GARDENSIDE NURSERIES INC.
SHELBURNE VERMONT.

FLOWERING SIZE HARDY PLANTS, -FIELD GROWN.

All of the Hardy Plants offered in this Circular, are available in good-sized, field grown, stock, that will, with few exceptions, flower this first season. All are grown from the best seed obtainable, or, in the case of named varieties, or special forms, from cuttings, or by methods of propagation that ensure trueness to name. To get good flowers, early planting is advisable. Usually, we can ship in early April, and we urge you to send us your orders at once, so that plants may be sent out at the best possible season.

Prices on all plants include delivery to the customer, by the best method, except that we require 5% additional for States west of the Mississippi River, to cover extra shipping cost. Five plants, all alike, will be sent at the ten rate; twenty-five, all alike, at the hundred rate. We use great care to avoid mixtures, and to send out plants true to name and of strong healthy growth. Errors will be cheerfully corrected, but in no case will we be responsible for more than the value of the plants.

PLEASE NOTE.

The Circular mailed you on January 15th, offering many unusual plants, in small, pot-grown sizes, expires on March 15th. Prices will advance after that date. It will be to your advantage to send us your orders from this early Circular, at once. Another copy, sent if requested.

LIATRIS SCARIOSALBA.
White Kansas Gayfeather.

The Button Snakeroot, Kansas Gayfeather, or *Liatris scariosa*, is one of the finest native American plants, for the hardy garden. Growing from a beetlike root, it makes a tuft of short straplike leaves, and in mid-summer sends up a three to five foot flower stalk, which blossoms throughout August and September. Each flower head is about the size, and color as well, of a large thistle. These heads are ranged around the top of the flower stem, so that the effect is of a long spike, yet each head is distinct. The strong erect growth, makes it useful in the garden, where it seldom needs support. It is fine for cutting.

But the color of the older form is sometimes trying. Recently a white form appeared, but when increased by division, it was apt to be stunted in growth. We have been growing seedlings from these white plants and now have a moderate quantity of young, healthy, white flowered roots. Every one has flowered, and is true to color. You will like these white plants to combine with the older sort, or to plant with Aconitum autumnale and other fall flowering plants.

Strong young flowering roots of the above, 25¢ each; 10 for \$2.00.

ACONITUM, or Monkshood.

Suggested as a garden companion for the White *Liatris*, are two forms of Monkshood. Both are fall flowering, and come at about the same time. Aconitum autumnale. Dark blue spikes, above glossy leaves. A. autumnale fischeri. Light porcelain blue. Glossy dark green leaves.

Strong roots of either form, 25¢ each; 10 for \$2.00; 100 for \$18.00.

IMPORTANT PLANT FAMILIES. *****

Under this heading, we are grouping those plant families, of which we have a number of species, or those whose garden value has caused the selection and propagation of many distinct forms.

UNLESS OTHERWISE NOTED, ALL PLANTS ARE 25¢ EACH; 10 FOR \$2.; 100 FOR \$18.

ANEMONE.

Alpina sulfurea. Charming feathery foliage, soft yellow flowers, in May.
Magellanica. Pretty small flowered species, soft yellow flowers. June.
Pulsatilla. Pasque Flower. Large violet or purple cups, on foot high stems.
Puls. alba. White Pasque Flower. An extremely choice, white form of the preceding. This is true to color, not seedlings. May. 50¢ each; 5-\$2.25
Puls. rubra. Deep reddish purple form. Smaller flowers. A showy color.
Sylvestris. Snowdrop Anemone. Pure white cups, on 18" stems. Fine for use under tall shrubs, in partial shade. Will carpet the ground.
Vernalis. Lady of the Snows. A very choice, very early flowering sort, with large lavender cups, white inside, and fade to rose. Likes a light sandy loam, not very rich, full sun, a little lime. Order early.

ASTER.

Amellus elegans. Grows 2 feet high, makes a rounded mound of blue in fall
Barr's Pink. Tall, four feet. Showy rosy pink heads. Finest of its color. 35¢
Blue Gem. Branching sprays, semi-double flowers, rich clear blue. Four feet.
Climax. Large, clear, light blue flowers with golden center, in long sprays
Grey Lady. Large semi-double flowers of an exquisite opal grey shade. 3'
Mme. Carroy. Light bluish lavender. Like Blue Gem, but a softer color. 3'
Luteus. Golden Aster. Whether Aster or not, this is a beautiful soft shade of golden yellow. Three feet high, branching heads. Fine for contrast.
Queen Mary. Rich blue. Very late, tall, and showy. Individual flowers large.
White Climax. Identical with Climax, except in color, which is pure white.

ASTILBE.

Avalanche. Pure, snow-white flowers, on long spikes. Moderate in height.
Davidii. Tall, fine foliage, graceful flower spikes of reddish purple.
Gloria. Dense feathery plumes of brilliant dark pink. Very fine.
Juno. Plumes deep violet rose. Not so dense, but airy and graceful.
Kriemhilde. Feathery spikes of beautiful salmon pink.
Marg. von Rechteren. Grows five feet, with three foot flower stem, topped by a drooping spike of bright red flowers, tinged dark lilac.
Prof. van der Weilen. Much like preceding, but flowers are white.
Queen Alexandra. Deep pink spikes, good height, good habit. An old sort.
Rose Perle. Very pale pink. This and the preceding are old, but still fine.
Astilbes are heavy. Priced at 50¢ each, 10 for \$4.50.

***** **

DIANTHUS.

Arenarius. For hot dry places. White flowers, fragrant, deeply fringed. 5".
Arvenensis. Fine for carpeting. Grey foliage, fragrant pink flowers. 3-4".
Deltoides, Maj. Stern. The Maiden Pink, in a form with reddish foliage.
Freyri. A very compact sort, with grey foliage and soft pink flowers.
Liboschnitzianus. Flattened mats, grey green. White flowers. Grows 1 foot.
Plumarius, Highland Queen. A form of the Spice Pink, with large, bright crimson flowers. Fragrant and showy.
Plum. Lady Betty. Pink, with lavender shadings. Flowers large. Compact habit and free flowering, continuing all summer.

HELIANTHEMUM

Apricot. Rockrose. Prostrate plants, useful for carpeting in the dry and sunny rockery. Flower profusely in midsummer. This variety has blooms of a peculiar yellowish pink, with ruffled edges.

Ben Ledi. Fine new variety. Crimson, over bright green foliage.

Ben Lerk. Bright clear yellow, with a bright orange center. Good foliage.

Boule de Feu. Very double, brilliant dark red. Unusual, and interesting

Lemon. Very pale yellow, large flower, attractively crinkled. Foliage extra

Orange. Like the preceding, but a brilliant orange yellow.

Rhodanthe carneum. Grey foliage, large flowers, rosy salmon in color.

Rosy Gem. A bright rosy pink, on dark green foliage, crinkled petals.

HEMEROCALLIS

Apricot. Clear bright orange flower, good size; excellent form. June. 50¢

Bay State. Very large, pure glistening yellow flowers. July to August. \$1.00

Calypso. Burbank's best. Very fine light lemon yellow. \$1.00.

Dr. Regel. Small foliage, flowers late. Rich apricot blooms, fragrant. 50¢.

D.D. Wyman. Light golden yellow, with a tawny splash. July, and August. \$1.50

Flava. The Lemon Daylily. An old favorite, fragrant, pale yellow. 30¢; 10-\$2.

Gem. Deep orange yellow blooms, in early July. \$1.50

George Yeld. Large flowers, nearly 6" across, rich orange and orange scarlet. One of the finest English varieties. \$2.50

Goldeni. Deep golden orange flowers, in early July. \$1.00

Golden Bell. Soft apricot orange, with darker throat. July, August. \$2.00

Golden Dream. The deepest golden yellow sort. Extra fine. \$2.00

Gold Dust. Large, rich, clear golden yellow flower. June. 30¢ each. 10 for \$2.

Gypsy. Orange-yellow. Tall, strong growing. We like it. July, August. \$2.00

J.A. Crawford. Extra large, cadmium yellow and apricot flowers. June and July. We consider it among the best. \$1.00

Lemona. Pale lemon yellow, a glorified flava. Very lovely. \$1.00

Luteola major. Splendid orange yellow. July and August. 50¢.

Mrs. A.H. Austin. Large flowers. Deep golden yellow. July to August. \$2.00.

Mrs. W.H. Wyman. Very pale, glistening, yellow. Late August. Delicate. \$1.00

Radiant. A splendid clear pure orange. Next to Hyperion in quality and texture of the flower. \$2.00

Royal. A wonderful Japanese hybrid. Canary yellow. Wonderful texture. \$2.00

Shirley. A fine English sort, with lemon yellow flowers, streaked with apricot yellow. Flowers flattened, the edges curled. \$2.00.

Sir Michael Foster. Broad, gracefully arching foliage. Stout stems; and flowers of the most beautiful yellow. Very fine. \$3.50

Sovereign. A free flowering, English variety. Orange yellow blooms, shaded brown on the outside. June. \$2.00.

Thunbergi. Much like flava. Fine for massing with that variety to prolong its season. Buttercup yellow. 30¢ each; 10 for \$2.00; 100 for \$18.00

Variegated leaf. This is probably kwanso variegata. The leaves are striped with cream. Scarce. Stock limited. \$2.00.

IRIS SIBIRICA.

Butterfly. Soft uniform sky blue. Falls somewhat lighter.

Emperor. Large, very dark blue flowers. Tall.

Florrie Ridler. We think this the finest form. Exquisite blue flowers.

Peggy Perry. Large ruffled flowers of rich violet blue. Early.

Perry's Blue. Bright sky blue. Large and fine.

Sunnybrook. Alice blue. Very much admired.

Snow Queen. Pure white, with golden yellow throat.

UNLESS OTHERWISE NOTED, all plants are 25¢ each; 10 for \$2.; 100 for \$18.00

HEUCHERA.

Americana. Tall, flowers greenish white. Foliage exceptionally good.
Brizoides. A strong form, with pale pink flowers. Fine for massing. May.
Cascade. Tiny, light pink bells, on 2' stems, in profusion. June, July.
Hermes. Fine large deep colored bells, on shorter, stocky stems. June.
Flambeau. Very bright red flowers on 2' stems. Profuse bloomer.
La Perle. Very dark red. Flowers large, stems tall, the showiest sort.
Pluie de Feu. Fiery red flowers, in loose graceful spikes. Free-flowering.
Perry's White. A fine white flowered sort, blossoming from May to July.
Robinsoni. A selected seedling from a friend's garden. Bright pink bells on short stocky stems, 18" tall. Its minute foliage and low growth, with its compact habit, make it ideal for the Rockery. 35¢ each.
Rosmundi. Coral pink bells, on tall strong spikes. Fine foliage. May-July.
Sanguinea. Selected seedlings of the type. Mixed colors. A fine strain.
Sanguinea alba. White seedlings. Small flowers in a foamy mass.
Saturnale. Minored flowers. The darkest colored sort. Foliage large, plant compact. 12-18" tall, June and July. 50¢ each.
Sanglant. Flowers, bright red, very brilliant. Growth good. June July. 50¢.
Titania. A charming form, rosy pink flowers in profusion. 35¢ each.

LILIUM.

Auratum. The Goldbanded Lily. Fine large bulbs, from Japan. Planted this spring, they will flower from July to September. 35¢; 10 for \$3.00
Amabile. Like a miniature Tiger Lily, 12" high. Dull red. 35¢; 10 for \$3.00
Callosum. A dull red Coral Lily, on 3' stems. Fine in Shrubs. 35¢; 10-\$3.00
Canadense. Native Meadow Lily. Yellow bells, on a tall strong stem. 35¢.
Candidum. Madonna Lily. Planted early, these will bloom this year. Fine large bulbs of the Northern strain. 35¢ each; 10 for \$3.00.
Concolor. A cupshaped, bright red flower. Very showy. 35¢ each; 10 for \$3.00
Henryi. A fine, tall, late flowering yellow Lily, with Turksap like blooms Very fine amongst shrubs. Hardy vigorous. 35¢ each; 10-\$3.100-\$25.00
Phillipinense formosum. Like a hardy Easter Lily. Flowers here, very late in August, and September. Good bulbs, grown here, \$1.00
Princeps. Seedlings of this fine Regal type Lily, blossoming after Regal but before Shelburne Hybrid. 3-5" bulbs, \$1.00 each; 10 for \$8.00
Regale. Fine, home grown bulbs of this garden favorite. Try these, they are the best we ever grew. 30¢ each; 10 for \$2.50; 100 for \$20.00.
Shelburne Hybrid. This strain of Regal type lilies, originating here, is the latest yet developed. Some flowered in September last year. Taller, stronger, hardier, they surpass all other trumpet flowered Lilies, in beauty and garden value. 3-5", \$2.00 each; 10 for \$18.00
 EXTRA LARGE BULBS, 5-8", \$5.00 each; 10 for \$45.00.
 PLANTING SIZE (some may flower) 50¢ each; 10 for \$4.50; 100 for \$40.00
Superbum. Southern Turksap. Fine in partial shade. Reddish yellow. 35¢.
Speciosum magnificum. The Showy Lily. The beautiful white and rose tinted lily of Fall gardens. Large Japanese bulbs, sure to flower this year. They are extra fine this season. 35¢ each; 10 for \$3.00.
Tenuifolium. The Coral Lily. The brightest colored small Lily. Nodding Turksap blooms, from one to twenty on slender strong stems. Fine for the Rockery. Extra large bulbs. 35¢ each; 10 for \$3.00; 100 for \$25.00
Ten. Golden Gleam. Golden yellow form of the Coral Lily. 35¢; 10 for \$3.00
Tigrinum. The Tiger Lily. Splendid strain of this old favorite. 20¢; 10-\$1.
Tigrinum fl. pl. Double Tiger Lily. Very showy form. 35¢ each; 10 for \$3.00
Umbellatum. Candle Lily. Mixed red and yellow. Fine for massing where a large bold effect is desired. 25¢ each; 10 for \$2.00; 100 for \$18.00
Willmottiae. Tall gracefully drooping lily. Orange red, Turksap like blooms, in profusion. 35¢ each; 10 for \$3.00.

 UNLESS OTHERWISE NOTED, all plants are 25¢ each; 10 for \$2.; 100 for \$18.00

PHLOX.

Ampena. Early flowering, dwarf bushy plant. Flowers bright rose-purple. 6"
Divaricata canadensis. A fine, May flowering sort, growing 6-8" high.

Flowers are a bluish grey, fine for cutting. Makes a large clump.
Ovata. Large deep rose flowers, on 1' stems, in June and July. Erect habit.
Pilosa. Flowers bright rose. Much like divaricata. Grows 1 foot high.
Subulata. Moss Pink. We have a fine bright rose strain of this low Phlox.
Sub. alba. A white form, with minute lavender eye. Fine for contrast.
Sub. Appleblossom. Very pale pink. An unusual shade, which improves with age.
Sub. Fairy. Rose-lilac, with purple eye. Often flowers again in autumn.
Sub. frondosa. Deep rose flowers. Strong and vigorous plant. One of the best.
Sub. G. F. Wilson. Lovely mauve flowers. The best of the bluish sorts.
Sub. Jersey Blush. Much like Appleblossom. Slightly lighter shade, perhaps.
Sub. lilacina. The standard lavender. Growth is identical with rosy form.
Decussata B. Comte. Large flowered Phloxes are among the most popular
 midsummer flowering plants. This is a rich amaranthe. Tall, late.
Bridesmaid. White, with a crimson eye. Quite tall. Large flower heads.
Camillo Schneider. Brilliant scarlet red. Quite the best of its color.
Firebrand. Brilliant orange scarlet, with darker eye. Every one likes it.
Jules Sandeau. Pure deep pink. Moderate growth, large heads and flowers.
Lord Raleigh. Dark mauve, touching purple. Tall and free flowering.
Maid Marian. Lavender blue, or lilac. Good growth, medium height.
Miss Lingard. A fine, early flowering, white Phlox. Moderate height.
Mrs. Scholten. Dark salmon pink. Enormous spikes. Medium height. Splendid.
Mrs. W. Van Beuningen. Rich salmon red, without an eye. Strong robust growth.
Rheinlander. Salmon pink, or light rose. Tall and strong. Very large heads.
Riverton Jewel. Mauve-rose, with a red eye. Tall, good heads. Attractive.
R. P. Struthers. Cherry red, suffused with salmon. A bright showy color.
Rynstrom. A lively shade of rose pink. Very large and fine.
Salmon Glow. New last year. A fine clear salmon pink; moderate growth.
Sir. Edwin Landseer. Bright crimson. Quite tall, good sized heads.
Von Hockburg. Fine deep red. The best of its color. Everyone exclaims at it.
W. C. Egan. Soft pink at a distance. Closer it is pale lavender.

PRIMULA.

Auricula. Thick leathery leaves. Flowers various colored. Fragrant. Rare.
Cortusoides. Soft, wrinkled leaves. Deep rose flowers, on good stems.
Bessiana. Much like P. japonica. Velvety purple flowers. Moist soil.
Bulcyana. Rich apricot yellow flowers, in large whorled spikes. Moist soil.
Japonica. A fine strain, with many varied colors from red to white. This
 Primrose is best in a deep cool moist, and partly shaded spot.
Polyanthus. Munsted strain, in many varied colors. The old Bunch Primrose.
Saxatilis. Thick clusters of small leaves. Short stems of lilac-rose fls.

THYMUS.

Citriodorus. Lemon Thyme. Makes a low mound of small foliage, with a grey
 cast. Richly pungent with the odor of Lemon Verbena.
Cit. aureus. Much more prostrate. Golden yellow cast and same fragrance.
Fragrantissimus. Makes a little bush, grey foliaged, and very pungent.
Herba baronna. This low or prostrate Thyme is fine for paving or walks
 as its foliage is hard. The fragrance is that of Caraway.
Serpyllum coccineum. The form most used for planting in walks, as it is
 absolutely prostrate. This has a bright pink flower. Fragrant.
Serpyllum lanuginosus. The Woolly Thyme. Soft, grey, wooly tufts, in a low
 mat. Very decorative, interesting, and fragrant.
Vulgaris. Common Thyme. Makes a small bush. Fragrant leaves, used in
 finger bowls, etc.

SAXIFRAGA.

Aizoon. Fine, well encrusted rosettes. Flowers white. Makes a fine clump.
Aizoon alba. Similar, but better, leaves more silvery and encrusted.
A. balcana rosea. A rose flowered form of the type. Smaller rosettes.
A. baldensis. A tiny sort, making a grey, mossy mat. Each rosette is not over one quarter inch across, and the plant, scarcely half an inch high.
A. flavescens. A yellow flowered form of aizoon. Very good.
A. lagaveana. Rosettes about like peas. Makes a large mat, quickly, and will help to hold steep banks. Well encrusted.
Cartilaginea. A form of aizoon. Large. Leaves pointed. Flowers blush pink.
Cotyledon pyramidalis. Long, narrow leaves, well encrusted. White flowers.
Crustata. One inch, flattened rosettes. Fairly glistens with lime.
Elliott's Silver. A tiny hybrid. Narrow leaves, heavily encrusted. 50¢ each
Gaudini. Large rosettes. Flowers on tall arching stems are white and pink
Hostii. Narrow, strap like leaves, grey encrusted. White flowers.
Ligulata bellardi. Pale green rosettes, silvery beaded leaves. White.
Lig. lantoscana. Narrow, gray green foliage, filmed with silver. White.
Macnabiana. The easiest form to grow. Fine grey foliage, heavily beaded with lime, and tall, branching spikes of white flowers.
Ceratophylla. Staghorn Saxifrage. Entirely different from the preceding. Finely divided foliage, makes a low mound. White flowers in summer.

PLEASE NOTE. Saxifrages are field grown. 35¢ each; 10 for \$3.00.

SEMPERVIVUM.

Arachnoideum. Cobweb Houseleek. A grey web covers the entire rosette.
Glandum. A large variety, 2½-3" across. Pale green foliage.
Calcareum. Glaucous foliage, each leaf tipped red-purple. 50¢ each.
Fauconetti. Erect, needle-like growth. Slightly cobwebby. Green and red.
Glaucum. Large, 2-3". Blue green, with red tip. Very fine large sort.
Juratense. Much like tectorum, but a dark red brown, most of the year.
Laggeris. A larger and better Cobweb Houseleek.
Pallidum. Very large, 4-5". Blue green leaves, turning purplish, tipped brown
Pittoni. Leaves appear made of plush. Very attractive sort. 50¢ each
Pyrenaicum. Much like tectorum. A strong handsome sort.
Soboliferum. New rosettes form on top of old, and roll away.
Theobaldi. A good sized sort, with very attractive deep red color at tips.
Triste. Finest deep red sort. Holds color well, all season.

SEDUM.

Acre. Dense, vivid green mat, 1-2" high. Yellow flowers. Fine for carpeting.
Altissimum. A low sort, distinct foliage. Fine as a specimen
Anacampseros. Another low growing, carpeting sort. Flowers purple.
Anopetalum. Two forms, yellow, or white flowers. Sometimes 9" tall.
Divergens. Grows 6" high, with yellow flowers.
Fabaria. A tall form, 12-15" with rosy flowers.
Hybridum. Low, stringy sort. Fine for carpeting. Flowers yellow. Foliage good
Linearis variegata. Narrow green and white variegated foliage.
Lydiu. Tiny sort, 1-2" high. Reddish green foliage. May be used in pavement
Middendorffianum. One of the best, with brown foliage, yellow flowers. Neat.
Oreganum. Moderately low sort, with yellow flowers. An American variety.
Reflexum cristatum. Silvery foliage, the ends crested into odd flat heads.
Rupestre. Yellow flowers. Fine green grey foliage. Spreads. Fine for banks.
Sieboldi. Blue yellow foliage, rose tipped. Rose flowers. Never weedy. Fine.
Sieboldi variegated. Each leaf has a white blotch. New; rare; odd. 50¢ each.
Spectabile Brilliant. Tall, 15-18". Large heads, rosy pink flowers. August.

UNLESS OTHERWISE NOTED, all plants are 25¢ each; 10 for \$2.; 100 for \$18.

TROLLIUS.

Asiaticus. Small, bright orange flowers. Many pointed petaloids in center.
Canary Bird. Pale lemon yellow, tall and strong growing. Very early.
Earliest of All. Light orange yellow, very early, and often blooms again.
Eleanor. A fine bright yellow. Late May, and June. Very profuse.
Empire Day. A fine new bright orange sort. 50¢ each.
Europeus. This is the true, pale lemon yellow sort. Very fine.
Excelsior. Bright orange red flowers. 2' high. Gives a good second bloom.
Fire Globe. Bright orange, semi double flowers. Low plant.
Golden Gleam. Very large, double, golden yellow. New. 50¢ each.
His Majesty. Large, round, orange red flowers. Plant is dwarf, and compact.
Lichtball. Globe shaped, orange yellow flowers, on strong stiff stems.
Loddigesii. Very close round, bright golden yellow flowers.
Orange Globe. Strong growth. Fine large orange flowers. True stock.
Salamander. Fine, late flowering, orange variety. Tall and strong.
Sinensis. Very late, flowering in July. Large flat, bright orange flowers with petaloids in center. Its lateness, makes it useful.

PLEASE NOTE. Above Trollius are 35¢ each; 10 for \$3.00, unless noted.

Seedling Hybrid Trollius. A fine lot of strong plants, grown from seed from our named varieties. Many bright colors, but all shades are included. Large plants, -25¢ each; 10 for \$2.00; 100 for \$18.00

VERONICA.

Chamaedrys. Grows about 6" high, close mats of green, with white flowers.
Corymbosa stricta. Six inch flower stems, with 3-4" of large blue flowers, rise from fine glossy green foliage. Best low Veronica.
Elegans. Slightly smaller than preceding, and earlier. Very good.
Erica Blue. Nearly one foot high. Much like preceding, but later.
Erica Pink. Good pink flowered form.
Incana. Grey foliage and dark blue flowers, on 8" stems. Wonderful color combination. A good plant, never weedy. Fine at all times.
Longifolia subsessilis. The finest large Speedwell. Grows 30" high, with dark green leaves on stout stems, and a large 6" spike of dark blue flowers. We have some fine heavy plants. 35¢ each.
Orchidea. Much like elegans, but flowers at a different time. May be used with these sorts, to prolong the season.
Rupestris. A prostrate, strong growing sort, for carpeting banks. blue.
Rupestris alba. White flowered form of the preceding.
Rup. flexuosa. Smaller and less rampant than the type. Blue flowers.
Rup. nana. An even smaller form. Blue flowers. Very neat, fine for Rockery.
Teucrium. Trailing stems, form a close mat. Covered with blue flowers in May and June. Fine for edging dry paths.
Trehani. Prostrate, golden yellow foliage. Blue flowers.

VIOLA.

Canadensis. Common in rich woods, with white and violet flowers. Fine.
Cucullata. Common Blue Violet. Large flowered, easily grown, not fragrant.
Pedata. Birdsfoot Violet. Easily grown, in poor dry soils. Very showy. Blue.
Pedata bicolor. Blue and white form of preceding. 35¢ each.
Pubescens. Downy Yellow Violet. Very pretty, soft yellow flowers. Tho a common form in woodland, it grows readily in the garden.
Rotundifolia. Round-leaved Violet. Native to deep cool woods, but grows easily in the garden. Flowers yellow. Very fine foliage.

 UNLESS OTHERWISE NOTED, all plants are 25¢ each; 10 for \$2.; 100 for \$18.

VIOLA ODORATA.

Blue. A fine strain of hardy, fragrant, Violets, which we found growing in an old garden. The flowers, on good stems for picking, are produced plentifully in Spring, and if new plants are set, will flower in fall.

White. A fine pure white form of Sweet Violet, fragrant, hardy. Fine to use for carpeting under Lilacs and other shrubs.

Charm. A fine Sweet Violet, with white flowers, flushed with lavender, the whole effect a very pale blue. Flowers are large, on good stems, and very fragrant. Seems to flower well in fall.

Posina. The true, hardy, pink Sweet Violet. This extremely hardy form, has rosy pink flowers, which are produced in profusion in spring.

A few appear all summer, but in fall, they again flower heavily, and will perfume the entire garden.

Single Russian. This is a very strong growing, single, blue Sweet Violet. The plant will make leaves 3-4" across, on one foot stems. The flowers are as large as greenhouse violets, on 6" stems, and very fragrant. The flowers appear not only in spring, but again in fall, continuing until frozen down. If planted in a frame, and protected, they will yield blooms until December, in New England.

Double Russian. An old favorite. Smaller than Single Russian, and with very double, dark blue flowers, powerfully fragrant. Useful for borders, in shade, or for carpeting under shrubs.

BEDDING VIOLAS.

Apricot The rich orange yellow color of this Viola cannot be surpassed. It is particularly rich when combined with the blue of Jersey Gem.

Jersey Gem. The finest blue bedding Viola ever grown. Perfectly hardy, and seems to grow anywhere. Plant is of perfect habit, never gets 'leggy'. Flowers are on good long stems, for picking, and well above the foliage, to give plenty of color effect. Best of all, it will flower all summer, in cool climates. And in warm ones, if cut back, after flowering stops, and given a little extra care, it will flower again in fall.

Jersey Jewel. A deeper colored sort than Gem, a rich glowing violet. But its chief value is in its ability to flower in hot weather. It is at its best, in midsummer, when others have stopped.

White Jersey Gem. A white form of the popular Jersey Gem, equally good, and useful to combine with that variety, to set off its color.

PLEASE NOTE. All the above are strong field grown plants. They are priced at 25¢ each; 10 for \$2.00; 100 for \$18.00, postpaid.

DAPHNE CNEORUM.

Of all low, more or less prostrate shrubs, suited for the Rockery, or for the front of the shrubbery Border, for bedding, or even for foundation planting, none surpasses in neat attractiveness of foliage, fragrance and beauty in flower, or general all around usefulness, this grey leaved relative of the Thymes, so fortunately named Rose Daphne, or Garland Flower.

The plant itself is usually a low mound, some 8-15" high, thick and compact, neatly rounded. In time it may grow several feet across, but can be nicely kept in form by light shearing, just after flowering in Spring. The flowers, in terminal clusters, are an inch and more across, rosy pink, overlaying white waxy perfection. They are exceedingly fragrant. In fact, one often compares another flower to this Daphne. But there are few to which it may in turn be compared, unless it be the Arbutus. After the Spring bloom, scattering blossoms form, all summer.

HEAVY PLANTS, 12" spread. \$1.50 each; 18" spread \$2.50 each. Not postpaid.
LIGHT PLANTS, 4-6" high, 50¢ each; 5 for \$2.25; 10 for \$4.00, postpaid.

PERENNIAL ROCKERY AND BORDER PLANTS.
MISCELLANEOUS LIST.

- ACONITUM NAPELLUS. Sparks Variety, which has a loose branching head of dark blue flowers. July bloomer. One of the best for cutting.
- ACHILLEA AIZOON. Low mounds of grey foliage. Tiny, white, daisy-like blooms.
- A. PTARMICA, The Pearl. 18" stems, with flat heads of white flowers.
- A. SERBICA. Like A. aizoon, but smaller in all its parts.
- AJUGA GENEVEENSIS. Makes a flat bronzy mat of leaves. Purple flowers.
- A. GEN. FOLIIS VAR. A form of the preceding, with golden variegated leaves.
- ALSINE LINIFLORA. Dark green mats of needle like foliage. White flowers.
- ALYSSUM SAXATILE COMPACTUM. Yellow flowers, over low mounds of grey leaves.
- A. ARGENTEUM. Like the preceding, but taller, and later flowering.
- ANCHUSA MYOSOTIDEFLORA. A fine spring blooming plant, much like Forget-me-not. The leaves are much larger, and the handsome dark green foliage, lasting all summer, makes the plant superior to Myosotis.
- ANDROSACE SARMENTOSA. One of the finest Rockery plants. From a low grey green rosette, comes a short stem, with an umbel of pink flowers. New plants form about the old, as do Strawberries. 35¢ each.
- ANTHERICUM RAMOSUM. Long, narrow grassy foliage. Tall spikes of white fls.
- AQUILEGIA LONG SPURRED HYBRIDS. A fine strain in many varied colors.
- A. -- HENSOL HAREBELL. A fine dark blue form of the old Columbine.
- ARABIS ALPINA FL. PL. Double Arabis. Grey foliage, and double white, fragrant flowers. Fine for edging, and in Rockery.
- ARENARIA MONTANA. Fine green foliage, and large white bells, in June and July. An American plant, by many considered our finest Alpine.
- ASCLEPIAS TUBEROSA. Butterfly Weed. Fine bright orange flowers in July.
- BAPTISIA AUSTRALIS. Large clumps, grey blue foliage. Dark blue, pea like, fl
- CAMPANULA CARPATICA. Carpathian Harebell. Fine foliage, round and green. Large blue or white bells, in summer. State color desired.
- C. ROTUNDIFOLIA. Native Harebell, closely allied to the Bluebells of Scotland. A desirable Rockery plant. Fine cultivated clumps.
- C. PERSICIFOLIA. Peachbells. Tall spikes of blue or white flowers in June. A fine strain of hybrids, in mixed colors only.
- CHRYSANTHEMUM MAXIMUM. Shasta Daisy. A fine, large flowered variety.
- CIMICIFUGA AMERICANA. Bugbane. 3-4' stems, with tapering spikes, white fls.
- C. RACEMOSA. Similar, but larger and white flowers.
- CLEMATIS DAVIDIANA. A bushy Clematis, with fragrant, pale blue flowers. 50¢
-
- UNLESS OTHERWISE NOTED, all plants are 25¢ each; 10 for \$2.; 100 for \$18.

MISCELLANEOUS LIST OF PERENNIALS.

- COTYLEDON SIMPLICIFOLIA. Low plant for Rockery, half Sedum, half Sempervivum
- DELPHINIUM CHINENSE. Grows two feet high, with loose branching heads of blue flowers in June and July, often flowering again in fall.
- D. CHINENSE ALBUM. White form of the preceding. Both are fine for cutting.
- D. CHOICE HYBRIDS. Fine young plants, grown from seed saved from the best plants, in the garden of a Delphinium fancier. 35¢ each; 10--\$3.00
- DICENTRA FORMOSA. Plumy Bleeding Heart. This fine low growing (6-8") plant is very useful for shade or sun, and flowers all summer. Pink.
- D. SPECTABILIS. Bleedingheart. The true variety. Fine young plants.
- DODECATHEON MEADIA. American Cowslip, or Shooting Star. Fine nursery grown plants, sure to flower, if ordered early.
- DORONICUM CAUCASICUM. Leopard's Bane. Early flowering, yellow daisy. 2-3'.
- DRABA MAWEI. Tiny green rosettes. White flowers in low sprays. Rockery.
- D. HIRTA. Short stubby grey leaves, make a flat rosette. White flowers.
- D. OLYMPICA. Rounded tufts of green mossy foliage. Tiny yellow flowers.
- D. REPENS. A creeping form, minute leaves. Yellow flowers in May.
- ECHINACEA PURPUREA. Purple Coneflower. Tall striking plant for background.
- ECHINOPS RITRO. Globe Thistle. Dark blue, globular flowers on tall stems.
- ELYMUS GLAUCUS. Blue Lyme Grass. A grey blue grass, flat leaves, 2' high.
- ERIOPHYLLUM CAESPITOSUM. Oregon Sunshine. A fine, hardy, yellow daisy like plant, flowering in late June. Good for cutting.
- EULALIA GRACILLIMA. A grass, with narrow green foliage, and 5-6' plumy flower heads, which may be dried.
- EUPHORBIA COROLLATA. Fine single white flowers in long sprays. Tall.
- E. MYRSINITES. Like an overgrown, blue green Sedum. Yellow flowers. Prostrate.
- E. POLYCHROMA. Erect, 15-18". Good foliage and attractive yellow flowers.
- FESTUCA GLAUCA. Blue Fescue. Fine little tufted grass, 6", blue, for Rockery
- FUNKIA OVATA. Corded, ovate, blue green leaves. Light blue flowers. Shade.
- F. SUB. GRANDIFLORA ALBA. The fine white flowered fall blooming variety.
- GAILLARDIA PORTOLA. A fine form, with stiff stems. Large bright flowers.
- G. PRES. HOOVER. An unusual color, a deep bronzy red, dull, but very striking
- Both these Gaillardias, 35¢ each; 10 for \$3.00
- GEUM HELDREICHI SPL. Perfectly hardy. Fine bright orange fls. Good foliage
- GYPSOPHILA PANICULATA. FL. PL. Old fashioned Double Baby's Breath. 35¢ each
- G. BRISTOL FAIRY. The improved Baby's Breath, flowers all summer. 35¢ each.
-
- UNLESS OTHERWISE NOTED, plants are 25¢ each; 10 for \$2.00; 100 for \$18.00
- DELIVERY CHARGES PAID.

MISCELLANEOUS LIST OF PERENNIALS.

- HELENIUM AUTUMNALE. Tall, yellow flowered. Fine for background. August.
H. AUTUMNALE RUBRUM. A bright terra cotta red form. Not so tall.
H. AUT. RIVERTON GEM. A duller shade of red, tinged old gold. Bushy.
- HYPERICUM POLYPHYLLUM. Low, grey blue mat, covered in summer with large yellow flowers, with a tufted center. Fine for Rockery.
- INCARVILLEA DELAVAYI. Rose-pink flowers, produced in large trusses on stiff, 18" stems. A very lovely and showy plant. Rare. 50¢
- IRIS LAEVIGATA. Japanese Iris, a fine strain of mixed colors.
I. LAEV. GOLD BOUND. A lovely white Japanese Iris. Golden striped petals.
- LAMIUM MACULATUM. Variegated Nettle. Fine little green and white leaved plant for rockery. Rosy purple flowers.
- LATHYRUS LATIFOLIUS. Perennial Pea. Fine strong climber for fences, or to cover stumps. Flowers in various shades of rose and white.
- LAVANDULA MUNSTED VARIETY. A low growing form of Lavender.
- LIATRIS PYCHNOSTACHYA. Kansas Gayfeather. Tall spikes of rose purple fls.
L. SCARIOSA. Like the preceding, but flower heads more separated.
- LINUM PERENNE. Blue Flax. Splendidly used as an individual specimen.
- LOBELIA CARDINALIS. Cardinal Flower. Tall spikes of brilliant red flowers
- LUPINUS POLY. CHOICE HYBRIDS. A fine strain, all colors. Heavy plants.
- LYCHNIS ALPINA. Low green tufts, covered in May, with short-stemmed flower heads of rosy purple. 6" high. A gem for the Rockery.
- L. CORONARIA. Mullein Pink. Grey foliage, tall branching stems. Fls. deep rose
L. VISCARIA SPL. Dense foliage tufts, and short stems of pink flowers.
- MONARDA DIDYMA. Brilliant crimson flowers, on 2' stems in July.
M. FISTULOSA. Bergamot. Lavender or light purple flowers. Fragrant foliage.
M. CITRIODORA. Lemon Balm. A form with foliage smelling of Lemon Verbena.
- NEPETA MUSSINI. Low grey tufts, light blue flowers. Used as an edging.
N. SOUV. DE ANDRE CHAUDRON. Taller, with dark blue flowers. Green foliage.
N. UKRANICA. Like mussini, but less rampant, and smaller. We like it.
- OENOTHERA MISSOURIENSIS. The best Evening Primrose. Immense yellow flower followed by odd shaped pods. Plant, sprawling. 6-8" high.
- OPUNTIA MACRORHIZA. Cactus. Flat spiny pads, with an attractive yellow fl.
- PAPAVER NUDICAULE. Iceland Poppy. A fine strong growing strain.
- PACHYSANDRA TERMINALIS. Used in dense shade, for carpeting. Low price on quantities of 250 or more. Will stand deep shade.
- PENSTEMON BARB. TORREYI. A tall plant, with tiny red bells like fire crackers, along the stems. August.
- P. GRANDIFLORUS. Low mats of blue grey foliage. 2' spikes of purple rose bells. Quite the finest Penstemon.

MISCELLANEOUS LIST OF PERENNIALS.

- PLATYCODON MARIESII. Chinese Balloon Flower. We have blue and white.
- PODOPHYLLUM PELTATUM. Mandrake. Fine for shady moist spot, and spreads.
- POLEMONIUM REPTANS. Low tufts of good foliage. Blue flowers, in May.
- POLYGONATUM GIGANTEUM. Solomon's Seal. The tallest form. Fragrant white fls.
- PULMONARIA SACCHARATA. Lungwort or Trout Plant. A spray of pink bells, much like Mertensia. Good green foliage, white spotted. Hardy.
- PYRETHRUM HYBRIDUM. Fine strain of many mixed colors. The Painted Daisy.
- RUDBECKIA GOLDEN GLOBE. A much improved Golden Glow. The flowers recurve to make almost round balls of yellow. Everyone likes it.
- RUTA GRAVEOLENS. Rue. A yellow flowered plant, with pungent foliage.
- SCUTTELLARIA ALPINA. Prostrate plant, with small foliage, and good sized flowers of blue and white, in a pretty combination.
- SILENE VIRGINICA. The brightest red silene. A fine Southern native. Hardy.
- S. WHERRYI. Like the preceding, but pink. Resembles S. pennsylvanica.
- SPIREA ULMARIA. Meadow Sweet. Creamy white flowers on 3' stems. Midsummer.
- STATICE DUMOSA. A dwarf Sea Lavender, admirable for the Rockery.
- S. GMELENI. A better S. latifolia. Brighter colored flowers, in closer heads.
- STOKESIA CYANEA. Stokes Aster. Attractive large lavender flowers in summer.
- TALINUM CALYGINUM. Charming little plant, with large rosy flowers. Rockery.
- TEUCRIUM CHAMAEDRYS. Used for edging, and can be clipped like Boxwood.
- TUNICA SAXIFRAGA DBL. PINK. A Rockery Gem. Trailing stems, lge double fls.
- ULMARIA FILIPENDULIN. Attractive fernlike foliage. White flowers, 15".
- UMBILICUS CHRYSANTHA. Like a soft grey wooly Hen and Chicken. Rockery.
- VALERIANA OFFICINALIS. Garden Heliotrope. Fragrant. Good for background.
- VERBASCUM PHOENICUM. Short spikes of odd purple to red and white flowers.
- VERBENA VENOSA. The only hardy Verbena. Lavender flowers, fragrance of Daphne.
- VINCA MINOR. Myrtle or Periwinkle. Green trailing foliage. Blue flowers.
- V. MIN. ROSEA FL. PL. A form with double rosy purple flowers.
- YUCCA COLOMA. A tiny hybrid Yucca from Colorado. \$1.00 each.
- Y. FILAMENTOSA. Great sword like leaves, and a tall spike of white bells.
- Y. FIL. VARIEGATED FOLIAGE. A form with very attractively golden marked leaves.
-
- UNLESS OTHERWISE NOTED, plants are 25¢ each; 10 for \$2.00; 100 for \$18.00

NATIVE PLANTS.

A collected native plant differs from the same plant, when grown in a Nursery bed. Often it comes from shade, from rocky soil, or from a soil so friable that it cannot be taken with the roots. Some make little or no real fibrous roots, but run along under leaves, in a single thread. Others make a bulb, or tuber. And the greater part are spring flowers and start to grow as soon as the snow is gone. It often seems foolish to take up a plant, say a Claytonia, in April, in full bloom, when in June it will be a dormant bulb, and almost sure to live. We do not like to send out plants we do not think will live. But we are constantly being asked to supply these natives, and a list of those available, follows.

PLEASE NOTE. We accept orders for these plants, with the understanding that we will send them at the time we consider best, unless the customer specifically asks for immediate shipment. Send your orders now, so that we can locate the plants wanted. But let us send them when dormant, or at the best time.

ACORUS CALAMUS. Sweet Flag.

ACTEA SPICATA RUBRA. Red Baneberry.
A. SPICATA ALBA. White Baneberry.
