Wholesale Bulb, Seed and Plant Catalogue

For Fall of Nineteen Hundred Twenty-Five

The Prices in This Book are for Florists and Dealers Only

THE outstanding features of the bulb situation that will greatly influence your bulb sales this year are the serious shortage of Hyacinths and are pending Federal embargo on Narcissus after December 1st, 1925

The scarcity of Hyacinths will, of course make it impossible for any very large number of Hyacinths to be imported unless they are ordered in advance. Consequently all wise growers will place their orders very promptly so that they will be certain of getting their share.

With reference to the pending embargo on Narcissus, we doubt if the public in general realize that this fall is the very last opportunity they will have of getting imported Narcissus. When they do realize this it will mean an unprecedented last minute demand for Narcissus bulbs of every description, both for planting outdoors and for indoor forcing. We have protected ourselves with a very liberal stock of all varieties, but we advise that orders be placed just as promptly as possible because stocks are bound to be cleaned up very early in the season.

Our bulb business is growing very rapidly, due to the fact that we are able to furnish our customers with stock of high quality at very reasonable prices. In fact, hundreds have found that they could supply themselves with our bulbs more cheaply than they could buy the same quality stock direct from abroad. Our bulbs come from the most reliable sources, growers who have supplied us with satisfactory bulbs for many years, one for over fifty years.

Our Terms are liberal. To parties of approved credit we allow 60 days time, or 2 per cent. discount if paid in 10 days from date of invoice, or 3 per cent. if cash is sent with order. Orders from new or unknown customers should be accompanied by cash; or, if credit is desired by new customers, satisfactory references, preferably banks and business concerns who have extended credit, will be required. No goods will be sent C. O. D. unless a partial remittance is made as a guarantee that goods will be accepted. *These prices are subject to change without notice.*

Our Facilities are unsurpassed. With freight and express conditions normal we can handle orders rapidly. Nine railroads enter Rochester, whose numerous fast freight and express trains enable customers to secure their shipments promptly.

At prices here quoted we deliver all goods to the freight or express companies in Rochester, with no charges for boxes, packing or carting. With our excellent equipment for shipping we can be depended upon to send out bulbs in apparent good condition; after that our responsibility ceases. While we exercise great care to have all Seeds, Plants and Bulbs true and reliable, we give no warranty, express or implied, as to description, quality, productiveness or any other matter, and we will not be responsible in any way for the crop. If the customer does not accept these terms, it is not a sale, and the goods are at once to be returned, and the money paid for same will be refunded. Subject only to the above conditions, and by reason thereof, we make the moderate prices at which we sell our goods.

Special Notice. Customers should give on every order, full name, postoffice, freight or express station, county and State; and also advise whether goods are wanted by express or freight. In the absence of such instructions we will ship according to our best judgment, but will not be responsible for the consequences. **WE USUALLY SHIP BY EXPRESS**, believing that course to be safer and more satisfactory. But sometimes, in the absence of instructions, we ship by freight, especially in cases of heavy shipments, to points easily reached. We have no fixed rule, however, and advise that customers give their preference.

A Final Request. Customers should advise whether they desire the varieties shipped when ready, or the entire order held until it can be shipped together. If not advised, we will ship when each kind of bulb is ready. The early Bulbs—Paper White Narcissus, Freesias Candidum, Harrisii and Calla Lilies—can be furnished at once: nearly all of these have already arrived. Hyacinths, Tulips, Crocus, etc., in September; Lilies of our own growing can be furnished in October while most imported hardy lilies, do not, as a rule, arrive until late in October or November.

VICK'S HYACINTHS

First Size Bulbs, about 17-18 cm., Especially Selected for Our Trade

The standard size named varieties used in large quantities for forcing.

EVERY report we have received from Holland indicates that Hyacinths will be scarcer than they have been for many years.

Not only is the crop short, but the demand has been unusually large from all sources including all countries of Europe. As a result, it will be necessary for you to get your order placed just as early as possible in order to secure a supply. We have ordered as liberally as we dare for our own protection and the protection of our customers. The quality of the stock this year is excellent.

Not less than 6 of one variety at dozen rate, 25 at hundred rate.

Where less than 6 are ordered, 15 cents each

Per 1000, single varieties, \$105.00; double varieties, \$110.00. 250 bulbs at 1000 rate.

Vick's May Flowering Tulips

During the last few years there has been an immense sale on many of these varieties. They surpass the earlier kinds for out-door growing because of the length of their stems. Many of them have large, open flowers, while others, especially the so-called "Botanical Tulips" though unusual in shape, are exquisitely beautiful.

VICK'S Darwin Tulips

Darwin Tulips are noted for their rare beauty, large flowers, long strong, erect stems, and long flowering period. The stems are from $1\frac{1}{2}$ to 3 feet in height, and bear mammoth blooms of handsome shape in beautiful satiny shades of all colors. The foliage is abundant, strong and heavy. On account of their great beauty they are growing in popularity by leaps and bounds. Planted in connection with the early-flowering kinds they will complete a succession of bloom from early spring until the first of June. While they are especially adapted for outdoor growing, they can be grown for cut flowers under glass if forced slowly. We recommend these named varieties as our selection of over fifty kinds. Varieties marked (*) are especially good for forcing.

Old Dutch Tulips

The Old Dutch Tulips are again coming into prominence and they certainly deserve to be used much more largely than they have for several years past. The Breeders are especially desirable. In them nature's happiest color combinations of purple and mauve, bronze and gold, brown and silver tints are revealed. They harmonize with high class house furnishings as if they were made for such settings. The old varieties with their gaudy, oftentimes flashy colors have been gradually discarded until now we offer in this group the most artistic and pleasing combinations of colors found anywhere in the tulip family.

BREEDER TULIP PANORAMA

VICK'S SELECTED NARCISSUS

OUR last chance to get imported Narcissus of any kind because, as you know, the Federal Horticultural Board has decreed that no more Narcissus may be imported after January 1st, 1926. When people fully realize that they will be unable to get these well loved flowers after this year, there is certain to be the biggest call for these bulbs that you have ever experienced. We have provided for a large stock, but early orders indicate that the demand will be even greater than we anticipated. It will be wise for you to place your orders at once to make sure of getting what you want.

LILIUM AURATUM

HARDY LILIES

The following list of Hardy Lilies of both Japanese and native culture will be found invaluable by florists in providing a supply of the choicest kind of cut flowers for use during the early summer months. These bulbs may be planted this fall, or they may be planted in the early spring and they will give you flowers at a time when flowers are scarce, at a fraction of the cost of indoor lilies, and once established they are a fixture, as they come up year after year and only require the yearly addition of fertilizer and ordinary cultivation.

The prices on this page are based on the best information available at the time this catalogue goes to press, but are subject to revision up or down according to the market at the time of shipment.

	Per doz.	Per 100
Lilium Album. Beautifully formed white lily, the petals of which are back curved instead of cup shaped like the indoor lilies. 3 to 4 feet high, profuse blooming	\$3 50	\$25 00
Lilium Auratum. (Gold Band Lily of Japan.) Largest and best known of the Japanese lilies. Color, white with crimson spots with golden yellow stripe through center of each petal. Fertilizer must be well mixed with the soil so that it will not come in contact with the roots. 8 to 9 inches.	3 50	25 00
Lilium Candidum. One of the most popular of all the outdoor lilies, and popularly known as the "Madonna Lily."		
Extra Select Bulbs	1 80	11 00
Lilium Magnificum. Crimson. One of the finest of the Speciosum lilies	3 00	20 00
Lilium Melpomene. Crimson, spotted with deep blood red, each petal distinctly bordered with white	3 00	20 00
Lilium Rubrum. Very prolific blooming. White and rose grounds, spotted with crimson. All lilies of this class have back curved petals	3 00	20 00
Lilium Elegans Atrosanguineum. Dark blood red with dark spots	2 40	18 00
" " Batemani. Color, apricot yellow	2 40	18 00
" " Incomparable. Deep crimson, slightly spotted with black	2 40	18 00
" " Wallacei. Vermillion-orange, spotted	2 40	18 00
Lilium Tigrinum Splendens. Single Tiger Lilies	2 40	18 00
" " fl. pl. Double " "	2 50	19 00

N. B.—It is good practice to cover the ground that is to be used for hardy lilies with two or three inches of stable manure or litter to prevent the ground freezing so that if the Japanese bulbs arrive in this country late, as they sometimes do, you will still be able to plant them

Vick's Lilies For Forcing

14

LILIUM HARRISII

Invaluable for florists. Can be forced into bloom by Christmas. Our stock comes direct from one of the best growers in Bermuda, to whom we pay special prices to secure extra good bulbs, well grown, thoroughly ripened, carefully packed. We believe this stock will give perfect satisfaction. For early flowers Harrisii will be in great demand.

Original case contains 200 bulbs, 7 to 9 inch bulbs. Per dozen, \$3.50; per 100, \$27.00

LILIUM FORMOSUM

This is a splendid pure white, free flowering Lily of the Longiflorum type, imported by us from the Island of Formosa. The Formosum can be forced into bloom earlier than any other Lily of its type except Harrisii, for which it is a good substitute.

Original case contains 300 bulbs, 7 to 9-inch, per doz., \$2.50; per 100, \$18.00.

LILIUM LONGIFLORUM MULTIFLORUM, Japanese Easter Lily

This magnificent lily is a great favorite both for forcing and outdoor planting. It resembles L. Harrisii in color and shape. While it cannot be brought into flower quite as early, it is a great favorite to follow Harrisii. Flowers are pure white, trumpet shaped and exquisitely fragrant. We offer only the best imported stock.

Original case contains 300 7 to 9-inch bulbs. Per dozen, \$3.50; per 100, \$27.00.

LILIUM GIGANTEUM -- Blue Stem

The best of the Japan Lilies. A little later than the other varieties but hardier and freer blooming. Bulbs can be put in cold storage and taken out as needed during the Winter and Spring, or may be planted at once the same as Formosum.

Size	Per doz.	Per 100
7-9-inch Extra fine, very popular. Original case contains 300 bulbs	2 60	19 00
6-8-inch 2 to 3 flowers to the stalk, original case 400 bulbs.	2 00	14 00

LILIUM CANDIDUM

This variety is sometimes called the Annunciation Lily, or Madonna Lily. Good for forcing, also used for outdoor planting. Its snowy white flowers are borne aloft by long, slender stems. Unsurpassed in stateliness and beauty for outdoor culture.

Selected Large Size Bulbs, Per Doz. \$1.80; per 100, \$11.00.

The prices on this page are based on the best information available at the time this catalogue goes to press, but are subject to revision up or down according to the market at time of shipment.

CALLA LILIES

DRY BULBS

Owing to the shortage of the other Lily stocks there is bound to be a tremendous demand for Calla Lily bulbs.

Superior for forcing. Our bulbs are thoroughly ripened and come direct from one of the largest growers in the world.

4 to 5 in. circ., dozen, \$2.25; 100, \$14.00. 5 to 6 in. circ., doz., \$2.75; 100, \$18.00

FREESIA PURITY

This variety has taken the place of Freesia Refracta Alba and is far superior to it. These bulbs can easily be brought into bloom for Christmas by early planting and always find ready sale. The stock that we handle is a superior, well-selected strain of fully matured bulbs that are sure to bloom under normal conditions. First size, 1-2 to 5-8 per dozen 25 cents; per 100, \$1.25; per 1,000 \$9.00. Extra choice, 5-8 to 3-4 per dozen, 50 cents; per 100, \$2.25; per 1000, \$20.00.

NARCISSUS, Paper White Grandiflorus

Superior in every way to the ordinary Paper White. Very popular for forcing. Can be brought into flower in about 30 to 40 days. Will do well in ordinary house temperature and with no special care. For growing in dishes in pebbles and water they are equal to Chinese Lilies. Flowers are large, pure white and possess a pleasing fragrance.

Our Paper White have been received in good season, considerably earlier than usual, and are in excellent condition. They came from thoroughly reliable sources, growers who have always supplied us with superior stock. As you know this is the last year for Narcissus bulbs of all kinds. There is sure to be a big demand for them. It will be wise for you to get your order placed as soon as possible.

13 C. M. and up, dozen, 40 cents; 100, \$2.25; 1000, \$19.00; case (1250) \$23.75

14 C. M. and up, dozen, 45 cents; 100, \$2.60; 1000, \$21.00; case (1000) \$21.00

CHINESE SACRED LILY

Used extensively for growing in gravel and water. The flowers are Polyanthus type white with yellow eye borne in clusters on long stems. Per dozen, \$1.35. Per basket of 30 bulbs, \$3.25. Per mat of 4 baskets, 120 bulbs, \$12.50.

Not less than six Bulbs of a kind at the dozen price, 25 at the 100, or 250 at the 1000

PLANTS AND BULBS

LIMITED SPACE does not permit us to enumerate our entire list of Plants and Bulbs. Prices on other varieties will be furnished upon request. It is our aim to offer the best stocks obtainable—strong, true to name, and free from disease and insects. We prefer to furnish the Best, not the Cheapest. Packing charged at cost. Unless so requested, we never ship plants by freight. To insure safe packing, greenhouse plants are removed from the pots.

Early or Winter-Flowering Spencer Sweet Peas

The growing of Early Winter-Flowering Sweet Peas has now become as much a part of the regular growing plan of all florists as is the carnation bed. Although there are a few recognized varieties that florists have used for a number of years, new sorts of proven merit are being introduced from year to year and the following list contains several of the best of these new introductions as well as a number of the best of the older varieties. Even where you do not have space to grow Sweet Peas in the greenhouse, if you will plant these extra early flowering varieties in a warm, sunny location out-of-doors during January or February you will get your flowers unusually early in the spring.

Sweet Peas sown in greenhouses need more care in planting than those sown in the open ground in order to prevent damping off. Sow very thinly and thin out to about three inches in the row. It is best to sow the tender varieties, such as whites and light pinks, in sand and transplant. Sow ninety to one hundred days ahead of the time that you want the bloom. For Christmas blooming the seeds should be sown about the middle or latter part of September.

Early-Flowering Sweet Peas bloom in one hundred to one hundred and ten days in the open ground under normal conditions. Time required to bring into bloom in the greenhouse will vary more or less according to the amount of sun light and heat.

Our customers tell us that Winter Flowering Sweet Peas are one of their best paying crops and a row through the center of a wide ground bench is a good investment.

Black Leaf 40. A concentrated solution of Nicotine sulphate which does not evaporate like "free" nicotine, in ordinary temperatures. Therefore especially valuable for spraying in the gardens, nursery or orchard. 1 oz. bottle, 25 cts.; ½ pound can, \$1.10; 2 pound can, \$3.25; 10 pound can, \$13.50.

Fumigating Lamp, complete for use with Nikoteen Liquid, Nico-Fume Liquid or any other liquids used in fumigating Greenhouses. Each, 65 cents; two for \$1.10.

Fumigating Lamp, Glass, uses alcohol fuel, complete with stand, for use with any liquid insecticide. Each, 55 cents; two for 90 cents.

Nico-Fume Papers. Tobacco paper in sealed tin cans. Most effective and best method of fumigation. Tin cans (24 sheets) \$1.25; 1 gross can (144 sheets,) \$5.50; 2 gross can (288 sheets) \$10.00.

Nico-Fume Liquid is a highly refined solution of "free" nicotine, guaranteed under the National Insecticide Act to contain 40 per cent. of nicotine. FOR SPRAYING, one or two teaspoonsfuls to the gallon of water furnish an effective remedy against Green Aphis or Thrips; and for VAPORIZING, one-half ounce per 2000 cubic feet furnishes a strong fumigation. "Nico-Fume" Liquid thus has the advantage of being employed both for spraying and for fumigating. The labels contain complete directions. ¼ lb., 75c; 1 lb., \$2.00; 4 lbs., \$7.50; 8 lbs., \$14.50.

Glazola. Glazing Cement (formerly Nebelastic) A perfect compound, superior to putty, for glazing, reglazing and repair work. It never hardens or gets brittle -contracting and expanding with the frames of the greenhouse, resulting in a saving from broken glass. We sell it under a money-back guarantee in 35 and

55 gallon drums at \$1.50 per gallon; 5 gallon cans, \$1.70 per gallon; 1 gallon, \$1.75; Glazing Gun,—ordered with the large drums Free; One-handed Glazing Gun, \$5.00.

Pot Labels. Painted, per 1000 — 4 inch, \$1.50; 4½ inch, \$1.75; 5 inch, \$2.00; 6 inch, \$2.25; 8 inch, \$6.25.

Raffia. Natural 1 lb. 18 cents; 5 lbs. or over at 16 cents per lb.

Hall's Nicotine Fumigator

A specially prepared fumigating Compound saturated with pure Nicotine. Lights quickly, burns evenly and will not go out. It cost but 25 cents to fumigate a greenhouse 20 x 100. 10 lb. tins, \$8.50; 2½ lb. tins, \$2.50; 1 lb. tin, \$1.25.

Hall's Free Nicotine

For effective greenhouse spraying or vaporizing. As a spray it cost only 2½ cents a gallon. For fumigating it has all the killing power of Hall's Fumigator. 8 lb. tins, \$15.00; 2 lb. tins, \$4.25; ½ lb. tins, \$1.40.

Hall's Tobacco Dust

Finely ground and screened, ready for use. Guaranteed to contain a full 1% Nicotine. Very effective wherever dusting is preferable to spraying. 100 lb. sacks, \$4.50; 2 lb. drums, 35 cents.

Hall's Nicotine Sulphate

For spraying fruit trees and truck crops, 40% Nicotine guaranteed. Makes a deadly spray costing only 2 cents a gallon. 10 lb. tins, \$13.50; 2 lb. tins, \$3.50; ½ lb. tins, \$1.25; 1 oz. bottles 35 cents.

IMPORTED GRANULATED PEAT MOSS TORF MULL

For Florists, Nurserymen and Gardeners

This is decomposed vegetable matter, thoroughly dried, odorless, free from weeds and disease and granulated to convenient size. This material has been used for a great many years in Europe by successful growers there and has already found great favor in this country by the best growers especially as more and more attention is being paid to the fact that productive soil requires large amounts of humus to replace that which is taken off in the form of crops. Granulated Peat Moss is the best substitute for manure. It absorbs and retains ten times its weight of water and the mixing of this material with your potting soil and the addition of a little complete fertilizer, will produce as good results as the very richest manure. For mulching around Evergreens, Rhododendrons, etc., it is unexcelled.

Bulb Fiber. Florists and dealers will find a ready sale for Granulated Peat Moss for bulb fiber. This material is used instead of pebbles or soil for potting Narcissus, Hyacinths and other bulbs and is superior to either one. It retains the moisture and furnishes an excellent medium for the roots of the bulbs to grow in. It never gets sour or stagnant. Does not require for this purpose the addition of charcoal, bone meal or any other material.

Supplied in convenient size 2 qt. cartons at 15c each; large bales, about 21x 21x40 inches covering about 240 square feet one inch deep, \$3.00 each.
