PAULONIA IMPERIALIS.

Price \$2.

A new and splendid ornamental tree, very rapid in growth and perfectly hardy, have seen the leaves twenty inches in diameter.

MACLURA AURANTIACA.—*Osage Orange.**Per hundred \$1 50—per M. \$10*

Further experience has tended to confirm the opinion that this plant is likely to supersede the thorn for hedging,—there are some hedges near us only a few years planted, which are more effective than any of thorn twice as old.

FRUIT TREES.

The following abridged list of fruit trees contain those that are *really* worthy of cultivation, many of them have fruited with us, those which have not, we have obtained from undoubted sources, and in the orchards of our friends.

APPLES.

25 cents each, or \$18 75 cts. per hundred.

Those marked thus * are cider fruit.

ADVERTISEMENT.

THE subscribers, on presenting this *abridged* Catalogue to their numerous customers (to whom they are under obligations for liberal encouragement) beg leave to state that their stock, as a whole of all that is of intrinsic merit in their profession, is unsurpassed in the United States.

The fruit department contains a careful selection, purposely limited in variety, of the most desirable fruits; and additions are annually made of such new ones as prove worthy. The utmost vigilance is exercised in preserving the respective varieties distinct—all the trees being “worked” under their personal inspection; purchasers may therefore rely on obtaining the identical variety represented.

The prices for Ornamental Trees and Plants have been greatly reduced. Where the prices vary, it is in consideration of size, form, &c.; in such cases the orders had better indicate the cost. To obviate misunderstanding, it may be proper to premise that no care will be spared in the removal and package of all orders intrusted to them, but no responsibility will be incurred as to their safe carriage or ultimate success.

The terms are CASH, or RESPONSIBLE City references.

☞ *A liberal discount allowed to wholesale purchasers.*

D. LANDRETH & FULTON.

Philadelphia, Sept. 1844.

☞ At the Agricultural Warehouse of

D. LANDRETH & D. L. MUNNS,

65 Chestnut street, Philadelphia,

May be obtained, warranted Seeds for Farm and Garden, and
IMPLEMENTS of all descriptions used in husbandry.

The *Garden Seeds* are principally grown at their extensive Seed grounds near the city, under the strict personal supervision of the senior partner; therefore purchasers may rely on obtaining all they may require FRESH and GENUINE.

At their depot in the city, will be found a larger assortment of IMPLEMENTS for FARM and GARDEN than are congregated elsewhere in the United States.

☞ *Prices Moderate.* ☞
