PRICE LIST

1912-1913

**CALIFORNIA
NURSERY
COMPANY**

NILES, CALIFORNIA

TO CORRESPONDENTS

1st. This catalog cancels all previous prices, either in special lists, offers or catalogs. This rule will be strictly observed.

ORDERS.

2d. Order early so that you may get the varieties and grades you prefer. All orders should be legibly written on a separate sheet and not mixed up in the body of the letter, thereby saving us a great deal of trouble and tending to prevent mistakes. Never write on both sides of paper.

QUANTITIES AND PRICES.

3d. The articles in the following list will be furnished at the annexed prices ONLY when the quantity specified shall be taken. Five hundred, however, will be furnished at the thousand rate, fifty at the hundred rate and five at the ten rate. The absence of a thousand, hundred or ten rate means in each case that the next best rate is the lowest we can make. In no case does this mean so many trees of assorted classes, but refers only to ONE CLASS of assorted varieties; for instance, 5 apples, or 5 pears, or 5 plums, of different varieties, but not 2 apples, 2 pears and 1 plum.

SUBSTITUTIONS.

4th. Where particular varieties are ordered, and particular ages and sizes of trees, kind of stock, etc., it should be stated whether, and to what extent, substitution will be allowed in case the order cannot be filled to the letter. Where no instructions in this respect accompany the order, we shall feel at liberty to substitute other varieties as nearly similar as possible. If the selection of the varieties is left entirely to us, we shall endeavor to send only such sorts as are acknowledged to give general satisfaction.

PACKING.

5th. All trees and plants are carefully labeled, and securely packed in the best manner, for which a moderate charge, sufficient to cover cost of material only, will be made; but no charge is made for the delivery of packages to the railroad or express offices at Niles.

EXPRESS OR FREIGHT.

6th. Always state which way you want your order shipped and give explicit directions for marking packages.

When it is left for us to choose the mode of conveyance, we will exercise our best judgment; but as all articles are at the risk of the purchaser after being shipped, we must not be held responsible for any loss or delay that may occur through the negligence of the transportation companies.

GUARANTEE, ETC.

7th. We warrant all trees and plants to be good, thrifty and true to label, but having no control over them after delivery to the transportation companies, or over the planting and care after they are received by the buyer, we will not be responsible in any other direction than as stated, and accordingly, if any tree or plant should prove untrue to kind, we will either replace the same or refund the amount paid; but in no case will we be liable for any sum greater than that originally paid, and this statement is due notice to buyers of the extent of our responsibility for trees and plants after delivery of the same shall have been accepted by the buyer.

REPLACING.

8th. For the reason that we have no control over the planting, pruning and care of the trees after they leave our hands, we will not under any circumstances replace any trees that may die.

ERRORS AND SHORTAGES.

9th. Customers are requested to notify us immediately should any error or shortage occur in filling their orders so we may rectify it at once. Any such claim must be made within one week after receipt of shipment; otherwise it will be assumed that the goods are satisfactory and in accordance with invoice.

C. O. D. AND STRANGERS.

10th. Orders from unknown correspondents must be accompanied by the cash or satisfactory reference. Orders to be sent C. O. D. must be accompanied by at least one-half the amount in cash; otherwise they will not receive attention.

REMITTANCES.

11th. Remittances may be made by check or draft on San Francisco banks, Express or Post-office money order on Niles, by registered letter or cash by express prepaid.

WRITE PLAINLY.

12th. Always be sure to write your name, Postoffice address and Express or Freight office plainly so no mistake can be made by us.

All communications should be addressed to

PRICE LIST

SEASON 1912-1913

ALL PRICES QUOTED ARE NET—NO DISCOUNTS

INDEX AT END OF CATALOG

Fruit and Ornamental Trees

Evergreens, Palms, Shrubs, Roses, Etc.

We present herewith our price list for the coming season (twenty-eighth edition). Our nurseries are the most compete on the Pacific Coast. Our shipping facilities are unexcelled both for domestic and foreign business. For many years we have led in introducing and testing, under California conditions, the most promising foreign and other new varieties of fruit. We have in actual bearing here at Niles our own trees of every variety we offer for sale. Probably no other nursery can cut their buds from their own fruiting trees. Our buds and cions are taken from these bearing trees, cut and distributed by one man, making the mixture of varieties well nigh an impossibility. The unequalled reputation which our trees have, not only on the Pacific Coast, but in almost every country in the world, is an indication of the great care we exercise in every detail of our chosen line of work.

All interested parties, whether intending to purchase or not, are invited to visit the nursery, and if we are notified of time of arrival at Niles, and number of persons coming, will have conveyance at station to meet them.

CALIFORNIA NURSERY COMPANY.

Niles, November 1, 1912.

OFFICERS.

Egbert B. Stone, President.
F. W. Hosmer, Secretary.

A. C. Hammond, Vice-President.
Central National Bank, Oakland, Treasurer.
W. V. Eberly, Manager.

DIRECTORS:

Stuart S. Hawley, Oakland.
A. C. Hammond, San Francisco.
Egbert B. Stone, Elmhurst.

John H. Henn, San Francisco.
W. H. Landers, San Francisco.
R. M. Sims, San Francisco.
W. V. Eberly, Niles.

SPECIAL NOTICE (SHIPPING)

We are now able to ship from Niles by both the **Western Pacific** and the **Southern Pacific**, and request customers who can get their goods by either road to always state which route they prefer.

HINTS ON TRANSPLANTING

The many excellent treatises on Fruit Culture which have appeared within the past few years—one or more of which should be in the hands of every person intending to plant—render it almost unnecessary to give any directions in that line; yet we are so frequently asked for advice in this way, that we offer a few general remarks.

The situation of the orchard having been decided on, the ground should be deeply plowed, subsoiled and thoroughly pulverized. The holes should be dug at least a foot larger in every direction than actually required by the roots when spread out in their natural position. In planting, the top soil should be broken down into the hole, and worked carefully in between every root and fiber, filling up every crevice, that every root may be in contact with soil, and the whole made quite firm as the filling up progresses. The tree, when planted, may in light soils stand from two to three inches deeper than it stood in the nursery; but in heavy clay or wet ground it is advisable to have it stand at the same height as it was before transplanting.

On account of our long, hot dry summers, it is well to shade the sunny side of the tree, to keep borers out, with a hoard or shake stuck in the ground, or a piece of hurlap wound loose around the tree up to the limbs, top tied loose with a string. Whitewash made out of whiting or lime will also protect the tree against sun-scald.

See back of Catalog for list of useful horticultural books we have on hand for sale.

DISTANCE FOR PLANTING

Standard Apples	25 to 30 feet apart each way
Standard Pears	20 to 24 " " " "
Strong-growing Cherries	20 to 24 " " " "
Duke and Morello Cherries	18 to 20 " " " "

"	40 " " " " " " " ".....	27	31
"	50 " " " " " " " ".....	18	20

Rule—Square Method—Multiply the distance in feet between the rows by the distance the plants are apart in the rows, and the product will be the number of square feet for each plant or hill, which, divided into the number of feet in an acre (43,560), will give the number of plants or trees to the acre.

Rule—Equilateral Triangle Method—Divide the number required to the acre "square method" by the decimal .866. The result will be the number of plants required to the acre by this method.

FRUIT DEPARTMENT

All our Fruit Trees are grown on whole Seedling roots. The advantages of these in promoting the health and thriftiness of trees over others grafted on pieces or sections of roots, or budded on stocks grown from cuttings, is acknowledged by the best authorities, and is easily apparent to the most casual observer. All two-year-old trees are branched low and are stocky, having been cut down or headed back when yearlings, two feet above ground, except where noted.

Although we quote fruit trees by height, it is to be understood that we will include in each grade any trees which are as stocky as the average of that grade, even if they do not fully attain the specified height.

All of our Apple Trees and Grape Vines are fumigated with hydrocyanic gas when dug, so are the buds, cions, and cuttings, prior to budding, grafting, or planting out in Nursery. This positively kills any insects that may be thereon, without injury to trees or vines. We have a Fumigating House, with three compartments, so that we can disinfect, at any time, either 50 trees or 10,000.

Apple—General Assortment.

Bijou	Mayette			Zante (U. S. D. A.)	
Franquette	Placencia (California variety)				

The following "French Varieties" are grafted on Black roots at various heights ranging from 10 to 30 inches above the ground. This manner of working gives the trees Black Walnut bodies, which, with their thick, rough bark, will not be so liable to sunburn, and are, therefore, particularly valuable for use in the hot parts of the State.

ORNAMENTAL DEPARTMENT

From here on all items are listed under same names and arranged precisely as in our No. 2 catalog (describing ornamental trees and plants). The latter is the most complete and accurate publication of its kind ever issued on this Coast. While its price is 25 cents, we will gladly send a complimentary copy on request to any interested customer. It is invaluable to any one planting ornamental stock.

All plants in this division have been once or more transplanted, which contributes greatly to the certainty of their growing. Balled trees and plants should always be set without removing the burlap from the roots.

In cases where items are quoted only "per 10" or "per 100," we will not accept orders for less than 5 and 50 respectively.

NOTICE.

Where we catalog and specify SIZE OF BOXES, it means that the trees or plants so listed are already dug and have been established in boxes for at least six months. Such plants, as well as those in pots, can be shipped and planted at any time of the year. BOXED means that the plants so quoted are in the field and of such size that it is necessary to dig them into boxes.

CONIFEROUS EVERGREENS

This section includes only evergreen conifers. Other evergreen trees and shrubs, usually called "Broad-leaved Evergreens," are listed separately in the next division, commencing at page 18.

HEDGE PLANTS

The following list includes plants suitable for this purpose. Sizes and prices are shown on pages noted below:

Acacia longifolia (latifolia)	Euonymus japonicus and all	Myrtle (all varieties)	27
and armata	its varieties	Nandina domestica	27
Berberis darwini	Heath (Mediterranean)	Oleander (all varieties)	27
Box (all varieties)	Laurel (English and large	Pine—Monterey (for tall	
Cherry (Evergreen)	leaved	hedges)	15
Christmas Berry	Laurustinus (all varieties)	Pittosporum crassifolium,	
Cotoneaster angustifolia	Ligustrum ovalifolium (Cal-	eugenioides and nigricans	28
Crataegus pyracantha, la-	ifornia Privet)	Quince (Japanese Scarlet)	38
landi and crenulata	Melaleuca decussata and	Spruce (Norway)	17
Cypress (Monterey)	ericifolia	Veronica (all varieties)	28
Escallonia berteriana, leu-		Yew (English)	18
cantha and rubra			

DECIDUOUS ORNAMENTAL TREES

Please note that all trees in this class over 12 to 14 feet tall are graded and quoted according to their diameter measured at 4 feet above the ground. As a rule such trees have been headed back to 9 feet and have good heads. With proper planting and after-care there should be little or no loss in using these large trees.

	Diam. in in.	Height in ft.	Each	per 10	per 100
ALBIZZIA julibrissin	4 to 6		2 50

DAHLIA (new varieties)						
Decorative		50			4 00	
Beloit—A very large flower of splendid form. Rich purplish-garnet, deepening to crimson toward the center.						
Delice—Glowing rose pink. Stems wiry, holding the flowers well above the foliage. One of the most valuable varieties for cutting.						
Le Grand Manitou—A fine large dahlia, 5 to 6 inches across. White, striped and blotched with deep reddish maroon.						
Perle de Lyon—A splendid variety, which will become one of the leading sorts for cutting. Perfect in form. Pure white; petals beautifully frilled on the tips.						
Yellow Colosse—Flowers are rich yellow, globular, and very large.						
Cactus						
Nerthus—Flowers from 5 to 6 inches in diameter. Center orange yellow, shading to bronze; rosy-carmine at the tips. A fine variety for the garden and beautiful for decorating.						
Purity—In this variety we think we are offering the ideal Cactus. Flowers large, of splendid form and with very long, graceful petals. Excellent for cutting.						
Rheinkönig—Pure snow-white. Splendid form and good substance.						
Wodan—This is the strongest grower in our collection, attaining a height of six feet. Large flowers, which extend well above the foliage. Delicate salmon-rose, shading to old-gold in center. Semi-incurved, tubular petals.						
Wolfgang von Goethe—A splendid large, free-flowering variety. Petals perfectly arranged, making it a very attractive flower. Rich carmine, shading to apricot in center.

ROSES

Our soil and climate are ideal for growing rose plants. Those offered are two years old and have been grown entirely in the open ground. They have all bloomed the past season, and with any reasonable care can hardly fail to bloom again the first season after planting.

For more detailed descriptions of the varieties in "General Collection" see the rose section of our Catalog No. 2, which will be sent on request to any customer.

NOVELTIES

SUNBURST, \$1.50.

A magnificent yellow, shaded orange copper; long buds on long stems; flowers very large; unusually vigorous and healthy. Has scored highest honors wherever exhibited, and will attain instant popularity. The coming yellow.

LADY HILLINGDON, \$1.25.

A fine, deep yellow variety; buds graceful and slender; very free bloomer. Foliage narrow; growth free and vigorous.

ROSE QUEEN, \$1.00.

Color is much the same shade of pink as Mad.

Caroline Testout, with yellow at base of petals. Buds very beautifully formed and intensely colored; borne on long stems. Particularly fine for cutting.

*MOSCHATA, \$1.00.

Flowers creamy white, single, similar to those of the Cherokee and possessing a musky fragrance. A strong climber.

LYON, 75c.

The greatest and most beautiful rose of the century. Coral red or salmon pink; chrome yellow at center and shrimp pink at the tips.

NEW AND SCARCE VARIETIES

50c each.

Helen Good (T.). A rose that has all the good points of the Cochet. The buds are of exquisite form; color is a delicate yellow, suffused with pink, with deeper edge.

Joseph Hill (H. T.) Pink, shaded salmon; outside of petals coppery pink. Blooms very large, full and of perfect form. A superb variety.

Mrs. David Jardine (H. T.) A glorious and most charming rose, possessing vigorous and erect growth, together with marvelously free flowering habit. The blooms, which are produced on every shoot, are of very large and perfect form; beautiful in its several stages of development. The color is a delightful shade of bright rosy pink, shading in outer petals to salmon pink.

Mrs. Myles Kennedy (H. T.) Delicate silvery white shaded buff, deeper pink in center, with back edge of petals slightly deeper shade of

pink. A most beautiful, distinct and charming addition.

My Maryland (H. T.). A grand pink variety that has come to the front with great strides. A splendid bloomer and superb rose.

Niles Cochet (T.). Red on edge of petals, pink at base; a sport from Maman Cochet. It has developed to be far superior to any of the other Cochets, being a much better bloomer and of finer color and substance.

***Pink Cherokee.** A pink flowering form of the Single Cherokee rose. Possesses all the merits of the original.

Rhea Reid (H. T.) Rich, dark, velvety red; full, double flowers of good form and as fragrant as La France. A rose of great excellence.

White Killarney (H. T.) A pure white sport from Killarney, identical with its parent except in color.

GENERAL COLLECTION

35c each; \$3.00 per 10; \$25.00 per 100.

TEA ROSES.

Amazona. Deep yellow, faintly veined pink.

Anna Olivier. Creamy blush, shaded carmine.

Annie Cook. Delicate pink.

Beaute Inconstante. Coppery red, shaded carmine and yellow.

Belle Lyonnaise. Light yellow.

Bon Silene. Salmon rose.

Bridesmaid. Clear bright pink.

Catherine Mermet. Pink, shading to amber in center.

Christine de Noue. Deep purplish red.

***Climbing Devoniensis.** Cream with blush center.

***Climbing Marie Guillot.** White.

***Climbing Niphetos.** White.

***Climbing Papa Gontier.** Color identical with Papa Gontier.

***Climbing Perle des Jardins.** Deep golden yellow.

Comtesse de Frigneuse. Delicate canary yellow.

Comtesse Riza du Parc. Coppery rose, tinged carmine.

Coquette de Lyon. Light canary yellow.

Cornelia Cook. Creamy white.

Dean Hole. Intense salmon pink.

Dr. Grill. Coppery yellow, tinged rose.

Duchesse de Brabant. Soft, silvery blush, shaded rose.

Frances Willard. Pure white.

Franciska Kruger. Deep chamois, shaded peach pink.

***Gloire de Dijon.** Fawn, tinted salmon and rose.

Golden Gate. Creamy white.

Homer. Rosy pink over white, shaded salmon.

Improved Rainbow. Almost the same as Rainbow.

Ivory. Pure white.

Jules Finger. Bright rosy scarlet, shaded deep crimson.

Letty Coles. Rosy pink, shaded crimson.

*Varieties starred are climbers.

READ INSIDE FRONT COVER

TEA ROSES Cont'd.

Mad. Chedane Guinoisseau. Clear canary yellow.
 Mad. Hoste. Fine canary yellow.
 Mad. Jenny Gillemot. Deep saffron yellow.
 Mad. Lambard. Rosy bronze, shaded carmine.
 Mad. Scipion Cochet. Creamy rose with deeper center.
 Mad. Vermoral. Coppery yellow.
 Mad. de Watteville. Salmon white, flushed and bordered rose.
 Mad. Welche. Pale yellow with deep orange center.
 Marie Van Houtte. Creamy yellow, tinted rose on the outer petals.
 Molly Sharman Crawford. Pure white.
 Morning Glow. Beautiful shell pink, shading to rose toward center.
 Mrs. Benjamin E. Cant. Carmine rose with salmon center.
 Niphotos. Almost pure white.
 Papa Gontier. Rosy crimson with carmine center.

Papa Reiter. Cream, tinted pink.
 Perle des Jardins. Deep golden yellow.
 Pink Maman Cochet. Deep rose pink outside, but very light within.
 Princess de Sagan. Amaranth red, shaded crimson.
 Princess Stephanie. Salmon yellow.
 Princess of Wales. Coppery yellow, overlaid with rosy pink.
 Rainbow. Pink splashed with carmine.
 Safrano. Saffron in bud, changing to pale yellow.
 Shirley Hibbard. Nankeen yellow.
 Souvenir d'un Ami. Pale rose.
 Sunset. Golden amber.
 The Bride. White.
 True Friend. Golden yellow.
 White Bon Silene. Creamy white.
 White Maman Cochet. Nearly white.
 Yellow Maman Cochet. Light yellow, edged rose.

HYBRID TEA ROSES.

Augustine Guinoisseau (White La France). White, slightly blushed.
 Aurora. Salmon pink center, paler outside.
 Avoca. Crimson scarlet.
 Balduin (Helen Gould). Rosy crimson.
 Belle Siebrecht. Bright rosy pink.
 Bessie Brown. Faint flesh pink.
 Betty. Coppery rose.
 Chas. J. Graham. Orange crimson.
 *Climbing Belle Siebrecht. Bright rosy pink.
 *Climbing Kaiserin (Mrs. Robert Peary). Pure white.
 *Climbing Testout. Clear pink.
 Dorothy Page Roberts. A lovely shade of coppery pink, suffused with apricot yellow, especially at the base of petals, which are very large, massive and of great substance.
 Duchess of Albany. (Red La France). Deep rose, nearly red.
 Etoile de France. Red, shaded crimson.
 Franz Deegen. Creamy yellow.
 Frau Peter Lambert. Rosy pink.
 *Galnesborough. Pale flesh.
 General MacArthur. Fiery red.
 George C. Waud. Orange vermillion. A shade of color heretofore unknown among roses. Large, full and perfectly formed, with pointed center.
 Grace Darling. Creamy white, tinted peach.
 Grace Molyneux. A fascinating rose of rare beauty and faultless form. The color is apricot, tinted flesh in center, but when fully developed the outer petals are creamy white on the inside with a pink sheen on the reverse.
 Gruss an Teplitz (Crimson Hermosa). Rich scarlet overlaid with crimson.
 Hector Leuillot. Light yellow.
 Hon. Ina Bingham. Purest pink.
 John Cuff. Deep carmine pink with a most attractive and distinct yellow zone at the base of each petal; standing by itself on account of its novel and striking color.

Kaiserin Augusta Victoria. Very nearly pure white.
 Killarney. Flesh, suffused pink.
 La Detroit. Shell pink.
 La France. Pink, tinted silvery bluish.
 Lady Battersea. Cherry crimson.
 Lady Clanmorris. Deep peach.
 Lady Faire. Light carmine rose, shaded salmon.
 Lady Mary Fitzwilliam. Delicate flesh.
 Lady Moyra Beauclerc. Flesh pink.
 Lady Ursula. A delightful shade of flesh pink. Flowers produced on every shoot, are very large, full and of perfect form, with high center from which the petals of great substance gracefully reflex.
 Liberty. Crimson scarlet.
 Mad. Abel Chatenay. Rosy crimson, tinged salmon.
