Flowerfield Matched Mates

Flowerfield's MATCHED MATES have been inspired by the beauty inherent in all bulbs. The stately flower spike of the Gladiolus and majestic globular head of the Dahlia create an artistic complement and balance. Flowerfield's Matched Mates are a combination of Dahlias and Gladiolus whose matchings are exactly alike in tone and color.

Matched Mates should be planted together, they will grow together, bloom together and, in flower arrangements, complement each other. The Gladiolus in these perfectly matched beauties should not be planted until mid-June for blooms in September when Dahlias are at their best. 10 Gladiolus to each Dahlia is recommended.

White Matched Mates

SNOWSPRITE Unquestionably one of the best miniature Dahlias. Artistically shaped, glistening snow-white blooms are held boldly on perfect stems. Each 75¢

POLAR ICE A Gladiolus that is so white it is almost a blue white, snow-white like the polar ice for which it is named. The florets are extra-large. Ten \$1.25

1 DAHLIA, 10 GLADIOLUS \$1.75

Red Matched Mates

JAMES KIRBY Beautiful crimson-scarlet Dahlia blending to ruby tones at the center. The stems are tall and straight. It makes an excellent cut flower. Each 50¢

AMERICAN COMMANDER A fine dark scarlet-red without any markings. A sturdy consistent grower which has made a great name for itself. Ten \$1.40

1 DAHLIA, 10 GLADIOLUS \$1.65

Pink Matched Mates

ELIZABETH PAPE The best and most artistic miniature cactus Dahlia. Its cream heart and nicely whorled pink petals give it an unusual distinction. Each 75¢

PICARDY A four star pink Glad. One of the best flowers ever hybridized. The cream throat sets off its lovely pink petals as in the Matched Mate. Ten \$1.25

1 DAHLIA, 10 GLADIOLUS \$1.75

This is Flowerfield's Spring 1946 catalog. It contains the finest varieties of garden subjects for spring planting. There are many other varieties of bulbs, roots and plants that are not listed in our Spring Catalog because they should not be planted or transplanted in the Spring. Subjects such as Peonies, Lilies, Tulips, Daffodils, Poppies and Hyacinths are best planted in mid-summer or fall, therefore, they will be listed in our catalog for fall planting.

Flowerfield GLADIOLUS

PRIZE WINNERS

Since 1874

John Lewis Childs, founder of Flowerfield, introduced the present Gladiolus, *Gladiolus Childsi*, to this country. Prior to this hybridizing work, the Gladiolus was a small, half wild but graceful plant with little garden value. It was through the efforts of John Lewis Childs that all of the modern advances in Gladiolus culture were made possible.

Flowerfield supplies only the largest sized, highest quality bulbs. On the following pages are listed the best new varieties and the finest standard varieties of Gladiolus.

Gladiolus have other advantages for the American gardener. They are extremely easy to grow, and are subject to very few diseases, one of those "easy gardening" plants.

Margaret Beaton

Margaret Beaton is one of the best new varieties to appear in recent years. The color is a startling contrast of red and white. It and Leading Lady are the most talked of new Gladiolus of the past few years. Margaret Beaton is particularly lovely for use in flower arrangements where its brightness livens any room.....Three 55¢, Doz. \$2.00

EXHIBITOR'S MIXTURE

DISTINCTIVE VARIETIES FOR

For the past few years, more and more people have very successfully used the modern Gladiolus as border subjects or for gay color accents. Flowerfield's beautiful large flowered varieties are available in most every color and shade imaginable. Their tall graceful flower stalks are wonderful for mass flower arrangements. The florets are especially nice for table decorations and corsages.

BARCAROLLE Undoubtedly one of the most beautiful orange Gladiolus. Florets are finely ruffled, adding to the value of this most excellent flower. Its clear grenadine orange is a new color for Gladiolus.....Three, 50¢, Doz. \$1.75

CHAMOUNY A light fuchsia-red edged with a white line around its petals. The medium sized floret is very striking yet dainty. Chamouny is an unusual variety for garden and floral arrangements.....Three 75¢, Doz. \$2.50

CORONA Soft blush-white petals with a lovely pink picotee edge makes Corona one of the loveliest Gladiolus yet hybridized. The growth characteristics of Corona are beyond reproach.....Three 75¢, Doz. \$2.50

GRETA GARBO The buds and the first opened florets of Flowerfield's Greta Garbo are a very light cream-pink, the flower rapidly becomes rosy white after opening to full size. The florets often measure six inches across. Greta Garbo averages more florets to the spike than any other variety grown. The flower spike is carried well above the ground on tall, very strong stalks.....Three 95¢, Doz. \$3.50

PEGGY LOU

GLADIOLUS

CONNOISSEURS AND EXHIBITORS

The color range and form of the Gladiolus makes it one of the finest of garden subjects. They prefer a sunny location in well-drained soil. Flowerfield's bulbs are guaranteed to be the best bulbs available. Bulbs should be planted to a depth of four to six inches. For exhibition quality results they should be fed once, when planting, again when six inches high, and finally as the flower buds emerge.

GREEN LIGHT The charm of this variety is its peculiar greenish gloss which overlays the milky white of the large well-formed, slightly ruffled florets. Green Light appears really green in the bud stage..... Three 50¢, Doz. \$1.75

LEADING LADY This pure white sport of Picardy has been outstanding in every Gladiolus show since 1944. Leading Lady has all the beauty of form and sturdy lasting qualities of Picardy..... Three \$1.50, Doz. \$5.00

MAMMOTH WHITE This mammoth, pure snow-white Gladiolus is a must for those who like huge blooms. It is a sturdy, tall variety that is equally at home in the garden or as a cut flower. Mammoth White does not have a creamy throat, it is snow white..... Dozen \$1.50

MYRNA The huge glistening white florets of Myrna are gracefully placed on a strong stalk that is tall and erect. There is just a faint suggestion of cream deepening in the throat, where it assumes an almost greenish cast. Myrna is one of the best new Gladiolus and has won many prizes as the finest new white..... Three 55¢, Dozen \$2.00

BAGDAD One of the most outstanding gladiolus in the "smoky" class. The perfectly huge flowers flare wide open, almost crowding each other on the stiff tall stem. The color is difficult to describe, but is well shown by the picture below. A strong sturdy grower, Bagdad has one of the strongest stalks of all gladiolus. . . Dozen \$1.25

BEACON A new variety that is a scion of the healthy Picardy strain. Beacon has many of the same growing traits as Picardy. The spikes are very tall and carry many large florets open at a time. Beacon is a most sturdy gladiolus with a striking color scheme, as illustrated. Dozen \$1.50

BINGO One of the largest of Glads, attracting attention wherever seen. Huge florets, delicate pink in tone, are lightly flecked deep pink, and accented by a rose and cream throat. A beautiful bi-color. Dozen \$1.75

MAID OF ORLEANS This is a fine all-around white. A soft cream shade in the center tends to turn pure white on the outer edges of the petals. The florets are well shaped and particularly well arranged on the long flower head. This variety is long lasting when cut, ideal for arrangements. Dozen \$1.50

MINUET This well known blue lavender gladiolus has long been used by florists as a cut flower. As many as 8 of its large florets may be open at once, presenting a long spike of color. Minuet has the fine quality of lasting a long time after cutting. Dozen \$1.50

MISS BLOOMINGTON A fine canary-yellow with many florets open, arranged ideally along a good spike. A most decorative type of Gladiolus, particularly attractive when used to set off darker spots in the border or to contrast with the deeper-toned Gladiolus. A fine variety for cutting, one to lend brightness and cheer to your arrangements..... Dozen \$1.50

PICARDY The most popular of all gladiolus, Picardy is almost too well known to have to describe. It is a lovely pink that is exhibited everywhere, in Flower Show after Flower Show, and in every Florist's window. Flowerfield's huge healthy bulbs produce the finest gladiolus for your garden. This is a superb variety whose spike is always straight, erect, and carries many florets open at a time..... Dozen \$1.50

REWI FALLU Huge and red, this gladiolus is another of the New Zealand varieties so well known for their tremendous size and extraordinary vigor. Named for it Maori hybridizer, Rewi Fallu is one of the finest dark reds known. Even the very topmost bud opens into a flower of very large size. Dozen \$1.75

ROCKET Large vivid scarlet florets are perfectly placed on an excellent spike. Rocket is the very best scarlet in its price class. With as many as 7 or 8 florets open at once, it produces a wonderful splash of color in the garden. Dozen \$1.50

WANDA Found in a field of Picard, Wanda is a sport of that sturdiest of all gladiolus. Its lovely cream-yellow makes it one of the most useful and beautiful in the garden or the cut flower bowl. Wanda is doubly welcome since it is the first satisfactory large-flowered yellow gladiolus. We honestly believe Wanda is one of the finest gladiolus ever introduced. Dozen \$1.50

Flowerfield's MINIATURE GLADIOLUS

Flowerfield's Miniature Gladiolus are a race of little beauties that have a gentle grace and charm all their own. These little hybrids are unexcelled for use in cut flower arrangements. The flower stalks are slender, gracefully curved, seldom reaching a height of more than 4 feet. The florets are well spaced along the flower head, and are of the desirable "hooded" type, shyly hiding their lovely throats. Their colorings are most unusual.

ORANGE BUTTERFLY A pure orange-colored primulinus gladiolus that is noted for its shape. The two upper petals extend on either side giving the appearance of butterfly wings...Three 50¢, Dozen \$1.75

THE ORCHID The most beautiful of all the miniature-flowered gladiolus. The Orchid is a white flower lightly traced and suffused with light orchid-pink. The florets are delicately ruffled, adding to the beauty of this extremely delicate looking flower.
.....Three 60¢, Dozen \$2.00

TWEEDELEDUM A bicolored primulinus gladiolus of extreme beauty. The florets are beautiful warm ruby-red turning to deep yellow at the throat. The two outside lower petals are yellow with an edge of ruby, giving a very remarkable pansy-like look to this extremely pretty flower.....Three 75¢, Dozen \$2.50

WHITE BUTTERFLY Similar in form and shape to Orange Butterfly and having, like that variety, the appearance of a delicate butterfly. White Butterfly is a pure pristine white, perfectly lovely for cut flower arrangements.....Three 50¢, Dozen \$1.75

Giant Flowered TUBEROUS-ROOTED BEGONIAS

These colorful, exquisite flowers are unlike most bulbs for tuberous-rooted Begonias actually need shade and should be shielded from the sun's rays. When planted in a moist, fairly rich soil, they require little care.

Beginning in July, tuberous-rooted Begonias carry their many huge flowers in a wide range of pastel and bright colors, from pure white to yellow, pink and deep rich crimson. The flowers bloom in clusters of three, one large male flower in the center and two smaller female flowers on either side. These side buds should be removed as soon as they appear; they are single-type flowers of inferior character and inhibit the full development of the central flower. Under ordinary culture these blooms will reach 5 to 6 inches in diameter, although flowers up to 8 inches may be obtained by special care and attention.

CAMELLIA-FLOWERED

The King of Begonias appear to be huge camellias. These completely double blooms are far larger than the best greenhouse camellias. The illustration on the facing page more adequately describes the beauty of this very unusual variety.

FLOWERFIELD BULB FOOD

Since 1874, Flowerfield has grown and sold the finest bulbs in America. This has been the result of much hard work and much research into the best methods of growing bulbs. You can imagine, then, that the food we use to grow our superlative bulbs **MUST** be a superior product. And it is, as our years of experience have shown.

Mixed with the soil in which bulbs are to be planted, Flowerfield Bulb Food will produce results that will truly amaze you, blooms that far exceed our catalog's claims. Not only does our Bulb Food feed your bulbs (and plants, too), it also acts as a soil conditioner, putting new life and vigor into your garden or potting soil.

Once you try it, you'll want to feed everything in your garden with Flowerfield's Bulb Food.

TIGRIDIAS *Tiger Flower*

Tigridias, a species of Iris, were first recognized by botanists in about 1790 in Mexico where the Indians were using them for food.

Through hybridizing, and introducing new varieties from South America, the Tigridia Pavonia Grandiflora was developed. After many years of crossing, Flowerfield now introduces this new and improved strain of Tigridias which may be grown in any good garden soil.

The gorgeous tropical splendor of Tigridias will be a welcome addition to any garden. Their perfectly huge blossoms, whose blooming period is from mid-July until frost, are 6 to 7 inches across. Three silken petals, richly colored in various shades of scarlet, rose, yellow, orange or white surround plain or spotted cups. A red, triple-spronged stamen darts several inches high from the very center of the cup.

NEW *Low Growing* CANNAS

OUR CANNAS ARE BEAUTIFUL

The new low growing Cannas are a real specialty at Flowerfield. 20 acres have been devoted to their growing and development. These flamboyant beauties have a myriad of uses. Formerly grown for their excellent foliage, they are now prized for their wonderful, brilliant flower heads. A pink Canna and pink Geranium border is a delightful novelty. Cannas bloom for a longer period, and make a finer display than any other large flowering plant. Flowerfield's fine Cannas are sturdy enough to hold their own against shrubs, among which they may be interplanted.

NOT FUSSY ABOUT SOIL

Cannas may be planted in almost any kind of soil but prefer a rather heavy soil where they should be planted three to four inches deep. They may be allowed to stay in the ground in the autumn as long as they continue to grow and should be left until the tops are touched by the frost. They may then be dug and stored for the winter. Our Canna list is complete. From it you may choose the height, color of bloom and color of foliage which you desire.

ASTILBE

PERENNIAL SPIREA

The Astilbe are sturdy, 2 to 3 foot plants with finely cut attractive foliage that is very desirable throughout the summer. Above this foliage bloom great sprays of very delicate lacy flowers. Astilbe are excellent for shade; however, they may be used in full sun if they have an abundance of water at all times. Because of this the Astilbe are most useful in the damp spots in the garden where most other flowers will not grow. Soil should be deep and rich with plenty of leaf mold and manure. Flowerfield's Astilbe are one of the hardiest of plants, standing the most severe winters.

SELECTED HARDY

The following large-flowered Hardy "Mums" have been selected from the very best new hybrids, and the most rugged of the old favorites. Their color range is comprehensive, containing bright, warm colors that add glow to the Autumn Garden, light pastels for cutting, and russet and bronze tones without which Fall is not complete.

LARGE-FLOWERED HARDY MUMS

AGNES SELKIRK CLARK Shown in picture at right, this is a fine autumn shade reminding one of Halloween, Thanksgiving and all the good things of the fall. . . Each 40¢, Doz. \$4.00

AVALANCHE Possibly the finest white chrysanthemum for the garden. Very large, double, pure white blossoms are carried on well-branched sprays. It flowers in late September, so is valuable where frosts are early. Each 75¢, Doz. \$7.50

BURGUNDY The color of Burgundy wine, this beautiful double flower is one of the very best of the new mums. The stems are well branched, giving a fine profusion of flowers for picking. Each 50¢, Doz. \$5.50

CALIPH A fine dark red. (right) Each 45¢, Doz. \$4.50

DAPHNE A fine daphne-pink. (right) . . Each 40¢, Doz. \$4.00

EARLY WONDER One of the most floriferous of all the early mums; extremely heavy clusters of fine white flowers virtually covering the plant. A little extra potash will help this fellow carry his heavy load of blooms! Each 50¢, Doz. \$5.00

EMBER The color of Ember is best described in the picture at the right. The plants are well covered with these glowing blooms. Korean. Each 45¢, Doz. \$4.50

EUGENE WANDER A fine big yellow that in many ways is the equal of King Midas, but a deeper yellow. The flowers are finely formed, but very large, sometimes quite weighing down the stalks. Each 55¢, Doz. \$5.50

INDIAN SUMMER A fine tawny orange illustrated at right. A tall variety, may be used to advantage back of the lower growing cushion mums. Each 40¢, Doz. \$4.00

JEAN CUMMING Without question, the standard white variety. Pure white, just a touch of cream in the center lights the fully double petals. Pictured at right, it is a necessary complement to the darker shades. Each 75¢, Doz. \$7.50

KING MIDAS There are very few chrysanthemums that can compare with King Midas. The illustration at right does not do this particular flower full justice, for it is one of the largest and brightest of the yellows. It lasts longer than almost any other mum we know, and it is ideal for cutting, being tall and well-branched, and quite covered with bloom. Finally, it is of the desirable hardy Korean type. Each 50¢, Doz. \$5.00

LAVENDER LADY The best known of the new chrysanthemums, Lavender Lady is particularly prized for use in arrangements where the soft lavender tone shown in the picture at right combines beautifully with almost any other garden subject. Lavender Lady has the advantage of an extremely long flowering season. Each 50¢, Doz. \$5.00

MRS. PIERRE S. DUPONT III A soft, delicate peach. This fine new mum has a luminous sheen to its flower that quite sets it apart from others. The large, full, perfectly formed flowers are carried on tall branching stems, making a stunning 2½-ft. plant. Each 50¢, Doz. \$5.00

CHRYSANTHEMUMS

Chrysanthemums are of easy culture, and if planted this Spring, will give huge clumps of blooms beginning in September and continuing until hard frost. For best results, "Mums" should be planted in a slightly elevated, well drained location. We ship only the finest heavy-rooted pot plants. (These prices include shipping charges.)

EARLY FLOWERING CHRYSANTHEMUMS

MME. CHIANG KAI-SHEK A magnificent plant, in full flower in late September. The flowers are exceptionally well formed, fully double, composed of stiff petals able to withstand hard weather. The color is brilliant orange-yellow, a standout autumn shade. Patented. Each \$1.00, Doz. \$10.00

NORTHLAND CHRISTINA Ordinarily, visitors to the farm prefer the double mums. Yet the single Northland Christina took top honors of all on mums here at Flowerfield. Small wonder really, for it is truly beautiful. The petals of this 4-inch flower are a glowing fuchsia in beautiful contrast to the sunny center. Added to its beauty is an extreme hardiness and an unmatched habit of growth. Each 75¢, Doz. \$7.50

PALE MOON As the picture at left shows, one of the finest and brightest very light cream-colored mums. Excellent for arrangements or the garden. Each 55¢, Doz. \$5.50

PEACH BLOW A single mum of much merit, in a peachy tone that looks well in any garden. When in bloom the 4-ft. plant is virtually covered with blooms, all the way down to the ground. Each 50¢, Doz. \$5.00

RED VELVET Shapely, fully double flowers of velvety crimson. The foliage is particularly dark, attractive in itself long before flowering. A fine new red. . . . Each 50¢, Doz. \$5.00

SEQUOIA A dusty yellow double variety much the same color as fall-turned maple leaves; beautiful to combine in the home with such autumn material. Each 40¢, Doz. \$4.00

SYMPHONY An unusual bicolored mum best described by its picture at left. A well-liked variety. . . Each 50¢, Doz. \$5.00

THE MOOR Probably the best red double chrysanthemum we have. The Moor, an even more brilliant red than shown in the picture at left, is one of the very best of the dark colored chrysanthemums. Korean. . . . Each 50¢, Doz. \$5.00

BUTTON CHRYSANTHEMUMS

These little fellows with their definite, pure colors, provide just the right piquant note for contrast with the larger varieties. Good for cutting and "made to order" for boutonnières.

EARLY BRONZE Pure golden bronze flowers of medium size, double and gracefully rounded. Desirable because of its early flowering. Each 40¢, Doz. \$4.00

ELFIN Shown in the picture at left, Elfin is one of the best of the pompons. Being extremely floriferous, the well-branched plant is simply covered with these fine miniature flowers. Each 50¢, Doz. \$5.00

JUDITH ANDERSON Glistening yellow pompon flowers, about 1 to 1½ inches across, just made to order for boutonnières. A wealth of bloom for six weeks or more. The foliage is dark green, contrasting with the bright flowers, which are clustered in tight masses atop the sturdy plants. . . Each 50¢, Doz. \$5.00

RUBY POMPON The best red chrysanthemum in any class, big or little. Ruby Pompon is the brilliant color its name implies, and has by far the most flowers of the red mums. Grows only to medium height (2 to 3 ft.) . . Each 50¢, Doz. \$5.00

Flowerfield's SPOON

CHRYSANTHEMUMS

Spoon Chrysanthemums are an unusual novelty that is quite the newest type of "Mum." Flowers are full sized, but the petals are tubular with the tip of each flaring into a distinct spoon shape. Spoon Mums are particularly adapted for startling effects, whether in the garden or in cut flower arrangements. The long, spiky petals seem almost to burst from the center. Plants are well branched and very floriferous. We especially recommend them for gardens that enjoy a long, late fall, allowing full development of these October blooms.

WHITE SPOON Fine double flowers, the center a mass of quills. The spoons are small, the tubular petals standing out stiff and straight. The center is cream-yellow, outer petals pure white. A burst of sunshine. Ea. 50¢, Doz. \$5.00

YELLOW SPOON Pure lemon-yellow "stars" are these fully double beauties. This is the best of the spoon mums for garden display since they are of solid hue. Ea. 50¢, Doz. \$5.00

PINK SPOON A lovely novelty. The flowers are a fine pure pink, single in form with very large "spoons" at the end of each petal. Ea. 65¢, Doz. \$6.50

HYBRIDS

Known and universally admired for their stately, handsome habit and unmatched beauty, Delphiniums are widely used in the border for tall spikes to lend beauty to the garden as a whole, and also for cutting. If the first flowers are cut in June, secondary growth will flower in September.

In cooler parts of the country, they do splendidly growing especially well in coastal regions where cool summers prevail. Rich soil should be provided with a generous quantity of manure. Full sunlight is essential.

PACIFIC COAST HYBRIDS

In size of flower, range of color, formation of blooms, and cut flower value, these are the finest strain of Delphiniums in existence. Individual florets measure 2 inches or more across, with practically all of them fully double, and finely formed. A variety of "bees", some pure white, others in dark tones, add to their undoubted appeal. Colors vary from pale self-blues through light tones, two-toned, pink shades, lavenders, to really deep blue.

Flowerfield's • **HEMEROCALLIS** •

New magnificent Hybrid Daylilies have been developed which produce more flowers to the stem than any other widely used plant. Their colors range from the palest yellow to pinkish apricot through to deep orange red. Daylilies thrive in full sun or part shade. They are suited for border use, as a low hedge or spotted in with low growing

foundation planting. Hemerocallis require practically no care, growing in any kind of soil in any section of the country. Completely hardy, in either full sun or partial shade. Hemerocallis combine beautifully with such varied subjects as Iris, Peonies and many other plants. These fine Hemerocallis are highly recommended.

IRIS *Kaempferi*

The large Orchid-like flowers of the Iris Kaempferi are beautiful beyond description. Their large petals have a texture reminiscent of the finest silk velvet in a myriad of colors from the delicate tones of white and gold through pastels of pink and lavender into deep blues and purple.

The flowers, depending on the variety, bloom from late June through mid-July on sturdy stems three to four feet high. The foliage is delicate, similar to

that of Iris Siberica. The culture of this hardy perennial is simple. They prefer locations that are too wet for most flowers, yet thrive in well drained locations if only supplied with water.

Flowerfield has specialized in the development of Iris Kaempferi, and has originated many of the world's finest varieties, the latest and one of the best of these, "Dimooneathe" is listed on the facing page.

Flowerfield's **HARDY PHLOX**

THE NECESSARY PERENNIAL

Hardy Phlox grow readily, require little care, flower in many different colors and are generally useful. Some varieties bloom in late June, while others bloom until fall, with great trusses of red, pink, white, bicolor and bluish lavender. They require a well drained, deeply spaded soil enriched with Flowerfield Bulb Food, well-rotted manure, or even the chemical garden fertilizers. They may be planted in fall or spring in a sunny border. Set the plants 10 inches apart. Do not let plants go to seed, for if they do, the seedlings will crowd out the parents, and unfortunately, most of the seedlings will be an unpleasant carmine.

ATLANTA Immense flower heads of this fine vigorous variety are carried on 2½ ft. stems, pure white beautifully shaded at the center by a blue eye. Three \$1.50, Doz. \$5.00

AUGUSTA A brilliant cherry-red that is very intense and sparkling. The foliage is rich bronzy green. A fine new Phlox. Patented. Three \$1.50, Doz. \$5.00

CAROLINE VANDENBURG A true lavender-blue with large individual flowers, the best lavender. Three \$1.50, Doz. \$5.00

CHARLES CURTIS One of the newest and certainly one of the best phlox. Bright red, it is a spot of intense color for contrast in your garden. Three \$1.50, Doz. \$5.00

COUNT ZEPPELIN Large heads of pure white, each floret with a sharply defined eye of bright red. There is no fading or suffusing of colors. Free blooming. Considered the best of "calico phlox" Three \$1.50, Doz. \$5.00

DAILY SKETCH A sturdy variety giving great heads of clear rose-pink, with the center bright rich rose. One of the most reliable varieties, always giving large heads of flowers, and constantly in bloom. Three \$1.50, Doz. \$5.00

ETHEL PRITCHARD One of the most popular of the blue tones, though it is quite removed from the true blue. It is a French mauve. Three \$1.50, Doz. \$5.00

EVA FOERSTER The picture very adequately describes this fine sturdy phlox. The white eye just seems to "set off" the bright carmine. Three \$1.50, Doz. \$5.00.

LILLIAN delicate cameo-pink, with a faint blue eye, not found in any other variety. Lillian lends itself to color schemes where no other variety will do. . . . Three \$1.50, Doz. \$5.00.

MARY LOUISE A fine new pure white and the best in late blooming varieties. Sturdy growth with large conical heads of pure white. Unlike some of the older white phloxes, it blooms throughout the summer. . . . Three \$2.00, Doz. \$6.50

MISS LINGARD Blooming earlier than other phloxes, this old variety is one of the best whites. Large panicles of florets, centers of which have just the faintest suggestion of pink. Begins to bloom in June. Three \$1.50, Doz. \$5.00

PAINTED LADY Not as dark as illustrated, Painted Lady's florets are actually several shades lighter pink although the eye is a splendidly contrasting deep red, hence the name Painted Lady. Three \$1.50, Doz. \$5.00

ORANGE BEAUTY A vivid orange-red, probably the best of the light red shades. The head is very globular in shape, heavy with tightly packed large florets. . . . Three \$1.75, Doz. \$6.00

SALMON GLOW Lovely flame-pink, with a suffusion of cameo-orange, softened by lilac and white centers. An unusual effect is a delightful orange-pink. Three \$1.50, Doz. \$5.00

WIDAR The violet florets have a clear white eye which creates a most unusual effect. Widar is of medium height and good habit. Three \$1.50, Doz. \$5.00

KATHERINE Without question our strain is the finest blue phlox to date, making Katherine indeed a welcome addition to our gardens. Three \$1.50, Doz. \$5.00

LEO SCHLAGETER The best and most brilliant red phlox. Large scarlet blooms that seem to glow like fire. A fine sturdy grower, seldom bothered by disease or rust. Of splendid free-flowering habit with large trusses on 3-foot stems. . . Three \$1.50, Doz. \$5.00

A BASIC COLLECTION OF PHLOX

Clear, distinct colors in phlox always highlight the border, especially when planted in clumps of 3 or more of a variety. To encourage liberal planting, we offer a special collection of four fine pictured varieties.

FUNKIA

HARDY PRIMROSES

Probably the most colorful of our early spring flowering plants, succeeding best in dampness and shade. While the name primrose seems to suggest a delicate nature, the reverse is quite the case. They are perfectly hardy in the coldest climates, and live year after year, forming large clumps that divide easily. Ideal for naturalizing in shady woodland areas. Flower in May, about 8 inches tall and combine beautifully with the spring flowering bulbs such as Tulips and Narcissus of the Poeticus type. They are particularly attractive with Mertensia Virginica

AURICULA ALPINA, HYBRIDS Distinct because of its smooth foliage, with many two-toned flowers. Colors tend to pinks and deep shades. Three \$1.45, Doz. \$4.50
CASHMERIANA Large heads of pleasing purple. Flowers are not flat like other Primulas, but are made up of small florets in tight globular heads. . . . Three \$1.50, Doz. \$5.00
JAPONICA Abounds in rich colors from crimson to rose to almost white. Excellent for contrasting with true yellow Primroses. Needs moisture. . . . Three \$1.50, Doz. \$5.00
VERIS HYBRIDS Resembles the old-fashioned Cowslip, but in addition to yellow, contains a wide range of buff, orange, salmon and other rich tones. . . . Three \$1.45, Doz. \$4.50
VULGARIS True old English Primrose with large, pale yellow flowers. The one most people know. . . . Three \$1.35, Doz. \$4.25

FLOWERFIELD'S GIANTS

A magnificent strain of these lovely flowers in a splendid and comprehensive range of colors—pinks, yellows, lavenders and scarlets. Florets are wide open and large, with petals of velvety texture. Prettily crinkled foliage of a rich green. . . Three \$2.00, Doz. \$6.50

FUNKIA

The Plantain Lily

COERULEA Used in shaded locations and for edging. Tall spikes of blue trumpet-like flowers, 2 feet high, in July and August. All Funkias like rich soil, but grow well anywhere.

. Three \$1.25, Doz. \$4.00

COERULEA VARIEGATA A beautiful edging plant admired for its colorful foliage as much as for its fine lily-like blue flowers. The leaves are pure white, heavily marked with bright green.

. Three \$1.25, Doz. \$4.00

SUBCORDATA GRANDIFLORA ALBA In August and September this has tall, lily-like stems with pure white trumpet flowers four inches or more in length. A fine addition to the garden. Excellent for use in shading roots of Lily bulbs. . . Three \$2.00, Doz. \$6.50

MERTENSIA

Virginia Blue Bells

MERTENSIA Originally a woodland plant, but by reason of its early and profuse flowering habit, it has become a very desirable garden subject. They grow in any kind of soil, very definitely prefer moisture and shade or semi-shade. However, they may be grown in more open positions, if one will water heavily during the summer.

VIRGINICA Large clusters of clear blue bells tinged with delicate pink, combining beautifully with the early spring bulbs or with Primulas. The latter is a particularly happy combination, for both are plants loving shade and moisture. Three \$1.50, Doz. \$5.00

Plants for Shady Places

HARDY ORCHIDS

These hardy cousins of the greenhouse orchids, though not so large, are fully their equal in grace and beauty. Their charm is greatly enhanced when planted in the shade, where surrounding greenery provides a cool, restful background for the colorful flowers. They like abundant moisture at all times.

CYPRIPEDIUM ACAULE Called the Red Lady's Slipper, though the color is really rosy purple, veined darker. The leaves are somewhat oval in shape, and often lie flat or close to the ground. They bloom in May and June.

Three \$1.75, Doz. \$6.00

CYPRIPEDIUM PUBESCENS (Yellow Lady's Slipper.) Large flowers of attractive pale yellow, borne on long stems atop whorls of twisted, narrow foliage. Three \$1.75, Doz. \$6.00

CYPRIPEDIUM SPECTABILE (Showy Lady's Slipper.) Flower stems run 1 to 2 feet in height with large rose-purple or pure white orchid blooms.

Three \$2.50, Doz. \$8.50

ORCHIS SPECTABILIS Called the Showy Orchid. Stems from 8 inches to a foot in height, with erect spikes carrying from 3 to 8 delightfully fragrant flowers of violet-purple, variegated with lighter purple and white. Truly an outdoor orchid with all the exotic beauty of the tropics. Three \$1.75, Doz. \$6.00

SWEET-SCENTED VIOLETS

Clumps of dark green, heart-shaped leaves, surmounted with sweetly scented violets. They grow in almost any soil, and in either sun or shade. Invaluable plants for shady place plantings and for the naturalized woodland. No orders for spring delivery accepted after April 1st.

PRINCE OF WALES A rich, deep purple, sweetly scented with large blooms. This best of the purple varieties flowers in May and usually again in the cool weeks of the fall. Height 6 inches.

Three \$1.35, Doz. \$4.50

ROSINA Deliciously fragrant flowers of pink or old rose. Not as large as the blue types, but usually flowers again in late autumn. Three \$1.50, Doz. \$5.00

ROYAL ROBE This is a glorious variety, a lustrous shade of deepest violet-blue, whose picture speaks for itself. The blossoms are moderately fragrant and open out flat like a pansy. A trial in your own garden will bear out all your fondest hopes. A few plants will furnish quantities of bloom on stems often 12 inches in length. Three \$1.75, Doz. \$6.00

WHITE QUEEN The finest white violet, bearing large flowers high above the dense foliage. This variety is a necessary contrast to the deeper colors; it combines exceptionally well with any of the above. . . . Three \$1.50, Doz. \$5.00

LILY-OF-THE-VALLEY

Ideal for shaded locations, Lily-of-the-Valley grows in spots unsuited for anything else. Each May, small pure white bells bloom on sprays measuring 6 to 8 inches in height. It is best to plant clumps, setting them 1 foot apart. When the beds fill in solidly they may be dug and reset. The most desirable soil is a rich sandy loam, enriched with well-rotted manure.

MAJESTIC TREE OR STANDARD ROSES

When properly grown no specimen garden plant is as beautiful or has as much appeal as a rose tree. It may be planted in the center of rose beds, along driveways, in the formal garden, or even set as specimens in lawns. Tree roses bloom all summer from June until frost. Our plants

are especially sturdy with heavy straight stems about 3½ feet in height.

The canes (trees) of our standard roses are budded on multi-flora japonica stock producing much better root system than any other tree roses we have ever seen.

AUTUMN TREE ROSE Autumn is a fine pink with warm salmon tones. The plant is strong and vigorous, producing one continuous burst of bloom after another all through the season. Each \$5.75

ETOILE DE HOLLANDE TREE ROSE Here, in tree form, is one of the most popular of all red roses. It is noted for the smooth beauty of its blooms, brilliant crimson with a velvety finish suggestive of a rare jewel. It is not necessary to bend to enjoy its exquisite fragrance. Each \$6.50

FRAU KARL DRUSCHKI TREE ROSE This is the finest perfect white rose obtainable. It is a free flowering strong grower with magnificent snow-white blooms. Each \$6.50

"OUR SELECTION" COLLECTION

Where several tree roses are to be planted, it is often unimportant just what varieties they are. To help balance our stocks, we make the following special offer. Each collection will contain three distinctly different, carefully labeled varieties selected by us from listings on this page.

3 TREE ROSES \$13.50

NOTE—All tree roses are shipped

MME. JULES BOUCHE TREE ROSE A fine pure white beauty, undoubtedly the best white tree rose, noted for its numerous and perfectly formed long pointed buds and high centered flowers. Each \$5.75

MRS. P. S. DU PONT TREE ROSE Where a yellow tree rose is desired, nothing can excel this fine variety. High aloft this beautiful yellow rose blooms all the time from June until frost. Each \$5.50

TALISMAN TREE ROSE Tree roses are used for accents in the garden and none make so startling and beautiful an effect as the Talisman tree rose. The bushy plants are three feet or more in height, a strong sturdy tree covered with roses. Each \$5.50

Flowerfield's Bulb Food

Bulbs and plants are alike in demanding three conditions: water, food and cultivation. Water is the most important factor in plant life; but don't water lightly and frequently, give your garden a thorough soaking at longer intervals. Then conserve the subsoil moisture by cultivation around the plants. This cultivation should also keep down weeds which spoil the effect and rob the plant of some of its available water and food.

Feed your plants. Unless your garden is unusually rich, you will get far more satisfactory results by supplying extra nutrient. Flowerfield offers for this purpose, a special bulb and plant food which we manufacture ourselves. Mixed with your garden or potting soil, it will produce the finest results possible. We recommend the peck size at \$1.00 (by express collect); also supply it by the quart at 25c, postpaid.

LARGE-FLOWERING CLUSTER ROSES

These new polyantha roses are our choice for mass planting. Though the flowers are produced in the greatest abundance, the individual blooms also are of fine large size and excellent for cutting. They are one of the finest developments for the garden. They are uniform in height, 24 to 30 inches, and may be combined beautifully.

CHEERIO A rose of outstanding merit whether used for mass planting in beds or borders or to give an individual accent here or there in the garden. Many brilliant double flowers, borne in massive, graceful flower clusters, are clear mallow-pink shading to Tyrian rose at base with reverse a luminous rose-madder. Three \$1.25, Doz. \$12.50

PINK JEWEL A truly beautiful specimen rose plant, in an unusual shade of shimmering silvery pink. Few garden subjects are as lovely used as a hedge. In June these plants are so blanketed with the lovely large double blooms that the foliage is almost completely hidden, and they continue to bloom all season. Each \$1.00, Doz. \$10.00

RED VELVET A spectacular red bedding rose covered with great masses of urn-shaped buds opening to well-rounded blooms with gracefully waved petal edges. The velvety finish adds to the beauty and richness. Each \$1.00, Doz. \$10.00

SUNMIST Graceful, pointed buds opening into large, fluffy, well-rounded flowers of clear light sulphur-yellow, shading to mellow canary-yellow at the base of the petals. Outstanding if massed in beds or borders. . . Each \$1.25, Doz. \$12.50

CLIMBING ROSE—*Paul's Scarlet*

CLIMBING ROSES

These require no pruning in the spring except the cutting out of very old dead wood, and the shortening of the laterals and long canes to make the growth conform to the space to be covered. Prune severely in July, directly after they have finished blooming.

DR. W. VAN FLEET Buds of rich flesh-pink open into flowers of just slightly lighter color, on stems 12 to 18 inches long. One of the few free-blooming climbing roses for cutting. Each \$1.00, Doz. \$10.00

MME. GREGOIRE STAECHELIN While not quite a pure pink, Mme. Gregoire Staechelin is one of the finest varieties in that general color. Carmine buds open into large flowers of iridescent pearl pink, splashed with carmine. Each \$1.00, Doz. \$10.00

NEW DAWN (Patented) Probably the finest climber ever hybridized, New Dawn is so good that it was the first plant ever to be registered with the United States Patent Office, as a plant patent. New Dawn is extremely floriferous, being covered with large flesh-pink double blooms in June and continuing to bloom through to the late fall. Each \$1.50, Doz. \$15.00

PAUL'S SCARLET We offer this as the most satisfactory red climbing rose today. A heavy, vigorous grower with enormous clusters of vivid scarlet flowers. Each \$1.00, Doz. \$10.00

NEW HORVATH CLIMBERS

DOUBLOONS (Patented) A vigorous, pure yellow climber with heavy wood and handsome, glossy foliage. When in bloom the whole plant is literally covered with great clusters of large golden blooms. Two crops of the double flowers are borne, six weeks apart, if the first spring blooms are not cut. Each \$1.50, Doz. \$15.00

THOR A very hardy brilliant-red climber with blooms the color of Crimson Glory. The flowers are very slow in unfolding, and when fully open measure 4 to 5 inches across. They are perfectly formed and just as large as those of a hybrid tea rose. Flowers are produced abundantly on unbending spur branches 12 to 18 inches long. Flowers have about 60 petals, and do not fade when fully open. Rich green abundant foliage grows to a height of 8 to 10 feet. Each \$2.50, Doz. \$25.00
