LILIUM CANDIDUM.

TO GROWERS OF FORCING BULBS, AZALEAS and Like Imported Stock.

Some advantages we claim in caring
for your orders.

FIRST EARLY SHIPMENTS.

We import by fast steamer one-fourth of our Roman Hyacinths, Freesias and Paper Whites needed for Thanksgiving and Christmas trade. By doing this we put those kinds of bulbs in your hands two weeks earlier than if you wait for your entire order from Holland and France.

All bulbs bought of us will be A No. 1 on delivery and if not satisfactory then, in every way, may be returned or exchanged.

We invite the most critical inspection on arrival and customers are not expected to keep or use any that are not as represented herewith.

We ship no plants or bulbs in original cases without inspection at New York or Chicago.

If any of our stocks open up poorly on arrival we can replace them with satisfactory stock within five days, at original prices. Rejected stock from Europe cannot be replaced under six weeks, or must be repurchased here at advanced prices and delays.

LILIUM HARRISII.

We are strictly headquarters for these, controlling some of the best bulbs in Bermuda. The packing and shipping will be supervised by our own traveler.

We ship from Chicago or New York.

Our Rule—"All Florists' Stock in Season."

NARCISSUS.

PAPER WHITE GRANDIFLORA.

It is a well-known fact that of late years this Narcissus has shown a tendency to come blind and especially so when grown from small bulbs.

In placing our contracts with French growers we are careful to secure the largest bulbs that are obtainable and the grade of these which we offer under the name of "Star" brand is the choicest stock to be had in France, and we are only able to obtain each year a limited number of them. Our experience has been that they are well worth the difference in price over the smaller grades. However, the quality which we offer under the heading "Fancy" is a selected grade from the general stock. As stated before our supply of Giant-Forcing Bulbs is limited, and we can only supply to customers who give us a general order for other Fall Bulbs. We will be pleased to quote a price on application.

AZALEA INDICA.

Our arrangements with the Belgian nurserymen are for the best plants which the season can produce—well-shaped heads, well budded—believing that with Azalea as with Valley, “the best is always the cheapest.”

The following varieties are what we consider the finest sorts for commercial purposes or private conservatories. We can, however, import for our customers any special kinds they may wish.

WHITE CALLA. (CALLA AETHIOPICA.)

The Calla is one of the most profitable and easily grown bulbs a Florist can buy, and we take great pains in securing every year bulbs which are well ripened and cured, securing our stock from growers in California who thoroughly understand the raising, curing and shipping of these bulbs. We have arranged again this year for a large amount of bulbs, but would advise early ordering by our customers in order to be sure of their supply, especially of the larger sizes.

LILIAM HARRISII.

LILIAM HARRISII.

INDISPENSABLE FOR EARLY FORCING.

We secure our entire supply of these bulbs from one concern, who for the past few years have been working up a stock of what we consider to be the old original Liliam Harrisii. In addition to this we will supervise the packing and shipping of the crop through our own representative, thus insuring careful grading and preventing mixture of Longiflorum and other objectionable types.

Under these conditions we ask your orders for the best selected true Harrisii that can be obtained from Bermuda.

LILIAM HARRISII, Doeii Type.

This variety is a selection from the ordinary Harrisii, and is considered to be the healthiest type of Lily grown in Bermuda. Our grower has a very select stock, and we recommend it especially to those who have had hard luck with Harrisii in recent years. Will not force quite as early as Harrisii.

LILIAM LONGIFLORUM.

JAPAN GROWN.

Our Japan growers are instructed to avoid early digging and give us only ripened bulbs such as should with reasonable care give good results when forced under glass. While we cannot make any guarantee as to the result of forcing Lily Bulbs our Japan growers understand this stock as well as any exporters from that country.

MULTIFLORUM TYPE.

The true variety under this name will produce more flowers per bulb than other types, but it is difficult to secure true stock of this unimixed with other grades. Our Japan growers promise that our stock shall contain 80 per cent. true type.

GIGANTEUM (Dark Stem.)

While ordinarily considered later than other varieties of Longiflorum, it has proven with our customers as early as any, and when shipped and planted fairly late has formed fine plants even in growth and fairly early in season. The type is free flowering and true. The dark stems readily prevent mixture in the growing crop.

LILIAM CANDIDUM.

"THICK PETELED."

This has been very satisfactorily and profitably forced by several customers the past season. It comes free from disease, even, and pays.

It is known to most growers of this Lily that there are two strains. The flowers of each show in substance a marked difference. The better one shows a wider flower, with petals much more firm and greater substance. We import at a much larger cost the true "Thick Peteled" bulbs and they have given our customers excellent satisfaction. We offer it as the best and most substantial type of Liliam Candidum.

In reply to yours of the 6th regarding Lilies: We had a very nice lot of Longiflorum Multiflorum this season, the bulk of them from Vaughan's Seed Store, were the best lot we ever had. Referring further to Lilies, we wish to state that the 5 to 7 Harrisii you shipped us were very satisfactory and gave us early flowers and were in good shape. We have given you the bulk of our Lily order this year and hope we can say as much or better in a year from now.

VAUGHAN'S INTERNATIONAL PRIMULA MIXTURE.

This mixture is composed of the most salable colors of Single Flowering Chinese Primulas, the best white, pinks and reds, with a sprinkling of other colors enough to give a large variety of colors, the most important shades predominating. We have taken special pains to make this mixture as complete as possible and unreservedly recommend it to every one.

VAUGHAN'S PANSIES.

MASTERPIECE—NEW GIANT CURLED.

This strain comes nearer to "Double Pansies" than anything ever introduced under that name. In reality the number of petals is the same as that in other Pansy flowers, but they are crimped and curled in such a fashion that the flowers appear double. The flowers are of enormous size, often 3 inches across, and the color variations and combinations are odd and striking. Trade Pkt., 50c.; ½ oz., 75c.; ¼ oz., \$1.35; oz., \$5.00.

PSYCHE. Not one of the many Pansy varieties has such a winning appearance as Psyche. The plant is perfect in habit and very floriferous. Each flower is elegantly curled and undulated and in every respect a beauty in form and color. The characteristic five velvety violet blotches or eyes are surrounded by a broad white edge. Comes true from seed. Trade Pkt., 50c.; ½ oz., 80c.; oz., \$5.00.

BRIDESMAID. The flowers of this new interesting variety are very large and of fine form. Its ground color is a Rosy White, rivaling in delicacy and beauty with the finest Apple-blossom, and most strikingly setting off the dark blotches of the center. Trade Pkt., 25c.; ½ oz., 50c.; oz., \$3.75.

RUBY. This new variety embraces the richest shades of red colors from scarlet, scarlet-orange, wine-red to rose. Originating from the Giant Cassier class it possesses the same regular dwarf habit of the plants and the large size and fine form of the flowers. Trade Pkt. (250 seeds) 25c.

GIANT PRETIOSA. The flowers of this novelty are similar to those of the Masterpiece Pansy, each petal is marked with a very large blotch of deep violet color, these blotches are surrounded by a brilliant crimson rose background and the ground color is margined with a pure white edge. A very effective and bright variety, and we are sure that this novelty will please our customers. Trade Pkt. (250 seeds), 25c.

NEW ORCHID--FLOWERED PANSIES. A most interesting type of Pansies of the Giant Flowered Class, containing a mixture of the most surprising, novel, unique and beautiful color combinations, entirely new among Pansies. The ground color of nearly all the flowers is in light shades, the petals are marked with large brown or golden yellow blotches which diffuse into rays and veins toward the edge. The upper petals are upright and sort of plaited, which gives the flowers their resemblance to orchids. The colors range in the terra cotta shadings as well as in the flesh, orange, rose, pink and lilac. Trade Pkt. (250 seeds), 25c.

VAUGHAN'S "ELITE" MIXTURE OF PANSIES. This is not a complete mixture like our International; it does not contain any pure white, yellow or any self colors, nor any other of the well-known kinds. It is comprised of the cream of four Pansy specialists' choicest and most expensive mixtures and such new and novel kinds as listed above. It is a mixture that will please everybody who knows and likes Pansies and can appreciate quality in color, shape, size and substance, in fact everything that makes a perfect Pansy. VAUGHAN'S INTERNATIONAL PANSIES

—THE WORLD'S BEST. This is a combination of as many separate colors, types, blendings and unique kinds as can be found in the world. It has been made up and sold by us for fourteen years; it is the best general mixture in existence and is most widely known and popular. It is used by most florists. It received the highest award at the Columbian Exposition and was awarded the gold medal at Omaha in 1898, and a medal at the Buffalo Exposition in 1901. It contains the cream of the Pansies listed on this page and besides 8 different strains, the crack selections of noted Pansy specialists, which we purchase every year especially for this mixture and which cannot be had in any other way. We beat the world on Pansies.
