[EDITION.

Bloomington Nursery

COMMENCED] BLOOMINGTON, ILLINOIS,

[IN 1852.

FOR THE

SPRING OF 1860.

F. K. PHOENIX,

PROPRIETOR.

Friends, our hearty thanks for past favors! Let this List with previous efforts bespeak our earnest intent to merit your further patronage.

With eighteen years experience in the business here and at Delevan, Wis., the Proprietor claims some knowledge of the varieties and modes of treatment best adapted to our peculiar soil and climate. Our facilities here, for prompt forwarding by either Railroad or Express, to all sections, are not excelled. We are but two days from Cairo and Dunleith, and but one from Chicago and St. Louis, by daily Freight Trains. Those familiar with the perishable character of trees and plants, and the delay, exposure and expense incident to lots brought on from the East—especially in our spring—usually so much earlier than theirs—will need no recommendation of ours, to induce them to buy West.

Our Establishment now covers nearly one hundred acres, to which large additions are annually made.

Particular attention desired to the stock of Apple Trees, Root Grafts, New Grapes, Small Fruits, Evergreens, Bulbs, Bedding Plants, and Ornamentals throughout, in all of which we believe our stock the largest and cheapest ever offered West.

Special Inducements on large cash purchases.

Remittances may be made by draft or express; if by mail, at sender's risk, though thus far safe.

TERMS AND CONDITIONS.

1.—Articles furnished at prices named, only when the number specified is taken.
2.—Particular varieties named in orders furnished as far as practicable, but we reserve the right to substitute others if necessary.

3.—Packing carefully done, for which, and delivery at Depot or Express Office here, the usual charge—per 1000 Apple Trees, 5 to 7 feet, \$5 to \$9, according to size and mode, baling or boxing—the latter being the most expensive. After packing and delivery at Depot or Express Office here, the proprietor cannot be responsible for losses by neglect or detention.

4.—TERMS CASH with order, or (where orders are from known parties, or through Express Agents) on delivery by Express. Our low prices, and the impossibility of realizing on time sales, must vindicate our terms. If orders cannot be filled the money will be returned.

Parties ordering, will please send EARLY, and be particular to state how they wish packages directed.

Expressing is confidently recommended on all small or perishable lots, or for great distances, where there are many re-shipments. Small plants, as Strawberry, Verbenas, Grapes, &c., will be sent by mail if desired.

We usually commence packing in the fall about the 15th of October, and in the spring by the 12th of March, or sometimes the last of February. For the South we frequently pack and ship during mild weather in winter.

The Prairies for Trees, and Trees for the Prairies! Fruit for the palate and health; bloom and beauty for the eye and our better nature; shade for summer and shelter for winter—our Homes can never be complete without Trees. Buy or buy not, but PLANT—at least trees from the groves, cuttings or seeds.
