PERIODICAL CATALOGUE
OF
FRUIT AND ORNAMENTAL
TREES AND PLANTS,

CULTIVATED AT
THE HIGHLAND NURSERIES,
NEWBURGH, NEAR NEW YORK,

BY
A. J. DOWNING & CO.

NEW YORK:
JOSEPH H. JENNINGS, PRINTER,
No. 111 Fulton street.

MDCCCXLV.

1845

ADVERTISEMENT.

SINCE the last edition of our Catalogue, we have had the satisfaction of proving a large number of new fruits, in addition to those whose qualities have heretofore been carefully tested in the gardens here. The utmost care is exercised in propagating genuine sorts, and we have great pleasure in offering our present stock of trees to the public, as worthy of their confidence.

The nurseries here were commenced about forty years ago, and now contain over thirty acres of ground, exclusively devoted to the culture of trees, shrubs and plants. The soil and climate of the Hudson Highlands have rendered the success of the trees sent from here, a matter of notoriety in all parts of the Union.

Gentlemen who are little familiar with the subject, and who will favor us with the number of each species of fruit desired, as apples, pears, &c., are assured that a selection made with the utmost care, and comprising the BEST, will be furnished by the proprietors. Persons wishing trees of extra size, should always send their orders in the autumn, as the largest nurseries are thinned by a whole season's sale.

The proper seasons for transplanting are October, November and December, in the autumn, and March and April, in the spring. The autumn is the most favorable time for the transmission of trees to the south and west, and our experience in packing trees for transportation, renders their success as certain at the distance of one or two thousand miles, as in our immediate neighborhood.

The bundles of trees or plants will be shipped from New York to any portion of North America or Europe; and when it is desired, insurance will be effected—the purchaser being at the expense of the same.

The fluctuations in exchange, and the difficulty of obtaining remittances from some distant states, render it necessary for us to state, that all orders from those portions of the country must be accompanied by cash, or drafts on the city of New York, Boston, or Philadelphia, payable at sight, or within thirty days after the delivery of the trees.

All letters on business, or making inquiries, must, to insure attention, be post paid. Persons living out of the usual routes of transportation, are requested to state the particular line, or conveyance, by which the bundles of trees are to be sent, and the amount of heavy land carriage, and the trees will be packed accordingly. Orders by mail will receive the same attention, and the trees will be as carefully selected as when the person ordering them is present.

N. B.—*Persons desiring a full and complete manual on the culture and propagation of fruit trees, directions for the care of orchards, modes of destroying insects, etc. etc., with descriptions and outline figures of all the finest fruits known in this country, are referred to Downing's "FRUITS AND FRUIT TREES OF AMERICA," recently published, and for sale by book-sellers in all the principal cities.*

The *pear blight*, the "*yellow*s" in the peach, and a very successful mode of *pruning* the latter tree, are treated of at length in this work.

DEPARTMENT OF FRUITS.

APPLES.

PRICE 25 CENTS EACH.

CLASS I.

SUMMER APPLES.

NAME.	Size.	Qua. lity.	Season.	REMARKS.

Thimoclés, . . .	cup.	Rosy lilac, . . .	0 50

The Bourbon roses are the greatest acquisition which our flower gardens have received in the present age. With the invaluable habit of blooming the whole season, they unite the most delicious fragrance, vigorous and handsome habit, and broad and glossy foliage. Southward of this they are quite hardy, and here it is only necessary to throw over them some leaves, or a slight coat of litter, at the approach of winter, to be removed as soon as the spring opens.

HYBRID PERPETUAL ROSES.

PRICE, \$1 EACH.

NAME.	Form.	Color.
Auburnon, . . .	cup.	Brilliant crimson.
Augustine Mouchelet, . . .	cup.	Dark crimson, large.
Clementine Duval, . . .	cup.	Bright rose, brilliant.

NAME.	Form.	Color.
Calliope,	cup.	Bright cherry red.
Duchess of Sutherland, . .	glob.	Glossy blush.
Edward Jesse,	cup.	Lilac crimson.
