Merry Widow

(P.A.F.)

THIS SPECTACULAR NEW GRANDIFLORA IS AS GAY AND ALLURING AS ITS NAME

A New Red Rose . . . exciting and radiantly beautiful, with vibrant, deep crimson, nonfade blooms. Exquisitely formed high-centered buds open to deep crimson, semi-double flowers with velvety textured petals. The profusion of blooms are borne both singly and in clusters on unusually long cutting stems . . . 12 to 18 inches. Merry Widow will produce armloads of cutting flowers to grace your home—bring your garden indoors.

The Merry Widow has a particularly pleasing fragrance; reminiscent of the old-fashioned red rose. This newest Germain's grandiflora rose, another Dr. Lammerts original, attains a height of 4 to 4½ feet. The entire bush is gloriously clothed in dark green 'leathery foliage. Grown with expert care this gorgeous GRANDIFLORA combines the abundant bloom of the FLORIBUNDA with the magnificent flowers and stems of the HYBRID TEA.

AMERICA'S MOST FABULOUS HYBRID TEA ROSE
SYMBOLIZING AMERICA'S MOST FABULOUS CITY

ALL THE WARMTH AND GLOW OF A DESERT SUNRISE
FOR THE FIRST TIME CAPTURED IN A ROSE

The Las Vegas, Germain's 1957 rose introduction, is a radiant, warm, salmon-pink with a golden sheen at the base of each petal. The large, long, pointed buds open into high-centered blooms revealing the warm glowing color of the rose. As the blooms further develop, the petals cup and the spectacular color becomes more intense, giving an even deeper radiance to the flower. The blooms, measuring up to 6 inches across, are produced freely on exceptionally long cutting stems. Las Vegas is a truly long lasting cut flower, whose petals have a satiny lustre that imparts a depth and warmth to the bloom, such as that seen in a desert sunrise.

The plants bearing these gorgeous flowers are vigorous and well branched. The foliage covers the plant well, with semi-glossy dark green leaves.

Golden Showers

(Pat. 1557)

1957 A.A.R.S. Winner—First Pillar & Climbing Rose in 16 Years to Win the National All America Award. No Other Rose Has All These Spectacular Features.

Leading rosarians agree: "No other rose like this in floricultural history."

GOLDEN SHOWERS is the first winter-hardy, ever-blooming Pillar and Climbing rose that blooms continuously from early spring until late fall.

GOLDEN SHOWERS lends itself to any landscape treatment; as a beautifully arching, self-supporting Pillar Rose, 8 to 10 feet tall; trained as a climber, this 1957 A.A.R.S. winner will reach up and along a trellis or a fence. Or it can be shaped as an eye-level symmetrical bush, combining exquisitely shaped daffodil yellow, long pointed buds with fragrant, high centered, 25 to 30 petaled, 4½ to 5 inch yellow open blooms. Almost thornless, with long beautifully decorative bronze cutting stems, Golden Showers lends itself to spectacular cut flower arrangements. The plant is magnificently covered clear to the ground with large, glossy foliage, and is so vigorous that it is highly resistant to rose diseases such as mildew and black spot.

Mexicali Rose (Pat. 1496)

This truly spectacular floribunda, acclaimed one of the most unusual developed in this century, introduces gay, vivid colors—bright as a Fiesta—to achieve one of the most dazzling displays ever created in the rose world!

Imagine these exquisitely shaped buds of bright yellow, suffused with vivid red, opening to lovely 4-inch blooms of deep yellow—then turning various bright shades of deep rose pink—maturing to a brilliant cerise red. As the blooms open, the petals begin to quill into a spectacular dahlia form. These excitingly vivid and fragrant flowers are borne in great profusion—both in clusters and singly—and bloom again and again all season long. The MEXICALI ROSE bush grows 4 to 5 feet tall, is clothed with bronzy foliage and is extremely disease resistant. It provides strong stems for cut flowers, and also makes an excellent hedge.

**GREATEST RED ROSE
IN AMERICA**

Chrysler Imperial

(Pat. 1167)

A.A.R.S. WINNER 1953

AMERICA'S FIRST TRULY RED ROSE

The Chrysler Imperial Rose is unmatched by any other red rose. Its vivid, rich tones of crimson are enhanced by darker overtones of glowing oxblood red, and the gem-like lustre of garnet in the folds retains its sparkling beauty.

Long, tapering buds unfold even in adverse weather, opening to large, high-centered flowers measuring 4½ to 5 inches with 40 and 50 wide petals. These are borne on sturdy, medium long stems. The opening of each glorious rose is a thrilling spectacle of changing, iridescent shades of red.

The flowers are very sweetly scented with true rose fragrance, borne singly on perfect cutting stems lasting up to one week when cut, even in warm weather. In growth, Chrysler Imperial Rose is compact and symmetrical. Its abundant dark green, semi-glossy, disease resistant foliage gives the bush the appearance of a handsome garden shrub.

Sun Valley (Pat. 1135)

WARMEST, RICHEST, MOST RADIANT YELLOW EVER CAPTURED IN A ROSE

SYMBOLIZING THE BREATH TAKING BEAUTY OF FAMED SUN VALLEY

At last—in "SUN VALLEY"—Germain's presents the warmest, richest, most vibrant *yellow* ever captured in a rose.

Its true guinea golden yellow holds its magnificent brilliant tone in open blooms for *days*—even in bright hot sunshine—*without a trace of fading!*

The full, beautifully shaped buds open to large, strong and lasting blooms on long straight stems. The foliage is disease resistant and its vigorous, shining dark green tone forms a perfect foil for the golden flowers borne in season-long profusion.

Rose growers, from coast to coast, in conclusive trials, have found "Sun Valley" the purest, non-fading yellow rose—and one that holds its pure color better—than any yellow rose they have seen.

For masses of dazzling sunshine in your garden all season—and long-lasting brilliant yellow bouquets—"Sun Valley" should be a "must."

**THE ROSE THAT CREATED A NEW CLASS
WORLD'S ONLY A.A.R.S. GRANDIFLORA WINNER**

A new breathtaking color in roses—combining Soft Carmine Rose and Dawn Pink. IMAGINE! BOTH ON ONE BUSH! Flowers borne regally single on long straight stems, and gorgeous *clusters* of blooms as well! Even the bloom clusters have stems long enough so that the flowers can be used individually in vases, flower arrangements, etc.

Queen Elizabeth is the most unusual and wonderful rose ever offered. First winner in the GRANDIFLORA Class of roses, you'll enjoy the profusion of season-long bloom of the FLORIBUNDA, as well as the wonderful bud forms, large, long-lasting flowers and splendid cutting stems of the HYBRID TEA.

COLOR? You'll really be thrilled when you see the superb and radiant PURE PINK shade, hitherto found only in choicest CATTLEYA ORCHIDS, and never before captured in a rose.

THE BUSH? The entire bush is gloriously clothed right to the ground with glossy, deep green foliage.

A prolific and continuous bloomer. The plants are literally covered with great quantities of beautiful buds which are salmon-pink flushed with gold. Plant is compact and upright. It is a bushy, vigorous grower and makes a wonderful rose hedge.

NS8241 \$1.75 Each 3 for \$4.65

Red Pinocchio (Pat. 812)

Has all the fine qualities of Pinocchio plus new glorious red color. 3½-inch flowers appear in large, long-lasting clusters, with individual blooms scattered between the mass flowering. Color is a rich carmine, which deepens and acquires a velvety cast as it opens fully.

NS8245 \$1.75 Each 3 for \$4.65

Jiminy Cricket (Pat. 1346)

1955 A.A.R.S. WINNER

Has masses of dainty, tangerine-red buds that open into 3½" blooms of coral-orange and vermillion, turning to a soft, pink-coral shade. The 4-foot bush is covered with splendid rich green foliage, and the upright growth makes it ideal for hedges or massed effects.

NS8226 \$2.00 Each 3 for \$5.25

Snowbird

One of the most prolific bedding roses. A very fine, almost pure white rose which is not well known, but is one of the prettiest white roses that can be grown. Long, beautifully shaped, white buds of small to medium size open into snowy white, high-centered blooms, often 4 inches across. Very fragrant.

NS8264 \$1.50 Each 3 for \$3.90

Floradora

The gayest Floribunda of them all. It is spectacular, constantly in bloom, and an entirely new shade—a brilliant cinnabar-red, as arresting under artificial light as in the garden. Flowers are carried on sprays of 6 to 12 blooms.

NS8293 \$1.50 Each 3 for \$3.90

Goldilocks (Pat. 672)

The first bright yellow Polyantha, fully double fragrant flowers. Grows about 2½ feet tall. The delightfully cupped blooms gradually open to a full 3½ inches across; each plant is a continuous riot of golden-yellow color as the new buds come on almost daily. The blooms develop in clusters, adding to the striking golden effect although each individual flower has lovely, perfect form.

MULTI-COLOR FLORIBUNDAS

Easter Parade (Pat. 1200)

It is remarkable to watch this glorious Floribunda go through such an amazing transition of colors. At first the buds are bright golden yellow. Then, while opening, the upperside of the petals becomes edged with salmon pink and cerise, remaining yellow on the underside. And finally, Easter Parade emerges a gorgeous light crimson rose with delicate yellow tonings.

NS8213 \$2.00 Each 3 for \$5.25

EASTER PARADE

Circus (Pat. 1382)

1956 A.A.R.S. WINNER—Only Multicolor rose ever to win.

Floribunda rose actually changes color as the buds open into fully blown flowers. At the start the buds are rich yellow and red, then as if by magic, exciting orange-buff appears, flushed with apple blossom pink, and finally to the gayest red you've ever seen. The high-centered blooms are fragrant and long lasting.

NS8210 \$2.50 Each 3 for \$6.60

Mexicali Rose (Pat. 1486)

This truly spectacular new Floribunda, acclaimed one of the most unusual developed in this century, introduces gay, vivid colors—bright as a Fiesta—to achieve one of the most dazzling displays ever created in the rose world!

Countess Vandal (Pat. 38) NS8284

Enthusiastically received by all rose lovers. Long pointed bud; distinctive shading of coppery bronze, suffused with soft gold, its form a continuous "movie" developing new beauty during its long life.

Crimson Glory (Pat. 105) NS8285

This beautiful, vigorous and free flowering rose has proved to be one of our very best dark reds. The large pointed buds open to flowers of intense deep and vivid crimson shaded with deep red. Plentiful foliage spaced on exceptionally long stems.

Eclipse (Pat. 172) NS8288

The long, stream-lined bud, enhanced by ornamental sepals, is of rich gold without shading. Erect, strong growing, free-flowering plants. Good for cutting; good foliage; strong stems; one of the finest of its color. Beautiful in the bud.

Etoile de Holland NS8290

This large splendid red rose ranks among the best in its color. Long, tapering buds open to brilliant vivid red blooms of huge size. Perfect in half open state. Holds its color.

Floradora NS8293

Spectacular, constantly in bloom, and an entirely new shade in roses—a brilliant cinnabar-red. Flowers are carried on sprays of six to twelve blooms.

Margo Koster NS8230

Polyantha. A fine dainty coral-orange bloom. Plant grows twelve inches tall! Fine for edging.

Night NS8235

One of the darkest of all roses, deep dramatic crimson-shaded black and maroon. You'll thrill to its delightfully spicy clove fragrance.

Picture NS8240

This lovely, perfect rose is a picture in form and coloring. Every bud perfectly formed, and a glowing shade of light rose-pink. Full petaled and long lasting, blooming continuously from spring to fall.

Snowbird NS8264

One of the most prolific bedding roses. A very fine, almost pure white rose; is one of the prettiest grown. Long, beautifully shaped, flaring white buds of small to medium size open into snowy white, high-centered, perfectly formed blooms, often 4 inches across.

Texas Centennial (Pat. 162) NS8267

Strong, tall, with heavy strong stems and magnificent large full buds and blooms. The color is a bright, glowing carmine-red which in cool weather becomes deeper blood-red.

A Rose IS A ROSE . . .

The Rose holds the distinction of being the favorite flower of the American gardener—an honor it has maintained the world over.

The Rose has been found blooming in its wild state on every continent of the world north of the equator. In ancient times, the Greeks cultivated roses for medicinal purposes as well as used the petals for perfume.

The Rose varieties that were popular in American and European gardens more than 100 years ago are still found in commercial avenues today.

The Rose has never lost its appeal—indeed, its popularity has steadily increased.

Consequently, the spectacular success of Germain's in the hybridizing, development and marketing of prize winning roses has commanded the attention of home gardeners and florists everywhere.

Distinguished roses offered by Germain's include the Cl. Queen Elizabeth, Descanso Pillar, Best Regards, The Stork, Cl. San Fernando, Amigo, Cl. Chrysler Imperial, Sun Valley, Easter Parade, Las Vegas, Mexicali, Rose Marie Reid, Candleglow, Yours Truly, San Luis Rey, and the San Gabriel.

In the last ten years alone, of the many roses Germain's has introduced, seven have been winners of the All-American Rose Selections, Incorporated—the **Hall of Fame** of the rose world. These roses have included:

San Fernando, 1948

Mission Bells, 1950

Capistrano, 1950

Chrysler Imperial, 1953

Queen Elizabeth, 1955

Golden Showers, 1957

One of the newest and most sensational roses in the Germain's family has been the Merry Widow—a rose of such breathtaking beauty that it has become a favorite of rose lovers from coast to coast almost overnight.

Furthermore, the immediate rose future for Germain's and for gardeners everywhere promises to be the most exciting in the history of the 87-year-old company according to Dr. Walter E. Lammerts, Germain's noted hybridizer.

Called the "father of scientific rose breeding," Dr. Lammerts has long been recognized for his outstanding achievements in the development of prize winning roses. Even before his interest and success in the world of roses, Dr. Lammerts had achieved fame in commercial laboratories and at the University of California, Los Angeles, for his work with different species of fruit.

At the present, Dr. Lammerts is spending all of his time on rose breeding at Livermore, California. His goal is to develop roses that will be rust resistant; mildew resistant; blackspot resistant; non-fading and winter hardy.

He is getting closer and closer to this goal all the time.

Many people still think of roses as they were 25 years ago—superbly beautiful, but far too exacting for the average gardener. This isn't the case any longer, Dr. Lammerts says. Vari-

Dr. Lammerts at work in his test garden

eties of roses are now being produced which are as easy to plant and take no more care than any other popular flower.

Through the efforts of men like Dr. Lammerts, it is becoming increasingly easy to achieve classic rose gardens at home with minimum fuss and bother.

Just recently one of Dr. Lammerts' prize creations—the beautiful pink Queen Elizabeth rose—was awarded the coveted Gertrude M. Hubbard Gold Medal of the American Rose Society. This award is made only once every five years by the Society to the originator of the best American rose during that period.

Other creations of Dr. Lammerts include the famous Charlotte Armstrong, Chrysler Imperial, Mirandy, Taffeta, High Noon, Debonaire, The Chief, Golden Showers, Merry Widow and many others.

Germain's roses are reknowned throughout the nation. Their beauty, vitality and abundant bloom stem naturally from California's rich soil, milder climate and longer growing season. This means a more sturdy, beautiful rose for gardens in any climate.

Germain's is truly a symbol of highest quality in roses.

GERMAIN'S SENSATIONAL—NEW KOLORCOAT* DICHONDRA

*Reg. U. S. Pat. Off.

- Deep, Rich Green All Year
- Requires No Mowing
- Thrives in Sun and Shade
- Chokes Back Bermuda
- Resists Rough Usage
- Forms Dense Turf

Dichondra is a low-growing American plant, native to the southeastern part of the United States, from Virginia south. It is known botanically as Dichondra Repens or D. Repens var. Carolinensis. Germain's Kolorcoat Dichondra makes a dense sod by means of runner-like stems, growing very close to the ground, but never forms a thick mat like bermuda grass. The kidney-shaped leaves, about 1/4 in. wide, and seldom over 1 1/2 in. tall have a rich, dark velvety-green color. Dichondra is tough in texture and hard usage will not injure the strong turf or mar its beautiful appearance.

In mild climates dichondra can be started any time of the year. Since summer is the best growing season for Dichondra, spring or early summer planting gives quickest results. When planting during the colder months a nurse crop is suggested.

In the East or Middle West we recommend spring or early summer planting. This allows enough time to develop a strong root system for the plants to make seed. When the foliage and top growth is hurt by rigorous weather the lawn will then renew itself from the roots and self-sown seeds.

No. C504 JUMBO (6"x9") Package Germain's Kolorcoat Dichondra Lawn Seed (Contains enough seed to cover 300 sq. ft.) ONLY \$1.00

AND KOLORCOAT ALL IN A ROW

TRY
THIS NEW
AND EASY METHOD
OF PLANTING BY CON-
TROLLED COLOR
SELECTION

Flower gardening has been revolutionized—made easier—more fun—more sure.

The reason is KOLORCOAT, an exclusive process of seed coating developed through extensive experimentation in the Germain's laboratory.

As a pioneer California company, Germain's has always led the industry in developing new and improved flower seeds.

Carefully selected and processed through our modern laboratory and facilities, Kolorcoat seed is the gardener's best friend.

With this exclusive Germain's process each seed is individually color-coated so that the gardener knows in advance the actual, true shade of the flower itself. KOLORCOATING takes the guesswork out of planting.

A Big Surprise

Buddy and Cissy

A RARE PAIR OF BORDER BEAUTIES BRINGS NEW GAIETY TO YOUR GARDEN. GLAMOROUS IN APPEARANCE! EASY TO GROW! BUDDY AND CISSY BRING A NEW LOOK TO YOUR BORDERS.

Recently in the Gomphrena (or Globe Amaranth) family a variety called "Buddy" was introduced which was very dwarf and compact, making an attractive garden plant. BUDDY has clover-like blooms of bright purple. This year's introduction, CISSY, has identical plants and blooms, except that they are pure, snowy white, growing only 6 inches tall, and with a full three months or more of blooms under any and all weather conditions. These little plants are wonderful subjects for a twin border or edging row. No special insect or disease problems, no fancy care—just lots of durable blooms and neat little plants; also an everlasting flower that can be used for making unusual winter bouquets. Watch the garden magazines pick this up!!

Aster—New California Giants Superfine Mixed. Chrysanthemum-like flowers, measure from five to six inches across. Blossoms full to the center with broad curled and interlaced petals, borne on long, heavy non-lateral stems.
No. 2240 Pkt. 25c

BELLS OF IRELAND

Bells of Ireland—Maucella laevis is the botanical name of this skyrocketing favorite. 24 inches tall. Bell shaped flowers. Both foliage and flowers are a pleasing apple green. Fine cut flower. Can be dried and used as an everlasting.
No. 3392 Pkt. 25c

Bachelor Button—(Centaurea Cyanus)—Red-White-Blue. The three favorite colors of this popular cut flower. Succeeding anywhere and responding quickly to what little care and cultivation may be bestowed upon it. Dependable for summer and winter bouquets.
No. 2631 Pkt. 25c

MANDARIN COSMOS

Mandarin Cosmos—We are proud to introduce this year this strongly double, brilliant orange cosmos. Flowers frequently have 40 or more petals, a real innovation in this class, but even more impressive are the Mandarin plants. The heavy, dense cover of foliage makes it superior to any other variety. This pleasing foliage is maintained all through the season, even after the plants have been in bloom a long time, and converts cosmos from a sparse, open plant to a luxurious garden specimen.
No. 2759 Pkt. 50c

Cosmos—Sensorian Mixed. Easily grown from seed and succeeding anywhere. Flowers are extra large and will bloom fully two weeks before regular variety. A full range of colors in a well balanced mixture: Crimson, Pink, Radiance and White.
No. 2773 Pkt. 15c

California Poppy—(Eschscholtzia)
Deep Orange. The Golden Poppy of California, a native of our valleys and hillsides, has become one of the favorite garden annuals throughout the world.
No. 2924 Pkt. 15c

Larkspur—(Annual Delphinium)—Giant Imperial Mixed. Larkspurs are one of the most dependable of sources of cut flowers over a period of months. The Giant Imperial are fully double, and the colors are distinct and different from those of existing strains.
No. 3233 Pkt. 25c

GERMAIN'S HIGH QUALITY FLOWER SEEDS FOR SPECTACULAR EXHIBITION BLOOMS

Morning Glory—(Ipomoea) — Clarke's Earliest Heavenly Blue. Annual Climber. Sky Blue, shading golden yellow in throat; extremely early.
No. 3201 Pkt. 15c

Nasturtium — Semi-Double Glariaus Gleam Hybrids Mixed. For color, length of bloom, ease of culture and general usefulness in the flower garden, the Nasturtium has no equal. The Gleam Hybrids are especially sweet scented. Have a wide range of colors. Excellent for borders.
No. 3430 Pkt. 15c

Portulaca — Dauble Mixed. Sun loving, unequaled for summer color in low borders, beds and edgings. Brilliant ground cover. Flowers are like little roses.
No. 3720 Pkt. 15c

Sweet Peas — Early Flowering Mixed. A very wide range of colors are available in this group. Extra large, wavy petaled blossoms. Flowers are long stemmed and very fragrant. Early flowering variety bloom fully 3 weeks earlier than the regular strains.
No. 4279
Pkt. 15c; 1/2 oz. 30c; 1 oz. 50c; 1/4 lb. \$1.75

Sweet Peas — New Spring Flowering Cuthbertson Mixed. Where spring planting is the rule and where early summer heat is a hazard, Cuthbertsons are the newer, stronger varieties in this class. Clear popular colors. Vigorous growth and large flowered.
No. 4419
Pkt. 15c; 1/2 oz. 25c; 1 oz. 45c; 1/4 lb. \$1.40

Verbena—Hybrid. Choice Mixed. Effective perennial bedding plants. They require little attention when once established and are exceedingly bright in color and free blooming.
No. 4010 Pkt. 15c

Zinnia—Lilliput, Boby or Pompon Mixed. The Lilliputs are among the most popular for cut flowers. Have a wide range of colors. Small flowers, very double. Zinnias are very easy to grow and very showy.
No. 4150 Pkt. 15c

Zinnia—Lucky Strike. Newest color shades you have ever seen. Lucky Strike is acclaimed THE FINEST GIANT ZINNIA OF ALL TIME. The huge flowers are on extra long stems. Vigorous plants grow 3 feet tall and bloom profusely the entire season. Easy to grow.
No. 4129 Pkt. 25c

Ortho Polka Zinnia — Great, big goily striped zinnias. More colorful and TWICE as big as Peppermint Stick. Ortho Polka comes in some solid colors, but mostly in combinations of white and pink, rose and white, red and white, lavender and white, scarlet and yellow, orange and yellow, red and orange, pink and rose, and other lovely bicolors. Markings vary often on the same plant, from tiny dots to broad stripes and even to blooms that have one half one color and the other half a different one. No. 4104—Large 6x9 pkg. 50c eo.

ROYAL CARPET AND CARPET OF SNOW

Now offered for the first time in fabulous Kolorcoat. Brilliant garden gems, with a spreading compact habit in rich velvet purple and snowy white. Wonderfully effective in low borders, edgings, carpet bedding, etc. A hardy annual, easy to grow, with season long bloom. Uniform plants, growing 3 inches high with 12 inch spread, and serve as a carpet-like ground cover of great beauty.

No. 2040AK—Kolorcoat Seed
Pkt. 25c; 1/8 oz. 95c; 1/4 oz. \$1.60

Crackerjack

MARIGOLD

Giant blooms up to 5 inches across on compact, 2 to 3 foot plants. Flowers are fully double and come in primrose, yellow, gold and orange. Earlier and better than Sunset Giants, and offered again this year because of their overwhelming popularity during the past season.

No. 3365K
Kolorcoat Seed25c pkt.

Peach Satin

F₁ HYBRID PETUNIA

The third member of the Satin series is Peach Satin. Newly opened flowers of this F₁ hybrid multiflora petunia are nearly coral in tone, and as the bloom becomes full the color softens to an appealing, warm salmon-pink.

Flower size is greater than Red Satin or Pink Satin, measuring 3 to 3½ inches, and the plants are slightly taller, reaching 14 to 16 inches. But the compact habit and resistance to "splitting" is the same, as well as the strong will-to-bloom.

No. 3597K—Kolorcoat Seed..50c pkt.

Pink Satin

F₁ HYBRID PETUNIA

As illustrious as its predecessor, Red Satin, this new F₁ hybrid multiflora petunia, PINK SATIN, possesses the same attractive, globe shaped plant, the same ability to cover itself with bloom, and the same persistently compact habit of growth. The brilliant rose-pink flowers command attention by their intense concentration of color and then relieve that intensity with a clean, white area deep in the throat of the bloom.

No. 3603K—Kolorcoat Seed..50c pkt.

Kolorcoat

Seed

Another Germain's exclusive process whereby each seed is individually coated and colored to denote the actual shade of the flower itself. KOLORCOAT seed insures these advantages: (1) Individual color of seed permits color selection before planting. (2) Makes it easy to plan your own color arrangements and to plant a garden to your own color scheme. (3) Feeds, protects and promotes early growth. (4) Size of coated seeds permits hand spacing, which saves labor and reduces or eliminates thinning and transplanting. (5) Promotes greater emergence, healthier plants, faster maturity, better flowers.

Red Satin

(Hybrid multiflora Petunia)

The All-America winning petunia for 1957. Flowers are of a brilliant scarlet-red, 2½ in. across, and strictly non-fading even in brightest sunshine. The plants are a wonderful example of hybrid vigor, and although they preserve a neat, compact foot high mound right through the season these plants are generous flower producers, too, with 30 blooms or more open at one time. Ideal for borders, low beds or pot plants, Red Satin was also acclaimed the best flowering plant introduced for commercial use at the 1956 California International Flower Show.

TRANSCVAAL DAISIES

(GERBERA HYBRID)

Queen of the African flowers, these exotic, graceful Transvaal Daisies are a beauty blockbuster in any garden. Dynamic and different, the GIANT DUPLEX GERBERA will be the conversation piece of your garden.

*Truly
Breathtaking*

GERBERAS yield an abundance of brilliant, sun-like flowers on tall, leafless stems in striking shades of light red, deep rose, orange, salmon, yellow, and coral pink. Their long period of bloom, exquisite colors, and marvelous keeping quality as cut flowers class them among the most decorative and graceful of all garden flowers. GERMAIN'S GIANT DUPLEX MIX produces beautiful flowers which bloom from early spring until late fall. The Gerbera, or Transvaal Daisy, becomes a thrilling hobby for many gardeners, and few plants give such gratifying reward of beauty and consistency of bloom throughout the growing season. GERBERAS merit an honored, prominent display in all gardens!

CULTURE: Gerberas like full sun and deeply cultivated, loamy, well drained soil. It is important that the crown of the plant be *even* with soil level, and light fertilizing is recommended *after* plants are well established. They should be well watered when planted, then moderately thereafter. In mild climates GERBERAS may be left in the ground all winter; divisions of crowns being made approximately every four years.

GERMAIN'S OFFER THE NEWEST AND FINEST IN GIANT HYBRID IRIS

THESE OUTSTANDING VARIETIES are the results of years of breeding by the nation's most outstanding hybridizers. The iris of today are a far cry from the old varieties of our grandmother's garden. Today's NEW CREATIONS are as beautiful as the orchid. The iris is truly the lazy man's or the busy man's answer to the problem of gardening in this age of speed. So much beauty for so little work.

SHIPPING: IMPORTANT—PLEASE NOTE. TO ASSURE YOU OF FRESH, DISEASE FREE RHIZOMES, THESE IRIS ARE HARVESTED IN LATE SPRING. YOUR ORDER WILL BE SHIPPED AT PROPER PLANTING TIME, APPROXIMATELY JULY 1ST.

HOW TO GROW IRIS

There is no secret in growing iris—the following simple suggestions will insure success, and you will be more than repaid when the next iris-time comes around:

1. Select a sunny, well drained location.
2. Do not plant too deeply—the rhizomes should be just below the surface of the ground. Be sure the roots are firmed in the ground securely.
3. Keep well watered until the plants are established.
4. Fertilize lightly at least twice a year with a good commercial fertilizer, or well-decomposed manure, but be sure this does not come in direct contact with the rhizomes—it is the roots which need the food.
5. Divide and transplant iris every three years to insure maintaining good size flowers and abundant bloom.

Pink Champagne

center of photo

PRETTY **PINK!** POSIE **PINK!** POODLE **PINK! PINK!**

Something new from (down) under the sun . . . this NEW fabulous import from Australia is as sensational as a pink poodle.

As gay and sparkling as its name, PINK CHAMPAGNE . . . brings a new touch of glamour to the old reliable *Marguerite* family—a long-time "old friend" with gardeners everywhere.

Like hundreds of sparkling pink bubbles, Pink Champagne has a double-double crested center surrounded by daisy-like petals as soft as pink velvet.

PINK CHAMPAGNE boasts greater stem strength and unusually long lasting blooms . . . both in cutting arrangements and in the garden. Easy to grow (like all *Marguerites*) and gay as a greeting. You will want to order several Pink Champagnes—GERMAIN'S gorgeous new import!

Snow White

This pure white *Marguerite* predominates in plantings with shrubs and flowers, with its large white blooms and light green foliage. In the garden or in bouquets, SNOW WHITE is superior among *Marguerites* and a source of pride to the gardener throughout the blooming season. Plant with the Pink *Marguerites* for beauty of contrast and consistency of size and contour.

Princess Rose Marguerite

A rose pink *Marguerite*, truly a Princess! Blooming profusely, the large single rose pink flower is strikingly lovely and showy against dark green foliage. Princess Rose *Marguerite* is a boon to Gardeners with its multitude of colorful flowers and its ease of culture.

The Daisy Family

The Daisy Family in its many varieties is one of the most hardy, vigorously growing, dependable perennials famous for mass display of beauty, ease of culture, and abundance of lasting flowers for cutting. Daisies are "best sellers" to gardeners as well as the Flower Markets of the world with their heavy green foliage and long stemmed flowers. Requiring a minimum of gardening care for their masses of blooms, Daisies have an indispensable place in every garden.

Marconi

Famous among gardeners and florists is this great showy, shaggy daisy which holds its head proudly on stems often two and one-half feet tall! With four inch snow white flowers with bright yellow centers and lush green foliage, the Marconi is a true "show-off" in the garden or in flower arrangements in the home.

An Amazing Ever-Bearing Strawberry Variety
 THINK OF IT! 50 PINTS OF LUSCIOUS BERRIES FROM JUST 25 PLANTS—THE VERY FIRST YEAR!

GERMAIN'S Fabulous Sweetheart Strawberry

(20th Century Selected)

**HUGE, DELICIOUSLY SWEET, RICH RED STRAWBERRIES
 OFTEN AS EARLY AS 60 DAYS AFTER PLANTING**

Germain's outstanding Strawberry "SWEETHEART" (20th Century Selected) is so prolific it produces a full, abundant crop the very first year. Planted in Spring it will bloom and set berries in 6 to 8 weeks. The berries are of such exceptional size you'll say you never saw strawberries so big before. The color is brilliant, sparkling red and the luscious, firm flesh is deliciously sweet. In California and the West it bears three main crops each year and out-produces other varieties by a wide margin, even in the first year.

GLADIOLUS BULBS TREATED BY HEAT THERAPY

High crowned #1 bulbs from COOKED PLANTING STOCK! By this we mean these bulbs were produced from smaller bulbs or bulblets that were HOT WATER TREATED. Yes, actually immersed in hot water to destroy disease common to gladiolus such as fusarium, crown rot, bacterial scab, and the minor diseases. This process, now perfected, has proven a boon to the gladiolus industry. A clean bulb produces a much better flower and is a healthier propagator than the untreated gladiolus.

SPECIAL NOTE: Only Offer No. 5273 is processed from cooked planting stock.
