OUR SEED LABORATORY

We take pleasure in announcing the establishment of a private seed laboratory. There are not many seed firms in the South who have them, and we believe ours is the first in Alabama. We are better prepared than ever to "pass" on the quality of the seed we sell and to furnish our customers the "reliable seed" they have a right to expect. We are not soliciting commercial testing business for the present.

Grown on both stiff and sandy soils, whether lime or acid. Sow 40 lbs. acre. Use inoculation and phosphate. This Pea has been carefully tested and approved by Black Belt Substation, Marion Junction, Ala. and in Louisiana. Write L.S.U., Baton Rouge, La., for extension Circular 249 on "Singletary Pea".)
