OUR SEED LABORATORY

We have had a Seed Laboratory for years to check and test the seed we buy and sell. This is for your protection and ours, and we know you appreciate the great value of this. Our analyst, Earl Lott, is a Registered Senior Member of the Society of Commercial Seed Technologists. His tests are acceptable to ASC in all states and to other agencies. There are only 107 Senior Analysts in the U. S.

WE FURNISH TESTS FOR ASC IF WANTED.

We do commercial testing also. May we do some for you? You will like our accuracy, promptness and reasonable rates. Show lot numbers on your representative samples. Mark them for "Seed Laboratory". We shall make complete tests unless you specify only purity or only germination. Will send you envelopes for mailing samples to us upon request.

ASC (PMA) PAYMENT RATES

ASC calls for different amounts per acre for various practices. Below we give the lowest to the highest. Farmers should consult their ASC office for amount to plant per acre. NOTE:—The uncertified Oras and Moregrains above came from fields yielding 100 bu. or more. They are extra bright and heavy. The Suregrains are stained some but real good. All our oats are high purity and germination.

The pedigreed and registered oats above are "clipped" and Ceresan-treated. The Coker Pedigreed are pure and good but cannot be certified as Coker Registered can.

PLANTER BOX TREATMENT

. . . on untreated oats, rye and wheat will pay, and pay big, in increased yields! Use 2 oz. per bu. A pink powder. Easy to use. Mix in drill box as you plant. This avoids having any treated seed left that you cannot feed.
