Perlcor

New Superior Quality Horticultural Perlite

Perlcor is a special grade of Perlite that has been developed specially for horticultural uses. Extra firmness of the particles prevents break-down and deterioration. Perlcor retains three to four times its weight in water and does not become soggy. Added to equal parts of coarse peat moss it makes the ideal planting medium for most potted plants. Maintaining the ideal air moisture ratio, Perlcor is an outstanding propagating medium. It is lightweight, easy to handle, free of disease, weed seeds and insects.

Cascade SOIL-AID

AIDS PLANT GROWTH — GIVES A RICH APPEARANCE TO GARDEN BEDS

100% BARK CHEMICALLY TREATED, BACTERIA ACTIVATED, COMPOSTED

NO WOOD — NO SAWDUST — NO SHAVINGS

Cascade SOIL-AID is a proven product well accepted by the home gardener, commercial grower, nurseryman and landscaper. It makes an ideal mulch around seedling plants, shrubbery, evergreens and vegetable gardens. As a mulch SOIL-AID keeps the soil and plant roots cool, helps retain moisture. When applied two or three inches deep, it discourages weed growth. Composted SOIL-AID can be safely mixed with the soil before planting. It helps admit air and water, encourages root growth and forms valuable humus in the soil.

ORTHO KLEENUP Crab Grass & Insect Killer

Ortho brings you new convenience — easier application — greater accuracy of coverage — in this new granule form Crab Grass Killer.

KLEENUP kills crab grass seeds before they sprout — kills lawn insects — and feeds the lawn. Arsenical impregnated granules do not stick to the grass foliage but fall to the soil surface where crab grass seeds are located. Organic urea provides nitrogen plant food, releasing nourishment gradually. The 40-pound bag covers 2000 square feet.

In research plots throughout the country, including Intermountain States, KLEENUP has demonstrated superior killing power — up to 98% control.

ORTHO-GRO Lawn and Garden Food 16-16-8 Pelleted

Easier to Spread . . . Safer to Use

Ortho high analysis plant food gives you a 35% higher nitrogen ratio plus 9 essential trace elements — provides an improved feeding formulae for lawn, shrubs, trees and roses. Each pound goes twice as far. Apply ten pounds per 1,000 sq. ft. per feeding. Chemically blended for absolute uniformity and pelletized for easier, safer application. Dust-free pellets cannot burn foliage. Ortho's new Nitric Phosphates resist fixation in the soil — give you more useable Phosphoric Acid. Two forms of both Nitrogen and Phosphorus give immediate and continued availability.
