1911-1912

CALIFORNIA
NURSERY
COMPANY

NILES, CALIFORNIA

TO CORRESPONDENTS

1st. This catalog cancels all previous prices, either in special lists, offers or catalogs. This rule will be strictly observed.

ORDERS.

2d. Order early so that you may get the varieties and grades you prefer. All orders should be legibly written on a separate sheet and not mixed up in the body of the letter, thereby saving us a great deal of trouble and tending to prevent mistakes. Never write on both sides of paper.

QUANTITIES AND PRICES.

3d. The articles in the following list will be furnished at the annexed prices ONLY when the quantity specified shall be taken. Five hundred, however, will be furnished at the thousand rate, fifty at the hundred rate and five at the ten rate. The absence of a thousand, hundred or ten rate means in each case that the next best rate is the lowest we can make. In no case does this mean so many trees of assorted classes, but refers only to ONE CLASS of assorted varieties; for instance, 5 apples, or 5 pears, or 5 plums, of different varieties, but not 2 apples, 2 pears and 1 plum.

SUBSTITUTIONS.

4th. Where particular varieties are ordered, and particular ages and sizes of trees, kind of stock, etc., it should be stated whether, and to what extent, substitution will be allowed in case the order cannot be filled to the letter. Where no instructions in this respect accompany the order, we shall feel at liberty to substitute other varieties as nearly similar as possible. If the selection of the varieties is left entirely to us, we shall endeavor to send only such sorts as are acknowledged to give general satisfaction.

PACKING.

5th. All trees and plants are carefully labeled, and securely packed in the best manner, for which a moderate charge, sufficient to cover cost of material only, will be made; but no charge is made for the delivery of packages to the railroad or express offices at Niles.

EXPRESS OR FREIGHT.

6th. Always state which way you want your order shipped and give explicit directions for marking packages.

When it is left for us to choose the mode of conveyance, we will exercise our best judgment; but as all articles are at the risk of the purchaser after being shipped, we must not be held responsible for any loss or delay that may occur through the negligence of the transportation companies.

GUARANTEE, ETC.

7th. We warrant all trees and plants to be good, thrifty and true to label, but having no control over them after delivery to the transportation companies, or over the planting and care after they are received by the buyer, we will not be responsible in any other direction than as stated, and accordingly, if any tree or plant should prove untrue to kind, we will either replace the same or refund the amount paid; but in no case will we be liable for any sum greater than that originally paid, and this statement is due notice to buyers of the extent of our responsibility for trees and plants after delivery of the same shall have been accepted by the buyer.

REPLACING.

8th. For the reason that we have no control over the planting, pruning and care of the trees after they leave our hands, we will not under any circumstances replace any trees that may die.

ERRORS AND SHORTAGES.

9th. Customers are requested to notify us immediately should any error or shortage occur in filling their orders so we may rectify it at once. Any such claim must be made within one week after receipt of shipment; otherwise it will be assumed that the goods are satisfactory and in accordance with invoice.

C. O. D. AND STRANGERS.

10th. Orders from unknown correspondents must be accompanied by the cash or satisfactory reference. Orders to be sent C. O. D. must be accompanied by at least one-half the amount in cash; otherwise they will not receive attention.

REMITTANCES.

11th. Remittances may be made by check or draft on San Francisco banks, Express or Post-office money order on Niles, by registered letter or cash by express prepaid.

WRITE PLAINLY.

12th. Always be sure to write your name, Postoffice address and Express or Freight office plainly so no mistake can be made by us.

All communications should be addressed to

PRICE LIST

SEASON 1911-1912

ALL PRICES QUOTED ARE NET—NO DISCOUNTS

INDEX AT END OF CATALOG

Fruit and Ornamental Trees

Evergreens, Palms, Shrubs, Roses, Etc.

We present herewith our price list for the coming season (twenty-seventh edition), and wish to call attention to a few facts. Our nurseries are the most complete on the Pacific Coast. Our shipping facilities are unexcelled both for domestic and foreign business. For many years we have led in introducing and testing, under California conditions, the most promising foreign and other new varieties of fruit. We have in actual bearing here at Niles our own trees of every variety we offer for sale. Probably no other nursery can cut their buds from their own fruiting trees. Our buds and clons are taken from these bearing trees, cut and distributed by one man, making the mixture of varieties well nigh an impossibility. The unequalled reputation which our trees have, not only on the Pacific Coast, but in almost every country in the world, is an indication of the great care we exercise in every detail of our chosen line of work.

All interested parties, whether intending to purchase or not, are invited to visit the nursery, and if we are notified of time of arrival at Niles, and number of persons coming, will have conveyance at station to meet them.

CALIFORNIA NURSERY COMPANY.

Niles, November 1, 1911.

OFFICERS.

Egbert B. Stone, President.

A. C. Hammond, San Francisco.

W. H. Landers, San Francisco.

Egbert B. Stone, Elmhurst.

R. M. Sims, San Francisco.

W. V. Eberly, Niles

SPECIAL NOTICE (SHIPPING)

We are now able to ship from Niles by both the **Western Pacific** and the **Southern Pacific**, and request customers who can get their goods by either road to always state which route they prefer.

The many excellent treatises on Fruit Culture which have appeared within the past few years—one or more of which should be in the hands of every person intending to plant—render it almost unnecessary to give any directions in that line; yet we are so frequently asked for advice in this way, that we offer a few general remarks.

The situation of the orchard having been decided on, the ground should be deeply plowed, subsoiled and thoroughly pulverized. The holes should be dug at least a foot larger in every direction than actually required by the roots when spread out in their natural position. In planting, the top soil should be broken down into the hole, and worked carefully in between every root and fiber, filling up every crevice, that every root may be in contact with soil, and the whole made quite firm as the filling up progresses. The tree, when planted, may in light soils stand from two to three inches deeper than it stood in the nursery; but in heavy clay or wet ground it is advisable to have it stand at the same height as it was before transplanting.

On account of our long, hot, dry summers, it is well to shade the sunny side of the tree, to keep borers out, with a board or shake stuck in the ground, or a piece of burlap wound loose around the tree up to the limbs, top tied loose with a string. Whitewash made out of whitening or lime will also protect the tree against sun-scald.

See back of Catalog for list of useful horticultural books we have on hand for sale.

Standard Apples	25 to 30 feet apart each way
Standard Pears	20 to 24 " " " "
Strong-growing Cherries	20 to 24 " " " "
Duke and Morello Cherries.....	18 to 20 " " " "

Peaches and Nectarines.....	20 to 24 " " " "
Apricots	24 to 30 " " " "
Almonds	24 to 30 " " " "
Walnuts	40 to 50 " " " "
Grapes	7 to 10 " " " "
Currants and Gooseberries.....	4 by 6 feet
Raspberries and Blackberries.....	3 to 4 by 5 to 7 "
Strawberries for field culture.....	1 to 1½ by 4 to 5 "
Strawberries for garden culture.....	1 to 2 feet apart

Number of Trees or Plants on an Acre at Given Distance Apart.

[illegible]

Rule—Square Method—Multiply the distance in feet between the rows by the distance the plants are apart in the rows, and the product will be the number of square feet for each plant or hill, which, divided into the number of feet in an acre (43,560), will give the number of plants or trees to the acre.

Rule—Equilateral Triangle Method—Divide the number required to the acre "square method" by the decimal .866. The result will be the number of plants required to the acre by this method.

FRUIT DEPARTMENT

All our Fruit Trees are grown on whole Seedling roots. The advantages of these in promoting the health and thriftiness of trees over others grafted on pieces or sections of roots, or budded on stocks grown from cuttings, is acknowledged by the best authorities, and is easily apparent to the most casual observer. All two-year-old trees are branched low and are stocky, having been cut down or headed back when yearlings, two feet above ground, except where noted.

Although we quote fruit trees by height, it is to be understood that we will include in each grade any trees which are as stocky as the average of that grade, even if they do not fully attain the specified height.

All of our Apple Trees and Grape Vines are fumigated with hydrocyanic gas when dug, so are the buds, cions, and cuttings, prior to budding, grafting, or planting out in Nursery. This positively kills any insects that may be thereon, without any injury to trees or vines. We have a Fumigating House, with three compartments, so that we can disinfect, at any time, either 50 trees or 10,000.

Apple—New.		Each	Per 10	Per 100

Franquette				variety)	
The following "French Varieties" are grafted on Black roots at various heights ranging from 10 to 30 inches above the ground. This manner of working gives the trees Black Walnut bodies, which, with their thick, rough bark, will not be so liable to sunburn, and are, therefore, particularly valuable for use in the hot parts of the State.

ORNAMENTAL DEPARTMENT

From here on all items are listed under same names and arranged precisely as in our No. 2 catalog (describing ornamental trees and plants). The latter is the most complete and accurate publication of its kind ever issued on this Coast. While its price is 25 cents, we will gladly send a complimentary copy on request to any interested customer. It is invaluable to any one planting ornamental stock.

All plants in this division have been once or more transplanted, which contributes greatly to the certainty of their growing. Balled trees and plants should always be set without removing the burlap from the roots.

In cases where items are quoted only "per 10" or "per 100," we will not accept orders for less than 5 and 50 respectively.

NOTICE.

Where we catalog and specify SIZE OF BOXES, it means that the trees or plants so listed are already dug and have been established in boxes for at least six months. Such plants, as well as those in pots, can be shipped and planted at any time of the year. BOXED means that the plants so quoted are in the field and of such size that it is necessary to dig them into boxes.

CONIFEROUS EVERGREENS

This section includes only evergreen conifers. Other evergreen trees and shrubs, usually called "Broad-leaved Evergreens," are listed separately in the next division, commencing at page 19.

HEDGE PLANTS

The following list includes plants suitable for this purpose. Sizes and prices are shown on pages noted below.

Acacia longifolia (latifolia).....	20	Heath (Mediterranean)...	25	Nandina domestica.....	28
Berberis darwini.....	20	Laurel (English and large-leaved).....	26	Oleander (all varieties)...	28
Box (all varieties).....	20-21	Laurustinus (all varieties) 27		Pine—Monterey (for tall hedges).....	16
Cherry (Catalina).....	22	Ligustrum ovalifolium (California Privet) and L. vulgare (English Privet).....	27	Pittosporum crassifolium, eugenoides and nigricans.....	29
Christmas Berry.....	22	Melaleuca decussata and ericifolia.....	27-28	Quince (Japanese Scarlet).....	39
Cotoneaster angustifolia.....	23	Myrtle (all varieties).....	28	Spruce (Norway).....	18
Crataegus pyracantha... 23				Veronica (all varieties).....	29-30
Cypress (Monterey).....	15				
Escallonia berteriana leucantha and rubra.....	23-24				
Euonymus japonicus and all its varieties.....	24-25				

DECIDUOUS ORNAMENTAL TREES

Please note that all trees in this class over 12 to 14 feet tall are graded and quoted according to their diameter measured at 4 feet above the ground. As a rule such trees have been headed back to 9 feet and have good heads. With proper planting and after-care there should be little or no loss in using these large trees.

	Diam. in in.	Height in ft.	Each	Per 10	Per 100
Albizia julibrissin	3 to 4 2½ to 3		2 00 1 75 1 25		
		10 to 12	1 25		
		8 to 10	1 00	8 00

Dahlia (new varieties).....	50	4 00	
Decorative			
Beloit—A very large flower of splendid form. Rich purplish-garnet, deepening to crimson toward the center.			
Delice—Glowing rose pink. Stems wiry, holding the flowers well above the foliage. One of the most valuable varieties for cutting.			
Le Grand Manitou—A fine large dahlia, 5 to 6 inches across. White, striped and blotched with deep reddish maroon.			
Perle de Lyon—A splendid variety, which will become one of the leading sorts for cutting. Perfect in form. Pure white; petals beautifully frilled on the tips.			
Yellow Colosse—Flowers are rich yellow, globular, and very large.			
Cactus			
Nerthus—Flowers from 5 to 6 inches in diameter. Center orange yellow, shading to bronze; rosy-carmine at the tips. A fine variety for the garden and beautiful for decorating.			
Purity—In this variety we think we are offering the ideal Cactus. Flowers large, of splendid form and with very long, graceful petals. Excellent for cutting.			
Rheinkönig—Pure snow-white. Splendid form and good substance.			
Wodan—This is the strongest grower in our collection, attaining a height of six feet. Large flowers, which extend well above the foliage. Delicate salmon-rose, shading to old-gold in center. Semi-incurved, tubular petals.			
Wolfgang von Goethe—A splendid large, free-flowering variety. Petals perfectly arranged, making it a very attractive flower. Rich carmine, shading to apricot in center.

ROSES

Our soil and climate are ideal for growing rose plants. Those offered are two years old and have been grown entirely in the open ground. They have all bloomed the past season, and with any reasonable care can hardly fail to bloom again the first season after planting.

For more detailed descriptions of all except the "Latest Novelties" see the rose section of our Catalog No. 2, which will be sent on request to any customer.

NOVELTIES

\$1.00 each; \$8.00 per 10.

Lyon (H. T.). The greatest and most beautiful rose of the century. Coral red or salmon pink; chrome yellow at center and shrimp pink at the tips.

Mrs. David Jardine (H. T.). A glorious and most charming rose, possessing vigorous and erect growth, together with marvelously free flowering habit. The blooms, which are produced on every shoot, are of very large and perfect form; beautiful in its several

stages of development. The color is a delightful shade of bright rosy pink, shading in outer petals to salmon pink.

Niles Cochet (T.). Red on edge of petals, pink at base; a sport from Maman Cochet. Thorough tests have demonstrated that it is unquestionably far superior to any of the other Cochet varieties, being a much better bloomer and of finer color and substance.

NEW AND SCARCE VARIETIES

50c each.

Dorothy Page Roberts (H. T.). A lovely shade of coppery pink, suffused with apricot yellow, especially at the base of petals, which are very large, massive and of great substance.

George C. Waud (H. T.). Orange vermilion. A shade of color heretofore unknown among roses. Large, full and perfectly formed, with pointed center.

Grace Molyneux (H. T.). A fascinating rose of rare beauty and faultless form. The color is apricot, tinted flesh in center, but when fully developed the outer petals are creamy white on the inside with a pink sheen on the reverse.

Helen Good (T.). A rose that has all the good points of the Cochets. The buds are of exquisite form; color is a delicate yellow, suffused with pink, with deeper edge.

Hugh Dickson (H. P.). A splendid rose; brilliant crimson shaded scarlet, petals large and smooth, slightly cupped and of fine form.

John Cuff (H. T.). Deep carmine pink with a most attractive and distinct yellow zone at the base of each petal; standing by itself on account of its novel and striking color.

Joseph Hill (H. T.). Pink shaded salmon; outside of petals coppery pink. Blooms very large, full and of perfect form. A superb variety.

Lady Ursula (H. T.). A delightful shade of flesh pink. Flowers produced on every shoot, are very large, full and of perfect form, with high center from which the petals of great substance gracefully reflex.

Miss Kate Moulton (H. T.). A rose of entrancing beauty. The flower is superb; large, full and perfectly formed. The color is beautiful silvery pink.

Mrs. Myles Kennedy (H. T.). Delicate silvery white shaded buff, deeper pink in center, with back edge of petals slightly deeper shade of pink. A most beautiful, distinct and charming addition.

My Maryland (H. T.). A grand pink variety that has come to the front with great strides. A splendid bloomer and superb rose.

***Pink Cherokee**. A pink flowering form of the Single Cherokee rose. Possesses all the merits of the original.

Rhea Reid (H. T.). Rich, dark, velvety red; full, double flowers of good form and as fragrant as La France. A rose of great excellence.

***Veilchenblau**. A new Rambler rose sent out by the Germans, who call it "the forerunner of a genuine cornflower-blue rose." It is hardy, very vigorous and blooms profusely.

White Killarney (H. T.). A pure white sport from Killarney, identical with its parent except in color.

GENERAL COLLECTION

35c each; \$3.00 per 10; \$25.00 per 100.

TEA ROSES.

Amazone. Deep yellow, faintly veined pink.

Anna Olivier. Creamy blush, shaded carmine.

Annie Cook. Delicate pink.

Beaute Inconstante. Coppery red, shaded carmine and yellow.

Belle Lyonnaise. Light yellow.

Bon Silene. Salmon rose.

Bougere. Salmon pink, slightly shaded.

Bridesmaid. Clear bright pink.

Caroline Kuster. Pale yellow.

Catherine Mermet. Pink, shading to amber in center.

Christine de Nougé. Deep purplish red.

***Climbing Bridesmaid**. Pink.

***Climbing Devoniensis**. Cream with blush center.

***Climbing Marie Guillot**. White.

***Climbing Niphetos**. White.

*Varieties starred are climbers.

- *Climbing Papa Gontier. Color identical with Papa Gontier.
 *Climbing Perle des Jardins. Deep golden yellow.
 Comtesse de Frlgneuse. Delicate canary yellow.
 Comtesse Riza du Parc. Coppery rose, tinged carmine.
 Coquette de Lyon. Light canary yellow.
 Cornelia Cook. Creamy white.
 Dean Hole. Intense salmon pink.
 Dr. Grill. Coppery yellow, tinged rose.
 Duchesse de Brabant. Soft, silvery blush, shaded rose.
 Elise Sauvage. Almost white, with light yellow center.
 Etoile de Lyon. Rich golden yellow.
 Frances Willard. Pure white.
 Franciska Kruger. Deep chamols, shaded peach pink.
 *Gloire de Dijon. Fawn, tinted salmon and rose.
 Golden Gate. Creamy white.
 Homer. Rosy pink over white, shaded salmon.
 Improved Rainbow. Almost the same as Rainbow.
 Ivory. Pure white.
 Jules Finger. Bright rosy scarlet, shaded deep crimson.
 La Sylphide. Blush with fawn center.
 Letty Coles. Rosy pink, shaded crimson.
 Mad. Chedane Guinoisseau. Clear canary yellow.
 Mad. Falcot. Nankeen.
 Mad. Hoste. Fine canary yellow.
 Mad. Jenny Gillemot. Deep saffron yellow.
 Mad. Lambard. Rosy bronze, shaded carmine.
 Mad. Maurice Kuppenheim. Pale yellow, faintly tinged pink.
 Mad. Solpion Cochet. Creamy rose with deeper center.
 Mad. de Vetry. Deep rose.
 Mad. Vermoral. Coppery yellow.
 Mad. de Watteville. Salmon white, flushed and bordered rose.
 Mad. Welche. Pale yellow with deep orange center.
 Marie Van Houtte. Creamy yellow, tinted rose on the outer petals.
 Marquise de Vivens. Pale rose, deepening to yellow at base of petals.
 Molly Sharman Crawford. Pure white.
 Morning Glow. Beautiful shell pink, shading to rose toward center.
 Mrs. Benjamin R. Cant. Carmine rose with salmon center.
 Mrs. J. Pierpont Morgan. Intensely bright cerise.
 Niphetos. Almost pure white.
 Papa Gontier. Rosy crimson with carmine center.
 Papa Reiter. Cream, tinted pink.
 Perle des Jardins. Deep golden yellow.
 *Pillar of Gold. Coppery yellow, flushed rose.
 Pink Maman Cochet. Deep rose pink outside, but very light within.
 Princess de Sagan. Amaranth red, shaded crimson.
 Princess Stephanie. Salmon yellow.
 Rainbow. Pink splashed with carmine.
 Safrano. Saffron in bud, changing to pale yellow.
 Souvenir d'un Ami. Pale rose.
 Souvenir de Lady Ashburton. Rich coppery red.
 Sunset. Golden amber.
 The Bride. White.
 The Queen. White.
 Triomphe du Luxembourg. Flesh pink, tinged buff.
 True Friend. Golden yellow.
 White Bon Silene. Creamy white.
 White Maman Cochet. Nearly white.
 Yellow Maman Cochet. Light yellow, edged rose.

HYBRID TEA ROSES.

- Augustine Gulnoisseau (White La France). White, slightly blushed.
 Aurora. Salmon pink center, paler outside.
 Avoca. Crimson scarlet.
 Baldwin (Helen Gould). Rosy crimson.
 Belle Siebrecht. Bright rosy pink.
 Bessie Brown. Faint flesh pink.
 Betty. Coppery rose.
 Chas. J. Graham. Orange crimson.
 Cheshunt Hybrid. Red, shaded violet.
 *Climbing Belle Siebrecht. Bright rosy pink.
 *Climbing Kaiserin (Mrs. Robert Peary). Pure white.
 *Climbing Meteor. Velvety crimson.
 *Climbing Souvenir de Wootton. Bright crimson.
 *Climbing Testout. Clear pink.
 Duchess of Albany (Red La France). Deep rose, nearly red.
 Duchess of Edinburgh. Bright rosy crimson.
 Etoile de France. Red, shaded crimson.
 Franz Deegen. Creamy yellow.
 Frau Peter Lambert. Rosy pink.
 *Gainesborough. Pale flesh.
 General MacArthur. Fiery red.
 Grace Darling. Creamy white, tinted peach.
 Gruss an Teplitz (Crimson Hermosa). Rich scarlet overlaid with crimson.
 Hector Leulliot. Light yellow.
 Hon. Ina Bingham. Purest pink.
 Kaiserin Augusta Victoria. Very nearly pure white.
 Killarney. Flesh, suffused pink.

 La France. Pink, tinted silvery blush.
 Lady Battersea. Cherry crimson.
 Lady Clanmorris. Deep peach.
 Lady Faire. Light carmine rose, shaded salmon.
 Lady Mary Fitzwilliam. Delicate flesh.
 Lady Moyra Beauclerc. Flesh pink.
 Liberty. Crimson scarlet.
 Mad. Abel Chatenay. Rosy crimson, tinged salmon.
 Mad. Caroline Testout. Clear bright pink.
 *Mad. Darlout (Striped Reine Marie Henriette).
 *Mad. Wagram. Pink. (Called Climbing Paul Neyron.)
 Meteor. Deep crimson.
 Mildred Grant. Flesh pink.
 Mrs. Robert Garrett. Shell pink, with deeper center.
 Mrs. Theodore Roosevelt. Creamy white, flushed rose.
 Perle von Godesburg. White, tinted creamy yellow.
 Prince of Bulgaria. Rosy flesh.
 *Red Marechal Niel. Bright rosy red.
 *Reine Marie Henriette. Cherry red.
 *Reine Olga de Wurtemberg. Dazzling red.
 Richmond. Crimson scarlet.
 Rosalind Orr English. Bright scarlet pink.
 Souvenir du President Carnot. Rosy flesh.
 Souvenir de Wootton. Bright crimson.
 Viscountess Folkestone. Creamy pink, salmon center.
 William Francis Bennett. Brilliant crimson, changing to purple.

*Varieties starred are climbers.

NOISETTE ROSES.

- *Celine Forestier. Pale yellow with deeper center.
- *Cloth of Gold. Deep yellow center, tinted sulphur toward edges.
- *Gold of Ophir (Ophirie). Reddish copper tinted fawn and salmon.
- *Lamarque. White.

- *L'Ideal. Yellow and rose, shaded copper.
- *Mad. Alfred Carriere. Creamy white.
- *Marechal Niel. Deep golden yellow.
- *Reve d'Or. Light yellow, shaded buff.
- *White Marechal Niel. Creamy yellow.
- *William Allen Richardson. Orange yellow.

HYBRID PERPETUAL ROSES.

- American Beauty. Very deep rose.
- Anna de Diesbach. Carmine.
- Antoine Mouton. Deep rose, tinged lilac.
- Baron Nathaniel de Rothschild. Bright carmine with pink center.
- Baroness Rothschild. Pale rose, tinted white.
- Black Prince. Dark crimson, nearly black. California. Rosy pink.
- Captain Christy. Delicate flesh pink.
- *Climbing Captain Christy. Delicate flesh pink.
- Earl of Dufferin. Velvety crimson.
- Empereur du Maroc. Very dark velvety maroon.
- Fisher Holmes. Scarlet, shaded crimson.
- Frau Karl Druschki. Snowy white.
- Francois Levet. Cherry red.
- General Jacqueminot. Brilliant red.
- General Washington. Red, shaded crimson.
- Giant of Battles. Deep fiery crimson.
- Gloire Lyonnaise. Creamy white.
- *Gloire de Margottin. Dazzling red.
- Glory of Waltham. Brilliant crimson.
- Her Majesty. Bright pink.
- Jean Liabaud. Rosy red, shaded crimson.
- John Hopper. Rosy pink.

- Jubilee. Red, shaded almost black.
- Lady Helen Stewart. Scarlet crimson.
- Mabel Morrison. White; outer petals pink.
- Mad. E. Levassasseur. Light red.
- Marchioness of Lorne. Rosy carmine.
- Margaret Dickson. White, tinted flesh.
- Magna Charta. Rosy red.
- Mark Twain. Rosy red.
- Merveille de Lyon. White, flushed rose.
- Mrs. John Laing. Shell pink.
- Mrs. John McLaren. Silvery pink.
- Mrs. R. G. Sharman-Crawford. Deep rosy pink, tinted pale flesh.
- Paul Neyron. Dark rose.
- Prince Camille de Rohan. Deep velvety crimson.
- Queen of Edgely (Pink American Beauty). Pink.
- Robert Duncan. Bright crimson.
- Roger Lambelin. Deep crimson, edged white.
- Salamander. Scarlet.
- Silver Queen. Flesh, shaded pink.
- Ulrich Brunner. Cherry red.
- Vick's Caprice. Pink, striped carmine.
- Xavier Olibo. Deepest crimson, nearly black.

POLYANTHA ROSES.

- Baby Rambler. Crimson.
- *Carmine Pillar.
- *Climbing Mlle. Cecile Brunner. Salmon pink.
