SEEDS

FOR

FLOWERS

AND

VEGETABLES

Flowerfield's seeds are of the same high quality as our justly famous plants and bulbs. In this separate catalog we offer a very choice list of seeds for annual flowers and vegetables. Furthermore, we have adopted the method of listing the annuals in separate groupings, such as annuals that are best started early, annuals that need not be transplanted, and so on.

The vegetable listings have been selected with the home gardener in mind and only the improved and tested strains are offered. It is the purpose of Flowerfield to enable the gardener to enjoy quantities of flowers from spring until frost; with an abundance of vegetables to harvest throughout the season.

Every one of our Patented Packets contains a generous supply of fresh seeds. Every packet bears a sturdy wooden stake, permanently printed with the name of the variety.

DIANTHUS—WESTWOOD BEAUTY

ALL-AMERICAN SELECTIONS FOR 1946

DIANTHUS—WESTWOOD BEAUTY is a charming new introduction with so many fine characteristics that we recommend it without reservation. The single dark red flowers with deeply fringed edges measure two inches across, and are carried on wiry strong stems, making them excellent for cutting. The plant grows from 10 to 15 inches tall, is early and free blooming, stands the heat well and will produce as many as 26 to 52 flowers in good condition at one time. Seed started early in the cold frames or indoors will insure a longer period of bloom. Pkt. 25¢

PETUNIA—COLOSSAL, SHADES OF ROSE Enormous blooms 4 to 5 inches across, of fully double form, in shades of rose from light pink to deep rose. The plants grow about 18 inches tall with heavy stems and luxuriant foliage of strong and vigorous growth. A Silver Medal winner.

Flowerfield's

PROFESSIONAL

SEED FLATS

Flowerfield's Seed Flats, for starting annuals indoors early, are the professional kind used at Flowerfield for seed starting and plant development.

Flowerfield's sturdy *Pine* seed flats are shipped already assembled. (Sold in pairs only.)

"To start seeds indoors" see page 6.

Handy Seed Flats are 12" wide, 16" long and 2 3/4" high, large enough to accommodate 48 plant bands.

2 SEED FLATS AND 50 PLANT BANDS

\$2.00

Add 25¢ for mailing west of the Mississippi

PLANT BANDS

VITA-BANDS are scientifically treated with nutrients to promote vigorous, well balanced growth.

Extra Plant Bands, 50 for 50¢

Seedlings, started in plant bands, do not experience the usual 1 to 3 week setback when transplanted.

QUICKLY SET UP

Pick up the flattened VITA-BANDS

Open and squeeze opposite corners

Set open plant bands in place

EASY TO USE

Fill the plant bands with shovel

Firm the soil into place and level off

Plant the seedlings in usual way

Especially recommended for Petunias, Snapdragons, Stocks, Verbenas, Carnations, etc.

Highest Quality PETUNIAS

~ GIANTS OF CALIFORNIA ~

1. **KING ALFONSO** The rich deep crimson of this heavily fringed flower is set off by a very deep dark throat. Pkt. 75¢
2. **RUFFLED BEAUTY** This fringed and fluted, shell pink beauty is accented with deep purple veins and a lighter throat. Pkt. 75¢
3. **LILAC QUEEN** The lovely true lilac-blue of this large variety is splendidly etched with purple veins. Pkt. 75¢
4. **GIANT SILVER ROSE** Delicate, beautifully fluted flowers in a lovely soft rose-pink that has a silver sheen. Pkt. 75¢
5. **PRINCE OF WUERTEMBERG** Very large rose flowers, deeply veined and heavily frilled. Pkt. 75¢

THE LARGEST FLOWERED OF ALL PETUNIAS

FIRST LADY

FINE PETUNIAS

For masses of flowers all summer long, nothing can equal the Petunias. They are the most widely and diversely used of all annuals. In wide beds, in window boxes, along edges of walks, at the seashore, wherever you plant them, the picture is always attractive.

For best results, it is advisable to start Petunias indoors the first of April, or in a cold frame later in April, so that well-developed plants will be ready by warm weather to give immediate effect in the garden. With no particular further care, masses of flowers will be yours for the rest of the season.

RUFFLED AND FRINGED VARIETIES

A new strain that has become increasingly popular for more general use in the border, for pot culture, window boxes and edgings. The immense flowers are 3 to 5 inches across with deeply fringed edges and heavily veined throats.

LACE VEIL Pure white flowers with delicate creamy throats. Daintily fringed 3 inch blooms. Pkt. 35¢

LADY GAY Pure white edged and striped with claret rose, most deeply fringed. Pkt. 35¢

GLAMOUR Huge ruffled blooms of luscious salmon-rose, delicately veined creamy throats. Flowers start when the plants are only 5 to 6 inches tall. Bloom all season. Pkt. 35¢

RAMONA STRAIN A sturdy dwarf type especially suited to pot culture. The pale pink to dark rose and red flowers are beautifully ruffled and fringed. Pkt. 35¢

ROMANY LASS Dark red 5 inch blooms with purplish black throat; striking gypsy-like color. . . Pkt. 35¢

SUPER FLUFFY RUFFLES Giant flowers in shades of rose and pink are so ruffled and frilled as to appear almost double. Pkt. 35¢

THEODOSIA Clear rose-pink flowers with yellow throats. Abundant flowers on 12 inch plants. Illustrated. Pkt. 35¢

WHITE BEAUTY Pure white flowers with delicate green veins in the throats. Of enormous size, 5 in. across. Illustrated. . . Pkt. 35¢

COLLECTION—Any five for \$1.50

SUPER FLUFFY RUFFLES

SNOWSTORM

PANSIES

The improved Swiss Giant Pansies represent the finest strain of Pansies offered in separate colors. The flowers are huge, of rich coloring and have long strong stems. For Summer bloom start the seeds in March, either indoors or in a protected cold frame. Plant out in a cool, half shaded location and they will bloom in June and continue, (if kept cut) until frost.

Sow additional seed in July or August, protect them over the winter, and obtain the earliest Spring flowers for your garden.

ANNUALS to be

The annuals listed on these two pages are among the loveliest of all. But to appreciate a full enjoyment of their bloom from June until frost, they must be started early. If a hotbed is not

STOCKS

Heavy spikes of handsome, fragrant flowers in brilliant clear colors (see front cover). The new Giants of California Stocks are noted for their high percentage of double flowers. Plants grow about 30 inches tall and branch freely from the base. To enjoy a long flowering period, seeds should be sown as early as February and March in pots or boxes and the small plants transplanted singly in pots until ready for setting out. They will then begin to bloom in early June and continue until frost. The new Giants of California Stocks are also excellent for Greenhouse forcing.

LONG-BLOOMING VERBENAS

Verbenas flourish in any soil and bloom from June until frost. Excellent for use in garden. Seed started in March will produce flowers by June, early enough to enjoy throughout the Summer. Flowerfield offers only the new Hybrid Grandiflora type. Each plant bears 10 to 12 stems carrying huge trusses of flowers. Height about one foot and of robust and spreading growth.

TO START SEEDS INDOORS

Use shallow receptacles or flats with holes for drainage. Place a layer of pebbles or ashes on the bottom. Sift together a mixture of garden soil, clean sand and some leaf mold. Sow seeds on surface in drills or rows. Gently press into soil. Do not cover fine seeds. Mark each variety with the wooden plant stakes supplied with each packet of Flowerfield seeds. Keep soil moist, not wet. Shade receptacle with newspaper or burlap until seeds sprout. Remove covering and place in a warm light location. When the seedlings show two leaves, transplant to stand two inches apart. Transplant outdoors later.

STARTED EARLY

available, they can be started indoors with equal success. With very little trouble these annuals will be the first to bloom and among the last to go.

ANTIRRHINUMS

SNAPDRAGONS

Aristocratic annuals with beautiful, interesting flowers and clean shiny foliage, widely useful in the garden. Use them to "fill in" the perennial border. Be ready to transplant them amongst the tulips (their foliage will hide the ripening tulip tops), for masses of color anywhere in the garden. Cut back after the first blooming, they will flower again throughout the summer until frost. The three classes offered below differ mainly in the matter of height. All are rust-resistant.

Super Giants (Antirrhinum Maximum)

Tall (3 foot) class for backgrounds, ideal for replacing blooms of tulips and daffodils. Separate colors offered permit continuance of any color scheme already established in the spring garden.

ALASKA.....Pure white
APPLE BLOSSOM.....Rose pink
INDIAN SUMMER.....Copper red
CRIMSON KING.....Crimson red
RED CROSS.....Red, white tube
YELLOW GIANT.....Bright yellow
MIXED GIANTS.....Mixture of all colors

Any of above: Pkt. 25¢

Collection of six separate colors: \$1.25

Bedding Varieties (Majus Grandiflorum)

Of medium height (2 feet) for mass bedding or for clumps of color in the border. Base branching with long stems for cutting.

DEFIANCE.....Bright scarlet
ROSALIE.....Deep rose with glint of amber
PINK GLORY.....New shade of soft salmon rose
REVEILLE.....Clear yellow
MAJUS EXQUISITE MIXED.....A fine all-color blend

Any of above: Pkt. 25¢

Collection of four separate colors: 90¢

Dwarf Giants (Nanum Grandiflorum)

These bushy 12-inch plants hug the ground, yet carry large flower spikes in very bright, clear colors. Extra fine for foreground and for edging.

AMBER AND GOLD.....Yellow suffused pinkish amber
DUBARRY.....Salmon-rose with yellow tube
RUBY.....Carmine-crimson, lovely for contrasts
WILD FIRE.....Bright orange scarlet
NANUM JEWEL MIXED.....Mixture of jewel colors

Any of above: Pkt. 25¢

Collection of four separate colors: 90¢

CARNATIONS

CHAUBANDS IMPROVED GIANTS Large, beautifully formed flowers, many of them elegantly fringed and in some instances as large as greenhouse carnations. They bloom in three months from seed and continue blooming until frost. Mixed colors of crimson, white, pink and yellow.

Pkt. 35¢, 3 Pkts. \$1.00

AMBER AND GOLD

PRINCESS BONNIE

PRINCESS ASTERS

A delight to the home gardener who wants a good cut flower for the house that will keep well. Flowers are 3 to 3½ inches across and have full crested centers, surrounded by strong guard petals. Grow 18 to 24 inches tall and bloom in mid-August.

PRINCESS BONNIE A very beautiful soft salmon-rose shade with the center rich gold while opening. Pkt. 25¢

PRINCESS ANNE The color of a peach blossom, opening a delicate pink and turning rose-pink. Pkt. 25¢

GIANT CREGO

Flowerfield's ASTERS

(ALL WILT RESISTING)

Asters, unsurpassed as cut flowers, may be planted in the mixed border. Since the cutting garden is handled much the same as the vegetable garden, it is well to remember that asters should be started at the same time as tomatoes. Seed sown in the hotbed (or seedpans in the house) will produce fine plants within five weeks, ready to set out when the weather is warm. A few of the earliest varieties may be sown in the open ground in May. Asters prefer a rich, well-drained soil and plenty of sunshine. It is important to plant in new soil each year.

EARLY GIANT CREGO ASTERS

These are the giant blooms with twisted, curled and interlaced petals. All stem from the base of the plant, providing long stems for cutting. This list includes only varieties that we know to be very dependable under ordinary garden culture.

DAWN BLUE Lavender with a bluish cast. Plants 18 inches tall. (See illustration.) Pkt. 25¢

ROSE MARIE Beautiful flowers of rich rose, blending well with other colors in arrangements. 18 inches tall. Pkt. 25¢

EL MONTE *Super Giant Asters*. Wonderful deep growing crimson 6- to 8-inch flowers. Plants 2½ feet tall. 25¢

LOS ANGELES *Super Giant Asters*. Huge flowers, 6 or 8 inches across, of delicate shell-pink. 2½ feet. Pkt. 25¢

NAVY BLUE First of a new race of large-flowered early asters. 4- to 5-inch blooms of dark midnight blue. 2 feet tall. Flowers in late July from seed sown in the open, earlier if started indoors. Pkt. 35¢

VICTORY GIANTS MIXED COLORS Very large double flowers in shades of pink, crimson, lavender and rose. Vigorous plants 2 to 3 feet tall. Bloom from late July to frost. Pkt. 35¢

GIANT CALIFORNIA SUNSHINE ASTERS

A fascinating aster. The large daisy-like flowers, 4 to 5 inches across, are composed of a single row of long, narrow petals surrounding a small yellow quill-like disc. Branching plants 2½ feet tall with strong stems for cutting. Blooms in August. We offer a fine blend of mixed colors. Pkt. 25¢

COSMOS

For the background of the bed or border, Cosmos is unexcelled. The airy graceful 3 to 4 feet plants have finely cut lace-like foliage, and carry myriads of flowers throughout the summer until frost. Individual blooms measure 3 to 4 inches across, with long stems, making them a favorite for cut flower arrangements in the house. Cosmos is perhaps the easiest of all annuals to grow. Sow the seed outdoors in May, and within 10 weeks they will start to bloom. All the varieties listed below are early flowering.

DOUBLE PEERLESS COSMOS

This is an extra early flowering strain of almost all double form. Huge blooms that measure 4 to 5 inches across have full crested centers surrounded by fluted guard petals. Plants grow 3 feet tall.

PEERLESS PINK LADY Huge salmon-pink flowers. Very unusual. Pkt. 50¢

PEERLESS WHITE CLOUD Velvety white flowers of the same form as Peerless Pink Lady. Pkt. 50¢

PEERLESS MIXED This Peerless Mixed contains both of the above separate colors and also a dark crimson selection. A beautiful blend containing crested and fluted type flowers. Pkt. 35¢

GIANT SENSATION COSMOS

A new extra early flowering type with huge single blooms 3 to 4 inches across. Sturdy well branched plants splendid for garden display and cutting. Listed below are the varieties in this class.

DAZZLER All America selection. Mammoth amaranth red blooms on long stems. Very striking. Pkt. 25¢

PURITY Pure white flowers of huge size often measuring 5 inches across with dainty yellow centers. Beautiful as a foil for the brilliance of other annuals and summer flowering bulbs. Pkt. 25¢

PINKIE Clear rose pink flowers with dainty yellow centers, measures at least 4 inches across. A splendid pastel shade. Pkt. 25¢

GIANT SENSATION MIXED A mixture of pink, white and crimson flowers in this splendid class of Cosmos. Pkt. 25¢

EARLY KLONDYKE COSMOS

YELLOW FLARE Clear, bright yellow flowers on long wiry stems makes this an excellent cutting variety. Yellow Flare is a heavy flower producer, is strong and sturdy, requires no staking, and can withstand the hottest weather. Seed sown outdoors in early May will produce flowers by early July, and will continue to flower for the remainder of the season. Height 3¼ feet. Pkt. 25¢

COSMOS COLLECTION

1 PKT. PEERLESS PINK LADY

1 PKT. GIANT SENSATION-PURITY

CLEOME *Pink Queen*

This beautiful Spider Plant grows from Maine to Florida. A tall (over 4 feet) and attractive border plant with airy foliage. Huge open heads of delightful and refreshing pink without a trace of blue or magenta. In continual bloom from June until frost. Pkt. 25¢

YELLOW FLARE

PEERLESS—PINK LADY

DAZZLER

After the *SPRING BULBS*

For easier planning and efficient gardening, Flowerfield has grouped together these annuals that should be sown directly into the ground in early Spring.

To have an immediate substitute for the glories of the Spring and early Summer garden is very desirable. These sorts can very easily be sown without too much digging in the beds, and therefore risking injury to the flower buds that are present in

such plants as Peonies, Lilies, Tulips, Bleeding Hearts, and Hyacinths. The sowing can be accomplished almost as soon as the winter mulch from these plants has been removed and the beds are tidied up. Scatter in seeds of Larkspur and Scabiosa for the background. Poppies and Cornflowers in the center, and your own choice of varieties for a neat ribbon edging. (See pages devoted to annuals for edging.)

CORNFLOWERS

(CENTAUREA CYANUS)

Cornflowers should be sown as soon as snow is gone. Continual flowering is easily achieved by successive sowings. These improved varieties have large, fully double flowers, long-stemmed for cutting, 2½ feet high.

- BLUE BOY—Rich deep blue. . . . Pkt. 20¢, ¼ oz. 60¢
- RED BOY—Deep red. Pkt. 20¢, ¼ oz. 60¢
- PINKIE—Vivid pink. Pkt. 20¢, ¼ oz. 60¢
- SNOWMAN—Best white. Pkt. 20¢, ¼ oz. 60¢
- BLACK BOY—Blackish maroon. Pkt. 20¢, ¼ oz. 60¢
- MIXED COLORS. Pkt. 20¢, ¼ oz. 60¢

JUBILEE GEM—Dwarf blue, 12 in. high. Pkt. 25¢, ¼ oz. 80¢

COLLECTION: One of each of 6 colors. \$1.10

CORNFLOWERS

SCABIOSA

PINCUSHION FLOWER

An improved double flowered strain of large pincushion-like blooms carried on long wiry stems that are excellent for cutting. A half-hardy annual, Scabiosas are splendid for border use, especially among the Spring flowering bulbs. Sow the seeds in the open ground in March for bloom throughout the summer or again in October for bloom the following year.

- AZURE FAIRY. Sky blue
- BLACK PRINCE. Maroon red
- FIRE KING. Bright cherry red
- SHASTA. White
- SULPHUR. Yellow
- FLESH PINK. Peach pink
- SCABIOSA GIANTS. All colors

Any of the above per pkt. 20¢

COLLECTION: Six separate colors as listed above. . . \$1.00

BLUE MOON Deep Violet-blue flowers. Base branching stems. Beehive shape without pincushion tops. Pkt. 25¢

POPPIES

Annual Poppies are free blooming annuals that are best treated by sowing the seeds directly in the ground in their permanent locations. They resent transplanting. For little effort, therefore, the gardener will be rewarded with masses of color throughout the summer.

Eschscholtzia

CALIFORNIA POPPY (*Eschscholtzia*) Lowest growing type, the compact plants are about 10 inches high. The brilliant cup-shaped flowers on short stems nestle *amid* the finely cut foliage.

FLAMBEAU—Semi-double scarlet flowers. Pkt. 20¢, ¼ oz. 80¢

SWEETHEART—Crinkled and fluted petals of rich cream edged with deep rose. Pkt. 20¢, ¼ oz. 80¢

GOLDEN WEST—Deep yellow with orange blotch. . Pkt. 20¢, ¼ oz. 70¢

BRIDESMAID—Soft coral pink, lovely with Cornflower's vivid blue, Jubilee Gem. Pkt. 20¢, ¼ oz. 80¢

MIXED COLORS—Mixture of bright colors of single and semi-double flowers. Pkt. 20¢, ¼ oz. 65¢

Tulip Poppy (HUNNEMANNIA)

SUNLITE Golden yellow cup-like flowers of semi-double form (larger than the California Poppies) on long thin stems that rise *above* the finely cut fern-like foliage. Plants are bushy, about 18 in. high. Perfect for bedding purposes. Edge with blue *Argeratum*. . . Pkt. 20¢, oz. \$1.25

SHIRLEY POPPY

Shirley Poppies

These are the annual Poppies that are native to Europe (The Poppies of Flanders). Plants grow to about 2 feet in height. Blossoms are satiny in texture and are fluted and wrinkled. Seed must be sown where the plants are to grow.

SHIRLEY—Rose Pink, resembles a wild rose. Pkt. 20¢, ¼ oz. 60¢

SHIRLEY SWEET BRIAR—Deep rose pink. Pkt. 20¢, ¼ oz. 60¢

SHIRLEY WHITE—Satiny white blooms. Pkt. 20¢, ¼ oz. 60¢

AMERICAN LEGION—Brilliant single flowers of glowing scarlet, 2½ feet tall. Pkt. 20¢, ¼ oz. 50¢

DOUBLE BEGONIA FLOWERED—Mixed colors of pink, crimson and rose. Pkt. 20¢, ¼ oz. 60¢

LARKSPUR

LARKSPUR *Giant Imperial*

The Giant Imperial Larkspurs are superior in every respect to the older stock-flowered sorts. They are tall, upright, of compact growth; the flower stems branch from the base of the plants. The large delphinium-like flower spikes, three to four feet long, have tightly clustered double florets of exquisite form. These Larkspurs are admirably suited for the background or the center sections of the borders, and are also superb for cut flowers.

Sow the seeds in the open ground as early as possible, preferably in little colonies of plantings; groups here and there of a single color. Or scatter the seeds among the bulb plantings when their spear-like tips first show above the ground. The seedlings can later be thinned to stand 9 inches apart. Additional sowings, made two weeks apart, will prolong bloom in the borders and provide a continuous supply of cut flowers.

- **BLUE SPIRE** Deep Oxford Blue
- **PINK KING** Lively light pink
- **DAINTINESS IMPROVED** Lilac blue
- **MONTROSE** Salmon rose
- **DAZZLER** Rich scarlet
- **WHITE KING** Pure white

GIANT IMPERIALS Mixed colors

Any of the above. Pkt. 25¢, ¼ oz. 70¢

COLLECTION: Six of the above named varieties under separate colors as described. \$1.25

FINE ANNUALS

Flowerfield has selected these new and improved annuals and old favorites of proven merit that are *especially suited to use as edgings*. For example, an edging of sweet scented Alyssum around the vegetable plot will add both glamour and fragrance to an otherwise earthy scene. A choice of one, or several in combinations, of these low growing, free flowering annuals will give the flower beds and borders that "tied down to earth" look. Edgings provide neatness and

ALYSSUM

Easily grown and extremely free flowering. Alyssums are perfect for edging the vegetable and flower gardens. Of quick growth, in bloom from early summer to hard frost they require little care except an occasional shearing back of the sweet scented flowers. Seed should be sown thinly on the surface.

CARPET OF SNOW Pure white flowers on plants only three inches high of spreading habit. Can be clipped to form a perfect ribbon edge.....Pkt. 20¢, ¼ oz. 50¢; ½ oz. 75¢; 1 oz. \$1.25

VIOLET QUEEN Gorgeous deep blue-violet flowers. For compact edges, 6 in. high. Pkt. 25¢, ¼ oz. \$1.00, ½ oz. \$1.75, 1 oz. \$3.00

LITTLE GEM Pure white companion in both height and habit to Violet Queen.Pkt. 20¢, ¼ oz. 50¢, ½ oz. 75¢, 1 oz. \$1.25

MARTSMUM The old-fashioned white sweet Alyssum for an informal edging. 12 inches high and of more loosely formed and spreading habit.Pkt. 15¢, ½ oz. 50¢, 2 ounces \$1.25

TRAILING ZINNIA

SANVITALIA PROCUMBENS

Masses of small zinnia-like double blooms of deep golden yellow on trailing or spreading plants 6 inches high. Free flowering, in bloom all summer and fall, it is especially suited for a ground cover or as an informal edging.....Pkt. 20¢, ¼ oz. \$1.00

LILLIPUT MARIGOLD

TAGETES SIGNATA PUMILA

LITTLE GIANT This is one of the most desirable of the smaller border plants, and is quite frequently used for bedding and rock gardens. Its compact little form (8 to 10 inches high) is covered with hundreds of small, single, orange-gold marigolds blooming all season.....Pkt. 20¢, 6 Pkts. \$1.00

AGERATUM

Ageratums are dependable and profuse blooming plants that carry on all through the summer. Adaptable to full sun or light partial shade they are excellent for edgings, miniature beds and also make nice indoor pot plants.

MIDGET BLUE Violet-blue flowers in tight clusters that completely cover the compact plants, 4 inches high. Excellent for a neat ribbon-like edging.....Pkt. 20¢, ⅓ oz. 70¢, ¼ oz. \$2.50

FAIRY PINK Large flossy soft pink flowers in clusters freely produced on compact plants 6 inches high.....Pkt. 20¢, ⅓ oz. 70¢

BLUE PERFECTION Taller, with looser heads of deep blue-violet flowers nice for cutting. Compact plants about 12 inches high. Good foreground subject.....Pkt. 15¢, ⅓ oz. 60¢, ¼ oz. \$1.00

AGERATUM-MIDGET BLUE

MARIGOLD LITTLE GIANT

FOR EDGINGS

confine the beds, paths or borders within a definite pattern. Their use will enhance the garden scene as a handsome frame complements a fine picture.

If a neat ribbon-like edge is desired choose varieties that are of even height and compact form. The informal types are of spreading habit and are used where larger areas are to be covered. All are free blooming and are of the easiest of plants to grow.

PORTULACA

(MOSS ROSE)

Portulaca loves hot sun, actually enjoying sandy banks and hot locations in the garden. For that reason, it is often used as a ground cover, even near the seashore. It also makes a splendid, very low informal edging always covered with bright flowers resembling wild roses. Sow seed directly into the garden in mid-May.

JEWEL A dazzling crimson flower four times the size of the ordinary sports. Pkt. 35¢, 5 Pkts. \$1.50

SINGLE MIXED. Pkt. 20¢, 6 Pkts. \$1.00

DOUBLE PORTULACA This new introduction now makes it possible to offer Double Portulacas in separate colors.

DOUBLE SALMON. Pkt. 35¢, 5 Pkts. \$1.50

DOUBLE WHITE. Pkt. 35¢, 5 Pkts. 1.50

DOUBLE GOLDEN-YELLOW. Pkt. 35¢, 5 Pkts. 1.50

DOUBLE SCARLET. Pkt. 35¢, 5 Pkts. 1.50

DOUBLE MIXED. Pkt. 35¢, 5 Pkts. 1.50

MINIATURE PETUNIAS

A new introduction of great charm, miniatures of the larger flowering sorts, the small compact plants of only six inches in height carry myriads of tiny one inch, smooth edged Petunias all summer long. Unusual and attractive for an edging or a ribbon border.

VIOLET GEM—Deep violet blue. Pkt. 35¢, 5 Pkts. \$1.50

WHITE GEM —Pure white. Pkt. 25¢, 5 Pkts. 1.25

ROSE GEM —Clear bright rose. Pkt. 25¢, 5 Pkts. 1.25

NIEREMBERGIA

Nierembergia (Purple Robe) is a splendid edging plant that will truly bloom all summer long. Start in cold frame in early April; bloom will commence in June and continue until hard frost. Flowers are glowing violet purple, maintaining their color in the hottest sun. Of neat habit, six inches tall. Pkt. 20¢

NIEREMBERGIA—PURPLE ROBE

PORTULACA

LOBELIA

Lobelias bloom without fail the entire summer and are among the loveliest of all edging plants. Although they must be started indoors in March, once set out in late May, they will require no more attention than your admiration. Furthermore, they do well in partial shade.

CRYSTAL PALACE The bright indigo blue flowers almost hide the dark foliage on these compact 6 inch high plants. For a ribbon-like edging, set out the plants six inches apart. Pkt. 15¢, 1/8 oz. 60¢

SAPPHIRE (Trailing) Graceful trailing vines carry large deep blue flowers with showy pure white eye. Fine for window boxes and ground covers. Pkt. 20¢

LOBELIA-CRYSTAL PALACE

MARIGOLD—MAMMOTH MUM

DWARF FRENCH MARIGOLDS

Of easiest culture, the Dwarf French types do well anywhere, and do not require too much watering. Habit is low growing, making them excellent for small hedges and for edging use.

BUTTERBALL All-America selection of outstanding merit. The dwarf mound shaped plants grow about 8 inches high, and are literally covered with butter yellow flowers. An excellent plant for edging. Pkt. 25¢, ¼ oz. 75¢

HARMONY HYBRIDS Dwarf 12 inch uniform plants coming in fanciful "two-tone" combinations from lemon yellow to dark red. Double, crested, flowers with wavy guard petals measuring 2 inches across. Pkt. 20¢, ¼ oz. 50¢

SCARLET GLOW Bright scarlet red fully double flowers growing in profusion on plants 10 inches high and spreading to about 18 inches in area. Pkt. 25¢, ¼ oz. 70¢

ROYAL SCOT ALL DOUBLE Refreshing color effect made up of uniform stripes of rich mahogany and gold. Double flowers on dwarf compact plants. Height 12 in. Pkt. 20¢, ¼ oz. 60¢

TAGETES SIGNATA PUMILA—LITTLE GIANT. Pkt. 25¢, ¼ oz. 70¢
(For description see edging page)

BUTTERBALL

MARIGOLDS

Spectacular, robust growing, annuals that will provide a gorgeous display in the garden. Planted in solid beds or in the mixed borders, they will be in flower from mid-July until frost. The foliage of the newest hybrids are free from the pungent odor (associated with the older kinds), while the flowers themselves have a sweet scent. Excellent for cutting.

TALL AFRICAN

Chrysanthemum Flowered

The African types are heavy feeders and like plenty of moisture. Plant in a sunny location and rich ground and prize winning specimens will be the result.

MAMMOTH MUM All-America selection. Strong, bushy, erect plants reach 3 feet by August when they commence to bear huge 4-inch double blooms with incurved petals like chrysanthemums. Flowers are rich lemon-yellow and have long, strong stems. Blooms until hard frost; a splendid performer. Pkt. 25¢

SUNSHINE GIANTS Huge flowers, the largest of the marigolds, in shades of orange, yellow and buff. Plants are tall, 3½ feet, robust in growth, and produce quantities of interestingly formed flowers until hard frost. Pkt. 20¢, ¼ oz. 75¢

YELLOWSTONE Bright clear yellow double flowers that form almost a perfect ball. Luxurious plants, 3 feet tall, producing many gorgeous blooms all the summer. Pkt. 25¢, ¼ oz. 80¢

GOLDSMITH Giant incurved chrysanthemum-like, golden orange flowers up to 3 inches across and almost a perfect ball in shape. Plants grow 18 in. tall, are base branching. Early and free-blooming. Pkt. 25¢, ¼ oz. 80¢

COLLARETTE

CROWN OF GOLD A variety with a chrysanthemum-like top or crown surrounded by a collar of big broad petals of the same color. Bright golden orange flowers 2½ inches across on plants about 2 feet tall. Odorless foliage. Pkt. 20¢, ¼ oz. 65¢

CARNATION FLOWERED

REAL GOLD Gorgeous orange blooms flushed with gold measure 4½ inches across. Sweetly scented flowers and odorless foliage. Height 2½ feet. Pkt. 25¢, ¼ oz. 75¢

YELLOW SUPREME This is a lovely shade of pale yellow. Sweetly scented flowers on plants 2½ feet tall. Pkt. 20¢, ¼ oz. 75¢

FIVE PACKETS

One of Each—95¢

FLASH

A new single type of Marigold. Lively tangerine color. Early, compact and busy, very floriferous. Height about 15 inches. Pkt. 25¢

SALVIA—*Sage*

From mid-summer to late autumn and even up to "black frost," Salvias add vivid color to the garden, a touch of fire when many of the other annuals have already faded. Salvia is splendid for bedding and foreground use. In combination with white Cosmos in the background, or with White Alyssum as an edging, it is very attractive.

BONFIRE Brilliant scarlet racemes of blooms in great profusion on heavy foliaged plants. Height 2 feet. Pkt. 20¢

HARBINGER Earlier to bloom than Bonfire, the compact, low growing plants carry bright scarlet flowers, are excellent in the foreground. 10 inches. Pkt. 20¢

FARINACEA This indigo blue Salvia is really a perennial but is handled as an annual. Plants started indoors in early spring will produce blooms by mid-summer, and will continue until frost. Height 2½ feet. Pkt. 20¢

Herbal Uses—Blossoms are dried for potpourri leaves, slightly aromatic for seasoning.

SALVIA—BONFIRE

NASTURTIUMS

Brightly colored, sweet scented annuals with decorative foliage. Easily grown in any soil by sowing the seeds in the open ground in May or June wherever they are to grow. Bloom from mid-summer until fall.

GLEAM HYBRIDS Grow about 18 inches tall, are spreading in habit and are excellent for bedding and for ground covers. The bright semi-double flowers have long stems and are nice to pick for table decorations.

GOLDEN GLEAM—Warm Yellow

SALMON BEAUTY—Clear Salmon Pink

INDIAN CHIEF—Bright Scarlet

GLORIOUS GLEAM MIXTURE—All Colors

Any of the above—Pkt. 20¢, oz. 50¢

GLOBE HYBRIDS Dwarf, compact mound-like plants about 10 inches high. Excellent for bedding purposes and for edging paths and borders.

GOLDEN GLOBE—Bright Yellow

SCARLET GLOBE—Bright Scarlet

MAHOGANY GEM—Madder Red

GLOBE GIANTS MIXED—All Colors

Any of the above—Pkt. 20¢, oz. 50¢

TALL CLIMBING NASTURTIUMS Single flowered on long vines that trail or climb. Excellent for covering tree stumps, rocks and banks. Pkt. 15¢, oz. 35¢

Herbal Uses—Half ripened seeds in mustard pickles, leaf and flower in salads.

NASTURTIUM—GOLDEN GLOBE

CALENDULA

Often called the "Pot Marigold," Calendulas are bright and colorful in the border. Seed may be sown where the plants are to stand or can be started earlier indoors and then transplanted. The plant blooms the whole summer long, particularly if the flowers are picked.

YELLOW COLOSSAL Bright yellow flowers of immense size, 4 to 5 inches across with long, loose, and gracefully formed petals. Plants are profuse blooming and grow 2 feet tall. Pkt. 20¢

SUNSHINE Golden yellow blooms with gracefully curved outer petals and incurved center petals. Long stems on plants 2 feet tall. Pkt. 25¢

ORANGE SUNSHINE Light orange flowers of Chrysanthemum-like form. Especially fine for cutting (see illustration). Pkt. 25¢

ORANGE FANTASY Long twisted outer petals of coppery orange surround a bronze colored center. Very unusual. Pkt. 20¢

ART SHADES Delicate shades of apricot, buff, cream and yellow in a splendid mixture. Prized for cutting. Pkt. 20¢, ½ oz. 75¢

Herbal Uses—Flower petals are used in soup and stews, also as yellow dye; to color butter and for medicinal teas.

CALENDULAS

Flowering Herbs . . . Owing to the revived interest in herb gardens these fine annuals have again come into great popularity for herb culture. Several fine books have been written about herbs, we especially like Rosetta E. Clarkson's "Herbs, Their Culture and Uses" MacMillan.

DAHLIA FLOWERED ZINNIA—CANARY BIRD

Complete Zinnia Garden

YOUR CHOICE OF COLOR

- 2 Pkts. Giant Dahlia Zinnias
- 2 Pkts. Lilliput Zinnias
- 1 Pkt. Super Giants of California
- 1 Pkt. Howard's Crested Giants
- 1 Pkt. Zinnia, Elegans Pumila
- 1 Pkt. Fantasy Zinnias
- 1 Pkt. Cupid Zinnias
- 1 Pkt. Sanvitalia Procumbens

10 Packets \$2.25

Flowerfield's

New forms have so widened the choice of Zinnias that even the most discriminating of fanciers will delight in the selections offered by Flowerfield. Because of the variations in height and form that are available now, one could plant an entire garden by just using Zinnias alone. As they are offered in separate colors, superb color effects can be achieved with these brilliant annuals. A design as bright as calico cloth can be woven into the garden or one as delicate in coloring as an old brocade.

GIANT DAHLIA FLOWERED ZINNIAS

Truly beautiful flowers of tremendous size. Individual blooms measure 5 inches across and about 3 inches in depth. The colors are clear and definite in character. The plants are robust, well branched and grow 3 ft. tall. They are ideal for the background of the Zinnia beds and also to plant among the taller perennials in the border. Very showy and effective when cut for flower arrangements.

- CANARY BIRD Delicate shade of primrose yellow.....Pkt. 20¢
- CRIMSON MONARCH Dark red of striking color.....Pkt. 20¢
- DREAM Soft lavender-violet, lovely with pink shades.....Pkt. 20¢
- ELDORADO Lively salmon-apricot, a nice tawny shade.....Pkt. 20¢
- EXQUISITE Light rose, deeper rose center. Two tone effect.....Pkt. 20¢
- ILLUMINATION Deep tyrian rose of warm color.....Pkt. 20¢
- LUMINOSA Bright rose-pink, clear and fresh looking.....Pkt. 20¢
- POLAR BEAR Creamy white flowers of immense size.....Pkt. 20¢
- ROYAL PURPLE Clear deep purple, magnificent flowers (illus.)...Pkt. 20¢
- WILL ROGERS Bright, clear, scarlet-red, very outstanding color...Pkt. 20¢
- COLLECTION Any 8 of the above list.....\$1.50

GIANT DAHLIA FLOWERED MIXTURE A complete mixture of the named varieties that have been grown separately and then blended for an even distribution of colors.....Pkt. 20¢, 5 Pkts. 90¢

SUPER GIANTS OF CALIFORNIA

Immense flowers 5½ to 6 inches across of unusual flower form in all mixed colors. The two tone combinations of light pink shading to darker pink at the center, or pale orange deepening to soft brick shades at the edge are fascinating. Invaluable for cutting.....Pkt. 25¢, 5 Packets \$1.15

HOWARD'S CRESTED GIANTS

HOWARD'S CRESTED GIANTS

These handsome robust 3-foot plants command instant attention. Flowers measure 4 to 5 inches, have high crested centers, wide, overlapping guard petals. Colors range through rose, yellow, orange, scarlet and bronze, all vivid and beautiful.

MIXED COLORS.....Pkt. 35¢

CUPID ZINNIAS

Compact and bushy plants about 12 inches tall, covered with small one inch flowers. With masses of flowers through the summer and fall, the Cupid Zinnias are ideal for hedge-like borders and for the foreground of the Zinnia beds.

GOBLIN Golden-orange flowers with a tinge of bronze—charming color.

TINY TIM Brilliant scarlet-red, really splendid to edge the borders.

SNOWDROP Pure white button-like flowers for a most effective foreground.

Any of the above per Pkt. 25¢, ¼ oz. \$1.00

FINE ZINNIAS

Zinnias thrive in hot sunny locations but they should be watered freely during the hot, dry spells. Although Zinnias are not fussy about soil, a good fertilizer worked in about the plants will insure exhibition blooms. Seeds of the taller kinds are best started earlier in a protected frame. The lower growing varieties may be started outdoors when the ground is warm. Zinnias bloom from July until frost.

IMPROVED LILLIPUT OR POM PON

IMPROVED LILLIPUT OR POMPON ZINNIAS

The small pompon-like flowers, almost ball-like in shape are very appealing. The vigorous plants are bushy, very floriferous and grow 18 inches tall. Individual flowers measure about 1½ inches across and almost the same in depth. Continuous bloomer, fine for both the border and for cutting.

BLACK RUBY Deep, velvety, round maroon red flowers on plants just a little taller than the others. It is particularly lovely when planted for contrast with Fantasy Zinnia Rosalie.

CANARY YELLOW Clear bright yellow flowers on compact plants. . .Pkt. 25¢

DAINTY GEM A bicolor rose, deeper in the center, pastel pink edge. Pkt. 25¢

GOLDEN GEM Golden orange with paler edges. Pkt. 25¢

LILAC GEM Lavender-lilac; delicate foil for yellows and pinks. . . . Pkt. 25¢

PURPLE GEM Clear purple. Pkt. 25¢

SCARLET GEM Very bright scarlet-red. Pkt. 25¢

WHITE GEM Lovely pure white on bushy, well branched plants. . . . Pkt. 25¢

COLLECTION Any 8 of the above list. \$1.75

LILLIPUT MIXED COLORS A mixture of all the brilliant colors including yellows, purple, red, pink, buff. Cheerful color effect. . Pkt. 20¢, 1 oz. \$1.00

FANTASY ZINNIAS

A new and interesting novelty of very pretty form. The double flowers are made up of tubular petals that twist and curl and form graceful flower heads 3 to 3½ inches across. Plants grow 2 feet tall and are most attractive in the border. Unique as a cut flower, it is much admired (see illustration).

WHITE LIGHT Pure white. Pkt. 25¢

ROSALIE Watermelon pink. Pkt. 25¢

GOLD DUST Lemon yellow. Pkt. 25¢

FANTASY MIXED COLORS Rose, pink, yellow, red and white. Pkt. 25¢

GIANT DAHLIA FLOWERED ZINNIA—ROYAL PURPLE

ZINNIA ELEGANS PUMILA

(CUT AND COME AGAIN)

The more you cut, the more you get of these perfectly formed, medium sized flowers about 2½ inches across. Plants are full, well branched and grow about 2 ft. tall. They make an attractive display in beds or borders and bloom continuously from mid-summer until frost.

SALMON ROSE Vivid salmon-pink overlaid clear rose.

SNOWBALL Pure white, excellent as a cut flower.

SCARLET Bright scarlet flowers, very attractive.

Any of the above per Pkt. 25¢

ELEGANS PUMILA MIXED COLORS All the best varieties. Pkt. 20¢, 1 oz. \$1.25

SANVITALIA PROCUMBENS

(TRAILING ZINNIA)

Bright yellow double flowers on spreading plants 6 inches high. Pkt. 25¢

(See "Plants for Edging" on pages 12 and 13)

FANTASY ZINNIA—MIXED

Flowerfield's Finest Vegetables

Flowerfield's vegetable seed listing is intended for the home gardener. The varieties offered are the best hybrid and improved strains, not ordinarily obtainable. Best suited to the garden vegetable plot, rather than the truck farm, these are the varieties that can be grown successfully within a limited area. Selected seeds will

yield gratifying results of incomparably high quality in fresh garden vegetables.

Borders of herbs for these vegetable plots are shown on page 23. The listings of flowering annuals for edgings are to be found on pages 12 and 13.

You want an abundance of vegetables but beauty need not be sacrificed in any part of your garden.

LUSCIOUS GREEN PEAS

There is no more delicious vegetable than fresh, young green peas picked right off the vines in your garden and cooked immediately. After the peas are gone the ground can be used for lettuce, radishes, etc. It is well to sow early, medium and late kinds at the same time so they will mature in succession. This is better than to sow one kind three or four times during the season.

Flowerfield's packets will sow about 10 feet of row, a pound 100 ft.

MAMMOTH PODDED EXTRA EARLY 60 days. Large-podded, smooth-seeded, early pea. Pods are blunt, 3 inches long. Medium green and contain 8 large peas of fine quality, well adapted to home and market growing because of early maturity and large yields. Light green vines grow 30 inches high. . . . Pkt. 10¢, lb. 50¢

LAXTON'S PROGRESS 63 days. This is one of the largest and best of the medium early dwarf varieties. The vines are 15 to 18 inches high and the pods 4 to 4½ inches long, deep green and well filled with dark green peas of high quality. . . . Pkt. 10¢, lb. 50¢

THOMAS LAXTON 65 days. Plants grow 2½ ft. and more in height. Pods are 3½ in. long, broad, straight, well filled, dark green and have square ends. Each pod contains 6 to 8 large, tender peas of the very finest flavor. An early, high quality, heavy cropper. Highly recommended for freezing. . . . Pkt. 10¢, lb. 50¢

ALDERMAN 72 days. The Best Tall Variety. This is an improved Telephone and it is by far the best variety of this type, yielding more than any other kind. The pods are large, pointed, while the vines are of robust growth and very prolific. The pods are immense, often 5 inches long and contain 8 to 10 large peas. Matures medium late. Give the vines support. . Pkt. 10¢, lb. 45¢

MAMMOTH MELTING SUGAR 75 days. The best known of the edible-podded peas. Vines grow about 5 feet tall and are most productive. The fleshy, tender, 5 inch pods are broad and blunt-ended, sweet and delicious. . . . Pkt. 10¢, lb. 50¢

CARTER'S DAISY OR DWARF TELEPHONE 79 days. Popular late-crop pea for home and market. Vines grow about 24 inches tall, are stout and invariably bear a good crop of attractive large pods, 4½ inches long, containing 7 to 9 large, round, luscious peas of excellent quality and fine flavor. . . . Pkt. 10¢, lb. 45¢

TOMATOES

Tomatoes should be in every garden. It is quite simple to grow your own plants. Sow the seed in a hotbed or in a shallow box in the house, allowing 5 to 6 weeks to produce plants large enough for setting outdoors when weather becomes warm. Sow the seed in rows 3 inches apart and cover with ¼ inch of soil. When plants are about 2 inches tall, transplant to stand 4 inches apart each way, or pot singly in 3-inch pots. Plant outdoors when all danger of frost is past, in rows 4 feet apart and 3 to 4 feet apart in the row. *Packets will produce about 150 plants.*

GOLDEN GLOBE Deep orange-yellow fruit of finest quality. A distinctive new variety with deep globe shape, firm, solid flesh, and high yield on strong, sturdy vines. The fruit, instead of being red, has orange-yellow skin and rich orange-yellow flesh. The quality is fine and they are most attractive when sliced; the juice is rich, full-flavored and orange colored, much superior to ordinary tomato juice. Not an early variety but normally ripens good crops before frost. . . . Pkt. 15¢

MARGLOBE CERTIFIED Blight-Resistant. The tomatoes are large, globe-shaped, smooth, colors perfectly all over, and are deep red throughout. The vines are vigorous and resist blight even in very wet weather. The fruit ripens medium late. It is large, smooth and handsome. . . . Pkt. 15¢

RUTGERS CERTIFIED A variety of great importance in most of the Eastern and Southern states. It is suitable for canning, and juicing. Large fruit size, 6½ to 7½ ounces, makes it favored over many other popular tomatoes. Globular in shape, slightly flattened, smooth, bright red and with heavy walls and small cells. Vine is vigorous, heavy and wilt-resistant to a high degree. . . . Pkt. 15¢

VICTOR CERTIFIED All-America Selection. This new tomato has the rare combination of fine points sought by breeders for years; that is, extra early fruit, borne in great abundance, but so smooth, firm, solid and fine colored that it compares well with many later varieties in this respect. This variety ripens large clusters of fruit when the other

extra early kinds have only one or two ripe fruits. The fruits are good size (average 4½ oz.), a bright red all over, smooth and handsome. The vine is of the sturdy determinate type, which can be planted close together (2 x 3 feet is recommended) thus producing a much larger yield of early fruit for the space used. . . . Pkt. 15¢

FLOWERFIELD'S NOVELTY TOMATOES (Small Fruited)

These pretty little tomatoes are very useful for serving whole in salads, for preserves and pickles. They grow in clusters which ripen at one time. The vines are large and vigorous and produce an astonishing quantity of fruit.

ITALIAN RED PEAR This variety is used extensively for canning. These tomatoes canned whole make a delightful change from ordinary canned tomatoes. The fruit is very solid with thick walls and deep red in color throughout. It is true pear-shape. Fruits are borne in clusters. . . . Pkt. 20¢

RED CHERRY A bright red fruit about the size of a large cherry. Red Cherry is both decorative and delicious when served in salads. It is also excellent for pickling and preserves. . . . Pkt. 20¢

YELLOW CHERRY This variety has bright yellow fruit borne in clusters. The shape is similar to that of Red Cherry. . . . Pkt. 20¢

PEPPERS

CALIFORNIA WONDER (Sweet) Smooth glossy green fruits 4 inches long and 3 inches in diameter borne upright. Thick flesh, excellent. Start seeds early in spring to set out in mild weather. Pkt. 15¢

HUNGARIAN WAX (Hot) Pointed, tapering fruits turn from green to light yellow to bright red when ripe. Matures early, very prolific. Pkt. 15¢

EXPLANATION OF CERTIFIED SEED

Seed listed as "Certified" is produced from crops that were inspected and certified as to trueness to type and freedom from disease by the Agricultural Department.

Flowerfield's SWEET CORN

Plant corn after all danger of frost has passed and the soil has become thoroughly warm. Sow either in rows $2\frac{1}{2}$ to 4 feet apart, spacing the seeds 4 to 6 inches apart in the row and thinning later to 12 inches, or plant in hills 3 to 4 feet apart each way, allowing 2 to 4 plants to remain in each hill, depending on the fertility of your soil. Corn should never be planted in a single row. It is much better to plant in three or four rows side by side. This is because the pollen does not fertilize the ears well when planted in a single row.

For a continuous supply, sow varieties which mature in succession, also make succession sowings every 10 to 14 days, allowing enough time for your last planting to mature before the first expected frost in your locality. Sweet corn maturing in the fall is excellent. Flowerfield's packets will plant about 40 hills.

HYBRID SWEET CORN Wilt Resistant—Hybrid corns are of special value to canners and many home gardeners because the ears from one planting mature at about the same time; in addition they are noted for their high yield and resistance to Stewart's disease or bacterial wilt.

GOLDEN CROSS BANTAM Wilt Resistant—High Yielding—uniform. For even growth, maturity and heavy yield of fine large ears, this stock is absolutely without equal. The ears have mostly 12 rows of golden yellow kernels, are uniform in length (about 8 inches) and of extremely fine quality. Usually 2 ears to the stalk. Matures in 85 days, a large part of the crop ripening over a short period of time. It should be eaten to be properly appreciated. . . . Pkt. 15¢, lb. 65¢

LINCOLN All-America Bronze Medal Winner. An early mid-season hybrid yellow corn developed at the Connecticut Agricultural Experiment Station. Ears are large, 8 to 9 inches long, tapering, well

covered with husk, and have 12 to 16 rows filled to the tip with bright golden kernels of good quality. Tall grower. Pkt. 20¢, lb. 75¢

MARCCROSS Wilt Resistant—Early Hybrid. This is a fine, very early hybrid (70 days), developed by the Connecticut Experiment Station a few years ago and already in wide demand. The stalks are short and sturdy, and produce large ears which are very uniform in shape and size. The ears are 7 inches long, mostly 12-rowed with light golden yellow kernels of very good quality. . . . Pkt. 15¢, lb. 65¢

MASON'S GOLDEN MIDGET CORN

This extremely desirable new introduction has as many as three to five tender $4\frac{1}{2}$ inch ears on miniature 3 foot high plants. Tender, sweet, small ears are just right for eating, the low growing plants are just right for the garden. Successive plantings are recommended for this midget matures in 56 days. . . . Pkt. \$1.00

SCARLET GLOBE RADISHES

RADISHES

To get the best radishes in the open ground, the soil should be loose and quite rich. A little nitrate of soda applied as soon as the radishes come up will help a good deal. Sow the seed in rows a foot apart and thin the plants to 2 inches apart. Dusting the ground with lime or gypsum before the seed comes up will help keep the flies out and prevent injury by maggots. By sowing radish seed in August or the first part of September, much better radishes can be raised than in the spring and summer, as they are not usually injured by maggots in the fall. *Flowerfield packets will sow 15 to 20 feet of row, an ounce about 75 feet.*

COMET All-America Winner. Bred to meet the increasing demand for an early radish that is rounded instead of olive-shaped. Comet roots are globe to olive-shaped, bright scarlet, with small top-roots. For eating and keeping qualities it is surpassed by none; it will remain crisp for a long time. . . . Pkt. 10¢, oz. 25¢

CRIMSON GIANT GLOBE A fine giant bright red radish which is sweet, crisp, juicy, brittle and a wonderful yielder. This radish differs from most others as the roots attain a large size without becoming hollow or pithy. The shape is a perfect globe, 2 inches in depth, $1\frac{1}{2}$ inches in diameter, with thin, tender skin of deep crimson and solid white flesh. It is a very popular variety, of large size and the finest quality. Early, notwithstanding its size. Sow seed thinly to permit full development of the roots, and for the biggest radishes, see that the soil is moderately moist, fertile and deeply prepared. Crimson Giant should be thinned to a wider spacing than smaller varieties. We suggest leaving at least 2 inches between plants for full development. . . . Pkt. 10¢, oz. 75¢

FRENCH BREAKFAST Oblong or deep olive-shaped, $1\frac{3}{4}$ inches long and $\frac{5}{8}$ inch wide. Bright rose-scarlet skin, shading to clear white in the lower portion. The flesh is white, firm and crisp; juicy, mildly pungent and tender. A quick grower and exceedingly popular. . . . Pkt. 10¢, oz. 30¢

SCARLET GLOBE This grand radish has established a good reputation as a forcing sort. Grows round to olive-shaped, bright scarlet radishes, 1 inch in diameter. It is crisp and tasty, with fine white flesh. . . . Pkt. 10¢, oz. 25¢

WHITE ICICLE Skin is pure white, thin and tender; flesh is icy white, crisp, juicy, perfectly mild and of a delightfully sweet flavor with just enough pungency to appeal to the appetite. Remains solid, being fully as good when 1 inch across as when only $\frac{1}{2}$ inch. The roots grow 5 inches in length and are the shape of an icicle, straight and free from sideroots. Splendid for either spring or fall use. Thorough and deep soil preparation is advisable to secure well-formed, uniform roots. It is highly recommended. . . . Pkt. 10¢, oz. 25¢

Flowerfield's BEANS

GROW PLENTY OF THEM

"Snap" or "String" beans are one of the most satisfactory things to grow in the home garden. They require little work and take up little room to easily produce all the fresh beans required for summer use and for canning. Our seed is grown from clean, carefully selected heavy yielding stock.

Plant in rows 2 to 2½ feet apart, dropping the seed 2 inches apart, or in groups of 3 to 4 at intervals of a foot in the row which makes hoeing easier. Do not plant until the ground is warm. In New York State and New England, May 10 to 20th is early enough. Better make a small planting every two or three weeks and have fresh beans till frost.

STRINGLESS BUSH BEANS, GREEN PODDED

BOUNTIFUL 48 days. A Superior Flat-Podded Green Bean. It is one of the earliest green pod varieties. The pods are longer than most, handsome, straight, and although flat are quite meaty. They are tender and entirely stringless. It is a very productive variety and continues to bear a long time. Has proved to be unexcelled on heavy as well as light soils; reliable everywhere.

.....Pkt. 10¢, lb. 45¢

LONG ISLAND LONG POD 51 days. An early snap bean with extremely long pods, 7 in. and more in length, slightly curved, flat, medium light green, stringless and of good quality. Splendid for the home garden. Plants are early and prolific.....Pkt. 20¢, lb. 75¢

TENDERGREEN The Best Round Dwarf Green Beans. If you want really delicious, tender, fine flavored, early snap beans, be sure to plant Tendergreen. The pods are long, round as a pencil, very meaty and of an attractive light green color. They mature early and the vines are exceptionally strong and vigorous. This bean is outstanding for the large yields of long straight tender pods and is ideal for home canning.....Pkt. 15¢, lb. 50¢

POLE BEANS

Pole beans are extremely productive and most useful in gardens with limited space. They come into bearing later than the bush varieties, but bear for a longer period, and produce bigger pods. They mature in from 64 to 80 days, depending on locality. Supports for your pole beans may be a fence or trellis, or rough poles 7 feet long, firmly set. Or make tepees of three or four thinner poles, planting beans at the foot of each.

DECATUR 68 Days. Awarded Silver Medal as an All-America Vegetable. Decatur bears immense crops of lively dark green, practically round pods, stringless in all stages, measuring 6 to 8 inches long with meaty beans of fine quality. Resistant to mosaic and common rust. Seeds are white.....Pkt. 15¢, lb. 50¢

KENTUCKY WONDER (Old Homestead) The pods are very long, round, light green, stringless when young and of extremely high quality. The vines are enormously productive, the pods often hanging in great clusters. These beans mature very early, being among the earliest of the pole varieties. Though thick, the pods appear slender on account of their great length. The light brown seeds have a tasty flavor.....Pkt. 10¢, lb. 45¢

STRINGLESS BUSH BEANS YELLOW WAX

Wax or Yellow-Podded Bush Beans grow vigorously almost anywhere, present no difficulties of cultivation, and produce tremendous crops. Their appetizing, waxy yellow pods and their delicate, distinctive flavor make them a favorite in market or home garden. The planting information given for Green-Pod Bush Beans applies to the Wax Beans as well. The bushes range in height from 12 to 20 inches.

YELLOW BOUNTIFUL (Sure Crop Wax) For an abundance of fine wax beans grow Yellow Bountiful. The pods are long, deep yellow, entirely stringless, of fine quality and usually are free from rust. The plant is branching, sturdy and upright, every branch carrying a heavy crop of very attractive uniformly colored, large pods which can be quickly picked. This is a very popular and desirable variety. Black seed....Pkt. 15¢, lb. 50¢

POLE LIMA BEANS

While pole lima beans mature one week later than bush lima beans they greatly outyield them per square foot of garden space. Cultural directions same as pole beans except plant eyes down.

IDEAL The pods are immense, often 7 inches long, containing usually 6 large flat beans of the very finest quality. The vines are very vigorous, productive, and prolific and the beans are ready only about one week later than the bush limas....Pkt. 15¢, lb. 60¢

BUSH LIMA BEANS

Lima beans grow best in a rich, well drained, sandy loam. As the seed is sensitive to cold and wet ground, it must not be planted until the soil has become quite warm and fairly dry.

BABY FORDHOOK A thick-seeded, small lima bean of far better quality than the flat type. It was designed especially for canning and freezing. Home gardeners will appreciate its surprisingly heavy crops of pods under almost any conditions. Plant is truly bush, about 14 inches tall, with shiny, dark green leaves, heavily productive, bearing pods quite close to the stem. Pods are 3¾ inches long and ¾ inch wide, thick, slightly curved, containing 3 to 4 beans, close but not crowded in the pod. Seed is thick, green, turning cream when dry.....Pkt. 15¢, lb. 50¢

CANGREEN An All-America Selection that is a distinct improvement over the other larger sized lima beans. This green-seeded butterbean is one of the earliest maturing bush lima beans. Pods are small, 3 to 3½ inches long, each containing 3 to 4 plump beans of delicate flavor. Plants are truly prolific and begin to bear very early, continuing until frost.....Pkt. 25¢, lb. 85¢

Flowerfield's CARROTS

Modern carrots are a really delicious vegetable eaten either cooked or raw. A few rows will supply all you want, as you can thin out the small ones for early use and let the rest grow for fall and winter. Carrots can be sown from early spring to the middle of summer and will be ready in about 10 weeks. The earlier they are sown the larger the crop as a rule, but late sowings produce nice carrots for fall.

Carrots for fall. If Nantes carrots are sown in August they will make carrots about the size of one's finger for fall use. These are extremely delicious eaten raw or cooked.

A packet of seed will sow 30 feet of row, an ounce 300 feet.

CHANTENAY OR MODEL Popular for Home and Market. Attractive, deep orange, half-long roots, 5½ inches long and 2¼ inches thick at the top, gradually tapering toward the bottom. The flesh is a beautiful rich orange, tender, of fine texture and very sweet. Excellent for the home garden. Pkt. 10¢, oz. 45¢

IMPERATOR This is the fine quality bunching carrot that comes into our markets from California. The roots grow 8 inches long, are smooth and slightly tapering. The color is deep orange and extends right to the center, and with a very small core. The tops are just right for bunching. Dig deeply when preparing your garden for Imperator's deep roots. Pkt. 10¢, oz. 45¢

NANTES HALF LONG Also Known as Coreless. The handsome, half-long, well-shaped orange roots grow 6 to 7 inches long and are perfectly cylindrical, from 1 to 1½ inches thick, ending abruptly in a small, thin tail. They are of delicious flavor, fine grained, tender, sweet, and practically coreless. Pkt. 10¢, oz. 40¢

TENDERSWEET All-America Silver Medal Winner. An exceptionally heavy yielder. Always smooth and uniform, the roots are 8 to 9 inches long, 2 inches across the shoulder, tapering to a rather blunt end. Skin is rich orange-red. It has the sweet tender quality to further recommend it. Tendersweet is the favorite home garden streamlined carrot. Pkt. 15¢, oz. 60¢

TABLE BEETS

Beets are one of the most satisfactory vegetables to grow in the home garden. A few rows in the garden will give you fresh beets throughout the season. Sow some in the spring and again a few weeks later for a succession. It is an excellent plan to make a sowing in July for use in the fall. These young beets are not only a very welcome addition to your fall vegetables but when put in a pit or root cellar and covered with sand will keep in tender condition for use during the winter. Beet tops are used quite extensively for "greens." With the exception of Winter Keeper the best crop will mature in eight weeks.

A packet of seed will sow 15 feet of row, an ounce 60 feet.

CROSBY'S EGYPTIAN A Fine Early Garden Beet. There is no better early garden beet than Crosby's Egyptian. This variety has the deep crimson color which is the most desirable. Slightly flattened, very smooth with small tops, and very slender tap roots. They mature quickly, being a very early variety. . . . Pkt. 10¢, oz. 35¢

DETROIT DARK RED The exceptionally fine quality of this beet has made it one of the most popular kinds for the home, market garden and canning. For fall use in the home garden it has few equals. Seed sown in July will produce beautiful, tender, dark red beets, superior to use in the fall and to store for winter. The beets are smooth, solid, rich deep red. Pkt. 15¢, oz. 40¢

EARLY WONDER Quick Grower. It is semi-globe-shaped, about 3 inches across, with medium-sized tops and a thin tap root. Dark red skin and deep red flesh

with slightly lighter zones. Gardeners like this very early beet; its smooth skin and uniform shape, its evenness of maturity recommends it. The entire crop can be lifted at one time for canning. Pkt. 10¢, oz. 35¢

WINTER KEEPER Long Season. If you want a beet that will remain tender and sweet all summer and fall and keep all winter, try the "Winter Keeper." It is the best quality table beet. It makes no difference whether the beets are young or old, small or large, they are always tender. The beets are a very deep red color without light colored rings and with large green tops.

Do not depend on this beet for early use as it grows slowly, requiring 11 weeks to mature. Winter Keeper will be found to be of the finest quality and, even though they are very large they are just as tender as the young early beets. Pkt. 10¢, oz. 40¢

CUCUMBERS

CUBIT The newest and best cucumber, All-America Bronze Medal for 1944. Cubit is a very prolific white-spined variety distinguished by unusually uniform dark green exterior color and long, blunt-ended cylindrical shape. The interior has a fine smooth but crisp texture with small seed area. It is admirably adapted to slicing. Pkt. 25¢

A & C (LONG WHITE SPINE) This new cucumber has proved very popular with growers because of the large yield of fine fruits. When ready to pick the fruit is smooth and straight, usually over 8 inches long and 2 inches in diameter. The skin is very dark green. Pkt. 10¢, oz. 35¢

MARKETEER All-America Selection. It has a smooth white spine and is an exceptionally uniform dark green down to the blossom end; very prolific on a vigorous vine, and about as perfect as cucumbers come. About eight inches long and two inches across. Pkt. 15¢, oz. 60¢

WEST INDIA GHERKIN This is the true West India or Burr Gherkin which is quite different from other types of cucumbers. The vines produce an astonishingly large crop of small, burr-like fruits, 2 to 3 inches long and 1 to 1½ inches thick. The bright green skin is covered with fleshy spines or prickles. Used for pickling or relish. Pkt. 10¢, oz. 35¢

FINE LETTUCE

Even the smallest home garden can easily grow plenty of lettuce by making successive sowings. The loose-leaf varieties may be thinned to four to six inches when they come up and then every other one taken out and used as they get larger. To get really fine lettuce use the heading varieties and thin to 12 to 18 inches while the plants are still small.

Flowerfield's packets will sow about 30 feet of row, an ounce 250 feet.

BIBB These do not form solidly folded heads, but where the plants are grown singly at a suitable distance apart, they make a round, thick bunch of leaves which are blanched to a light green in the center of the plant. The leaves are heavily curled or crumpled, attractive in appearance, and of delightful crispness and very distinct flavor. They are splendid to provide an extra-early supply of delicious salad and for growing in the greenhouse during the winter. . . Pkt. 25¢

COSBERG 600 Honorable Mention, All-America Selections. A distinct crisp head-lettuce developed at Beltsville, Md., Station of the U. S. Department of Agriculture. Bred for resistance to tip-burn and ability to head during hot, dry weather. Interior is solid, crisp, tender and of a remarkably sweet flavor, entirely free from any bitter taste. Wonderful home garden variety for summer use. Matures in 12 weeks. Pkt. 15¢, oz. 35¢

IMPERIAL N. Y. NO. 44 One of the best of the new heat-resistant lettuces, resistant to tip-burn and sure to head, even during hot, dry weather. The heads are medium large, slightly flattened and extremely compact. Pkt. 15¢, oz. 60¢

GRAND RAPIDS Widely grown non-heading lettuce with intensely fringed and curled leaves. Thick sowing will give an abundance of young tender leaves very early in the season, but if the plants are spaced 12 to 18 inches apart each way, they will produce immense round masses of tender, juicy, light green leaves. Matures in 6 weeks. Pkt. 10¢, oz. 30¢

EARLY CURLED SIMPSON Also known as Silesia or White-Seeded Simpson. The large plants have very light green, crumpled and slightly frilled leaves. Forms a compact bunch of crisp, brittle leaves of excellent flavor. Tender, succulent, and of decidedly piquant taste. Fine for spring and early summer use. Matures in 6 weeks. Pkt. 10¢, oz. 30¢

ENDIVE

DEEP HEART Thick, large, dark green leaves with curled edges. Forms a medium-large, compact head which readily blanches to light yellow. Also known as escarole. Pkt. 15¢

"FRENCH ENDIVE" or WITLOOF CHICORY

Flowerfield's packets of seed will produce 300 to 500 roots.

A most appetizing and delicious salad and is so easily raised that everyone can enjoy it all winter with very little trouble. Seed sown in May or June produces roots which, when taken up in the fall, trimmed and covered with 10 inches of sand in a warm dark place, throw out large tender white sprouts which are used as salad. These sprouts are commonly called "French Endive." Pkt. 15¢

ONIONS

SWEET SPANISH, UTAH STRAIN Large, globe shaped, often called "Bermuda Onion." Exceptionally mild in flavor. Start the seed early for largest size. Not for winter storage . . . Pkt. 15¢

ONION SETS

(1 lb. will set 50 ft. row)

YELLOW SETS Produce large bright golden-skinned globe shaped onions with mild white flesh. Good for winter storage. 60¢ per lb.

WHITE SETS Mature into round silvery white skinned mild onions. Excellent for pickling when small. 60¢ per lb.

KITCHEN HERBS

Herbs grown by themselves in little knot gardens outside the kitchen door, or grown as decorative borders around the vegetable plots will prove to be a source of both enjoyment and utility. Fragrant and ornamental, some may be grown in the flower garden as well. All of the varieties listed here are annuals and are easily raised from seed. Perennial herb plants can be supplied on request.

ANISE 18 inches tall of decumbent habit; white flowers. Sow seeds in open ground in sunny areas. Thin out plants to 8 inches apart. Use the fresh young leaves for salads, the tiny seeds for bread and cake. Pkt. 25¢, ½ oz. 60¢

BASIL, SWEET Dwarf bushy plants for an attractive border. Pinch out tops to make them fuller. Can be clipped to form a tiny hedge. Leaves have a clove-peppery odor and taste. Use for garnish on boiled potatoes, peas, etc. Pkt. 35¢

BORAGE Pure blue star-like flowers in clusters on plants 18 inches high. Sow seeds in open ground, later, thin out plants to 12 inches apart. The cucumber-like flavor of the young leaves is refreshing when used in salads. The leaves can also be steeped and used for iced drinks. Pkt. 20¢, ½ oz. 60¢

CARAWAY Biennial. The mature plants grow to 18 inches with lacy flowers. Spring sown seed produces decorative rosette-like 8 inch plants for borders. They mature the following summer and produce the tiny seeds that are used in rye bread, etc. Pkt. 35¢

DILL 3 ft. tall, feathery foliage and pretty flower umbels. Sow in the open and thin out plants to stand 10 inches apart. Use fresh tender leaves in cottage cheese, potato salad and dried leaves for pickles. The ripened flower seeds are used for spiced beets. Pkt. 20¢, 1 oz. 50¢

FENNEL-FINOCCHIO 2 ft. plants, grown like carrots. Thin out to stand 12 inches apart. Pile soil around base to bleach bulbous root, which is eaten raw like celery. Delicious anise flavor. Pkt. 25¢, 1 oz. 50¢

PARSLEY Triple Curled Paramount. Bright green extra curled leaves for garnish. Sow seed early in shallow drills. Slow to germinate but very hardy. Splendid edging plant. Pkt. 15¢, 1 oz. 35¢

SWEET MARJORAM Erect, bushy little plant 10 inches high with white flowers. Delightfully fragrant, it is decorative as well as useful. Seedlings require shade until well started. The dried leaves are used in vinegar, soup, etc. Pkt. 25¢, ¼ oz. 60¢

SUMMER SAVORY 18 inch plants with small leaves on drooping branches that are covered with tiny lilac flowers. Excellent for an informal edging. Leaves are used for meat sauces, poultry stuffings, etc. Pkt. 25¢, ½ oz. 60¢

Large flowering annuals often used as herbs are to be found on page 15.

Flowering Vines

MORNING GLORIES

(*Ipomoea*)

Any fence or trellis or even an ivy-covered wall can be easily converted into a continual sheet of beautiful bloom from early summer until frost by planting these sturdy climbing annuals. They succeed in any soil and will climb 20 feet or more.

Plant morning glories when ground is thoroughly warm, first soaking the seed overnight to make germination quicker. Avoid heavy watering which tends to stimulate foliage growth at the expense of flowers.

HEAVENLY BLUE Huge sky-blue flowers. Improved strain of this ever-popular morning glory. . . . Pkt. 35¢

WHITE MAGIC Pure white flowers 4 in. across. . Pkt. 35¢

SCARLETT O'HARA Bright rosy red flowers. . . Pkt. 35¢

CORNELL Large flowers, dark red, white edge. . Pkt. 35¢

PEARLY GATES Satiny white, 4½ inch blooms, on less rampant vines; suited to low fence or trellis. . Pkt. 35¢

MOONFLOWER

A quick-growing vine with large white fragrant flowers. Blooms at night, the flowers lasting until the following day. Grown on trellises, it provides splendid shade. Often planted alternately with Heavenly Blue morning glories.
