CANNAS—Continued

Orange Bedder—This is a particularly useful and attractive bedding variety, of a bright orange with just enough scarlet suffusion to intensify the dazzling mass of color.

Four feet45 3.00 25.00

Panama—The color of this splendid Canna is unusual, being an attractive rich orange-red with a well-defined edge of bright golden yellow. The flowers are very large, the petals being almost round and the immense spread of the individual blooms, coupled with the early, free-flowering habit and unique colorings make this Canna most noteworthy. Three feet40 2.50 20.00

San Diego—Persian yellow, with crimped petals. Four feet50 3.50 30.00

The President—A gorgeous variety producing great trusses of bright red flowers in great profusion50 3.50 30.00

Yellow King Humbert—Orchid flowering; 4 feet. Foliage tropical green; flowers rich yellow, softly spotted and blotched with bright red60 4.00 35.00

Wintzer's Colossal—Five feet. Without doubt the largest-flowered Canna to date, as the average flowers almost cover a man's hat. The color is a strikingly vivid scarlet that retains its brilliancy45 3.00 25.00

Liliums

LILIUMS (Hardy)

We offer only native grown liliums. We, therefore can supply bulbs early in the fall when lilies should be planted if they are to give satisfaction.

Poor results in growing hardy lilies are due, mainly, to two causes: First the use of imported bulbs. These are not obtainable until too late for them to be planted and to become established in the ground before freezing weather. Second the attempt to grow kinds and varieties that are not adapted to being grown here.

We confine our growing to those kinds and varieties that we know will succeed under a wide range of soil and climatic conditions and with only ordinary care.
