ABBREVIATIONS AND MARKS

S.—Seedling.

G.—Graft.

R. C.—Rooted Cutting.

B/B—Balled and Burlapped.

N/B—Not Balled.

In flat—Planted in wooden flat, usually 100 plants in
a flat.

x—Once transplanted and xx—twice transplanted.

LINING OUT CONIFERS

All varieties are grown from cuttings unless followed by letter (S) or (G) designating seedlings or grafts, and have been transplanted at least once.

Arborvitae (BIOTA)—See *Thuja*.

Cedrus Deodara (DEODAR CEDAR) (S)—50 ft. One of the most beautiful and stately cedars with its towering pyramidal form and its silvery, feathery foliage.

Size	100	1000
4-6 in.	\$ 5.00	\$ 45.00
6-8 in.	7.00	65.00

Chamaecyparis Lawsoniana Alumi (BLUE LAWSON CYPRESS)—Select best type with very beautiful foliage of a metallic blue.

4-6 in. x	\$ 8.00
-----------------	---------

Cupressus Lusitanica Glauca (BLUE PORTUGUESE CYPRESS)—This group of Cypress has by far the most beautiful foliage and is not subject to the disease so peculiarly common to Arizona Cypress which we have abandoned growing for that reason. As seeds of all varieties of Cypress vary in color and in form of foliage we grew them from cutting in order to preserve the best type.

3-6 in., 2½ in. pot (Spring delivery).....	\$ 8.00
--	---------

Cupressus Sempervirens Royallii (ITALIAN CYPRESS)—Grown from cuttings of very narrow shaft like type, very compact in form, and will be absolutely uniform and true to type.

4-6 in., in pot.....	\$ 8.00	\$ 75.00
----------------------	---------	----------

Cupressus Sempervirens (ITALIAN CYPRESS) (S)—

4-6 in.	\$ 4.50	\$ 40.00
6-8 in.	5.50	50.00

Cupressus Sempervirens Horizontalis (HORIZONTAL ITALIAN CYPRESS)—This is a fast growing tree with horizontal or spreading branches and erect, straight trunk.

4-6 in. (S)	\$ 5.00	\$ 45.00
6-8 in. (S)	6.50	

Cupressus Torulosa Majestica (BHUTAN CYPRESS)—A fast growing pyramidal tree from the Himalaya deserving much wider planting in the Southern and Pacific States. Makes a dense broad pyramidal form.

6-8 in.	\$ 8.00
--------------	---------

Juniperus Chinensis Albo Variegata (WHITE VARIEGATED CHINESE JUNIPER)—Selected from the best strain with many beautiful creamy white variegations.

3-6 in., in flat	\$10.00	\$ 90.00
4-7 in. xx	17.00	

Juniperus Chinensis Femina (REEVES JUNIPER, J. SYLVESTRIS, J. JAPONICA SYLVESTRIS)—An upright, loosely pyramidal tree with uniquely spreading branches, foliage rather feathery, light green needle-like leaves. Very hardy and one of the finest Junipers for all sections.

10-15 in. xx 4 in. pot	40.00	

Juniperus Chinensis Masculina—Very similar to the above but branches straight and upright, more compact with beautiful blue-green foliage. A fine broad pyramidal tree and like other forms of *J. Chinensis* it is extremely hardy and not easily injured by temperature extremes.

4-6 in.	\$10.00
6-8 in.	12.00

Size	10	100	1000
------	----	-----	------

Juniperus Chinensis Pfitzeriana (PFITZER JUNIPER)—The most useful and popular Juniper in cultivation today and is the most satisfactory and beautiful low growing type adapted for terrace planting, about foundation and as specimen. Thrives equally well in the hot summers of the South and the cold winters of the North.

Bougainvillea, Crimson Lake —Introduced by the U. S. Dept. of Agriculture. Flowers are a little larger than the Glabra, and in coloring no other flowering plant can compare with its richness and brilliancy. On first opening, it is a brilliant crimson-lake, which color it retains for four weeks or more, after which it gradually passes to a crimson-carmine. The best subject for florists everywhere to grow in pots for all holiday occasions. It stands some frost and can be grown outside where temperature does not go below freezing.

Terms and Conditions of Sale

This price list is for the trade only, cancels all previous issues, and is subject to change without notice.

TERMS: 1. CASH—Cash before shipment, less 3%. No packing charge is made on cash orders, which means a total saving of nearly 10%.

2. C. O. D.—We require one-fourth of the amount of the order to be paid in advance of shipment, balance C. O. D.

3. CHARGE ACCOUNT—Our terms are strictly net after 60 days to customers who have established a credit with us. New charge accounts will be opened only upon receipt of satisfactory bank or trade references, allowing time for investigation.

PACKING: We take great pride in the thorough and careful manner of digging and packing plants for shipment and have received more compliments on the splendid condition in which our plants have been received in the past. We use our best judgment in handling each shipment to the best advantage of the customer, unless given special instructions.

TRANSPORTATION: Please state whether you want shipment by Parcel Post, Express or Freight. In most cases it is desirable to ship by Express, especially to distant points; however, small quantities of bare-rooted plants can be shipped by Parcel Post. Points near the main line of the Southern Pacific, Missouri Pacific, M. K. & T. or Santa Fe may often be reached by a through fast package car service at cheap freight rates. Unless given instructions we use our own judgment as to determining mode of shipment. Our responsibility, however, ceases on delivery of goods to carrier in good condition, and same travel at the expense and risk of purchaser.

CLAIMS: Any claim for shortage or adjustment must be made within five days after arrival of goods.

RATES: 250 of same variety and size at 1,000 rate.
25 of same variety and size at 100 rate.
5 of same variety and size at 10 rate.

When less than 25 of a kind are ordered where only the 100 rate is quoted the price will be 25% over the 100 rate. In no case will we fill an order for less than five of any one kind.

GUARANTEE: We exercise every possible care to have our stock true to name. Nevertheless it is understood and agreed that in case any of our stock should prove untrue to name, we shall be liable only for the amount paid for such stock which proves to be untrue. We book all orders with the understanding that they shall be void in case of injury to our stock from flood, frost, drouth, or any other cause or causes beyond our control.

INVITATION AND LOCATION: The best way to become acquainted with our many varieties of quality plants is to visit our nurseries which are located fifteen miles from Houston, Texas, and one and one-half miles south from Genoa, on the Houston-Galveston concrete highway. The Galveston-Houston Electric Railway (Interurban) stops hourly at our nursery grounds, the station being called AVIATION.
