Horsford's Autumn
Supplement for 1912

HARDY PLANTS

FOR COLD CLIMATES

Fred'k H. Horsford
CHARLOTTE, VERMONT

Lilium tenuifolium (Siberian Coral Lily)

INTRODUCTION

KINDLY REMEMBER that most of the plants in my spring catalogue may also be set in the fall. Autumn planting, with many, is more popular than spring. When spring planting is left until plants have made considerable growth, if followed by much not sunshine, the plants are less likely to succeed than when set in autumn. This is especially true with woody plants. On the other hand late fall planting should be followed with a good protection or your plants may be injured the first winter.

When dry hot weather follows the setting of many herbaceous perennials, they may be shaded from the sun for a few days and until the rootlets can get a hold and will do much better for this.

Woody plants, shrubs, trees, etc., should not be set until all growth for the season has ceased. This dormant period comes much earlier some years than others. Usually we can begin to ship some of the shrubs by the

middle of October in Vermont. Farther south it is much later before it is safe to lift them.

It is important to cover well those set in autumn and the later the setting the more important the covering. Early set tulips and other fall bulbs may not require much covering, but those set late should have it, and almost all herbaceous perennials set in the fall best be well protected against the warmer spells of weather which come in winter. It is the warmer spells followed by extreme cold ones which do the damage. If, when hardy plants are once frozen in for the winter, they could stay so until severe frosts are past in the spring, they would seldom be injured. This covering should not be removed until danger of severe frosts is past.

Kindly remember that those who purchase plants should return them within five days if not satisfactory. After five days I will not replace them. See fourth paragraph, page 2 of my Spring Catalogue.

Those who wish to call me by telephone during shipping season please do so at 12.30 and 6.30 p. m.

LILIES

Most of the Lilies of this list may be sent in September, but a few, like *Auratum* and all the *Speciosums*, *Sulphureum*, and *Henryi*, are not ripe until last of September or October. Orders will be filled from beds as long as my stock lasts.

Too much cannot be said in favor of planting *Lilium candidum* early. The autumn growth which it makes before winter is quite essential, both for resisting severe winters and for next year's blooms. If you can't plant it before October wait another year, or plant in spring.

Candidum lilies best not be planted more than 3 or 4 inches under, but in this northern climate we find it best to cover with some straw or swale hay just before winter, and this should be removed in the spring.

For cultural directions and more definite description please see Spring Catalogue, which has been mailed.

The prices do not include postage, but simply bulbs boxed and delivered to my nearest freight or express office.

See spring list for delivery by mail.

	Each.	Doz.
<i>Lilium auratum</i>	\$ 25	\$2 25
<i>L. Canadense</i> (Meadow Lily).....per 100, \$6	10	1 15
<i>Lilium canadense</i> var. <i>rubrum</i>	20	
<i>L. Candidum</i> (Madonna Lily) Should be set before October, to insure full growth	15	1 50
<i>L. croceum</i> . Golden yellow; blooms next after the <i>Dahuricum</i>	15	1 50
<i>L. Dahuricum</i> . No Lily in the world can be grown farther north and is more reliable in every way than this. It will soon increase and form clumps like the Tiger Lily.....	15	1 50
<i>Lilium elegans alutaceum</i>	15	
<i>L. elegans</i> var. <i>Best Red</i> . A medium kind as to height; very vigorous and healthy.....	15	1 50

<i>L. tigrinum</i> var. <i>splendens</i>	12	1 35
<i>L. Wallacei</i> . See <i>L. elegans</i> , var. <i>Wallacei</i> .		

DAFFODILS, or NARCISSI

Early flowering bulbous plants, coming before the tulips and after the crocus. One of the most important groups; fine for cutting and of easy culture. Though any good garden soil suits, they prefer a rather stiff, deep soil, and if the situation is such that they are shaded from the sun a portion (a third or a half) of the time, so much the better. They do well among shrubbery. To get the best results, they should be set in August or September, to make a good root growth before winter. When late setting is done, the best results are postponed until the second season.

Many of the bulbs we plant in the fall, tulips, hyacinths, narcissi, etc., make a root-growth underground after being set. If we dig up such bulbs a week or two after they have been set, we are surprised at the new root-growth which has formed at the base of the bulbs. This root-growth is often made quite late and at low temperature. Therefore when such bulbs are planted quite late in the fall it is well to

place a thick covering of straw manure, leaves, or some sort of covering over them to keep out frost as long as possible, that this root-growth may continue even after the surface of the ground is frozen. I have seen fairly good results obtained in this way with late planting. The covering should come off with the early spring before the bulbs are up.

If by mail add 5 cts. per doz. for those without stars (*), and 10 cts. per doz. for those marked with a star.

	Each	Doz.
Narcissus Beethoven. Chrome yellow trumpet and perianth, self color very distinct form of flower, a very refined Daffodil. Ready in September.....	\$0 05	\$0 50
*Narcissus bicolor Empress. Very large flowers; white perianth. rich yellow trumpet; strong grower and fine for cutting. Per 100, \$3.00.....	06	40
*N. bicolor Horsefieldii. Very large and early; yellow trumpet and white perianth.....	06	40
N. bicolor Victoria. A grand Trumpet Daffodil, with large bold erect flowers, perianth creamy white, trumpet rich yellow. Per 100, \$4.00.....	08	50
L. bulbocodium citrinum. (Hoop Petticoat Daffodil). Per 100, \$1.50.....	03	35
N. Burbidgei. One of the most charming for cutting. Clear white cup, margined bright cinnabar red; a beautiful early-flowering form of <i>Poeticus</i> which comes before <i>Poeticus ornatus</i> . Very effective when bunched. The color of the cup is very rich when cut and opened under glass. Per 100, \$2.00..	05	40
N. Burbidgei, John Bain. Large and broad white perianth, with small citron-yellow cup and orange-scarlet edge.....	03	50

	Each	Doz.
Narcissus Emperor. Large flowers with prim-rose petals and deep yellow trumpet. Per 100, \$3.25.....	06	40
N. Henry Irving. Noted for its deep yellow, wheel-shaped perianth, and large and handsome yellow trumpet.....	05	50
N. Leedsii. Silvery white starry perianth; lemon-yellow cup, passing to white. A beautiful sweet-scented flower; fine for bouquets.....per 100, \$1.50	03	25
N. Leonie. A very large Incomparable, chrome yellow open cup, silvery white perianth. Ready in September.....	04	40
N. Mrs. Langtry. Broad white petals with large white cup edged yellow.....		25
N. poeticus .....per 100, \$1.00	03	25
N. poeticus. Scarlet Eye.....per 100, \$1.00	03	25
N. poeticus. Pheasant's Eye....per 100, \$1.00	03	25
N. poeticus, ornatus. One of the earliest of Poet's Narcissi; a free bloomer, per 100, \$1	05	35
N. princeps	03	25
N. Jonquilla. Single yellow Jonquils; yellow fragrant flower.....per 100, \$0.90		25
N. Incomparable Sir Watkin. A grand flower.		40
N. Incomparable Frank Miles. Large soft clear yellow		25
N. incomparabilis, Double. (Butter and Eggs) A large and showy double variety. One of the largest of the double sorts..per 100, \$2	05	35
N. Double Von Sion. Large golden yellow...		40
N. Orange Phoenix. Double white and orange per 100, \$1.00.....		35
Mixed Daffodils, to naturalize in meadows, etc. A first-class mixture, comprising many of the best herein listed .....per 100, \$1	05	30

CROCUSES

The ordinary spring-flowering Crocus will thrive in nearly all soils and positions. They do better planted in September than later or may be set in August.

Add 5 cts. per doz. if to be sent by mail.

	Doz.	100
Mixed Crocuses.....	\$0 10	\$0 40
“ “ Striped	10	45
“ “ White	10	60
“ “ Yellow	20	1 00
“ “ Blue and Puple	10	40

TULIPS IN MIXED COLORS

Tulips like good drainage, and when planted over a gravelly subsoil or bottom succeed best. It is a good plan to surround bulbs with sand, unless they are put into a sandy soil. A depth of 4 inches is none too deep for cold climates. Set the bulbs 5 or 6 inches apart.

In ordering Tulips by post, add 6 cents per dozen for postage

	Doz.	100
Large Early Single	\$0 20	\$1 00
“ Late “	25	1 00
“ Early Double.....	20	1 00
“ Late “	30	2 00

100 Tulips in the above four kinds, 25 of each, for \$1.15 ;
400 bulbs, 100 each, \$3.50.

Golden Crown Tulip.....	40	
Canary Bird	25	2 00
Cottage Maid. Fine rose, flushed white.		
Ready in September.....	35.	
White Single.....	40	2 50

	Doz.	100
Duc Van Thol. Crimson.....	25	
“ “ “ White.....	25	
Mixed.....(600 for \$4.00)	20	1 00
Parrot.....	25	2 00
Artus. Single, bright scarlet.....	25	2 00
Darwins. Mixed.....	40	2 00
Duke of York.....	25	1 50
Queen Victoria. Large, white.....	30	2 10
Rembrant Early. Scarlet, large flowered. Ready in September.....	40	
Queen of the Netherlands. Rose, extra large. Ready in September.....	50	
Pax Alba.....	30	2 10
Tulip Alba Regalis. Creamy white, ready Sept	40	2 50
“ La Reine. Rose white..... “ “	25	2 00
“ Nellie. White..... “ “	25	2 00
“ Rosa Grisdelin. Soft rose, extra “ “	25	2 00
“ Byblossoms. Fine late single sorts, mixed. Ready in September.....	40	3 00
“ Bizards. Mixed. Ready in September	30	2 50

Miscellaneous Bulbs and Plants

Which, because they bloom early, or for other reasons, are set in autumn.

See my Spring Catalogue for cost of postage if sent by mail.

	Each	Doz
Arisaema triphyllum (Indian Turnip, or Jack- in-the-Pulpit	\$0 12	\$1 00
Chionodoxa Glory of the Snow. One of the best early blooming flowers. Bright blue. Per 100, \$1.25.....		25
Claytonia Caroliniana. (Spring Beauty)	06	55

	Each	Doz.
Colchicum. A curious hardy bulbous plant, with foliage and fruit in early summer, while the flowers come in autumn. The foliage dies down before the flowers appear. Stems 3 to 6 inches high. Sometimes called the Autumn Crocus.		
C. autumnale. Reddish purple.....	08	80
C. autumnale, var. album	08	80
C. variegatum. Rose-purple.....	08	80
Dicentra Canadensis (Squirrel Corn).....	10	1 00
Eremurus Himalaicus	1 00	
E. Robustus. See Spring List.....	1 25	
Galanthus Elwesii. Giant Snowdrop. Per 100, \$1.50.....		25
Mertensia. (Virginica). The Virginia Cowslip. See Spring List.....	15	1 50
Ornithogalum Arabicum (Star of Bethlehem). ..	06	80
Scilla amoena (Sibirica). Handsome, early, blue flowers.....	07	60
Muscaria Botryoides. Grape Hyacinths, white. Ready in September.....	60c per 100	
Muscaria Botryoides. Grape Hyacinths, blue. Ready in September.....	50c per 100	

HYACINTHS FOR BEDS

Hyacinths like a light, loamy soil and full sun. A light coating of well-composted manure, if the ground is not already well supplied, will be of value. Plant about 3 inches deep and if the best flowers are desired the bulbs should be from 7 to 9 inches apart.

Add 16 cents per dozen for postage if by mail.

Ready in September.

	Each	Doz.
Double White	\$0 10	\$0 65
Single Red	10	60
Single White	10	60
Single Yellow	10	60
Double Red	10	60
Double Yellow	10	60

TRILLIUMS

American Wood Lily, Indian Shamrock, or Three-Leaved Nightshade.

For the Shady Corner.

Like most early-blooming plants, Trilliums give better results the following spring when planted in autumn in time to make their regular root-growth, which seems to take place a few weeks after the stems have died. They form a very pretty group, which comes into bloom early, and whose leaves make a good display after the flower has passed. Trilliums like a soil with a mixture of leaf-mold or peat, and for most of them a little well-rotted manure will be beneficial. Although they may, as a rule, be grown in the sun, partial shade is the most natural place. They look best when in good-sized groups. In a good position they will last almost indefinitely.

Add 10 cents per dozen if by post.

See Spring Catalogue for description.

Trillium cernuum	12 cts each
“ erectum	8 cts each, 80 cts per doz.
“ erectum album	12 cts each
“ grandiflorum	5 cts each, 40 cts per doz, \$2.50 per 100
“ sessile giganteum	20 cts each
“ petiolatum	12 cts each, \$1.15 per doz.
“ stylosum	12 cts each
“ undulatum (Painted T.)	12 cts each, \$1.10 per doz.

Plants Not Offered in Spring Calalogue

	Each	Doz.
<i>Achillea Grandiflora</i> . Tall with large flat cymes of white flowers.....	\$0 25	
<i>Alyssum argenteum</i>	15	
<i>Aster Beauty of Colwall</i> . Flowers double of a lavender shade.....	25	
<i>Adlumia cirrhosa</i> . Climbing fumitory, Moun- tain Fringe, Allegheny Vine, Hardy bien- nial vine which climbs over high bushes in moist woods. Flowers white or pur- plish. It reproduces itself year after year if in congenial locations.....	15	\$1 50
<i>Campanula sarmatica</i>	15	
“ <i>grandis</i> . 2 ft., pale blue flowers..	15	
<i>Centaurea dealbata</i> . Flowers rosy pink.....	15	1 50

“ <i>Persica alba</i> . 2 ft.....	35	
Wagner's <i>Arbor Vitae</i> . 12-20 inches with ball	40	

Bargain List

These sets are made up mostly of plants mentioned in my Spring Catalogue of kinds of which I have the largest stock. We have more time to make these sets in autumn and offer them at lower rates on this account.

These offers are not open to spring delivery, because then we cannot spare the time they require in filling. Those wishing to take advantage of any offers for shrubs, trees, etc., in this list, for spring setting, can get them in November, and cover them in any well drained soil, leaving only the tips of the branches exposed, where they will keep in perfect condition, and may be set in spring as soon as the ground is ready. For cost of boxing trees and shrubs, see my Spring Catalogue. These prices do not include postage. Parties wishing these by mail will be given cost of postage upon application, where mailing is possible. We can ship safely by freight in autumn most of the plants we grow, even as far south as California. These offers are subject to surplus stock being sold. This stock is not a poorer grade than is used in filling orders for single or dozen lots. Deciduous trees and shrubs had better not be moved before October. Bulbs and plants which are entirely covered when set can be ordered until winter prevents.

Shrubs, trees and plants set in autumn, and mulched well before winter to prevent heaving, often do better than when set in spring, especially when spring setting is late. Trees may be banked up 6 to 10 inches with soil, shrubs mulched with 2 to 3 inches of straw manure, and herbaceous plants covered lightly with brush, pine boughs, buckwheat straw or any similar substance that will protect without smothering.

This protection for winter is very important for all plants, shrubs and trees set in the fall in our northern

climate the first year. After they have become established the shrubs and trees and most of the herbaceous plants need not be covered.

Please do not ask us to divide these offers, nor to fill orders from this list after December first.

All Plants in these Sets are Perennial

Except Canterbury Bells.

	Each.
25 Asters. 3 or more kinds.....	\$1 75
25 Native Wild Columbines (<i>A. Canadensis</i>).....	1 25
