FRESHLY, CAREFULLY DUG FOR YOUR ORDER

ARP GROWN

Varieties

PAPERSHELL PECANS

BURKETT. A favorite of West Texas, introduced by J. H. Burkett of Clyde. Size large, shell thin, kernel plump, flavor excellent. Is one of the most popular varieties. Runs 40 nuts per pound and 55% kernel. Very healthy, regular bearer.

DELMAS. From Jackson County, Mississippi. Widely disseminated, size large, shell medium thin, kernel plump, quality good. Runs 45 nuts per pound and 48% kernel. Scabs in damper localities. Heavy bearing, vigorous, beautifully shaped tree.

MAHAN. The Giant Pecan — originated in Mississippi. Largest nut, thinnest shell, and bears when very young. May not last as long or fill as well as other pecans in some localities but is highly valued in others.

MOORE. From Jefferson County, Florida. Runs 67 nuts per pound and 49% kernel. Usually prolific and one of the best commercial varieties for East. Fast growing, early maturing, medium size, thin shell.

MONEYMAKER. From Madison Parish, Louisiana. Runs 51 nuts per pound and 46% kernel. Widely disseminated; size medium. Recommended only for eastern portions of the country. Nut, well filled with rich meat, is easily cracked. Upright grower, beautiful foliage. Early and prolific.

SCHLEY. Thrifty, vigorous, "Eastern" tree originated in Jackson County, Mississippi. Long, medium to large, thin-shell nuts run 47 per pound, 61% kernel, full and plump, and richly flavored. This old, widely disseminated variety, said to be a Stuart Seedling, is only

average bearer, but commands top market price. A very high-class pecan.

STUART. Most widely disseminated, grown farther north than most varieties. A large, strong tree, well shaped, also originated in Jackson County, Mississippi. Good quality large nuts run 55 per pound, 44% kernel, medium-thin shell. The old and well-known papershell pecan.

SUCCESS. Large oblong nuts with thin shells and partitions, runs 37 per pound and 52% kernel. Full, sweet flavored, yellow, excellent quality. Strong grower, regular, heavy bearer from Stuart and Schley territory, widely used and one of the most valuable Eastern varieties.

TEXAS PROLIFIC. (Sometimes called **Sovereign**). Introduced by E. E. Risien, San Saba, Texas. Runs 48 nuts per pound and 54% kernel. Very prolific and widely disseminated in Texas. A very popular variety. Medium thick shell, rich kernel; heavy, early bearer, and fast growing tree.

WESTERN SCHLEY. Introduced by Guy Risien, San Saba, Texas. Runs 59 nuts per pound and 60% kernel. Thin shell and good cracking quality. Resembles the Eastern Schley very much, but probably more valuable for Texas. Very prolific and seems to do well over a wide area.
