List
for 1965

Easy-to-Grow Ferns

FOR THE OPEN BORDER

Mostly tall Ferns with bold, broad foliage, and imposing appearance. They are adapted to sunshine but need the shelter of adjacent plants about the base of the fronds. Plant them in mixed groups among low shrubs.

- F-800 6 *Osmunda claytoniana*, 2-3 ft.
- F-801 6 *Onoclea struthiopteris*, 3-4 ft.
- F-802 18 *Dicksonia punctilobula*, 1-2 ft.
- F-803 6 *Asplenium felix-foemina*, 1-3 ft.

36 Ferns for \$10.00

FOR WET, OPEN GROUND

No trouble at all to find ordinary plants for wet, open ground but not many Ferns are adapted to the sunshine. Use rushes or flowering plants freely in such situations.

- F-804 12 *Onoclea sensibilis*, 1 ft.
- F-805 12 *Osmunda regalis*, 2-3 ft.

24 Ferns for \$6.50

Asplenium felix-foemina

FOR DRY, ROCKY LEDGE

Some of the choicest little Ferns are found in such places in nature. Mostly they are dwarf—frequently half evergreen—but always charming in outline, texture and aspect.

- F-806 12 *Asplenium trichomanes*, 3-6 in.
- F-807 12 *Woodsia obtusa*, 6-12 in.
- F-808 12 *Polypodium vulgare*, 6 in.
- F-809 12 *Woodsia ilvensis*, 6 in.

48 Ferns for \$14.00

FOR MOIST, SHADY PLACES

The wealth of plants which will flourish in moist, shady places is embarrassing. Ferns are no exception. Choose those of relatively low stature, among which to mingle blooming plants such as bog orchids.

- F-810 6 *Adiantum pedatum*, 1-1½ ft.
- F-811 6 *Aspidium cristatum*, 1 ft.
- F-812 6 *Polystichum acrostichoides*, 1 ft.
- F-813 6 *Aspidium spinulosum*, 1½-2 ft.
- F-814 6 *Aspidium marginale*, 1½-2 ft.
- F-815 6 *Asplenium acrostichoides*, 3 ft.
- F-803 6 *Asplenium felix-foemina*, 1-3 ft.
- F-816 6 *Phegopteris hexagonoptera*, 1 ft.
- F-817 6 *Asplenium angustifolium*, 2-3 ft.

54 Ferns for \$16.00

FOR DRY, SHADY PLACES

Under trees, in the shade of buildings where the soil is too dry for blooming plants, these Ferns may adapt themselves or if not all, some may. Dry shade is one of the gardener's hardest problems.

- F-814 9 *Aspidium marginale*, 1½-2 ft.
- F-802 9 *Dicksonia punctilobula*, 1-2 ft.
- F-800 9 *Osmunda claytonia*, 2-3 ft.
- F-812 9 *Polystichum acrostichoides*, 1 ft.

36 Ferns for \$10.00

Any of the above Ferns 40c each, 6 for \$2.00, \$4.00 per doz.

Evergreens, Roses, Vines, Shrubs, Lilacs and Trees can be found listed in pages 8 to 12 of this booklet. Evergreens are usually sold here at the nursery and taken in customer's car or truck. We can ship other stock bare-root by Express Collect.

Horsford's Lilies for Sure Success

Green Mountain Hybrids

CLASSIC SPECIES - - -

FAVORITE HYBRIDS - - -

RECENT STRAINS - - -

We offer these varieties
in healthy clean stock.

CULTURAL DIRECTIONS
sent with each order

L-700 AURATUM. Var. *platyphyllum*. The strikingly large and beautiful Gold Banded Lily you've asked for. Blooms August-September. 3 to 5 ft. \$1.50 each.

L-701 AURELIAN HYBRIDS. Golden Sunburst Strain. Star-shaped flowers, gold-yellow. Petals, very slightly recurved. Graceful sprays 5 to 8 ft. 7-8 in. bulbs. August to September. \$1.25 each.

L-702 BRIGHT STAR. Sunburst type. Silver-white petals shine in contrast to an orange star in center of the flower. 4-6 ft. July. \$1 each.

L-703 CANADENSE. We do not guarantee the color of this wild Lily, everything else about it is all right. May be a brick red, or a clear golden yellow. June, July. 2 to 5 ft. 75c each, 3 for \$2.00

L-704 CANDIDUM, MADONNA LILY. This exquisite wax-white cascade requires fall planting. We offer it in our autumn listing.

L-705 GREEN MOUNTAIN HYBRIDS. Large trumpets of white with yellow or green coloring in the throats. 3 to 5 ft. high with a three- to four-week flowering season in mid-summer. \$1.25 each, 3 for \$3.50.

L-706 HARLEQUIN HYBRIDS. New Strain. Colors vary through ivory-white, pale lilac, old rose, violet, salmon, amber-pink. 4 in. diameter. Turk's cap. June-July. \$1.00 each.

L-707 HENRYI. Heights will vary with soil and growing conditions, but we've honestly seen this Lily 9 ft. high. Easy to grow, too. Graceful sprays of brilliant apricot yellow. August, September. 75c each.

L-708 PINK PERFECTION STRAIN. A superb pink hybrid trumpet. July bloomer. Short supply, until fall. \$1.25 each.

L-709 PRIDE OF CHARLOTTE. This stately offspring of *L. sargentiae* is more rugged than its parent. Long, white funnel-shaped flowers with yellow throat and sometimes marked externally a deep reddish brown. 3 to 4 ft. July. \$1.00 each.

L-710 REGALE. A truly Regal beauty, and the best behaved queen of the lot. Parade her before a royal curtain of Delphinium to show her off to best advantage. White, slightly suffused with pink, shading to beautiful shade of canary yellow at the throat. July. Large bulbs 75c each, 3 for \$2.00.

L-711 ROYAL GOLD. Golden Regal. This beautiful new flower is identical with the best regal except for its glistening quality and its golden color. July. 3-5 ft. 8-9 in. bulbs. \$1.10 each, 3 for \$3.00.

L-712 SPECIOSUM RED CHAMPION. Delicate pink with deep crimson dots. Oregon grown and disease free stock. July-August. \$1.25 each, 3 for \$3.50.

L-713 SPECIOSUM WHITE CHAMPION. A variety from the favorite "rubrum lily" but crystal white. July-August. \$1.25 each, 3 for \$3.50.

L-714 SUPERBUM. America's handsomest native Lily, in our opinion, with its immense, pyramidal cluster of blooms right up high where you can admire them. Brilliant orange-red shading to yellow and spotted brown. July. 3 to 6 ft. 75c each, 3 for \$1.75.

L-715 TENUIFOLIUM (Pumilum). A small slender Lily, bright coral flowers and recurved petals. As dainty a Lily as is in cultivation. 12-18 in. June. 50c each, 3 for \$1.25.

L-716 TIGRINUM. Var. *splendens*. By far the best form of Tiger Lily we have had. It is taller, with handsome, large flowers and a much healthier plant. 75c each, 3 for \$2.00

GENERAL LIST OF HARDY PERENNIALS

65 cts. each; 3 of same variety for \$1.85; 10 for \$6.00

Because this may be the last year we will offer perennials, do ORDER EARLY. We plan to phase them out of our listing and some are in short supply.

Variety	Common Name	Color	Ht. Feet	Flowering Season

(r) Variety suitable for Rock Garden.

Hardy Phlox

Lupine

- Peonies, Iris and the Classic Madonna Lily appear in our Autumn Supplement.

N.B.: We have several varieties of plants formerly listed, from which we can supply field grown stock, as quantities last. Please consult your 1964 brochure.

These plants are hardy in northern Vermont under congenial cultural conditions, but need protection against winter heaving from alternate freezes and thaws. WE ARE RESPONSIBLE for filling your order with stock true to name and in GOOD CONDITION. If not received in good condition, complaint must be made at once.

Of course, we cannot assume responsibility for CULTURAL FAILURES beyond our control nor for failures due to drought and winter losses.

EVERGREENS

This list of EVERGREENS, VINES, ROSES, SHRUBS & TREES supplements our Perennials, Lilies & Ferns, for your COMPLETE PLANTING NEEDS. All have proved HARDY here. Items on this list are usually called for at the Nursery. All are priced FOB Nursery. For customers who cannot call or send to the Nursery, we can mail VINES and ROSES. SHRUBS and TREES must be shipped EXPRESS COLLECT, boxing or baling to be charged at cost. It is impractical to ship balled EVERGREENS.

LILACS and NEW ENGLAND go TOGETHER!

"FRENCH HYBRID LILACS on their OWN ROOTS" means non-grafted stock whose side shoots grow true to name. They have finer range of colors in longer panicles of bloom which are more evenly arranged on the attractive specimen-shaped shrubs.

S-432 Adelaide DunbarSemi-double; deep purple

S-433 Katherine Havemeyer ..Semi-double; bluish-lilac

S-434 LouvoisSingle; violet
