BOTANICAL GARDEN

NEW HAVEN, CONNECTICUT

May 2nd 1906.

VAUGHAN'S SEED STORE,
NEW YORK.

Gentlemen:-

Under separate cover, Mr. Filley has sent you two views of bed of bulbs on Berkeley Oval. To secure a good photo we were obliged to wait until the Tulips opened, they being somewhat later than the Hyacinths. Your bulbs have always given us great satisfaction, and are greatly admired by all who see them. Trusting the photos will prove acceptable. Yours truly,

J. H. MURRAY,
Gardener.

VAUGHAN'S EXHIBITION HYACINTH BEDS.

Results as shown in above photograph can only be obtained by planting Vaughan's Hyacinths. As a help to those who do not care to figure out their own beds, we suggest the following combinations as among the best forms and sizes that can be arranged. We shall be glad to submit other shapes and designs should customers so desire and state the number of square feet they wish to plant.

These ready made plans are very popular with our customers, insuring perfectly symmetrical and uniform appearance in height and coloring. By referring to pages of this catalog where these bulbs are listed you will note that a very liberal reduction of prices has been made. **In planting these beds bulbs should be set out six inches apart each way. Prices quoted are by express at purchaser's expense.**

Combination No. 1. 360 Bulbs for \$15.00.

This collection contains 360 bulbs enough for a round bed 30 feet in circumference, arranged in three wedges. We supply 120 pink, 120 pure white and 120 light blue Hyacinths of our Fancy Forcing grade.

Combination No. 2. 130 Bulbs for \$8.50.

Contains 130 bulbs, enough for a bed 18 feet in circumference arranged as follows, outer two rings require 70 Red, (Robert Steiger) inner two rings 42 White (Baroness Van Thuyll) centre 18 blue, (Charles Dickens.)

We will also supply this bed for \$5.50 if Vaughan's Forcing Hyacinths are selected in place of the named varieties.

Combination No. 3.

This illustration represents an 8-foot (circumference) bed planted with 50 bulbs of L'Innocence Hyacinth, a beautiful variety, pure white in color and of large truss. In order to overcome the somewhat stiff effect of the Hyacinth, Pansies have been planted between the bulbs and the result is certainly very fine. Such a bed as this will brighten up the lawn in early spring at a very small cost. In order to reproduce the same effect as shown in the illustration, we will supply only L'Innocence bulbs for this bed. We offer the same in three sizes.

Winter and Spring Flowers

For Indoors and the Garden

For the winter window garden and for first early flowers in the garden and lawn, imported bulbs such as Hyacinths, Tulips, Daffodils, are a necessity to be certain of satisfactory flowers. Easily grown in ordinary living rooms. For beauty and fragrance these often excel the choicest summer flowers. The contrast of these beautiful blooms indoors with the stormy winter outside is a constant pleasure. These bulbs contain in themselves the stored up material for leaf growth and flowers and are not easily affected by common changes in temperature or liable to injury from gas. It is best to order them promptly on receipt of this book but they may be planted any time up to freezing weather.

We import many carloads of these bulbs and dormant plants from Europe for private conservatories and commercial greenhouses, and those desiring reliable qualities or those who purchase the flowers for pleasure or profit can do no better than order from us.

We aim with each new edition of our Autumn catalogue to make plain how and when to plant and care for, and to tell how beds and borders can be most attractively designed and planted. We wish every customer to be able to select and order readily without the aid of a gardener and thus secure an added pleasure in the final result.

Write us for further suggestions or plans, stating what you require and we will be able to make you suggestions and submit estimates.

DEPTH AT WHICH BULBS SHOULD BE PLANTED.

Many of our customers are frequently puzzled to know the proper depth and distance apart at which bulbs should be planted. The accompanying diagram, reproduced from *Popular Gardening*, conveys the information much more clearly and briefly than we could describe it. The chart will bear careful study. **Outdoor planting should be done early** in the fall to secure healthy plants, vigorous foliage and beautiful flowers.

BUSINESS RULES—PLEASE READ CAREFULLY.

How to Order. We do not send seeds, plants or bulbs C. O. D. Write your name, post office, state and express office plainly on every order and every time you write us. Give plain shipping directions, where none are given we use our best judgment, at your expense and risk.

Prepaid. Prices given in this catalogue usually include prepayment by mail on **bulbs** and **plants** (not tools, unless so marked) except where offered "by express," or marked otherwise, then the purchaser is to pay charges.

Cost of Remitting. Our customers may select additional bulbs **free**, with every order of \$1 or more, to the amount of the cost of the money order, registered letter or other remittance.

Very Important. You can aid us by using order sheet, as follows:

1. Place the quantity wanted before each article.
2. Use one line for each kind ordered.
3. As nearly as possible make out your list in the same order in which the goods are catalogued, beginning at the front.

Prompt Delivery. If goods are not received in a reasonable time, send exact copy of order, date sent, stating amount of enclosure, kind of remittance (draft or money order), and the same will be investigated. Remember, sometimes in the busiest season others may have orders ahead of you, which must be filled in rotation. Order early.

Errors. If stock is not as expected, compare with order; read Catalogue rules carefully, and if we are in the wrong write us at once, give all

particulars as in preceding paragraph, but please do not complain to others until we have had a chance to rectify or explain matters.

Time of Sending. Not all fall bulbs are ready at the same time, but nearly all the Dutch and French importations are in the store by September 15. The following table gives approximate dates of arrival:

September 1, Lilium candidum, Roman Hyacinths, Lilium Harrisii, Freesias, Narcissus, Peonies. September 15, Hyacinths, Tulips and other Dutch bulbs, Callas. October 20, full supply of Lilies, Chinese Narcissus, Dahlias and Gladiolus. November 10, Spirea and Lily-of-the-Valley, new crop of Tuberose.

How to Pay. Send cash with order (as we do not open book accounts for small amounts, and can only send to value of money received) by New York or Chicago Draft, Registered letter, Money Order, Express Order; in any of these ways at our risk. Postage stamps in small amounts are taken as cash, but they must be sent so they will not stick together. Registered letters are generally very safe, and you can send that way from any post office and get our receipt by return mail.

Head Gardeners' and Farmers' Situations. We keep a list of both at our New York and Chicago stores of practical gardeners and farmers who are proficient in their various departments and competent to give satisfaction to any lady or gentleman requiring such. If parties desiring such will write us, giving particulars as to what kind of a man they want, we will put them in communication with suitable men.

WE HAVE NO AGENTS.

There are a great many express agents, commission men, dealers and others who solicit from buyers and send in orders for Vaughan's Seeds, some of whom may style themselves agents for the same. None of these parties are authorized to make any representations whatever regarding our seeds different from those printed in our catalogues. No agency for our seeds extends beyond forwarding orders to us for our acceptance or rejection. Direct correspondence invited.

HYACINTH COLLECTION
FOR WINDOW GARDEN

Red (Robert Steiger), Pure White (L'Innocence), Light Blue (Leonidas), Dark Blue (Baron van Thuyll), Yellow (Ida).

We have selected from the list of varieties on this page a few of the best of each color suitable for culture in pots and glasses and offer them in collections at a reduction from the regular prices. The following are the varieties selected.—Pink (Moreno),

VAUGHAN'S SELECTED
DUTCH HYACINTHS.

The Hyacinth is an ideal winter flowering bulb. It succeeds best in pots or jardinières but it is wonderfully effective and surprisingly beautiful when grown in glasses. For outdoor bedding its richness in coloring and fragrance makes it a general favorite. A specialty of ours for many years has been the supplying of Hyacinth bulbs for florists' use and through this we secure the very choicest pick of bulbs for our private customers. The following varieties have been especially selected for their large perfect spikes and beautiful colors. Remember that those marked single give the most symmetrical spikes, resembling in the perfectly grown trusses the effect of a spike of Lilacs, (that is, while the individual flowers are single, the whole effect is symmetrical and beautiful). Do not, therefore, order double flowers if you are looking for perfect trusses.

For full cultural instructions see our book, "Flower Bulbs and Their Culture," free with every order of amounting to \$1.00 or over if asked for with order.

VAUGHAN'S "FANCY"

BEDDING AND FORCING

HYACINTHS.

This is a grade of Mixed Hyacinths which we annually import, paying the highest prices known for mixed varieties. These bulbs are almost equal in size to the named varieties which are offered by many importers and are first-class, in size, plumpness, good varieties and sound roots.

We offer them in separate colors, each color being made up from named varieties of about the same general shade, as shown in the list below. These will produce spikes very even in height and size and make a most symmetrical bed. To those who do not wish to pay the highest price for best named Hyacinths we especially recommend this grade both for pots and outdoors. We offer these fancy mixed bulbs in singles only, these being much more desirable, as explained elsewhere.

GRAPE HYACINTHS.

HARDY AS AN OAK SLENDID FOR NATURALIZING.

These exquisite little flowers are most fragrant and showy, and when planted in masses the effect is dazzling in the extreme. Once planted in the garden or lawn, they will soon multiply and send up flowers-stems by the score each year. As a house plant they are of equal worth; planted six in a 5 inch pot and treated in the same way as Dutch Hyacinths, they will well repay all the care bestowed upon them.

Improved Blue. 5c. for 3; 15c. per doz.; 75c. per 100, postpaid.

French Roman
or Christmas HYACINTHS.

Prices on single bulbs are postpaid. Dozen lots, if wanted by mail add 8 cents per dozen for postage.

Slender and graceful, about one-half the diameter of ordinary Hyacinths, these French Romans are the earliest bloomers of all fall bulbs and may be readily grown by the most inexperienced in pots of soil or in water and pebbles. Planted in September they flower from Thanksgiving to Christmas time and a succession may be had by potting the bulbs at intervals. Most bulbs throw up from three to five spikes of bloom which follow each other in flowering. Three bulbs may be planted in a five inch pot. Do not forget these when making up your order. See the various colors offered.

Each order should include at least a few of these bulbs.

Dutch Roman
or Miniature HYACINTHS.

These Hyacinths are excellent for growing in pots, pans or boxes, and coming into flower after the French Roman Hyacinths, they will give a continuous bloom if planted at the same time. They bloom very freely, the spikes being smaller than named Dutch Hyacinths, but equally fragrant and beautiful. For pot culture use named varieties.

TWO VARIETIES

OF EXCEPTIONAL MERIT.

KEIZERKROON.

This splendid single bedding Tulip may be well called the "Emperor's Crown." Of tall, erect habit, it grows to a height of 10 inches, and is most effective when grown alone in beds or masses. It has a large rich crimson flower with a broad margin of gold, making a combination which is dazzling in the extreme. Two hundred bulbs planted five inches apart are sufficient for a round bed 5 feet in diameter, thus making a display at the cost of \$3, which will last for weeks and attract the attention and admiration of everyone who see it. Bulbs, 5 cts. each, 12 cts. for 3, 35 cts. per doz., \$2 per 100, \$3.75 for 200, \$17.00 per 1000.

JOOST VAN VONDEL.

A splendid variety of about the same height and habit as Keizerkroon. The flowers are very large and long, color being a striking combination of cherry red, feathered with white. As a variety for using in beds or borders it cannot be too highly recommended, as it will make an excellent show. Owing to its long, stiff stem it makes a splendid cut-flower, lasting a long time in water. 4c each, 10c for 3, 35c per doz., \$1.65 per 100, \$14 per 1000.

SPECIAL OFFER E. 200 Bulbs for \$3.00, 100 each Keizerskroon and Van Vondel by express, at buyer's expense.

VAUGHAN'S SPECIAL MIXTURES.

We offer under this head mixtures of both single and double Tulips, which we make up ourselves from the very best sorts properly proportioned. We include only such varieties as will bloom about the same time and of about the same height. The colors are chosen with care so they may blend and make a harmonious bed. We take special pains with these mixtures and use nothing but first-size bulbs, such as are listed in this Catalogue, and we therefore recommend them to our customers as being the finest mixtures in existence.

Vaughan's Special Single Mixture. 10 cts for 3, 35 cts per doz., \$1.75 per 100, \$15 per 1000.

DOUBLE EARLY TULIPS.

The sorts marked early are valuable for bedding in connection with the early Single Tulips and flower about the same time. The late Double varieties extend the season two or three weeks. The Doubles, although they can be grown in pots, are not so readily flowered as the Singles. See *Vaughan's Flower Bulbs* for cultural directions, free with every order of \$1.00 and up.

LATE OR MAYFLOWERING TULIPS.

This section of the Tulip family deserves more attention. Being of great beauty and coming into bloom as they do, about "Decoration Day," a splendid succession of bloom can be had when planted along with the early Tulips listed on page 5. They are extremely hardy and are particularly fine for planting in clumps amongst shrubbery or in the herbaceous border. The flowers being borne on extra long stems make them invaluable as cut-flowers, and they have the added value of lasting a long time when cut and placed in water.

Prices on single bulbs include postage paid by us, the dozen and 100 rates are by express at purchasers expense.

VAUGHAN'S NEW PROLIFIC CALLA

This Lily we have been growing for several years, starting from a few plants. There is no question but that it will take the place of the common Calla Lily wherever it is seen. The flower is large, perfect in shape, and of a snowy whiteness, much purer than the common one. Freedom of bloom is its great value, producing two or three times more than any other. The plant is a trifle shorter and a very handsome, compact grower. It forms a great mass of fibrous roots which no doubt causes its abundant bloom. Exceedingly useful in the South and West, where Callas grow naturally in the open air. 50 cts. each, \$1.35 for 3, \$5 per doz.

BLACK CALLA A peculiarity of this bulb from the Holy Land is that it is strictly a winter bloomer, producing enormous coal black flowers of a brilliancy that is indeed striking. Large bulbs, 15 cents each, 50 cents for 4; mammoth bulbs, 20 cents each, 75 cents for 4.

SPOTTED LEAF CALLA Similar to the well-known White Calla, but has glossy dark green foliage, beautifully spotted with white, making it a splendid ornamental plant even when not in bloom. Flowers are pure white with a dark throat, 15 cents each, 25 cts. for 2; \$1.25 per doz.; extra large bulbs, 25 cts. each; 60 cts. for 3, postpaid.

CALLA, MRS. ROOSEVELT result of cross between one of the rare yellow Callas and the well-known spotted-leaved variety. It retains all the vigor of the white-flowered variety and has a beautiful yellow flower of a soft-primrose-yellow equal in size to any yellow Calla now in existence. The foliage is beautifully spotted with pure white, making it a fine plant for bedding purposes. 30 cts. each, 3 for 85 cts.; \$3.25 per doz.; \$25 per 100.

CYCLAMEN

Plant in September or October in a 5-inch pot, using rich, light soil, and water sparingly until it begins vigorous growth, after which it may be treated like other house plants. Will give more flowers with less trouble than almost any other bulb we list.

Large-Flowering Crocus.

PERFECTLY HARDY.

One of the earliest flowers to open in spring, the Crocus makes a very effective show when planted in masses or where three or four rows are arranged in a border. They are perfectly hardy and can be left in the ground for several years without being disturbed. An effective method of planting is to scatter them over the lawn by digging up a small piece of sod and placing one or two bulbs in each spot. This gives a pretty effect in early spring, and the tops can be cut along with the grass safely when first mowing is made. Also useful for pot culture, but care should be taken not to keep bulbs too warm after planting.

Prices quoted below include postage on dozen and 100 lots. The 1000 rate is by express at purchaser's expense. We supply 25 at the 100 rate and 250 at the 1000 rate.

The favorite flower of every one who takes an interest in his garden and who wishes to have a succession of bloom in the herbaceous border or beds. Lilium Candidum The Finest Hardy Lily that grows

Madonna, or Annunciation Lily

This is one of the oldest, loveliest and best known Lilies. The flowers, of which there are three to twenty on each stem, are snow white, with heavy yellow stamens and of the most delightful fragrance. It is hardy, and will thrive in any ordinary garden soil, preferring a position where it can get plenty of light and air. Blooms in the open ground about June 20. We recommend early planting of this Lily, as it makes its leaf-growth in fall, and thus prepares itself for early blooming. Orders should therefore be sent in on receipt of this Catalogue. The bulbs which we offer are of an improved type over those usually sold, the flowers being larger and the petals thicker, which makes it more lasting. Once planted they should not be disturbed for years, and customers will do well to plant a bed of 25 or more.

Select Bulbs. 10 cts. each; 25 cts. for 3; \$1 per doz., postpaid; by express, 85 cts. per doz.; \$1.75 for 25; \$6.50 per 100; \$14 for 250. **Mammoth bulbs**, 25 cts. each; 70 cts. for 3, postpaid; by express, 20 cts. each; 50 cts. for 3; \$1.50 per doz.; \$10 per 100. **Jumbo bulbs**, 50 cts. each; \$5 per doz., by express.

Boston Fern.

THE BOSTON FERN

(Nephrolepis Bostoniensis)

This is a wonderfully healthy, rapid-growing and graceful house plant. In great demand. Many people have bought it in preference to the finest Palms or Rubber Plants. Thrives in all rooms; gas or furnace heat does not seem to injure it. Fronds are often 6 to 7 feet long, a 4-inch plant increasing to 10-inch size in a year, besides making many new offshoots. A good-sized plant contains from 20 to 40 fronds, and the fresh ones continually coming out with new growth are very beautiful. Best of all for hanging baskets. Our plants are all well established in pots, not weak runners torn loose from soil.

NEW NEPHROLEPIS SCOTTII

Of much dwarfier and bushier growth than the Boston Fern. The fronds droop gracefully and are not as long and coarse as the Boston. It is a rapid grower, and one of the hardiest plants for the house. Price same as for Fern above.

THE NEW FERN

NEPHROLEPIS ELEGANTISSIMA

A sport or variation from the popular Boston Fern, from which it is quite distinct. The small side pinnae are again subdivided, producing an exquisite and beautiful effect, changing the entire character of the fronds, which measure less than half the length and about twice the breadth of the Boston Fern fronds. The side pinnae of the fronds stand out at right angles, making the frond much thicker and fluffier than any other. First size plants, each 15c; 6 for 75c; second size, 3-inch pot, 25c, prepaid; third size, 4-inch pot, each 50c; fourth size, 5-inch pot, each \$1.00; fifth size, 6-inch pot, each, \$1.50; sixth size, 7-inch pot, each \$2.50, by express at buyer's expense.

FERNS

NEPHROLEPIS WHITMANI

Improved Garrytown Fern.

Elegantissima, but the pinnae being more deeply divided, gives the plant a much more graceful appearance, while another important point in its favor is the fact that not a single frond has ever reverted to the common Boston Fern.

HYDRANGEA PANICULATA GRANDIFLORA.

Tens of thousands of this noble summer and autumn-flowering shrub have been sold the past few years, and the demand is now universal. They grow to a height of 8 to 10 ft., and are absolutely hardy, grow in any soil, and bloom the same year they are set out. They flower abundantly, bearing immense panicles of bloom a foot long, white at first, turning to rose in autumn, commencing to bloom in August, when very few shrubs are in bloom. To make a fine specimen, the soil should be prepared as for any other shrub. An annual shortening of branches tends to increase the size of the flowers. When first planted, the branches should be cut back to 6 or 8 inches off the main stock.

Price. Strong, dormant, field-growing bushes, 3-year-old, 3 to 4 ft. high, each, 40c.; per doz., \$4.00; per 100, \$20.00. 2 to 3 ft., extra strong, each, 25c.; doz., \$2.50; per 100, \$15.00. 12 to 18 in., strong bushes, each, 20c.; doz., \$1.75; per 100, \$12.00.

All the above sizes will bloom the first year.

FARM AND FIELD SEEDS FOR FALL SOWING

We handle only one grade of farm and field seed—The Best. Why sell the poorer. It is beyond argument that the best seeds are cheapest. The farmer who buys inferior quality robs himself. Prices subject to market changes.

WINTER WHEAT.

Our seed is grown especially for us by an expert wheat breeder. It is true to name, perfectly clean and of high germination. The advantages of a change of seed are well recognized. To be convinced, try a small acreage of new seed along side of that on hand now and compare yields.

DEFIANCE—TURKISH RED WHEAT.

Selected Stock (Bearded.)

The bearded wheats are by far the hardiest. This variety to our knowledge is the best yielding bearded wheat. The heads are of good size and the plants stool out well. Ours is well bred stock. Price, by freight or express, at purchaser's expense, pk., 50 cts.; bush., \$1.60; 10 bush., \$15.00; bags included. By mail, prepaid, lb., 25 cts.; 3 lbs., 65 cts.

POOL WHEAT.

A new bald or smooth wheat, red chaffed, with a fine amber grain. This variety is a rank grower, stands up well, with a very stiff straw, on which are borne large well filled heads. A much better variety in all ways than the Golden Chaff. Price, by freight or express, at purchaser's expense, pk., 50 cts.; bush., \$1.60; 10 bush., \$15.00; bags included. By mail, prepaid, lb., 25 cts.; 3 lbs., 65 cts.

CLOVERS.

Purchasers in large quantity should write for latest market prices and samples.

Crimson Clover. Fine, clean new crop seed. Scarce this year. Price, by freight or express, 10 lbs., \$1.20; bush. (60 lbs.), \$6.25; 100 lbs., \$10.00. By mail, postpaid, lb., 25 cts.; 3 lbs., 65 cts.

Medium Red. The best clean high germinating seed. Price, by freight or express, 10 lbs., \$1.75; bush. (60 lbs.), \$8.50; 100 lbs., \$14.00; grain bags 20 cts. extra. By mail, postpaid, lb., 30 cts.; 3 lbs., 80 cts.

Mammoth Red. Grows larger than Medium Red. Price the same.

Alsike. Succeeds in cold, stiff, wet soil. Extra clean seed. Price, by freight or express, 10 lbs., \$1.75; bush. (60 lbs.), \$6.00; 100 lbs., \$14.50; grain bags, 20 cts. extra. By mail, postpaid, lb., 30 cts.; 3 lbs., 80 cts.

Bersem or Egyptian Clover. Our annual clover for warm countries. A remarkable soil enricher. Sow 15 to 20 lbs. per acre, in drills; broadcast, 3 pecks. By express or freight, 10 lbs., \$2.50; 100 lbs., \$20; grain bags, 20 cts. extra. By mail, postpaid, 1/4 lb., 15 cts.; lb., 45 cts.

ALFALFA.

We have a limited supply of clean western grown seed. Seed free from buckhorn and dodder is scarce this fall. Price, by freight or express, 10 lbs., \$2.00; bush. (60 lbs.), \$9.25; 100 lbs., \$15.00; grain bags, 20 cts. extra. By mail, postpaid, lb., 30 cts.; 3 lbs., 80 cts.

Turkestan Alfalfa. Imported seed. A fair sample. Price, by freight or express, 10 lbs., \$2.00; 100 lbs., \$17.00. By mail, postpaid, lb., 30 cts.; 3 lbs., 80 cts.

SAND, WINTER OR HAIRY VETCH.

Highly recommended for fall sowing. Especially fine for orchard covering. It succeeds in all soils and also withstands extremes of heat and cold. Remains green and furnishes pasture all winter. It is perfectly hardy. Sow 1 bushel (60 lbs.), per acre. Price, by freight or express, 10 lb., \$1.25; bush., \$6.00; 100 lbs., \$9.50; grain bags, 20 cts. extra. By mail, postpaid, lb., 30 cts.; 3 lbs., 75 cts.

DWARF ESSEX RAPE.

Greatest pasture food known for hogs, sheep and calves. Its leafy stalks resemble rutabaga, but are larger and more numerous. Sow from August to October. 5 lbs. will sow an acre. By express or freight, at purchaser's expense, 10 lbs., 70 cts.; 25 lbs., \$1.45; 50 lbs., \$2.70; 100 lbs., \$5.00; bags, 20 cts. each. True imported Essex seed, lb., 20 cts.; 3 lbs., 55 cts., postpaid.

WINTER RYE.

Our seed is a nice clean strain of the heavy yielding, long straw variety. Price, by freight or express, pk., 35 cts.; bush., \$1.10; 10 bush., \$10.00; bags, 20 cts. each.

WILD RICE.

This seed can be sown in the fall on the borders of lakes, etc., to great advantage, affording excellent feed for wild fowl. Also a valuable forage plant for swamps and inundated lands, stock being fond of it both when green and when cured for fodder. We are careful to secure fresh and not kiln dried seed. 1 lb., 55 cts., postpaid; by express, 5 lbs., \$1.20. Write for prices in quantity.

WINTER TURF OATS.

This valuable grain may be sown at any time from August as late as the ground can be worked as well as early in the spring. 1 lb., 25 cts.; 3 lbs., 60 cts., postpaid; by express or freight (on cars at Chicago or New York), pk., 40 cts.; bush., \$1.25; 2 bush., \$2.35.

TIMOTHY.

An excellent grass for fall sowing. Sow 15 to 20 lbs. per acre. 45 lbs. per bush. Recleaned seed, by freight, 10 lbs., 75 cts.; bush., \$2.50; 100 lbs., \$5.00; bags, 20 cts. each extra. 1 lb., 18 cts., postpaid. Prices subject to market changes.

RED TOP.

This is our most permanent native perennial grass. An essential to all fall meadow seeding. There are two grades—the fancy and the unhulled—both perfectly clean.

Price—Fancy (bush., 32 lbs.), by freight, 10 lbs., \$1.50; 100 lbs., \$10.00; grain bags, 20 cts. extra. By mail, postpaid, lb., 28 cts.

Unhulled (bush., 14 lbs.), by freight, 10 lbs., \$1.00; 100 lbs., \$6.50. By mail, postpaid, lb., 23 cts.

MEADOW MIXTURE.

We make a specialty of pasture and meadow mixtures. A mixture of a number of grasses produces a much heavier, thicker and long continued growth than where only one or two varieties are sown. We have a number of standard formulas and will always be pleased to furnish estimate for special mixture. We use nothing but the best samples of each grass. Write for prices.

WINTER VETCH.

WINTER WHEAT.

If ordered shipped from New York prices on the above in bushel lots and upwards are 50 cts. per 100 lbs. additional, to cover extra freight and cartage. In all cases the purchaser pays freight or express charges.

Mushrooms.

These delicacies are easily grown if given the proper conditions. Such conditions are not hard to establish and hundreds of people are successfully raising Mushrooms in their basements, cellars and outbuildings. Any of the books mentioned below furnish the necessary information for success.

Bear in mind, however, while the Mushroom crop pays as well as any vegetable when grown rightly, there are no such profits as many so called dealers and growers would have us suppose.

We can always furnish fresh Mushroom Spawn, receiving six to eight shipments every year from the most reliable maker in England, and monthly shipments from our American manufacturers.

Pure Culture Garden City Spawn. This is the Spawn produced according to the valuable discoveries made recently by American investigators. Through the method of inoculating bricks by means of test-tube cultures—the larger yielding varieties only—are produced, and to some degree of certainty the kind of crop to be produced may be determined beforehand. We keep on hand only the "Cream Brown" variety, as we think for general purposes this is the heaviest yielding variety. Other sorts supplied on inquiry. Sold by the brick. Per brick, 35 cts.; 5 bricks, \$1.40, postpaid; by express, 10 bricks, \$1.85; 25 bricks, \$3.75; 100 bricks, \$12.

English Mushroom Spawn. It comes in pressed bricks weighing about twenty ounces. These are broken into pieces the size of a walnut and put into beds 8 inches apart each way. Per brick, 25 cts.; 5 lbs., \$1, postpaid; 1 y express or freight, per brick, 15 cts.; 2 for 25 cts.; 8 bricks, \$1; 25 lbs., \$2; 100 lbs., \$6.50; if shipped from New York, \$6.

French Mushroom Spawn. Put up in boxes of two pounds each. Per box, 75 cts.; if by mail, \$1.20. The same, loose, lb., 35 cts.; if by mail, 45 cts.; 10 lbs., \$3.20.

ROBINSON'S MUSHROOM CULTURE. A cloth bound book, giving directions how to prepare Mushroom beds and raise Mushrooms. 50 cts., postpaid.

MUSHROOMS. HOW TO GROW THEM. By Wm. Falconer. The most complete book ever published in America on the cultivation of Mushrooms. Per copy, \$1, postpaid.

How to Grow MUSHROOMS. 10 cts. each, or free with \$1's worth of Mushroom Spawn.

PARSLEY.

VAUGHAN'S "CHICAGO PARKS" LAWN SEED.

Many of the best lawns in the United States are produced from our lawn mixtures. The Chicago Parks Lawn Grass seed mixture originally made for use in our famous City Parks has been sold at our store for many years with general satisfaction.

It is composed of those grasses of lasting value and hardness, which when once established do not die out for years. It will produce an even dense growth of permanent sward as early as it is possible to do with hardy and long living grasses. Each ingredient of the mixtures is a fancy sample of that particular grass and as clean as it is possible to make it. If to go by mail, add 8 cents per pound for postage.

SOWN WITH VAUGHAN'S CHICAGO PARKS LAWN SEED.
Vaughan's Lawn Fertilizer Highest Chemical Analysis.

Lawn grass is a voracious feeder and will not thrive and hold its beautiful dark green color and velvety appearance unless it receives a sufficient supply of suitable food. Because few appreciate this fact is the reason there are so many poor, rusty-looking lawns. Stable manure is unpleasant to handle, ill-looking and decidedly odorous, and is also full of waste material. It contains weed seeds, which are obnoxious, and it often takes years to eradicate the weeds, causing an unnecessary amount of labor. All these objections are obviated by the use of our **Lawn Fertilizer and Vaughan's Lawn Seed.**
