LYCORIS - The Mystery Lily

Sometimes referred to as the hardy amaryllis, this Lycoris (squamigera) is one of the most unusual and most beautiful of flowers. The attractive green foliage appears early in the spring and flourishes until July, when it matures and disappears. Suddenly in early August the flower stems appear, grow rapidly to a height of 2 or 3 feet and burst into a lovely cluster of opalescent pink blossoms. Excellent for full sun, the hardy amaryllis grows even taller in partial shade. They are perfectly hardy and soon multiply to a large clump.

Each \$1.50, Doz. \$15.00

LYCORIS

Amaryllis formosissima

Often referred to as the Jacobean lily, this fine semi-hardy bulb produces brilliant scarlet flowers of almost butterfly shape and formation. Easily grown in the house or the low border, they multiply rapidly, forming fine clumps that lend a brilliant splash of color in the hardy border. A fine, unusual flower, too seldom seen. Our strain is the new Superba strain, much larger and finer than the species.

Large bulbs: Each 50c, Doz. \$5.00

AMARYLLIS FORMOSISSIMA

Amarcrinum

The finest new bulb hybrid to appear in recent years. The amarcrinum, a cross between amaryllis Belladonna and crinum Moorei, has the appearance of a mammoth amaryllis, but its color is an even frosty pink. Great trusses are borne proudly aloft on 4-foot stems—indeed, so worthy is this American creation that it won the coveted Cory Cup of the Royal Horticultural Society of Great Britain. Not the least attractive of this amazing flower's attributes is its scent, exactly like that of the famous Dutch hyacinth. Unlike the hyacinth's odor, that of the amarcrinum does not spread out, but remains nestled within the flower, awaiting your pleasure.

Each \$2.50, Doz. \$25.00

AMARCRINUM

Giant Tuberous-Rooted Begonias

The answer to a gardener's prayer, these exquisite flowers are easy to grow, require little care and above all, thrive in the shade. What other plant can offer such a combination of manifest advantages?

There exists in certain gardeners' minds the erroneous notion that begonias are difficult subjects, yet far from being difficult, they are exceedingly easy to grow. They actually like the shade, preferring to be shielded from the direct glare of the sun's rays. They like fairly rich soil, a reasonable amount of moisture, and good air circulation. But once planted in some such favored location, they require practically no care.

Beginning in July, tuberous-rooted begonias carry their many huge flowers in a wide range of pastel and bright colors, from pure white to yellow, pink and deep rich crimson. The lovely flowers bloom in clusters of three, one large male flower in the center and two smaller female flowers on either side. Remove these side buds as soon as they appear. They are single type flowers of inferior character and inhibit the full development of the central flower. This disbudding will make an amazing difference in the size and beauty of the flower. Under ordinary culture these blooms will reach 5 and 6 inches in diameter, although flowers up to 8 inches may be obtained by special care and attention.

CAMELLIA-FLOWERED BEGONIAS

The King of begonias, gorgeous flowers that appear to be huge camellias. These blooms are completely double, exceedingly lovely and are far longer than the best greenhouse camellias. Words can not adequately describe their unsurpassed beauty.

Red Camellia-Flowered Begonias	Three \$1.15, Doz. \$4.00
Pink Camellia-Flowered Begonias	Three \$1.15, Doz. \$4.00

PICOTEE CAMELLIA-FLOWERED BEGONIAS

The same shape as the camellia-flowered begonia, but beautifully colored in two-toned combinations of extreme beauty, with the edge of the petals definitely contrasting with the interior. An unusual and beautiful flower.

Mixed Colors only Three \$1.50, Doz. \$5.00

MARMORATA CAMELLIA-FLOWERED BEGONIAS

Similar in shape and size to the camellia-flowered type, but mottled red and white for a most unusual effect. A stunning flower to wear as a corsage.

Three \$1.50, Doz. \$5.00

CARNATION-FLOWERED BEGONIAS

Fimbriata Pleno. The formal carnation-flowered begonia is an interestingly different type, having fully double flowers with short, deeply serrated and fringed petals that give the mature flower the appearance of a huge carnation. It is one of those varieties you will think a "must" once you have seen a fully developed flower.

This type is distinguished by flowers of exquisite grace and beauty—more unusual than the other types and particularly desirable for exhibition use. Try them in a decorative arrangement. Mixed Colors only Three \$1.50, Doz. \$5.00

THE NEW CANNAS — flamboyant beauties

A REAL SPECIALTY AT FLOWERFIELD—WE GROW ACRES OF THEM

Today the newer cannas, lower growing and bearing brilliant flowers, are being used more and more by smart gardeners. A pink canna and pink geranium border is at once a novelty and a delight for your garden. Long prized as a foliage plant, cannas are now being grown more for their excellently colored flowers. They bloom for a longer period, and make a finer display than any other large flowering plant we know. Another great advantage of the canna is its sturdiness. They are strong enough to hold their own with shrubs and are often interplanted in shrub borders or groupings with beautiful effect.

NOT FUSSY ABOUT SOIL

Cannas may be planted in almost any kind of soil but prefer a rather heavy soil where they should be planted three to four inches deep. They may be allowed to stay in the ground in the autumn as long as they continue to grow and should be left until the tops are touched by the frost. They then may be dug and stored for the winter.

Our canna list is complete. From it you may choose the height, color of bloom and color of foliage which you desire.

Miniature Dahlias

ALL THE GLORIOUS COLOR AND FORM OF THE BIG FELLOWS IN A SIZE
•READY-MADE FOR CUTTING

Dwarf bushy plants that require no staking, disbudding or fussing, which give you week after week, a constant supply of little Dahlias which, in everything except size, reproduce all the beauty of the giant prize-winning blooms of the big Dahlia shows.

For the home garden, the smaller size of the Miniatures is a distinct advantage. The flowers, which average about three inches in diameter, are ideal for cutting and for arrangements, for which purpose they have become extremely popular. The stacky plants (2 to 4 feet tall, according to variety and con-

ditions) are not too big for the mixed flower border; or for planting, 18-20 inches apart each way, for a colorful mass effect. They are ideal for planting after early spring bulbs or wherever a summer "bare spot" is to be filled.

But the greatest advantage of these Miniatures is their easy culture and their "cut-and-come-again" quality. The more you cut 'em the better they like it! If you haven't yet tried any Miniatures, include a few in your next order, and take our word for it that you will be more than delighted with them, even if you don't care for ordinary Dahlias.

Inspired by the beauty inherent in all bulbs, Flowerfield offers you a new thought in garden combinations—our **Matched-Mates**, gladiolus and dahlias. Planted at the same time, they will bloom together, Matched-Mates because these gladiolus and dahlias are exactly alike in time and color. The contrast between the stately flower spike of the gladiolus and the majestic glabular head of the dahlia creates an artistic complementary balance unsurpassed in the garden or for arrangements in the home.

Certain of the combinations of gladiolus and dahlias are so beautifully and perfectly matched that we list them as group offers to simplify your purchase. The gladiolus in these cases should not be planted before early June so that they will bloom when the dahlias are at their best in September. For best results we recommend 10 gladiolus to each dahlia.

A pure orange-colored primulinus gladiolus that is noted for its shape. The two upper petals extend so far on either side as to give the appearance of butterfly wings.

The Orchid Three 45c, Doz. \$1.50
Possibly the most beautiful of all the miniature-flowered gladiolus. The Orchid is a white flower lightly traced and suffused with light orchid-pink. The florets are delicately ruffled, adding to the beauty of this extremely delicate looking flower. A really beautiful thing.

Red Tweedle Three 75c, Doz. \$2.50
Blood brother to Tweedledum but of the deepest ruby throughout. A lovely dainty gladiolus.

Tweedledum Three 75c, Doz. \$2.50
A bicolored primulinus gladiolus of extreme beauty. The florets are beautiful warm ruby-red turning to deep yellow at the throat. The two outside lower petals are yellow with an edge of ruby, giving a very remarkable ponsy-like look to this extremely pretty flower.

Tweedledee Three 75c, Doz. \$2.50
The companion to Tweedledum but slightly larger. Very much the same type of ruby-red flower, lightly veined and edged with green gold, which brightens into an intense yellow throat of much beauty. This and its companion are two of the finest of Miniature varieties.

White Butterfly Three 35c, Doz. \$1.00
Similar in form and shape to Orange Butterfly and having, like that variety, the appearance of a delicate butterfly. The color, of course, is white, being a pure pristine white of great value for cut flower arrangements.

White Tweedle Three 75c, Doz. \$2.50
The white of the famous Tweedledum strain, identical in form to its darker brethren. Delightfully delicate.

Mixed Miniatures Doz. \$1.50
An outstanding mixture of these fascinating little beauties. The above and many other named varieties are carefully blended into a superb assortment of the finest caliber.

PRIZE WINNERS flowerfield

Flowerfield has an unusual interest in presenting modern gladiolus. Our founder, John Lewis Childs, was the introducer to this country of the gladiolus in the present state, the gladiolus Childsi. Prior to his work in hybridizing, the gladiolus was a small, half-wild plant of graceful effect but little garden value. Through John Lewis Childs all of the modern advances in gladiolus culture were made possible. And that is why we feel that Flowerfield must carry on and present only the finest and best in gladiolus. Naturally, with such an advantage, we, probably more than any one else in the country, know how to grow healthy, sturdy bulbs; and we do grow them, and herewith offer them to you.

Among the stylish gardeners, gladiolus were for a time relegated to a spot in the cutting garden. For the past few years, however, more and more people have been coming to realize the very unusual success which may be obtained through proper use of the modern gladiolus in your border. Present day American hybridizers have produced many beautiful large-flowered varieties, in a range of color truly comparable to the rainbow. Gladiolus may be considered to have come into its own again.

Gladiolus have an advantage for the American grower in that they are extremely easy to grow, and, where good stock is used, are subject to very few diseases. They are one of those "easy gardening" plants. They prefer a sunny location, and well-drained soil. Planting should be from 4 to 6 inches deep. Our bulbs are absolutely guaranteed free from thrip and other infestations. Listed on the following pages are all of the good new varieties, and all of the finest standard varieties.

THE NEWEST GLADIOLUS

UNUSUAL and DISTINCTIVE for
CONNOISSEURS and EXHIBITORS

ALGONQUIN

Three 50c, Doz. \$1.75

A brilliant light scarlet gladiolus distinguished by very large florets and exceedingly long formal heads, often having 8 or 9 florets open at once, staggered closely up a flower head that reaches 30 inches long, tapping a spike with a height of as much as 5 feet. It is one of the finest new bright reds.

BARCAROLLE

Three 50c, Doz. \$1.75

This is undoubtedly one of the most beautiful orange gladiolus ever hybridized. The florets are finely ruffled, adding to the value of this most excellent flower. The color is a clear grenadine orange, and falls in a color class that has so long been lacking proper representation in the gladiolus family.

BINGO

Three 50c, Doz. \$1.75

One of the largest of glads, attracting attention wherever seen. The huge florets are delicate pink in tane, lightly flecked deep pink and well accented by a rose and cream throat. Although a bicolor, its general effect is that of a huge pink flower. The growth habits are excellent and Bingo will be a worthy addition to your garden.

BLUE PEACOCK

Three 75c, Doz. \$2.50

A fine new glad, the best of the blues for garden use. The buds come out a bright slaty blue changing to a light lavender-blue as they open. The florets are marked with a small white blotch on the lower petals running into a large blotch of reddish purple in the throat. The stems are sturdy, upright, and the garden effect is stunning.

CHAMOUNY

Three 75c, Doz. \$2.50

For those who like the unusual in flowers, no one could recommend a better subject than Chamouny, a light fuchsia-red, edged with a white line around the border of the petals. Bearing a medium-sized floret, Chamouny is very striking yet dainty. It is an outstanding variety for the garden, or for unusual arrangements in the home. Pictured on page 17.

SINCE 1874

gladiolus

GARDENIA

Three 50c, Doz. \$1.75

A new cream-white that is compellingly beautiful. It is probably best described by its picture on page 17. We can only add that its stature and vigor leave nothing to be wished for. An outstandingly fine gladiolus.

GREEN LIGHT

Three 50c, Doz. \$1.75

The especial charm of this variety arises from its peculiar greenish gloss, which overlays the milky white of the large, well-formed, slightly ruffled florets. This is particularly pronounced in the bud stage, when the flower appears really green, a very unusual occurrence in Nature.

GRETA GARBO

Three \$1.35, Doz. \$5.00

A recent introduction, this flower has taken and will continue to take more prizes than any other gladiolus we know. Greta Garbo is sometimes called a pink, sometimes referred to as a cream, for while the buds and the first opened florets are a very light cream-pink, the flower rapidly becomes a rosy white after the florets open to their full size, which often measures six inches across. Greta Garbo averages probably more florets to the spike than any other variety grown, and this flower spike is carried well above the ground on a tall, very strong stalk. Pictured on page 16.

IRAK

Three 45c, Doz. \$1.50

A large spike of silvery rose, hued and mottled with lavender and flame. An outstanding smoky variety that will create much comment, whether in the garden or in floral arrangements.

LEONA

Three 40c, Doz. \$1.25

One of the finest new deep magenta-red gladiolus of recent years. Leona has florets which are definitely alternate in character, proceeding from side to side up the strong sturdy stalk and being set close together, almost crowding one another. The flowers are of very smooth almost velvety appearance and make a beautiful combination with some of the brighter gladiolus shades, either in the garden or cut flower arrangements.

MARGARET BEATON

Three 45c, Doz. \$1.50

One of the best new varieties that has appeared on the market in recent years. The color, as illustrated, is a startling contrast of red and white, and is the most talked of new gladiolus of the past year or two.

MYRNA

Three 50c, Doz. \$1.75

In spite of their huge size, the florets of this most beautiful flower are gracefully placed on a strong stalk that is tall and erect, glistening white with just a faint suggestion of cream deepening in the throat, where it assumes an almost greenish cast. Myrna is one of the best new gladiolus and has won many prizes on the exhibition tables as the finest new white.

TAKINA

Three 40c, Doz. \$1.25

This is the largest gladiolus listed. It has been exhibited with florets measuring $8\frac{3}{4}$ inches across, 9 open at a time and grown to a height of over 6 feet. The color is a beautiful lilac-purple which seems to emphasize the huge size of Takina.

VEE CREAM

Three \$1.35, Doz. \$5.00

A striking cream-yellow that is sharply contrasted by a beautiful red throat. Vee Cream is indeed a beautiful flower, one of the best introductions in its class in several years, outstanding for use in garden or in the home.

Collector's Mixture

An unrivaled assortment of the very finest gladiolus, garnered from the above list and from new named varieties of which we have too few to list. We guarantee the utmost satisfaction with this mixture, whether for garden show, table decoration, or general garden beauty.

GENERAL LIST OF GLADIOLUS

Aflame Doz. 95c

A soft begonia-rose that is unmatched in tone by any other gladiolus. Aflame is useful not only in its unusual shade but for the fine large well-placed flowers that it bears.

American Commander Doz. \$1.25

In the medium red class, American Commander is one of the newest and best introductions and has taken the eye of the commercial growers for its fine color and excellent growing characteristics.

Bill Sowden Doz. \$1.00

One of the huge-flowered varieties which has come from New Zealand, Bill Sowden is a very deep rich red of heavy substance. This variety has been a prize winner at many shows, and deservedly so.

Bleeding Heart Doz. 95c

A small-flowered variety that is most striking because of its soft pink and white florets contrasted by deep crimson throats. A very lovely cut flower, or a graceful addition in a border.

Blue Beauty Doz. \$1.25

The color of this outstanding gladiolus is light blue, with the edges of the petals lined in violet-blue tones. Large sized florets of fine form. This is an excellent exhibition variety, and has taken many prizes.

Blue Danube Doz. \$1.00

A lovely pure amethyst-blue with a dark blotch. The closest to a blue variety yet developed, very little of the mauve shade in it.

Charles Dickens Doz. 95c

A rich solid magenta colored gladiolus, most attractive for garden or cut flower use. Especially striking when used in combination with a bright yellow, such as Miss Bloomington, where the sharply contrasting colors make a beautiful picture. Exceedingly popular as a cut flower.

Dr. F. E. Bennett Doz. 95c

Probably the best of all around bright red, Dr. Bennett is pure scarlet-red, growing strong and sturdy in your garden. Although there are many newer reds none are as bright or as well formed as this variety, which has stood the test of time. Many florets are open and there are more buds to the stem than any other red.

Commander Koehl Doz. 95c

A fine dark scarlet-red without any marking or blotches, a sturdy consistent grower, which has made a great name for itself.

Damaris Doz. \$1.50

A ruffled variety that is one of the loveliest colors for your garden, being a beautiful fuchsia-purple. It is particularly effective when used in an arrangement of cut flowers. One of the best gladiolus we list.

Duna Doz. 95c

A soft buff-pink which fades to cream at the petal's edge. The backs of the petals are a different color, being a darker pink which seems to set off the flower's lightness. Five to six large flowers are open at once on a straight spike of medium height.

Gate of Heaven Doz. 95c

Possibly the best all-around yellow. It has well-spaced florets beautifully ruffled which are the largest of its color class. Its brightness makes it worthy of its name.

Isola Bella Doz. 95c

This is a fine new introduction but a hard one to describe. It is really an orchid-pink with a soft lilac hue. The petals are slightly ruffled, but even at the bud stage show this lovely color, very much like that loveliest of Iris Kaempferi, Light-in-the-Opal.

Loyalty Doz. 95c

A yellow that is so deep it almost becomes an orange. This gladiolus carries very large florets for the yellow class, and is one of the newer varieties. Tall, upright.

GRETA GARBO

Greta Garbo Three 75c, Doz. \$2.50

A recent introduction, this flower has taken and will continue to take more prizes than any other gladiolus we know. Greta Garbo averages probably more florets to the spike than any other variety grown and this flower spike is carried well above the ground on a tall, very strong stalk.

PELEGRINA

Pelegrina Doz. \$1.00

The only pure dark violet-blue variety that has stood the test of time and growing conditions. An early variety, Pelegrina blooms very uniformly, all the spikes coming into bloom within a day of one another. The florets are medium sized, deep blue, almost black in color.

GENERAL LIST OF GLADIOLUS

Mary Elizabeth

Doz. \$1.00

Very attractively ruffled. Mary Elizabeth is the best late white for cut flowers, for bowls, or arrangements. Pure white on the outer edges of the petals, Mary Elizabeth is enlivened by a creamy throat. The flower is dominated, however, by the heavy ruffling of the petals, most attractive in form.

Mammoth White

Doz. \$1.25

Mammoth as its name, this huge snow-white gladiolus is ideal for those who like huge blooms. A sturdy, tall variety that is equally at home in the garden or as a cut flower. This is one of the few whites that has no creamy throat—it is pure snow-white.

Marmora

Doz. \$1.00

A beautiful French-gray with pink over-tones and a throat of dark red-purple. A most striking and lovely variety, in an unusual shade. The blooms are very large and are beautifully placed on long, straight stems.

Miss New Zealand

Doz. \$1.00

The original New Zealand type gladiolus with typical huge florets and heavy stalks, Miss New Zealand is a soft coral-ruby with a deep ruby shield in the throat. The florets are immense, of triangular, informal shape with many open at a time, and sometimes are delightfully mottled with darker rose colored spots. It is one of the best.

New Era

Doz. \$1.50

This new gladiolus is so heavily ruffled that this characteristic stands out even before one notes its superb coloring. The rich cream-coral-pink florets completely fill the tall, straight spikes. It is a really good new variety. Even two or three spikes of New Era will make a splendid showing in a vase.

Polar Ice

Doz. \$1.15

So white that it is almost a blue-white, like the snow on top of a high mountain, or like the polar ice for which it is named. The florets are extra large and very well arranged. One of the earliest varieties to bloom in the garden. Excellent for forcing.

Red Lory

Doz. 95c

That much sought after rose-red color, almost the color of sunlight seen through a glass of burgundy wine. Red Lory is most popular, either for a vivid contrast in your garden or a beautiful effect in a bouquet.

Red Phipps

Doz. 95c

A striking red flower with vivid green foliage, suggesting the red and green of a Christmas wreath. A very brilliant effect for the garden, and equally good for cut flowers. The flower spike is long, with many open florets at one time.

Rima

Doz. \$1.35

A large, but withal dainty, pearly pink, Rima is for those gardeners who like pastel shades, and will undoubtedly become one of the most popular gladiolus that we list. Tall and stately with many florets opening at a time, Rima is an excellent exhibition or garden variety.

Shirley Temple

Doz. 75c

A huge cream and white variety. When grown in the full sunlight, this gladiolus will make stalks that curve fantastically, but if planted in an area where it does not get too much sun, it will become one of the finest exhibition varieties of gladiolus.

Surfside

Doz. \$1.50

The well known new white which has taken many prizes in the New England shows. Surfside has beautifully ruffled white blooms with a slight pencil line in the throat. The large number of florets open at once distinguish this variety.

CHAMOUNY

Chamouny Three 75c, Doz. \$2.50

For those who like the unusual in flowers, no one could recommend a better subject than Chamouny. Bearing a medium sized floret, Chamouny is very striking, yet dainty. It is an outstanding variety for the garden or for unusual arrangements in the home.

GARDENIA

Gardenia Three 50c, Doz. \$1.75

A new cream-white that is compellingly beautiful. Tall, stately spikes, opening seven to eight florets at once. Sturdy, straight stems and healthy foliage make it a most desirable garden subject as well as one of the best for cutting. An outstandingly fine gladiolus.

BEACON

EACH ONE IS THE FINEST MEDIUM-PRICED

AVE MARIA

Daz. \$1.25

The lovely soft blue florets have a deep red-purple throat and a most graceful form. The color and substance are such that this is one of the best of the light blue varieties of gladiolus. It is an ideal cut flower and equally good in the garden.

BAGDAD

Daz. \$1.00

One of the most outstanding gladiolus in the "smoky" class. The perfectly huge flowers flare wide open, almost crowding each other on the stiff tall stem. The color is difficult to describe, but is well shown by the picture below. A strong sturdy grower, Bagdad has one of the strangest stalks of all gladiolus. It is ideal as a cut flower, or in the garden, where it grows sturdily without staking.

BEACON

Daz. \$1.25

A new variety that is a scion of the healthy Picardy strain. Beacon has many of the same growing traits as Picardy, which is perhaps as good a recommendation as can be made of any gladiolus, the spikes being very tall and carrying many large florets open at a time. Beacon is a most sturdy gladiolus with a striking color scheme, as illustrated.

KING LEAR

Daz. \$1.25

A very tall variety, King Lear has the beautiful fuchsia coloring ruffled florets. The gracefully curved stem and lovely flowers of King Lear make it a most decorative variety for the garden.

MAID OF ORLEANS

Daz. \$1.25

This is a fine all-around white, particularly adapted to cut flower purposes. A soft cream shade in the center tends to turn pure white on the outer edges of the petals. The florets are well shaped and particularly well arranged on the long flower head. This variety is long lasting when cut, making it ideal for arrangements.

MINUET

Daz. \$1.15

The standard orchid-pink gladiolus so well known as a cut flower at your local florist. As many as 8 florets are open at once, almost crowding each other on the long stiff, straight spikes. An ideal cut flower, lasting a long time after cutting.

REWI FALLU

"Garden Champions" GLADIOLUS

VARIETY IN ITS COLOR RANGE

MISS BLOOMINGTON

Doz. \$1.15

A fine canary-yellow with many florets open, arranged ideally along a good spike. A most decorative type of gladiolus, particularly attractive when used to set off darker spots in the border or to contrast with the deeper-toned gladiolus. A fine variety for cutting, one to lend brightness and cheer to your arrangement.

PELEGRINA

Doz. \$1.00

The only pure dark violet-blue variety that has stood the test of time and growing conditions. An early variety, Pelegrina blooms very uniformly, all the spikes coming into bloom within a day of one another. The florets are medium sized and the deep blue is sometimes marked with a purplish blotch on the lower florets, making it appear almost black in color. Illustrated on page 16.

PICARDY

Doz. \$1.25

Unless and until some of the newer gladiolus are as popular and as worthy, Picardy is and will be the gladiolus. Almost too well known to describe, Picardy is a lovely pink flower shown below and is to be seen wherever gladiolus are exhibited, be it at the Flower Show or at the Flower Shop. Grown from our huge and healthy bulbs we know that you can have the finest gladiolus in your garden when you grow Picardy. A superb variety whose spike is always straight, erect, and carries many florets open at a time.

REWI FALLU

Doz. \$1.25

Huge and red, this gladiolus is another of the New Zealand varieties so well known for their tremendous size and extraordinary vigor. Named for its Maori hybridizer, Rewi Fallu is one of the finest dark reds known, an ideal variety for garden or cut flower use. Even the very topmost bud opens into a flower of very large size. There is nothing finer in the darker red class.

ROCKET

Doz. \$1.15

A most vivid scarlet of fine proportions. The large florets are perfectly placed on its excellent spike. It is probably the best scarlet of all, certainly the best in its price class. Not the least of its many advantages is that from 7 to 8 florets open at once, giving a wonderful splash of color in the garden.

VAGABOND PRINCE

Doz. \$1.25

One of the most striking gladiolus for cut flower arrangements that has yet been hybridized. Vagabond Prince is a deep mahogany-colored flower, livened by a garnet shield in the throat, and across the lower petals. The substance is similar to that of Picardy, having the stiffness of that most worthwhile variety. The spikes are strong, sturdy, and straight, carrying many florets open at a time. Vagabond Prince is an ideal color for indoor cut flowers for it blends into surroundings where no other color will serve.

HARDY LILIES

Lilies in the garden strike a note of majestic and graceful dignity. Originally collected from the mountains and prairies of our own country and from far-off corners of the world, they vary greatly in flower, time of bloom and cultural requirements. Flowerfield offers an exceptional group of the finest lily varieties, outstanding in the unusual colorings and exotic charm they bring to the garden. Their steady progression of bloom from June to late September is a delight to all.

REGALE
LILY

Regale Lilies

Well known as the Regal or Royal lily, there is no lily that bears a more beautiful or more penetrating perfume. A single stalk of this lovely flower will pervade the entire room if allowed to stay there but a few hours. The tall stalks, 4 to 5 feet high, are topped by beautiful trumpet-like flowers that are pure white inside and tinged with rose outside, increasing the splendor of their garden effect. Of all the lilies, the regale is perhaps the most satisfactory for garden use here in America. It grows sturdily, prolifically, and beautifully. The regale lily is very floriferous, a single established bulb bearing as many as 20 flowers during the season. Like all the other stem-rooting lilies, regale should be planted deep, allowing at least $3\frac{1}{2}$ times the diameter to cover the bulb. Also in common with other lilies, it demands drainage, yet must have moisture, too. A handful of sharp sand or gravel underneath the bulb will satisfy this small requirement. And the results will indeed reward you for the trouble taken.

Each 35c, Doz. \$3.50

MADONNA LILIES

Madonna Lilies (Candidum)

This is the universally known and loved Madonna lily, one of the most beautiful of all white lilies that grace the garden. As shown in the picture, the Madonna lily has a heavy cluster of pure, pristine white, trumpet-like blooms, borne $3\frac{1}{2}$ to 4 feet high on sturdy, attractively foliaged stalks. Candidums bloom in late June and early July and have traditionally been combined with the darker blue forms of delphinium—an effect that has never failed to exact gasps of admiration. Here at Flowerfield we have combined them with Blue Giant iris Kaempferi, a deep blue iris of extreme beauty. The effect is truly lovely.

Lilium candidum has been traditionally planted in August and September, for unlike other lilies, it starts its leaf growth early in

the fall, producing a rosette of leaves that protect the plant through the winter. Flowerfield, however, is happy to be able to offer Madonna lilies for spring planting to those who failed to plant them last August. Our secret is simple—we handle them as if they were perennial plants instead of lilies, and each one is dug to your order from our nursery row, the roots are carefully packed in moss and the entire growing plant is immediately shipped to you, ready to be planted in your garden and bloom this year. Plant them in a sunny, well-drained spot in ordinary garden soil. They require shallow planting only, with the top of the bulb only an inch or two beneath the surface.

Speciosum Lilies

Of all the choice garden lilies the speciosum are the best known and best liked of the recurved type. Tall, sturdy plants carry their well-branched sprays of magnificent, delicately scented flowers. Even the foliage is decorative, for the stems are most gracefully curved and the leaves are long and handsome. The reflexing flower petals are of thick heavy substance and stand up beautifully as a cut flower and likewise last a long time in the garden. Speciosum lilies are easily grown and are one of the most satisfactory lilies from a decorative point of view that can be put in any garden. It thrives in full sun, flowers in August and September and demands little in the way of attention other than an occasional watering during dry spells.

Stem-rooting, the speciosum lilies must be planted deep in the soil, 9 inches or more. Good drainage should be provided, and also ground shading plants near the bulbs, for this lily dearly loves to have its roots shaded. The speciosum types love good rich earth, and have but two dislikes—lime and fresh manure, neither of which should be used with these beauties.

ALBUM

MAGNIFICUM

SPECIOSUM MAGNIFICUM LILIES

Henryi Lilies

One of the very best of the border lilies, reaching a height of 6 feet when well established and bearing more than 20 beautiful flowers. Even the foliage and flower stalks are attractive; being very similar to the extremely graceful speciosum type lily. For the gardener with greenhouse facilities, the Henryi lily offers a most noteworthy subject, for greenhouse-grown bulbs have produced flowers measuring more than 8 inches in diameter. Outdoors, plant these bulbs in any drained loamy soil $3\frac{1}{2}$ times as deep as their diameter, for they are stem rooting. A partially shaded location somewhat sheltered from high winds will suit this lily best—yet it will grow even under adverse conditions.

Each 75c, Doz. \$7.50

Superbum Lilies

The Superbum lily, a native of the eastern coast of the United States is, as its name would imply, one of the very finest of all the lilies. In late July the tall plants bear from 20 to 30 beautiful recurved flowers of varying hues, some being pale yellow spotted maroon, some being orange or even deep crimson, spotted black. It succeeds even in swampy land where other lilies will not grow, and thrives in acid spots or in shady areas. Established plantings form clumps of several stalks which may reach 8 feet in height, proudly bearing the brilliant clusters of gracefully recurved flowers for which it is so justly famous. The Superbum lily is a base-rooting variety and needs be planted only 4 inches deep for best results.

Three \$1.50
Dozen \$5.00

Delphiniums

Widely known and universally admired for their stately, handsome habit and unmatchable beauty. Grown in the border for tall spikes to lend beauty to the garden as a whole, and also for cutting. If the first flowers are cut in June, secondary growth is secured with another crop of flowers in September.

In cooler parts of the country they do splendidly, growing especially well in coastal regions where cool summers prevail. Rich soil should be provided, with a generous quantity of manure. Full sunlight is essential.

Pacific Coast Hybrids

In size of flower, range of color, formation of blooms, and cut flower value, these are the finest strain of delphiniums in existence. Individual florets measure 2 inches or more across, with practically all of them fully double, and finely formed. A variety of "eyes," some pure white, others in dark tones, add to their undoubted appeal. Colors vary from pale self-blues, through light tones, two-toned, pink shades, lavenders, to really deep blue.

DORONICUM—A LOVELY YELLOW DAISY

DICENTRA SPECTABILIS

DICENTRA - Bleeding Heart

One of the most useful plants for the spring garden, dicentra is noted for its beauty when grown in a shady spot, yet is outstanding for combining with such sun-lovers as peonies, or the early varieties of hemerocallis. For sheer grace, few plants can equal either of these beauties. Flowerfield has long specialized in growing and selling bleeding heart, for we know of few more satisfactory garden plants. One of the best features of the dicentras is their attractive, finely-cut foliage, decorative in the garden even when the plants are not in bloom.

Both spectabilis and eximia types do best in the partially shaded border, even in the woodland garden. Yet they thrive in the full sun, also.

Eximia (Plumy Bleeding Heart)

Three \$1.50, Doz. \$5.00

Compact, foot and one-half bushes with beautiful finely-cut dark green foliage, simply covered with showy racemes of pretty pink flowers throughout the season. The plants are large, 2 to 3 feet tall and often spreading 4 or 5 feet. They bloom with the peonies, combining with them beautifully. The long, showy racemes of heart-shaped flowers and the ever-attached foliage make this one of the most decorative, most useful plants of all springtime.

A beautiful edging plant admired for its colorful foliage as much as for its fine lily-like blue flowers. The leaves are pure white, heavily marked with bright green. Fine for edging.

HEMEROCALLIS - Magnificent Hybrid Daylilies

The modern daylily offers a delightful addition to the garden. The older forms are well-known and wide-spread, both in gardens, and in the wild, where some types have escaped and formed great beds. All of them have beautiful large, lily-like, trumpet flowers. The new hybrids have been developed to the extent that they produce more flowers to the stem than any other common plant, in colors ranging from the palest yellow to pinkish apricot through to deep orange-red.

Because the daylily thrives in full sun or part shade, they are suited to either border use or when planted as a low hedge close to the house, along the driveway, or spotted in with the low growing foundation planting. Once planted, they require practically no further care, growing in any kind of soil in any section of the country.

They are completely hardy, and are suited either to full sun or partial shade. Hemerocallis combine beautifully with such varied subjects as iris, peonies and many other plants by simply selecting varieties of appropriate blooming season.

4 Peonies (One of each) \$1.95

Tree Peonies

Few plants equal the magnificent display of a well-established tree peony. The flowers are unusually beautiful and rare, possessing all the colors found in regular herbaceous peonies, as well as pure yellow, yellow and orange, lavender, violet and purple. The plant does not die down like the herbaceous peonies, but forms a shrub so that in time a single plant will attain a height of four to five feet, and carry as many as 200 flowers. These are always at least as large as other peonies, sometimes measuring up to 10 inches across. They thrive in any well-drained soil, in partial shade as well as full sun. They like well-decayed manure and bonemeal, as well as some protection from heavy winds. It is also wise to protect the flower buds against late spring frosts.

We furnish heavy field-grown plants, shipped in a ball of peat and earth. They are three years old, or older, and are much superior to young pot plants.

HARDY PHLOX

Few other plants will grow so readily, require so little care, flower in so many different colors, for so long a time, and be so generally useful. Phlox bloom in late June and continue until fall, with great trusses of red, pink, white, bicolor and bluish lavender. Give them good garden soil, cut back the faded flowers, and lift and divide them every 3 or 4 years. The results will surprise and delight you.

Rich purplish plum or wine color. A distinct tone not duplicated in newer phlox. Robust grower, often reaching 3½ feet.

Lorraine

Three \$1.50, Doz. \$5.00
One of the finest salmon-pinks that has appeared in the phlox family. The florets are huge and completely mat the large flower head. There are many side branches, prolonging the period of bloom. A fine plant.

Progress

Three \$1.45, Doz. \$4.75
A fine light blue with very little mouve in it. The color is light and combines better with the pink shades than with the brighter colors. The flower head is globular in shape; excellent in habit.

Orange Beauty

Three \$1.45, Doz. \$4.75
A vivid salmon-orange, probably the best of the orange shades. The head is very globular in shape, heavy with tightly packed large florets.

Salmon Glow

ORIENTAL POPPIES

IN SPLENDID NEW COLORS

For an eye-filling display of rich, brilliant colors and graceful form, nothing quite equals Oriental Poppies during their period of flowering. They bloom in May and June, just after the peonies have given their burst of color, and remain to bloom with the magnificent hybrid delphiniums. Their startling color effect and the satiny soft quality of the petals are fascinating almost beyond description.

Best set out in clumps of three or more, spaced a foot apart. They are adapted to most garden soils, but care should be taken to avoid low, wet spots. Planting in late summer is recommended, and orders are held for shipment at that time.

Beauty of Livermore Three \$1.50, Doz. \$5.00
Well-formed flowers of good size of fine dark crimson with black blotches. Quite abundant in bloom.

Cavalier Three \$2.00, Doz. \$6.50
One of the largest poppies, huge blooms of deep crimson-scarlet, heavily marked with deeper tones appearing to be almost black. Flowers distinctly crinkled.

Henry Cayeux Improved Three \$1.35, Doz. \$4.50
A close approach to lavender, though more exactly described as a peculiar tint of ashes of roses. A "different" color in poppies that is seen to best advantage when grown in light shade.

Jeanne Mawson Three \$1.35, Doz. \$4.50
Sparkling geranium-pink. Flowers of moderate to large size are fairly open and have a very graceful appearance.

May Sadler Three \$1.35, Doz. \$4.50
Quite large flowers of salmon-pink, heavily marked at the base, with large black markings. These are inconspicuous on the exterior of the flower, but stand out to advantage in the interior of the blooms.

Perry's White Three \$1.50, Doz. \$5.00
Satiny white with a crimson-maroon blotch at the base of each petal. Should be planted in a favored spot and given extra care. Sturdiest of the whites though they do not grow as vigorously as plants of other colors.

Sass Pink Three \$1.50, Doz. \$5.00
No doubt one of the finest and largest of pink poppies. Huge blooms of light delicate pink, with petals of crinkled texture. With larger stocks available, we are now able to offer this variety at a moderate price.

NEW BICOLOR POPPY. SNOWFLAKE

A sensational break in poppies. The lower half of the flower is pure white; the upper half a flame-orange, creating a most unusual and brilliant effect. The orange band of the upper half of the petals varies considerably in each flower, helping to increase the charm of this distinctive variety.

Three \$1.75, Doz. \$5.50

HARDY PRIMROSES - - Sturdy Beauties for Your Spring Garden

Probably the most colorful of our early spring flowering plants, succeeding best in dampness and shade. While the name primrose seems to suggest a delicate nature, the reverse is quite the case. They are perfectly hardy in the coldest climates, and live year after year, forming large clumps that divide easily. Ideal for naturalizing in shady woodland areas. Flower in May, about 8 inches tall and combine beautifully with the spring flowering bulbs such as tulips and narcissus of the poeticus type. They are particularly attractive with *mertensia virginica* (shown on page 40).

Auricula alpina, Hybrids Three \$1.45, Doz. \$4.50
Distinct because of its smooth foliage, with many two-toned flowers. Colors tend to pinks and deep shades not found in the more common cowslip. Ideal for rock gardens, as it will succeed where it is dry.

Cashmeriana Three \$1.50, Doz. \$5.00
Large heads of pleasing purple. Flowers are not flat like other primulas, but are made up of small florets in tight globular heads.

Japonica Three \$1.50, Doz. \$5.00
Abounds in rich colors from crimson to rose to almost white. Excellent for contrasting with true yellow primroses. Needs moisture.

Veris Hybrids Three \$1.45, Doz. \$4.50
Resembles the old-fashioned cowslip, but in addition to yellow, contains a wide range of buff, orange, salmon and other rich tones.

Vulgaris Three \$1.35, Doz. \$4.25
True old English primrose with large, pale yellow flowers. The one most people know, and of widespread popularity.

FLOWERFIELD'S GIANTS

A magnificent strain of these lovely flowers in a splendid and comprehensive range of colors—pinks, yellows, lavenders and scarlets. Florets are wide open and large, with petals of velvety texture. Prettily crinkled foliage of a rich appealing green.

VIOLA CORNUTA - Tufted Pansies

Hardy pansy-like plants that are true perennials and extremely easy to grow. They flower just after the pansies and continue during the entire season. Indeed some varieties are so extremely prolific that they are never without bloom. Be sure to provide them with good rich soil. While they like good drainage, avoid spots that became dry during the heat of the summer.

Apricot Three \$1.25, Doz. \$4.00
A really rich orange-apricot shade, deepening to terra cotta at the center. The best in its color, particularly attractive when grouped next to some of its companions listed below.

Arkwright Ruby Three \$1.35, Doz. \$4.50
Very large, ruby-colored flowers that bloom throughout the summer. A most beautiful and unusual color, seldom found in violas or other plants. Try it next to Floraire—the contrast is lovely.

Catherine Sharp Three \$1.50, Doz. \$5.00
A splendid hardy blue viola. The flowers are large and grow on long stiff stems well above the foliage. The yellow eye sets off the fine blue of this lovely flower, giving added life and sparkle. It does well even in light shade and has all the habits desirable in a good garden plant.

Floraire Three \$1.50, Doz. \$5.00
A little gem, a Swiss variety that begins to bloom in May and continues until hard frost. The upper and major portion of the flower is very light blue, the lower section fading to white. The centers are marked with thin dark blue lines, giving a definite character to the whole plant. Outstanding for picking, even among such ideal picking plants as violas.

Golden Yellow Three \$1.25, Doz. \$4.00
A very free flowering variety, produces rich golden yellow flowers all summer. Best in its color class.

Jersey Gem Three \$1.35, Doz. \$4.50
The best known of the violas, having pure, rich violet, slightly perfumed flowers. Vigorous, bushy plants with roundish foliage. The flowers follow continuously.

Maggie Mott Three \$1.50, Doz. \$5.00
This is the variety used by the hundreds of thousands in Europe for bedding or massing along borders. The flowers are a lovely pure pale blue and are beautifully proportioned. It is no wonder it is so popular. Maggie Mott is a good strong grower, extremely fragrant, free blooming, and does not require undue care or attention. It is in bloom all spring, summer and fall.

Perfection Three \$1.25, Doz. \$4.00
Light blue flowers in abundance all summer; an excellent foil for the yellow or white violas.

White Perfection Three \$1.25, Doz. \$4.00
Pure white blooms are borne in great profusion all through the summer. The best white and a necessary foil to the darker shades.

White Queen Three \$1.50, Doz. \$5.00
The finest white viola, bearing large flowers high above the dense foliage. This variety is a necessary contrast to the deeper colors in violas; it combines exceptionally well with Catherine Sharp.

Mixed Three \$1.25, Doz. \$4.00
A splendid assortment containing, in addition to the above colors, many others of varied shades and markings.

VIOLA ODORATA - Sweet Violet

Clumps of dark green, heart-shaped leaves, surmounted with sweetly scented violets. They grow in almost any soil, and in either sun or shade. Invaluable plants for shady place plantings and for the naturalized woodland.

Prince of Wales Three \$1.35, Doz. \$4.50
A rich, deep purple, sweetly scented with large blooms. This best of the purple varieties flowers in May and usually again in the cool weeks of the fall. Height 6 inches.

Deliciously fragrant flowers of pink or old rose. Not as large as the blue types, but usually flowers again for a long time in late autumn.

Royal Robe Three \$1.50, Doz. \$5.00
This is a glorious variety, a lustrous shade of deepest violet-blue, whose picture speaks for itself. The blossoms are moderately fragrant and open out flat like a pansy. A trial in your own garden will bear out all your fondest hopes. A few plants will furnish quantities of bloom on stems often 12 inches in length.

ROYAL ROBE

STOKESIA, BLUE MOON

VERONICA LONGIFOLIA SUBSESSILIS

SCABIOSA - Pincushion Flower

Grows to a height of about 2 feet, bearing flowers in blue and white, made to order for cutting. Culture is simple, but heavy, wet soils should be avoided as scabiosas just will not live in such locations. Give them a light soil and full sun. Set 8 inches apart.

Caucasica Three \$1.50, Doz. \$5.00
(Blue Bonnet.) Flower from June to September, sending up straight, stiff stems, surmounted with flat, cushion-like flowers. Medium lavender-blue, lighter as the flowers age. Unsurpassed for cutting.

Caucasica alba Three \$1.50, Doz. \$5.00
Pure white form of the Blue Bonnet. Equally useful for cutting.

SALVIA - Sage

Showy border plants suitable for sunny locations, valued because of their attractive spikes of blue flowers in late summer and early fall. Comparatively easy to grow, requiring little more care than a good ordinary soil. Space 1 foot apart.

Pitcheri Three \$1.50, Doz. \$5.00
Admired for long sprays of intensely deep blue flowers. Few perennial plants at any time of the year can compare with this distinct color. Excellent for the back of borders, and useful for cutting. Blooms in September.

STOKESIA - Cornflower Aster

Aster type flowers in midsummer and early fall. Likes a warm, sunny location, with a loose, light soil. Set smaller varieties 6 inches apart, and larger types a foot apart.

Laevis coerulea Three \$1.25, Doz. \$4.00
Profuse flowers about 2 inches in diameter in August. Widely used for cutting, and for the fore part of the border. In blue or white—please specify color desired.

Blue Moon Three \$1.50, Doz. \$5.00
Really huge flowers of pure light china-blue, borne on thick, sturdy stems 18 inches long. Blooms constantly from midsummer until late fall. While the stems are straight, they do not grow upright, thus giving greater spread to the plant and making it more useful for borders. A most worthwhile addition to any perennial garden.

VERONICA - Speedwell

Well known and widely planted perennials that vary in height from a few inches to several feet. Dwarf varieties are suited for rock gardens where they form clumps and carpets. Taller sorts are suited for the border. Spikes of these are useful for cutting. Give full sunlight.

Blue Spire Three \$1.50, Doz. \$5.00
A great improvement over the older spicata, and best all-around variety for the garden and cutting. Grows about 2 feet in height with long, true veronica-blue spires. Begins to flower in July and continues for a long time.

Incana Three \$1.35, Doz. \$4.50
Dusty, silver-foliaged plants growing 1 foot high, with good sized spikes of blue flowers. Nice in a rockery where the foliage works in well with rocks.

Incana rosea Three \$1.35, Doz. \$4.50
Very nice to use in connection with the blue incana, where the contrast of rosy pink flowers makes quite an effect.

Longifolia subsessilis Three \$1.35, Doz. \$4.50
Exceptionally strong growing plants with large spikes of handsome dark blue. Spikes are equal in length to the largest other veranicas, and twice their size in diameter. Flowers from July to September. 2 feet.

PINK
DIAMOND

APRICOT QUEEN

MME. CHIANG KAI-SHEK

ANZAC

Anzac

Each \$1.50, Doz. \$15.00

Buds heavy with furled petals open slowly, exposing the center group of still tightly clustered petals, the whole resembling a huge camellia in shape. The color is coral, washed gold; as the flower ages, those tones lighten and brighten toward clear yellow. A fine new rose.

Apricot Queen

Each \$1.50, Doz. \$15.00

A lovely combination of colors—orange and apricot at the base of the petals, softening to light rose and even phlox-pink as the bloom develops fully. The bud is long and pointed, opening slowly. Apricot Queen is a strong grower with handsome glossy foliage.

California

Each \$1.50, Doz. \$15.00

(Patented.) An All-America Rose Selection. The color is a glorious shade of yellow, made up of ruddy orange-toned saffron-yellow, with the exterior of the broad petals overlaid with saturn-rose—a dual tone effect of indescribable richness and beauty. Buds long and pointed, flowers of enormous size, reaching a diameter of five to six inches. Growth vigorous, with healthy, glossy green foliage. An outstandingly fine introduction from the state whose name it bears.

Charlotte Armstrong

Each \$1.50, Doz. \$15.00

(Patented.) An All-America Rose Selection. A new rose that is really red, but of a different tone to fit the varying seasons, and stages of development. Blood-red in the bud, opening to cerise in hot weather, and to spectrum-red in cooler weather. The flowers are long and pointed, measuring 3 to 4 inches in diameter, never showing the center. Continuously in bloom, doing excellently in all parts of the country. The flowers never show their centers and are very lasting.

Grand Duchesse Charlotte

Each \$1.50, Doz. \$15.00

(Patented.) The All-America Rose Selection for 1942. This rose aristocrat provides a color unknown in any other rose. The beautiful, long, stream-lined buds are glowing morocco-red and open to firm-petaled blooms of dusky coral-red which do not fade, and gradually merge to a soft coral-pink. When unfolding, the petals recurve and make a delightfully informal, artistic flower with a hint of carnation fragrance.

Heart's Desire

Each \$1.50, Doz. \$15.00

(Patented.) In this new Gold Medal variety you will find one of the most perfect red roses ever hybridized. If you have been looking for a fine bright crimson rose, this will be **your** Heart's Desire. This lovely rose was the All-America Rose Selection for 1941. It is one of the best roses offered today.

Pink Diamond

Each \$1.50, Doz. \$15.00

(Patented.) The finest new pink hybrid tea rose in recent years. The large bright pink buds produced by this variety open a soft apple-blossom-pink, the center petals being darker, and the outer almost blush, giving intensity of color that is most attractive. The well formed, very double blooms frequently measure 5 to 6 inches in diameter, and appear in the greatest profusion. The plants are sturdy, upright growing, decidedly resistant to disease. So good that Pink Diamond isn't merely "worth-while"—it is a "must" in your garden of roses.

Santa Anita

Each \$1.00, Doz. \$10.00

Of delightful color, a soft satiny pink, and of fine form, with long, pointed buds, Santa Anita is truly a lovely rose when seen in the garden or cut for home use. Although not as large or impressive as Pink Diamond, Santa Anita, by its delicacy of coloring and scent, impresses you as one of the very finest of pink roses.

TREE ROSE,
POINSETTIA

Standard or Tree Roses

When properly grown no specimen garden plant is as beautiful or has as much appeal as the tree rose. It may be planted in the center of rose beds for special effects, or along driveways, in the formal garden, or even set as specimens in lawns. In any location they are most striking, blooming all summer long, from June until frost. Our plants are especially sturdy with heavy straight stems about 3½ feet in height.

The canes (trees) of our standard roses are budded on multiflora japonica stock producing tree roses which carry much better root system than any other tree roses we have ever seen.

Mme. Jules Bouche Each \$4.50
A fine pure white of extreme beauty, undoubtedly the best white tree rose, noted for its numerous and perfectly formed long pointed buds and high centered flowers, pure white with but a slight pink tint in the center when flowers first open. A healthy sturdy plant.

Mme. Jos. Perraud Each \$3.95
For the favored garden where a yellow tree rose is desired, nothing can excel this fine variety. High aloft, this beautiful yellow rose blooms all the time, never being without some bloom from June until hard frost. Plants are bushy and well formed with attractive glossy foliage. The buds are beautifully formed and carry a hint of rich red gold, emphasizing the beauty of the pure yellow petals.

Pink Dawn Each \$3.95
The combination of the tree rose form with one of the best of modern pink roses is one of the finest for your garden. The flowers are fine deep rose-pink, opening to a lighter pink. The blooms are quite fragrant, fully double and are held upright on long tall stems.

Poinsettia Each \$4.50
Truly a spot of fire in your garden, for the contrast between its bright green foliage and the brilliant poinsettia-scarlet flowers is exactly like that of the Christmas plant for which it is so aptly named. Other roses are as red but none have the intense brilliance of color of Poinsettia. The buds are long and pointed, and open slowly.

Radiance Each \$3.95
This is one of the most satisfactory and heavy-blooming tree roses that has ever been grafted, unusually robust in growth, comparing favorably with hybrid perpetuals in its rugged constitution and sturdy structure. The flowers are two-toned pink, light silvery rose inside and deeper outside, large, globular in shape, fragrant and beautiful.

Talisman Each \$3.95
Tree roses are used for accent points in the garden and none make so startling and beautiful an effect as the Talisman tree rose. The beautiful bushy plants carried three feet or more in the air on a strong sturdy tree, are covered with beautiful Talisman roses, so well known to all gardeners. The beauty of the Talisman rose is in the delicate nuances of its color combinations and its finely shaped buds—and it has the advantage of holding its bud shape a long time.

Flowerfield's Bulb Food

Bulbs and plants are alike in demanding three conditions: water, food and cultivation. Water is the most important factor in plant life; but don't water lightly and frequently, give your garden a thorough soaking at longer intervals. Then conserve the subsoil moisture by cultivation around the plants. This cultivation should also keep down weeds which spoil the effect and rob the plant of some of its available water and food.

Feed your plants. Unless your garden is unusually rich, you will get far more satisfactory results by supplying extra nutrient. Flowerfield offers for this purpose, a special bulb and plant food which we manufacture ourselves. Mixed with your garden or potting soil, it will produce the finest results possible. We recommend the peck size of \$1.00; also supply it by the quart at 25c. Postpaid.

flowerfield CLIMBING ROSES

NEW DAWN

New Horvath Climbers

Buff King

Each \$2.00, Doz. \$20.00

(Patented.) One of the loveliest, most delicate colored roses in the climber class, a fine cameo-like amber with pink shadings. The growth is sturdy and strong, bearing huge trusses of the lovely double blooms twice during the season. Extra hardy and sturdy, growing to 10 or 12 feet tall.

Doubleblooms

Each \$1.50, Doz. \$15.00

(Patented.) A vigorous, pure yellow climber with heavy wood and handsome, glassy foliage. When in bloom the whole plant is literally covered with great clusters of large golden blooms. Two crops of the double flowers are borne, six weeks apart, if the first spring blooms are not cut. We consider this far and away the best yellow climber.

Meda

Each \$2.00, Doz. \$20.00

(Patented.) The outer petals are a beautiful pale buff-shrimp-pink, increasing in intensity to a deeper and richer shading toward the center, until a lovely tone of deep carmine-pink is reached. A fine climber that will withstand adverse conditions well.

Polaris

Each \$2.00, Doz. \$20.00

(Patented.) A hardy climber of robust growth, disease resistant and exceedingly free blooming. The pure white flowers are individually 2 inches across and come in huge trusses. For profusion of bloom and pervading fragrance, no other rose can match this finest of the white climbers.

Thor

Each \$2.50, Doz. \$25.00

A brilliant red climber with blooms the color of Crimson Glory. The flowers are very slow in unfolding, and when fully open measure 4 to 5 inches across. Although large, they are perfectly formed and just as large as those of a hybrid tea. Flowers are produced abundantly on unbending spur branches 12 to 18 inches long, holding the flowers in perfect position. Flowers have about 60 petals, and do not fade when fully open. Rich green abundant foliage that grows to a height of 8 to 10 feet. Very hardy. Indeed one of the best scarlet climbers to be introduced.

PAUL'S SCARLET

Blue Giant

An Iris Kaempferi without peer in its color class, Blue Giant is one of the finest and largest of all, the single petals measuring more than 9 inches across. A well established plant will produce dozens of the lovely flowers illustrated above, holding them well above the decorative foliage, usually about 3 feet tall, although where moisture is abundant 5 feet is not at all unusual. Flower-field specializes in Iris Kaempferi, and Blue Giant is one of our best.

Each 50c, Doz. \$5.00
