PRICE LIST

1916

WE have given prices on varieties and sizes of stock most widely planted. We have growing in our nurseries many varieties and sizes of trees and plants not mentioned in our catalog, especially suitable for planting on large estates, in parks, cemeteries, etc. We will be pleased to quote prices to any one desiring different sizes, or stock in larger quantities than offered herein.

Insects and Diseases

Our nurseries are free from these. Certificate of State Entomologist is attached to every shipment.

Bridgeport Nurseries,

Address All Correspondence to

C. M. Hobbs & Sons

Bridgeport, Marion County, Indiana

Substitution

We have found many of our customers desire us to fill their order complete by using our good judgment in selecting varieties for them in case we were short of varieties ordered. Many times we can better the selection, but if you do not wish us to use our judgment in selecting varieties to take the place of those that may be exhausted, kindly mark on the face of your order, "No Substitution," and we will gladly refund balance of your remittance.

Guarantees

In growing and furnishing all nursery stock, we use the greatest care to have it true to name, and will replace any that may prove untrue, free of charge, or refund purchase price. We shall not be liable for more than the purchase price. Every purchase from us is made on these terms.

We do not guarantee stock to grow, or results in any way. No complaint will be entertained that is not made immediately upon arrival of stock at destination. There are so many causes for failure over which we have no control that we can assume no responsibility after stock is delivered in good order. Poor soil, unfavorable weather, ignorant or careless culture—all contribute to failure and all are beyond our control.

A catalog as extensive as this, must of necessity offer some plants of difficult culture, and, when these are ordered, we presume the people ordering them have the knowledge needed for their culture. Successful results require knowledge, enthusiasm and perseverance, and these we can not supply, but we shall be glad to make selections from the hardier class of plants for the people who wish them.

Prices

Prices are at the each, 10, 100 and 1,000 rates. Trees are tied in bundles of 10 each. The 100 and 1,000 rate prices will be allowed only on unbroken bundles and for the full number of trees of the same class of stock.

For example, the 100 rate will be allowed on 10 unbroken bundles of apples of different varieties. The 1,000 rate will be allowed on 100 unbroken bundles of apples of different varieties.

Vines and small fruit plants are tied in bundles of 10 and 25. The 10, 100 and 1,000 rates will be given for unbroken bundles and the full number.
