DREER'S SUPERB Narcissi, or Daffodils

There are no hardy bulbous plants which have more points of merit than the Narcissi or Daffodils. Perfectly hardy, growing and doing well in almost any and every position, sun or shade, moist or dry. All conditions seem to suit them although they have a preference for a good, deep soil and semi-shaded position and every vacant corner in the garden, amongst the grass, under the trees, etc., etc., could not be used to better advantage than by filling with Narcissus, and every hardy border should have a number of clumps interspersed through it. They are equally suitable for pot culture for winter flowering. Three or four bulbs can be put into a 5-inch or 6-inch pan or pot, and with the same treatment as given to Hyacinths, the dull winter and early spring months can be made bright with their exquisite gold and silver blossoms. But it is outdoors that Narcissus do best, and once planted need little attention, the clumps as a rule multiplying and giving larger and finer results each year.

GIANT TRUMPET NARCISSUS OLYMPIA

Giant Trumpet Narcissi

The Giant Trumpet sorts are the showiest of the genus, and also the most useful, growing easily either indoors or in the open ground. Everyone of the varieties of this type offered on this and the next page are deserving of extensive planting.

Emperor. This grand variety, while surpassed in size by some of the newer varieties, is one of the finest Daffodils in cultivation, pure yellow trumpet of very large size, and wide overlapping, rich primrose perianth; for bedding, naturalizing or growing in pots in the house it is unequalled. 15 cts. each; \$1.50 per doz.; \$11.00 per 100.

Empress. This fitting companion to Emperor is also of strong, robust growth, with fine large flowers; the perianth snow white, trumpet rich yellow, serrated and flanged at the edges; one of the best bicolors and of rare beauty for cutting. 15 cts. each; \$1.50 per doz.; \$11.00 per 100.

Giant Princes. One of the most popular; perianth sulphur-white; trumpet rich yellow. As a forcing variety it is superior in every way, and a fine sort to plant in quantity for naturalizing. 12 cts. each; \$1.00 per doz.; \$6.50 per 100.

Golden Spur. The most popular of the golden-yellow trumpets with cut flower growers, as it produces freely and early its handsome rich, deep yellow flowers. It is just as valuable out of doors as for forcing. Extra large double nosed bulbs. 20 cts. each; \$2.00 per doz.; \$14.00 per 100.

Herbert Smith. Flowers of immense size, light yellow perianth, long fluted yellow trumpet of noble form; strong sturdy grower. 25 cts. each; \$2.25 per doz.; \$15.00 per 100.

GIANT TRUMPET NARCISSUS ROBERT SYDENHAM

NOTE—Six or more bulbs one variety at dozen price, twenty-five or more at hundred price, postpaid.

Giant Trumpet Narcissi—Continued

King Alfred. This wonderfully beautiful Daffodil is considered the largest and finest deep golden yellow Trumpet variety. A tall, strong grower, with magnificent frilled trumpet and large perianth, all of a uniform rich golden-yellow of splendid heavy texture, lasting well. 25 cts. each; \$2.25 per doz.; \$15.00 per 100.

Mrs. E. H. Krelage. The exquisite flowers have a charm that immediately attracts and holds the admiration of everyone. Perianth pure white, a refined creamy white trumpet of perfect form with gracefully curled brim, which fades to a pure white as the flower matures. Long stemmed and equally good for forcing as for the garden. 30 cts. each; \$2.75 per doz.; \$20.00 per 100.

Olympia. This remarkably fine Daffodil might briefly be described as a greatly improved Emperor, being much larger in size and of a richer, deeper color. It is a wonderfully strong grower, with fine broad, blue green foliage, and its bold majestic yet artistic flowers are produced very freely. 25 cts. each; \$2.25 per doz.; \$15.00 per 100.

Prince of Wales. Large light yellow, bold and free flowering, long stems, extra. 20 cts. each; \$2.00 per doz.; \$14.00 per 100.

Robert Sydenham. A magnificent Daffodil, the massive flowers of wonderful substance are borne on strong stems 18 to 20 inches high. Wide, overlapping perianth of clear yellow with very large widely expanded nicely frilled golden yellow trumpet, under ordinary cultivation the blooms average 5 inches across. 30 cts. each; \$2.75 per doz.; \$20.00 per 100.

GIANT TRUMPET NARCISSUS VAN WAVEREN'S GIANT

Spring Glory. Clear white perianth with long petals and long chrome yellow trumpet; one of the showiest bicolors. 20 cts. each; \$2.00 per doz.; \$14.00 per 100.

Van Waveren's Giant. This is claimed to be one of the largest Narcissus. We have tried it many times, and it has always produced very large flowers. The huge blossoms are held erect on strong, stiff flower stalks, perianth soft primrose-yellow with an immense bright yellow trumpet. Strong vigorous grower, and just as satisfactory for growing in pots as it is for the garden. 25 cts. each; \$2.75 per doz.; \$20.00 per 100.

GIANT TRUMPET NARCISSUS
EMPEROR

NARCISSUS INCOMPARABILIS AUTOCRAT

CHALICE-CUP or MEDIUM TRUMPET NARCISSI or DAFFODILS

This class is also known as the chalice-cup or medium trumpets, and comprises some of the most beautiful and graceful forms. All are suitable for growing indoors in pots or pans, and are specially adapted for naturalizing, being of free growth and multiplying rapidly. They are becoming better known and more appreciated as newer varieties are offered, the red cups of many sorts add a brilliancy and brightness heretofore unknown excepting in the Poet's narcissus.

Bath's Flame (Barrii). Yellow perianth, deep yellow cup with broad edge of orange-red. The petals are very long, giving the flowers a distinct and outstanding character. 22 cts. each; \$2.00 per doz.; \$15.00 per 100.

Conspicuous (Barrii). Perianth soft yellow; broad spreading cup, magnificently illuminated with scarlet; a most distinct and beautiful sort, and should be grown in quantity for cutting, as it lasts longer when cut than most sorts. 12 cts. each; \$1.00 per doz.; \$6.50 per 100.

Firebrand (Barrii). The combination of creamy white petals and glowing red fluted cups really suggests live bits of coal resting on sheer inflammable material. A small flower when compared to the latest introductions, but not inferior to any of the most expensive in brilliancy. Very free flowering when established a year or more. 15 cts. each; \$1.20 per doz.; \$8.00 per 100.

Lady Moore (Barrii). Snow white perianth, yellow cup with deep orange edge. A beautiful substantial flower with good stems, very free flowering and easy to force. Very effective in the border or the rock garden. 22 cts. each; \$2.00 per doz.; \$15.00 per 100.

Red Chief (Barrii). White perianth, bold flat cup with broad band of bright crimson scarlet. 12 cts. each; \$1.10 per doz.; \$8.00 per 100.

Sir Watkin (Incomparabilis). "Giant Chalice Flower," or "Big Welshman." A gigantic flower, the largest in this section; perianth sulphur-yellow, cup slightly deeper in color and tinged with orange; fine for pot culture; in fact, does well everywhere. 15 cts. each; \$1.30 per doz.; \$9.00 per 100.

Bernardino (Incomparabilis). A very beautiful flower with large broad creamy perianth and very large pale cup prettily fluted and heavily stained deep apricot orange. A good free grower. 15 cts. each; \$1.20 per doz.; \$8.00 per 100.

Evangeline (Leedsii). A free-flowering, strong growing sort, pure white perianth and delicate primrose cup; charming for pots and for naturalizing. 12 cts. each; \$1.00 per doz.; \$6.50 per 100.

White Lady (Leedsii). An exquisite flower with broad pure white overlapping petals and dainty cup, prettily crinkled, of a beautiful pale canary yellow shade; very free bloomer and of great value for cutting. 12 cts. each; \$1.00 per doz.; \$6.50 per 100.

Autocrat (Incomparabilis). A showy and free-growing variety, with large star-shaped flowers, perianth rich yellow with deeper yellow wide expanded crown or cup; a splendid sort for pots or for outside planting. 15 cts. each; \$1.20 per doz.; \$8.00 per 100.

Lucifer (Incomparabilis). One of the showiest and most striking varieties; the flowers, which are produced with remarkable freedom, are of large size, the perianth pure white, while the crown or trumpet is a brilliant orange-scarlet, the contrast being decided and producing an effect that attracts the attention of everyone. We strongly recommend this unusually brilliant Daffodil. 12 cts. each; \$1.00 per doz.; \$7.00 per 100.

Whitewell (Incomparabilis). One of the very best bicolor Incomparabilis. Petals pure creamy white, bold open crown of that strong yellow which is a near approach to orange. Excellent size and texture, a friendly substantial flower slightly facing upwards from 18 inch stems, attractive garden variety. 20 cts. each; \$1.75 per doz.; \$12.00 per 100.

Narcissus Poetaz

(Cluster-Flowered Daffodils)

These are a cross between the Poeticus and Polyanthus types, partaking largely of the former in the size and form of the individual flowers, and also inherits the strong, free growth of their Poeticus parentage. Excellent for forcing in pots or pans, also out of doors if given some protection during the winter.

Cheerfulness. Double white Poetaz hybrid, 3 to 4 large flowers on a strong stem. While the general effect of the coloring is white, there is a suggestion of pale yellow at the base of the petals. A wonderful show variety, and of proven hardiness in New England. 20 cts. each; \$1.75 per doz.; \$12.00 per 100.

Elvira. Very free-flowering, producing a number of stems to a bulb; each bearing 3 to 4 large flowers, with broad, heavy white petals and a bright yellow cup, edged orange-red. 10 cts. each; \$1.00 per doz.; \$7.00 per 100.

Helios. The best yellow variety. Petals soft primrose-yellow, deep golden-yellow cup; flowers of good size, produced in clusters of 5 to 7 or more. 15 cts. each; \$1.50 per doz.; \$10.00 per 100.

Laurens Koster. One of the latest introductions, and producing very large flowers; perianth pure white, deep orange-yellow cup prettily fluted. 5 to 7 flowers on a stem. 10 cts. each; \$1.00 per doz.; \$7.00 per 100.

NARCISUS POETICUS THELMA

The Poet's Narcissus

(Narcissus Poeticus)

This is the old-fashioned favorite type; all have snowy white flowers, with yellow or lemon cups margined more or less deeply with red and with rich, spicy odor. All do well in the open border, or naturalized in grass, are perfectly hardy, and once planted take care of themselves.

Poeticus (*Pheasant's Eye* or *Poets Narcissus*). Flowers snow-white, with beautiful lemon-yellow cup edged with bright orange-red. 8 cts. each; 75 cts. per doz.; \$5.50 per 100; \$45.00 per 1000.

Double Narcissi or Daffodils

No collection of *Narcissus* is complete without the double-flowering sorts. While not as attractive as many of the single varieties, and lacking variety of coloring, they possess a charm peculiarly their own. All are perfectly hardy and are much in demand for cutting.

Alba Plena Odorata (*Double Poet's Narcissus* or *Gardenia Daffodil*). Pure white, beautiful, with the delightful fragrance of orange blossoms. Strong stems. Blooms very late and seems to prefer a cool soil and semi-shaded position. In some situations the buds blast every year or the flowers come single, then again whole patches can be found near old homesteads in New York and Connecticut which produce masses of excellent double flowers every season. This beautiful variety cannot be forced or grown indoors. 15 cts. each; \$1.50 per doz.; \$10.00 per 100.

Argent. Alternate rows of pure yellow and larger pure white petals. A long stemmed double flower of very graceful form. Open faced and friendly looking. The texture of the white petals glistens as if dusted with silver. Free-flowering midseason bloomer. 15 cts. each; \$1.50 per doz.; \$10.00 per 100.

Orange Phoenix (*Eggs and Bacon*). Light citron with orange centre; a beautiful artistic blossom and easily forced. 15 cts. each; \$1.50 per doz.; \$10.00 per 100.

Primrose Phoenix. A very beautiful Daffodil with large double rose-shaped flowers of a lovely soft tone of lemon. Very free-flowering. 18 cts. each; \$1.75 per doz.; \$12.00 per 100.

Sulphur or Silver Phoenix (*Codlins and Cream*). Creamy white with pale sulphur centre. One of the finest double sorts. 15 cts. each; \$1.50 per doz.; \$10.00 per 100.

Van Sion (*Telamonius Plenus*). The famous old Dutch Daffodil; flowers golden yellow; also excellent for bedding in conjunction with Hyacinths, flowering at the same time and presenting a beautiful contrast when used with a blue variety. *Extra Selected Double-nosed Bulbs*. 18 cts. each; \$1.75 per doz.; \$12.00 per 100.

Dreer's Select Single Early Tulips

The Tulip is always attractive from its beauty and brilliancy of color; and is one of the popular early spring flowers. A few bulbs, scattered here and there produce but little effect, but when planted in masses or in groups, they become at once grand and brilliant, and eclipse in variety of coloring and picturesque effect almost any other flower. We only offer such kinds as can be used with perfect success either indoors or out in the garden. Tulips require cultural treatment similar to Hyacinths; the bulbs, being smaller, should not be planted so deep. When grown indoors, put 6 bulbs in a 6-inch pan or pot.

Moss, Imported Peat. Imported Peat Moss should be used in generous quantities about plantings of azalea and rhododendron. Its incorporation with the soil in such locations more nearly reproduces soil conditions in the natural habitat of such plants than can be obtained through any other medium excepting leaf mould. It is excellent for lightening heavy soils, while the addition of one part peat to two parts of soil produces a most satisfactory medium in which to start flower seeds or root cuttings. As a mulch for the rose bed or flower garden it has no equal, since it will both conserve moisture as well as keep weeds down to a minimum. 25 lbs., \$1.00; 50 lbs., \$1.50; 100 lbs., \$2.50; per bale, sufficient to cover 250 square feet one inch deep, \$3.50; 5 bales. 15 00

This fertilizer, made in accordance with our specifications, contains the correct proportions of nitrogen, phosphoric acid and potash, that assures vigorous, sturdy plant growth. Equally good for pot plants as well as in the flower and vegetable garden, while the lawn will thrive luxuriantly when dressed with Peerless Plant Food at the rate of five pounds to five hundred square feet of surface several times during the growing season. $\frac{1}{2}$ lb., 15 cts.; by mail, 25 cts.; 1 lb., 25 cts.; by mail, 40 cts.; 5 lbs., 50 cts.; 10 lbs., 85 cts.; 25 lbs., \$1.75; 50 lbs., \$3.00; 100 lbs., \$5.00.

Lawn Mowers and Accessories

The best mower is the cheapest in the end

A lawn mower is not merely so many pounds of wood and metal; it is so many years of efficient, trouble-free grass-cutting. One mower, for instance, might give you twenty or more years of such service, whereas another might give you only two or three. So, it is clear that the best lawn mower, fairly priced, is *always* cheapest in the end.

The Dreer Mower is nationally known as a quality machine. It is designed throughout to make grass-cutting easier, quicker, better. And it is built only of materials that will enable it to give many years of efficient service at a minimum cost for maintenance and repairs.

Lawn Cleaners

The **Pennsylvania Lawn Cleaner** will remove from the lawn not only the cut grass, but all sorts of litter, leaves and trash.

The suction created by the three rapidly revolving brushes (or rakes) cleans the lawn on the same principle as the vacuum cleaner operates on carpet. It is easy to operate, and with it one man will do more and better work than four men with hand rakes.

The brushes are recommended for removing worm-casts from putting greens and tennis courts where a smooth surface is essential.

A BEAUTIFUL LAWN MADE WITH "THE DREER" LAWN GRASS

DREER'S CELEBRATED LAWN GRASS SEEDS

The "Dreer" Lawn Grass

This is by far the best mixture of grasses offered for the purpose of quickly producing a permanent lawn. It is prepared from our own formula, and is a careful blending of varieties adapted to producing the thick growth and velvety appearance so much sought after. Each variety of grass in its composition is there for a special purpose; some for making strong fibrous roots, which take hold upon the soil and keep the turf in place, others of a creeping nature quickly fill up any bare spots which may be caused by the taller sorts dying down; varieties which are useful for their color value, and also kinds that are able to withstand the beating down of excessive rains. Per pt., 25 cts.; per qt., 45 cts.; 4 qts., \$1.40; peck, \$2.50, prepaid. By express or freight, at purchaser's expense, $\frac{1}{2}$ bushel (10 lbs.), \$4.50; bushel (20 lbs.), \$9.00; 100 lbs., \$44.00.

Dreer's "Evergreen" Lawn Grass

This special mixture produces beautiful and permanent lawns. It is made from our own formula, and composed of grasses which are adapted for the purpose of producing turf which retains its rich green color and velvety appearance throughout the entire summer and fall. In making up this brand we are careful to use only seed that has been thoroughly recleaned. Per pt., 20 cts.; per qt., 35 cts.; 4 qts., \$1.25; peck, \$2.00, prepaid. By express or freight, at purchaser's expense, $\frac{1}{2}$ bushel (10 lbs.), \$3.50; bushel (20 lbs.), \$7.00; 100 lbs., \$33.50.

"Fairmount Park" Lawn Grass

This popular, low priced mixture is well suited for various soil conditions, giving good results even in small city grass plots, where the soil is generally stiff and heavy. It will form a thick turf in a very short time and is well suited for lawns and other spaces having considerable hard wear. It is also valuable for use on embankments and terraces, also for renovating old, worn-out lawns. Per pt., 15 cts.; per qt., 25 cts.; 4 qts., 95 cts.; peck, \$1.75; prepaid. By express or freight, at purchaser's expense, $\frac{1}{2}$ bushel (10 lbs.), \$3.00; bushel (20 lbs.), \$6.00; 100 lbs., \$28.00.

"Seashore" Lawn Grass

A rich, green lawn is especially desirable at the seashore, but unless the right mixture of grasses and clover are used the result will be disappointing. Our Seashore Lawn Grass is composed of strong-rooted varieties which quickly produce a good turf. In preparing the land it should first be top-dressed with about four inches of good soil, as grass will not grow well in sand, but the seeds will quickly germinate in the top-soil and make strong roots, which reach down into the sand for moisture. In order to keep the seaside lawn in good condition it should be watered liberally every evening, and also have an occasional application of our sterilized Sheep Manure in order to keep up a vigorous growth. Per pt., 25 cts.; per qt., 45 cts.; 4 qts., \$1.40; peck, \$2.50, prepaid. By express or freight, at purchaser's expense, $\frac{1}{2}$ bushel (10 lbs.), \$4.50; bushel (20 lbs.), \$9.00; 100 lbs., \$44.00.

Dreer's "Shady Place" Grass

Usually it is quite difficult to obtain a satisfactory growth of grass under trees and in shady places. For sowing in such places we recommend the use of this special mixture. It will quickly produce an abundant and even growth of beautiful green grass. The grasses used in making this special mixture are only those that are well adapted for growing in shade, and as it blends well with our regular Lawn Grass Mixture, it may be used on those portions of the lawn which are shaded by trees, buildings, etc., thus covering the whole area with a rich green sward. In spring give a light reseed, then a top dressing of finely screened soil or sand, together with Bone Meal. This will repair the damage done by the winter rains. Per pt., 25 cts.; per qt., 45 cts.; 4 qts., \$1.40; peck, \$2.50, prepaid. By express or freight, at purchaser's expense, $\frac{1}{2}$ bushel (10 lbs.), \$4.50; bushel (20 lbs.), \$9.00; 100 lbs., \$44.00.

"Southern" Lawn Grass

It has heretofore, always been a difficult task, in tropical and semi-tropical climates, to keep the lawn attractive, but we can recommend this special mixture of Grass Seeds, peculiarly adapted by maturing at different seasons, for providing an all the year round green lawn in Southern States, subjected as they are to long hot summers. With this seed and given the usual attention in the way of watering and fertilizing, an excellent lawn may be maintained. Per pt., 25 cts.; per qt., 45 cts.; 4 qts., \$1.40; peck, \$2.50, prepaid. By express or freight, at purchaser's expense, $\frac{1}{2}$ bushel (10 lbs.), \$4.50; bushel (20 lbs.), \$9.00; 100 lbs., \$44.00.

Dreer's "Terrace" Lawn Grass

Ordinary lawn grass will not hold the soil on terraces and embankments, which require a thick turf, composed of varieties which make strong roots to take hold of the soil and prevent washing by heavy rains. Our Terrace Grass is a carefully prepared combination of such grasses as will fill the requirements by making a quick growth of grass which will form a strong mat and present a good appearance. It will grow well anywhere, but it is best to enrich the soil with our sterilized Sheep Manure, or with Bone Meal, in order to provide nourishment to the young roots and give a vigorous start to their growth. Per pt., 25 cts.; per qt., 45 cts.; 4 qts., \$1.40; peck, \$2.50, prepaid. By express or freight, at purchaser's expense, $\frac{1}{2}$ bushel (10 lbs.), \$4.50; bushel (20 lbs.), \$9.00; 100 lbs., \$44.00.

White Dutch Clover Seed

Excellent for use on lawns; forms a close very dwarf herbage and remains green throughout the season, and it is particularly suited to seashore lawns where it is difficult to secure a good stand of grass on the light sandy soils. We furnish the choicest grade of recleaned seed. Oz., 10 cts.; $\frac{1}{4}$ lb., 30 cts.; $\frac{1}{2}$ lb., 50 cts.; lb., 95 cts., postpaid. By express or freight, at purchaser's expense, lb., 85 cts.; 5 lbs., \$4.00; 10 lbs., \$7.75; bushel (60 lbs.), \$45.00; 100 lbs., \$75.00.
