YOU'VE NEVER SEEN A ROSE LIKE THIS BEFORE!!
NEW SPECTACULAR PILLAR ROSE
GROWS 8 FEET HIGH WITHOUT SUPPORT

**Just Think! You'll
Have Giant Clusters
of Deep Coral Blooms
...on a SINGLE STEM!**

Yes! This amazing rose, the Descanso Pillar, is horticulture's most exciting new rose. Not a HYBRID TEA, not a FLORIBUNDA, not a GRANDIFLORA, not a TREE ROSE, but a remarkable new type rose that grows up to 8 ft. high without support of any kind—THE VERY FIRST YEAR!

The Descanso Pillar is a beautiful background for your other lower growing roses or is outstanding by itself in a special corner nook in your garden. Or plant several and have a living green fence abounding with gorgeous blooms most of the year.

And you can practically pick a BOUQUET on one stem! Clusters of blooms are borne on single, erect stems that often measure 3 to 4 ft. high. Single blooms, too, all lasting for days and days when cut for indoor arrangements, bouquets, etc.

**ENJOY PERFECT FLOWERS
UP TO 6 INCHES ACROSS
—All Season Long!**

One of the parents of the marvelous Descanso Pillar Rose is the famous All America Rose CHARLOTTE ARMSTRONG. Inherited are not only the unusual vigor and beauty of this popular winner, but the remarkable glossy, deep green foliage. The Descanso Pillar just bursts with bloom month after month, and you'll be picking literally armloads of perfect deep flame pink blooms up to 6 inches across throughout the entire season.

**SO VIGOROUS A GROWER THAT SPRAYING
& PEST CONTROL ARE PRACTICALLY NIL!**

As Charles V. Covell, Oakland, past president of the American Rose Society says, "When I say ABSOLUTELY disease resistant, I mean just that." And Clyde Stocking, San Jose rose grower says, "The abundant dark green, glossy foliage showed NO DISEASE during 3-year test... constantly in bloom, too."

Hybridized by Dr. Walter Lammerts, creator of The Queen Elizabeth Rose, Chrysler Imperial, Charlotte Armstrong, etc.
