Rhododendrons. Our collections consist entirely of Hardy English, Parson's Hybrids and Catawbiense Grandiflora varieties and choice forcing kinds.

The Rhododendron as a forcing plant for Easter is becoming more popular every year. Such desirable varieties as Roseum, Prince Camille de Rohan (Rosy Pink) and Cunningham's White can easily be forced into flower in three to four weeks from the time they are brought into a warm house. The \$1.00 and \$1.50 sizes of the above varieties are extra fine, being large compact plants, well budded and clean foliage. We have many other desirable forcing varieties in addition to the above, but we recommend these as being especially fine for that purpose. Every Florist should have a few in bloom at Easter with other stock.

Tuberous-Rooted Begonias

Ready in December

Having made arrangements with one of the largest and finest growers of Tuberous Begonias in Europe to supply us with his product, we are enabled to offer these bulbs at unusually low prices. Bulbs are first-class, running 1¼ inch in diameter and up. The quality of the flower, notwithstanding the low price, is unusually fine. There is no finer stock to be had in Europe. Buyers will find it cheaper to buy here at our prices than to import their own stock direct. We offer them in separate colors: White, pink, scarlet, yellow and crimson.

Double—75 cents per 10; \$6.00 per 100.

Single—50 cents per 10; \$4.00 per 100.
