Red Top, 92.85/90%	.26	.25	.24 3/4

PLEASE TAKE NOTICE

When ordering less than 10 lbs. of an item please add 5c per lb. to the 10 lb rate. To arrive at the per bushel price (where seed are quoted in BAG LOTS by the bu.), add 25c to the highest price quoted. The 25c pays for the extra bag, extra handling, etc.

MARCH 20, 1948

D. & P. L. COTTON SEED

The cotton market is good. A large crop will likely be planted. Buy some fresh seed. Order today. We have as good as money can buy.

We have a limited amount of Foundation D. & P. L. 15 Cotton Seed. We are filling orders now, but it is impossible to fill any real large ones. There are definitely not enough of these seed to go around, so please cover your principal requirements with our good Mississippi State Certified DPL 14. See below. Quotations on cars on request.

The Miss. Blue Tag seed are one year from the breeders and Red Tag are two. The seed are delinted and Ceresan-treated. They were grown on large plantations near the DPL people and ginned on private gins. They are the nearest thing to Foundation seed that money can buy. The germination of all seed is 80% or better. All bags carry certified tags of the Miss. Seed Improvement Ass'n. We quote f. o. b. here as follows:

	Per Pound	100 lb.	500 lb.	2,000 lb.
Miss. Certified Blue Tag	.12	.11 3/4	.11 1/2	
Miss. Certified Red Tag	.11	.10 3/4	.10 1/2	

ALA. GROWN UNCERTIFIED (1st-Year)

D. & P. L. 14, 71% germ.	.08	.07 3/4	
D. & P. L. 14, 83% germ.	.08 1/2	.08 1/4	.08

(These DPL seed were grown by us from breeders' seed. They are first-year, and have been recleaned and sacked in new bags. They are not delinted or treated, but we can treat for 75c cwt. extra.)

Delivered prices by rail are		\$7.60	\$7.10	\$6.85

FUNK'S "G" HYBRID CORN FOR THE SOUTH

We are Associate Growers and Distributors for Alabama for Funk Bros. Seed Co., pioneer hybrid seed corn breeders of the country. They are doing more research on Southern hybrid corn strains than any other breeders. All our Hybrid corn grown in 1947 in Alabama. Treated with Arasan to give better stands and higher yields. Sacked in 1-bu., branded, cotton bags.

G-714 is offered again as the most satisfactory hybrid yet developed for such states as Ala., Ga., the Carolinas, Miss. and La. It is very prolific weevil-resistant, possesses excellent shuck coverage, and is of medium maturity. Its production record in tests and field plantings permits us to recommend it strongly for general use in Ala. and adjoining states. It usually produces two large golden ears having excellent grain quality. This is the best hybrid yet introduced in this area, in our opinion. However, for the upper halves of Ala. and Ga., G-717 is highly recommended. In the lower halves, it is not recommended for cribbing, but it is for hogging off. G-717 often outyields G-714 a little. Many fine records have been made with these Hybrids by farmers and in contests of F.F.A. and 4-H club boys.

Our hybrid corn is graded according to size and shape to obtain uniform plantings. Round grains will give as good results as flat and they cost less per bushel. You can plant rounds with your present planter if you have the correct plates. A plate thick enough for beans is usually ideal for rounds. Both rounds and flats are graded into small, medium, regular and large grains. We will try to ship your preference if you let us know. The larger grains make the best appearance but the smaller grains are cheaper to use because a bushel will plant more acres, and they give us just as good results. A bushel of our hybrid corn usually will plant 7 to 12 acres—depending on the size of grains, distance between stalks, etc. Ask for your copy of our 1948 illustrated Funk's Hybrid Corn folder.

You are urged to plant Funk's "G" Hybrids in 1948 for greater yields and larger profits. Many farmers who have planted G-714 have sent in gratifying reports. Some use it for roasting ears for market. The use of Funk's Hybrids is increasing rapidly. There must be a reason! Bookings are far ahead of schedule. You are urged to send your order in promptly.

	Per Bushel	2 1/2 bu.	10 bu.	25 bu.
(Ala. Grown. Arason-treated) Rounds Flats				
Funk's G-714 Hybrid, per bu.			\$11.90
