NOTE—All of our seed grains are selected for trueness to name, high yields, and all-around quality. Everything has been thoroughly machine cleaned and graded. We sell nothing that is "thresher run." It pays us to sell the BEST, and it will pay you to buy the BEST—especially when it comes to seed. We sack our seed in strong, uniform, even-weight bags so that they will reach you in good condition. To those who do not know it, let us say that Coker's 33-50 oats have been bred to replace Fulghums. They are higher yielding, highly smut resistant, stand up well, early, and 1 bu. sows an acre, whereas 2 bus. of other kinds are usually required. They are economical to use. Ask for samples.

TESTED SEED PAY—We attach analysis tags in compliance with Alabama Seed Laws to all bags of seed weighing 5 lbs. or more that we ship. In this way, we know and you know what you are getting. Don't buy by guess, but by test! It pays.
