NATURAL BALSAM *CHRISTMAS WREATHS*

These wreaths are all made of fragrant Balsam, the evergreen with the delightful and lasting fragrance. This material we gather painstakingly **after the natural shedding of needles has taken place**. Trimmed with various evergreen cones and with bright berries, our wreaths are strongly made and will last for much more than the usual period of time. Many of our patrons keep them for the entire year in order to fully enjoy their lasting fragrance.

GARLAND WREATH

The 20-inch Garland Wreath is one of the handsomest we make. Several large cones and sprays are arranged in a design at the bottom, other cones and red berries enliven the whole wreath and a big, red ribbon bow is placed at the top.

Pioneering with Wildflowers: A best seller in the field of gardening literature. Its beautiful illustrations from photographs are alone worth the small price of the book. Per copy, postpaid, \$2.75

Pioneering with Fruits and Berries: A book similar in purpose to **Pioneering with Wildflowers**, it answers a definite demand for practical information on the selection and planting of all kinds of fruits from apples through raspberries to strawberries.
