PROFIT and PRIZES

Watch for the "GREENBACK" merchandise — earn your share of the over \$10 Million Dollar garden supply market in the Inter-mountain area.

Sell . . . Sell . . . Sell

In this catalog the "best seller" merchandise is signaled with a "Greenback." Stock these items in mass display for extra profit and prizes.

ABOUT FARM SEEDS

Our Mountain-Gro farm seed price lists for 1958 will be mailed periodically to all dealers, who normally sell farm seeds. Because prices of most varieties change frequently during January, it is not practical to print a permanent list in this catalog. Our up-to-date price lists will enable you to keep selling prices at profitable levels. We hope that you will take advantage of this customer service and market price bulletin by asking to have your name placed on our special farm seed dealers mailing list.

Important Notice

TERMS AND CONDITIONS OF SALE

- I. **DEFINITION OF A DEALER:** A garden supply dealer is a person or group of persons engaged in the business of buying, stocking, displaying and selling to consumers various seeds, garden supplies and/or nursery stock.
- II. **LOCATION OF WHOLESALE DIVISION:** 522 South 3rd West, Salt Lake City is the **ONLY** location for pick-up of merchandise (all types) by dealers.
- III. **TERMS OF SALE:**
 - a. **ALL ACCOUNTS ARE DUE 10th OF MONTH FOLLOWING DATE OF SHIPMENT**, unless otherwise authorized or specified on invoice.
 - b. **CASH DISCOUNT:** 2% if paid before 10th of following month. Net thereafter (excepting items sold for net cash, or so quoted. See below).
 - c. **NET CASH MERCHANDISE:** Farm seeds, steer manure, and peat moss will be invoiced on Net Cash terms requiring Payment on receipt of invoice or subject to sight draft.
 - d. **CONDITIONS AT DATE OF SHIPMENT**, including all terms, prices and routing shall apply to any order, whether or not shipping date was specified.

BAG COSTS: No charge for light cotton bags. Seamless bags when packed net weight will be billed at cost. Bags are not returnable for credit.
- V. **F.O.B. POINT:** All **PRICES ARE F.O.B. SALT LAKE LAKE CITY AND SUBJECT TO CHANGE WITHOUT NOTICE:** All orders are subject to stock being unsold and to our confirmation.
- VI. **ROUTING:** When ordering, please use on every order one of the following words as routing instructions: "Freight," "Express," "Truck" (name of truck line) or "Mail."
- VII. **DELIVERIES TO BUS DEPOTS:** A charge of 75c for shipment will be made for special delivery of orders to all Bus depots.
- VIII. **WARRANTY:** Porter-Walton Company warrants to the extent of the purchase price that seeds, bulbs, scions or plants sold by us are as labeled or as described on the container within recognized tolerances. Seller gives no other or further warranty, expressed or implied.
- IX. **RETURNED MERCHANDISE:** Returned merchandise will not be accepted for credit except upon written authority from the management. All such must be in original clean cartons and received within 30 days from date of invoice—otherwise it will be refused. In the event it is found to be in first-class saleable condition, credit will be promptly issued **less 10% for handling**, and less any transportation charges—except where error was made by us. In such case full credit will be issued.

Mountain Gro Pasture Mixtures

TRI-KOT Treated for Better Stands and Faster Growth

PORTER-WALTON'S "Mountain-Gro" pasture mixtures maintain high production of palatable nutritious forage throughout the spring, summer and fall months.

With maintained fertility and controlled grazing management, "Mountain-Gro" pastures can become the farms' most profitable crops.

Irrigated Pasture Mix

For irrigated or naturally damp fertile soils. This scientifically production-proven blend of grasses and legumes employs improved strains of the most palatable varieties. Its balanced nutrient diet brings great increases in dairy and meat production.

For Well Drained Irrigated Land
or Damp Fertile SoilsPer 100 lbs. \$39.00
3 bag lots @ \$38.50 — 5 bags @ \$38.00

Lowland Pasture Mix

For alkaline and wet soils. Thousands of acres of marginal lands have been reclaimed and brought into high productivity by plantings of Mountain-Gro Lowland Pasture Mix. Maximum nutrition is provided by correctly balanced proportions of grasses and legumes.

For Alkaline and Wet Soils.....Per 100 lbs. \$36.00
3 bag lots @ \$35.50 — 5 bags @ \$35.00

PORTER

WALTON

P. O. BOX 1619, SALT LAKE CITY 10, UTAH

More Milk and Meat Profits For You

Porter-Walton's top-yielding hybrid corn varieties can give you more milk and meat profits. Corn silage provides inexpensive and succulent winter forage for dairy cows, beef cattle, and sheep. It is standard practice now to grow corn for grain in most regular silage-growing areas, with resulting bonus profits.

Wide Choice of Top-Producing Hybrid Varieties For Various Growing Seasons

Porter-Walton offers a number of hybrid corn varieties, each one selected as a top-yielding variety for its growing season and for the soil and climate conditions of the Intermountain area. Their adaptability to a wide variety of growing conditions, and their consistent

high yields have been proved in Agricultural Experiment Station Field Trials over the past several years. Most varieties are dual producers, giving good yields in both grain and ensilage. Your local growing season will largely determine which one you should plant.

Other popular hybrid varieties available under the Portwalco brand:

OHIO C 38

(medium season)

OHIO 5305

(short season)

Distributed by

PORTER-WALTON CO.

sold by

OHIO C 47

Proved one of the best hybrids for Intermountain farms, showing outstanding yields in state trials: for example, four-year average of dry-weight silage yield was highest, with 9.1 tons per acre, dry weight, in Logan tests. Matures in 110-115 days.

PORTWALCO HYBRID NO 120

The outstanding dual producer for longer seasons . . . matures in 120 to 130 days. Short shanks permit easy silage harvesting and handling. Rich green plant color is retained until after ears are well matured. Fodder is very palatable. Selected as one of the best long-season hybrids for both silage and grain in Agricultural Experiment Stations Trials.

PORTWALCO HYBRID NO 100

A consistently top producer. Highest bu.-per-acre grain yield in 1956 Logan tests. Outstanding producer of long, thick, solid ears, with little taper. Recommended as one of best medium-season producers for both grain and silage in Extension Service Trials report. Matures in 100 to 110 days.

PORTWALCO HYBRID NO 90

Best of the earlier-maturing hybrids. Keeps dark foliage even after ears are well matured. Medium-size, thick ears have deep kernels. Matures in 90 to 100 days.

For the "cows in the corn"

It's **PORTWALCO**

REDWOOD PLANTUBS

EXTRA 5% DISCOUNT

In case lots and minimum 100 pound shipments direct from factory, you receive 5% additional discount and freight prepaid.

PATIO PLANTERS

Green plants in redwood containers add nature's beauty to your patio, home, or office. "Patio Planters" are made of seasoned prime, California grown redwood secured with harmonizing bands of copper which are fitted to the taper of the planter.

PLANTER BASKETS (Right)

Use as small planter box or hanging basket. Selected deep combed redwood gives that popular rustic appearance. Treated to prevent weathering. Chain hanger included.

If wire hangers desired, specify and deduct 25c from dealer cost.

EASTERN GROWN PORT-WALCO HYBRID CORN Spring 1958 Wholesale

Here are the leaders

. . . High producers of grain and ensilage

PORT-WALCO HYBRIDS rate high in total yield of ensilage (dry weight). Having consistently high ratios of ears to stalks they excell in nutritive values.

Farmers throughout the West recognize the superior qualities of Eastern grown hybrids. Breeders in the states from Ohio to Iowa with many years of scientific research in breeding and growing techniques are the growers of all the Port-Walco and Pfister Hybrids.

PORT-WALCO 100 — Eastern bred and grown, this variety maintains a consistently high record for both grain and silage production. Its high ratio of ears to stalks yields a silage feed that is tops in nutritive value. Medium season (100 to 110 days.)

PORT-WALCO 120 — An outstanding producer of either grain or silage. Long season maturity.

PORT-WALCO 90 — This early maturing Eastern grown hybrid has proven especially well adapted for silage production in the higher valleys. It grows tall; matures early; yields exceptionally rich and abundant silage. 90 to 100 days.

OHIO C-47 — Highest grain yield and one of the highest silage producers in the 1957 State corn trials. We recommend Ohio C-47 as one of the most profitable corns for Intermountain farms. Medium maturity (110-115 days).

OHIO C-38 — Another outstanding Eastern grown hybrid that has become a favorite silage corn in the Intermountain States. Consistently high production of nutritions feed. Medium season maturity.

OHIO M 53 (Formerly Ohio 5305) — Here is an early maturing corn for high grain or silage production in the short season areas.

PFISTER HYBRID CORN

Now Porter-Walton offers the famous **PFISTER HYBRIDS** produced in Iowa by Pfister Associated Growers (P.A.G.). These varieties demonstrated superior grain production in Utah Trials. P.A.G. 244 placed first in mature grain yield in the 1957 corn trials at Logan.

P.A.G. 234 — Backed by many years of scientific research in Hybrid Corn breeding, this medium maturity corn grows well on most soils, heavy or light. Sturdy stalks hold ears well for easy picking. The grain is of very desirable feeding quality.

P.A.G. 244 — Medium maturity, medium height, but outstanding performance. 244 has heavy dark green foliage. On heavy fertile soils it produces remarkable yields of either grain or silage. Highest grain production in the 1957 Logan trials.

P.A.G. 444 — Long season maturity, tall, disease resistant variety that produces heavy crops of either silage or grain. Especially adapted to medium and heavy soils with high fertility level.

BOOKS that Serve Homemakers - Sell for You

Landscaping For Western Living

This book presents many interesting ways of making home more liveable and beautiful. Its distinctive Western style stems from the idea that "landscaping offers a way to take house and garden, building materials and plant materials, the open sky and the stars at night, and blend them all to create a deeply satisfying space for every day living." 189 pages\$2.00

Pruning Handbook

In the language of the ordinary gardener, this book explains the why's and how's of pruning, both ornamental and fruit plants. The pruning methods recommended are based on natural laws of plant behavior. The material in this book will fill a widespread need recognized by gardeners throughout the growing season.\$1.50

Western Garden Books

Combined in these 384 pages is the experience of thousands of Western gardeners. It is both an encyclopedia and a How-To-Do-It Handbook\$2.95

Your Lawn, How to Install and Care For

Here, one of the most important features of the home is discussed in detail from choice of grass through preparation, installing, watering, fertilizing, with many other facts about lawns that have never before been so clearly brought to the attention of the average home owner.\$1.00

How to Grow Roses

A valuable guide to choosing and using roses in the garden with factual treatment of every phase of rose care.\$1.50

GLOVES

SOILAIRE

For Healthy Lawns

Soil aeration is now considered an essential and most beneficial lawn care practice. Soilaire (the mechanical earthworm) removes small plugs of sod leaving holes that allow water, air and fertilizer to penetrate down to the roots. Soil aeration makes the lawn soft and porous, increases value of fertilizer, conserves moisture, and helps grass and trees grow better. Soilaire is sturdily made of plated tubular steel for years of service.

Weighs only 3¾ lbs. Each \$6.95 DSE

GARDEN AND HOUSEHOLD GLOVES

PAINT PUSHERS (No. 4883)—Here is a leader for extra profits in your paint or garden department. Made of remarkable plastic-treated, rainbow-colored material that repels paint, yet "breathes" like leather. Long wearing — washable — color fast.

Sizes—Medium and Large

Display of 12 pairs weighs 2 lbs.

FERTILIZERS

NEW Pelleted ORTHO Lawn Food

HIGH ANALYSIS 16-16-8

Easier to Spread . . . Safer to Use

Ortho high analysis plant food gives you a 35% higher nitrogen ratio plus 9 essential trace elements — provides an improved feeding formulae for lawn, shrubs, trees and roses. Each pound goes twice as far. Apply ten pounds per 1,000 sq. ft. per feeding.

Chemically blended for absolute uniformity and pelletized for easier, safer application. Dust-free pellets cannot burn foliage.

Ortho's new Nitric Phosphates resist fixation in the soil — give you more useable Phosphoric Acid. Two forms of both Nitrogen and Phosphorus give immediate and continued availability.

BORDENS "38"

Slow Release

38% Nitrogen Fertilizer

If it's BORDEN'S it's got to be good. Borden's "38" is a high analysis fertilizer, yet because of its slow release of nitrogen it is safer than ordinary kinds. Borden's saves time and labor because it lets you apply a whole season's feeding in one application. It makes plants healthier by supplying nitrogen more uniformly over a long period of time. The Nitrogen does not leach away. Keeps grass, flowers and trees greener — healthier for three to four months.

IRON SULPHATE—See page 19.

SOLUBLE FERTILIZERS

When only half case lots are ordered, the price is one half of the case price plus 20c to partially cover costs of repacking.

FOLIAGE FEEDING MOST EFFICIENT

Plant foods sprayed in solution onto the leaves of plants are 75 to 85% absorbed into the leaves within the first hour. From tests which established this fact, it has been determined that foliage feeding is 16 times more efficient than soil applications.

The ease and speed of sprayer applications make frequent feedings entirely practical. Soluble plant foods can be incorporated with insecticides to make a two purpose spray. A series of moderate feedings will produce more consistent plant health with corresponding increases in growth and beauty.

RA-PID-GRO

RA-PID-GRO contains 11 vital plant food elements plus vitamins in a concentrated (23-21-17) soluble fertilizer for liquid feeding either in the soil or as a foliage spray. Roses, flower plants, shade trees, fruit trees and most other plants produce amazingly more and better fruits or flowers when regularly fed with RA-PID-GRO.

MULCHES

SUNSHINE PEAT MOSS

Because Sunshine Peat Moss is the most efficient organic soil rebuilding product, it has gained significantly each year in volume of sales. Sunshine brand is 98 to 99% organic matter the cleanest, purest peat moss you can buy. Water retention ratings, too, are 50% to 500% higher than those of competitive products. Having a PH of 3.2 to 4.0 (acid reaction) it is an ideal additive for our alkaline soils. In clay soils, Sunshine peat moss improves aeration, increases water penetration, prevents baking and encourages root growth. In sandy soils, it retains moisture and prevents leaching out of plant foods.

FOR HEALTHIER GREENER PLANTS

Here is Better Health for Plants of Garden and Agriculture

Yellowing foliage is the primary symptom of iron deficiency or chlorosis. Affected plants produce inferior crops or weak stemmed, anemic-looking flowers. Modern soil chemistry has developed the cure, restoring beauty to gardens and productivity to farms. Where alkaline soil adds to the problem, soil sulphur or liquid Ortho-Rix increases effectiveness of the iron chemicals.

SEQUESTRENE 330 Fe

IRON CHELATE ESPECIALLY FOR ALKALINE SOILS

- Creates new dark green growth.
- Restores plants to full vigor.
- Produces more blossoms.

Sequestrene 330 Fe Chelated Iron remains in soluble form and always available to plants. It overcomes iron starvation which destroys beauty and productivity. This form of iron chelate has been proven to be most effective for plants growing in Western alkali soils. It can be used in the soil or as a spray on the foliage.

1-lb. can..... 2.75	cs. 12	14 lbs. AYAL
5-lb. bag..... 9.00	cs. 10	54 lbs. NLYL

IRON SULPHATE

IRON SULPHATE is a highly effective treatment for chlorosis of trees, shrubs, etc. For lawns, apply at the rate of 2 pounds per 100 square feet. Large trees require 2 ounces per square foot of the area where roots are present. As a spray, mix ½ lb. of Iron Sulphate in 10 gallons of water.

5-lb. bag.....\$.85	cs. 10	EAE
10-lb. bag..... 1.40	cs. 5	DEL
25-lb. bag..... 2.75	Each	GSE
100-lb. bag..... 7.75	Each	EAE

IRON is essential to plant nutrition and health.

SOIL SULPHUR

High grade sulphur is one of the best soil conditioners available for clay and alkaline soils. Apply in fall or spring at the rate of 5 to 10 pounds per 1000 square feet. Sulphur improves fertility, loosens soil and improves water penetration. As it changes to sulphuric acid it frees the formerly unavailable plant foods in the soil such as potassium, phosphorus, calcium, magnesium and iron.

25 lbs.....\$3.75	Each	AEL
50 lbs.....	Market Price	

ORTHO-RIX

Sulphur in faster acting liquid form. Ortho-Rix improves soil structure — opens up compacted areas in lawn or garden. Apply one pint to 1600 square feet; one gallon to .34 of an acre.

SPEADERS ROLLERS

"Cyclone" on Wheels Covers 5 to 10 Feet Width

Most Efficient Spreader for Modern Pelletized Fertilizer

With each trip across the lawn, Cyclone covers a strip from 5 to 10 feet wide; 5 feet with blue grass seed; 10 feet with modern pelletized fertilizer. The lawn can be fertilized in less than half the usual time, and with more uniform coverage. Feathered edge distribution eliminates missed spots and double coverage.

The Cyclone is engineered for perfect balance and performance and easy operation. It is easy to fill, empty, clean and store. Built to give a lifetime of service.

Hopper capacity 2/3 cu. ft. (5 gal.) Baked enamel finish.

6-inch wheels—1½" tread — nylon bearings.

Shipping weight 15 lbs.....Only \$18.50 GRLY

Stops Grass Roots at Lawn Edge

No-See Grass Barrier makes it easy to keep a precise, clean line between lawn and cultivated areas. It bars roots from spreading and tends to keep grass growing upright along the edge for easy cutting. You trim lawn edges as you mow.

No-See Grass Barrier is made of galvanized corrugated steel 4 inches wide. Corrugated design provides an "accordion" action which permits edging to conform to contour of soil.

ALUMINUM GRASS EDGING

Keclor's Aluminum Grass Edging is made of corrugated metal with both edges rolled. It is available in continuous rolls 20 ft. or 40 ft. long, packed 6 rolls per display carton.

20-ft. roll.....	\$2.35	Case 6	8 lbs.	PAL
40-ft. roll.....	3.85	Case 6	14 lbs.	GELY

NO - SEE Root Fence

ELIMINATES COMPETITION OF SHRUBS & FLOWER ROOTS

Perennials, annual plants and flowering bulbs flourish under the protection of No-See Root Fence. The beauty of their blooms is greatly enhanced by a background of green foliage. Too often, however, shrub roots rob flower beds of moisture and fertility. No-See Root Fence places an impenetrable steel barrier 12 inches deep to eliminate this common problem.

No-See Root Fence is made of lifetime, hot dipped, galvanized steel, corrugated to permit expansion and contraction as the soil freezes and thaws. Installed flush with the soil or slightly deeper, shrub roots are kept out, making all the moisture and fertilizer available for healthy growth and larger flowers.

Root Fence sections two feet long lock together with special clips to make any length needed.

Display kit contains 25 sections (50 ft.) Weighs 47 lbs.

LAWN SEEDS

LAWN SEED MERCHANDISER

This attractive **LAWN SEED DISPLAY STAND** with its colorful poster will help you sell more Velvet Lawn and Merion Kentucky Bluegrass seed. The 18 x 33-inch lower shelf holds a generous stock of bagged lawn seed. Sag-proof shelf holds 16 one-pound packages — overall height approximately 64 inches. Attractively finished in modern green mesh design.

Display stand free with initial order totaling \$125.00 in assorted sizes of Velvet Lawn or Merion Blue Grass.

Velvet Lawn Mixture

Registered Trade Name

VELVET LAWN gives you one lawn seed mixture that meets every growing condition in the average yard. It thrives in full sun or shade—on almost every type of fertile soil and endures the play and party traffic of the outdoor living room.

For uniform fine texture and lush green color, with permanent "front lawn" beauty throughout the entire yard, there is no better lawn mixture made. The dense, springy garden carpet underfoot invites both play and relaxation.

Blended from high quality Kentucky Blue Grass, Creeping Red Fescue and White Dutch Clover, Velvet Lawn is the most versatile, fine quality lawn for the home yard. Velvet Lawn stays green from early spring to late fall.

Exclusive **TRI-KOT** seed treatment insures a better stand and faster early growth.

Magic Carpet Lawn

Registered Trade Mark

Pure TRI-KOT Treated

MERION KENTUCKY BLUE GRASS

Pure Merion Blue Grass lawns have won the admiration of proud homeowners and neighbors everywhere. Each year since its introduction, the demand for pure **TRI-KOT** treated **MERION** lawn grass has increased. Rich, deeper green color and finer texture set this new variety apart as a superior grass for home lawns. A neat carpet-like appearance is more easily achieved with Merion because it thrives under mowing as close as 1/2 to 3/4 of an inch high.

Somewhat slower growth and lower water requirement make Merion Blue lawns easy to care for—less mowing—less watering. It must, however, be fertilized frequently during the early development period (2 to 2 1/2 pounds of Ammonium Sulphate per 1000 square feet each month for the first year). Usually two or more feedings each subsequent year will keep it in top condition. Weeds cannot compete with a well cared for Merion Grass lawn. Only **Pure Merion Kentucky Blue Grass** gives the planter all the advantages of slow growth, close, neat trimming and uniform deep green color.

Exclusive **TRI-KOT** seed treatment protects seeds from insect and fungus damage, stimulates quicker germination and faster early growth.

SPRINKLERS

MELNOR'S SWINGIN' SPRAY

Cut Sprinkling Work in Half

MELNOR

waters your lawn better — water soaks in deeply with no wasteful run-off.

MELNORS rectangular pattern reaches the corners, too.

No. 700

No. 550

No. 700

Sprinkles up to 2000 sq. ft.
Each \$9.95 NYE
Weight per doz. 48 lbs.

No. 550

Sprinkles up to 1710 sq. ft.
Each \$7.95 ERL
Weight per doz. 38 lbs.

No. 525

Sprinkles up to 1500 sq. ft.
34 x 44 ft.
Each \$6.50 DRL
Weight per doz. 26 lbs.

No. 525

All 3 models now equipped with Aqua-Dial coverage control and perma-sealed motor. Made entirely of non-corrosive brass aluminum, zinc and nylon.

NEW LAFAYETTE SPRINKLERS

These new imported sprinklers are excellent values in the small sprinkler field.

NIAGARA—Three arm propeller of solid brass is polished and chrome plated. Cast base has baked green enamel. Waters a circle up to 34 feet diameter.

\$1.95 Case 12 20 lbs. GENL

DUCHESS — Polished chrome plated nozzles and rotating arm. Nozzles adjustable from mist to stream and for position. Lock nut allows stationary setting.

\$3.95 Case 12 35 lbs. RGEN

WHIRLWIND — Low in price but high in quality and performance. Waters a circle up to 40 ft. in diameter. Brass arms and head assembly chrome plated.

\$1.00 Case 12 14 lbs. ULY

PROEN SQUARE SPRAY

It gets the corners. Saves water — save time — saves labor. Sprinkles an exact square area from 2x2 to 35x35 ft. Red baked enamel finished base and body. Top and vane plated and polished. Rotating vane makes fine rain-like spray and gives more uniform distribution. Can be connected in series.

\$2.95 Case 6 8½ lbs. GYSL

SPRINKLING HEADS

RAIN BIRD Sprinklers

RAIN BIRD Sprinklers make the ideal permanent sprinkling system for large lawns. Rain-like spray, slowly and evenly distributed is most efficient on heavy clay soil. RAIN BIRDS give dependable performance — have long service life.

MODEL 2000 DC — New complete RAIN BIRD sprinkler and base in individual display carton. Full circle head with distance control baffle adjustable for 20 to 80 ft. diameter.

Each \$5.95 2¼ lbs. RPE

RAIN BIRD SPRINKLERS

Rain Bird Sprinklers Model No.	Coverage Diameter	Sprinkler Thread Size	Weight Each	Prices Each

CROWN Sprinkler Heads

Adjustable

Corrosion Resistant

Rugged Durability

Crown Sprinkler heads, made of zinc die cast have a tensile strength of 40,000 lbs. per square inch, yet will not damage lawn mower blades. Heavy copper nickel plate gives added corrosion resistance. At 30 pounds pressure, Crown Heads deliver 2½ G.P.M. over a 10-12 foot diameter. Threaded for ½ inch pipe.

BIG STINKY Fly Traps

The Stinky family works all day — every day — to keep your house and yard free from flies. Flies find their way quickly to the Stinky Fly Trap—never to return to make outdoor living unpleasant. Fasten one or two of the Stinky Fly Traps to tree branches or on boards set among the shrubs — fly troubles will disappear.

Big Stinky with jar and 8-oz. bottle of control fluid.

Hose Attachment SPRAYERS

The SPRAYETTE Family

ACCURATE, AUTOMATIC MIXING — BETTER COVERAGE — BETTER KILL

Powered by Water Pressure in Your Garden Hose — Easy Spraying

QUEEN SIZE SPRAY-ETTE — 6 Gallons

This is the ideal home garden sprayer. The Queen sprays 6 gallons of automatically mixed, accurately diluted insecticide — enough for the average garden — in a matter of minutes. Its powerful discharge thoroughly covers the foliage, bringing out the maximum effectiveness of the chemicals. Adjustable and removable deflector allows spraying small plants or medium size trees. Has positive shut-off lever.

Each—\$9.95	NSE	Case 6	20 lbs.	RPUL
Replacement Jar—60c		Case 12	11½ lbs.	DUL

KING SIZE SPRAY-ETTE — 10 Gallons

For large yards and estates, the KING SIZE SPRAY-ETTE is the most efficient, easiest to use sprayer made. Many users prefer the lightweight, compact King Size Spray-ette to power sprayers which cost ten times more. Cover the entire yard in just a few minutes of easy spraying. No pumping — No heavy tank to carry.

Each—\$12.95	YUSE	Case 6	27 lbs.	EGUL
Replacement Jar—\$1.00		Case 6	11 lbs.	DLY

SPRAYETTE — 4 Gallons

This efficient — easy-to-use spray-ette is especially adapted to the requirements of the small home yard. Adjustable and removable deflector makes possible a complete spray job.

Each—6.45	DRE	Case 12	18 lbs.	EGNL
Replacement Jar—50c		Case 12	8 lbs.	DLY

ORTHO SPRAYETTE — 2 Gallons

The handy two-gallon capacity Spray-ette is ideal for small gardens and house plants. Its new wide-mouth jar is stronger — easier to fill and easier to clean. Mixing and spraying is accurate and automatic, just like that of the larger models.

CRAB GRASS KILLERS ETC.

When only half case lots are ordered, the price is one half of the case price plus 20c to partially cover costs of repacking.

ORTHO LIQUID CRAB GRASS KILLER

Most Effective — Most Economical

A specially formulated liquid crab grass killer containing the widely acclaimed **DISODIUM METHYL ARSONATE**. This chemical, when applied as directed, gives greater control of crab grass but does not harm desirable grasses including Bent, Merion Blue, Kentucky Blue and Red Fescue.

DSMA is safe to use throughout the crab grass season but is most highly effective in late May, June and July when young crab grass is starting. Extremely economical control with DSMA costs only one-fifth as much as with dry lead arsenate type treatments.

CRAG HERBICIDE 1

Crag Herbicide-1 has been proven through years of use in Agricultural experiment stations, commercial farms and in thousands of home gardens. It is one of the safest and easiest to use weed controls available. Crag Herbicide-1 is harmless to plant foliage but after contact with moist soil, it changes to a powerful weed preventer. It kills all germinating weed seeds.

CRAB GRASS SEEDS in lawns can be most effectively and economically killed with spring sprayings of Crag Herbicide-1. **ONE SPRAYING PREVENTS WEEDS FOR UP TO SIX WEEKS.**

IMPROVED ACP CRAB GRASS KILLER

Now contains both potassium cyanate and MCP, making it a really effective control for crab grass and chick weed. MCP, the new ingredient also kills dandelions, plantain and other lawn weeds without killing the desirable grasses or clover.

26-oz. can.....\$3.75 cs. 12 Wt. 26 lbs. ASLY

END-O-WEED GRASS KILLER

A Potassium Cyanate formulation that economically kills both crab grass and chick weed. 7-ounce can treats up to 1200 square feet of lawn. Apply when crab grass starts in late May and June.

7-oz. can\$.98 cs. 12 7 lbs. SAL

TCA 90 GRASS KILLER

For the control of perennial grasses such as **Bermuda Grass, Quackgrass and Johnson Grass** as well as many annual grasses on non-cropped land. TCA 90 contains 90% sodium trichloroacetate, an easily handled, effective, completely water soluble salt. At full dosage TCA 90 kills the grass. At low dosages, it retards growth but leaves the sod to control erosion. Best results are obtained when adequate moisture is present. Do not use near valuable woody or ornamental plants. TCA 90 can be mixed with Weedone 2,4-D products to kill both grass and broad-leaved weeds. See package label for complete recommendations.

WEEDAZOL

WEEDAZOL is the ACP trademark for a 50% 3-amino-1,2,4-triazole (Amizol) formulation which has been thoroughly tested and found particularly useful in controlling broadleaf perennials such as Canada thistle, Russian knapweed, leafy spurge, and perennial grasses such as quack and Bermuda grass. **WEEDAZOL** also kills cattails, tules and horsetail rush as well as certain woody plants including poison ivy, buckbrush, some ashes and scrub oak. **WEEDAZOL** is a systemic herbicide that affects the production of chlorophyll (the green coloring matter in leaves) of treated plants. Treated plants usually turn white and die slowly.

WEEDAZOL has several chemical advantages. It does not volatilize to form harmful vapors which might damage nearby sensitive crops. It dissolves in water so no special spray equipment is needed; there is no problem of nozzle clogging; and the solution can be rinsed easily by flushing the entire spray system with clear water. **WEEDAZOL** is not toxic to humans, animals or fish at the concentrations needed to control weeds and is not a fire hazard. **WEEDAZOL** is readily inactivated in heavy soils and does not build up a toxic residue at rates needed to kill perennial weeds.

LAWN & GARDEN CYANAMID

Kills Weed Seeds and Roots — Makes Nitrogen Fertilizer

If you are sowing a new lawn, you can make sure the young grass seedlings develop faster and thicker by eliminating weed competition. Lawn & Garden Cyanamid kills weed seeds and roots, then turns into valuable Nitrogen fertilizer. Undesirable grasses in the established lawn can be killed with Lawn & Garden Cyanamid before replanting.

Fifty pound bag treats 1000 square feet.

GRO-QUICK

ELECTRIC

Heating CABLE

You can have plants ready to set out weeks ahead of neighboring gardens with only a small covered frame and Gro-Quick Soil Heating Cable. Ideal for "hot-beds," plant benches in unheated greenhouses and for seed rows in open ground. Genuine Geon insulation is used on all cables, insuring years of dependable service. Fully guaranteed. Operates on 110-volt current.

JUNIOR CABLE — 40-ft. 200-watt. Just right for standard single sash (3' x 6') bed or 20 sq. feet. For greatest economy, use with the A-T Thermostat listed below.

Each \$2.25 GEL

SENIOR CABLE — 80-ft. 400-watt. Fits a double sash (6' x 6') bed or 40 square feet. For greatest economy, use with the A-T Thermostat listed below.

Each \$4.50 RLY

A-T THERMOSTAT — Will control 2 Senior cables or 4 Junior cables on 110-volt circuits. Dial adjustment from 39° to 78°. Has neon pilot light, cord, plug and plug-in receptacle for cable.

Each \$4.50 RLY

FLOWERING BULBS

Ready to Sell BULBS

Illustrated in Color

Gladiolus Collection

The popular way to sell flowering bulbs is through mass display of attractively illustrated packages. Display is better and more productive. Ideal for profitable self-service. Labeled packages prevent mixing. Sold only in complete collections. Each Collection packed in a wood crate or corrugated carton.

Each GLADIOLUS package contains 12 healthy No. 1 grade bulbs of the color shown on the package.

10 Boxes of Red	5 Boxes of Yellow
10 Boxes of Pink	5 Boxes of Lavender

ONION SEED

*Sweet Spanish, Yellow Utah Strain—Uncert.

This very large mild onion is recognized as the very best of the large, late varieties. Utah strain was originated by Dr. Wilson and further refined by Dr. Leonard H. Pollard at the Utah State College (U.S.D.A.). The bulbs are very large, globular with narrow necks and a dark coppery amber skin. The flesh is white, firm and mild. Utah Strain Sweet Spanish is most frequently grown throughout the West because of its high productivity and exceptional keeping qualities.
