MISCELLANEOUS SEED—(Continued)

	Pk.	1 Bu.	5 Bu.	25 Bu.
BARLEY, BEARDLESS—Grown from pedigreed seed. Recleaned.---	\$.60	1.95	1.85	1.80
OATS, COKER'S 33-50 SMUT RESISTANT—Heavy yielder -----	.40	1.25	1.15	1.10
" TEXAS RED RUST RESISTANT—Grown by us. See below.	.35	1.00	.90	.85
RYE, ABRUZZI, GENUINE-----	.60	1.90	1.85	1.80
WHEAT, BLUE STEM—An especially pretty lot. Recleaned -----	.60	2.05	1.95	1.90

NOTE—All of our seed grains are selected for trueness to name, high yields, and all-around quality. Everything has been thoroughly machine cleaned and graded. We sell nothing that is "reshner run." It pays us to sell the BEST, and it will pay you to buy the BEST—especially when it comes to seed. We sack our seed in strong, uniform, even-weight bags so that they will reach you in good condition. To those who do not know it, let us say that Coker's 33-50 oats have been bred to replace Fulghums. They are higher yielding, highly smut resistant, stand up well, early, and 1 bu. sows an acre, whereas 2 bus. of other kinds are usually required. They are economical to use. Ask for samples.

TESTED SEED PAY—We attach analysis tags in compliance with Alabama Seed Laws to all bags of seed weighing 5 lbs. or more that we ship. In this way, we know and you know what you are getting. Don't buy by guess, but by test! It pays.

GENERAL DISTRIBUTION OF OUR NEW CATALOG WILL BE IN EARLY JANUARY, ALTHOUGH IT WILL BE OFF THE PRESS IN NOVEMBER

Most legume seed weigh 60 lbs. per bu. Unhulled Black Medic weighs 40 lbs. See index of catalog for Lespedeza and other wts.

INOCULATE WITH **NITRAGIN** "A" for: Alfalfa, Black Medic, California Bur, and Annual Yellow and Biennial White Melilotus.
 " " " " "B" for: Alsike, Crimson, Hop, Persian and White Dutch.
 " " " " "C" for: Austrian Winter Peas, and Hairy and Hungarian Vetch.

REMEMBER that—Legumes NOT Inoculated are "SOIL ROBBERS," and Legumes WELL inoculated are "SOIL BUILDERS." By all means inoculate all Legume seed for best results, unless the soil contains the proper bacteria. See our catalog for more information. NITRAGIN is the oldest and most widely used inoculation in America. Poor inoculation, or no inoculation, causes many legume failures. See "over" for NITRAGIN prices. They are the lowest in history this fall.

N. B. We can fill orders immediately f. o. b. Mobile, Ala. for imported Hairy Vetch. This stock is to save you time and freight. Send all orders to Darlington. Bags contain 100 lbs. each and cannot be broken at the port. The above prices apply. If you order only one bag, add 25 cents extra to cover special port handling. Regardless of whether your order is filled from Darlington or Mobile, by buying in ton lots you can get Austrian Peas at \$4.40 cwt., Hairy Vetch at \$8.50, and Italian Rye Grass at \$7.00. Winter cover crop seed, including Crimson Clover, are cheaper than they have been for years. They are almost sure to be higher a year from now. Because of the price advantage now, and because dry weather has prevented many early plantings, we strongly urge our customers to plant liberally for at least 30 days—the earlier, the better. Our seed are ready for "instant shipment."
