COASTAL BERMUDA GRASS (CERTIFIED)

Coastal proved its superiority for grazing and hay during the severe 1954 drouth. Ask for sheet giving general information and planting and fertilizing recommendations. Feb. 15 to April 15 is generally regarded as the best and safest time to set out stolons or sprigs. We are digging now—when the ground is dry enough. Use 4,000 to 6,000 per acre. We bale our stolons like bales of hay, except shorter. Handy way to count and ship. Weight, 75 to 90 lbs. Bales contain 6,000 stolons or more, but we charge for 6,000. Bales submerged in water soon as dug. Read our information sheet. Make arrangements with us before sending trucks. Price per 1,000 stolons f.o.b here are:

\$0.80 M

Special Prices on Large Lots. State Quantity Wanted.

(2,000 to 4,000 sprigs packed for express shipment are \$1.50 M.

Our experience in growing and digging Coastal stolons enables us to offer you the BEST money can buy.
