**GERMAIN'S 1958 ROSE INTRODUCTION**

**Merry Widow**

(P.A.E.)

as gay and alluring as its name

A New Red Rose...exotic and radiant beauty, with amaranth, deep crimson, semi-double flowers. Exquisitely formed high-centered buds open to deep crimson, semi-double flowers with velvety textured petals. The profusion of blooms are borne both singly and in clusters on unusually long stems. 18 to 20 inches.

The Merry Widow has a practically non-fading fragrance, reminiscent of the old fashioned red rose. This newest Germain's grandiflora rose, another Dr. Lammerts-orig. work attains a height of 4 to 5 feet. The entire bush is gloriously clothed in dark green foliage.

ALL THE WARMTH AND GLOW OF A DESERT SUNRISE FOR THE FIRST TIME CAPTURED IN A ROSE

(Pat. 1484)

Flowers are a radiant warm salmon pink. They bloom all summer. The stems canes are strong, and the plant is more resistant to diseases and mildew. The petals are uniformly soft and velvety, with a rich fragrance.

WARMEST, RICHEST, MOST RADIANT NON-FADING YELLOW EVER CAPTURED IN A ROSE

(Pat. 1135)

Its true petals golden yellow holds its magnificent brilliant rose in open blooms for days—even in bright hot sun—without trace of fading! The full, beautifully shaped buds open to large, sunny blooms on long, straight stems. Foliage is disease resistant and its vigorous, shining dark green leaves form a perfect foil for the golden flowers borne in season-long profusion.

**Chrysler Imperial A.A.R.S. 1958**

AMERICA'S FIRST TRUE RED ROSE

(Pat. 1167)

Unmatched by any other rose, its vivid rich tones of crimson are enhanced by deep wine centers of glowing mahogany red, and the gossamer-like border of crimson in the flowers retain its sparkling beauty.

**Golden Showers**

THE FINEST PILLAR AND CLIMBING ROSE SINCE 1941

Leading Rosarians agree: "No other rose like this in floricultural history."

In 60 years of our time in this class has combined sufficient beauty, hardiness, and flowering qualities to win this award.

The bushy flowers are exquisitely fragrant, uniquely shaped yellow, large pointed buds that open to golden with a height of 6 feet. Its long, strong stems are susceptible to bush flower arrangements. In the short time when blooms are waiting to burst forth in golden splendor, the plant is as exquisitely colored as the ground with large, dark green glossy foliage. Golden Showers is so vigorous that it is highly resistant to mildew and black spot.

A 3 WAY FUNCTIONAL ROSE

The rose that started an entirely new trend in alpine landscape design

1. AS A SELF-SUPPORTING PILLAR ROSE—By allowing the stems to remain unpruned for two years, the tops of the canes will grow very gracefully, creating a compact Pillar Rose 5 to 10 feet tall.

2. AS AN EYE-LEVEL ROSE BUSH—By pruning away the two-year-old wood canes at the base each spring—and heading back the year-old canes to about five feet—growth is increased.

3. AS A WINTER HARDY EVERBLOOMING CLIMBER—Once the tips are trained in the spring against a building or trellis as a regular climber, and then over to produce hundreds of gorgeous blooms that rival the first Hybrid Tea.
