F. H. EBELING, AGENT, SYRACUSE, N. Y.

... ESTABLISHED 1868 ...

We present our Twenty-sixth Annual Illustrated Catalogue containing a list 'of things necessary for the Garden, Lawn, Green House, Dairy, Poultry Yard, etc., also call attention to our tin shop where everything in the line of tin work is promptly done. We are better prepared than ever to meet the full requirements of our seed trade. and thank our friends for past favors and patronage.

Unseren vielen Freunden und Gönnern erlauben wir hiermit Gruß und wünschen Allen Gesundheit, Wohlergehen und Prosperität!

Wir lenken Ihre Aufmerksamkeit auf die in diesem unserem Catalog für das Jahr 1896 aufgezeichneten großen Varietäten von Saamenarten.

Derfelbe enthält eine vollkommene Liste der ansehnlichsten Sorten frischer Garten-, Feld- und Blumen-Saamen, von den besten und erfahrendsten Kunstgärtnern in diesem Lande und in Europa mit der größten Sorgfalt für unser Geschäft besonders ansehnlich. Alles was im Garten u. auf dem Felde gebraucht wird, ist bei uns zu haben. In Verbindung mit unserem Laden haben wir auch zur Bequemlichkeit unserer Kunden eine Blechnur u. Klempner-Werkstätte eingerichtet. Die vieljährige Erfahrung im Saamengeschäfte macht es uns möglich, unsere Kunden prompt und auf's Reellste zu bedienen. Herr F. H. Ebeling, der Eigenthümer, macht es sich zur besonderen Aufgabe, alle seine werthen deutschen Kunden in ihrer Muttersprache zu bedienen und es ist sein stetiges Bestreben, durch freundliche und zuvorkommende Bedienung ihre Kundschaft und ihr Wohlwollen zu erwerben und zu erhalten.

Der Perry Saamen-Laden,

F. H. Ebeling, Eigenthümer.

217 Warrenstraße, Syracuse, N. Y., (dem neuen Postamt gegenüber.)

THE IRON AGE GARDEN AND FIELD IMPLEMENTS.

THE "IRON AGE" HORSE HOE.

For a cultivator thoroughly made, and of high quality, one could not do better than buy the "IRON AGE." Strong, light and handsome.

THE "IRON AGE" COMBINED HARROW & CULTIVATOR.

THE "JEWEL" DOUBLE WHEEL HOE, \$4.50.

THE "JEWEL" DOUBLE AND SINGLE WHEEL HOE are "leaders" and stand first in everything of their kind. With the exception of the handles and wheel they are made entirely of malleable iron and steel. With each tool there are a number of attachments, making the Wheel Hoe suitable in cultivating all kinds of crops.

THE "JEWEL" SINGLE WHEEL HOE, \$4.00.

The New Model Seed Drill.
PRICE, \$7 00.

SINGLE WHEEL ATTACHMENT.

WE PLACE the New Model Drill at the head of the list because there is where it properly belongs. This Drill contains all the good points of every old drill in the market, with this point in addition: The slide, or hole through the slide, where all the seeds have to pass, is adjustable, and the slide can be changed to a fraction by the operator, thus admitting exactly the quantity of seed required. The hole is diamond shaped, which is another advantage for rough or irregular shaped seeds. **Cut Off**—The flow of seed can be instantly stopped by a swinging cut off, conveniently operated by a cord and ring on handle. This cut-off prevents all loss of seed at ends of rows, and its swinging or gravity form will be found far preferable to one that slides under, as it cannot injure the falling seeds.

THE "GEM" WHEEL HOE.
PRICE, \$4.00.

THE "GEM" is the most practical tool for every-day use that is offered to the gardening public. It is made largely of steel and malleable iron. It is strong, yet light in appearance and well finished. This is just the tool for your garden, as you see by the cut it can be made into either a single or double wheel hoe.

THE ELECTRIC OR LIGHTNING INSECT EXTERMINATOR . . .

Price, \$1.50. Simple, Practical, Effectual, Cheap.

The most economical, cheap and effectual device for applying Paris green with little labor. DEATH ON POTATO BEGS. Paris Green applied with this MACHINE will knock them STIFF, all sizes and ages every time. Only one pound required for an acre of potato vines. Experience has proven that Paris green applied, does not injure the vines, and is far more effectual than when mixed with plaster, etc.

Improved Billings Planter and Fertilizer.

Time Saved,

Better Work,

Quicker Results.

Perfect

work whether
stony sward or
mellow land.

Superior to all for Planting Field, Ensilage and Fodder Corn,
Broom Corn, Beans and other Seeds of like size.

CAN ALSO BE ARRANGED FOR DROPPING BEET SEED.

THE DEERFIELD DOUBLE-LEVER CULTIVATOR PRICE, \$6.00.

We direct attention to the Improved Lever Expander Device of this Cultivator, and the Improved Handle Brace, which does not have to be changed when the Cultivator is expanded, and at all times keeps Cultivator stiff and rigid.

The Wheel and Rear Roller Attachment, as shown in cut, which allows transporting from field to field without lifting the Cultivator or loading on a wagon, is a wonderful improvement over former Cultivators.

THE "PERFECT" Flower Support

For Florist's Use. . . .

IT IS Cheap, Indestructible, will Last for Years, Is Adjustable to Different Heights, Is Quickly Placed in Position, Strings are Unnecessary, It is Superior to Sticks, and by its Use a Great Saving in Time and Labor is Effected. Price 10 cents.

Bolton Onion Seed & Sets.

AFTER many years we have finally succeeded in securing the SEED for the celebrated Bolton Oniou Sets. For years past it has been so carefully guarded by the few who had controlled this fine variety, that until recently we were unable to secure the Seed. The Bolton Set has no equal in the United States for market gardeners purposes.

First—Its quick growth into a handsome green onion, being the earliest set on the market.

Second—Quality, mild. A perfect onion shape even to the smallest among them.

Third—Unequalled for its market qualities and value to the gardeners.

Fourth—Growing into a large onion of fine quality for fall and winter use, if permitted to remain in the ground.

Directions for growing these Sets from seed. Sow thick in order to secure small sets. Sow about the same time as common onions. Pull them in the fall and cure thoroughly on the ground or better, on racks under cover. We have a limited stock of seed to offer this season at \$3.00 per lb.

MUSHROOM SPAWN.

Campignon Brot, German.

Campignon, French.

MUSHROOM BED.

bed; but these may be varied. Prepare the mixture of loam and manure making the bed in layers and pounding down each with the back of a spade. Leave this to heat through for a few days and as soon as the heat subsides to 90 degrees, make holes in the bed about a foot apart each way, into which put pieces of the spawn two or three inches in diameter; fill up the holes with the compost, and at the expiration of a week or ten days the spawn will have thoroughly diffused itself through the bed. Spread a layer of fresh soil over the heap to the depth of two inches, and cover with three or four inches of hay, straw or litter. Examine the bed often to see that it does not get dry. Take special care, however, when water is given, that it be at a temperature of about 100 degrees. Price, \$1.25 and \$2.00 per box.

Tin Shop Department.

MILK CANS, ALL SIZES.

Every can is made by an experienced man. Every cover warranted to fit perfectly. Milkmen are invited to examine our work. Repairing done promptly, in the best manner, at a moderate price.

PEDDLING CANS.

Tin Gutters, Galvanized Gutters,

Tin Roofing, Stencil Cutting,

Galvanized Iron Work.

Everything in Tin Work made to order on short notice and in the best manner.

Shears, Scissors, Knives and Saws Sharpened and Repaired. Also General Jobbing.

The New Adjustable Weeder

Used with great profit on planted crops, and is especially useful on wheat fields in early spring, when all weeds that may have started are eradicated and the soil made loose and friable and in the best condition for the growth of grain.

The Steel Teeth of this Weeder may be adjusted to stand straight or sloped more or less, by changing the position of the bolts in the adjusting irons, adapting it to all conditions of soil.

By using this Weeder fields of corn, beans, potatoes, etc., can be kept clean of weeds without the labor and expense of a hoe and without damage to the plants. One trial will convince any farmer that he cannot afford to be without this implement. Price, \$10.00.

PUTTY BULB.

FLOWER SEEDS.

KEY TO CULTURE.

A. Sow for succession from April to June for summer and autumn blooming. Prepare the ground thoroughly by digging, adding a good supply of leaf-mould or well rotted manure, making the surface fine and smooth.

B. Sow in gentle heat, in a well-drained pot or pan of light soil. Sow thinly and cover lightly with a fine sandy soil. Shade from bright sunshine, and water when necessary through a fine rose watering pot. Transplant to open ground when all danger from frost is over. The seed may also be sown in a cold frame in April, or open border in the latter part of May but will not flower so early. Transplant or thin out before the plant gets too large.

C. Sow from April to June or in August, in a well prepared bed of light soil, covering the seed lightly. Keep clear of weeds, and thin out the plants, if too thick, sufficiently early to allow them to develop their growth.

D. Sow in spring in a well drained pot or well prepared hot-bed of light, peaty or sandy soil. Place in a moderately warm temperature. Shade from bright sunshine and keep moist, transplanting when ground is in proper condition, or in open ground after May 10th for late flowers.

E. Sow in open border in April or May, and thin out or transplant giving each plant plenty of room.

F. Sow any time in a pot prepared as follows: Let the pot be one-third full of drainage or broken charcoal; over that rough siftings of mould, and the surface with very fine soil, half of which should be composed of fine, sharp sand; water with fine syringer; scatter the seed thickly over the surface, covering very lightly, keep from direct rays of the sun. As soon as the plants show the third leaf transplant into seed pans, three-fourths of an inch apart, giving a little air to strengthen them. When the plants begin to touch each other they should be transplanted singly into small pots and keep them in a cool, airy part of the green house near the glass. Re-pot them when necessary.

The following portion of our catalogue, devoted to Flower Seeds, we have arranged both alphabetically and in columns, to enable any one to easily refer to the price and description of any variety desired.

KEY TO COLUMNS.

The 1st col. contains the name of the flower.
The 2d " " hardness and duration.
The 3d " " height in feet.
The 4th " " color of flower.

The 5th column contains culture.
The 6th " " price per packet.
The 7th " " general observations.

NAME.	Hardiness and Duration.	Height. Feet.	Color of Flower.	Culture.	Per Pkt.	GENERAL OBSERVATIONS.
Aster, Truffaut's La Superbe.....	hA	2	pure wht.	D	10	Aster. No lover of these flowers can find anything so easily cultivated that would afford such genuine pleasure and satisfaction. The New Washington varieties are extremely beautiful, attaining a very large size averaging $4\frac{1}{2}$ inches in diameter, and in delicacy of tints are unequalled. Aster seed should be sown early in the Spring in a hot-bed or window box and transplanted out-doors when the weather is warm, about 12 inches apart—the taller varieties a little farther apart and the dwarf varieties a little nearer together.

Aster Comet. Colors various with long wavy petals full flower. 10 cents.

Aster, "Snowball." Pure white pompon shape flower, about 15 inches high. 20 cts. per pkg.

Aster Harlequin. Spotted and striped double, mixed. 25 cts. per package.

Aster Mignon. Pure white, small pompon flowers. 10 cts. per package.

Aster New Victoria. Mixed colors, tall full flower, pyramidal shape. 10 cts.

Aster Ball or Jewel. Symmetrically incurved, the bloom a perfect ball. 25 cts. per package.

Cosmos. Large crimson, white and pink flowers in autumn. 10 cts. per package.

Humulus, Japonicus. Japanese Hop Vine. One of the best vines for rapid growth and ornamental appearance. 10 cts. per package.

Ipomœa Noctiflora, Moon Flower, or Evening Glory, should be sown as early as March and transplanted as soon as season will admit.

Ipomopsis. A very beautiful plant, long spikes with scarlet and orange flowers, fine foliage, quite hardy, perennial, and suitable for dry situations.

Lathyrus Odoratus, "Sweet Peas," Imported by us annually.

" **Adonis.** Beautiful deep rose with wings almost carmine. 10 cts.

" **Apple Blossom.** Resembles the flower of Apple blossoms very closely.

" **Bcreation.** Its flowers are a rich dark chestnut color. 10 cts.

" **Bronze Prince.** Rich chestnut color bronze Maroon. 10 cts.

" **Cardinal.** New, very beautiful. 10 cts. per package.

" **Crown Princess of Prussia.** Bright bluish. 10 cts. per package.

" **Duchess of Edinburg.** Autumn tints, variegated light scarlet, crimson tints, margined light. 10 cts. per package.

" **Imperial Blue.** Invincible blue, very fine. 10 cts. per package.

" **Imperial Black.** 10 cts. per package.

" **Indigo King.** "Purple Prince," very dark. 10 cts. per package.

" **Isa Eckford.** New, charming variety, flowers rosy pink shaded with carmine, creamy white. 10 cts. per package.

" **Orange Prince.** New, distinct and fine, rose colored wings and orange red standards

" **Prince of Wales.** White with blue stripes. 10 cts. per package.

" **Queen of the Isles.** Mottled with white and purple. 10 cts.

" **Splendor.** Dark rose color shaded with crimson. 5 cts. per package.

" **Invincible Scarlet.** Striped fine. 5 cts. per package.

" **" Carmine.** New. 5 cts. per package.

" **Splendid Hybrid.** Mixed. 10 cts. per package.

" **The Blanche Ferry.** 10 cts. per package.

Margaret Carnation. Rapid blooming. 15 cts. per package.

Mirabilis Longiflora or Jocky Club. Flower very fragrant, similar to the perfume whose name it bears, pure white, blossoms from seed the first season until frost. Roots may be taken up and stored like Dahlias for the next season. 10 cts. per package.

Nicotiana Affinis. Pure white and very fragrant, annual. 10 cts. per package.

Pyrethrum Roseum. Insect Powder. 10 cts. per package.

Reseda Machet. Thick spikes with reddish flowers. 5 cts. per package.

Our Mixture of Nasturtium is the Finest in the Country.

Tall, 10 cts. per oz. Dwarf, 15 cts.

Tropæolum, Cloth of Gold. Light foliage, dwarf. 5 cts. per package.

" **Empress of India.** Dwarf, dark leaved foliage. 5 cents.

" **Tricolor, (Jaratti) Grandiflora.** Dwarf. 5 cts. per package.

" **Asa Gray.** New, yellowish white, very fine. 5 cts.

" **Cardinal.** Dark scarlet, fine. 5 cts. per package.

" **Chalcianum.** Yellow, spotted with red, very fine. 5 cts.

" **Flammulum Grandiflorum.** Tall, scarlet and yellow, extra fine. 5 cts.

Zinnia, New Striped or Zebra Zinnias. Variegated pompon shaped flower. 10 cts. pkg.

Zinnia Golden Yellow Striped Scarlet, 10 cts. per package.

Zinnia, Tom Thumb. New, dwarf, mixed very double. 10 cts. per package.

Wild Flower Garden, per package, 10 cents.

Our Farm of Four Acres, and the Money We Made by It. Paper cover, 12mo. 30 cts.

How to Plant and What to Do With the Crops. By Mark W. Johnson, illustrated. 50 cts

WINTER OATS.

THEY are sown in the fall when wheat is seeded, or earlier if desired. They will mature their crop usually a few days later than wheat; a strong, vigorous grower; average height when ripe about $3\frac{1}{2}$ to 4 feet; stool wonderfully. Stiff straw; stand up well and yield from 30 to 60 bushels to an acre; one farmer in this section has just harvested 1800 bushels from 27 acres. They are perfectly hardy, having withstood a temperature of 40 degrees below zero. If sown early in September they furnish excellent pasture in the fall. One to one and a half bushels will seed an acre.

Price, \$1.00 Per Bushel.

Lawn Mowers Cheap.

New Easy, Imperial, The Rex,

Bay State, Granite State,

Philadelphia. Boston,

ALL WARRANTED

THESE are Lawn Mowers that will do good work, are durable and easy running, and will be sold for a very reasonable price. Fully Warranted.

Lawn Mowers Sharpened
and Repaired.

PERRY'S HYBRID SUGAR CORN.

Is acknowledged by all seedsmen to be the best and largest second early corn in use.

This is the largest early sweet corn that we have ever seen; ears of the same were ready for use a few days later than the Marblehead and before the Minnesota, but of double the size of either of these varieties, the ears being twelve rowed, and sometimes fourteen. The kernels are large and tender, and deliciously sweet, stalks vigorous with two perfect ears on a stalk. A good, large, early sweet corn has long been desired. Price per bush., \$3.00.

LEAMING CORN.

THIS Popular and distinct variety of yellow dent corn certainly has, beyond question, reached the grandest success of any yellow dent corn that has ever been brought before the American public. This corn is too well known to enter into a detailed description of its merits here; suffice to say that it is a very uniform, medium sized, very early, (maturing in 90 to 115 days), very heavy, long eared corn, with stalk growing medium tall, and very thick and strong. Our farmers were very successful last season. The sale will be much increased in the future for Ensilage.

PRIDE OF THE NORTH.

BY SELECTING and being grown for many years in Northern Wisconsin, has become quite distinct and is now about ten days earlier than the Leaming and grows two feet less stalk. We carry stock of the **PRIDE CORN** and we will always supply you at lowest market prices.

Sweet Corn for ensilage purposes we also can sell at a very reasonable price,

FIELD CORN.—We have a fine stock of White Canada Flint, Angel of Midnight, Early Smut Nose and other varieties, in traces and shelled.

"S 10" FODDER.

WIARD'S AUTOMATIC HAND CORN PLANTER.

Simple, Durable, Economical. Price \$1.75.

We sell the best Cream Separator in the market, fully warranted. Price \$120. We have the best Plows for the least money.

U. S. Cream Separator \$120.00.

LIST OF DAIRY IMPLEMENTS

MANUFACTURED BY THE

Vermont Farm Machine Co.

BELLOWS FALLS, VT.

We are agents for their full line of CREAMERS, U. S. Cream Separators, Churns, Dog Powers, Etc. We show a full line on this page.

Mr. C. A. Wilcox of Fairmont, N. Y., who is using one of our No. 5 U. S. Cream Separators, says: "My wife skimmed a pan of milk closely, and then we run it through one of your U. S. Cream Separators and got a cup full of cream from it."

Every Separator absolutely warranted in every way, and put out on its own merits. Responsible parties will be permitted to give it a thorough trial before purchasing.

We also refer to Calvin Wilbur, of Fairmount; Jerry and Isaac Olmsted, of Borodino, and Mrs. Cool, of Jamesville, who are using them.

Mr. Ebeling, Syracuse, N. Y.

OSWEGO FALLS, N. Y., Oct. 24, 1895.

Sir—There cannot be too much said in praise of the Robbins Planter. In the first place it leaves the seed in a nice, mellow seed bed, and then when you get a row planted you are certain that it is planted not with a lot of slips. And then it leaves the seed covered in a ridge just right for the weeder to clean the weeds out of the row, so there is very little hand labor to be done. Take it all around I think it is just right, and it will drop 80 per cent. of the seed correctly without the assistance of the boy. We have got this year where we planted 12 inches apart in the row, 400 bushels of assorted potatoes to the acre, and a part of it is due to correct planting.

Yours,

C. C. WILCOX.

F. H. Ebeling, Syracuse.

FULTON, N. Y., Nov. 4, 1895.

Dear Sir.—In answer to yours of the 22d would say that I am perfectly satisfied with the Robbins Potato Planter and would have no other, and Mr. Baker has used it and he is well pleased with the way it works, and what is more the agent for the Aspinwall Planter said that he liked it better than the one he was selling.

Yours truly,

W. SYLVESTER.

F. H. Ebeling, Esq., Syracuse, N. Y.

WEEDSPORT, N. Y., Nov. 1, 1895.

Dear Sir.—It gives me pleasure to state that the Robbins Potato Planter bought of you last spring is a complete success in every sense of the word. Every one that saw it work will willingly bear witness to the above.

Yours truly,

T. A. MITCHELL.

Beat This if You Can. Premiums at All Fairs.

FARMERS OF 10-DAY. One man does the work of twelve and need not stoop down either.

THE LENOX
WHEN FULL
50 LBS.

FOR
POTATO
BUGS

Prepare Your Paris Green or London Purple in a pail or barrel of water. One teaspoonful to the pail make a paste of it, and then mix it good that no little lumps are left, fill the apparatus and stand it on a bench or barrel. Put it on your back and proceed with your work. You will do more work than twelve men with a whisk broom. Move your hand from right to left, etc. You will find that you sprinkle your potatoes as fast as you walk, from 12 to 15 feet on each side of the path, and your vines will look as if covered by a fog or dew. The spray is controlled in your own hand. You can spray far or near as you wish, **NO WASTE WHATSOEVER.** No large drops like from the whisk broom or other methods, which largely hurts the plants.

For the **COTTON WORM, CABBAGE WORM, Tobacco Plants, etc.**, use in the same manner. For shrubbery, young fruit trees, hops and grape vines, turn the rose upward. You can throw a mist 12 to 15 feet high: you will get a regular misty shower or vapor spray on the underside of the leaves.

Spray stops by releasing pressure of the thumb.

**FARMING OF THE PAST.
THE OLD SLOW WAY.**
With the Whisk Broom.

Obliged to stoop down. Two-thirds waste and a poor crop

AS FAST AS YOU WALK. Impossible to show in print the distance you can spray or its fine mist.

NOTE THE FOLLOWING—Mr. Oney Sayles, of Bridgeport, says: "I sprayed my trees and picked 1010 bushels of apples, which brought me 25c. per barrel more than unsprayed fruit. My spray pump cost me \$8.00 and was the cause of saving me over \$100 cash. I used London Purple in spraying."

Syringes, \$1.00, \$2.25, \$3.00 and \$4.50.

THE ECLIPSE

Vine and Plant Sprinkler

A New and Valuable Improved Water Sprinkler and Sifter Attachment.

Especially adapted for applying Paris Green, Water or Paris Green Powder Compounds, Plaster, Ashes, etc., to Potato Vines and Plants.

The Eclipse Sprinkler is now time-tried (over 10,000 in use) and thoroughly recommended as a universal necessity.

PARIS GREEN AND FUNCIROID KILLS POTATO BUGS AND PREVENTS BLIGHT IN ONE OPERATION.

Saved enough on one acre of potatoes this season to pay for the machine. Think the Gun cannot be
beaten. **IRA B. TUTHILL, Suffolk Co., N. Y.**

I covered two acres of potatoes in 55 minutes, that is a fact. \$10 would not buy my Gun.

JOHN S. B. MILLER, South Bay, N. Y.

We have had two of these machines at work on thirty acres of potatoes and must say that only words
of the very highest praise can be spoken of them.

H. W. SANFORD, Supt. Springside Home, New Haven, Ct.

I planted fifty acres of tobacco and have kept the worms off with your Gun and have not used it all
the time. Treated from seven to nine acres per day. It will save me \$50 on this crop.

H. A. BUSH, Manager for A. J. Ives, Hampton Co., S. C.

Used your Gun on Tomatoes. It worked to a charm. Also on pear, peach and plum trees from 10 to
16 feet high. Used Paris Green and Lime. Do not know how much it has saved me but would not do
without it. 500 trees can be dusted per day.

E. R. SHANKLAND, Jennings, La.

Consider your Gun has saved me on potatoes and Cabbages about \$10.

HENRY T. CAMERON, Delaware Co., N. Y.

I have one of your Dry Powder Guns and like it very much. We are now treating our orange trees
with dry Sulphur, and find the Gun just the thing.

A. L. FELTON, Volusia Co., Fla.

DIRECTIONS

Keep the *working parts* well oiled. Use oil between the cog wheels. Before filling the reservoir, see
that the gauge connected with the thumb screw is closed, and kept closed when not in use. To distribute
Pure Paris Green or Purple, open slide about the thickness of a sheet of note paper. The quantity
discharged should hardly be perceptible; when mixed with flour, lime, etc., about 1-16 to 1/8 inch. If
the powder drops into the barrel faster than discharged, the slide is open too far. The material must
not be damp, but dry powder. The gauge shows how far the slots are open without looking inside. On
Potatoes use 1 1/2 lbs per acre to kill Bugs and prevent Blight. One to two acres may be dusted per hour
with the Gun. Coding Moth attacks apple, pear and quince. Apply as soon as blossoms fall, again in
ten days, and a week later. Plum Curculio Apply before the tree blooms and three applications after
blossoms fall, at intervals of a week or ten days.

INSECTICIDES

Tobacco Soap, per pkg. 35 and 25 cts.
Soluble Fir Tree Oil, per can. . . . \$1 25, \$1 50
Whale oil Soap, per pkg. 5 and 10 cts.

Lawn Seed, Pure Ground Bone and Sheep Fertilizer

Sheep Fertilizer for Plants and Lawn Dressing.

Quick, Lasting and Economical.

This is a Plant Food of great merit, carefully prepared with a view of supplying a Manure which shall contain all the elements necessary for the perfection of plant life. The ingredients have been so arranged that, while accelerating luxuriant growth, permanent benefits are secured by a continuance of nourishment to the plant. It is safe to use and suitable for every purpose where a fertilizer is required.

It is the only Manure we use on Lawns; it is absolutely free from foul seeds and a natural grass producer. Price, 10 lbs. 50c. 25 lbs. \$1.00. 50 lbs. \$2.00. 100 lbs. \$3.50.

WEED SEEDS IN COMPOST,

There is a popular idea that rotting manure in large heaps entirely destroys the vitality of weed seeds they may contain. This as regards many fully ripened seeds is a mistake. They are very hard, and even when they pass through stomachs of animals are scarcely at all injured for vigorous germination. Many weed seeds are distributed by birds, the seeds passing through the gizzard unbroken and growing wherever the bird casts its droppings. To suppose that such seed must be destroyed by the heat of a manure heap is plainly an error. In the middle of the heap, the heat may be sufficient to destroy vitality of the germ, but on the outer edges and the larger portion if the seed is made unable to grow, it is more apt to be by starting the germ and then destroying it. In this way a manure heap turned twice or more may have most of its weed seeds destroyed, if care is taken at each turning to put the outside of the previous heap in the center of the new one.

CUT UP! PULL UP! PICK UP!

WRIGHT'S HANDY

Lawn Weeder.

If you try me, you will buy me.

This little tool fills a long felt want, in that it is so simple that a child can use it. Until this was introduced last season, the hardest part of keeping the lawn was in removing the weeds, getting down on the knees or bending. With this there is no need of either, as it pulls them up and places them in the basket without any labor at all. No household should be without it, as it is equally handy in weeding and pulverizing the earth in the flower beds or garden.

Price 75c.

A STOCKBRIDGE GROUP.

Photograph of ensilage corn raised exclusively on Stockbridge Fertilizer by Whitmore Brothers, "Lookout Farm," at Wellesley Mass. W. C. Heald, Superintendent. The corn averaged 14 and 15 feet high, and in some places it grew as high as 17½ and 18 feet. Some of it was too rank. Applied at the rate of 400 lbs. per acre.

BOWKER'S HILL AND DRILL PHOSPHATE.

BOWKER'S AMMONIATED DISSOLVED BONE.

BOWKER'S FARM-GARDEN PHOSPHATE.

BOWKER'S SURE CROP PHOSPHATE.

BOWER'S SUPER PHOSPHATE.

SPECIAL MANURES.

	FOR ONE ACRE WITHOUT STABLE MANURE*
Stockbridge Potato Manure.....	1,200 to 1,800 lbs.
Stockbridge Corn and Grain Manure.....	800 " 1,500 "
Stockbridge Vegetable Manure.....	1,500 " 2,000 "
Stockbridge Cabbage and Cauliflower Manure.....	1,800 " 2,500 "
Stockbridge Onion Manure.....	1,500 " 2,000 "
Stockbridge Vine Manure (not peas or beans).....	1,500 " 2,000 "
Stockbridge Pea and Bean Manure.....	1,000 " 1,500 "
Stockbridge Root Manure.....	800 " 1,200 "
Stockbridge Asparagus Manure.....	1,500 " 2,000 "
Stockbridge Celery Manure.....	1,700 " 2,000 "
Stockbridge Lettuce and Spinach Manure.....	1,700 " 2,000 "
Stockbridge Strawberry and Fruit Manure.....	1,000 " 1,500 "
Stockbridge Tobacco Manure.....	1,500 " 2,500 "

The above quantities recommended for one acre are without stable manure; but, if stable manure is used in connection with the Stockbridge, then a smaller amount can be used, depending on the amount of manure applied and its richness. About one-half the quantity of each is the rule.

*The first column gives the usual quantities which farmers apply, and the second column the usual quantities which market gardeners apply.

We are sole agents for these celebrated Phosphates. Sold strictly for cash at a very close margin of profit. Fully guaranteed as being equal or superior to the best on earth.

Bargains in Plows. See Pages 45 and 46.

WIARD'S CELEBRATED PLOWS.

Wiard's Patent Adjustable Malleable Iron Beam Chilled Plow.

CENTRE DRAFT, RIGHT HAND.

We have sold their make of Plows for years with great success; we carry in stock some ten sizes to suit all kinds of soil. We warrant each plow to do first class work when properly adjusted. After a day's trial in the field, if it fails to give satisfaction, notice must be given to us, and a day's time given to make it work as represented, failing in which the Plow can then be returned. If used longer than one full day the Plow will then be considered sold. We warrant the Malleable Iron Beams against bending or breaking for one year. We also warrant other Beams, Mold-boards, Landsides and Wheel and Jointer Standards against breakage from any flaw or defect in their manufacture during the current year.

PRICE COMPLETE, - - - \$10.00.

THE WIARD SWIVEL PLOW.

With Automatic Jointer or Colter. Price, \$12.00.

The Best Plow in the World for hillside or flat land and for cutting roots, or use in rough or stony ground. The Colter is made of Steel, is adjustable in height, is easily kept sharp for cutting grass or other roots; draws easier than any other plow made and costs no more than if rigged with Jointer. We speak of this more especially for the reason that, wherever known, this Automatic Colter has given most perfect satisfaction, and our orders for it are much larger than ever before. Whoever has a Wiard Swivel Plow with Automatic Coulter and adjustable Clevis, needs no other Plow for any work on the farm.

PLOWS AND PLOW CASTINGS.

We are carrying the largest line of Plows and Plow Castings to be found in Syracuse. We can supply parts for nearly every Plow in use in this County. If you have an old favorite plow and want parts, call on us. If you wish to change and get the best running Plow you ever saw, call on us, we can suit any kind of soil. If you are not sure of the name or number of your Plow that parts are wanted for, bring along the old parts and we can fit you out. SEE PAGE 46.

WE CARRY EXTRAS OR PLOW POINTS FOR THE FOLLOWING NAMED PLOWS:

Baldwinsville Plow.	Holbrook,	Pennsylvania.

If you have a broken casting and are not sure of the name or number, bring it in and we can perhaps duplicate it. We carry one of the largest lines of Plow and other castings of any house in the State.

ONE-HORSE SWIVEL PLOW. PRICE, \$8.00.

DITCHING PLOW. PRICE, \$9 00.

We have secured for our farmers in Central New York a very low priced Ditching Plow, one that has both handles and draw hook adjustable and can be changed, "as you see," very rapidly, plowing to the depth of four feet. The ditches can be made with this plow at a cost of from 10 to 12 cents per rod. Hugh Oliver, of Marcellus, N Y., now using one of these Plows, says he would not be deprived of it for \$50.00. It is just the Plow for Ditching. Price of Plow complete, \$9.00.

MUNNSVILLE PLOWS.

Steel Beam Plow No. 10.

This Plow is long on the run with a high Mouldboard, of a shape that insures easy draft, good cleaning qualities, and pleasing general appearance. Although its imitators are many, for general purposes it has never been equaled. Price, \$12.50.

Oneida Valley Clipper, No. 2 1-2.

This is a light one-horse Cast Steel Plow, adapted to plowing out corn, hops and nurseries. Can be gauged so as to plow to and from the rows. Price, \$8 plain.

This cut also represents our new 2½ Chilled Plow, and is one of the best one-horse plows in the market. The large increase in the sales of this plow the past season is the best evidence of its superiority. Our 1881 attachment to this plow, with the swing beam, makes the best one-horse plow in the market. Price, \$6 plain.

Improved No. 5 Chilled Plow, Price, \$10.00.

Unquestionably the best plow made. New Plows, New Cultivators, New Rollers with all the latest improvements.

A 100-foot Rope Ladder For Sale Cheap.

BAUM'S HORSE AND CATTLE FOOD

FULL WEIGHT.

Every package warranted, with a written guarantee. If not as represented the money will be gladly refunded. Every pound will be sold this way.

This is by far the most economical Cattle Food ever offered to the public. Comparison of size of dose and cost of the food with any other, will show ours to be the cheapest per hundred doses. It contains nothing but absolutely pure remedial substances, and is not made bulky with wheat bran, middlings other useless material in order to give large bulk for the money.

2 lb. Sample Size.....	25c.
10 lb. Wood Box	\$1.00.
25 lb. "	2 25.
50 lb. "	\$4.37 1/2.
100 lb. Boxes or Barrels	\$8.50 per cwt.

We can recommend this Food to our customers as an article of merit. Try a sample package and be convinced.

Oak Stave Roller.

28 inch, two sections.....\$25.00

Steel Roller.

26 inch, two sections.....\$30.00

Lawn or Garden Rollers ..\$8.00 to \$12.00

THE CYCLONE CORN SHELLER.

Several Reasons why you Should Have One.

- 1st. It is cheap, simple and effective.
- 2d. It is fully warranted against breaking or getting out of order by any fair usage.
- 3d. It takes less power to do the same amount of work than any other machine of its size ever made.

- 4th. All the tools that are required to adjust the machine is a small wrench.

- 5th. It has no small springs or small parts to break loose or get out of order.

- 6th. There is no time lost after you are through shelling by picking the cobs out of the shelled corn, as the machine takes the corn all off the cob, drops the corn in the box or basket, takes the cob on around and throws it off at the back.

- 7th. By a little practice with it you can easily shell one bushel of ears in about 4 minutes or less. The sheller is small but will do the work of many a larger machine.

- 8th. The spring can be adjusted to any tension required and can be loosened when not in use, thus avoiding and chance of its giving out.

Sample Machine with clamp \$2.75

A sheller wrench accompanies every machine.

CUTAWAY

Spading & Pulverizing Harrow

NO FARMER CAN FARM IT AT A PROFIT
WITHOUT ONE.

They pulverize all lumps, place sods below the surface, bring the finest dirt to the top. Will cover grain nicely and are the best all-round Harrow in use.

PRICE REDUCED FOR 1896.

Write for circular and prices if you do not visit us and examine the tools and be convinced.

"Acme" Pulverizing Harrow, Clod Crusher and Leveler.

Price, \$13 00. Warranted Against Breakage for One Year.

The "ACME" is the cheapest riding harrow in use—in fact it costs about the same as an ordinary drag, and is, therefore, within the reach of all who have use for harrows. Being made entirely of cast steel and wrought iron, it is indestructible. Nothing but the coulters can possibly wear, and these are readily replaced at trifling cost.

All Steel, Flexible, Disk Harrows.

A decided improvement in disk harrows.

Has a light and very strong steel frame.

Is perfectly flexible either as an out-throw or an in-throw harrow, or can quickly be made rigid if desired.

It can be almost instantly put together, or taken apart for storage or transportation.

It has the best scraper mechanism ever put on a disk harrow.

The frame and driver's seat are high, yet the draft is from the center of the axle, by means of the steel draft rods. Price, \$22.00.

The "IRON AGE"

Pivot Wheel Cultivator.

Price, \$30.00.

Complete with one pair Plows, Shields and Fallow Tooth Attachment. Straight Axle. \$5 00 Less.

WE SELL THE

Cooper's Sheep Dipping Powder.

THE Finest in America, used by all the Ranchmen in the West, sure cure for Scab and Ticks. We could show you a list of testimonials a yard long if necessary, but think those we add from firms so well known among sheepmen will be all that is required to convince you we have the best. Sold at Factory price, 50 cents and \$2 00 a package. Small packages will make 25 gallons. Large packages 100 gallons ready for use.

An unprecedented demand has set in all over the States for our celebrated Cooper Sheep Dip, consequent upon the favorable verdict of Sheepmen who have used it. Other preparations are being relinquished, as "Cooper" is found far superior in every way.

Water's Improved Tree Pruner.

A good Pruner is an indispensable article to every one who cultivates a single fruit tree, and the WATERS PRUNER is the best one yet offered. It is without a competitor for favor.

HORSES.

If your horse is off his feed, hide bound, blood out of order, over-worked, has distemper, pink eye, colds, coughs, heaves, worms, botts, kidney, liver or lung difficulties, scratches, collar galls, pimples, or needs toning and building up **Nutriotone**. It keeps horses in healthy condition and gives them greater power of endurance, helps the wind, and they will render better and more valuable service, which **PAYS**.

DIRECTIONS FOR USING.

Mix two tablespoons or one measure full, night and morning, with feed of grain or chop stuff, dampened with water, and in a few weeks' time your horse will show so great an improvement, people will think you have a new animal.

One-half the quantity fed twice daily will aid digestion, tone the stomach, prevent colic, distemper and other diseases, and keep the animal in a thrifty condition.

FOR COWS.

Mix two tablespoons or one measure full with each feed of grain, meal or chop stuff, dampened with water, and in two or three weeks you will be agreeably surprised at the increased quantity and improved quality of milk, as well as the general health, condition and productiveness of the animals.

For cows that have aborted, we would suggest that the same amount with each feed, scalded in their bran or mill stuff, would be advisable first, and if kindly, regularly and strictly cared for and fed, you will be much pleased at their becoming strong, vigorous, healthy animals, producing their regular mess of good milk.

FOR SWINE.

Mix a tablespoon with the usual milk, slop or feed (scalded if convenient), for one, and they will thrive amazingly, and fatten in two-thirds the usual time. They will eat, lie down, and be happy. For breeding sows and feeding pigs it has no equal.

NUTRIOTONE

is a sure Preventive of Cholera and other diseases the hog is heir to, if fed regularly.

GIANT BEGGAR WEED : : : : : FOR HAY.

THIS IS a valuable forage plant and a wonderful restorer of the land, far more valuable as a fertilizer than either Peas or Clover, and superior to either for forage; besides, it has the great advantage over both the above in that it does not have to be planted each year, for when once established in the soil it comes up annually without any further attention. It interferes with no crop that you may plant, being easily kept under by cultivation, and it can easily be totally eradicated from the soil by two years successive pasturing. This feature, too, adds to its great value. This plant is a rank feeder, with deep feeding roots, and brings up from the sub-soil the dormant fertilizing elements deposited there for years, and deposit them on the surface when they shed their foliage in the fall. Land in this State (Florida) which six years ago would not yield more than eight bushels of corn per acre, and actually too poor to cultivate, now seeded with this Giant Beggar Weed, readily yields twenty to twenty-five bushels per acre with

never an ounce of fertilizer used on it. If you want the *best* fertilizer and the *cheapest*—seed your lands in *Giant Beggar Weed*. For forage it has no equal. Hogs, Cows, Horses and Mules fatten on it when nothing else will bring them out, and they will refuse any other food when they can get Beggar Weed. Old worn out Horses and Mules when turned in Beggar Weed pasture will get sleek and fat without further attention. Farmers will make no mistake in investing in Beggar Weed. The seed are very small and light. About five (5) pounds will thoroughly seed an acre. Matures in three months from seeding and is an annual. We offer this seed at 50c. per lb.

WILLIAMS BELLOWS FALLS EVAPORATOR.

Always state which side of the Evaporator the draw-off is to be on, If not specified, we send it with the draw-off on the right hand side.

Outside of Pen. Pouring in feed equally along its full length.

Feeding Trough for Swine and Calves.

This Trough has several advantages. It is adjustable to suit Pigs, Shoats or Hogs. They can not get their feet into it to foul or waste the food, giving the weak an equal chance to get their share of food. It saves food. No fouling of food by dirty feet. Hung on pivots, it can be set to any angle for Pigs, Shoats or Hogs. Convenient for feeding calves, each having its own space, eating quietly without fear of being pushed aside by the stronger.

These Troughs are Made with Hard Wood Ends and Iron Covering,

... Convenient and Durable ...

16 foot double gate, two openings, 12 foot and 3½ foot, each made of 16 foot lumber will want wheels 1 and 2 screw slot No. 3 screwed into the post, bottom board to the gate to run in the slot to keep gate tight to the post, 13 foot gate wants wheel No. 1, two catches No. 4, screw slot No. 3 to hang the gate on first post.

.. PRICE ..

6 inch wheel, single gate trimmings, price per set, 75c.

The cheapest, best and most durable gate ever made. Always ready for business, winter or summer and will last a life time. We have a limited number of these Gate Rollers and Trimmings and offer same at a bargain.

THIS device for Weaning Calves and Colts and preventing Cows from milking themselves is, although extremely simple, most effective. It consists of a hollow bit with perforations in its sides, to be placed in the animal's mouth and fastened with straps over the animal's head. Air entering the ends of the bit and passing through the side perforations, absolutely prevents suction. It does not interfere with eating or drinking, is not harsh, and accomplishes its purpose without possibility of injuring the animals. We positively guarantee our "EMPIRE" WEANER to do its work perfectly.

- No. 1—Complete with straps for Calves, Per Dozen \$.
No. 2—Complete with straps for Colts, Per Dozen \$.
No. 3—Complete with straps for Cows, Per Dozen \$.

The following is a recent testimonial:

Navarino, N. Y., Nov. 15 1895.
Syracuse Specialty Mfg. Co., Syracuse, N. Y.
Gentlemen—We as members of Excelsior Grange, Navarino, N. Y., after a thorough test of your "EMPIRE CALF AND COW WEANERS," can heartily recommend them, an assured all purchasers that they are a perfect success. They do not interfere with eating or drinking, and an animal wearing one positively cannot suck.

(Signed) F. X. WOOD, Master of Grange.
J. W. MERRILL, WM B. TUCKER,

MYRON D. AMIDON, W. C. FISH.

Price, No. 1, 40c. No. 2, 50c. No. 3, 75c.

Bowker's Animal Meal is better than Scraps

Because it is finer, cleaner, contains less water and is more thoroughly cooked and easily digested.

Bowker's Animal Meal is better than Bone

Because it supplies bone in connection with thoroughly cooked meat.

Bowker's Animal Meal is better than Shells

Because it supplies the lime necessary for the shell of the Egg, besides the constituents required to make the meat of the egg.

Bowker's Animal Meal is a Good Thing because it is *all food*, and it is cheap. You buy no waste in it. The Connecticut Experiment Station's analysis shows it contains more protein than any other food of its nature tested. This means *value*.

... If you find our Animal Meal is not what it is represented to be, **SEND IT BACK.** We guarantee all our goods ...

It is a true egg-producing, flesh and bone forming food, and supplies just what laying hens and growing chicks require, and completely takes the place of all other animal food, as well as cracked bone and oyster shells. It is not a medicine. It is fed with other foods. Every poultry-keeper should have our little book, "The Egg," and testimonials. Sent free to any address by dealer who sends you this catalogue. Price, 3 cts. per lb., or \$2.50 per 100 lbs.

TRI-PLEX FOOD FOR POULTRY AND HORSES... A great preparation... Does the business... Absolutely guaranteed... We are sole agents in Syracuse for Wm. Rust & Sons, manufacturers of Rust's Tri-Plex Poultry Food, Rust's Roup Pills and Rust's Celebrated Worm Powders.

Lambert's • Death • to • Lice

A DISINFECTANT INSECT POWDER

This preparation will rid your fowls of all vermin, causing them to be healthy and profitable. It is both cheap and effectual. You cannot see the lice on the poultry unless you look where they are, which is usually among the fluffy feathers beneath the vent. Ticks on sheep will disappear when treated with this powder. It kills hog lice instantly.

If you keep a horse you need it. Lice on a horse will worry the animal until they kill him. Cattle often get lousy and this remedy is a safe and certain cure. In fact, lice on anything can be exterminated by the use of this remedy. Much depends on keeping the poultry house clean by using kerosene on the roosts, whitewash on the walls, and at the same time the powder on the birds themselves and in their nests.

Setting hens well dusted during incubation will bring off a healthy brood that will need no pampering to make them grow.

Furs and carpets are never moth eaten where this powder has been applied.

... Used in nearly, if not every State in the Union, Canada, British Columbia and Mexico ...

Price, 15-Oz. Box, 25 Cents.

Always to be used externally... Nothing that will harm animal life... They will not eat it... Full Directions with every package.

A Orders taken for Plymouth Rocks and Leghorns. Also Eggs for setting. Particulars on application.

Mann's Celebrated Bone Mills.

\$26.50, \$75.00.

Call and See Them.

Poultrymen can *double their profits* by caponizing their chicks. The operation is very simple—the instructions so full and explicit that any man, woman or child, after a careful reading, will be able to perform the operation. It is highly successful from every point of view. The demand for Capons far exceeds the supply, the price per pound being *twice as much* as for ordinary chicks. The object of Caponizing is to largely increase the weight of fowl, causing them in many cases to grow as large as turkeys and weighing from 10 to 15 pounds, to make the meat a finer and sweeter flavor and very juicy and tender. *Again, Capons are worth \$1.00 to \$1.50 more than cocks not Caponized.* They are much quieter in disposition. A cock in chasing around the yard will run off flesh almost as fast as put on. In the more quiet Capon the same amount of food goes to make flesh, bone and profit. With the proper instruments Caponizing is a simple lesson, wholly mastered by a few moments study.

Complete with instructions, \$2.50. We send "COMPLETE GUIDE FOR CAPONIZING" with every set. The Philadelphia Poultry Marker, nickel plated, two sizes, 25 cents each.

Milking Tubes.

PILLING'S PATENT.

SOLID COIN SILVER.

For Sore and Obstructed Teats and Hard Milking Cows

DIRECTIONS—The long rounded end of the tube is inserted in the orifice of teat, when the milk will flow without the use of the hands. It is best to wet the Tube with a drop of milk or water before using. Remove the tube when milk ceases to flow. If in some cases the obstruction is farther up the teat than can be passed by the regular length, you should have a longer tube, and as it can be made any length, answers for all purposes.
