulf Coast. Bright green, pinnate leaves of long and graceful form waving outward

from its rather short but massive trunk. Rarely surpassed in beauty.

In 12-14 in. tub:	Each
3-5 ft. high plants from field.....	\$4.00 to \$7.00
4-5 in. caliper, B/B.....	4.00 to 5.00
5-6 in. caliper, B/B.....	5.00 to 6.00

CHAMAEROPS

(Hair Palm)

C. HUMILIS (Hair Palm or European Fan Palm)

A dwarf, hardy palm of extremely slow growth. Very useful for small lawns and tub specimens or any formal position.

C. EXCELSA (Hardy Chinese Windmill Palm)

One of the hardiest palms; went through freeze of 1930 without much injury.

Prices and sizes of the above two varieties on application.

SABAL BLACKBURNIANA (Blackburn Palmetto)

A very hardy palm that stood the unprecedented freeze of 1930. Large, dark green leaves without horns. It is a slow grower, but attains a lofty height.

	Each
2-3 ft., B/B.....	\$1.50 to \$2.00
3-4 ft., B/B.....	2.25 to 3.00
4-5 ft., B/B.....	3.50 to 5.00

SABAL TEXANUM

Very hardy cabbage palm, withstanding zero weather.

	Each
1-2½ ft., B/B.....	\$.75
2-3 ft., B/B.....	1.25

WASHINGTONIA PALMS

WASHINGTONIA ROBUSTA

(Mexican Washington Palm)

A handsome, rapid-growing palm with large, fan-shaped leaves of bright green color. Trunk attains an immense height.

Plants from field:

	Each
2-3 ft., B/B.....	\$2.00
3-4 ft., B/B.....	3.00

W. FILIFERA

Very hardy variety which withstood severe test of recent freeze; although top was frozen, new crown came out from heart. In other respects same as above.

	Each
2-3 ft., B/B.....	\$2.00
3-4 ft., B/B.....	3.50

ROSES

Prices of Roses: Unless otherwise noted all our roses are \$.50 each; \$4.00 per dozen, or \$6.00 per dozen planted and guaranteed for 4 months from date of planting.

PINK VARIETIES

BABY ORLEANS (Orleans)

(D. P.) Clusters of bright pink flowers or flowerets well arranged.

CLIMBING COLUMBIA

(H. T.) Sport Columbia. Profuse bloomer from April to November. Very vigorous and resistant to disease.

CLIMBING PINK RADIANCE

An exact counterpart of bush Radiance except this is climbing form. Very new.....\$.75 ea.

COLUMBIA

(H. T.) Peach-blow-pink, deepening as it opens. Nearly thornless, free from mildew, strong grower.

COMMONWEALTH

(H. T.) Buds long, pointed; flowers deep pink, very lasting, large, double. Resistant to diseases. Constant bloomer. \$.60 ea.

FRANK W. DUNLOP

(H. T.) This one is better than Mrs. Charles Russell, which is its parent. Received silver medal for the best pink rose in the exhibition. Destined to be very popular.

JONKHEER J. L. MOCK

Very large, full, and fragrant; petals silvery rose inside, carmine-pink outside. Continuous bloomer.

KILLARNEY

(H. T.) Bright shell-pink. Long, pointed buds with large flowers. Very free and perpetual flowering.

LOS ANGELES

(H. T.) One of the finest roses ever introduced. The growth is vigorous and produces long-stemmed flowers of a bright flame-pink, shaded with yellow at the base of the petals. The buds are long and pointed.....\$.60 ea.

MAMAN COCHET

Large, full, coral-pink bloom flushed with carmine touched with yellow.

MME. CAROLINE TESTOUT

Large, rounded, bright satiny rose with dark center and soft carmine edges.

MRS. CHARLES BELL

(H. T.) (Shell-Pink Radiance) Shell-pink on salmon background, otherwise same as Radiance, from which it is a sport.

PAUL NEYRON

(H. P.) Deep rose, immense size. Hardy and vigorous.

PREMIER

(H. T.) Dark pink flowers of full size, fine form, and pleasing fragrance, borne on stiff, thornless stems from a robust plant.

RADIANCE

(H. T.) Brilliant rosy, opaline pink. Large, free and beautiful form with sweet fragrance. Hard to find its equal for outdoor and cut flower variety. Hardy and vigorous.

RED VARIETIES**AMERICAN BEAUTY**

(H. P.) The well-known red forcing rose.

BABY RAMBLER

Known for producing large clusters of small, double, brightest crimson flowers.

CHAS. K. DOUGLAS

(H. T.) Flaming scarlet, flushed with velvety crimson. Sweetly scented. Vigorous grower.....\$.60 ea.

CLIMBING AMERICAN BEAUTY

(C. H. W.) Strong, hardy grower everywhere. Rich red, passing crimson.

CLIMBING RED RADIANCE

An exact counterpart of bush Red Radiance, except this is climbing.\$1.00 ea.

CRUSADER

(H. T.) A rich crimson, double, strong and robust in every characteristic. A wonderfully free bloomer.

DAILY MAIL—Per. (Mme. Edouard Herriot)

Coral-red shaded with yellow and bright rosy scarlet. Made famous when it won the London Daily Mail gold cup.....\$.75 ea.

EDWARD MAWLEY

(H. T.) One of the finest of dark crimson roses. Received gold medal of the National Rose Society in England.

ETOILE DE FRANCE

(H. T.) Rich velvety crimson, large, double. Does well in hot sunshine.

FRANCIS SCOTT KEY

(H. T.) A heavy, double red rose. As a cut rose in summer and forcing rose in mid-winter this is unequalled.

HADLEY

(H. T.) Deep velvety crimson, retaining its color in all seasons. Flowers large, full and free with most delicate fragrance.

HOOSIER BEAUTY

Glowing crimson with darker shadings; very large and full, borne several together; buds large and pointed. Of exquisite fragrance.\$.60 ea.

MME. EDOUARD HERRIOT

See Daily Mail.

PAUL'S SCARLET CLIMBER

(Cl. H. W.) Vivid scarlet, shaded crimson, nonfading, semi-double flowers of medium size. Gold medal N. R. S. and Cory cup as best climber.

RED RADIANCE

(H. T.) A glowing crimson sport of Radiance, with all the magnificent qualities of the parent.

REINE MARIE HENRIETTA

A climber, congenial companion to the Marechal Niel. Flowers rich, brilliant crimson.

YELLOW VARIETIES

ALEXANDER HILL GRAY

(T.) One of the best and largest pure yellow tea roses yet introduced. A solid deep yellow throughout. Gold medal.....\$.60 ea.

CLIMBING MRS. AARON WARD

(C. H. T.) A climbing type of the well-known yellow rose. Vigorous and remarkably free bloomer.

GOLDEN OPHELIA

(H. T.) This is a sturdy, stiff-stemmed grower, with beautiful foliage, quite closely set, and glossy. The flower is of medium size from a beautifully formed bud of bright golden yellow. Profuse bloomer.\$.75 ea.

GRANDE DUCHESSE MARIE-ADELAIDE—H. T.

(Duchess of Luxemburg)

Deep orange-yellow rose of constant color and perfect form with delicate perfume. Buds long and fine. Stems long.

HUGONIS (Rosa Hugonis)

Single yellow, best hardy, yellow rose we know of and most popular species in the North.....\$.60 ea.

LADY HILLINGDON

Buds long, pointed; double blooms of peculiar and pleasing deep apricot-yellow. Free bloomer.

LUXEMBURG

See Grande Duchesse Marie-Adelaide.

MADAME BUTTERFLY

(H. T.) A sport of Ophelia, showing better growth with more and larger flowers, in a brighter pink, suffused with apricot and gold.

MARECHAL NIEL

(Cl. N.) Climbs to great height and yields beautiful golden yellow flowers in rich profusion. Fine, distinctive fragrance.

MRS. AARON WARD

Coppery-orange in open bud, golden-orange when partly developed, pinkish-fawn of lovely shade when fully open.

MRS. ARTHUR ROBERT WADDELL

The long, pointed, half-opened, unusually attractive buds of deep apricot are followed by graceful, loose-petaled, orange-salmon flowers. A continuous and abundant bloomer.....\$.60 ea.

MRS. DUDLEY CROSS—H. T. (Helen Good)

A delicate yellow, suffused with pink. The color, immense size, and exquisite form make it one of the greatest tea roses ever introduced.

OPHELIA

(H. T.) Takes high rank outdoors as well as in the greenhouse. Of attractive light salmon flesh, shading to yellow.

SOUVENIR DE CLAUDIUS PERNET

(Per.) The color is a definite and lovely sunflower-yellow, deepening in the center. Its color is retained indoors or outdoors, in bud and in bloom. The most popular yellow rose of today....\$.75 ea.

SUNBURST

(H. T.) Deep cadmium yellow with orange center. Large, full of beautiful form.

WHITE VARIETIES

ANTOINE REVOIRE

Bud and blooms large, camellia-shaped; color white, suffused with pink, base of petals yellow, deepening into rosy flash as flower matures. Vigorous and free-flowering.

BESSIE BROWN

(H. T.) Large, ivory white blooms with rich perfume.

CLIMBING KAISERIN AUGUSTA VIKTORIA

(C. H. T.) Pure white, shading to primrose at base of petals. A strong grower.

FRAU KARL DRUSCHKI

A magnificent pure white, perfectly double rose known as White American Beauty.

KAISERIN AUGUSTA VIKTORIA

(H. T.) Creamy white flowers of immense size. Smooth and nicely arranged.

WHITE AMERICAN BEAUTY

See Frau K. Druschki.

WHITE KILLARNEY

It is pure white in color, long in bud, of fine form.

WHITE DOUBLE KILLARNEY

Same as above, but flowers are double.....\$.60 ea.

WHITE MAMAN COCHET

A sport from Maman Cochet. Cream-white with edges flushed with rose.

BAMBOOS

(Bambusa)

B. METAKE (Arundinaria Japonica)

With very broad leaves, which are dark green and borne on slender stems; makes a fine ornamental plant in pot.

B. AUREA (Phyllostachys Aurea)

Height 10-15 feet. Easily recognized by the very short nodes at the base of the culms.

B. AUREA VARIEGATA (Golden Bamboo)

Has canes of a golden yellow penciled with green.

B. NIGRA (Black Bamboo)

Height 10 to 20 feet, stems green at first, changing to black, second year. Hardy and distinct.

B. FALCATA (Arundinaria Falcata)

Height 10 to 20 feet. Stems about $\frac{1}{2}$ in. in diameter.

B. GRACILIS (Dwarf Bamboo)

Height 10 to 15 feet; stems slender; leaves very small, about $\frac{1}{2}$ in. wide, 3 to 4 in. long.

	Each
Small division	\$.50 to \$.75
Medium division	.85 to 1.00
Large clump specimen.....	2.00 to 3.00

GRASSES

ARUNDO DONAX VARIEGATA

(Variegated Giant Reed)

Beautifully variegated with white and green while growth is new.

STRIPED EULALIA (Miscanthus Japonica Variegata)

Ornamental grass with fine variegated blades. Grows about 4 feet high.

STRIPED DWARF EULALIA

Similar to above, but very dwarf, and the variegation is clearer and more beautiful. Fine for window boxes, etc. Grows about 2 feet high.

SILVER PAMPAS GRASS (Cortaderia Sellowiana)

A fine ornamental grass with silvery white plumes.

PINK PAMPAS GRASS (Cortaderia Roi des Rosea)

Similar to the above, but plumes are bright pink when they first appear.

	Each
Small division	\$.50.
Medium division	\$.75 to 1.00
Specimen clump	2.00 to 3.00

YUCCA

YUCCA FILAMENTOSA

Leaves not rigid or stiff, flower stems 4 to 8 ft.

\$1.00 to \$1.50 Each

YUCCA FILAMENTOSA VARIEGATA

With foliage beautifully striped.....\$1.25 and \$2.00 Each

YUCCA GLAUCA

Very hardy, standing zero temperature, but slow grower; fine for pot or rockery plant.....\$.75 to \$1.25 Each

RED YUCCA (Hesperaloe Paroeiflora)

Rare native plant of West Texas and Mexico, with dark green, pliant leaves. Flower stalk 5 to 6 feet, covered with scapes of brilliant coral-red flowers from April till late summer. Best adapted to rock gardens.

	Each
Blooming sizes	\$.75 to \$1.50
Small sizes	.50 to .75

YUCCA RADIOSA

Stems attaining several feet, with dark green, stiff leaves. Flowers in spring and fall.

\$.75 to \$5.00 each, according to height of stems, 1 to 5 ft.

YUCCA RADIOSA VARIEGATA

A variegated variety of the above.

10 inches to 3 feet stems.....\$.75 to \$3.00 Each

SOTAL

(Dasylirion Serratifolium)

A palmlike plant best adapted as pot plant, requiring less moisture.

	Each
Medium plant	\$1.25 to \$1.50
Large plant	1.75 to 2.50

(Devil's Ivy)

Used for baskets and window boxes, etc.

In pot\$.25 to \$.75 Each

Terms and Conditions of Sale

PLEASE BE SURE TO READ BEFORE ORDERING

TERMS: Cash with order, or one-fourth with order for future delivery and balance payable before shipment, or upon delivery in case of customers in Houston or vicinity.

QUOTATIONS are f. o. b. Genoa, Texas, except to customers in Houston and enroute to whom stock will be delivered free of charges, provided the amount of order exceeds \$2.00. These prices are subject to change without notice. They apply only when selection of stock according to the catalog grading is left with us. In case individual plants are chosen by customers in the nursery, an additional 20 per cent over listed prices will be charged. On specimen plants on which we have established fixed prices, this rule does not apply.

APPLYING PRICES AND GRADES: Ten-rate will be allowed on five, and hundred-rate on fifty, of one variety. Where the assortment consists of a few each of many varieties, this rule will not apply. Grading classification covers the sizes including the lower limit and under the higher limit. Thus, 2-3 feet means anything from 2 feet up to, but not including 3 feet.

SUBSTITUTION: When out of varieties or sizes ordered, we will substitute with others as nearly similar as possible in variety or size, or in both, unless instructed to the contrary.

SHIPMENT BY MAIL: This is not encouraged except for stock mailable in small bundles or packages. In ordering plants for mail shipment, please add at least 15 per cent of the list price, to cover postage. B. & B. trees are usually too heavy to be sent by mail.

ADVANCE ORDERS BOOKED: These will be held subject to purchaser's order until February 1 of the current season. Should they not be taken up by that time, or no special arrangement be made for holding them further than the time specified above, they may be considered cancelled at our option, and the amount paid will be forfeited as liquidated damages, or the balance of purchase money become due at once, and goods purchased will be held at the expense of the purchaser.

We shall exercise every reasonable care and precaution in taking care of the stock purchased or booked for future delivery and shall endeavor to deliver it in the best condition when wanted. But our liability shall not extend further than this, and we are not to be held liable for loss arising from causes beyond our control.

We have wholesale catalogs of roses, lining out stock, and general nursery stock, for those who are in the nursery business. Requests for these catalogs will please show that applicant is in the business.

TRANSPORTATION AT PURCHASER'S RISK AND EXPENSE: All transportation charges are to be paid by the purchaser, and our responsibility for goods sold ceases upon their delivery, in good order, to forwarding companies. Claims for loss or damage must be made upon the latter. We shall, however, gladly assist customers in securing as prompt delivery as possible, and in the case of delayed freight shipment we will start a tracer immediately upon request. Every means at our command will also be offered to our customers to recover damages or losses that may have happened to stock during the transit.

GUARANTEE: We guarantee every plant we offer to be true to name, but should any prove to be otherwise through error, we will always hold ourselves ready, upon proper proof, to either replace them with correct variety, or refund the amount paid. In no circumstances, however, will we be liable for a larger number of plants, or a higher amount of money, than was originally involved. Where planting is done by us for our patron under special arrangements, such service will always include a three months' guarantee for the successful living of the plants, and excepting the result of the acts of Providence or otherwise over which we have no control, we will replace and replant those that were lost with others of equal quality, when such loss occurred during the life of the guarantee, on condition, however, that customer will explicitly follow our instruction in the care of the plants after our setting them out—a care which no real plant-lover will ever stint.

CLAIMS: Any error that we may make will be gladly rectified by us. As prompt attention is necessary in these cases, our customers are requested to enter such claims within five days after the receipt of the goods.
