VICKS GARDEN AND FLORAL GUIDE

From the Oldest Mail Order Seed House in America

1933 — Our 85th Year of Service to the Best Gardeners in America

WE present to you Vicks Garden and Floral Guide for 1933 in the sincere hope that it will help you to have a better garden this year than you ever have had before.

As you read over the pages of this Garden Guide you will find many old favorites you want to grow again this year. They are like old friends which we are glad to see around us year after year. And there are strangers too—many of them—more this year than in years gone by. Learn of their charm and beauty, see pages 4 to 8. Among them there are quite a few that you will want to get acquainted with—they are so fascinating and interesting. The five full pages of new and rare flowers are bound to have a special appeal to many of our friends.

And there are many other flowers we have added to this book because they are so lovely and charming.

Our Founder

James Vick

Fair dealing and sterling honesty guided our eminent founder to the success he achieved, and today the business is carried out with the same high principles.

Our reputation as originators and introducers of new Quality Asters is world-wide, yet our special strains of both Flower and Vegetable Seeds are equally as fine. Avail yourself of the opportunity to secure your seed from America's Oldest Mail Order Seed House.

We offer you Vicks eighty-five years of continuous service and the excellent reputation our seeds enjoy as full proof of our integrity and reliability. Thousands of customers—many of them old friends of Vicks—testify to the dependable service you will receive from us.

No effort nor expense has been spared to obtain for you the finest seeds and bulbs. You are assured of receiving goods of the highest quality at most reasonable prices. High quality, reasonable prices, and satisfactory service is with us more than a slogan—it is a first purpose steadfastly followed.

Lowest Prices for Seeds of Highest Quality

Our Catalog Brings to Your Door a Famous SEED STORE

Vicks Garden and Floral Guide gives you an opportunity to make a careful and wise selection from a wider range of varieties than you can find in the seed stores of most towns or cities. Comfortably seated at home you can leisurely plan your garden either alone, or let your family take part in this pleasure, with no one to urge you to buy something you don't want. You may take your time, though we particularly appreciate early orders before our rush season begins.

Our Seeds Are Tested For Vitality

No matter how fine the ancestry of seeds, they must be full of vitality and vigor to grow. All James Vicks seeds are most carefully tested to insure a high percentage of strong and vigorous germination. You can depend upon them to grow.

For Quality

Quality of the seed is fully as important as vitality. The two must go hand in hand to insure your success. Vicks Seeds are carefully tested for quality, in addition to being grown from carefully selected, healthy plants which are true to type and represent the highest perfection of the variety.

Send us the Names of Your Gardening Friends

We shall be glad to send Vicks Garden and Floral Guide to any of your friends who are interested in gardening. A list of names and addresses of such friends and acquaintances enclosed with your order will be appreciated.

Florists & Market Gardeners

Those who grow for market sales will be interested in our special price list for Market Growers and Florists. If you grow for market ask for a copy of this interesting free booklet.

You are Assured of Prompt and Efficient Service

You can rely upon us to give you prompt and accurate service at all times. Nearly every order for seeds is filled and shipped the same day as it reaches us. All orders for seeds, bulbs, and miscellaneous goods as offered in our catalog are dispatched directly from our Rochester plant. Orders for seeds, fertilizers, insecticides, books, etc., will be filled immediately. Bulbs of any kind will be forwarded with the seeds, provided weather conditions are conducive, otherwise they will follow later, but in ample time for planting.

Our Double Guarantee

We guarantee the safe arrival of all goods ordered from us. If any article purchased from this catalog arrives in unsatisfactory condition, we shall gladly send a duplicate of it or make a refund of the purchase price, whichever you prefer. Furthermore, we guarantee the germination and quality of James Vicks Seeds, Bulbs, and Roots to the full amount of the purchase price. If you are not satisfied, we will refill the order or refund the price paid us for the Seeds, Bulbs, and Roots any time within a year after the order was received. As much depends upon weather, soil, and cultural conditions, it is expressly agreed that in no case shall James Vick be liable for more than the actual amount of money paid for the goods.

We Pay the Postage

James Vick pays the postage on everything offered in this catalog.

How to Order

Use the order sheet in the back of this book. Please write very plainly, and always give us your full name and address. Remit by Money Order, Draft, or Check. If you send cash or postage stamps with smaller orders be sure to register your letter. Above all, don't forget to give your name and address.

Order Early

With your garden planned, it is well to have your seeds and bulbs at hand for an early start. There are many things that can be started in the house long before the outdoor planting season has arrived.

Vicks High Quality Lawn Grass Seed

The Lawn provides the setting for—and is the frame to the picture presented by the house and garden. All efforts of landscaping are naught without a beautiful lawn. To achieve a beautiful lawn, select your grass seed with care as all

depends upon the quality of the seed. Our grass seed mixtures are the results of years of experimentation and those who plant them know that there is no finer seed obtainable. They are prepared in accordance with our carefully tried formulae.

All Grass Seed will be delivered to you, transportation prepaid.

5600 Vicks Park Lawn

Our Finest Lawn Grass Mixture

This mixture is the result of years of testing to determine the ideal combination of various lawn grasses that will give a smooth, thick, compact, deep, velvety green lawn. It is unsurpassed for lawns around the home, polo grounds, baseball grounds, schools, and parks. We take particular pride in this special mixture which we know from comparative trials cannot be excelled. All seeds in this mixture are of the highest vitality. They are heavy, plump, and vigorous, free from chaff or objectionable weed seeds. You are bound to be delighted with the results from Vicks Park Lawn Grass Mixture. $\frac{1}{2}$ lb. 30c; lb. 50c; 2 lbs. 90c; 5 lbs. \$2.00; 10 lbs. \$3.75; 15 lbs. \$4.50; 25 lbs. \$7.25; 50 lbs. \$14.25; 100 lbs. \$28.00.

5606 Vicks Terrace Sod

Especially prepared for terraces and embankments where deep-rooting grasses are needed to hold the soil firm. Produces a velvety, bright emerald green lawn. $\frac{1}{2}$ lb. 30c; lb. 50c; 2 lbs. 90c; 5 lbs. \$2.00; 10 lbs. \$3.75; 15 lbs. \$4.50; 25 lbs. \$7.25; 50 lbs. \$14.25; 100 lbs. \$28.00.

5813 White Dutch Clover

Many gardeners like an extra thick stand of clover in their lawn as it helps to make the sod thick and deep besides choking out undesirable weeds in the lawn. Use it at the rate of 1 lb. to every 2000 sq. ft. of lawn, but sow separately as Clover seed is much heavier than grass seed. Pkt. 5c; $\frac{1}{4}$ lb. 25c; lb. 65c; 2 lbs. \$1.20; 5 lbs. \$2.85; 10 lbs. \$5.50.

It is Easy to Make a Fine Lawn

With every order for Vicks Lawn Grass Seed we shall be glad to send upon request simple instructions for making a fine lawn. All you need is Vicks Quality Grass Seed, a workable soil, a spade, and a rake. The lawn roller you can borrow from a neighbor or rent from a neighborhood store.

5602 Vicks Velvet Lawn

This mixture is composed of several grasses of a high standard of purity and germination properly proportioned to produce a thick and permanent turf. It will produce a very dense growth of dwarf-growing grasses which are easy to mow and present a uniform thick turf. A few weeks after sowing this grass will make a thickly sodded lawn which maintains its velvety appearance throughout the season. Though not our best mixture it will, nevertheless, produce a beautiful rich green lawn of good permanence. $\frac{1}{2}$ lb. 25c; lb. 35c; 2 lbs. 65c; 5 lbs. \$1.50; 10 lbs. \$2.75; 15 lbs. \$3.60; 25 lbs. \$5.75; 50 lbs. \$11.25; 100 lbs. \$22.00.

5601 Vicks Shady Lawn

Unexcelled for use in shaded places where ordinary grass seed will not thrive. Thorough preparation of the soil and regular watering during dry weather will make the grass grow into a close thick turf. $\frac{1}{2}$ lb. 30c; lb. 50c; 2 lbs. 90c; 5 lbs. \$2.00; 10 lbs. \$3.75; 15 lbs. \$4.50; 25 lbs. \$7.25; 50 lbs. \$14.25; 100 lbs. \$28.00.

5603 Golf Links Mixture

A blend of fine-bladed grasses which will withstand frequent close cutting and heavy trampling. Contains no white clover. Sow 150 lbs. per acre. Lb. 45c; 2 lbs. 85c; 5 lbs. \$2.00; 10 lbs. \$3.50; 25 lbs. \$6.75; 50 lbs. \$13.25; 100 lbs. \$26.00.

5604 Putting Greens

A mixture composed of various Bent grasses with Creeping Bent predominating. It will produce a smooth even turf that withstands frequent close cutting and intense trampling. Only the highest grade seed is used. Lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.75; 10 lbs. \$11.00; 25 lbs. \$25.25; 50 lbs. \$50.25; 100 lbs. \$100.00.

How Much to Sow

1 lb. to 10 x 20 ft. (200 sq. ft.)
5 lbs. to 25 x 40 ft. (1000 sq. ft.)
25 lbs. to 50 x 100 ft. (5000 sq. ft.)
100 lbs. to 100 x 200 ft.
(20000 sq. ft.)
150 to 200 lbs. are needed to sow one acre.

When reseeding an old lawn, about half the above quantities will be needed for the given spaces.

Finest Recleaned Grass Seeds

For separate sowing, or making up your own mixtures.

5750 Creeping Bent

(*Agrostis stolonifera*) This is a valuable grass which is used for putting greens, for tennis courts, etc. It is low-growing and stands up well under the hard use that grass receives in such locations. Creeping Bent is very desirable for the choicest show lawns and is included in our best mixtures. Lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.75; 10 lbs. \$11.00.

5759 English or Perennial Rye

(*Lolium perenne*) This hardy grass is valuable in lawn grass mixtures, because it will grow nearly 3 times as fast as any other lawn grass. Also of high value in meadow and pasture mixtures. Lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25.

5756 Kentucky Blue

(*Poa pratensis*) A very valuable lawn grass of a deep green color. When used for lawn purposes, the seed is generally sown at the rate of 30 to 40 lbs. per acre. Kentucky Blue is uninjured by extremes of cold or drought and does best on rich soil containing ample lime. Lb. 40c; 2 lbs. 70c; 5 lbs. \$1.50; 10 lbs. \$2.50.

5760 Red Fescue

(*Festuca rubra*) This is the only Fescue Grass adapted for lawns. It produces a thick, drought-resistant turf particularly on loose sandy soils. Its texture is rather wire-like. It is rapid-spreading, one plant often growing six feet in diameter. Lb. 45c; 2 lbs. 80c; 5 lbs. \$1.75; 10 lbs. \$3.00.

5753 Red Top

(*Agrostis vulgaris*) This is a valuable variety for sowing lawns and golf courses. It should be sown together with other grasses as if sown alone it soon disappears. It does well on both moist and quite dry soils. For lawns sow 15 lbs. to the acre. Lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25.

5764 Wood Meadow

(*Poa nemoralis*) This grass is particularly valuable for sowing under high trees where few other grasses will grow satisfactorily. It makes a compact green sod. Wood meadow is a flat, low-growing, non-creeping grass. Very dark green in color and of medium texture. It is the best grass for sowing under trees where a lawn is desired. Lb. 55c; 2 lbs. \$1.00; 5 lbs. \$2.25; 10 lbs. \$4.00.

**Sensational New
Double, Sweet-Scented
Nasturtium
Golden Gleam**

Only one Free packet to a customer this year.

This is one of the most sensational New Flowers created in recent years. It is talked about everywhere. Great, double, yellow flowers: fragrant and lovely. No other Nasturtium is half so beautiful.

You will be delighted with Golden Gleam. The double or semi-double blooms, $2\frac{1}{2}$ to 3 inches across, are carried on stiff stems about 6 inches long. The vigorous, dwarf plants grow with short runners 18 inches in length.

All during the summer and fall the bushes are covered with the lovely large blooms. Golden Gleam is easy to grow. It is wonderful for garden display and is especially fine as a cut flower.

A regular 25c packet of Golden Gleam will be included Free with your order amounting to 50c or more. And see below about the extra gift we send you if your order amounts to \$2.00 or more.

Special Reward **For Early Orders of \$2.00 or more**

PICTURE some of these glorious tall spikes of giant Gladiolus in your 1933 garden in so famous a variety as King George. Magnificent large flaring blooms of a glowing scarlet-red—its brilliance accentuated by a large, rich yellow throat. The mammoth blooms are set closely on a solid and strong spike of unusual length. You are bound to be delighted with its rich color, large size, and artistic proportions. These bulbs sell for 20c each (see page 45), but a sufficient number were planted last year to make this offer possible. To encourage early orders

If this stock becomes exhausted, we will send another variety equally as fine. So select your seeds and bulbs now, and mail your order **RIGHT AWAY!**

Lovely NEW Flowers

Arctotis

1427 Scapigera Mixed Add this interesting hardy annual from South Africa to your garden this year. The plants make a vigorous growth about 12 in. tall and bear a great profusion of large Daisy-like blooms measuring $2\frac{1}{2}$ to 3 in. across. Includes many shades such as orange, terra cotta, yellow, cream, light scarlet, etc. Pkt. 35c; $\frac{1}{8}$ oz. \$1.35; $\frac{1}{2}$ oz. \$2.50.

Balsam

1504 New Gardenia-Flowered A striking novelty in which the large double Gardenia-like blooms are borne on top of the flower stems. Includes many fine colors. Fine for cutting. Pkt. 25c; $\frac{1}{4}$ oz. \$1.00; $\frac{1}{2}$ oz. \$1.85.

Golden Beam

Calendula

1609 Golden Beam Every gardener who has grown the new Calendula Radio which was introduced a few years ago will be interested in this splendid companion variety which has flowers of the same lovely round form made up of quilled petals. The color of the blooms is a beautiful rich lemon-yellow. It is an easy-to-grow annual which will bloom from mid-summer until frost. Pkt. 35c; $\frac{1}{4}$ oz. 75c; $\frac{1}{2}$ oz. \$1.25; oz. \$2.25.

Annuals

The Best 1933 Introductions

We wish that every gardener could at least try a few of the many splendid novelties which we are offering on these pages. They are not merely different from a botanical standpoint but represent varieties of outstanding beauty and charm. Some are improvements on existing sorts; others are entirely new, having come to us from distant lands. All of them are easy to grow and will give a fine display of flowers that will delight you and your friends who are bound to be interested in the new things you have growing in your garden.

Campanula

1632 New Annual

There are going to be thousands of gardeners who will be delighted with this new Campanula which in all respects looks not much different from the single Canterbury Bell so highly appreciated in our summer gardens. It differs, however, from the old-fashioned popular variety, in being an annual which will bloom profusely the first year if the seed is sown early in the spring. This overcomes the difficulty of carrying the plants over winter, a procedure with which many gardeners have had sad experiences. Be sure to include it in your order this year. Pkt. 50c; $\frac{1}{8}$ oz. \$1.10; $\frac{1}{4}$ oz. \$2.00.

Felicia

Kingfisher Daisy

1989 Bergeniana Most of the Felicias grown heretofore were greenhouse plants but this new variety is lovely for giving a splendid display in the garden. It has showy Daisy-like flowers, $\frac{3}{4}$ in. across, of a beautiful rich blue shade, set against graceful foliage. Pkt. 35c; $\frac{1}{16}$ oz. 75c; $\frac{1}{8}$ oz. \$1.25; $\frac{1}{4}$ oz. \$2.25.

5385 Collection of Four Easy to Grow New Flowers

To induce many of our gardening friends to try some of the best new annual flowers which we offer this year, we have combined these four and offer them at a specially reduced price. The collection contains one packet each of Campanula, New Annual; Dahlia, Unwin's Dwarf Hybrids; Nicotiana, Crimson Bedder; and Ursinia aethioides. Value \$1.45 for **\$1.00**

Lemon Queen

Dimorphotheca

Lemon African Daisy

1939 Lemon Queen Many of our customers are acquainted with the African Daisy Hybrids and have been growing them year after year because they make such a showy and colorful display in the garden. Lemon Queen has a charm all its own with its beautiful lemon colored flowers having a blue-black central zone. Pkt. 35c; $\frac{1}{8}$ oz. 75c; $\frac{1}{4}$ oz. \$1.25.

Heliophila

Cape Stock

2115 Leptophylla "Sun Lover"—that is the literal translation of the word Heliophila and refers to the fact that the plants require full sun to do well. It is an excellent annual native to South Africa. It will make a fine border or it may be grown in pots. The compact bushes bear a profusion of large flowers about $\frac{1}{2}$ in. in diameter. They are of a striking rich blue color and have a clear white eye in the center. Pkt. 35c; $\frac{1}{8}$ oz. 90c; $\frac{1}{4}$ oz. \$1.50.

Lupine

2281 Hartwegii Giants The finest, most majestic, and strongest of all Lupines forming a great quantity of vigorous, strong stemmed flower spikes each set with 25 to 50 large individual blooms. Grows 6 ft. tall and is of handsome appearance. Includes many beautiful and rich colors. Pkt. 35c; $\frac{1}{4}$ oz. \$1.00; $\frac{1}{2}$ oz. \$1.75.

James Vicks Garden and Floral Guide brings to you a complete and up-to-date index of the finest flowers and vegetables for your garden. All James Vicks seeds are guaranteed to grow.

Delightful Surprises for 1933

Annuals

Nicotiana

Flowering Tobacco

2483 Crimson Bedder With the introduction of this new variety, the value of the Flowering Tobacco has been greatly increased because the compact dwarf plants of this variety are splendid for dwarf beds and borders. They grow only 15 in. tall. Rich deep crimson flowers borne in great profusion. Pkt. 35c; $\frac{1}{2}$ oz. 55c; $\frac{1}{4}$ oz. \$1.00.

Poppy,
Begonia-
Flowered

Larkspur

New Giant Imperial

2215 Gloria Rich deep rose of a purity which places this new variety in a class by itself. The color is entirely free from any carmine shading. Large, fully double flowers arranged on long, strong stems. Pkt. 30c; $\frac{1}{4}$ oz. 60c; $\frac{1}{2}$ oz. \$1.10; oz. \$2.00

2216 Peach Blossom Like all Giant Imperial Larkspurs, this lovely clear pink variety forms a great many long, showy, and strong flower spikes which start from the base of the plant. The color is particularly lovely. Pkt. 30c; $\frac{1}{4}$ oz. 60c; $\frac{1}{2}$ oz. \$1.10; oz. \$2.00.

Sweet
Scented
Double
Nasturtium,
Golden
Gleam

The Sweet Scented

Double Nasturtium

2403 Golden Gleam

If you had room enough to grow only one new flower and should ask us for our opinion as to which we recommend as the very finest, our answer would be the new Sweet Scented Golden Gleam Nasturtium. We make this recommendation without any reservation, being fully aware that there are many other beautiful flowers offered on these pages. Golden Gleam, however, is unique. It has lovely, well rounded, quite double blooms of a most intense rich golden yellow color. In addition the flowers have a distinct and lovely rich fragrance not found in any other variety. The plants make a dwarf bushy growth with short stocky runners reaching a length of about 18 inches. They bloom continuously from mid-summer until frost. Pkt. 25c; $\frac{1}{2}$ oz. 60c; oz. \$1.00.

Dwarf

Dahlias

1929 Unwin's Dwarf Hybrids

These new hybrids are not just another type of Dahlias grown from seed, but they are entirely distinct and have a number of features that make them most valuable to all gardeners. You will be surprised to hear that they are as easy to grow from seed as Asters or Zinnias. They are exceedingly free blooming, with single and semi-double flowers of many colors carried on plants growing 24 in. tall. Started in March, the plants will begin blooming in June. Pkt. 35c; $\frac{1}{2}$ oz. 85c; $\frac{1}{4}$ oz. \$1.50.

The Newest Giant-Flowering Petunia

2568 Giant Pink Empress Huge, deep rose-pink blooms with a contrasting golden yellow throat and brown veining in the center. The blooms are deeply fluted and exquisitely fringed. They measure $3\frac{1}{2}$ in. in diameter and are borne profusely on compact, well rounded plants suited for pots and for bedding. Blooms profusely from early summer until frost. Pkt. 35c; $\frac{1}{128}$ oz. 85c; $\frac{1}{4}$ oz. \$1.50.

A Beautiful New Bedding Petunia

2569 White Cloud Plants of this new large-flowered Bedding Petunia appear like a white cloud since the blooms are borne with such wonderful profusion as to completely hide the foliage. This makes this new variety valuable for beds and borders to give good contrast to all other colors from mid-summer until frost. The plants make a compact growth and are also splendid for growing in pots. Pkt. 25c; $\frac{1}{128}$ oz. 70c; $\frac{1}{4}$ oz. \$1.25.

Poppies

2663 Begonia-Flowered Mixed The resemblance of the large, fully double blooms of this magnificent new type of annual Poppy to the double Begonia is so great that many people would not discover the difference until examining them more closely. The individual blooms are large, measuring 3 to 4 in. in diameter. They are composed of innumerable small silky petals which are attractively crinkled and have an exquisite silky sheen. The color range is particularly variable and rich. Pkt. 20c; $\frac{1}{4}$ oz. 50c; $\frac{1}{2}$ oz. 85c; oz. \$1.50.

2666 Taplow Pink An annual Poppy with large double flowers resembling huge pink Carnations. $2\frac{1}{2}$ ft. Pkt. 25c; $\frac{1}{4}$ oz. 60c; $\frac{1}{2}$ oz. \$1.00.

2665 Salmon and Pink Shades A choice selection of salmon and pink shades made from the lovely Shirley Poppies. Includes single, double, and semi-double flowers. Pkt. 25c; $\frac{1}{4}$ oz. 60c; $\frac{1}{2}$ oz. \$1.00; oz. \$1.75.

2664 Dazzler Here is a Poppy you can start in the house and transplant to the garden just as you do with Asters. It has very large, brilliant orange-scarlet blooms carried on slender and flexible stems 18 in. long. The brilliant color of the blooms is most desirable during early summer when few other really good orange-scarlet flowers are in bloom. We highly recommend it. Pkt. 25c; $\frac{1}{4}$ oz. 60c; $\frac{1}{2}$ oz. \$1.00.

2535 The Famous Blotched Swiss Giant Pansies

Those who have seen or grown this wonderful new strain of Pansies are unanimous in proclaiming it the finest Pansy ever offered to gardeners. It is the result of many years careful selection made by a foremost Pansy specialist in Switzerland. The blooms are all of extra large size and they are carried on fine strong stems which make them particularly suitable for cutting. The individual blooms are well rounded and contain so much substance that they are gracefully waved and frilled. The plants are compact, vigorous, and extremely free-flowering. The most outstanding characteristic, however, is the beautiful range of unusual colors and shades. All of the plants display a large blotch of a beautiful deep color contrasting well with the marginal shading.

Pkt. 50c; $\frac{1}{6}$ oz. \$1.00; $\frac{1}{8}$ oz. \$1.85; $\frac{1}{4}$ oz. \$3.50; $\frac{1}{2}$ oz. \$6.50.

Lovely NEW Flowers

Marigold

New Carnation-Flowered
2300 Guinea Gold

Through yearly selections plant raisers have been able to improve the general appearance of our old-fashioned Marigold, yet the improvements were not startling. Unexpectedly, however, we find ourselves presented with this distinctive "break" which is bound to make Marigolds again extremely popular. Guinea Gold is most outstanding in every way. It makes a strong bush 2 to 3 ft. tall and gives a fine display with its lovely large blooms formed not unlike large Carnations. Its form is distinct yet its greatest value lies in the pure, rich, and brilliant golden color of the large double blooms. Pkt. 15c; $\frac{1}{8}$ oz. 55c; $\frac{1}{4}$ oz. 95c.

Scabiosas

Pincushion Flower

Large-Flowering Dwarf

2739 Coral Rose A splendid new dwarf variety, growing only 8 in. tall. The plants are covered with quite large, fully double blooms of a bright coral-red shade. The compact and well rounded habit of the plants makes them ideal for beds and edging. Pkt. 25c; $\frac{1}{4}$ oz. 75c; $\frac{1}{2}$ oz. \$1.25.

2740 Fiery Scarlet Brilliant cerise-scarlet blooms borne profusely on compact plants which grow 18 in. tall. Splendid for beds and borders. Blooms continuously from mid-summer until frost. Pkt. 25c; $\frac{1}{4}$ oz. 75c; $\frac{1}{2}$ oz. \$1.25.

Snapdragons

Large-Flowered, Semi-Tall

Compact, well rounded bushes growing 12 to 18 in. tall. Produces splendid stocky flower-spikes closely set with lovely large and showy flowers.

1330 Cheviot Maid Supreme Glowing clear pink blooms free from any yellow lip. Fine for forcing. Pkt. \$1.00; 3 pkts. for \$2.50.

1326 Daffodil A glorious bedding and cutting Snapdragon with lovely lemon-yellow blooms. Pkt. 35c; $\frac{1}{8}$ oz. 75c; $\frac{1}{4}$ oz. \$1.25.

1327 Newport Golden Shades of lemon-yellow and gold. Very large; for garden and forcing. Pkt. \$1.00; 3 pkts. for \$2.50.

1328 Rose Queen Large rich deep rose blooms. Pkt. \$1.00; 3 pkts. for \$2.50.

1329 Sun Tan A charming variety with large rosy tan flowers having a distinct yellow lip. Pkt. \$1.00; 3 pkts. for \$2.50.

Tall Giant or Maximum

Magnificent tall plants growing $2\frac{1}{2}$ to 3 $\frac{1}{2}$ ft. in height. The long and strong flower stems are set with extra large and heavy flowers.

Newport Golden

Salvia

2717 Harbinger Compact plants, 18 in. tall, completely covered by showy and stocky flower-spikes which are closely set with large, brilliant scarlet flowers. Blooms continuously until frost. Pkt. 25c; $\frac{1}{8}$ oz. 75c; $\frac{1}{4}$ oz. \$1.25.

2718 Farinacea, Blue Bedder This annual blue-flowering Salvia grows $2\frac{1}{2}$ to 3 ft. tall and carries a great abundance of elegant, long, graceful flower spikes set with lovely rich blue flowers. They are excellent for garden display and splendid for cutting. The plants are a mass of color by early fall and continue to bloom until frost. Pkt. 35c; $\frac{1}{8}$ oz. 90c; $\frac{1}{4}$ oz. \$1.50.

Statice

2766 Sinuata, Compact Blue This new variety of Statice is bound to displace all others of the same color on account of its greatly increased vigor, more showy blooms, and richer coloring. Through careful plant selection the originator succeeded in developing compact-growing plants of exceptional vigor with beautiful deep violet-blue flowers arranged in large and showy racemes. The compact growth and free blooming habit make it desirable for garden and winter bouquets. Pkt. 40c; $\frac{1}{4}$ oz. 70c; $\frac{1}{2}$ oz. \$1.25.

3975 Sweet Wivelsfield
Dianthus barbatus X Allwoodii

This is an English origination representing a cross made between Sweet William (*Dianthus barbatus*) and D. Allwoodii. It incorporates the desirable characteristics of these two plants in a generous measure. The plants are compact and produce a great quantity of lovely flowers in many bright colors, many of them edged with white. Though a perennial, it will bloom the first year yet it unfortunately is not very hardy. Pkt. 25c; $\frac{1}{8}$ oz. 60c; $\frac{1}{4}$ oz. \$1.00.

Delightful Surprises for 1933

Tithonia

The Golden Flower of the Incas

2840 Speciosa A stately plant growing 10 ft. tall producing lovely, large, bright orange blooms not unlike miniature Sunflowers from mid-summer until frost. Was grown in Peru by the Incas 400 years ago when the first white man arrived. Pkt. 25c; $\frac{1}{8}$ oz. 45c; $\frac{1}{4}$ oz. 80c.

Venidium

Monarch of the Veldt

2885 Fastuosum Among the new annuals which have been introduced recently from South Africa this splendid new Venidium stands out as a majestic acquisition which belongs in every garden. It is easy to grow and has attractive light green, woolly foliage. The elegant, large, Daisy-like flowers have long and wide bright orange-yellow ray-petals set so closely together as to form a complete circle. The dark center adds beautiful contrast. Blooms from mid-summer until frost. Pkt. 35c; $\frac{1}{8}$ oz. 90c; $\frac{1}{4}$ oz. \$1.50.

Annuals

A New Flower From South Africa

Ursinia

Jewel of the Veldt ®

2875 Anethoides Few new annuals have appealed to the fancy of so many flower growers as this graceful new plant which has come to us from the "Veldt" of South Africa. The plants grow 1 ft. tall and bear a great profusion of Daisy-like blooms, each with a small dark center surrounded by graceful, bright golden yellow petals arranged in starlike fashion. At the base of each flower petal is a glossy jet black spot. The lovely, slender, and graceful foliage provides a fine background for the flowers. Blooms until frost. Pkt. 25c; $\frac{1}{8}$ oz. 50c; $\frac{1}{4}$ oz. 85c; $\frac{1}{2}$ oz. \$1.50.

New Large

Verbena

2921 Beauty of Oxford Hybrids ®

The beautiful Beauty of Oxford Verbena has become extremely popular but unfortunately it does not produce seed. These Hybrids, however, which are a cross between Beauty of Oxford and Luminosa, set seed and give us shades ranging from clear rose-pink to deep rose-red, making it the brightest rose Verbena ever produced from seed. The individual flowers measure over 1 in. in diameter and are, therefore, half again as large as those of Beauty of Oxford. They combine into magnificent large flower trusses. Blooms from mid-summer until frost. Pkt. 40c; $\frac{1}{8}$ oz. 75c; $\frac{1}{4}$ oz. \$1.25.

The New Ruffled Sweet Peas which are bound to become extremely popular as soon as they are better known are described on page 35.

New Perennial Flowers from Seed

The Best For 1933

Every one of these new perennial flowers is outstanding in its way. They are easy to grow and showy.

Candytuft

3602 Delicate Pink ® This perennial Candytuft is an ideal plant for perennial borders, beds, or for the rock garden. The plants grow only 4 in. tall and bear a great profusion of bright pink blooms. The dwarf compact habit makes this variety ideal for rock gardens. Pkt. 25c; $\frac{1}{8}$ oz. 75c; $\frac{1}{4}$ oz. \$1.25.

Delphinium

3672 Cambridge Blue A splendid light blue Delphinium belonging to the popular Chinensis type which will bloom the first year if the seed is sown early in the spring. The plants make a strong vigorous growth, 2 to 3 ft. tall, and produce a great number of elegant slender flower-spikes set with large blooms of a clear and showy light blue shade. The plants are perfectly hardy if grown in a well-drained location. Pkt. 35c; $\frac{1}{8}$ oz. 90c; $\frac{1}{4}$ oz. \$1.50.

Blue Grotto

3671 Belladonna, Blue Grotto This new hardy Larkspur resembles the popular Belladonna in stately growth and free blooming habit. The large single flowers are set closely on an elegant long and strong stem. They are an intense pure indigo-blue color which glistens and sparkles due to its clearness and richness. The plants grow 3 ft. tall and give a fine display in the summer garden. Pkt. 50c; $\frac{1}{8}$ oz. \$1.10; $\frac{1}{4}$ oz. \$2.00.

Gaillardia

3733 Torchlight You will like this new Gaillardia which brings to us an entirely new habit due to the stiffness and rigidity of the stems. The plants make a compact growth 2 to 2½ ft. tall and bear a great quantity of gorgeous, golden yellow blooms each with a rich crimson-maroon center. Blooms exceedingly freely throughout the summer. Pkt. 30c; $\frac{1}{8}$ oz. 55c; $\frac{1}{4}$ oz. \$1.00.

Beautiful New Hollyhocks

These are best grown as biennials though they often last for a number of years. They bloom from July on into September.

Hollyhock Triumph

3790 Triumph Vigorous plants, 4 to 5 ft. tall, producing many splendid flower-spikes closely set with attractively waved and fringed flowers in a most magnificent and varied assortment of colors. It is an early and most profuse bloomer. Pkt. 25c; $\frac{1}{8}$ oz. 60c; $\frac{1}{4}$ oz. \$1.00.

3788 Double Crested Begonia-Flowered Gorgeous spikes set with large double crested Begonia-like flowers. Comes in many beautiful and rich colors. Pkt. 25c; $\frac{1}{8}$ oz. 60c; $\frac{1}{4}$ oz. \$1.00.

Vicks New Asters for 1933

Annuals

Indian Summer

New Giant Crego Aster

1068 Indian Summer

Gardeners everywhere will be very much interested in this splendid new color which heretofore has been missing in the popular Giant Crego type of Aster. The blooms are a magnificent, luminous, cinnabar-red. There is a glow and warmth to these huge, well formed blooms that makes them one of the brightest spots in the garden. The flowers run true to form. They are composed of long, narrow, gracefully twisted and curled petals which give the blooms a most artistic, loose, and graceful appearance resembling a giant Japanese Chrysanthemum rather than an Aster. Indian Summer is a vigorous and strong growing variety making a sturdy, upright growing bush about 2 ft. tall. The individual flower stems are long, strong, and flexible which makes it easy to arrange the blooms in vases for house decoration. As most of the flower stems emerge from the base of the plants, the blooms can be cut with long stems so desirable when used in vases.

Pkt. 15c; $\frac{1}{8}$ oz. 45c; $\frac{1}{4}$ oz. 80c.

The Novel Late Flowering Aster

1211 Apricot

The more delicate shades are as much in favor with gardeners as the deeper colors and we are, therefore, certain that this magnificent new late flowering Aster with its lovely apricot-colored blooms will find many ardent admirers. Apricot belongs to the late blooming Beauty type which produces its gorgeous, huge flowers very late in the season after all other Asters have passed their prime. In common with others of this type, Apricot is quite hardy and will often flower freely after the first light frost has ruined other garden flowers. The plants grow $2\frac{1}{2}$ ft. tall and produce a mass of elegant long-stemmed blooms. Pkt. 50c; $\frac{1}{8}$ oz. \$1.10; $\frac{1}{4}$ oz. \$2.00.

The First of A Splendid

New Type of Aster

1212 Golden Salmon

Seldom does it happen that the first of an entirely new type of Asters possesses a color which is as beautiful as this new variety. The splendid, large, double blooms measure $2\frac{3}{4}$ to $3\frac{1}{2}$ in. across. They are perfectly round and of a lovely salmon-yellow color when they first open. As the flowers age they deepen in color until they are rich salmon-pink. Of vigorous growth with flowers resembling gorgeous Peonies in shape. As long stemmed as the American Beauty Asters.

Pkt. 35c; $\frac{1}{8}$ oz. 95c; $\frac{1}{4}$ oz. \$1.75.

Mammoth Peony-Flowered

A Beautiful Improved Type

Careful selection carried on over many years has produced this Mammoth Peony type of Aster which in general appearance resembles the Perfection Asters listed by us for many years. The difference between the two types is most obvious since the Mammoth Peony-flowered Asters have considerably larger flowers of more refined form. They are round, fully double, and composed of broad, incurved petals which lie close together and give the blooms a majestic and dignified appearance. The plants form vigorous, upright growing bushes $1\frac{1}{2}$ to 2 ft. tall. The individual blooms measure $4\frac{1}{2}$ to 5 in. in diameter and they are fully as deep. The long, strong, flexible stems make this new type of Aster most desirable for cutting.

We are convinced that this marvelous improved type of Asters will be welcomed by our many friends who are always interested in the latest improvements made in this great annual flower. It is a perpetual-flowering midseason class.

1130 Azure Fairy Beautiful clear azure blue flowers with silvery reflex.

1131 Maiden's Blush Delicate pink, shaded warm cream.

1132 Peach Blossom Has all the loveliness of a peach blossom.

1133 Swansdown Magnificent, well rounded, pure white blooms.

Any of the above:

Pkt. 30c; $\frac{1}{8}$ oz. 65c; $\frac{1}{4}$ oz. \$1.20.

1134 Mixed Colors The four lovely colors described above blend particularly well and give a harmonious, colorful display of a loveliness that is most charming. Pkt. 25c; $\frac{1}{8}$ oz. 60c; $\frac{1}{4}$ oz. \$1.10.

Vicks Famous Asters

We point with pride to the many Vick originations of beautiful Asters which have found their way into gardens all over the world wherever Asters can be grown. In addition to the distinct new types we have introduced, we have also improved many older types through careful selection of individual plants carried on over a large number of years.

The superiority of Vicks Asters has made them famous everywhere. Among the Vick introductions we have such types as the Daybreak Asters (introduced in 1897), the ever popular Late Branching Asters, and the most popular of all—the famous Rochester Asters. Furthermore there is "Pink Enchantress" and that colorful variety we named "Heart of France," besides many others.

About Our Asters

It stands to reason that 84 years of closest association with growing the finest Asters in the world has enriched our knowledge about them to the point where growers everywhere look upon us as the outstanding specialists in this popular annual flower.

No effort or expense have been spared to insure Vicks customers of the finest Asters that can be had anywhere in the entire world. Our reputation for Asters is so widespread that year after year we receive many orders from distant lands, including practically all of the European countries besides South Africa, Australia, China, Japan, etc.

Aster growing on a commercial scale is most fascinating and interesting primarily due to the fact that the results are in proportion to the thoroughness of the work. In selecting individual plants for propagation, only the trained eye of an expert on Asters is able to detect the advantages and shortcomings that determine the value of the individual plant as a basis for an improved strain. Our efforts in this respect have been rewarded most liberally as is proved by the quality of the Asters which we have introduced.

Success with Asters

For best results raise your Asters on a new piece of ground every year, or at least somewhere where no Asters have been grown during the last four or five seasons. Deep preparation of the soil early in the spring, 2 to 4 weeks before setting the plants out, is recommended. Fresh manure is not suited, but well rotted manure may be used if spaded under sometime before planting. Or choose a commercial fertilizer which contains 3% nitrogen, 8% phosphoric acid, and 6 to 8% potash.

Silvery Asters

1150 The World Renowned Heart of Rochester

The color of this flower is even more brilliant than its picture on the front cover—a rich glowing ruby-red. Heart of Rochester and Heart of France are the only two Asters to exhibit this splendid shade of red so unusual in this class of flowers. Heart of Rochester has the true Rochester form, with the curled and twisted petals of a "shaggy" Aster. When the flowers reach full size they are large, double, and fluffy like the picture shown above and on the front cover. While we

consider the latter to be accurate in color, it cannot show all the brilliant glints and shadings of red that the real flower displays. We have been carefully selecting this splendid variety since its introduction a few years ago so that now the plants are large and vigorous, and the flowers just as fine in size and fluffiness as the best of the Rochesters. Pkt. 40c; 1/8 oz. 70c; 1/4 oz. \$1.25; oz. \$3.75.

VICKS ROCHESTER ASTERS

1156 Silvery Rose Rochester (Illustrated above)

An Aster with great fluffy blossoms made up of long, narrow curved petals, and of that silvery rose shade which is so popular. The color is gorgeous deep lilac-rose overlaid with a delicate silvery sheen giving it exceptional beauty. The size of the blossoms further enhances the glory of their superb coloring. The plants are robust and strong-stemmed, displaying their flowers to full advantage. Can you imagine anything lovelier than a vase of these Silvery Pink Rochesters, unless it is a bed of them in full sunlight, the huge flowers glistening and glinting in a sparkling rose iridescence? Pkt. 25c; $\frac{1}{2}$ oz. 60c; $\frac{3}{4}$ oz. \$1.00; oz. \$3.00.

1157 White Rochester

The pure white, fluffy flowers are truly exquisite. They are borne on long stiff stems which make them most desirable for cutting. A specimen plant of the White Rochester is truly a thing of beauty with its huge flowers, its color emphasized by the contrast of the rich green of the foliage. There are often a dozen or more blooms to a single plant. Pkt. 20c; $\frac{1}{2}$ oz. 50c; $\frac{3}{4}$ oz. 90c; oz. \$2.75.

5077 Vicks Famous Collection of Six Superb Rochester Asters

Six choice colors of this wonderful class of Asters were chosen for this collection. They are the largest, fluffiest Asters grown. We know that you will be pleased with them. There is one packet each of:

Heart of Rochester... (Ruby red)
 Silvery Rose..... (Very fine)
 White..... (Pure white)
 Lavender... (Clear light lavender)
 Shell Pink..... (Delicate pink)

Most Beautiful of Asters

Originated by James Vick

This foremost type of Aster originated from our Mikado Asters. It is a remarkable improvement over that type, resembling the large shaggy Chrysanthemums offered by florists. The flowers have very long and narrow petals which are gracefully curled and twisted. The carefree arrangement gives a lightness and grace which makes the Rochesters the most artistic of all Asters. They are the largest Asters of any now in cultivation and their immense size is equalled by their freedom of bloom. The flowers are always double to the very center. The large number of long narrow petals and their massive arrangement gives the effect of a huge powder puff. The plants are strong, vigorous, and well-branched. The flowers are carried on strong, stiff stems. This as well as their beauty makes them ideal for cutting. This type was named for the City of Rochester where our firm has been doing business for all its 84 years. Rochester is known as "The Flower City," and we feel that this surpassing Aster is admirably suited to bear so honorable a name.

1154 Rose Rochester

This gorgeous, colorful Aster has huge, fluffy flowers carried on long stiff stems. They are a beautiful and enchanting shade of rose. Their artistic color, size, and freedom of bloom makes them highly desirable for planting in the border. It is also well adapted for planting by florists and others for commercial use. This Aster has won itself many friends and we find it in great demand all over the country. Rose Rochester runs true to the type of Rochester Asters whose superiority over all other varieties of this class of flowers is now unquestioned. We offer it with full confidence that it will give great satisfaction in any sort of planting. Pkt. 20c; $\frac{1}{2}$ oz. 50c; $\frac{3}{4}$ oz. 90c; oz. \$2.75.

The
Lavender-
Pink
Rochester
Aster

1152 Lavender-Pink Rochester *(As illustrated)* *The Original Rochester Aster*

No flower introduced in recent years has created more favorable comment than this magnificent lavender-pink Aster. It was adopted as the official flower of the city and named Rochester. The petals are narrow, very long, and gracefully reflexed. The outer petals show to their full extent, while toward the center the petals bend and curl with artistic freedom, creating the fluffiest Aster we have ever seen. It is a most exquisite shade of apple-blossom-pink. The plants are vigorous and it is not unusual to find one with a dozen long graceful stems, each with a flower $4\frac{1}{2}$ to 6 inches in diameter. The blooms are so large that a bed of this variety becomes a solid mass of color. You cannot select a more gorgeous Aster for your garden than Lavender-Pink Rochester. Pkt. 20c; $\frac{1}{8}$ oz. 50c; $\frac{1}{4}$ oz. 90c; oz. \$2.75.

1155 Shell-Pink Rochester

This is an extremely beautiful and dainty flower of a gorgeous and very lovely soft shade of shell pink. It is admirably adapted for both home and commercial growing, and is most attractive in any border because it harmonizes so well with other colors. We succeeded in perfecting this fine color after many years of careful selection. The perfect flowers are extra large. They have long, narrow, gracefully curled and twisted petals, making the blooms resemble a giant Japanese Chrysanthemum. It has proved to be equally as fine a variety as the original Lavender-Pink Rochester. The plants are similar to the Late Branching varieties in that they are large, strong, and produce many long flower stems. It is not unusual to find from 8 to 10 of the immense flowers in bloom on one plant. Pkt. 20c; $\frac{1}{8}$ oz. 50c; $\frac{1}{4}$ oz. 90c; oz. \$2.75.

1151 Lavender Rochester

This favorite has long narrow petals falling over one another in a charming cascade of color, forming a wonderful shaggy mass that gives the same artistic effect as the other colors of the Rochester type of Asters. The color is a lovely clear lavender, a shade which is in great demand. It blends beautifully with other colors and is effective in all floral arrangements. Lavender Rochester is highly prized by all who have ever grown it. Stems unusually long. Pkt. 20c; $\frac{1}{8}$ oz. 50c; $\frac{1}{4}$ oz. 90c; oz. \$2.75.

1153 Purple Rochester

This flower has all the exceptional characteristics of size and graceful formation typical of all other colors in the Rochester class, but the blooms are even larger, more double, and more Chrysanthemum-like than the original Lavender-Pink. Its exquisite rich deep purple hue is entirely distinct from all other colors in this class of Asters. It combines beautifully with the lighter shades and its color is intensified and made more brilliant by the contrast. The shaggy, curled, and twisted petals are an ideal foundation for the velvety splendor of this variety with its gorgeous display of high-lights and shadows. Pkt. 20c; $\frac{1}{8}$ oz. 50c; $\frac{1}{4}$ oz. 90c; oz. \$2.75.

1158 Mixture of Rochester Asters

Those who love Asters will delight in the gorgeous beauty of this mixture. It contains all the colors of these double, gracefully curled, and most artistic Rochester Asters. It is a mixture that will make a wonderful display in the garden because of the harmony of its beautiful colors. Pkt. 15c; $\frac{1}{8}$ oz. 50c; $\frac{1}{4}$ oz. 85c; oz. \$2.50.

Vicks King Asters

5066 Collection of Five Favorite King Asters

This delightful assortment contains one Pkt. each: Shell Pink, Prince of Wales, Violet, White, and Crimson. These 5 packets with a value of 50c will be sent for..... **40c**

King Aster, Rose

King Asters are favorites with many Aster growers. The large size flowers have distinctive beauty with their long, narrow, much folded petals appearing quilled. This characteristic gives the flowers a bold and striking appearance. The plants are large and the stems exceedingly strong, which is one reason why King Asters are in such demand as cut flowers. The flowers also have better lasting qualities than any other variety.

1100 Crimson This color is by far the richest and most brilliant crimson we have seen in any Aster of similar form. No flower will make a more striking appearance in the garden than this King Aster.

1101 Lavender Large graceful flowers of a delightful deep lavender shade. The flowers are quite large and fully rounded.

1102 Lavender-Pink Delicate lavender-pink. This is an exceptionally beautiful shade which is most desirable as a cut flower. The blooms are large, fully double, and of magnificent size.

1103 Prince of Wales This variety is deep blackish blue. It is the darkest of all King Asters, in fact, one of the darkest of all Asters. Black Knight is maroon-black, while Black Prince is blue-black. A color so unusual as this always receives comment and the flowers add distinction to every garden where they are planted. Prince of Wales also makes an unusual cut flower.

The plants of the favorite King Asters are very vigorous and sturdy, growing 1½ to 2 ft. tall. They should be in every garden, as they always are attractive and outstanding. They are especially desirable for bedding and for cutting purposes. We recommend them to home gardeners as well as to those who raise flowers for the market. Their exquisite form gives them particular charm.

1104 Rose A most gorgeous shade—deep brilliant rose, the color intensified by shadows cast within the quill-like petals. You will like this color.

1105 Shell Pink This color is enchanting and goes well with the attractive formation of the blooms. In the garden or in bouquets, either by itself or combined with other varieties, Shell Pink always is beautiful and lovely. It is a newer variety and one for which we worked many years until we perfected its loveliness.

1106 Violet Immense flowers of rich violet-purple. The blooms are quite thick with a "whorl" in the center of the freshly opened flowers. This is the first and original King Aster.

1107 White White Asters always are popular and this variety is no exception. It has purity of color combined with exceedingly graceful form. The flowers are artistic with elegant quill-like petals. Most desirable for cutting.

Any variety above:

VICKS

Novelty Aster

Mixture

A wonderful mixture of all classes and colors of Asters. The seed for this mixture was saved on our own experimental grounds where the extremely fascinating work of improving old varieties and developing new ones is carried on. Anyone interested in growing flowers will be delighted with this assortment. Besides the colorful display it will give in the garden, it provides for quantities of cut flowers throughout the late summer and early fall. It gives you a splendid opportunity to have all types and colors at the least cost. Remember that it includes all our best as well as unusual varieties. Pkt. 15c; ½ oz. 50c; ¼ oz. 85c; oz. \$2.50.

Vicks Late Branching Asters

Vicks Late Branching Asters are in demand wherever good Asters are grown. We take great care to maintain the quality of our strain by careful selection of the finest and most perfect plants. This insures a continuous improvement for larger flowers, stronger stems, and sturdier plants. The flowers are immense. Their broad petals are closely massed to form a solid, globe-shaped flower. The blooms are exquisite, somewhat like a fluffy Peony. The long-stemmed flowers are borne in great profusion all during the fall. Frequently the stems are 2 feet in length.

1016 Azure Blue The blooms are a lovely clear deep lavender-blue of remarkable depth and purity. Highly valued by both amateur and professional gardeners.

1017 Crimson Beautiful, ball-shaped, rich glowing red flowers on long strong stems. They are always admired for their rich color.

1018 Dark Blue Lovely deep blue flowers of even a deeper shade than the purple Late Branching.

1019 Deep Rose Sturdy plants bearing a profusion of large, fully double flowers of a fascinating shade of rich rose. A splendid variety.

1020 Lavender This is a beautiful variety. The flowers are clear deep lavender. We highly recommend this to all gardeners, professional and amateur alike.

1021 Lavender-Pink Upon opening, the flowers are almost white changing to a beautiful lavender-pink. A very showy and profuse blooming variety.

1022 Shell Pink (*Mary Semple*) The large graceful flowers are an exquisite shade of light shell pink. An exceedingly beautiful Aster.

1023 Peach Blossom This Aster blooms later than the other colors of this class. The large, very double flowers are a beautiful shade of peach-blossom-pink. They are borne in the greatest profusion on long strong stems. Very popular with Aster growers everywhere.

1024 Purple These magnificent rich velvety purple flowers are fully double. They are of beautiful shape and large size.

1025 Snow White This is the latest blooming of the Branching type. The plants are exceptionally strong and produce a profusion of showy, pure snow white blooms until frost. White Asters are always admired.

Crego or Giant Branching Comet Asters

This is one of the best known and most popular type of Asters. The huge flowers have long, narrow, loosely-arranged petals which are gracefully curled and inter-laced. The tall branching plants are similar to Vicks Rochester Asters. They are vigorous and produce many blooms. It is a mid-season type blooming just before the Late Branching. The long stems make this an excellent variety for cutting.

Queen of the Market Asters

This is the earliest of all Asters. It comes into flower in July and is exceptionally fine for cutting. The plants are of branching habit, growing about 15 inches tall. The beautiful flowers are quite large, nearly round, and elegantly formed. They are carried on long slender stems. This variety is especially popular with all gardeners for an early display in the garden and for cutting.

1135 Crimson Deep red.

1136 Dark Blue A rich color.

1137 Light Blue Bright and lovely.

1138 Deep Rose An exquisite color.

Vicks Royal Asters

This is an early-flowering type of branching habit. Its flowers follow those of the Queen of the Market. The double flowers average $3\frac{1}{2}$ inches across. Their very broad petals are curved inward toward the center. The flower stems start from the base of the plants assuring long stems for cutting. These plants grow 2 to $2\frac{1}{2}$ feet tall, and bloom abundantly.

Vicks Perfection Asters

The flowers of this class of Aster are of exquisite form, rather like enormous Peonies. We consider it an excellent mid-season Aster. The plants are quite tall and stately. They are extremely vigorous with unusually broad, dark green leaves and stout stems. The mature flowers have centers completely covered with a "whorled" mass of curled petals.

1120 Crimson Large flowers of fine form. They are carried on long stout stems. A rich color.

1121 Lavender A light shade of lavender. True Perfection type.

1122 Purple Rich purple. A most desirable Aster of largest size.

1123 Rose Deep bright rose. A large globular flower.

1124 Shell Pink Large double flowers on tall slender plants.

1125 White The finest white mid-season Aster in cultivation. Flowers average 4 inches in diameter.

Early Branching Asters

The plants of the Early Branching Aster attain the size and vigor of the Late Branching but are 10 days to 2 weeks earlier. The many branches are free from side buds, the whole strength of the plant being given to the development of extra-large, perfectly-formed flowers on long stiff stems. They are especially desirable for vases and for exhibition. These Asters produce their flowers at a time when there is a scarcity of good Asters. Practically every bloom is of exhibition size.

Vicks Black Knight

1201 Vicks Sensational Black Knight

This Aster is of the darkest and most unusual shade ever developed in this class of flowers. A faint glow of red gives it a rich velvety beauty and prevents its being jet black. It wins instant admiration in bouquets or in garden plantings. The plants are vigorous; the flowers are of medium size and well filled. Pkt. 25c; $\frac{1}{8}$ oz. 60c; $\frac{1}{4}$ oz. \$1.00; oz. \$3.00.

Vicks American Asters

We list under the above heading those special individual varieties which are distinct in themselves and are not classified as belonging to any specified group of Asters.

Peerless Pink

1208 Vicks Pink Enchantress

This splendid Aster was introduced by us quite recently. It is greatly prized by our customers and large quantities are grown by commercial florists. The large flowers are a delicate pink like that of Pink Enchantress Carnation. They are carried on strong upright plants. Few flowers can equal in beauty a vase of Vicks Pink Enchantress Asters. Their splendid color holds up exceptionally well. Pkt. 20c; $\frac{1}{8}$ oz. 60c; $\frac{1}{4}$ oz. \$1.10; oz. \$3.25.

1200 Vicks Autumn Glory

This beautiful variety has flowers of pure sea-shell pink. The flowers are of good size and substance. The color is intense and lasting. It is the latest blooming of all our Asters, and prolongs the Aster season for about two weeks. Pkt. 20c; $\frac{1}{8}$ oz. 60c; $\frac{1}{4}$ oz. \$1.00; oz. \$3.00.

1204 Vicks Lavender Gem

One of the earliest varieties for outdoor planting. Its beautiful large, artistic, and loosely-arranged flowers are an exquisite shade of light lavender, deepening with age. The petals are long and curled. Pkt. 15c; $\frac{1}{8}$ oz. 65c; $\frac{1}{4}$ oz. \$1.20; oz. \$3.50.

1203 Vicks Famous

Heart of France

The World's Most Popular Aster

Originated on our own Aster Farms, this gorgeous flower is of such rich glowing red that no one can possibly pass it by. In its brief 16 years, Heart of France has won unrivalled popularity throughout the United States and abroad. When we named it the Ambassador of France, afterward President of that republic, wrote us of his appreciation of the tribute. The color is as brilliant as a ray of sunlight caught in a sparkling ruby. The flowers are large and full, borne on plants of the branching habit. Pkt. 20c; $\frac{1}{8}$ oz. 50c; $\frac{1}{4}$ oz. 85c; oz. \$2.50.

Heart of France

Vicks Superb Peerless Asters

1207 Peerless Yellow

This is by far the finest yellow Aster ever grown. It is wholly unlike any of the other so-called "Yellow" Asters which are flat and yellow-centered. Our Peerless Yellow is large, remarkably full, and ball-shaped. It is so double that it produces little seed and has remained a rarity. We are one of a few seedhouses which can supply the seed of this, the finest of our introductions. A truly splendid Aster. Pkt. 50c; $\frac{1}{8}$ oz. 75c; $\frac{1}{4}$ oz. \$1.25; oz. \$3.50.

1206 Peerless Pink

The pleasing delicate pink color might be called an "improved shell-pink". It never fails to elicit the highest praise wherever grown or displayed. It has the same vigorous and tall growth as the plants of the branching type and always produces a profusion of large, globular, very double flowers. The long, strong, and wiry stems make Peerless Pink excellent for cutting. It is a late-blooming Aster. Pkt. 20c; $\frac{1}{8}$ oz. 50c; $\frac{1}{4}$ oz. 85c; oz. \$2.50.

1205 Peerless Blue

This is the finest blue Aster ever introduced. It is as fine a flower as Peerless Yellow. The color is clear rich blue. The large flowers are full and double with gracefully curved petals. They have very long stems and the plants are a magnificent sight when in full bloom. The blooms are produced in such profusion as to almost hide the foliage. Pkt. 25c; $\frac{1}{8}$ oz. 60c; $\frac{1}{4}$ oz. \$1.00; oz. \$3.00.

1209 Vicks Silvery Pink

This exquisitely beautiful flower displays a delicate silvery sheen over a glistening pink color. The enormous double blooms are simply gorgeous. The large broad flower petals reflect the light in such a way as to add an indescribably beautiful effect to a bed or border of the large and strong-growing plants. Pkt. 50c; $\frac{1}{8}$ oz. 75c; $\frac{1}{4}$ oz. \$1.25; oz. \$3.50.

1210 Vicks Silvery Rose

This is the original Silvery Aster. The flowers are of good size. Each petal combines a lovely shade of rose with a lilac reflex, delicately threaded with glistening white which creates a distinct silvery sheen. The heart of the flower is warm glowing rose. Very unique and charming. Of vigorous growth and free flowering. Pkt. 20c; $\frac{1}{8}$ oz. 60c; $\frac{1}{4}$ oz. \$1.10; oz. \$3.25.

VICKS CHOICE ANNUAL FLOWERS

There are, perhaps, more gardeners who rely upon annuals for a showy display of flowers throughout the late spring, summer, and fall than upon any other class of plants. The reasons for this are obvious. Most annuals are so easy to grow and give a good display of flowers within a very short time after the seed has been sown. Our seed has been carefully tested and is guaranteed.

In selecting annual flowers for your garden, keep in mind the purpose you wish to achieve. There are annuals for every season of the year. Some of them are of tall growth and are best planted in the background. Others are semi-tall and make splendid beds and borders. Still others are dwarf and will give a fine display planted as edgings for small beds or in the rock garden.

Ageratum

These are pretty plants with small, fluffy, brush-like flowers produced in such gay profusion as to entirely cover the plants throughout the Summer and Fall. The dwarf varieties grow 6 to 8 in. tall and are splendid for beds and borders. The bushy little plants are also excellent for pot culture. Ageratum grows readily from seed which can be started indoors early, or sown outdoors in May.

1288 Blue Ball Lovely well-rounded plants growing 6 to 8 in. tall. They are covered with large heads composed of fluffy, pure blue flowers. Pkt. 15c; $\frac{1}{8}$ oz. 30c; $\frac{1}{4}$ oz. 50c.

1289 Blue Perfection Showy amethyst-blue flowers covering well-rounded, bushy plants about 9 in. tall. It is the darkest of all Ageratum. Pkt. 10c; $\frac{1}{8}$ oz. 25c; $\frac{1}{4}$ oz. 40c.

1290 Imperial, Dwarf Blue Compact, bushy plants 8 in. tall with rich blue flowers. Pkt. 5c; $\frac{1}{8}$ oz. 25c; $\frac{1}{4}$ oz. 35c.

1291 Imperial, Dwarf White Most attractive, with fluffy white blooms covering the entire plant. Pkt. 5c; $\frac{1}{8}$ oz. 25c; $\frac{1}{4}$ oz. 35c.

1292 Little Blue Star Compact plants covered with small bright blue flowers of a lovely color. Pkt. 15c; $\frac{1}{8}$ oz. 50c; $\frac{1}{4}$ oz. 85c.

Ageratum, Blue Perfection

Agrostemma . Rose of Heaven

1297 Coeli-rosea Bright rose-pink flowers borne profusely on plants 12 to 15 in. tall. Make succession sowings for a continued display. Pkt. 10c; $\frac{1}{4}$ oz. 25c; $\frac{1}{2}$ oz. 40c; oz. 70c.

Alyssum Maritimum

Alyssum

Every garden, large or small, must have its due share of Sweet Alyssum. There is no other annual that can take its place and will bloom as freely and continuously throughout the season. It is splendid for borders or as edgings to beds. Easy to grow, succeeding well in almost any kind of soil.

1400 Lilac Queen ® Soft lilac flowers changing to white. Blooms very freely and continuously. Pkt. 10c; $\frac{1}{4}$ oz. 25c; $\frac{1}{2}$ oz. 40c; oz. 75c.

1401 Little Gem ® A charming and most graceful Sweet Alyssum of beautiful compact growth, not more than 6 in. tall but spreading 8 to 10 in. across. Covered with fragrant white blooms. Pkt. 10c; $\frac{1}{4}$ oz. 25c; $\frac{1}{2}$ oz. 40c; oz. 75c.

1402 Maritimum (Sweet Alyssum) ® Lovely small white flowers borne in such great profusion as to cover the plant completely. Easily grown in the garden and in pots. Pkt. 10c; $\frac{1}{2}$ oz. 25c; oz. 40c.

Amaranthus

1410 Combustion Fine large crowns of iridescent fiery rose-crimson foliage. Grows 4 ft. tall. Originated by Luther Burbank. Pkt. 35c.

1411 Tricolor splendens (Joseph's Coat) Variegated foliage and bright crimson leaf-crown. 5 ft. Pkt. 10c; $\frac{1}{4}$ oz. 30c; $\frac{1}{2}$ oz. 50c.

Anchusa . Cape Forget-Me-Not

1418 Blue Bird Of compact growth, 18 in. tall, with lovely indigo-blue flowers not unlike those of Forget-Me-Not. Blooms until frost. Pkt. 15c; $\frac{1}{4}$ oz. 40c; $\frac{1}{2}$ oz. 70c.

1419 Capensis Deep blue flowers throughout the season. Pkt. 10c; $\frac{1}{4}$ oz. 25c; oz. 70c.

Blue-Eyed Arctotis . African Daisy

1426 Breviscapa This is a very beautiful Daisy from South Africa. The large blooms have rich orange-yellow ray petals surrounding a contrasting purplish maroon disc. Blooms throughout the summer. 2 ft. Pkt. 25c; $\frac{1}{2}$ oz. \$1.

1425 Grandis This is the beautiful Blue-Eyed African Daisy with large Daisy-like silvery white blooms having a sky blue eye and a yellow halo. Can stand hot weather well. 2 ft. Pkt. 10c; $\frac{1}{4}$ oz. 30c; $\frac{1}{2}$ oz. 50c.

Brachycome . Swan River Daisy

1535 Iberidifolia, Mixed ® Charming little plants covered with small Daisy-like blooms in blue, white, and lilac shades. Grows 12 in. tall and blooms profusely. Splendid for edgings and excellent for cutting. Pkt. 5c; $\frac{1}{4}$ oz. 40c; $\frac{1}{2}$ oz. 70c.

Bedding Begonias

Favorite plants of compact dense bushy growth about 1 ft. tall. They are completely covered with blooms from May until frost.

1516 Luminosa (Gracilis) Handsome, deep bronzy red foliage and bright scarlet-red flowers borne in large attractive flower clusters. Pkt. 25c; $\frac{1}{12}$ oz. 85c; $\frac{1}{4}$ oz. \$1.50.

1520 Vicks Special Mixture This is a very charming mixture of many splendid varieties. Pkt. 15c; $\frac{1}{4}$ oz. 50c; $\frac{1}{2}$ oz. \$1.50.

Larkspur is offered on page 22 **Balsam • Lady's Slipper**

1503 Improved Camelia-Flowered, Double Mixed Lovely, large, very double blooms measuring 2½ in. across. They do best in a rather light, rich soil and bloom profusely from mid-summer until frost. The plants grow 2 ft. tall. The mixture includes pure pink, shining scarlet, white, and lilac shades. Pkt. 10c; ¼ oz. 25c; ½ oz. 40c.

Carnation, Marguerite **Marguerite Carnation**

1670 Mixed Colors This strain of annual Carnation is extremely popular with many gardeners. The blooms are large, fully double, well rounded, and resemble the Giant Carnations grown by florists in the greenhouse during the winter. The Marguerite Carnation will bloom the first year from seed if it is sown outdoors early in the spring or started indoors during March. Includes many fine colors such as pink, scarlet, yellow, white, and striped varieties. The plants are 15 to 18 in. tall. Pkt. 10c; ⅛ oz. 40c; ¼ oz. 70c.

Annual Chrysanthemum

1685 Nivelli This is a delightful new variety with showy Daisy-like yellow blooms measuring 2 to 3 in. across. Easily grown from seed. Blooms profusely throughout the summer and fall. Excellent for cutting. Pkt. 15c; ¼ oz. 50c; ½ oz. 85c.

1686 Coronarium, Double Mixed Lovely double blooms in white and yellow on plants growing 3 ft. tall. Flowers continuously from midsummer until frost. Pkt. 10c; ¼ oz. 25c; ½ oz. 40c.

Calendula
Golden Ball**Calendula • Pot Marigold**

This grand old-fashioned flower has held its place in our gardens for many years. Our modern varieties are, of course, considerably larger and more free blooming than those that were grown in the gardens of our grandparents. The flowers are also of better form, more double, and are carried on fine long stems which make them suited for cutting. Calendulas prefer a rather sunny location but require little care and will thrive even when neglected. The plants grow 12 to 18 in. tall and bloom continuously from mid-summer until after the first light frosts have occurred. They are splendid, too, for growing in the greenhouse for winter displays. With the introduction of the quilled variety Radio, Calendulas have once more come to the foreground. All varieties we offer have proved favorites due to the richness and brilliance of their flowers.

1601 Golden Ball (Ball's Gold) A splendid deep golden yellow Calendula of extra large size, carrying its blooms on long, strong, sturdy stems. Besides its usefulness in the garden, it is highly recommended for growing in the greenhouse during the winter. Always of very large size. Pkt. 20c; ¼ oz. 75c; ½ oz. \$1.35.

1602 Lemon Queen Large, well-rounded, rich lemon-yellow 'blooms' composed of regularly placed, shingle-like petals. The flowers are always fully double to the very center. Pkt. 10c; ½ oz. 30c; oz. 50c.

1600 Orange Ball (Ball's Orange) A particularly striking Calendula with lovely, massive, well-shaped blooms of a most intense burning rich orange color. The blooms are large and well formed. They are carried on elegant long and strong stems. Fine for winter forcing in the greenhouse. Pkt. 25c; ¼ oz. 85c; ½ oz. \$1.50.

1603 Orange King Outstanding rich orange flowers borne profusely during the entire summer and fall. The fully double, well rounded blooms are carried on fine long stems. A vigorous, showy variety which should be in your garden. Pkt. 10c; ½ oz. 60c; oz. \$1.00.

1604 Radio This lovely new Calendula is most attractive. The large round double blooms are composed of attractively quilled petals of a clear rich orange color. Pkt. 20c; ¼ oz. 75c; ½ oz. \$1.25.

1605 Sensation This is a truly sensational new Calendula with brilliant orange, double blooms which have a distinct sheen of crimson or scarlet. Due to its long stems it is an excellent cut flower. For garden growing or the greenhouse. Pkt. 20c; ¼ oz. 85c; ½ oz. \$1.50.

1606 Double Mixed This mixture contains the very finest varieties of Calendulas and is properly blended to give a fine showy effect that will please you immensely. Pkt. 10c; ½ oz. 25c; oz. 40c.

Centaurea

Centaureas are easy to grow and are showy annuals which belong in every garden. There are various types for various purposes.

Centaurea cyanus . Bachelor's Button

Though most easy to grow, they are extremely showy, blooming continuously for many weeks particularly if the flowers are cut as soon as they have reached full size. Our strain of these Bachelor's Buttons is particularly fine, producing a great quantity of extra large blooms of fully double form. The plants grow about 2 ft. tall.

Dianthus • Annual Garden Pinks

1902 Fireball An exquisite annual garden Pink with beautiful, large, double, fiery scarlet blooms placed gracefully on plants growing about 1 ft. tall. The plants bloom profusely all during the summer and thrive particularly well on fairly heavy and fertile soil. This variety is exceptionally fine for beds, borders, and for cutting. Pkt. 5c; $\frac{1}{4}$ oz. 40c; $\frac{1}{2}$ oz. 70c.

1912 Salmon Queen Elegant large double blooms of the most charming bright salmon color imaginable. Blooms freely and continuously. Splendid for the garden and as a cut flower. Pkt. 15c; $\frac{1}{4}$ oz. 50c; $\frac{1}{2}$ oz. 85c.

1900 Chinesis fl. pl., Double Mixed What a glorious display this splendid mixture will give in the garden planted in a bed or a border! It is composed of extra large-flowering varieties with shapely clusters of fine double blooms, all very beautiful and richly colored. The attractively edged and bordered varieties add great charm to the mixture. Grows 15 in. tall and blooms profusely throughout the summer. Pkt. 10c; $\frac{1}{4}$ oz. 25c; $\frac{1}{2}$ oz. 40c.

1914 Laciniatus, Double Mixed Magnificent and colorful blooms of extra large size with elegantly fringed flower petals. Includes various shades of pink, rose, red, and maroon. Most of the blooms have attractively variegated edges of white. Free flowering and showy. Pkt. 10c; $\frac{1}{4}$ oz. 30c; $\frac{1}{2}$ oz. 50c.

1915 Vicks Single and Double Mixed This is a carefully prepared mixture which we are sure will please the most exacting of our many customers. All of the very finest varieties of annual Pinks with both single and double flowers are included. Those which carry individual blooms on a single stem are extra large blooming, and those belonging to the Chinesis type, bearing clusters of flowers on each stem, are not less showy or desirable. A bed or border of these splendid Pinks is a sight never to be forgotten. Beside a display in the garden, there will be lots of blooms for cutting. Pkt. 10c; $\frac{1}{4}$ oz. 30c; $\frac{1}{2}$ oz. 50c.

Cynoglossum • Chinese Forget-Me-Not

1875 Amabile, Blue Few new flowers have been acclaimed as quickly by as many gardeners as this splendid new variety of Cynoglossum. It has deep Forget-Me-Not blue flowers borne throughout the summer and fall on plants 18 to 24 in. tall. Pkt. 15c; $\frac{1}{4}$ oz. 40c; $\frac{1}{2}$ oz. 70c.

1876 Amabile, Pink A fine companion to the blue variety with lovely bright pink blooms borne in great profusion. Pkt. 20c; $\frac{1}{8}$ oz. 50c; $\frac{1}{4}$ oz. 85c.

Giant Cosmos

Giant Cosmos

Eschscholtzia • California Poppy

Those who appreciate pure and rich colors are bound to include some of these California Poppies in their garden. They are exceedingly free flowering and give a wonderful display of flowers from early summer until frost. The individual blooms are cup-shaped and measure 2 to 3 in. in diameter. The foliage is bluish green and decidedly graceful. It is finely cut and divided. As California Poppy plants do not transplant well, the seed should be sown where the plants are to bloom. 1 ft.

1950 Aurantiaca Magnificent, deep golden yellow flowers which glisten in the sunshine like liquid gold. They have a lovely satiny finish. The flowers are large, well rounded, and of heavy texture. Pkt. 10c; $\frac{1}{4}$ oz. 20c; $\frac{1}{2}$ oz. 35c.

1951 Autumn Glory What a glorious California Poppy! The color is both rich and pleasing—a beautiful bright orange-crimson on the outside of the petals with a lovely shading of copper on the inside. The blooms are exceedingly double. Pkt. 5c; $\frac{1}{4}$ oz. 20c; $\frac{1}{2}$ oz. 35c.

1953 Enchantress Those who do not know this variety cannot imagine just how lovely a California Poppy can be. The blooms are charming rose-carmine on a cream ground. They are very double. Pkt. 15c; $\frac{1}{4}$ oz. 35c; $\frac{1}{2}$ oz. 60c.

1952 Double Gold Cup There are few flowers that can excel Double Gold Cup in brilliance of color. The double blooms are a magnificent rich orange-yellow color glistening in bright sunlight. Pkt. 10c; $\frac{1}{4}$ oz. 30c; $\frac{1}{2}$ oz. 50c.

1958 Scarlet Beauty For added color effect, plant this lovely large single-blooming California Poppy. You will admire the splendid display made by its brilliantly colored and large, bright scarlet blooms. Pkt. 10c; $\frac{1}{4}$ oz. 35c; $\frac{1}{2}$ oz. 60c.

1960 Sunset Mixture There are many gardeners who prefer to plant separate colors in their garden, yet there are more who, due to a lack of space, will turn to this mixture in order to have a varied and colorful display of these easy-to-grow and showy annuals. We have taken extra care to include in our mixture only the largest flowering California Poppies, selecting the colors which give the most glorious color display and harmonize well. Included are all the above varieties and many others. Pkt. 10c; $\frac{1}{4}$ oz. 25c; $\frac{1}{2}$ oz. 40c.

Gaillardia • Blanket Flower

The annual Gaillardias are splendid plants for growing in the garden and for cut flowers. They thrive even during hot weather and produce an abundance of large showy flowers from July until September on plants 15 in. tall.

2000 Single, Fine Mixed Many bright and showy colors are represented in this mixture of single-flowering Gaillardias. Pkt. 5c; $\frac{1}{4}$ oz. 25c; $\frac{1}{2}$ oz. 40c.

2001 Picta Lorenziana, Double Mixed Every garden should contain some of these splendid easy-to-grow and free-flowering double Gaillardias as they give a wonderful display all during the summer. There are yellow, red, and white double flowers forming elegant large fluffy balls carried on fine long stems. Suited for cutting. Pkt. 10c; $\frac{1}{4}$ oz. 30c; $\frac{1}{2}$ oz. 50c.

Didiscus • Blue Lace Flower

1530 Coeruleus This lovely annual was well-known to our grandparents who grew it extensively in their gardens. Yet, during the past generation this flower had almost disappeared and few of today's gardeners remember it. Only within the last half dozen years has it again become an object of interest and admiration. It is a most attractive flower and originally came to us from Australia. The name Blue Lace Flower refers to the lace-like appearance of the broadly expanded flower heads which are a lovely sky blue color. It has proved to be a showy subject for the garden and is unexcelled as a cut flower. The plants grow 2 ft. tall and bloom continuously from July until frost. Be sure to include it in your plantings this season. Pkt. 15c; $\frac{1}{4}$ oz. 30c; $\frac{1}{2}$ oz. 50c.

Didiscus

Dimorphotheca • African Gold Daisy

1940 Aurantiaca A grand, easy-to-grow annual with large Daisy-like flowers of a brilliant orange-gold. Pkt. 10c; $\frac{1}{4}$ oz. 45c; $\frac{1}{2}$ oz. 80c.

1941 Hybrida This includes a wide range of colors—white, sulphur, lemon, golden yellow, salmon, rose, apricot, ecru, etc. It will make a lovely bed or a showy border. Pkt. 10c; $\frac{1}{4}$ oz. 40c; $\frac{1}{2}$ oz. 70c.

Euphorbia

A very interesting class of garden annuals related to the well-known Christmas Poinsettia. Sow the seed of these varieties where they are to bloom.

1983 Heterophylla (Five-on-the-Mountain) This is also called "Annual Poinsettia." It produces vividly colored leaves at the tip of each individual branch in much the same manner as our Winter Poinsettia but is not so brilliant. Sow seeds where to grow as it does not transplant easily. Pkt. 10c; $\frac{1}{4}$ oz. 35c; $\frac{1}{2}$ oz. 60c.

1984 Marginata (Snow-on-the-Mountain) This is a most attractive but unusual plant which is easy to grow in any kind of soil and serves both for garden display and for cutting. The small, inconspicuous blooms are surrounded by showy bright green leaves bordered with white. The top-most leaves are entirely white. The plants seed themselves easily without becoming a nuisance. Sear the cut stem end in a flame for 5 seconds before placing in water to make the branches last. Pkt. 10c; $\frac{1}{4}$ oz. 25c; $\frac{1}{2}$ oz. 40c.

Gypsophila, White

Gypsophila • Baby's Breath

The three elegant grandiflora varieties which we offer are invaluable for garden display and bouquets. 15 in. tall. Grows quickly.

2075 Carmine These lovely open bell-shaped blooms are always greatly admired. Blooms profusely. Pkt. 10c; oz. 35c; $\frac{1}{4}$ lb. \$1.00.

2077 Rose There is a particular charm to these fine light rose colored flowers. Pkt. 10c; oz. 35c; $\frac{1}{4}$ lb. \$1.00.

2076 White The most popular of all the annual Gypsophila, having lovely large white flowers. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c.

Feverfew • Matricaria

1990 Golden Ball This plant appeals to many gardeners because its compact dwarf habit makes it admirably adapted for edging flower beds and borders. It makes an even, well rounded growth of a decidedly formal appearance. The graceful, rich green foliage forms a fine background to the small, ball-shaped, golden yellow flowers. The plants grow 12 to 15 in. tall and display their small button-shaped blooms during the summer and fall. Pkt. 10c; $\frac{1}{8}$ oz. 45c; $\frac{1}{4}$ oz. 80c.

Godetia grandiflora

Godetia • Satin Flower

2040 Grandiflora, Mixed Large cup-shaped blooms in satiny rosy carmine, pink, cattleya-lavender, pure white, and salmon shades. Grows 12 in. tall and blooms all summer long. Very showy. Pkt. 10c; $\frac{1}{4}$ oz. 25c; $\frac{1}{2}$ oz. 40c.

Ornamental Gourds

2055 Fine Mixed This is a most varied mixture including many fine varieties such as Dipper, Dishcloth, Nest Egg, Spoon Gourd, Sugar Trough, and others. Pkt. 10c; $\frac{1}{2}$ oz. 25c; oz. 40c.

HELIOTROPE,
LEMOINE'S GIANT.

Heliotrope • Cherry Pie

2116 Lemoine's Giant Hybrids, Mixed Giant flower trusses with pure white, mid-blue, and deep violet flowers of rich and appealing fragrance. Pkt. 15c; $\frac{1}{2}$ oz. 50c; $\frac{1}{4}$ oz. 85c.

Annual Hollyhock

2125 Mixed A new type of Hollyhocks which will bloom the first year if the seed is sown early. Many fine colors; single, semi-double and double flowers. Pkt. 5c; $\frac{1}{4}$ oz. 30c; $\frac{1}{2}$ oz. 50c.

SANTA BARBARA POPPY

Hunnemannia • Santa Barbara Poppy

2130 Fumariaefolia A wonderful Poppy-like flower of a bright satiny yellow color. Very showy. Pkt. 10c; $\frac{1}{4}$ oz. 25c; $\frac{1}{2}$ oz. 40c.

Impatiens • Sultan's Balsam

2155 Holstii Hybrids, Large-Flowering, Mixed A lovely free-blooming annual suited for growing in full sun or semi-shade. Includes white, flesh-pink, pink, rose-salmon, orange, carmine, crimson, and violet shades. 2 ft. tall. Pkt. 20c; $\frac{1}{2}$ oz. 85c; $\frac{1}{4}$ oz. \$1.50.

Kochia • Summer Cypress

2175 Giant Christmas This is the finest Kochia ever introduced. It has delicate green feathery foliage turning to a brilliant red after frost. Fine for pots, hedges, specimens, and centerpieces to beds. 3 ft. Pkt. 10c; $\frac{1}{4}$ oz. 20c; $\frac{1}{2}$ oz. 30c.

Vicks Lovely Annual Larkspur

No garden is complete without these lovely large-flowering and colorful annual Larkspurs. They will bloom profusely throughout the summer and make a display in the garden that cannot be equalled by any other flower. They are always splendid for cutting. The newer varieties are particularly recommended to you.

Tall Branching Double Stock-Flowered

A showy, free-blooming type of Larkspur of much branched growth, producing elegant flower spikes closely set with double blooms. Grows $3\frac{1}{2}$ ft. tall.

2201 Carmine Splendid large and well-shaped round double blooms of a lovely warm carmine shade. The color is most unusual and very brilliant. Pkt. 10c; $\frac{1}{4}$ oz. 25c; $\frac{1}{2}$ oz. 40c.

2206 La France We know that you will like these large double salmon-pink blooms particularly well. Pkt. 15c; $\frac{1}{4}$ oz. 40c; $\frac{1}{2}$ oz. 70c.

2208 Los Angeles A splendid combination of soft salmon and brilliant rose. Very showy. Pkt. 15c; $\frac{1}{4}$ oz. 50c; $\frac{1}{2}$ oz. 85c.

2213 Orchid This splendid, light rosy lavender is not unlike the color of a Cattleya Orchid. Pkt. 10c; $\frac{1}{4}$ oz. 25c; $\frac{1}{2}$ oz. 40c.

2200 Sky Blue Noted for the clear loveliness of the large, bright sky blue flowers. Charming. Pkt. 10c; $\frac{1}{4}$ oz. 25c; $\frac{1}{2}$ oz. 40c.

2211 Tall Double Stock-Flowered, Mixed All colors. Pkt. 10c; $\frac{1}{4}$ oz. 25c; $\frac{1}{2}$ oz. 40c.

New Giant Imperial Double

A gorgeous strain of Larkspur! It differs from all others, growing into splendid plants $3\frac{1}{2}$ to 4 ft. tall. Because the flower spikes all branch from the base of the plant, they are particularly fine for cutting. The blooms are large, fully double, and closely set on the spike.

2203 Carmine King This is an entirely new shade, brighter and richer than any other. Lovely carmine-rose with an iridescent pink sheen. Pkt. 25c; $\frac{1}{4}$ oz. 50c; $\frac{1}{2}$ oz. 85c.

2202 Dark Blue Spire Magnificent spire-like flower trusses set with double, dark blue flowers. Pkt. 15c; $\frac{1}{4}$ oz. 35c; $\frac{1}{2}$ oz. 65c.

2204 Exquisite Pink Improved This is a shade which will appeal to most gardeners—soft pink shaded with salmon. A charming variety of indescribable loveliness. Pkt. 15c; $\frac{1}{4}$ oz. 35c; $\frac{1}{2}$ oz. 60c.

2215 Gloria A very striking and exquisite color. A beautiful rose shade of unusual depth. Pkt. 30c; $\frac{1}{4}$ oz. 60c; $\frac{1}{2}$ oz. \$1.10; oz. \$2.00.

2209 Miss California A charming new variety. Deep pink with lovely shading of bright salmon. Pkt. 20c; $\frac{1}{4}$ oz. 50c; $\frac{1}{2}$ oz. 85c.

2216 Peach Blossom Unsurpassed for delicacy of color. Pkt. 30c; $\frac{1}{4}$ oz. 60c; $\frac{1}{2}$ oz. \$1.10; oz. \$2.00.

2207 Lilac Spire Graceful and majestic long spikes closely set with large, bright lilac blooms. Pkt. 20c; $\frac{1}{4}$ oz. 50c; $\frac{1}{2}$ oz. 85c.

2210 White Spire These elegant long-stemmed flower spikes have a particularly fine appeal. Pkt. 15c; $\frac{1}{4}$ oz. 35c; $\frac{1}{2}$ oz. 60c.

2212 Giant Imperial Mixed This mixture includes all the above showy varieties. Pkt. 15c; $\frac{1}{4}$ oz. 30c; $\frac{1}{2}$ oz. 50c.

Vicks Imperial Larkspur

Glorious Marigolds

Marigolds bring a wealth of color into our gardens which is invaluable throughout the summer and fall. Few other flowers can boast of such lovely rich and clear shades of lemon and orange as we have in this easy-to-grow annual. They need no special care and will grow well even in soils which are only moderately fertile. The tall varieties make a splendid display in beds and large borders. Planted in the foreground, in beds by themselves, or used as edgings, the dwarf varieties are excellent. Be sure to include a liberal planting of the wonderful new Guinea Gold Marigold in your garden.

Tall African Double

This is an elegant large-flowering strain of Marigold with round, double blooms carried upright on long stems. The plants grow 3 ft. tall and bloom profusely from early summer until after the first light frost.

2301 Lemon Ball Lovely, large, and well-rounded, fully double blooms of a beautiful rich lemon-yellow color. It will make a fine display in the garden, and the blooms are excellent as cut flowers for the house. Pkt. 10c; $\frac{1}{4}$ oz. 50c; $\frac{1}{2}$ oz. 85c.

2302 Orange Ball This is by far the most popular of all Marigolds in existence, well deserving its approval. The blooms are extra double, of enormous size, and of a most intense brilliant orange color. Pkt. 10c; $\frac{1}{4}$ oz. 50c; $\frac{1}{2}$ oz. 85c.

2303 Tall African, Double Mixed This mixture includes all of the Tall African Double Marigolds. It will give a fine display in the garden and provide you with plenty of cut flowers, mostly in shades of orange and yellow. Pkt. 10c; $\frac{1}{4}$ oz. 30c; $\frac{1}{2}$ oz. 50c.

2300 Guinea Gold

Not only is this the most glorious Marigold we have ever seen but it is also the showiest rich orange annual flower we have ever grown. The beautiful semi-double blooms are not unlike giant Carnations borne on tree-like plants 2 to 2½ ft. tall. Most outstanding. Pkt. 15c; $\frac{1}{8}$ oz. 55c; $\frac{1}{4}$ oz. 95c.

Dwarf African Double

2310 Pride of the Garden The plants are of compact dwarf habit, forming neat little bushes 15 to 18 in. tall and 2 ft. across. Though the bushes are small, the flowers are truly immense. They are well rounded, very double, and of a beautiful golden yellow color. Pkt. 10c; $\frac{1}{4}$ oz. 35c; $\frac{1}{2}$ oz. 60c.

Lantana

2248 Hybrida, Finest Mixed A shrubby plant bearing a profusion of flower clusters mostly in shades of yellow, orange, red, and pink. Blooms all summer long. 18 in. tall. Pkt. 10c; $\frac{1}{4}$ oz. 30c.

Lobelia

This annual is known for the lovely blue color of its flowers. The compact variety is splendid for a narrow edging to the flower bed. The spreading varieties are best for larger beds or for growing in window boxes.

2265 Compacta, Crystal Palace Lovely, deep azure-blue flowers on small compact plants. Pkt. 10c; $\frac{1}{8}$ oz. 50c; $\frac{1}{4}$ oz. 85c.

2267 Erinus, Finest Mixed Shades of blue and white. Both spreading and compact varieties. Pkt. 5c; $\frac{1}{8}$ oz. 35c; $\frac{1}{4}$ oz. 60c.

Dwarf French Double

Vigorous dwarf plants growing about 1 ft. tall and bearing a great profusion of showy, small, round, double blooms which literally cover the entire plant. They are splendid for beds, borders, and for edgings.

2320 Gold-Striped Lovely double round blooms of a rich brown attractively striped with golden yellow. This is a particularly charming variety. Pkt. 10c; $\frac{1}{4}$ oz. 30c; $\frac{1}{2}$ oz. 50c.

2321 Orange Ball Small, perfectly round, double flowers of a most intense glistening orange. Makes a splendid display from mid-summer until frost and is always greatly admired in beds or borders, as edgings, or in pots. Pkt. 10c; $\frac{1}{4}$ oz. 25c; $\frac{1}{2}$ oz. 40c.

2323 Robert Beist You will like this new French Marigold with its profusion of small round double blooms of an intense mahogany-red. Pkt. 10c; $\frac{1}{4}$ oz. 30c; $\frac{1}{2}$ oz. 50c.

2322 Dwarf French, Double Mixed This includes many others besides the splendid varieties of Dwarf Double French Marigolds offered above. Pkt. 10c; $\frac{1}{4}$ oz. 25c; $\frac{1}{2}$ oz. 40c.

Single-Flowering

2324 Legion of Honor (Little Brownie) A very graceful dwarf Marigold growing 1 ft. tall. Beautiful, single, golden yellow flowers with brown centers. Pkt. 10c; $\frac{1}{4}$ oz. 25c; $\frac{1}{2}$ oz. 40c.

2325 Single Tall Josephine The plants grow 2 to 3 ft. tall and bear a profusion of medium sized, golden yellow blooms marked with maroon and crimson. It is easy to grow, and blooms continuously. Pkt. 5c; $\frac{1}{4}$ oz. 25c; $\frac{1}{2}$ oz. 35c.

2328 Signata pumila ® The dwarf showy plants are only 6 to 8 in. tall. They are completely covered from mid-summer until frost with a mass of lovely, small, bright golden yellow blooms, each displaying an orange star. Pkt. 10c; $\frac{1}{4}$ oz. 30c; $\frac{1}{2}$ oz. 50c.

Mignonette

2350 Giant Machet Broad, reddish flower spikes with a delightful rich fragrance. 12-15 in. Fall. Pkt. 10c; $\frac{1}{4}$ oz. 25c; $\frac{1}{2}$ oz. 40c.

Mirabilis • Four-O'Clock

2360 Tall Mixed This easy-to-grow annual is also known under the name of **Marvel-of-Peru**. An old-fashioned favorite which opens its blooms late in the afternoon. The bushy plants have rich green foliage and come in many fine colors such as yellow, pink, red, and white. The attractively striped and mottled blooms are particularly charming. They will attract the large, night-flying moths which gather the nectar, poising upon their wings before the flower. Blooms freely from July until frost. Pkt. 10c; $\frac{1}{4}$ oz. 20c; $\frac{1}{2}$ lb. 60c.

Be sure you include the **NEW GUINEA GOLD** Marigold in your order

Vicks Colorful Nasturtiums

Double Flowered, Sweet-Scented

2403 Golden Gleam Nasturtium

This gorgeous dwarf Nasturtium has probably caused more comment and created more enthusiasm than any other new flower. The doubleness of the large, rich golden yellow flowers and their distinct sweet scent are unique characteristics not found in any other Nasturtiums. The blooms are borne on strong stems, about 6 in. long, holding their flowers well above the foliage. Pkt. 25c; $\frac{1}{2}$ oz. 60c; oz. \$1.00.

Tall Varieties

Climbing or Trailing

2444 Tall Climbing, Mixed Prized for its great variety of rich color. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 45c.

MYOSOTIS
Forget-Me-Not

Myosotis • Forget-Me-Not

Everyone loves these old-fashioned flowers. They make a wonderful display, blooming profusely during spring and summer. They are easy to grow.

2390 Blue ® Lovely light blue flowers of a purity and richness that has become proverbial. Does particularly well in moderately moist soils. Pkt. 10c; $\frac{1}{2}$ oz. 30c; $\frac{1}{4}$ oz. 50c.

2392 Rose ® A lovely but unusual shade among the Forget-Me-Nots. Bright rose. 12 in. Pkt. 5c; $\frac{1}{2}$ oz. 20c; $\frac{1}{4}$ oz. 35c.

2394 Mixed Colors ® This mixture will make a splendid bed or border where the showy, free blooming plants with their blue, white, and rose blooms will give a wonderful display over a long period of time. Plant it liberally. Pkt. 10c; $\frac{1}{4}$ oz. 35c; $\frac{1}{2}$ oz. 60c.

2385 Palustris ® While this is a perennial Forget-Me-Not, many gardeners plant it for an annual display because the plants come into bloom very quickly. Lovely blue flowers. Pkt. 15c; $\frac{1}{2}$ oz. 50c; $\frac{1}{4}$ oz. 85c.

2386 Palustris semperflorens ® Dainty, bright blue flowers borne profusely on attractive plants about 10 in. tall. Blooms continuously from May until October. Splendid for beds, borders, and in the rock garden. Pkt. 15c; $\frac{1}{2}$ oz. 50c; $\frac{1}{4}$ oz. 85c.

Oxalis • Wood Sorrel

2498 Tropaeoloides Graceful, small, golden yellow flowers borne among dark purple-brown shamrock-shaped leaves from June until frost. Easy to grow. 6 in. Pkt. 15c; $\frac{1}{2}$ oz. 40c; $\frac{1}{4}$ oz. 70c.

Nicotiana • Flowering Tobacco

These are splendid for large beds or for planting in the background. They bloom from mid-summer until fall. The flowers are delightfully sweet scented.

2480 Affinis Lovely large fragrant white blooms borne in clusters on long stems held above the strong, heavy, rich green leaves; 3 ft. tall. Pkt. 10c; $\frac{1}{4}$ oz. 30c; $\frac{1}{2}$ oz. 50c.

2482 Affinis, New Hybrids The flowers come in shades of rose, red, and creamy white. They are sweet scented and very showy; 2½ ft. Pkt. 10c; $\frac{1}{4}$ oz. 35c; $\frac{1}{2}$ oz. 60c.

2481 Sanderae, Crimson King Lovely, sweet-scented, rosy carmine blooms arranged in large clusters. Grows 3 ft. tall and blooms profusely. Pkt. 10c; $\frac{1}{4}$ oz. 40c; $\frac{1}{2}$ oz. 70c.

Nigella • Love-In-A-Mist

One of our prettiest old-fashioned annuals doing well even under adverse conditions of soil and weather. The plants grow 12 to 15 in. tall and are a mass of bloom all during the summer and fall. Fine for cutting.

2485 Damascena, Double Mixed Oddly shaped, feathery flowers of white and also blue set amidst a crown of finely divided, light green foliage. The effect is most charming. Splendid for beds or borders and excellent as a cut flower, lasting a long time in water. Pkt. 10c; $\frac{1}{4}$ oz. 15c; $\frac{1}{2}$ oz. 25c.

2486 Miss Jekyll A particularly favorite variety with elegant, double, rich blue flowers nestled among light green foliage. The flowers are followed by curiously balloon-shaped seed-pods. Pkt. 10c; $\frac{1}{4}$ oz. 20c; $\frac{1}{2}$ oz. 30c.

Nigella, Miss Jekyll

Vicks Giant Flowering Pansies

Pansies always have been a favorite flower with our customers, and we are proud of the many giant strains offered on this page. If the seed is sown in April or May the plants will start into flower the latter part of June and continue to bloom profusely until frost, at least in sections with moderately cool summers. For early spring blooming, sow the seed in August and give the plants a slight protective covering during the winter.

Vicks
Superb Giant

2530 Oregon Giants

What a magnificent Pansy! Larger than any others we have seen. It originated in Oregon where the introducer produced flowers measuring 4 in. across. The blooms are not only extremely large but they are also carried on extra long and strong stems. This strain differs from most others in having blooms which are quite flat but this adds considerably to their actual size. Despite their flatness, there is a decided grace to these mammoth blooms due to a lovely wave that runs all along the outside edge of the petals. Few strains of Pansies can boast of as many lovely and rich colors as these splendid Oregon Giants. Pkt. 50c; $\frac{1}{16}$ oz. \$1.35; $\frac{1}{8}$ oz. \$2.50.

2525 Giant Mastodon

Just as the name implies, these Pansies are of immense size. The blooms are well-shaped and have petals of extremely heavy texture which causes them to be crinkled and so much waved as to appear almost double. Every imaginable color is found in this strain from pure white to deep mahogany, including lovely lavender, rose, and light blue shades. Pkt. 35c; $\frac{1}{16}$ oz. \$1.00; $\frac{1}{8}$ oz. \$1.85.

2520 Orchid Flowered

Though the blooms are only of medium size they nevertheless are most desirable as they exhibit rare colors and shadings not found in any other strain of Pansies. The exquisite ruffled edges also add considerably to their charm. They grow into compact, well-rounded plants which bloom profusely. Pkt. 15c; $\frac{1}{16}$ oz. 45c; $\frac{1}{8}$ oz. 80c.

2550 Vicks Bedding Mixture

These are the old-fashioned Pansies so much wanted for growing in beds where the flowers do not have to be extra large. Pkt. 10c; $\frac{1}{16}$ oz. 30c; $\frac{1}{8}$ oz. 50c.

2535 Swiss Giants

Here is a strain of Pansies that takes its place among the finest. It was originated in Switzerland by a Pansy specialist who selected it for extra large blooms of heavy texture and strong stems to hold these blooms well above the foliage. This strain includes a truly wonderful range of color with the rich dark shades predominating. All blooms are attractively blotched which gives them a particularly appealing aspect. It is splendid for beds, borders, and superb for cutting. Pkt. 50c; $\frac{1}{16}$ oz. \$1.00; $\frac{1}{8}$ oz. \$1.85.

2545 Vicks Giant Superb Mixture

There are many gardeners who like to grow a mixture of all types of Pansies with large blooms and we have taken great care to include in this splendid mixture only the largest flowering varieties in both self colors and lovely marked and blotched designs. It includes the very best introductions of both American and European growers and can be depended upon to give magnificent large blooms in rich and varied colorings. Pkt. 40c; $\frac{1}{16}$ oz. \$1.00; $\frac{1}{8}$ oz. \$1.85.

Trimardeau Giants

2502 Golden Queen Beautiful well-formed large blooms of a magnificent, rich clear golden yellow color. It blooms profusely on compact, well rounded plants. The best of the yellows. Pkt. 10c; $\frac{1}{8}$ oz. 35c; $\frac{1}{4}$ oz. 60c.

2507 Imperial Blue Few flowers can compare with this lovely large Pansy in richness of color. The blooms are very large, well-formed, and carried on fine long stems above the foliage. They are a bright rich ultramarine blue with a black blotch. Blooms freely and continuously from mid-summer until late fall. Pkt. 10c; $\frac{1}{8}$ oz. 35c; $\frac{1}{4}$ oz. 60c.

2508 Lord Baltimore A broad border of rich golden yellow surrounding a maroon-black center. Pkt. 15c; $\frac{1}{8}$ oz. 50c; $\frac{1}{4}$ oz. 85c.

5175 Collection of Trimardeau Giant Pansies

This collection contains one Pkt. each of the following three large-flowered and free-blooming Pansies: Imperial Blue, Lord Baltimore, and Golden Queen. (Value 35c) **25c** for.....

2540 Trimardeau Mixed

The Trimardeau or Giant class of Pansies includes many lovely self colors which are rare in the other mixtures offered on this page. The color range is also extremely wide including everything from a pure white to almost coal black. You will find in it some very lovely rose shades, also splendid deep wine-red, light and dark blue, yellow with and without blotches, rich royal purple, and many others by far too numerous to mention. All are large-flowering and of good form. Pkt. 10c; $\frac{1}{8}$ oz. 35c; $\frac{1}{4}$ oz. 60c.

2501 Giant Ruffled Masterpiece

A Pansy combining many unusual characteristics. The blooms are large, extremely ruffled, of heavy texture, borne on long stems, and include a lovely range of colors. You will find everything from pure white to the deepest maroon, and also some splendid orange and yellow tones seldom found in any other strain. The bright and showy rose colored blooms with and without blotches and the deep crimson shades deserve particular mention because they are present in this strain in greater abundance than in any other. Pkt. 20c; $\frac{1}{16}$ oz. 40c; $\frac{1}{8}$ oz. 70c.

5185 Collection Five Magnificent Giant Petunias

This assortment contains five of the finest Giant Petunias in existence: Copper Red, Elk's Purple, Evening Star, Robin Hood, and Theodosia. One Pkt. of each (Value \$1.70) **\$1.00** for.....

2572 Giant Fluffy Ruffles The most glorious of all Petunias. Of enormously large size with beautifully waved and artistically fringed and ruffled edges. Includes a wide range of bright and showy colors—pink, scarlet, lavender, purple, and many others. Pkt. 35c; 1/128 oz. 75c; ¼ oz. \$1.35.

2570 Large Flowering Single, Mixed This is a large flowering strain with blooms which, however, are quite a bit smaller than those of the Giants. This variety blooms profusely and is elegant for beds or borders where the colorful blooms will give a fine display throughout the season. Pkt. 25c; ½ oz. 75c; ¼ oz. \$1.35.

Bedding Petunias

These Bedding Petunias are remarkably free-flowering and are highly valued where a showy display of color is wanted from early summer until fall. They are somewhat easier to grow than the Giant flowering varieties described above and exceed them in the enormous profusion of blooms which cover the plants so that little foliage is visible.

2560 Brilliant Rose A particularly attractive bright rich rose Petunia that lends itself well to bed and border planting. The large, well-formed blooms are borne continuously. Pkt. 15c; ½ oz. 30c.

2562 Rose of Heaven There are many gardeners who prefer this to all other Bedding Petunias. The large blooms are a lovely rose shade and have white throats. Pkt. 15c; ½ oz. 30c; ¾ oz. 50c.

2563 Rosy Morn A charming variety with lovely light rose-pink blooms shading to silvery white in the throat. Pkt. 15c; ½ oz. 40c; ¾ oz. 70c.

2565 Bedding, Choice Mixed A well-prepared mixture of all the Bedding Petunias here described and a large number of others to give still greater color contrast, variety, and brilliance to beds of these splendid annual plants. Pkt. 10c; ½ oz. 50c; ¾ oz. 85c.

2591 Bedding and Balcony Petunias, Mixed Includes the best of both types. Pkt. 10c; ½ oz. 30c; ¾ oz. 45c.

2564 Snowball This makes a lovely, compact, well-rounded bush covered with small, star-shaped white blooms from mid-summer until frost. Exceedingly pretty. Pkt. 10c; ½ oz. 30c; ¾ oz. 50c.

2567 Violaacea Beautiful deep violet blooms of a color which instantly attracts the eye by its warmth and richness. Always greatly admired. Pkt. 15c; ½ oz. 35c; ¾ oz. 60c.

2561 Howard's Star Improved Lovely large blooms with a large white five-pointed star on a rich purple-crimson background. Pkt. 15c; ½ oz. 30c; ¾ oz. 50c.

5188 Collection of Bedding Petunias

The three Bedding Petunias which we offer in this collection will give a particularly striking color contrast. They are Violaacea, Snowball, and Rosy Morn. One Packet each (value 40c) for..... **25c**

2577 Fancy Fringed Double Petunias

These double Petunias do not produce any seed themselves but are the result of carefully transferring pollen from double flowers to large single flowers which will produce seed. Because only one parent producing the seed is double, part of the plants produced will be single, but through the care with which the cross pollination has been effected many of the plants you raise from this seed will give you extra large, double blooms in a varied assortment of colors and color combinations. Be sure to pay particular attention to the smaller seedlings with crumpled leaves as these are usually the ones which produce the finest double blooms. Pkt. 50c; 1/128 oz. \$2.50; ¼ oz. \$4.75.

Giant Petunias

Petunias are more widely grown in America than any other annual flower and the reasons are obvious. They do well under the most varied conditions of soil and climate and provide a display of flowers in many bright colors from early summer until late fall. Whether you choose a small-flowered variety, the Balcony Petunias, or the Giants you are bound to be impressed with their great beauty.

2576 Vicks Ruffled Dwarf Giants of California Exquisitely ruffled and fringed flowers measuring 4 to 5 in. in diameter. Contains a variety of beautiful self colors and color combinations that will delight you all during the summer and fall. There are fine light shades with delicate tints of yellow or apple green in the throat. Others are veined with light pink, lavender, or yellow. All of them are exceedingly bright and beautiful. Many consider these the most showy of all Petunias. Pkt. 45c; 1/128 oz. \$1.45.

2579 Giant Copper Red The beautifully ruffled blooms are truly enormous. They measure 5 to 7 in. across. The color is an unusual scintillating terra-cotta-red, with the throat a metallic bronze. Pkt. 35c; 1/128 oz. 85c; ¼ oz. \$1.50.

2571 Elk's Purple Lovely, large, broadly-lobed, star-shaped, rich dark Elk's purple blue flowers that will charm you with their pleasing beauty. They stand out with good contrast against the bright rich green foliage and are much prized for growing in beds and borders. Pkt. 25c; 1/128 oz. 70c; ¼ oz. \$1.25.

2580 Ruffled Pink Truly enchanting blooms of a lovely clear shade of pure light pink. The flowers are of true giant size with the edges delicately fringed and ruffled. A superb variety. Blooms freely and continuously. Pkt. 25c; 1/128 oz. 70c; ¼ oz. \$1.25.

2582 Evening Star Huge white flowers that glisten in the sun, the dazzling whiteness accentuated by their rich yellow throats. It is a splendid new variety. Pkt. 35c; 1/128 oz. 85c; ¼ oz. \$1.50.

2581 Robin Hood Massive flowers of bright rich red and a coal black center that gives a sharp but attractive color contrast. Pkt. 35c; 1/128 oz. 85c; ¼ oz. \$1.50.

2573 Theodosia Distinctly appealing, whether seen massed in beds or examined individually. The flowers are rich rose-pink with a golden yellow center. Pkt. 40c; 1/128 oz. 95c; ¼ oz. \$1.75.

Balcony Petunias

This is a very famous class of Petunias. The large showy blooms are borne from early summer to frost in lavish abundance on plants with elegant long branches. While splendid for boxes, this type is unexcelled for planting out in beds and borders. Plant them liberally for more color in your garden this season.

2585 Balcony Blue Indigo-blue. Pkt. 15c; ½ oz. 45c.

2586 Balcony Crimson Velvety crimson. Pkt. 15c; ½ oz. 35c.

2587 Balcony Rose Showy rose-pink. Pkt. 15c; ½ oz. 35c.

2589 Balcony White Pure snow white. Pkt. 15c; ½ oz. 35c.

2592 Star of California A newer variety, with velvety violet blooms shaded crimson and enhanced with large white blotches on the petals. Pkt. 15c; ½ oz. 45c; ¾ oz. 75c.

2574 Burpee's Blue We fully agree with the introducer that this is by far the most beautiful clear mid-blue Petunia ever introduced. Pkt. 25c; ½ oz. 50c; ¾ oz. 85c.

2590 Balcony Mixed We have taken great care to make sure that each of the above six Balcony Petunias is properly represented here. Pkt. 15c; ½ oz. 35c; ¾ oz. 60c; ¼ oz. \$1.10.

5181 Balcony Petunia Collection

One Packet each: Balcony Blue, Balcony Crimson, Balcony Rose, Balcony White, and Star of California. (Value 75c) for..... **50c**

SNAPDRAGONS

Favorites For

Improved Varieties

These old-fashioned flowers have undergone a marvelous change in the hands of modern plant breeders who have succeeded in improving the varieties so that they will come entirely true to their colors.

When you plan your garden, make sure that you have given Snapdragons every consideration on your planting list. You will find that they will fit in well wherever you want a showy display of blooms over a very long season, besides giving you a supply of cut flowers with fine long stems. The Half-Dwarf varieties are particularly fine for bedding, yet they have stems long enough for cutting. The new Majestic and Giant varieties will also serve for beds or borders and provide still finer cut flowers, with longer stems. The Dwarf varieties are excellent for the rock garden. The Half-Dwarfs and Giants are also favorites for greenhouse culture.

Large-Flowered, Half-Dwarf

There are many brilliant as well as delicate shades represented in this ever popular class of Snapdragons. The plants grow 15 to 18 in. tall, and due to their compact and even growth they are admirably suited for beds and borders. They will give you a mass of fine flower spikes closely set with large and interestingly shaped blooms. You will be greatly surprised to read about the many lovely new varieties which bring to you new colors, larger flowers, and more solid spikes of bloom. Starting with white and yellow we have shades of pink, rose, orange, scarlet, bronze, peach, orchid, and crimson. What magnificent colors from which to make your choice!

1321 Brilliant Crimson A color that has richness and warmth yet is by no means glaring or strong. The large blooms are a luminous shade of crimson that appeals to the eye. Pkt. 10c; $\frac{1}{8}$ oz. 50c; $\frac{1}{4}$ oz. 85c.

1300 Brilliant Rose Very effective bright rose flowers combining into magnificent trusses and borne in the greatest profusion all through the summer and fall. It is a very popular variety with many of our customers. Pkt. 5c; $\frac{1}{8}$ oz. 40c; $\frac{1}{4}$ oz. 75c.

1301 Ceylon Court A particularly robust, rust-resisting variety with beautiful canary-yellow flowers. Of highest value for winter blooming in the greenhouse. The plants come into bloom two weeks ahead of most other varieties. Pkt. 50c; $\frac{1}{8}$ oz. 85c; $\frac{1}{4}$ oz. \$1.50.

1302 Cheviot Maid Another winter-flowering variety also suited for growing in the garden. Well-shaped, bright pink blooms. Very choice. Pkt. 50c; $\frac{1}{8}$ oz. \$1.50; $\frac{1}{4}$ oz. \$2.75.

1303 Climax Here is a variety which will appeal to many gardeners since the blooms are a most intense and brilliant orange color—a shade which is sure to attract attention. Pkt. 5c; $\frac{1}{8}$ oz. 40c; $\frac{1}{4}$ oz. 75c.

1304 Eclipse This newer variety produces closely formed, solid spikes of a magnificent deep rich crimson color. Though this is quite a deep shade, it nevertheless has charming luminosity. Pkt. 25c; $\frac{1}{8}$ oz. 60c; $\frac{1}{4}$ oz. \$1.00.

1322 Empress If you like the deep shades, be sure to include this in your plantings. The flowers are a rich maroon shade and form a splendid contrast against the bright rich green foliage. Free flowering and long stemmed. Pkt. 10c; $\frac{1}{8}$ oz. 50c; $\frac{1}{4}$ oz. 85c.

1305 Geneva Pink Bright rose-pink flowers. Suited for greenhouse and outdoor culture. Free flowering. Pkt. 50c; $\frac{1}{8}$ oz. 85c; $\frac{1}{4}$ oz. \$1.50.

1306 Golden Pink Queen Another greenhouse variety which is also fine for beds or borders. It has bright rose-pink flowers. Pkt. 50c; $\frac{1}{8}$ oz. 85c; $\frac{1}{4}$ oz. \$1.50.

1323 Golden Monarch These rich golden yellow blooms are much in demand for a display in the garden and for cutting. Pkt. 15c; $\frac{1}{8}$ oz. 60c; $\frac{1}{4}$ oz. \$1.00.

1324 Happiness This is a new Snapdragon which is bound to become very popular with greenhouse growers. Gardeners who want a bed of large-flowered clear pink Snapdragons of superb loveliness should be sure to include this splendid variety on their planting list. Pkt. 75c; 3 pkts. \$2.00.

1308 Jennie Schneider Large, well formed, clear pink flowers closely set on fine stout spikes. Blooms profusely in the garden and enjoys popularity for winter growing in the greenhouse. Pkt. 50c; $\frac{1}{8}$ oz. 85c; $\frac{1}{4}$ oz. \$1.50.

1310 Laura A magnificent variety with bright and showy deep rose-colored flowers. Pkt. 50c; $\frac{1}{8}$ oz. \$1.50; $\frac{1}{4}$ oz. \$2.75.

1311 Madonna Improved This is undoubtedly the finest white Snapdragon of recent introduction. The blooms are not only pure paper white but they are also exceedingly large. Pkt. 25c; $\frac{1}{8}$ oz. 60c; $\frac{1}{4}$ oz. \$1.00.

1312 Nelrose An older Half-Dwarf Snapdragon which today is still extremely popular due to the sheer loveliness of its large rich silver-pink blooms. Will give a splendid display. Pkt. 15c; $\frac{1}{8}$ oz. 60c; $\frac{1}{4}$ oz. \$1.00.

1313 Orlando Be sure to include this magnificent newer variety in your plantings since no other Half-Dwarf Snapdragon will give you such lovely rich bronzy orange flowers. Pkt. 50c; $\frac{1}{8}$ oz. 85c; $\frac{1}{4}$ oz. \$1.50.

1325 Philadelphia Pink There are many gardeners who favor this Snapdragon particularly for its exceedingly showy and clear color. The blooms are clear bright silver-pink. Pkt. 15c; $\frac{1}{8}$ oz. 60c; $\frac{1}{4}$ oz. \$1.00.

1315 Primrose Monarch This newer variety has large warm Primrose-yellow flowers deepening toward the center into a lip of golden yellow. Pkt. 50c; $\frac{1}{8}$ oz. 85c; $\frac{1}{4}$ oz. \$1.50.

1316 Silver Pink Still one of the best pinks. Pkt. 15c; $\frac{1}{8}$ oz. 60c; $\frac{1}{4}$ oz. \$1.00.

1317 White Rock Immense flowers of exquisite texture forming solid, long, pure white spikes. Equally fine for garden display and for winter forcing. Pkt. 50c; $\frac{1}{8}$ oz. 85c; $\frac{1}{4}$ oz. \$1.50.

1318 Large-Flowering Semi-Tall Mixed A blend of the colors presented on this page. The descriptions given above can give you only a faint idea of the beauty this mixture will give in your garden. Pkt. 10c; $\frac{1}{8}$ oz. 30c; $\frac{1}{4}$ oz. 50c; $\frac{1}{2}$ oz. 85c.

Maximum, Tall-Growing Giants

1336 Canary Bird Yellow has always been a popular color in Snapdragons, and in Canary Bird we have an exceptionally fine shade of canary-yellow of unusual purity. The blooms are of remarkably large size and form. Elegant, long flower-spikes closely set with very large blooms.

This is the most gorgeous strain of all Snapdragons. It produces a great number of tall flower spikes closely set with truly marvelous, large, and elegant blooms. The plants grow 2 to 3 ft. tall and bloom continuously from mid-summer until fall. The colors are clear and lovely.

1345 Fireflame Few flowers can rival this variety in color. The fiery red blooms are suffused with brilliant orange and a glow of the richest scarlet, giving the effect of a seething mass of flames that flicker and dance in an ever changing riot of colors.

1337 Orchid As exquisite as the loveliest Orchid. A warm color which never fails to attract the attention and admiration of those who appreciate the delicate combination of soft lavender and pure light pink, perfectly blended in this lovely flower.

1340 Snowflake There is just a suspicion of faint cream in the depths of the flowers, giving them lovely warmth.

The New Majestic Snapdragon

Large Flowered Semi-Tall (24 in.)

Soon after the introduction of the Maximum varieties of Snapdragons, growers in England succeeded in raising a strain which combines the height of the semi-tall varieties with blooms as large and massive as those found in the Maximum type. This wonderful new class fills the great demand for a bedding Snapdragon with blooms of the largest size and stems long enough to make them suited for cutting. Though this class is quite new we already have many fine colors.

1365 Rose Marie Lovely salmon-rose with a golden sheen and a golden yellow center. Exquisite flowers on splendid spikes. Pkt. 30c; $\frac{1}{16}$ oz. 90c; $\frac{1}{8}$ oz. \$1.50.

1360 Orange King The blooms are a rich terra-cotta color shading into pure deep orange at the base, with a lip of contrasting yellow. Very charming and unexcelled for a rich color effect. Pkt. 20c; $\frac{1}{16}$ oz. 60c; $\frac{1}{8}$ oz. \$1.00.

1361 Red Chief A sparkling deep scarlet with just a touch of bright orange-yellow at the lip. A magnificent variety with enormous blooms symmetrically arranged on tall spikes. Those appreciating rich colors will be very much interested in this handsome and truly splendid variety. Pkt. 25c; $\frac{1}{16}$ oz. 60c; $\frac{1}{8}$ oz. \$1.00.

1363 Twilight Lovely apricot blooms with golden center and salmon shading. Pkt. 25c; $\frac{1}{16}$ oz. 60c; $\frac{1}{8}$ oz. \$1.00.

1366 Avalanche This is a splendid, truly beautiful variety, the first white offered in this magnificent strain. Pkt. 25c; $\frac{1}{16}$ oz. 75c; $\frac{1}{8}$ oz. \$1.25.

1368 Eldorado Lovely, large, rich crimson blooms of true Majestic size and formation, making a dense and massive spike of great beauty. The plants are free-flowering and give a splendid display. Pkt. 25c; $\frac{1}{16}$ oz. 75c; $\frac{1}{8}$ oz. \$1.25.

1364 Mixed In addition to the six varieties offered above we have some other lovely colors in this mixture. Pkt. 25c; $\frac{1}{16}$ oz. 60c; $\frac{1}{8}$ oz. \$1.00.

Zinnia, Giants of
California
Brightness

Giants of California

These are the newest of Zinnias. They are by far the largest-flowering exceeding the wonderful size of the giant double Dahlia-Flowered blooms but differing from them in having flowers which are somewhat more flattened. The flower petals curve outward as shown in the illustration. This characteristic gives them an appearance widely different from the giant Dahlia-Flowered type. There is infinite grace to these large, bold flowers carried on good strong stems which make the blooms extremely valuable for cutting. The bushes are much branched and grow 3 to 4 ft. tall. They bear a wonderful profusion of flowers from mid-season until frost.

3051 Brightness An enchanting color, the scintillating deep rose-pink giving this variety its appropriate name. Blends splendidly with other colors.

3041 Golden Queen The richness and brilliance of these immense golden yellow flowers make this a particularly desirable variety.

3050 Grenadier A handsome flower of splendid dark rich ruby-red. The large blooms are borne lavishly on large, sturdy well-rounded bushes.

3052 Lavender Gem Be sure to include this fine variety in your garden. Lovely lavender shading to purple. This is a very desirable color.

3043 Miss Willmott A color that will appeal to those who admire the soft shades—a pleasing soft pink of great beauty.

3044 Orange King Just picture the bright burnt-orange color of these magnificent blooms in your garden. Splendid for cutting.

3046 Purity Elegant, large, well-formed blooms with lovely pure white flower petals. The center of the flowers is tinted cream.

3047 Rose Queen Let this lovely bright rose variety add charm and good color harmony to your flower garden.

3053 Salmon Queen A sparkling shade—pinkish-salmon over an old rose ground. Similar in color to Dahlia-Flowered Exquisite.

3048 Scarlet Gem Select Scarlet Gem if you wish to add a touch of glowing scarlet to your garden. Most outstanding.

Vicks Magnificent

Zinnias are the good old stand-by of American gardeners. They were the favorites of our grandparents, and today they are even more popular than a generation or two ago. What improvements have been made with these lovely flowers within the last 10 or 15 years! They are easy to grow and produce a great showy display of colorful flowers from mid-summer until frost. There are numerous types—some with small button-like blooms and others with gorgeous flowers measuring 5 in. across. Fine for garden display and for cutting.

Giant Double Dahlia-Flowered

This is a gorgeous type of Zinnia with enormously large blooms of very refined appearance. On well-grown plants the flowers will measure 5 to 6 in. in diameter and 3 to 4 in. deep. The general appearance of the blooms is not unlike that of giant Dahlias and it is this resemblance which suggested the name Dahlia-Flowered Zinnia. The fully double blooms are composed of extra bold, graceful flower petals which are evenly spaced from the very edge to the center of the flower. Start the seed indoors for early blooms.

3031 Canary Bird Large Primrose-yellow blooms on stocky plants.

3021 Crimson Monarch Large blooms of rich crimson-scarlet.

3022 Dream Flowers of lavender-blue with rosy sheen.

3023 Exquisite Clear rose that becomes deeper in the center.

3032 Golden Dawn Marvelous golden yellow flowers.

3024 Illumination Showy blooms of rich tyrian-rose.

3033 Lemon Beauty Lovely light yellow over a pastel gold ground.

3025 Luminosa Charming deep pink suffused with salmon.

3034 Meteor Deep dark red with a fiery glow.

3026 Old Rose Admired for its soft rosy loveliness.

3027 Oriole Bright glistening orange-gold with clear orange center.

3028 Polar Bear Large, pure white flowers. An extra fine variety.

3035 Purple Prince Deep purple in regal tones.

3029 Scarlet Flame Dazzlingly rich and brilliant orange-scarlet.

Zinnias

Giant Mammoth Improved

Their colors and massive form make these Zinnias valuable for a brilliant display. The plants grow 2 to 3 ft. tall, and form well-branched round bushes. They bloom continuously and freely from mid-summer until frost.

3004 Burnt Orange A bright and colorful variety with enormous flowers.

3011 Isabellina Lovely buttercup-yellow flowers. Very desirable.

3001 Crimson Red flowers are always attractive, but we suggest growing this variety for true crimson splendor.

3003 Golden Yellow A superb variety. The large and massive flowers have a metallic luster.

3006 Purple This is a very delightful shade of true purple. It is charming in the garden, and makes an attractive cut flower. We suggest that you combine this variety with Golden Yellow for a rich color effect.

3008 Scarlet One of the most attractive Zinnias we have ever seen. A lovely light scarlet. Plant a row or bed of this variety for a really handsome color note in your garden. The robust plants bloom profusely.

3009 White White Zinnias, though not so widely grown as the brightly colored varieties, are becoming more popular every year. They make most attractive cut flowers when arranged with pink or purple varieties.

Any of the above:

Pkt. 10c; $\frac{1}{4}$ oz. 40c; $\frac{1}{2}$ oz. 70c; oz. \$1.25.

3010 All Colors Mixed A carefully composed blend containing the right proportion of all the above colors and a few others. Pkt. 10c; $\frac{1}{4}$ oz. 35c; $\frac{1}{2}$ oz. 60c; oz. \$1.00.

Lilliput Zinnias

Lilliput Zinnia,
Salmon Rose

These little flowers combine all of the charm of the Zinnia with the irresistible appeal of the small flower. The blooms measure 1 to $1\frac{1}{2}$ in. in diameter and are borne in great profusion on compact plants. They are lovely in borders and have no peer as cut flowers. Many colors. 12 in. tall.

3084 Pumila Picotee Delight

This is a new type of Zinnia which has won instant appeal everywhere. The flowers are only about 1 in. in diameter, having petals which are strikingly marked in picotee fashion. This fine strain has been carefully selected for flowers with attractively curled petals. It is particularly recommended to florists, as the attractive flowers are ideal for commercial use. The colors included range from light to deep salmon and the cut and marked petals enhance the lovely salmon shades. Its good form and splendid coloring make it a very valuable bedding variety. 12 in. tall. Pkt. 35c; $\frac{1}{4}$ oz. 85c; $\frac{1}{2}$ oz. \$1.50.

Curled and Crested Zinnias

3075 Mixed A unique form. The petals of the large attractive double blooms are crested, curled, and twisted into charming and fantastic shapes. The lovely yellow, rose, salmon, and deep crimson flowers are desirable for cutting. Plants $1\frac{1}{2}$ to 2 ft. tall, and 2 to $2\frac{1}{2}$ ft. in diameter. Pkt. 10c; $\frac{1}{4}$ oz. 35c; $\frac{1}{2}$ oz. 60c; oz. \$1.00.

New Early Wonder Zinnias

The flowers of this new dwarf early blooming Zinnia are medium sized, similar to the pumila type. They are marvelous for cutting, as the stems start from the base, with no laterals and few leaves. When in full bloom, the plants stand 12 to 15 in. tall. Massed in beds, they form a solid sheet of color. Especially fine for florists, as they require little space and mature quickly.

3080 Fiery Salmon Cerise

Pink A splendid pure shade which enjoys great popularity because it blends well with all other colors. Pkt. 35c; $\frac{1}{4}$ oz. 85c; $\frac{1}{2}$ oz. \$1.50.

3081 Rose Pink A lovely warm

rosy shade. Though the color is rich it nevertheless has a beautiful mellowness so much admired by many. Pkt. 35c; $\frac{1}{4}$ oz. 85c; $\frac{1}{2}$ oz. \$1.50.

Cut-and-Come-Again

3090 Mixture This is a very popular semi-tall type. It produces a great abundance of medium-sized flowers which are excellent for cutting. Blooms from mid-summer to frost. The flowers are $2\frac{1}{2}$ to 3 in. in diameter. Most attractive for beds and borders. 18 in. tall. Pkt. 10c; $\frac{1}{4}$ oz. 25c; $\frac{1}{2}$ oz. 40c; oz. 70c.

Cactus-Flowered

3077 Mixed The distinctly quilled petals cause it to resemble a Cactus-Flowered Dahlia except for its greater fullness, and number of petals. The petals are lighter underneath with the upper surface outlined in the same color. The large flowers are uniquely colored in shades of yellow, orange, pink, rose, and scarlet. They are borne on compact plants 3 ft. tall. Pkt. 15c; $\frac{1}{4}$ oz. 35c; $\frac{1}{2}$ oz. 60c; oz. \$2.00.

Zinnia, Cactus-Flowered

Vicks Sweet Peas

Summer-Flowering Spencer Varieties

Our Sweet Peas are grown for us in California in a section where soil and weather conditions combine to produce well-ripened seeds of high vitality that will give a magnificent display of flowers. Sweet Peas do best during cool weather, and therefore the seed should be sown as early in the spring as the ground can be prepared. Deep preparation of the soil is of great advantage unless the soil is unusually rich and fertile. All are sweet scented.

White and Cream

3205 Avalanche Magnificent, well-waved, pure white blooms.

3245 Daffodil Improved A vigorous variety with exquisite cream flowers. Pkt. 15c; ½ oz. 20c; oz. 30c.

3328 Matchless Large flowers of a rich deep cream shade; elegantly formed.

3329 Model A white-flowering black seeded variety of magnificent proportions. Elegant long-stemmed sprays.

3477 What Joy Rich deep Primrose-yellow. One of the best colors classed as cream.

Cream Pink

3223 Big Ben Rich rose-pink on cream ground. Well waved. Pkt. 15c; ½ oz. 25c; oz. 35c.

3224 Bridesmaid A magnificent cream-pink; vigorous and of good size.

3297 Happiness A delightful shade of coral-pink and cream. A charming variety. Pkt. 10c; ½ oz. 25c; oz. 35c.

3310 Idyll Magnificent, colorful blooms of rich cream-pink.

3380 Picture This showy variety has large blooms of a lovely combination of pink and cream.

Light Pink

3203 Ascot A favorite with many flower growers. The color is a pleasing delicate pink.

3334 Mrs. H. J. Wright Handsome warm rich rose-pink flowers with a suspicion of cerise flushed on a white ground.

Deep Pink

3298 Hawkmark Pink This variety is always popular by reason of its gorgeous coloring. It is bright rose-pink tinted with salmon. The blooms are of extra large size. They are most graceful with a beautifully waved and frilled standard and large well-proportioned wings. The sprays are long-stemmed each displaying four of the gorgeous blooms.

3381 Pinkie Large well-formed blooms of a clear deep pink. They are carried in fours on a fine long stem and are borne profusely.

Salmon

3220 Barbara Glistening pure salmon blooms of exquisite texture. The color is most charming if the blooms are shaded. Few Sweet Peas have retained their popularity for so many years as this lovely variety. In sections where summers are not excessively hot the vines will bear a continuous profusion of elegant long-stemmed flower sprays. Pkt. 10c; ½ oz. 25c; oz. 35c.

Salmon-Orange

3282 Gold Crest A light orange tint with a cast of luminous salmon. Truly beautiful. Pkt. 10c; ½ oz. 25c; oz. 35c.

3367 Orange Picture Rich salmon-orange blooms of elegant form and size. It is sun-proof. Pkt. 10c; ½ oz. 25c; oz. 35c.

Salmon-Pink

3254 Floradale A gorgeous and distinct rich color of bewitching beauty. Soft salmon-pink. This is a new variety of outstanding merit. It combines wonderful size with good form, vigor, fragrance, and a color which has a loveliness and charm that is enticing and fascinating. Pkt. 25c; ½ oz. 50c; oz. 85c.

Cerise

3200 Adorable Delightful clear light cerise on cream ground with just a suspicion of bronze in the standard. Strong growing and free blooming.

3244 Delightful Deep cerise suffused with orange. Beautiful large blooms. Pkt. 10c; ½ oz. 25c; oz. 35c.

3251 Fireglow Of startling brilliance. A bright fiery cerise over a lovely rose ground. Pkt. 15c; ½ oz. 25c; oz. 40c.

3253 Flaming June A gorgeous, rich, and startling deep cerise. This variety is of outstanding merit. Of strong growth and free flowering.

3333 Mrs. Luther Burbank Cerise with a subdued suffusion of salmon-pink with lighter wings. Pkt. 25c; ½ oz. 50c; oz. 85c.

Scarlet-Cerise

3252 Fire A lively shade of flaming red illuminated by glowing scarlet-cerise. It is sun-proof, vigorous, and free flowering; very well named. This variety is a consistent winner of awards and merits. Pkt. 20c; ½ oz. 30c; oz. 45c.

3402 Royal Scot Bright and lustrous scarlet-cerise flowers with a sheen of deep orange.

Orange

3258 Fordhook Orange Clear bright orange in color. Will stand a lot of sun without scalding. Pkt. 10c; ½ oz. 25c; oz. 35c.

3455 Tangerine Improved Large well-formed blooms of vivid rich tangerine-orange.

3283 Guinea Gold A glowing orange shaded with liquid gold. Attractive because of its brilliant hue and large sized flowers. It is a very popular variety of strong growth. The vines continue to produce a wealth of large long-stemmed flower-sprays from early summer until frost if grown where summers are neither excessively hot nor dry. Pkt. 10c; ½ oz. 25c; oz. 35c.

3366 Orange Flame This is outstanding as the deepest of all orange-colored Sweet Peas. The large well-rounded flowers are carried 4 to a stem. Pkt. 15c; ½ oz. 25c; oz. 40c.

Crimson

3225 Charity The brilliant blooms are of intense rich crimson. Its vivid color makes it a favorite with many flower growers.

3230 Crimson King Considered the finest of the true crimson colored Sweet Peas. You will be surprised at the size and elegant form of these showy, colorful blooms.

Old-Time

Sweet-Scented Varieties

At the request of many customers we are listing these old-fashioned sweet-scented Sweet Peas. The flowers produced by this class of Sweet Peas are smaller than those of the Spencers. They are arranged in threes on a substantial flower stem. In some the standards are erect and broadly expanded, in others they are quite pointed with the edges slightly or decidedly rolled or hooded. All are exquisitely fragrant. The vines are of strong growth and bloom profusely.

Vicks Everlastings

Everlasting Flowers have become more popular with every season. They make lovely bouquets when freezing weather has destroyed the tender garden flowers. They are easy to grow, doing best in full sunlight. There is a wide range of brilliant and soft colors to choose from, and numerous types from which to select those that appeal to you most.

It is very important that the flowers for drying be picked before the blooms have fully expanded. Hang them up in little bunches, heads down, in a cool, airy place where the sun will not strike them. Treated in this way, they will retain their form and color all winter.

Strawflower • Helichrysum

Hardy Perennial Flowers

Perennial flowers bloom year after year. They are easy to grow and require little attention. Quite a few of them will produce flowers the first season if the seed is started indoors in March. In this section we also list Biennials which last for two years only. As most Biennials self-seed freely, a continuous supply of plants may be had from them.

Perennials are excellent for beds and borders, and a beautiful and colorful display may be had each season from a combination of these plants. We offer a wide selection of perennial seeds from which to choose so you will be able to make a beautiful border containing all the colors and color combinations which please you most. Many of our dwarf Perennials are excellent for planting in the rock garden.

The Popular**Campanula or Bellflower**

There are two general classes of this favorite class of flowers: the hardy perennials and the hardy biennials. The Canterbury Bells belong to the biennial group. The Harebell and the Chimney Bell Flower are perennials. Both the perennial and the biennial varieties can be successfully raised from seed quite easily. Sow the seeds in finely prepared rich soil, and see that the young plants are watered frequently. Campanulas do well in a half-shaded position. They are prolific bloomers with large showy flowers.

Medium Single Varieties**Canterbury Bell**

These old-fashioned flowers are very showy with their large bell-shaped blooms in lovely distinct colors. They are biennials. The plants are 2 to 3 ft. tall and bloom in June and July.

3570 Dark Blue **3572 Rose**
3571 Light Blue **3573 White**

Any of the above colors;
Pkt. 10c; $\frac{1}{8}$ oz. 25c; $\frac{1}{4}$ oz. 40c.

Flowers for the Rock Garden

® indicates the many beautiful perennial and annual flowers suited for growing in the rock garden.

The Lovely Medium Single Canterbury Bells

3590 Pyramidalis (Chimney Bell Flower) Beautiful blue cup-shaped flowers borne all summer. The plants grow 5 ft. tall. Pkt. 10c; $\frac{1}{8}$ oz. 40c; $\frac{1}{4}$ oz. 70c.

3585 Carpatica (Harebell) The lovely blue flowers of the Harebell are excellent for the rock garden or border. This alpine species blooms luxuriantly. A perennial growing 1½ ft. tall. Pkt. 10c; $\frac{1}{8}$ oz. 30c; $\frac{1}{4}$ oz. 50c.

Chelone • Shell Flower

3642 Barbata The plants are of exceedingly graceful habit and are fine for garden decoration. They bloom profusely from June until September. The narrow, tubular flowers are brilliant scarlet-red. They are borne on graceful slender stems, and are suitable for cutting. Does best in full sun. 3 ft. Pkt. 10c; $\frac{1}{8}$ oz. 25c; $\frac{1}{4}$ oz. 40c.

Chinese Lantern Plant

3645 Physalis Franchetti This is a most interesting plant in the flower garden. The showy scarlet-red fruits are extremely attractive, both when on the plant and when dried for winter bouquets. The plants are about 2 ft. tall, and are easy to grow. Their little yellow flowers are followed by the large, brilliantly-colored lanterns. These lanterns, really the seed-pods, are produced very freely. Cut the pods after the foliage has wilted and the stems have become stiff. They are then ripe and may be used at once. The Chinese Lantern plant will do well in any soil. Grow some of them for house decoration next winter. Pkt. 10c; $\frac{1}{4}$ oz. 40c; $\frac{1}{2}$ oz. 70c.

Coreopsis • Tickseed

This is one of the best and most free-flowering of the hardy perennials. The golden-yellow flowers are produced from June to October and are fine for cutting.

3656 Grandiflora A variety which will do anywhere and grows very easily from seed. It is fine for cutting. Pkt. 10c; $\frac{1}{4}$ oz. 25c; $\frac{1}{2}$ oz. 40c.

3655 Grandiflora, Double Very similar in growth to the above, but producing double and semi-double flowers. Pkt. 15c; $\frac{1}{4}$ oz. 40c; $\frac{1}{2}$ oz. 70c.

COREOPSIS

Delphinium • Hardy Larkspur

Few other perennials play as important a role in our gardens as Delphinium. The tall and graceful spikes with their fine blue flowers lend effective contrast to the pinks and yellows of other garden flowers. It is a flower easy to grow and responds generously to good care. The plants are perfectly hardy. Besides its value for garden decoration, Delphinium is excellent for cutting, lasting a long time in water.

3669 Vicks**Prize Exhibition**

This marvelous variety of Delphinium is the result of careful selections made from all the best giant-flowering varieties which we secured from European and American specialists. The color range is truly delightful, shading from the most delicate pinkish lavender to deepest Pansy-violet. Many of the varieties included are beautifully two-toned. The plants are robust and sturdy with spikes growing 4 to 6 ft. tall. Pkt. 40c; $\frac{1}{16}$ oz. 85c; $\frac{1}{8}$ oz. \$1.50.

3665 Belladonna

There is no flower more beautiful than the delicately colored clear turquoise-blue spikes of this Delphinium. It is the most free blooming of all hardy Larkspurs, and is never out of bloom from June until cut down by hard frost. Has large well-rounded single blooms, gracefully arranged on a long flexible spike. Pkt. 20c; $\frac{1}{16}$ oz. 45c; $\frac{1}{8}$ oz. 75c.

3666 Bellamosum

This variety is similar to the above in graceful habit and showy appearance, differing only in having rich deep blue flowers. It has the same free-blooming habit and all the other good qualities. 3 ft. tall. Pkt. 20c; $\frac{1}{16}$ oz. 40c; $\frac{1}{8}$ oz. 70c.

3667 Formosum

Single, deep blue flowers each with a showy white eye. The well-rounded blooms are borne all along the graceful tall spikes. Stately and handsome plants growing 3 to 4 ft. tall. They bloom profusely all during the summer. Pkt. 20c; $\frac{1}{16}$ oz. 40c; $\frac{1}{8}$ oz. 70c.

3668 Gold Medal Hybrids

This mixture is made up of the choicest single-flowering hardy Larkspurs. It is a beautiful strain with flowers in a wide range of blue shades. The plants grow 3 to 6 ft. tall. Pkt. 15c; $\frac{1}{8}$ oz. 60c; $\frac{1}{4}$ oz. \$1.00.

3670 Wrexham (Hollyhock Strain)

This is a magnificent strain. The flowers always are of largest size. They are borne on long spikes which greatly resemble those of Hollyhocks in sturdy growth, fullness, and majestic splendor. All the most glorious shades of blue are found in this strain. This striking variety is one of the finest introduced in recent years. Pkt. 50c; $\frac{1}{16}$ oz. \$1.00; $\frac{1}{8}$ oz. \$1.85.

Wrexham Delphinium

Dianthus • Hardy Garden Pinks

These garden pinks are always popular. Their pleasing colors, their perfect form, spicy odor, and fine foliage all help toward making them one of the most prized perennials. The plants are covered with blooms borne upright on wiry stems. They are easy to grow and bloom very freely. Pinks are valuable for borders and for rock gardens.

Vicks Giant Dahlias

Dahlias are universal favorites. They give a splendid display of flowers all during the fall, and present us with richer and more glorious colors than found in any other flower. Plant breeders have always been greatly interested in them because they are easily hybridized and extremely variable when grown from seed. This has made it easy to develop a large number of different types and varieties, all of which come perfectly true if propagated from tubers.

From the long list of varieties available, we have selected those which we believe are the most desirable from the standpoint of color, size, form, sturdy growth, free-blooming habit, and usefulness for cutting. Your tubers will be shipped at planting time unless you request otherwise.

Plant Vicks Beautiful Gladiolus

Gorgeous Gladiolus

Lovely in the Garden — Splendid for Cutting

Gladiolus have many features which make them favorites with all kinds of gardeners. They are exceedingly easy to grow and do well in any average soil provided it is well drained and sunny. Beautiful Gladiolus may be grown in any soil ranging from quite sandy ones to those which are heavy. Since the bulbs are tender, planting must be delayed until all danger of late spring frost has passed. To provide a continuous supply of showy flower spikes, make succession plantings 10 days to 2 weeks apart up to about the middle of June.

Gladiolus are excellent for garden display. They may be massed together in beds or borders or they may be used in clumps of a dozen or two distributed among other perennials or annuals. Quite often gardeners set aside special beds for their Gladiolus where they are grown in rows, allowing about a foot between the rows and 2 to 3 in. between the individual bulbs in the row. They are grown in this way mostly where the stately colorful spikes are wanted for cut flowers. Our list includes a large number of splendid colors to choose from.

Garden Lilies • Easy to Grow

No garden is complete without at least some of these tall stately flowers. They are so easy to grow and are so hardy and satisfactory in every way that more and more gardeners are planting them every year. After once being established, they will increase in size and beauty with each succeeding year. Lilies do well in a deeply spaded, thoroughly prepared garden loam in an open and sunny location. Besides the charm that their beauty lends to the garden, these graceful Lilies are splendid as cut flowers for home decoration. Their long sturdy stems make them excellent for this purpose. All the varieties we offer are perfectly hardy.

Gold-Banded Lily of Japan

6200 Auratum platyphyllum The elegant large white blooms of this Lily are attractively spotted bright carmine-red and have a bright lemon-yellow mid-rib running through the center of each petal. The plants grow 3 to 6 feet tall and bloom during July and August. After it has become established the blooms become larger and more abundant. Requires perfect drainage. This is one of the most desirable Lilies with heavy stems bearing a dozen or more flowers each. Cover the bulbs 6 to 7 in. deep. 40c ea.; 3 for \$1.10; 6 for \$2.00.

Turk's Cap Lily

6204 Batemanniae This showy variety has large pale orange-red vase-shaped blooms opening during July and August. They are carried upright. Vicks Fine Vegetables

The quality of Vicks vegetable seed is as zealously guarded as that of our famous flower seeds. Every variety is carefully tested so that you can be sure of receiving seeds which are full of vitality and vigor. Every precaution is taken to supply you with the very finest strains obtainable anywhere in the entire world.

There is no better proof of the Vicks quality of vegetable seed than the re-orders sent to us year after year by some of the largest and most successful market growers who realize how important it is, for them particularly, to sow the finest seed obtainable. Home gardeners should not be less critical in this respect.

Asparagus

Sow the seed thinly in drills 2 to 3 ft. apart in the early spring. Cover with 1 in. of soil. A packet will produce 200 plants, an oz. about 750 plants; 5 lbs. to the acre. Or set roots 18 in. apart in rows 2½ ft. apart. Cover with 2 in. of soil.

4096 Mary Washington Seed Produces the finest kind of green asparagus the third year. Pkt. 10c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; lb. 90c; 2 lbs. \$1.60; 5 lbs. \$3.80; 10 lbs. \$6.75.

5900 Mary Washington 2-Year-Old Roots Produces handsome green asparagus for the table or market. 25 roots for 85c; 50 roots for \$1.50; 100 roots \$2.50.

Artichoke

4092 Green Globe Grown for its flower-buds which are cooked like asparagus. Sow seed early indoors, set plants outdoors in rows 2 ft. to 4 ft. apart. Pkt. 15c; ½ oz. 30c; oz. 45c; ¼ lb. \$1.40; ½ lb. \$2.60; lb. \$4.75.

Broccoli • Winter Cauliflower

Sow the seed early in May. Set the plants out in June or early July in rows 2 or 3 ft. apart each way. A packet will produce about 250 plants; 3,000 plants from an ounce.

4152 St. Valentine The standard large, white heading variety. Pkt. 10c; ½ oz. 30c; oz. 50c; ¼ lb. \$1.50; ½ lb. \$2.75; lb. \$5.00.

4151 Calabrese (Green Sprouting) ⑤ A most tasty vegetable for summer and fall. The plants do not make large, solid white heads, but produce an abundance of small, light green, tender heads. Pkt. 15c; ½ oz. 25c; oz. 45c; ¼ lb. \$1.35; ½ lb. \$2.45; lb. \$4.50; 2 lbs. \$8.35; 5 lbs. \$20.25.

4150 Curtis Perennial Nine Star Will supply an abundance of large, cauliflower-like heads the second year after planting and continues to yield equally abundantly year after year. Pkt. 25c; ½ oz. \$1.40; ½ oz. \$2.50; oz. \$4.00; ¼ lb. \$12.00; ½ lb. \$22.00; lb. \$40.00.

Broccoli

Vicks Table Beets

Sow in drills 18 in. apart, and thin to stand 3 to 4 in. apart in the rows. A packet will sow a row about 25 ft. long; use 1 oz. to 100 ft.; 5 to 6 lbs. for an acre. Make succession plantings and cultivate freely. Ready for use in 35 to 65 days. For winter use, store in a cool cellar packed in earth or sand.

4102 Crosby's Egyptian ⑤

A selected strain of Egyptian, as early as the original but larger, thicker, smoother, more globular, and of better quality. Deep blood-red flesh which is tender, sweet, crisp, and delicious. It is a rapid grower, attaining a usable size quicker than almost any other variety (about 42 days after sowing) and does not become woody with age. The most popular turnip-shaped beet.

Crosby's Egyptian Beet is worthy of universal growing by both home and market gardeners. It is good for the table and good for the market, and has won public favor everywhere. Anyone wanting a good quality beet will make no mistake in planting Crosby's Egyptian. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 50c; lb. 85c; 2 lbs. \$1.55; 5 lbs. \$3.60; 10 lbs. \$6.35.

4106 Vicks Extra Early Dark Red Egyptian ⑤

A popular variety, producing handsome dark red beets. Fine for forcing and first early crop out-of-doors. It is justly considered the earliest of all beets. The rich dark crimson roots have a very small tap-root. The flesh is dark blood-red, zoned with lighter rings. It is crisp and sweet. The small tops permit close planting in the garden and it is, therefore, a desirable and profitable beet for the market gardener for shipping extremely early beets to market. Makes an excellent bunching variety. Also an exceptionally good variety for the home garden. Produces roots ready for use in about 35 days. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 50c; lb. 85c; 2 lbs. \$1.55; 5 lbs. \$3.60; 10 lbs. \$6.35.

4105 Early Wonder (Boston Crosby) A deep blood-red beet, nearly globular in shape, with a smooth, perfectly shaped root and small tops. Of uniform size for bunching. Early Wonder is now so perfect we believe it is, without doubt, one of the best early turnip-shaped beets grown. Matures in about 40 days. Desirable for the home or market gardener. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 50c; lb. 85c; 2 lbs. \$1.55; 5 lbs. \$3.60; 10 lbs. \$6.35.

4108 The Rochester or Improved Crimson Globe A perfect beet; brilliant crimson in color, globe-shaped, with a very smooth skin, and an exceedingly small tap-root. Fine grained, sweet and tender. Matures in 41 days. Pkt. 5c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; lb. 95c; 2 lbs. \$1.70; 5 lbs. \$4.05; 10 lbs. \$7.10.

Detroit
Dark Red

4103 Detroit Dark Red ⑤

Our special strain is most uniform in shape. Roots medium in size, globular, and very smooth; skin a dark blood-red; flesh deep bright red. Fine grained, tender, and sweet, remaining so long after other varieties become woody. Tops small, allowing close planting. The standard beet both for market and the home garden and also largely grown for canning. Matures in 50 days. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 50c; lb. 85c; 2 lbs. \$1.55; 5 lbs. \$3.60; 10 lbs. \$6.35.

4112 Ohio Canner This beet represents the result of careful plant selection made by the staff of the Ohio Agricultural Experiment Station. An exceptionally fine beet, shaped like Crosby's Egyptian. Has dark red skin and extremely dark flesh showing scarcely any zones. The short tops are a reddish green color. Matures slightly later than Detroit Dark Red. Pkt. 15c; oz. 25c; ¼ lb. 70c; ½ lb. \$1.10; lb. \$1.90; 2 lbs. \$3.50; 5 lbs. \$8.35; 10 lbs. \$15.20.

Sugar Beets

For Sugar and Stock Feeding

4122 Imperial Sugar (V) One of the sweetest and best. Ideal for stock feeding. Easy to grow and very productive, with rich sugary white flesh. Has yielded 30 tons per acre. Sow seed in May or June, 1 in. deep in drills 2 or 3 ft. apart. One pkt. sows 25 ft. of row; 1 oz. to 100 ft.; 5 lbs. per acre in drills. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; $\frac{1}{2}$ lb. 35c; lb. 60c; 2 lbs. \$1.10; 5 lbs. \$2.40; 10 lbs. \$4.50.

Mangels • for Stock Feeding

Very valuable for stock feeding. Sow 5 or 6 lbs. per acre in drills. 1 pkt. sows 25 ft. of row; 1 oz. to 100 ft.

4140 Golden Tankard Valuable for its sweetness and food value. All stock will thrive on it. The large oval roots are heavy and solid. They have deep yellow flesh which is very sweet and tender. The broad shoulder and base make harvesting easy. Excellent keeper. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; $\frac{1}{2}$ lb. 35c; lb. 50c; 2 lbs. 90c; 5 lbs. \$2.00; 10 lbs. \$3.75.

4143 Vicks Mammoth Long Red (V) This mangel is the finest of its class. It is the best long red mangel beet in cultivation, producing large roots which weigh 20 to 30 lbs. each. They are frequently 2 ft. long and grow $\frac{1}{2}$ to $\frac{3}{4}$ above the surface. Bright red skin, and white flesh veined with pink. It is fine grained even when attaining the great weight of 30 lbs. Enormously productive, often 35 to 50 tons of roots per acre. Highly nutritious. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; $\frac{1}{2}$ lb. 35c; lb. 50c; 2 lbs. 90c; 5 lbs. \$2.00; 10 lbs. \$3.75.

Brussels Sprouts, Vicks Improved

Brussels Sprouts

4161 Vicks Improved Also called Paris Market. A productive half-dwarf variety with large solid sprouts produced in great abundance all along the stem. The sweet, tightly folded sprouts are blanched to a creamy yellow in the heart. Ready for use in 125 days. Brussels Sprouts are harder than cabbage, and the "sprouts" are considered the most delicately flavored of all vegetables. One pkt. gives about 300 plants; 1 oz. of seed produces about 2000 plants. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 65c; $\frac{1}{2}$ lb. \$1.00; lb. \$1.75; 2 lbs. \$3.20, 5 lbs. \$7.70.

Herbs

Every garden should include some Herbs. The leaves and stems are fine for flavoring, used either fresh or when dried.

4425 Thyme Medicinal and culinary. Often is grown in the perennial border. Pkt. 10c; $\frac{1}{2}$ oz. 25c; oz. 40c; $\frac{1}{4}$ lb. \$1.15; $\frac{1}{2}$ lb. \$2.05; lb. \$3.75.

Horse-Radish

5910 Maliner Kren (*New Bohemian*) Produces mammoth roots. Extra early. A heavy yielder on light as well as heavy soil. Plant roots 15 to 18 in. apart in rows 2 to 3 ft. apart. 6 for 25c; 12 for 35c; 100 for \$1.50; 250 roots for \$2.50; 500 for \$4.50; 1000 for \$8.00.

Cauliflower

What vegetable is more delicious and tasty than fresh, tender Cauliflower? Nothing surpasses the appetizing quality of this popular vegetable. Sow the seeds for earliest crops in boxes, or in the hotbed in February or March. Set the plants in rows spaced 18 in. apart in rich loamy soil. One pkt. of seed produces about 150 plants; 1 oz. about 1500 to 2000 plants; $\frac{1}{4}$ lb. will plant an acre.

Vicks Ideal

4284 Vicks Ideal (V) Heads the list as the earliest, finest, and handsomest Cauliflower, whether forced under glass or grown in the open ground. This variety has qualities that make it the leading kind for market or for home use. The heads are ready for use ahead of all others. They are large, pure white, solid, and of finest quality even if general growing conditions are not particularly favorable. Pkt. 15c; $\frac{1}{4}$ oz. 85c; $\frac{1}{2}$ oz. \$1.45; oz. \$2.50; $\frac{1}{4}$ lb. \$7.50; $\frac{1}{2}$ lb. \$13.75; lb. \$25.00.

4283 Dry Weather Danish Giant Produces a large, solid, pure white head, maturing a little later than Vicks Ideal. It is a large fine Cauliflower, especially and peculiarly resistant to the effects of droughts. Pkt. 15c; $\frac{1}{4}$ oz. 75c; $\frac{1}{2}$ oz. \$1.25; oz. \$2.30; $\frac{1}{4}$ lb. \$6.90; $\frac{1}{2}$ lb. \$12.65; lb. \$23.00.

4277 Early Snowball (V) A most popular standard variety belonging to the same group as Vicks Ideal. It takes its place next to it in point of earliness and excellence. Produces large solid heads 9 inches across. Under good conditions every plant will make a fine head. The curd is smooth and even, and entirely free from bits of foliage. The dwarf plants have short outer leaves which permit close planting. A sure cropper well suited for forcing. Matures in 95 days. Pkt. 10c; $\frac{1}{4}$ oz. 75c; $\frac{1}{2}$ oz. \$1.25; oz. \$2.30; $\frac{1}{4}$ lb. \$6.90; $\frac{1}{2}$ lb. \$12.65; lb. \$23.00.

4281 Super Snowball (V) In the tests of the Pennsylvania State College, this cauliflower appeared the best of all strains, maturing a few days after the earliest varieties. It is most desirable, as all the heads form at one time. They exhibit a uniformity of shape, size, and type that is truly astonishing. The plants make a compact dwarf growth with ample foliage of a beautiful dark green color. The inner leaves curve over the head and serve as good protection against the weather. The head itself is almost round. Has a beautiful pure white, smooth curd, presenting a most attractive appearance when cooked. Pkt. 25c; $\frac{1}{4}$ oz. \$1.10; $\frac{1}{2}$ oz. \$1.80; oz. \$3.30; $\frac{1}{4}$ lb. \$10.00; $\frac{1}{2}$ lb. \$18.25; lb. \$33.00.

Super Snowball

Quality Bush Beans

Beans belong to the tender class of vegetables and the seed cannot be sown until the weather is quite warm—about the time the maples are well out in leaf. They may be sown any time from then until early August. When the bushes have finished bearing, a second sowing may be made, or other vegetables may be grown in the same space. Beans may also follow

other early vegetables, thus securing double or triple use from the same plot. The beans are most delicious when picked before the pods reach their full size. A packet sows about 25 ft. of row; 1 lb. to 100 ft.; 60 lbs. to the acre. Ready for use in 38 to 60 days. The introduction of the stringless varieties has made beans a most favorite vegetable.

Planting of Burpee's Stringless Green-Pod

Green-Pod Bush Beans

4006 Burpee's Stringless Green-Pod (V)

This is one of the most popular early bush beans in America. The green pods are round, 5 in. long, fleshy, tender, and nearly straight. They are borne in abundance throughout a long season. Ready for table in about 42 days. Unexcelled for home use or for market. The seeds are of medium size; brown color. Pkt. 10c; ½ lb. 25c; lb. 35c; 2 lbs. 55c; 5 lbs. \$1.20; 10 lbs. \$2.15.

4005 Giant Stringless Green-Pod

Handsome dark green, round pods, 6 to 7 in. long. Very brittle and of superior quality. Grows large and erect, producing its pods in about 45 days. Dark yellow seeds. Pkt. 10c; ½ lb. 25c; lb. 35c; 2 lbs. 50c; 5 lbs. \$1.10; 10 lbs. \$1.95.

4004 Full Measure (V)

This magnificent bush bean produces long, round, dark green pods in about 45 days. Always solid, stringless, and exceedingly prolific. The pods are an attractive green color, about 5 in. long, firm and tender. Practically blight proof. Brown seeds mottled with light yellowish drab. Pkt. 10c; ½ lb. 25c; lb. 35c; 2 lbs. 55c; 5 lbs. \$1.20; 10 lbs. \$2.15.

4001 Bountiful (V)

A variety superior in quality, earliness, and productiveness. The flat, tender green pods remain edible a long time. They are 6 in. long. The plants bear early, the beans being ready in 42 days. If the pods are picked before they attain full size, the plants will continue bearing for a long time. The pods are of sweet flavor and absolutely stringless. This thrifty growing bean is particularly fine for planting on light sandy soil. It is a splendid bean for the home garden or for market. The seeds are olive-yellow. Pkt. 10c; ½ lb. 25c; lb. 40c; 2 lbs. 65c; 5 lbs. \$1.20; 10 lbs. \$2.15.

4000 Stringless Black Valentine

(Asgrow)

This excellent new variety has all the desirable characteristics of the old favorite Black Valentine and, in addition, is absolutely stringless. The green pods are not quite so round as those of Black Valentine. They are long, straight, and of excellent flavor. It is a strain having such desirable characteristics that we recommend it for planting in every garden. Matures in 42 days. Pkt. 15c; ½ lb. 25c; lb. 40c; 2 lbs. 70c; 5 lbs. \$1.30; 10 lbs. \$2.40.

4009 Tendergreen

This is a foremost new variety which possesses many excellent qualities. The strictly stringless pods are deliciously tender, a quality responsible for their name. They are light green in color, round, and average 7 in. long. The strong and vigorous plants bear a heavy crop of the splendid pods which mature very early. The pods have an excellent flavor. We are convinced this splendid new variety will soon be grown most extensively on account of its many excellent features.

Pkt. 15c; ½ lb. 25c; lb. 40c; 2 lbs. 70c; 5 lbs. \$1.30; 10 lbs. \$2.40.

Yellow or Wax Pod Bush Beans

4022 Davis' White Kidney Wax

Used as a snap-bean or as a dry shell bean. The uniform, flat pods are 6½ to 7 in. long. A most productive market gardener's and canner's variety of even maturity and attractive appearance. Matures in about 40 days. Pkt. 10c; ½ lb. 25c; lb. 35c; 2 lbs. 60c; 5 lbs. \$1.25; 10 lbs. \$2.25.

Rustless
Golden
Wax

4020 Burpee's Brittle Wax (V)

One of the best early varieties, supreme amongst beans of this class. The rich golden yellow pods are round and long. They are slightly curved and measure 6 to 7 in. in length. The bushes are remarkably hardy and prolific, bearing a tremendous crop. The stringless tender pods are rich and tasty in flavor. Matures in about 42 days. The seeds are fine for shell beans. Wax seeds with small dark markings about the eye. Pkt. 10c; ½ lb. 25c; lb. 40c; 2 lbs. 70c; 5 lbs. \$1.25; 10 lbs. \$2.25.

4023 Pencil-Pod Black Wax

Exceptionally popular both for the home garden and market. The bushes are about 15 in. tall. They are loaded with long, round, meaty, golden yellow pods which are perfectly stringless, brittle, tender, and of mild flavor. The best of the dwarf black-seeded wax beans, producing pods about 45 days after sowing. The pods are straight, 6½ to 7 in. long. Very productive. Pkt. 10c; ½ lb. 25c; lb. 35c; 2 lbs. 55c; 5 lbs. \$1.20; 10 lbs. \$2.15.

4027 Sure Crop Stringless Wax (V)

An absolutely stringless, rustproof, wax-pod bush bean with pods 7 to 7½ in. long, and about ½ in. thick. Of a beautiful rich yellow color, flat, thick and meaty, very sweet and stringless at all stages. The plants are hardy and extremely prolific, bearing a heavier crop than most other varieties. Matures in about 45 days. Excellent for the home garden and valuable for market. Black seeds. Pkt. 10c; ½ lb. 25c; lb. 35c; 2 lbs. 55c; 5 lbs. \$1.20; 10 lbs. \$2.15.

4026 Rustless Golden Wax (V)

Rustless Golden Wax belongs to the oval-podded class, making a strong plant, 18 in. high and 2 ft. across. The pods are 4 to 5 in. long, nearly straight, broad, flat, and lemon-yellow slightly tinged green, free from spots and rust. They are meaty and well-filled, of fine quality, and always stringless. The earliest wax-pod, maturing in 35 to 40 days. A profuse bearer. Pkt. 10c; ½ lb. 25c; lb. 35c; 2 lbs. 60c; 5 lbs. \$1.25; 10 lbs. \$2.25.

Shell Beans

These varieties are grown extensively for use as shell beans during the winter season. They possess a high percentage of protein which makes them a very nutritious food. Shell beans are especially popular in the north where they are used extensively for baking.

4002 Dwarf Horticultural or Cranberry Large green pods splashed with carmine, ready for table use in about 60 days. This variety is excellent whether used as a snap-bean, green-shelled, or a winter bean. Buff seeds, mottled pink. Pkt. 10c; ½ lb. 25c; lb. 35c; 2 lbs. 60c; 5 lbs. \$1.25; 10 lbs. \$2.25.

4086 Red Kidney The good old favorite baking bean. It is one of the largest and best of this class. Makes dwarf hardy plants, producing quantities of large, flat, green pods 6 in. long. They are well filled with large light red kidney-shaped beans of rich flavor. Matures in 100 days. Pkt. 10c; ½ lb. 25c; lb. 30c; 2 lbs. 50c; 5 lbs. \$1.10; 10 lbs. \$1.95.

4087 Robust Pea Bean An improved, prolific, heavy-yielding, and disease-resistant strain of the popular white baking bean. The small, pearly white, somewhat oval beans are most attractive and tasty. In some sections this variety also is known as Improved White Navy. The beans are ready for harvesting in 90 to 100 days. Pkt. 10c; ½ lb. 25c; lb. 30c; 2 lbs. 50c; 5 lbs. \$1.00; 10 lbs. \$1.75.

4088 White Marrowfat The most popular white shell bean. The plants are healthy and vigorous, producing a large crop of large flat pods filled with 5 to 7 white seeds. 100 days. Pkt. 10c; ½ lb. 25c; lb. 30c; 2 lbs. 50c; 5 lbs. \$1.10; 10 lbs. \$1.95.

Pole or Running Beans

Pole beans yield much more heavily than bush varieties, bearing fresh, tender beans until killed by frost. They should be planted around poles or along a trellis. Sow the seed when the ground is warm and dry. If poles are used for support, set them 4 ft. apart each way. Plant 6 to 8 beans to a pole, 2 in. deep. When started, thin to 4 plants. Use 1 packet to 20 poles; 1 lb. to 100 poles; 20 to 30 lbs. per acre. Pick the beans before they have reached full size. They will be ready to use in 65 to 85 days, according to variety.

4055 Burger's Stringless Green Pod (V)

Sometimes called White-Seeded Kentucky Wonder. The pods average 6 to 8 in. in length. They are uniformly straight, of a rich dark green, and so meaty as to be really saddle-backed. The pods are as stringless as the popular Stringless Green Pod Bush Bean. They are equally tender and of a tasty, mild, sweet flavor. It matures its handsome, tender green pods in about 65 days. Its earliness makes it a popular pole bean for growing in the northern climate, as it produces pods in great abundance before cold weather sets in. The dry beans are pure white. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 40c; 2 lbs. 70c; 5 lbs. \$1.25; 10 lbs. \$2.25.

4059 Old Homestead Kentucky Wonder (V)

Year after year this variety continues its wonderful popularity. You believe it is the most useful of all the green-podded pole beans. Especially suitable for use as snaps. Ready to pick in about 65 days. The attractive, curved, pods often reach a length of 7 to 9 in. They are entirely stringless and of high quality. The vines are enormously productive, the pods hanging in great clusters which can be gathered by the handful. The quality is extremely fine. This is a very popular bean for the home garden as well as for market. Seeds are dun colored. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 35c; 2 lbs. 55c; 5 lbs. \$1.15; 10 lbs. \$2.05.

4060 Scarlet Runner

A useful as well as ornamental climbing bean—an old favorite. It should be grown in every garden either as a vegetable or as a flowering vine to decorate the front porch or arbor. The vines are of strong, quick growth, and bear large and showy sprays of bright scarlet flowers. The pods are tender and tasty while young. Matures in about 75 days. The beautiful, large-shelled beans can be used the same as green lima beans, or dried for winter use. The large seeds are a deep heliotrope, heavily marked with black. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 45c; 2 lbs. 80c; 5 lbs. \$1.40; 10 lbs. \$2.60.

4056 Early Golden Cluster Wax (V)

Extra strong, vigorous, and very productive. The pods are of large size, 7 to 8 in. long by $\frac{3}{4}$ in. wide. Although flat, the rich golden yellow pods are stringless and of excellent flavor. It is a superb and productive wax podded pole bean producing clusters of pods from the bottom to the top of the poles. The pods are ready to pick in about 70 days. The dry, thick seeds are pure white. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 40c; 2 lbs. 70c; 5 lbs. \$1.30; 10 lbs. \$2.40.

4061 Kentucky Wonder Wax

A splendid yellow-podded pole bean for all localities. Its tremendous popularity with many gardeners is due to its extreme earliness and productivity. It resembles the popular Kentucky Wonder Pole Bean but has pods of a bright light yellow color. The pods are 8 to 9 inches long. They are extremely thick and fleshy so that they are distinctly creasebacked or double barreled. The flesh is mild, tasty, and brittle. It is practically stringless if the pods are gathered before they reach their full size. Ready to pick in 65 days. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 40c; 2 lbs. 70c; 5 lbs. \$1.30; 10 lbs. \$2.40.

Fordhook Bush

Burpee's Giant Podded Pole Lima
The pods are 7 to 8½ inches long.

Bush Lima Beans

Lima Beans are a tender vegetable and the seed must not be planted until the nights have become quite warm—about the time the oak trees are in leaf. The middle or latter part of May is usually safe. Stick the seed edgewise, eye down, 18 to 24 in. apart in the row. A packet will plant about 25 ft. of row; 1 lb. for 150 ft.; 25 to 30 lbs. to the acre. Ready for use in 65 to 85 days after planting.

4041 Burpee's Improved Bush Lima (V)

Pods of enormous size well filled with handsome beans which are larger and thicker than those of any other bush lima, and fully 8 days earlier. A vigorous and prolific variety with heavy foliage.

Full-grown bushes measure 30 in. in height and 24 in. across the top. The pods are 5 to 6 in. long, 1½ in. wide, and are frequently borne in clusters of from 5 to 8. The beans are of luscious flavor. This is a remarkable improvement over the original large seeded bush lima. It bears not only larger and bigger pods but is also considerably more productive and is ready for picking a week earlier. They mature in 85 days. Pkt. 15c; $\frac{1}{2}$ lb. 25c; lb. 45c; 2 lbs. 85c; 5 lbs. \$1.60; 10 lbs. \$3.05.

4040 Fordhook Bush Lima (V)

This popular bush lima bean is in a class by itself. It belongs to the "Potato Lima" type. The plants grow 20 to 30 in. tall and make a spread of almost 2 ft. The strong, upright bushes withstand both whipping rains and strong winds to a remarkable degree. The pods are borne in clusters of from 4 to 8 pods each. Each pod holds 4 to 5 large, thick, meaty beans which retain their green tint when dry. Because of its extra-early maturity, Fordhook will bear profusely where the summers are comparatively short. When cooked it has a delicious taste not unlike that of chestnuts. Matures in about 75 days. Pkt. 10c; $\frac{1}{2}$ lb. 30c; lb. 50c; 2 lbs. 95c; 5 lbs. \$2.00; 10 lbs. \$3.75.

Pole Lima Beans

Plant 4 to 6 beans to a pole, eyes down. Thin out to 2 or 3 plants to a pole. A packet is enough for 15 poles; 1 lb. for 50 poles; 40 lbs. to the acre.

4077 Burpee's Giant-Podded (V)

The largest of all pole limas. The pods measure from 7 to 8½ in. in length and 1½ to nearly 2 in. wide. The beans are extra large. They are invariably of superb flavor. The vines easily attain a height of from 10 to 12 ft. It is strong, robust, vigorous, and very productive. The pods are produced in clusters of from 4 to 8 until the vines are killed by frost. Every market grower knows how this cluster habit increases the yield of a lima bean. Valuable in the home garden. Ready for picking in about 90 days. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 45c; 2 lbs. 85c; 5 lbs. \$1.55; 10 lbs. \$2.90.

4076 King of the Garden

This is the grand old standard market and family sort. It is vigorous and immensely productive. The vines begin to produce pods near the base of the pole, and the bearing season continues without interruption until frost. The pods are large, numerous, and well filled, and the beans are of mammoth size. The handsome pods often attain a length of 6 to 8 in., with 5 or 6 full and perfectly formed beans in each pod. Ready for the table in 90 days. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.35; 10 lbs. \$2.50.

4078 Sunnybrook

Sunnybrook's main features are its extreme earliness and tremendous prolificness. The combination of these two valuable characteristics is winning for this variety a foremost place in all gardens. Each cluster carries from 5 to 10 pods of large size, and each pod is packed with 4 or 5 large, thick, meaty, light green beans of finest quality. It is considerably earlier in producing pods ready for picking than any other large-seeded pole lima. Ready for table or market in about 80 days. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 45c; 2 lbs. 85c; 5 lbs. \$1.55; 10 lbs. \$2.90.

Vicks Fine Cabbage

Cabbage is a staple crop of great adaptability. The different varieties provide heads from early summer till late fall, the latter for immediate use or winter storage. A packet will produce about 250 plants; an oz. 3000 plants; $\frac{1}{4}$ lb. to the acre. Ready in from 68 to 120 days.

Early and Mid-Season Varieties

Sow the seed indoors very early in the spring. When plants are large enough set outdoors, after all danger of frost is past, in rows $1\frac{1}{2}$ to 2 feet apart.

4200 All-Head Early Deep, flat, large heads of uniform size, shape, and color. The compact leaves permit close planting. A good keeper. Ready in about 90 days. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; $\frac{1}{2}$ lb. \$1.15; lb. \$2.00; 2 lbs. \$3.70; 5 lbs. \$9.00; 10 lbs. \$17.00.

4203 Charleston (Large Wakefield) The Charleston Wakefield is a larger form of Extra-Early Jersey Wakefield. It comes along in a close succession to the earliest cabbage crop, producing its pointed heads in 90 days. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; $\frac{1}{2}$ lb. \$1.15; lb. \$2.00; 2 lbs. \$3.70; 5 lbs. \$9.00; 10 lbs. \$17.00.

4205 Earlier Golden Acre (V) The earliest of all round heads, excepting only Vicks Babyhead. Matures about 3 or 4 days ahead of Golden Acre. One of the most profitable for the early crop. The uniform dwarf plants make very solid heads which are round as a ball, about 6 in. in diameter, and weigh about 3 lbs. each. The heads mature in 70 days, all at one time. Pkt. 10c; oz. 40c; $\frac{1}{4}$ lb. \$1.15; $\frac{1}{2}$ lb. \$2.05; lb. \$3.75; 2 lbs. \$6.95; 5 lbs. \$16.85; 10 lbs. \$31.85.

4224 Marion Market A yellows-resistant strain of Copenhagen Market, maturing its solid round heads of the highest quality in about 85 days. Has a small core. The plants are short stemmed, allowing close planting. Pkt. 15c; oz. 55c; $\frac{1}{4}$ lb. \$1.70; $\frac{1}{2}$ lb. \$3.15; lb. \$5.75; 2 lbs. \$10.70; 5 lbs. \$25.85; 10 lbs. \$48.85.

4207 Glory of Enkhuizen Medium early, maturing in 90 days, with heads frequently weighing 8 to 10 lbs. each. Large sized, half shaped, firm, and solid heads. The leaves are fine ribbed and exceedingly tender. It is a dwarf and compact grower, allowing close planting. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 65c; $\frac{1}{2}$ lb. \$1.00; lb. \$1.75; 2 lbs. \$3.20; 5 lbs. \$7.70; 10 lbs. \$14.00.

4215 Selected Extra-Early Jersey Wakefield (V) Very early, solid, pointed heads. The finest strain of this variety and the earliest of all pointed heads. It has few outer leaves, and cannot be surpassed for compactness and regularity. Large, hard heads of splendid eating quality maturing within 75 days. Firm, sweet, and tender. The most popular extra early cabbage. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; $\frac{1}{2}$ lb. \$1.15; lb. \$2.00; 2 lbs. \$3.70; 5 lbs. \$9.00; 10 lbs. \$17.00.

4201 Vicks All Seasons (V) This intermediate variety matures soon after All-Head Early, producing much larger heads of unsurpassed beauty and solidity. It has noteworthy compactness of growth which permits close planting. A truly fine summer cabbage in all respects, for use from June until October. Ready for table in 95 days. It has met with wide appreciation. We know of no sort more important to gardeners. Pkt. 5c; oz. 25c; $\frac{1}{4}$ lb. 75c; $\frac{1}{2}$ lb. \$1.15; lb. \$2.00; 2 lbs. \$3.70; 5 lbs. \$9.00; 10 lbs. \$17.00.

Copenhagen Market

4204 Copenhagen Market (V) A valuable early-maturing cabbage, producing round hard heads of the finest quality for the table or market in 75 days. Market gardeners who tried it are strong in their praise on account of its extreme earliness and large size. Solid, ten-pound heads, with a small core. Always of excellent quality, and a good seller. The plants are short stemmed, producing heads very close to the ground. The light green leaves are medium in size, saucer shaped, and always tightly folded. Pkt. 10c; oz. 35c; $\frac{1}{4}$ lb. 95c; $\frac{1}{2}$ lb. \$1.50; lb. \$2.75; 2 lbs. \$5.10; 5 lbs. \$12.35; 10 lbs. \$23.35.

4218 Vicks Babyhead Vicks Babyhead is extra early, perfectly round, small but extremely firm, and heavy. It is the earliest of all round heads. Equally fine for growing under glass or in the garden. Small, compact plants, permitting close setting, thus producing a good yield per acre. The heads mature in about 68 days. Pkt. 15c; oz. 45c; $\frac{1}{4}$ lb. \$1.35; $\frac{1}{2}$ lb. \$2.45; lb. \$4.50; 2 lbs. \$8.35; 5 lbs. \$20.25; 10 lbs. \$38.25.

Late or Winter Cabbage

Sow the seed outdoors in the open ground in May or June. When plants are large enough, set outdoors in rows 2 to 3 ft. apart. Cultivate frequently.

4214 Premium Late Flat Dutch The heads are very large, heavy, solid, flat on top, and of a bluish green color. Our strain is low-growing with a short stem. The quality is fine; the flavor excellent. Beautiful white inside. Everywhere a favorite market or kraut variety. Matures in about 110 days. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 65c; $\frac{1}{2}$ lb. \$1.00; lb. \$1.75; 2 lbs. \$3.20; 5 lbs. \$7.70; 10 lbs. \$14.00.

4216 Surehead One of the best main crop varieties, very hardy, sure heading, and of delicious flavor, with heads as large as Premium Late Flat Dutch. Ready to cut in about 110 days. The heads are large, broad, slightly flattened, very solid, firm, tender, and sweet. Excellent for kraut. Keeps well. A splendid shipper. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; $\frac{1}{2}$ lb. \$1.15; lb. \$2.00; 2 lbs. \$3.70; 5 lbs. \$9.00; 10 lbs. \$17.00.

4213 Penn State Ballhead Developed by the Pennsylvania State College. Shows a record of over 12 tons per acre. This extra tonnage, combined with better storage quality, places it in a class of its own. Matures in 120 days. Pkt. 15c; oz. 45c; $\frac{1}{4}$ lb. \$1.40; $\frac{1}{2}$ lb. \$2.60; lb. \$4.75; 2 lbs. \$8.85; 5 lbs. \$21.35; 10 lbs. \$40.35.

4219 Vicks Improved Danish Ballhead, Middle Stem (V) Hard, solid, tender, and crisp heads. The leading late variety and an excellent keeper. More largely grown for market than any other late variety, and frequently commanding a higher price. Medium sized heads, 8 to 10 in. in diameter, with few outer leaves, permitting close planting. Matures in about 120 days. Pkt. 10c; oz. 30c; $\frac{1}{4}$ lb. 90c; $\frac{1}{2}$ lb. \$1.40; lb. \$2.50; 2 lbs. \$4.65; 5 lbs. \$11.25; 10 lbs. \$21.25.

4220 Vicks Short-Stemmed Early Danish Ballhead (V) This is a choice strain selected from the famous Danish Ballhead cabbage. It is one of the best and most popular for home and market. Yields the largest crop of all the Danish Ballheads. Strong and vigorous, 10 days earlier than Vicks Improved Danish Ballhead. Matures its large solid round heads in about 110 days. Pkt. 10c; oz. 30c; $\frac{1}{4}$ lb. 90c; $\frac{1}{2}$ lb. \$1.40; lb. \$2.50; 2 lbs. \$4.65; 5 lbs. \$11.25; 10 lbs. \$21.25.

4212 Vicks Danish Ballhead, Tall Stem Produces round, solid, hard heads which are extremely heavy, though not extra large. Can be grown in close quarters on account of its compact habit. As to its keeping qualities, it comes out of the pit in March or April as fresh as when put in, and with no waste. Matures in 120 days. Pkt. 10c; oz. 35c; $\frac{1}{4}$ lb. 95c; $\frac{1}{2}$ lb. \$1.45; lb. \$2.65; 2 lbs. \$4.95; 5 lbs. \$11.90; 10 lbs. \$22.50.

4222 Wisconsin Hollander, Disease-Resistant A "yellow rot" disease-resistant variety which will produce a crop of medium-sized, round or somewhat flattened heads of remarkable solidity and excellent keeping quality in locations where plants are affected by the "yellows." Matures in about 120 days. Pkt. 15c; oz. 40c; $\frac{1}{4}$ lb. \$1.25; $\frac{1}{2}$ lb. \$2.35; lb. \$4.25; 2 lbs. \$7.90; 5 lbs. \$19.10; 10 lbs. \$36.10.

Savoy Cabbage

4208 Improved American Savoy Savoy Cabbage deserves to be better known in America. It is superior to other cabbages for cooking, having greater tenderness and delicacy of flavor. The leaves are wrinkled or densely crumpled, forming fine large heads which mature in 110 days. Improved American Savoy is the best of all either for market or the home garden. It is always a reliable header and is at its best in the fall and winter after a hard frost. A good winter keeper. Pkt. 10c; oz. 30c; $\frac{1}{4}$ lb. 85c; $\frac{1}{2}$ lb. \$1.25; lb. \$2.25; 2 lbs. \$4.20; 5 lbs. \$10.10; 10 lbs. \$19.20.

Red Cabbage

4211 Mammoth Rock Red This is a fine red cabbage and a most reliable header. The quality is excellent. The heads are extra large, round, very solid, and of a deep red color, often weighing 12 lbs. Used widely for pickling. The hardest and largest header. Pkt. 10c; oz. 30c; $\frac{1}{4}$ lb. 85c; $\frac{1}{2}$ lb. \$1.25; lb. \$2.25; 2 lbs. \$4.20; 5 lbs. \$10.10; 10 lbs. \$19.20.

Chinese Cabbage

The leaves when young are crimped and of a light green color. As the plant becomes older, it grows more upright and forms heads much like Cos Lettuce. The inner leaves blanch to an attractive light yellow or creamy white, with white midribs. A dainty table vegetable with a distinct, very mild and pleasant flavor. Chinese Cabbage should be sown the same time as turnips, after the first of July. Earlier plantings run quickly to seed in hot weather. Sow in drills 14 to 20 in. apart, and thin the seedlings two or three times.

4240 Chihli (V) The earliest sure heading Chinese Cabbage. A most delicious vegetable which combines the rich celery flavor with that of the cabbage. Can be cooked, or eaten raw like celery. Makes as good a salad as the finest head lettuce. The midribs can be cooked like asparagus, and for cole slaw no cabbage compares with it. An excellent addition to your table delicacies. Solid, long, white heads. Leaves broad, smooth, fringed, and edged, with broad white midribs. Matures in 55 days. Pkt. 10c; oz. 30c; $\frac{1}{4}$ lb. 85c; $\frac{1}{2}$ lb. \$1.25; lb. \$2.25; 2 lbs. \$4.20; 5 lbs. \$10.10; 10 lbs. \$19.10.

Danish Ballhead

Celery

Celery is easy to grow and even the amateur can secure very satisfactory results. 1 packet of seed will produce 400 plants; 1 oz. 7,500 plants; ¼ lb. enough for an acre. According to variety, ready for use in from 110 days to 140 days.

4300 New

Fordhook

A new and distinct type for which there is great demand. The finest heavy yielding celery, keeping in perfect condition late into the following spring. Grows only 15 to 18 in. tall and is easily blanched to a pure white with the heart tinted buttery yellow. Smooth, thick, solid stalks, free from stringy or woody fiber. Crisp and tender; delicious nut flavor. Matures in 135 days. Pkt. 25c; ½ oz. 60c; oz. \$1.00. ¼ lb. \$3.00; ½ lb. \$5.50; lb. \$10.00.

Fordhook

4303 Golden Self-Blanching

French-Grown, Original Dwarf Strain. No other celery approaches this in long-keeping quality, flavor, or color. Golden Self-Blanching is dwarf, growing 18 to 20 in. tall, wonderfully stocky, very heavy, perfectly solid, and of delicate flavor. It is a delicate creamy yellow color, and commands a very high price in the market. The flavor is rich and nutty. Very attractive. Ready for the market or table in 110 days. Pkt. 15c; ½ oz. 55c; oz. 95c; ¼ lb. \$2.85; ½ lb. \$5.20; lb. \$9.50.

4306 American Golden Self-Blanching

Of dwarf, compact growth, with thick, solid, heavily-ribbed stalks which blanch easily to a clear golden yellow. They are crisp and solid, free from stringiness, and of a most delicious flavor. Ready for table use in 110 days. Pkt. 5c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.25; ½ lb. \$2.35; lb. \$4.25.

4301 Giant Pascal (Winter King)

Very large stalks; thick, solid, and crisp. Of fine nutty flavor and free from bitterness. Blanching with but slight earthing up. An excellent winter keeper, maturing in 140 days. Pkt. 10c; ½ oz. 20c; oz. 30c; ¼ lb. 85c; ½ lb. \$1.25; lb. \$2.25.

4302 Golden Plume (Wonderful)

One of the finest new American varieties which has won many prizes in the National Celery Contest. A new type of the famous Golden Self-Blanching Celery. The semi-dwarf plants have thick stalks, a broad heart, and wide leaves. Blanching to a beautiful golden yellow color. Ready for table or market in about 110 days. Resistant to attacks of blight and rust. Pkt. 10c; ½ oz. 35c; oz. 55c; ¼ lb. \$1.65; ½ lb. \$3.00; lb. \$5.50.

Choice Carrots

On modern menus, Carrots have an important place. They are rich in vitamins, very nutritious, and wholesome. Creamed or buttered, or grated raw, either alone or with other vegetables, they are most delicious. A short row will easily supply the average family table. Sow from early spring till July for a continuous supply of fresh tender roots. 1 packet will sow a row 60 ft. long; 1 oz. for 400 ft.; 2 to 3 lbs. to the acre.

4252 Chantenay Stump-Rooted One of the best early Carrots in cultivation. Suited for both table use and stock feeding. It is a half long, stump-rooted carrot, somewhat deeper in color than Nantes and a heavier cropper. The smooth roots are uniform and entirely free from core. The flesh is tender and sweet. It never becomes stringy nor shows rings. Makes an excellent carrot for bunching or for long distance shipping. Highly recommended both for table use and stock feeding. It is especially desirable for market gardeners and home gardeners who wish to grow a really choice carrot. Matures its handsome and attractive half-long stump rooted carrots in about 60 days. Pkt. 10c; oz. 15c; ¼ lb. 45c; ½ lb. 70c; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

4256 Goldinhardt A special strain of Chantenay Carrot. A beautiful variety, 6 in. long and 2½ in. thick. Delicious, sweet, tender, and productive. Golden orange flesh, free from core, smooth, and of uniform shape. The advantages of this carrot will be readily appreciated. Instead of the light colored core which is characteristic of other and similar carrots, this new strain has deep orange-red flesh right through to the center. The carrots are of the same size and shape as the best strain of Chantenay and will yield just as much. Matures in 60 days. Pkt. 10c; oz. 20c; ¼ lb. 55c; ½ lb. 80c; lb. \$1.40; 2 lbs. \$2.55; 5 lbs. \$6.15; 10 lbs. \$11.20.

4261 Improved Long Orange Those who have good deep soil will benefit by planting this variety. Well-shaped long roots of uniform size with smooth skin free from small rootlets, gradually tapering, holding their thickness well throughout their length. 10 to 12 in. long, 2 in. thick at shoulder. Bright orange-red flesh. This type of long orange carrot is becoming very popular in our market. An excellent long carrot for bunching, maturing in about 75 days. The heaviest winter cropper and a fine winter keeper. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 45c; lb. 75c; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60.

4253 Danvers Half-Long Orange This variety is well adapted to all soils and sections. It is half long in shape, almost cylindrical, somewhat stump-rooted, and of rich dark orange color. Over 40 tons per acre of Danvers Half-Long Carrots have been grown, and a yield of 25 to 30 tons per acre is not uncommon. Grown extensively by market gardeners for bunching and a great favorite with home gardeners. Always of the finest quality. Matures in about 70 days. Pkt. 10c; oz. 15c; ¼ lb. 45c; ½ lb. 70c; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

4258 Half-Long Nantes Stump-Rooted One of the best "coreless" varieties. The cylindrical roots are 7 to 8 in. long. They hold their thickness over their entire length and are stump-rooted. The color is deep orange through the whole root, without any light core. Admirably adapted for bunching and one of the best for summer use in the home garden. The flesh is fine-grained, tender, sweet, and exceptionally tasty. Matures in about 65 days. Pkt. 5c; oz. 20c; ¼ lb. 55c; ½ lb. 80c; lb. \$1.40; 2 lbs. \$2.55; 5 lbs. \$6.15; 10 lbs. \$12.00.

4251 Vicks Butter Carrot A very fine variety for table use. The tender flesh is mild, of pleasant flavor, and free from any hard core as found in some varieties. The shape is ideal for a table carrot, being practically the same size from crown to bottom. Long, slender, deep orange-scarlet roots with fine grained, tender, lusciously sweet, and almost coreless flesh. The tops are small and the carrots mature in about 65 days. Pkt. 10c; oz. 25c; ¼ lb. 60c; ½ lb. 85c; lb. \$1.50; 2 lbs. \$2.75; 5 lbs. \$6.60; 10 lbs. \$12.00.

4260 Vicks Coreless Used successfully by our most critical market growers, as it is one of the best table carrots. In shape it resembles the Danvers Half-Long. It is stump-rooted and has a beautiful deep red-orange skin. It is earlier than Danvers, grows to about the same length, but is heavier and thicker at the shoulder, making it more productive. It is practically coreless. Very sweet and tender flesh. A heavy cropper, producing 3 to 4 tons to the acre under good culture. Matures in about 65 days. Pkt. 10c; oz. 25c; ¼ lb. 60c; ½ lb. 85c; lb. \$1.50; 2 lbs. \$2.75; 5 lbs. \$6.60; 10 lbs. \$12.00.

4257 Guerande (Oxheart)

On good land this will produce carrots 5 in. long, which are very blunt at the lower end. The roots are smooth and cylindrical, 2½ to 3 in. in diameter. Easily pulled. Grows very rapidly and the roots attain a weight of more than a pound each. The deep red flesh is exceedingly tender and tasty. It is a variety we can recommend to all market gardeners for bunching. For the home garden it is also ideal. Matures its beautiful, attractive, thick carrots in about 65 days. Excellent for table as well as for stock. Good for heavy soils. Pkt. 10c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; lb. 90c; 2 lbs. \$1.60; 5 lbs. \$3.80; 10 lbs. \$6.75.

Vicks Early Sweet or Sugar Corn

The following varieties of early maturing sweet corns are all adapted to your locality. Little space is required for enough hills to supply the average family, and successive sowings may be made up to July 1st for a continuous supply of tender luscious ears and enough to can for winter use. Should not be sown until the weather is warm. A packet will plant about 40 hills or 100 ft. of row; $\frac{1}{2}$ lb. for 200 hills; 12 $\frac{1}{2}$ lbs. to the acre.

4339 Vicks Golden Nugget

The most popular sweet corn we have ever sold. Ready for table use only a few days after Golden Bantam, Vicks Golden Nugget was the first really high grade yellow sweet corn ever offered—several years ahead of Golden Bantam. Its tenderness, luscious flavor, attractive appearance, vigor, and productivity have made it one of the most popular of the yellow varieties. Vicks Golden Nugget often produces two, and sometimes as many as three and even four ears to a stalk—about twice as much as Golden Bantam. The ears are large, frequently running 7 to 8 in. in length. They have 10 to 14 rows of plump, tender, sweet, delicious kernels. Particularly attractive when cooked, showing a rich creamy color. It tastes as good as it looks. Vicks Golden Nugget, the pioneer in popularizing yellow sweet corn, was developed on our own farms to produce the sweetest corn obtainable. Try it yourself—we know you will like it. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 45c; 2 lbs. 80c; 5 lbs. \$1.45; 10 lbs. \$2.70.

4340 Vicks Morning Dew

The largest extra-early sweet corn; introduced by us. The ears are as large as those of the late kinds, yet maturing only a week or 10 days later than Golden Bantam. Unsurpassed by any other white sweet corn. Extremely prolific, bearing two or three ears to the plant. The handsome ears bring fancy prices. Of excellent quality and far superior to Evergreen. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 45c; 2 lbs. 80c; 5 lbs. \$1.45; 10 lbs. \$2.70.

4333 Golden Sunshine

The earliest yellow sweet corn, maturing about the same time as Whipple's Yellow and one week earlier than Golden Bantam. More dwarf in habit than Bantam, with ears of the same length as Bantam but 12-rowed and of equally good color and quality. Especially desirable for its extreme earliness, sweetness, and richness of flavor. Our northern grown seed assures the market gardener of an extremely early crop to be sold at high prices. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 35c; 2 lbs. 60c; 5 lbs. \$1.25; 10 lbs. \$2.25.

4341 Whipple's Early Yellow

A yellow sweet corn which is a particularly desirable second-early variety. It matures three days later than Golden Bantam. The large, 14-rowed ears average 7 to 8 in. long. The broad and deep kernels are of superb quality. The big ears grow on plants 6 ft. tall. This is a high quality corn, equally fine for market as for the home garden. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 35c; 2 lbs. 60c; 5 lbs. \$1.25; 10 lbs. \$2.25.

4332 Golden Giant

Golden yellow ears of unusual size. A strong, vigorous grower and therefore very productive. It is a little earlier than Vicks Golden Nugget, producing large-sized ears of the delicious buttery Golden Bantam flavor. The ears grow 7 to 9 in. long and have 12 to 16 rows of long, deep yellow kernels. The strong stout stalks grow 5 to 6 ft. tall. The large ears have a heavy husk for protection against worms and birds. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 35c; 2 lbs. 60c; 5 lbs. \$1.25; 10 lbs. \$2.25.

4331 Extra-Early Golden Bantam

This extra early variety is very hardy and will stand planting earlier than any other variety except Maule's Ideal Early. The stalks grow about 4 ft. tall, and bear one or two medium-sized, rich golden yellow ears 5 to 6 inches long. Broad, deep, juicy grains which are exceedingly sweet and tender. The ears are just the right size for most enjoyable eating from the cob. In strong demand on the market and a favorite among market gardeners. Especially desirable for the home garden. Pkt. 10c; $\frac{1}{2}$ lb. 20c; lb. 35c; 2 lbs. 55c; 5 lbs. \$1.20; 10 lbs. \$2.15.

Vicks Morning Dew

4350 Maule's Ideal Early Corn

Do you want delicious corn on your table the 4th of July? Maule's Ideal Early will give it to you as it can safely be planted much earlier than any true sugar corn because of its extreme hardness. Adapted to any kind of soil. The seed will not rot when planted in soil too cold or too wet for other varieties. As large as Stowell's Evergreen and of a sweetness equal to most true sugar varieties. The plants grow 6 ft. tall. A hardy, early corn for market gardeners and fine for an early crop from the home garden. Pkt. 10c; $\frac{1}{2}$ lb. 20c; lb. 35c; 2 lbs. 65c; 5 lbs. \$1.35; 10 lbs. \$2.50.

Delicious Pop Corn

4355 Japanese Hulless The pearly white kernels are long and slender. A heavy yielder with ears nearly as thick as they are long. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 35c; 2 lbs. 60c; 5 lbs. \$1.15; 10 lbs. \$2.05.

4356 Queen's Golden Yellow grains. Pops perfectly white. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 30c; 2 lbs. 50c; 5 lbs. \$1.05; 10 lbs. \$1.85.

4357 Red Beauty One of the earliest and most prolific pop corns grown; two to four ears to the stalk. Long, slim, red kernels which pop white and full. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 35c; 2 lbs. 50c; 5 lbs. \$1.10; 10 lbs. \$1.95.

4337 The Burpee

This is the greatest advance made in sweet corn since the introduction of the famous Golden Bantam. An outstanding early yellow sugar corn, maturing fully a week earlier than Golden Bantam. The big, attractive, golden yellow ears often are 7 in. long and 1 $\frac{3}{4}$ in. thick, a good size for eating from the cob. They are full of toothsome sweetness and nourishment, with rich, sweet, and buttery flavor. There are, on the average, two of these splendid ears produced on each stalk. Grows from 5 to 5 $\frac{1}{2}$ ft. tall. Highly recommended. Pkt. 15c; $\frac{1}{2}$ lb. 30c; lb. 45c; 2 lbs. 85c; 5 lbs. \$1.60; 10 lbs. \$3.05.

Main Crop Sugar Corn

4325 Bantam Evergreen

A desirable large-eared, yellow-grained variety. It is a cross between the famous Golden Bantam and Stowell's Evergreen, combining the size and shape of Evergreen with the sweetness, color, and high quality of Golden Bantam, but matures 10 days later. The stalks are 6 to 7 ft. tall and bear two ears each, set with 12 or 14 rows of kernels. This desirable, large-eared, yellow-grained Sweet Corn has become very popular with market growers in sections where yellow Sweet Corn is in demand. Does equally as well in the home garden. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 35c; 2 lbs. 55c; 5 lbs. \$1.15; 10 lbs. \$2.05.

4326 Black Mexican

The ripe grains of this unusual variety are black or bluish black, but when in condition for the table they are white, showing a light purple tinge. The large grains are filled with sweet and tender pulp. Black Mexican is considered one of the sweetest of all the sugar corns. The ears are 8 inches long set with 8 rows of delicious, broad grains. Fine for the home garden, producing Sweet Corn far superior in taste to any other variety. It will be appreciated by all lovers of true sugar corn. Excellent for the home garden. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 35c; 2 lbs. 60c; 5 lbs. \$1.25; 10 lbs. \$2.25.

4329 Country Gentleman

The sweetest of all white varieties. Due to the irregular arrangement of the kernels on the cob, it is an excellent sort to grow where worms bother the ears. Instead of working along the row toward the middle of the ear, the worms have no row to follow and confine their damage to the tip of the cob. Very prolific, rarely producing less than three ears to the stalk. The ears average 8 to 9 in. in length. The grain is very deep, growing irregularly on the cob. The tender and milky "Shoe-peg" grains are small, plump, and white. A week later than Stowell's Evergreen and exceptionally sweet. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.25; 10 lbs. \$2.25.

4336 Stowell's Evergreen

The standard main crop variety in all sections. New York grown Stowell's Evergreen is recognized everywhere as the best type of its class. Our strain is large-eared, hardy, productive, sweet and tender, and remains a long time in cooking condition. For many years this variety has stood at the head of the list of late sweet corns, and it bids fair to hold the position for years to come. For the family garden, for the market grower, and the canner, it is unexcelled. Large, well-filled ears 8 to 9 in. long with 16 or more rows of the finest sugary grains. Deep-set, tender white kernels of a fine rich flavor. The most popular large-eared, late-maturing Sweet Corn, and the quickest basket filler for the market gardener. The ears are large, thick, and of luscious sweetness, combining quantity with quality. A good seller on sight, and for the home garden it has no equal as a late sort. For canning it is the best variety grown, keeping its sweetness better than most other sorts. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 35c; 2 lbs. 55c; 5 lbs. \$1.15; 10 lbs. \$2.05.

Stowell's Evergreen

Country Gentleman

Celeriac

4295 Giant Smooth Prague Large, round, smooth roots. Pure white flesh of excellent flavor. Seed should be sown and given the same treatment as celery, except that no blanching is necessary. The roots are fit to use when about 2 in. in diameter. Will keep all winter like carrots if packed in moist earth or sand. Splendid for flavoring soups or served as salad. Pkt. 10c; $\frac{1}{2}$ oz. 20c; oz. 30c; $\frac{1}{4}$ lb. 85c; $\frac{1}{2}$ lb. \$1.25; lb. \$2.25.

Chicory

4320 Witloof Chicory (French Endive) A delicious vegetable, easily forced in any warm room or cellar. Grow the roots in the garden by sowing the seed not later than early June. In November the roots are dug and the leaves are cut off. Pack in boxes with moist soil, and cover 6 in. deep with sand. Keep warm and moist. Harvest when the sprouts break through the soil. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 70c; $\frac{1}{2}$ lb. \$1.10; lb. \$1.85.

Corn Salad

4363 Large Round-Leaved A hardy, early spring salad, the small leaves being served like lettuce for early spring use, or cooked like spinach. Also used for garnishing meat dishes in the same manner as Parsley. Sow the seed early in the spring, or in August or September. The leaves may be cut in the spring or fall. This is also known as Lamb's Lettuce. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 45c; $\frac{1}{2}$ lb. 70c; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

Cress (Pepper Grass)

4365 Fine Curled An excellent salad of spicy flavor; used as a condiment and for garnishing. Should be grown in every garden. Grows very quickly and seed can be sown as early in the spring as the ground can be worked. For succession, make repeated sowings every two weeks from early spring until early fall. This variety is very easy to grow indoors in pots. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; $\frac{1}{2}$ lb. 40c; lb. 65c; 2 lbs. \$1.15; 5 lbs. \$2.60.

4366 Water Cress

This plant is used extensively for garnishing and for salads. It can easily be grown in any small slow stream and succeeds best in streams fed by springs. The seed may be started indoors in moist soil. Transplant the seedlings into the shallow part of the stream when of fair size. Water Cress also can be grown in greenhouse for winter use, or in frames, and is a profitable crop. Pkt. 10c; $\frac{1}{2}$ oz. 25c; oz. 40c; $\frac{1}{4}$ lb. \$1.15; $\frac{1}{2}$ lb. \$2.05; lb. \$3.75.

Cucumbers

Cucumbers are grown for slicing or for pickling. In this latitude do not plant in the open ground until late May. Make hills 2 ft. in diameter, about 6 ft. apart, enrich with rotted manure. A packet will plant 15 hills; 1 oz. 75 hills; 2 to 3 lbs. to the acre.

4370 Arlington White Spine Dark green skin and white, crisp, solid flesh. One of the earliest. 7 to 8 in. long. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; $\frac{1}{2}$ lb. 60c; lb. 90c; 2 lbs. \$1.60; 5 lbs. \$3.80; 10 lbs. \$6.75.

4371 Black Diamond (It "Stays Green") Dark green fruits, 7 to 8 in. long. Crisp, tender, white flesh. Contains very few seeds. An early, productive, long-keeping, white spine variety adapted to all sections and soils. A good shipper. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 40c; $\frac{1}{2}$ lb. 60c; lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00.

4373 Cool and Crisp An exceedingly prolific variety. At pickling age the cucumbers are straight, long, even, and slim. The skin is a very dark green color until the fruits reach their full size. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 40c; $\frac{1}{2}$ lb. 60c; lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00.

4382 Snake This distinct, extra long, green cucumber often grows to the astonishing length of 4 to 6 ft., producing its extra large cucumbers in various shapes—some coiled like a serpent. These cucumbers when picked young are tender and sweet, making them excellent for slicing. A desirable home garden sort; also a curiosity for exhibition at county fairs. Pkt. 15c; oz. 40c; $\frac{1}{4}$ lb. \$1.15; $\frac{1}{2}$ lb. \$1.90; lb. \$3.50; 2 lbs. \$6.50; 5 lbs. \$15.75; 10 lbs. \$29.75.

Vicks Abundance

4384 Vicks Abundance (V) One of the very best; more prolific, better shaped, and of a richer dark green than any other. It originated in the world-famous vegetable-growing section near Rochester. Has a very small seed cavity and few seeds. Beautiful smooth and symmetrical fruits 8 to 10 in. long. Plant Vicks Abundance and you will raise in the open ground Cucumbers that will sell in any market equal to the high priced hothouse forcing varieties. Also suited for greenhouse growing. Pkt. 10c; oz. 35c; $\frac{1}{4}$ lb. \$1.00; $\frac{1}{2}$ lb. \$1.65; lb. \$3.00; 2 lbs. \$5.60; 5 lbs. \$13.50; 10 lbs. \$25.50.

4378 Fordhook Famous (V) The largest White Spine Cucumber. Attractive fruits, 12 in. long and 2 to 3 in. in diameter. Dark green skin and crisp white flesh. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 40c; $\frac{1}{2}$ lb. 70c; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

4383 Everbearing This is a unique and highly meritorious pickling variety;—meritorious because of its quality, and unique in its ability to go right on bearing. It is enormously productive. Fruits of every age and also blossoms may be found on a single vine until frost. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 30c; $\frac{1}{2}$ lb. 50c; lb. 80c; 2 lbs. \$1.45; 5 lbs. \$3.40; 10 lbs. \$6.00.

4379 Green Prolific (Boston Pickling) (V) This is one of the most popular pickling cucumbers of the very best form and quality. It has yielded at the rate of over 200,000 pickles per acre. Of uniform shape and appearance. Its enormous productiveness makes the variety a favorite one with pickle growers and commercial gardeners. Also very desirable as a slicing sort for the table. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 30c; $\frac{1}{2}$ lb. 50c; lb. 80c; 2 lbs. \$1.45; 5 lbs. \$3.40; 10 lbs. \$6.00.

Green Prolific

Arlington White Spine

4385 Vicks Early Perfection White Spine (V) An extra fine improved type of America's most widely grown variety. Remarkable for the uniformly dark green skin which holds its color for many days after picking. Grows 5 to 7 in. long, and 2 to 3 in. in diameter. Matures in 58 days and is most productive. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 45c; $\frac{1}{2}$ lb. 70c; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

Cos or Romaine Lettuce

Vicks
Trianon Cos

4492 Vicks Trianon Cos (Self-Folding)

A special strain of a widely grown variety that will form well-folded heads that blanch almost pure white in 7 to 8 weeks after sowing. It makes a good strong growth and yields abundantly. The quality is excellent, being crisp, juicy, and agreeably snappy. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c; $\frac{1}{2}$ lb. 75c; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00.

4458 Early May King

Very early, hardy, and a quick grower. Grows to a good size, maturing round, solid heads, 6 to 7 in. in diameter, in 45 days. The leaves are light green, slightly tinged with brown, enclosing a bright yellow heart. The flavor is particularly rich, buttery, and tender. Excellent for early outdoor planting or for forcing. Popular in home gardens. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 45c; $\frac{1}{2}$ lb. 70c; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

4461 Iceberg (V)

A hard-heading lettuce. Curled, crisp plants of medium size, producing medium green, wavy, fringed leaves, having the edges tinged with brown. The compact heads are of medium-large size and have few green outer leaves. The most delicious, crisp, tender hearts blanch almost white even under average garden conditions. Iceberg is exceedingly vigorous so that it will withstand hot weather. Matures in 50 days. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 55c; $\frac{1}{2}$ lb. 80c; lb. \$1.40; 2 lbs. \$2.55; 5 lbs. \$6.15; 10 lbs. \$11.20.

4462 Improved Hanson

None is more reliable for outdoor cultivation, standing extremes of weather better than any other. Of remarkable size and very solid. The outer leaves are bright green. The tender and crisp heart is pure white. Has a sweet, rich flavor entirely free from bitter taste. Matures in 50 days. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c; $\frac{1}{2}$ lb. 75c; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00.

4465 New York (Wonderful) (V)

Sometimes this popular shipping lettuce is called Iceberg by western growers. Globular, solid, large heads, frequently weighing 2 to 3 lbs. each. Of superb quality, being crisp, rich, and tender. The heart is creamy white. Excellent for the home garden. The best heat-resister. 60 days. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 70c; $\frac{1}{2}$ lb. \$1.10; lb. \$1.90; 2 lbs. \$3.50; 5 lbs. \$8.35; 10 lbs. \$15.20.

4468 White Big Boston (V)

Beautiful solid heads of medium size. Tightly folded heart that blanches to a creamy yellow. Differs from Big Boston in having lighter outer leaves. One of the finest grown. Does well where other varieties fail. Unsurpassed in quality. The unrivaled summer lettuce, maturing in 48 days. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 65c; $\frac{1}{2}$ lb. 95c; lb. \$1.65; 2 lbs. \$3.05; 5 lbs. \$7.25; 10 lbs. \$13.20.

4515 Vicks Irondequoit (V)

Aptly described by Jack Speare, a well-known member of the Rochester Ad Club, in their weekly magazine, the Bumblebee: "Gentle Reader, didja ever sink your face clean up to the ears into a genuine home-grown Irondequoit 'mush melon'? Didja? Gee! It's a picture no artist can paint. About the size of a peck measure or, if the gods are kind, maybe a peck and a half. Inside, Oh Boy! a luscious, globular ooze of gay *Persian-orange*, shading to deepest, most enticing sea-green at the edges. A symphony of color to the eye, a rhapsody to the taste, as each festive, melting morsel goes trickling down a surprised and delighted gullet." Ripe in 70 days after planting. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 65c; $\frac{1}{2}$ lb. \$1.00; lb. \$1.75; 2 lbs. \$3.20; 5 lbs. \$7.70; 10 lbs. \$14.00.

Peas for a Bountiful Crop

Garden Peas are one of the finest table delicacies—a vegetable that is unexcelled in sweet tasty flavor provided the peas are picked fresh from the vines. Our list includes the choicest and most prolific varieties separated into three classes: Extra-Early Smooth-Seeded, Early Wrinkled, and Main Crop. The Extra-Early Smooth-Seeded Peas may be planted in spring as soon as the ground can be prepared. They mature in 45 to 55 days. The wrinkled-seeded varieties cannot be planted until after all danger of frost is past. Successive plantings may be made every 10 days until June 1. In late August, early Peas may be sown for an autumn crop. 1 packet will sow 20 ft. of row; 1 lb. to 100 ft.; 90 to 120 lbs. per acre.

Extra-Early Smooth-Seeded Varieties

4701 Alaska (Earliest of All) Ⓢ Alaska or Earliest of All has become the choice of thousands of truckers and gardeners who wish to reach the market first with new peas. It is a smooth-seeded sort, maturing an abundance of pods in 45 days. It is the finest early pea, unexcelled in flavor, productiveness, vigor, and uniformity of growth. The vines grow 30 in. tall and carry an abundance of attractive pods, 2½ in. long. They are round, straight, and have square ends. Each pod contains 6 light green peas. It is very hardy, and may be sown as soon as the soil becomes mellow. Pkt. 10c; ½ lb. 25c; lb. 35c; 2 lbs. 65c; 5 lbs. \$1.30; 10 lbs. \$2.40.

4708 Early Bird A hardy, very early, uniform variety, producing large, plump, slightly curved pods about 4 in. long, containing 8 or 9 very large, dark green peas. Of good quality and fine flavor; semi-wrinkled seeds. Dwarf, vigorous vines, growing 2 ft. tall and bearing an enormous crop. Pkt. 10c; ½ lb. 25c; lb. 35c; 2 lbs. 65c; 5 lbs. \$1.35; 10 lbs. \$2.50.

4705 Carter's Early Eight Weeks (Radio) Ⓢ A smooth-seeded pea developed in England. By far the earliest grown, being ready for picking in about 42 days, before any other of the extra earlies. Large, well-filled green pods. Very dwarf but vigorous vines, 12 to 16 in. high. Especially desirable for the home garden. Sweet and delicious. Pkt. 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.45; 10 lbs. \$2.70.

4721 Vicks First Choice The earliest, next to Carter's Early Eight Weeks. Semi-dwarf vines, 2 ft. tall, bearing a fine crop of large, handsome, dark green, well filled pods. The peas are large, sweet, and as delicious as the later wrinkled varieties. Seed slightly dimpled. Pkt. 10c; ½ lb. 25c; lb. 45c; 2 lbs. 85c; 5 lbs. \$1.55; 10 lbs. \$2.90.

Early Wrinkled-Seeded Varieties

4700 American Wonder One of the best, bearing large, well-filled pods. The robust vines are 10 to 12 in. tall. Quite distinct from all other peas, both in habit of growth and appearance. Bears in 50 days, just after the Alaska. Small straight pods filled with 6 to 8 large, luscious peas. Pkt. 10c; ½ lb. 25c; lb. 35c; 2 lbs. 65c; 5 lbs. \$1.35; 10 lbs. \$2.50.

4717 Nott's Excelsior A fine early pea of dwarf growth. Excellent for the home garden; hardy and vigorous, and will mature in 60 days. The pods are numerous and well filled with 7 to 9 large peas, superior in sweetness and quality. Large and vigorous vines bearing an enormous yield of shelled peas. A desirable pea for the home garden. Pkt. 10c; ½ lb. 25c; lb. 35c; 2 lbs. 65c; 5 lbs. \$1.35; 10 lbs. \$2.50.

4713 Laxtonian A new dwarf pea of the same high quality as Thos. Laxton and Gradus. The vines are about 18 in. high, vigorous, and when in bearing are loaded with immense, dark green pods containing 8 or 9 large, luscious peas. Productive, and of such good quality that it deserves a place in every home garden. Has the largest pods of any of the early dwarf varieties. Pkt. 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50; 10 lbs. \$2.80.

4704 Burpee's Blue Bantam Ⓢ The best early dwarf wrinkled pea of exceptionally sweet and most delicious flavor. Matures in 55 days and is unusually productive. Dwarf vigorous vines, 15 in. tall, carrying an enormous crop of large, deep blue-green pods. The pods are 3½ to 4 in. long and are tightly packed with 8 to 10 large, deep bluish green peas. Extra fine for either market or home garden as its fine appearance is surpassed only by its remarkable sweet flavor. Pkt. 10c; ½ lb. 25c; lb. 45c; 2 lbs. 85c; 5 lbs. \$1.55; 10 lbs. \$2.90.

Blue Bantam

4711 Gradus (Prosperity) Ⓢ Though a wrinkled-seeded pea, Gradus is almost as early as the smooth-seeded varieties, yet much sweeter. 2½ ft. vines with heavy stems and large green leaves, producing uniformly large, dark green pods measuring 4½ in. in length. They are straight, nearly round, and well filled with 6 to 8 very large, handsome peas, which remain tender and sweet for some time after they are large enough to use. A favorite wrinkled pea. Bears an enormous crop in 55 days. Pkt. 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.45; 10 lbs. \$2.70.

4719 Thomas Laxton Ⓢ Among the best of the extra-earlies, out-ranking many other extra-early wrinkled varieties in hardiness and productiveness. It has all the delicious sweetness of the Gradus, and is considered by many to be even sweeter. The pods are large and shapely, of a rich dark green color, about 3 in. long. They are moderately broad, very plump, straight, square at the ends, and filled from end to end with 7 or 8 very large, wrinkled peas, the flavor of which is unsurpassed by any other pea in cultivation. The vines are hardy, strong, and grow from 2½ to 3 ft. tall. 55 days. Pkt. 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.40; 10 lbs. \$2.60.

4715 Little Marvel A marvel in earliness and productiveness. One of the best dwarf earlies. Almost as early as American Wonder and Nott's Excelsior. Dwarf vines, 15 in. tall, heavily set with pods 3½ in. long, which frequently are borne in pairs. Each pod contains 6 or 7 large, dark green peas. Very productive and of high quality. Matures in about 55 days. Pkt. 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50; 10 lbs. \$2.80.

Telephone Peas

4706 Champion of England A handsome variety, popular everywhere. One of the richest and best flavored green wrinkled peas. Strong-growing and much-branched vines, 4 to 5 ft. tall, bearing an immense crop of fine pods measuring $3\frac{1}{2}$ to 4 in. long. Each pod contains from 6 to 8 large, sweet peas. This pea is adapted for growing on tall brush or trellises, giving a tremendous crop. An excellent main-crop variety. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 35c; 2 lbs. 65c; 5 lbs. \$1.35; 10 lbs. \$2.50.

4709 Everbearing A fine wrinkled pea of excellent flavor with vines of branching habit, about 30 in. tall. Very robust, bearing a heavy crop of large, well-filled pods. Repeated pickings may be made, as the vines continue to produce successive crops. Pods ready for use in about 65 days. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 35c; 2 lbs. 65c; 5 lbs. \$1.35; 10 lbs. \$2.50.

4712 Improved Stratagem (Pollack) Ⓢ This is one of the best of the large-podded peas; vigorous, productive, and of exceedingly fine quality. A favorite with market gardeners everywhere. An excellent wrinkled pea, with sturdy vines growing 2 ft. tall. The handsome and attractive pods are extra large, often measuring 5 in. in length. They are well filled, frequently containing 10 immense, delicious peas. Matures in about 70 days. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 35c; 2 lbs. 65c; 5 lbs. \$1.40; 10 lbs. \$2.60.

4718 Telephone Ⓢ Also known as Alderman. The outstanding late or main-crop variety and a distinct improvement over the old light-colored Telephone. A fine, tall, wrinkled variety, and a great cropper, bearing immense dark pods of large peas of exquisite sugary flavor. The pods are fine and straight, $4\frac{1}{2}$ in. long, filled to capacity with 8 to 10 large peas. Grows 4 ft. tall. A favorite for home garden and market. A main season variety, producing its attractive, large, dark green pods in about 70 days. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.40; 10 lbs. \$2.60.

4720 Vicks Daisy (Dwarf Telephone) Daisy is a second early pea with a healthy, stocky growth of vine about 2 ft. tall, producing an abundance of well-filled pods, measuring 5 in. in length, containing 7 to 9 large and delicious peas which fairly melt in your mouth. One of the finest early green wrinkled Marrows. A desirable home and market garden variety which does not require any brush. Continues bearing for a long time. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 35c; 2 lbs. 65c; 5 lbs. \$1.35; 10 lbs. \$2.50.

4722 Vicks Peerless Ⓢ From among the tests of new varieties, we have selected this new pea as the most desirable variety to add to our list of the best varieties. The straight, dark green pods are filled with large, dark green peas of delicious taste. They are usually set in pairs on vines 18 in. tall. There is none better for the home or market garden because of its great productiveness, vigorous growth, handsome color, and quality. Pkt. 10c; $\frac{1}{2}$ lb. 30c; lb. 50c; 2 lbs. 90c; 5 lbs. \$1.65; 10 lbs. \$3.05.

Swiss Chard

A delicious green vegetable greatly resembling spinach in flavor. The white stems are used like asparagus. As the outer leaves are gathered others take their place very rapidly. This also is called spinach beet. It will grow luxuriantly even during the hottest weather and will yield continuously and plentifully all during the summer and fall. 1 packet sows 25 ft. of row, 1 oz. to 100 ft., 5 to 6 lbs. per acre.

4130 Broad White-Ribbed The best dark green, smooth-leaved variety. An old standard variety which is grown quite extensively for its white stalks and green foliage. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; $\frac{1}{2}$ lb. 45c; lb. 75c; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60.

4131 Fordhook Giant Heavily crinkled, thick, rich blue-green leaves, 10 in. wide and 2 $\frac{1}{2}$ ft. long. The thick and succulent leaf ribs are nearly white; 2 $\frac{1}{2}$ in. wide. Try this delicious new variety. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 40c; $\frac{1}{2}$ lb. 60c; lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00.

4133 Lucullus (Mammoth) A popular, strong-growing Swiss Chard with extra-large, light green leaves which are thick and heavily crumpled much like Savoy Cabbage. It yields an enormous amount of greens, and has thick white stalks. A well-known variety for which some culinary experts claim first place for flavor. Also makes excellent greens for fowl. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 40c; $\frac{1}{2}$ lb. 60c; lb. 90c; 2 lbs. \$1.60; 5 lbs. \$3.80; 10 lbs. \$6.75.

Summer Squashes

Plant in hills 4 ft. apart. 1 packet will plant 8 hills; 1 oz. about 40 hills; 3 to 4 lbs. to the acre. Mature in about 50 days.

4873 Mammoth Golden Summer Crookneck Very productive dwarf bushy plants bearing distinctly crook-necked squashes of larger size. The dark yellow skin is well warted. The golden yellow flesh is sweet and rich. Grows twice as large as ordinary crookneck. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 45c; $\frac{1}{2}$ lb. 70c; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05.

4872 Giant Straightneck A new variety of the same high quality and color as Mammoth Golden Summer Crookneck but being straight necked which makes it easy to pack the fruits for shipping. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 55c; $\frac{1}{2}$ lb. 80c; lb. \$1.40; 2 lbs. \$2.55; 5 lbs. \$6.15.

Vicks Selected Tomatoes

Bonny Best

4900 Bonny Best

Attractive scarlet-red fruits borne in clusters on strong vines. Fleishy and tasty; of remarkable solidity. The skin is smooth and of a uniform scarlet color from stem to blossom-end. Bonny Best is an ideal variety for the home garden because of its prolificness. Also one of the standard varieties for greenhouse forcing. Matures in about 100 days. Pkt. 10c; ½ oz. 20c; oz. 35c; ¼ lb. 95c; ½ lb. \$1.50; lb. \$2.75; 2 lbs. \$5.10; 5 lbs. \$12.35; 10 lbs. \$23.35.

4915 Beefsteak (Crimson Cushion)

This is the largest of all bright red Tomatoes, resembling in many ways Ponderosa, but still more desirable because of its rich scarlet-red color. The large tomatoes are almost seedless and they are borne in great abundance on strong vines. Matures in 110 days. Pkt. 15c; ½ oz. 35c; oz. 60c; ¼ lb. \$1.80; ½ lb. \$3.30; lb. \$6.00; 2 lbs. \$11.15; 5 lbs. \$27.00.

4901 Break O'Day

A new origination of the U. S. Dept. of Agriculture. Almost as early as Earliana. Beautiful scarlet globe-shaped fruits of medium size. They are deep, solid, and almost seedless. Excellent for the table or market. Has short vines with scant foliage admitting the sun for quicker ripening—ideal for the north, maturing in about 95 days. Pkt. 15c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.15; ½ lb. \$2.05; lb. \$3.75; 2 lbs. \$6.95; 5 lbs. \$16.85; 10 lbs. \$31.85.

4919 Pritchard—Scarlet Topper

A new, early, large, smooth, globe-shaped Tomato. Solid flesh of a bright red color which extends right up to the stem. The robust plants give a very heavy crop. Individual plants will bear 70 to 80 fruits each. Matures in about 105 days. Pkt. 15c; ½ oz. 30c; oz. 55c; ¼ lb. \$1.65; ½ lb. \$2.00; lb. \$3.50; 2 lbs. \$10.25; 5 lbs. \$24.75; 10 lbs. \$46.75.

4908 Golden Queen (Queen of the Yellows)

A main-crop variety bearing a large crop of smooth yellow fruits. Thick and meaty, of excellent flavor. Matures in about 100 days. Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.15; ½ lb. \$2.05; lb. \$3.75; 2 lbs. \$6.95; 5 lbs. \$16.85; 10 lbs. \$31.85.

Small Fruited Tomatoes

4926 Pear-Shaped Red The attractive small red fruits make tasty preserves and marmalade. Pkt. 10c; ½ oz. 25c; oz. 45c; ¼ lb. \$1.40; ½ lb. \$2.60; lb. \$4.75.

4927 Pear-Shaped Yellow Bears enormous quantities of small yellow fruits which make excellent salad or preserves. Pkt. 10c; ½ oz. 25c; oz. 45c; ¼ lb. \$1.40; ½ lb. \$2.60; lb. \$4.75.

4928 Plum-Shaped Yellow The yellow fruits are the size and shape of a plum. Pkt. 10c; ½ oz. 25c; oz. 45c; ¼ lb. \$1.40; ½ lb. \$2.60; lb. \$4.75.

We know of no more delicious and wholesome vegetable adapted to the home garden or market than tomatoes.

4920 Oxheart

A remarkable new tomato and one of the largest ever grown, often producing fruits weighing 3 lbs. each. The fruit is shaped like an oxheart. The flesh is deliciously meaty, often being 2 in. thick. Rich pink skin; luscious subacid flavor; almost seedless. Pkt. 15c; ½ oz. 50c; oz. 90c; ¼ lb. \$2.90; ½ lb. \$5.35; lb. \$9.75; 2 lbs. \$18.15; 5 lbs. \$43.85; 10 lbs. \$82.85.

4914 Vicks Improved Earliana

Our improved strain is vastly superior to the ordinary Earliana. It is by far the most satisfactory tomato grown. It matures early and nearly all at one time, ripening up to the stem better than any other early tomato. Bright red fruits on small vines. The best early tomato for the home garden or market. Matures in 90 days. Pkt. 10c; ½ oz. 20c; oz. 35c; ¼ lb. 95c; ½ lb. \$1.50; lb. \$2.75; 2 lbs. \$5.10; 5 lbs. \$12.35; 10 lbs. \$23.35.

4911 Marglobe

Developed by the U. S. Department of Agriculture. Very vigorous and productive, with long vines which protect the fruits from the sun in hot climates. Large, handsome, scarlet fruits of extra fine quality. Globe-shaped, meaty, smooth fruits, ripening uniformly; do not crack when ripe. A heavy yielder. Matures in about 105 days. Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.15; ½ lb. \$1.80; lb. \$3.25; 2 lbs. \$6.05; 5 lbs. \$14.60; 10 lbs. \$27.60.

4903 Matchless (Scarlet-Red)

One of the best large-fruited, smooth, main-crop tomatoes. A strong and vigorous grower bearing a tremendous crop of large smooth, rich scarlet-red fruits which are solid, and keep a long time. Matures in about 120 days. Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.15; ½ lb. \$2.05; lb. \$3.75; 2 lbs. \$6.95; 5 lbs. \$16.85; 10 lbs. \$31.85.

4913 Ponderosa

Although introduced many years ago, it is still unsurpassed in size and delicious, sweet flavor. It is not only the largest but also the heaviest tomato grown. The color is a purplish crimson. Of even shape considering its size, and regarded as the best table variety for slicing because it has few seeds. Matures in 110 days. Pkt. 15c; ½ oz. 30c; oz. 55c; ¼ lb. \$1.70; ½ lb. \$3.15; lb. \$5.75; 2 lbs. \$10.70; 5 lbs. \$25.85; 10 lbs. \$48.85.

4909 Improved Stone

The best main-crop red tomato. Bright scarlet fruits with smooth skin ripening up to the stem without a crack. Solid, heavy, and firm flesh. Large and very productive. Also an excellent shipper, and not subject to rot. Does well both in the North and South. Matures in 120 days. Pkt. 10c; ½ oz. 20c; oz. 30c; ¼ lb. 90c; ½ lb. \$1.40; lb. \$2.50; 2 lbs. \$4.65; 5 lbs. \$11.25; 10 lbs. \$21.25.

4910 John Baer

This is an attractive early variety producing an excellent crop of round, smooth, firm, rich scarlet-red tomatoes. It is a profitable variety with large and uniform fruits, maturing in about 95 days. A favorite with many gardeners. Productive and of excellent quality. Pkt. 10c; ½ oz. 20c; oz. 35c; ¼ lb. 95c; ½ lb. \$1.50; lb. \$2.75; 2 lbs. \$5.10; 5 lbs. \$12.35; 10 lbs. \$23.35.

Turnips

Sow early in spring or in late July or August for a fall crop. 1 packet sows 50 ft. of row; 1 oz. to 200 ft.; 1½ lbs. in drills or 2½ lbs. broadcast to an acre.

4951 Early White Snowball (Six Weeks) Globe-shaped roots of medium size and excellent flavor with white skin and flesh. Fine for summer sowing; crisp and tender. Matures in 55 days. Pkt. 10c; oz. 15c; ¼ lb. 25c; ½ lb. 35c; lb. 50c; 2 lbs. 90c; 5 lbs. \$2.00; 10 lbs. \$3.75.

4952 Extra Early Purple-Top Milan Matures very quickly. Good-sized, flat, smooth roots with bright purple top. Few leaves. The flesh is white, sweet, and fine grained. Without an equal for table. Adapted for spring and fall planting, or for forcing. Ready in about 45 days. Pkt. 10c; oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 70c; 2 lbs. \$1.25; 5 lbs. \$2.80; 10 lbs. \$5.25.

4954 Purple-Top Strap-Leaved A very early variety, maturing right after the Milans. Large, flat roots, 4 to 6 in. across. Deep purple above the ground, white below. Fine grained, never stringy, sweet, tender, and of mild flavor. The most popular for early and late use, either for table or for stock. Matures in about 55 days. Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 35c; lb. 50c; 2 lbs. 90c; 5 lbs. \$2.00; 10 lbs. \$3.75.

Purple Top White Globe

4955 Purple Top White Globe Special strain. A most attractive and very popular variety. Always sells quickly on the market. Does well in any soil or section. Produces large round roots of attractive appearance. The pure white flesh is fine grained and tender. The best flavored of all turnips, either raw or cooked. Has white skin with purple or dark red top. Ready for table or market in about 65 days. Pkt. 10c; oz. 15c; ¼ lb. 25c; ½ lb. 35c; lb. 50c; 2 lbs. 90c; 5 lbs. \$2.00; 10 lbs. \$3.75.

4956 Golden Ball (Orange Jelly) The most distinct yellow turnip ever offered. It is the sweetest and most delicious of yellow-fleshed varieties. Of medium size, with small tap-root. A rapid grower of fine texture. Matures in about 65 days and keeps well all winter. Pkt. 10c; oz. 15c; ¼ lb. 25c; ½ lb. 35c; lb. 50c; 2 lbs. 90c; 5 lbs. \$2.00; 10 lbs. \$3.75.

4959 Shogoin (Japanese) A winter variety which possesses great merit and comes directly from Japan. Has large roots of a semi-globe shape. The skin is pure white, excepting only the part next to the leaves which is pale green. As it is a large turnip, it has correspondingly large and vigorous leaves which are used for greens and are ready in about 30 days. After cutting it will produce some more foliage. The large white turnips have white flesh, which is solid and fine-grained. Very popular in the South and does equally well in the North, maturing in about 70 days. A heavy cropper of good quality and a reliable winter keeper. Pkt. 10c; oz. 15c; ¼ lb. 25c; ½ lb. 35c; lb. 55c; 2 lbs. \$1.00; 5 lbs. \$2.20; 10 lbs. \$4.10.
