GENERAL DIRECTIONS TO OUR PATRONS

SEEDS BY MAIL

IMPORTANT NOTE—The weight limits in the 1st, 2nd and 3rd zones have been increased to 70 pounds; in other zones the limit is now 50 pounds

Parcels Post— Since the installation of the new parcels post law seeds, bulbs, tools, plants and garden supplies (excepting poisons and liquids) may be sent by mail to all parts of the United States, including Alaska, Canal Zone, Guam, Hawaii, Porto Rico and the Philippines. Packages are subject to a limit of maximum weight in the first and second and third zone of 70 pounds; in all other zones of 50 pounds. The maximum size of a package is 84 inches for length and largeness of the girth combined.

Zone Rates— May be had by applying to your postmaster, who will tell you which zone you are in with reference to Los Angeles or upon application we will tell you if you supply us with the name of your postoffice.

For Parcels Weighing 8 Ounces or Less, containing seeds, bulbs or books only, the rate of postage to all zones is 1½ cents for 2 ounces or fraction. (Over 8 ounces the parcels post rates apply.)

On shipments weighing 20 pounds or more beyond the 2d postal zone it is cheaper to ship seeds by express. As the express companies give a receipt for each package, it amounts practically to insurance without cost, whereas it costs extra, according to value, to insure a parcel post package. We guarantee the safe arrival in the U. S. of all seeds shipped by express or insured parcel post.

To foreign countries the parcel post rate is 14 cents per lb. Registration where possible is 10 cents. C.O.D. orders can now be sent to Mexico.

FREE DELIVERY

FOR CERTAIN QUANTITIES OF SEEDS

We Deliver Free in the United States and Possessions, and Mexico, by **Parcel Post** or **Express** to any express office at our option all **vegetable and Flower Seeds** by the **Packet, Ounce and ¼ Pound**, and up to and including **ten pounds**. All other articles, including bulbs, are quoted f. o. b. Los Angeles and postage must be added as per table at the right where goods are desired by parcel post.

Purchasers pay transit charges on larger quantities of seeds, and other merchandise, unless otherwise provided.

Please Order Early, thus enabling us to forward promptly. It will hasten forwarding materially, if customers will kindly make up orders alphabetically, as the goods are listed that way in the catalogue. Seeds are also put in compartments in our stores alphabetically, hence an order can be filled more quickly if it is made out in that manner.

Counter Customers— We suggest to those who purchase in person at our store the advantage of having their lists made out before they call. They may be left and called for later, taken at once, or shipped. In any case it is a great saving of time to the purchaser. The list should have full name and address written on it so that our catalogues may be mailed to the purchaser as issued. We also urge early purchases.

Error in the Filling of Orders— We use the greatest care in filling, checking and packing orders. Yet should anything be omitted we will promptly forward when advised. Keep a duplicate copy of your order for comparison.

Remittances may be made by Express Money Order, P. O. Money Order or Bank Draft; if stamps or cash sent in a Registered Letter. We must decline sending goods C. O. D. unless 25 per cent. of their value accompanies the order.

Accounts— Parties having no account with us—who order goods without remittance—must furnish satisfactory reference.

NON-WARRANTY

The Germain Seed and Plant Company gives no warranty, expressed or implied, as to description, quality, productiveness, or any other matter of seeds, bulbs, plants or trees they send out, and they will not be responsible in any way for the crop. If the purchaser does not accept the goods on these terms they are at once to be returned.

Testimonials from Customers— We are always pleased to hear from our customers regarding the results of their gardens. Photographs of gardens and particularly of vegetables and flowers, are thankfully received by us.

Questions and Correspondence— We endeavor to answer promptly all letters of inquiry—which should be on separate paper from orders—but we cannot undertake the planning of entire gardens and grounds

Special Assortment—We will send an assortment of two each of the above 16 sorts but not individually wrapped or named (32 bulbs) for \$2.00.

Select Mayflowering or Cottage Garden Tulips

A strain of rare beauty. The large, graceful flowers are quite distinct from the Darwin and other sorts offered, being composed of long pointed or oval petals usually reflexed. They appear in the most brilliant shades, including vivid red, rich golden yellow, rose, pink, crimson, picotee, etc. They are late flowering extending their blooming season even beyond that of the Darwin and breeder type. Due to their extreme hardiness they are especially adapted for the permanent hardy flower border. The flowers are of excellent texture and long stemmed and are ideal for cutting. In solid beds or masses, their exceedingly bright shades are unusually effective.

—"gorgeous tulips, holding aloft great bells to ring joy deep into your heart."—WICKSON.

In planting the bulbs should be set well down, the tops being not less than 6 inches below the surface.

Bouton D'or or Golden Beauty—Pure golden yellow, rich and well formed. A remarkably fine bedding variety.

Gesneriana Major (Spathulata)—True, rich crimson scarlet with blue black center. A superb variety of large, yet graceful growth. Flowers unusually fine for cutting.

Gesneriana Lutea—Clear bright yellow and a favorite both as a cut flower and for the garden.

Grenadier—Brilliant orange. A bright and attractive flower of large size and splendid form.

Inglescombe Pink—Delicate rose pink, tinted salmon, exquisite in form and coloring.

John Ruskin—Salmon rose, edged lemon yellow. A lovely and unique color combination.

La Candeur—Silvery white.

La Merveille—Large orange red toning to carmine, sweet scented.

Moonlight—Very large, beautifully formed flowers of a delicate tint of primrose yellow.

Mrs. Moon—Large rich yellow, blooms long and pointed; reflexed. A splendid flower.

Orange King—Superb glowing orange shaded scarlet with yellow center and black anthers.

Parisian Yellow—Clear yellow, long considered one of the finest of yellow cottage tulips.

Picotee (Maiden's Blush)—White, margined carmine rose, greatly admired and popular.

Shandon Bells—(Isabella or Blushing Bride). Color, primrose flushed rose, changing to rosy red.

Price, any of the above: 3 bulbs for 25c; \$1.00 per dozen; \$7.00 per hundred.

Mixed—A high grade mixture containing all colors known in tulips, suitable for bedding and border planting. 75c per dozen; \$5.50 per hundred.

Germain's Rare Old Dutch or Breeder Tulips

Beautiful in the extreme are these wonderful old Dutch tulips. Their luminous glowing color tones are at once the delight and despair of the artist who may seek to reproduce them. Rich, warm shades of Bronze and Terra Cotta are deftly blended with Heliotrope or Purple, there are suffusions of Apricot, Mauve or Brick Red done with an artistry no brush can imitate. They have become exceedingly popular of late and have been given great prominence in strictly up to date gardens. They are very similar to the Darwin type in their tall, strong growth and bloom about the same time, but have an entirely different range of colors, comprising many artistic tones not found in any other strain.

Bronze King—Large bronzy yellow well formed flower. 3 bulbs for 25c; \$1.00 per dozen; \$7.50 per 100.

Bronze Queen—Bronze buff, tinged apricot inside golden bronze. Very handsome flowers of large size and exceptionally good for cutting. 3 for 35c; \$1.25 per dozen; \$8.50 per 100.

Cardinal Manning (or Kingscourt)—Claret-red, edged with rosy bronze, a curious blending. Beautiful flower of finest texture. 3 for 25c; \$1.00 per dozen; \$7.50 per 100.

Copernicus—Coppery bronze, shaded old rose. A most attractive combination. Flowers large and of splendid form. 2 for 25c; \$1.50 per dozen; \$11.00 per 100.

Dom Pedro—Very distinct, coffee brown shaded maroon; inside mahogany red. One of the finest. 2 for 25c; \$1.50 per dozen; \$11.00 per 100.

Fairy (or Panorama)—Terra-cotta and bronze, very large, handsome flowers of splendid form. 3 for 35c; \$1.25 per dozen; \$8.50 per 100.

Godet Parfait—Large flower of heavy texture, lasting well in perfect condition. The color is a glowing plum-violet, with white base. 2 for 25c; \$1.50 per dozen; \$11.00 per 100.

Golden Bronze—Old gold outside, deep golden bronze inside. A very fine sort for all purposes, having good stems and large well shaped flowers. 3 for 35c; \$1.25 per dozen; \$8.50 per 100.

Lord Curzon (or La Singuliere)—A novel sort, silvery white heavily flushed and striped cherry red. 2 for 25c; \$1.50 per dozen; \$11.00 per 100.

Louis XIV.—A new and wonderful tulip, color royal purple with bronze suffusion and golden brown margin. Held to be the most striking of all. Each 20c; \$2.00 per dozen; \$15.00 per 100.

MacMahon (or Turenne)—Bronze-violet, margined bronze-yellow, yellow base. Flowers of good size on tall straight stems. 2 for 25c; \$1.50 dozen; \$11.00 per 100.

Medea—Crushed strawberry, shaded heliotrope, yellow center. A very pretty coloring. Most attractive flowers of large size. 3 for 35c; \$1.25 per dozen; \$8.50 per 100.

Prince of Orange (or Sunset)—Very vivid color, orange terra-cotta with bright orange border. An excellent and brilliantly colored variety. 2 for 25c; \$1.50 per dozen; \$11.00 per 100.

Sunrise (or Jaune d'oeuf)—Old gold shaded apricot. This popular sort is often listed as a Darwin. It is a splendid tulip, very artistic in color. 3 for 35c; \$1.25 per dozen; \$8.50 per 100.

Superba—A beautiful shade, light bronze-rose. Well formed, large and erect flower. 2 for 25c; \$1.25 per dozen; \$11.00 per 100.

—“there is no recreation which brings so much happiness and brightness into a man's life as the recreation of Horticulture.”—
DEAN HOLE

Virgilius—Large well formed, beautiful flower, royal purple flushed violet. Each 20c; \$2.00 per dozen; \$15.00 per 100.

Yellow Perfection—Lovely golden yellow with light bronze shadings. A beautiful yellow tulip of a most attractive shade. 3 for 35c; \$1.25 per dozen; \$8.50 per 100.

Choice Mixed—A splendid mixture, many fine varieties. 3 bulbs for 25c; \$1.00 per dozen; \$7.50 per 100.

Collection of two each of the nine sorts for \$2.35.

New Hybrid Tulips (Darwin X Cottage Garden)

The following novelties are the result of crosses between the Darwin and cottage garden strains. They were raised by Krelage & Son and other noted specialists and have aroused much interest in recent European exhibits, obtaining many awards. They are the latest in Dutch bulbs and amateurs everywhere will observe them with keen delight.

Amber—(Award of Merit R. H. S.). Round flower of unique coloring; terra-cotta shaded amber, base yellow and blue. 20c each; \$2.00 per dozen.

Argo—(Certificate, Haarlem). Yellow, mottled red and passing off to bronze salmon. 25c each; \$2.50 per dozen.

Idyl—(Award of Merit N.H.B.S.). Vivid rose, shaded salmon, pure yellow base with blue edge. 20c each; \$2.00 dozen.

Marvel—(Award of Merit H.B.G.S.) Inside of old gold, outside salmon rose, edged yellow. This variety is not only very beautiful, but also distinctly sweet scented. 20c each; \$2.00 per dozen.

Triton—(Award of Merit H.B.G.S. & N.H.B.S.) Elongated flower of most dazzling carmine, base pure yellow with light blue edge. 20c each; \$2.00 per dozen.

Collection of two each of the five sorts, \$1.50.

Odd Old Dutch Tulips

Bizarres—A very old tall growing race; the flowers are all striped and feathered brown or maroon on yellow ground. 3 for 30c; \$1.00 per dozen; \$7.00 per 100.

Bybloemen—Striped and feathered rose and violet. 4 for 30c; 75c per dozen; \$5.50 per 100.

Rembrandt Tulips—Delicate shades with stripes and flames of darker colors. Beautiful combinations. 3 for 30c; \$1.00 per dozen; \$7.00 per 100.

Parrot Tulips—These do not grow tall like the foregoing, unfortunately, but they are always popular. The flowers are fringed, corrugated and curiously twisted and oddly variegated in color. 4 for 30c; 75c per dozen; \$5.50 per 100.

Collection: Three each of the above four kinds, 85c.

Double Tulips

The double tulips belong to the early flowering class. They are excellent for pot culture, especially in jardinières with bulb fibre. In the garden they succeed best in shaded locations and last well when cut.

Mixed Colors: 3 for 30c; \$1.00 per dozen; \$7.00 per 100.

REMBRANDT TULIPS

Germain's Extra Select FREESIA BULBS

Three Splendid Freesia Novelties

Mendota—Clear yellow, large flower and long, extra strong stems. A new variety of great merit.

Mrs. Marc Peter—Rosy salmon. A very attractive shade. Tall, excellent cut flower.

June Michelson—The finest rose pink. Strong grower, good stems.

Price: 15c each; \$1.50 per dozen; \$10.00 per 100.

Collection of 5 each of the three splendid freesias for \$2.00.

Freesia Fisherii

A new snow white, with broader, larger flowers and petals of great substance. 75c per dozen; \$5.50 per 100.

Improved Purity Freesias

A greatly improved strain of the popular sweet scented white freesias. Very attractive in the garden and a most desirable cut flower.

Mammoth Sized Bulbs, 50c per dozen; \$3.00 per 100.

Large Bulbs, 25c per dozen; \$1.75 per 100.

The Freesias are admired and popular both for the garden and as cut flowers. The original white sort is an old favorite in many gardens esteemed for its unusual and artistic appearance and its sweet odor. The newly developed colored sorts have retained all the qualities of the type. They are free flowering, keep well and are very sweet scented and in addition most of them are taller and more vigorous. In beauty and variety of color tones they now surpass even the fondest dreams of the originators, ranging from pure golden yellow to salmon, orange, carmine, rose, lavender and Amethyst blue.

Culture—Their culture is very simple. They thrive in any good garden soil, but will repay with interest whatever special attention they receive. Plant them in beds, in rows or in masses between other perennial plants, for, while they succeed perfectly in full sunlight they do well also in partial shade. Cover the bulbs about two inches with soil and give them usual care. They will bloom profusely in early spring. The bulbs may be lifted and stored in summer after all foliage has died down and they may be set out again the following Autumn or if preferred, they may be left in the ground to reappear and bloom each spring from year to year.

New Colored Freesias

Beautifully colored and sweet-scented, these new freesias are admirable cut flowers and thrive particularly well in our California winter climate.

Amethyst—Tall amethyst blue with lavender blue center. A fine variety of strong sturdy growth.

Aurora—Large flowering, orange and yellow. Charming color combination and very much admired.

California—Large golden yellow. Strong tall grower, admirable for cutting.

Carmencita—Orange salmon hue with buff shadings on the lower petals. Tall wiry stems.

Carrie Budau—Large lavender pink on tall stems. Remarkably strong grower and very free flowering.

Ilena—Deep rosy lavender with orange blotch on the lower petals. Good stiff stems. Flowers large and very attractive.

Olivette—Bright carmine red with light yellow throat, lower petals having deep yellow blotch with crimson veins.

Yellow Prince—Deep golden yellow, splendid cut flower variety.

Gen. Pershing—Tall, vigorous grower producing a wealth of fine lavender pink flowers.

Price: Any of the above, 3 for 25c; \$1.00 per dozen; \$6.50 per 100.

Collection offer: 6 each of the above varieties for \$4.00.

Rainbow Mixture—A superb mixture of new colored freesias containing a wide range of beautiful shades, including many choice new sorts. 4 for 25c; 75c per dozen; 50 for \$2.75; \$5.25 per 100.

Germain's Select Narcissus and Jonquils

Poet's Narcissus
(*Narcissus Poeticus*)

Poeticus—The old favorite Pheasant's Eye or Poet's Narcissus. Snowy white flowers, with yellow cup margined with red. Odor rich and spicy. 15c each; \$1.50 per dozen; \$11.00 per 100.

Lily of the Valley

For Quick Indoor Forcing
(Imported Pips)

Lily of the Valley Pips are just as easy to force in the home as the well-known paper white narcissus and Chinese lily, and they are even quicker, blooming in less than 20 days.

Place a few pips in bulb fibre or sand and keep moist, that is all. Price, 3 for 25c; \$1.00 per dozen; \$7.00 per 100.

Bulb Bowl With Lily of the Valley

We will send postpaid a handsome bulb bowl filled with six Lily of the Valley Pips planted in fibre (needs only a little water to start growing and will bloom in a few days). Bowls come in dark blue, green and ivory.

Special price, \$1.25, postpaid.

Lily of the Valley are [6] fine for indoor forcing

Double Narcissus or Daffodils

The double daffodils have a peculiar charm all their own. They are totally distinct from the Trumpet varieties and very popular both for cutting and garden culture.

Primrose Phoenix—Beautiful double daffodil of a lovely soft primrose and lemon shade. 25c each; \$2.50 per dozen; \$18.00 per 100.

Sulphur Phoenix (Coddins and Cream)—Creamy white with pale sulphur centre. A fine double sort. 20c each; \$2.00 per dozen; \$15.00 per 100.

Golden Phoenix—Double light yellow with deep golden center. 25c each; \$2.50 per dozen; \$18.00 per 100.

Orange Phoenix—(Eggs and Bacon). Large double white, orange base. 25c each; \$2.50 per dozen; \$18.00 per 100.

Von Sion—The ever popular double yellow daffodil. 15c each; \$1.50 per dozen; \$11.00 per 100.

Narcissus Poetaz

Orange Cup—One of the showiest of the poetaz or cluster daffodils. The petals are cream color and form a pleasing contrast with the rich orange shade of the cup. 20c each; \$2.00 per dozen.

Laurens Koster—A popular poetaz variety, very free blooming and an excellent cut flower. Petals pure white with rich orange-yellow cup. 10c each; \$1.00 per dozen.

Jonquil

A species of Narcissus with very fragrant flowers; excellent for cutting. Culture same as for Narcissus.

Campernelle Regulosus—The largest and finest single Jonquil; color pure yellow; very fragrant. 15c each; \$1.50 per dozen; \$11.00 per 100.

Odorous Plenus—(Double Campernelle). Double, rich yellow flowers of elegant form. 15c each; \$1.50 per dozen; \$11.00 per 100.

Sweet Scented (N. Jonquilla)—A pretty miniature daffodil or jonquil, native of Spain. It has long been a favorite in gardens, and is highly prized for cutting, the flowers being very freely produced. They are of a clear deep yellow and are intensely fragrant. The bulbs multiply readily and thrive well in our climate. Four bulbs for 25c; 75c per dozen; \$5.00 per 100.

Polyanthus Narcissus or Nosegay Daffodils

Grand Soleil d'Or—Yellow, orange cup, excellent for early forcing, can be grown in water. 20c each; \$2.00 per dozen; \$14.00 per 100.

Grand Primo—White with yellow cup, large flower. 15c each; \$1.50 per dozen; \$10.00 per 100.

Paper White—Will flower in water as quickly and easily as the Chinese Lily. Large bulbs. 15c each; \$1.50 per dozen; \$10.00 per 100. Good flowering size, 10c each; \$1.00 per dozen; \$7.50 per 100.

Chinese Sacred Lily—A species of Narcissus well known here; very fine for window decoration, grown in water.

Extra Large Size: 25c each; \$2.50 per dozen; \$18.00 per 100.

First Size: 15c each; \$1.50 per dozen; \$10.00 per 100.

Germain's Peerless Northern Crown Daffodils

From the cool fertile valleys of the northern Pacific Coast where Germain's choice daffodils are now being grown, we have received a large supply of very fine bulbs comparable for all garden purposes to the best importations formerly received from our Holland growers. These bulbs have been tried and tested by us in comparison with other stocks received from various parts of the United States and we gladly recommend them to all our customers.

Culture—Plant from October to January, covering the bulbs from 5 to 8 inches. They will thrive in any good garden soil. If this can be enriched with some well rotted manure or bone meal, so much the better, but do not dig in fresh manure. Plant six inches apart.

They are valuable for pot culture and indoor decoration. Grown in bulb fibre any dish or jardiniere will do as no drainage is necessary. Keep fibre moist at all times, never sodden.

New Giant Flowered Varieties

Treserve—Undoubtedly one of the finest and largest daffodils in existence. The perfectly formed all yellow flowers are freely produced on tall strong stems.

Olympia—Enormous blossoms of a most effective yellow and lemon tone. A superb new daffodil.

King Alfred—A real king among daffodils; uniform gold yellow, of great size and beauty. Trumpet recurved and fluted.

Van Waveren's Giant—The grandest of all bicolors. Petals primrose with bright yellow trumpet. One of the largest and finest in cultivation.

Robert Sydenham—A truly remarkable introduction. Immense in size, clear bright yellow in color, wide open trumpet with deeply frilled brim. 50c each; \$5.00 per dozen; \$37.50 per 100.

The above, except where noted, 35c each; 3 for \$1.00; \$3.75 per dozen; \$27.50 per 100.

Large Trumpet Daffodils

Trumpet Major—A shapely flower of good size, a rich yellow throughout. An early bloomer, good for garden use or forcing. 15c each; \$1.50 per dozen; \$11.00 per 100.

Cervantes—A favorite variety for bedding or naturalizing; perianth cream, trumpet rich yellow. 15c each; \$1.50 per dozen; \$11.00 per 100.

Glory of Sassenheim—A truly glorious variety, one of the finest of the giant Trumpet daffodils. The large Trumpet is rich yellow with pale lemon yellow perianth. Robust in growth producing strong stems and of the easiest culture. 25c each; \$2.50 dozen; \$18.00 per 100.

Minister Talma—A very beautiful new early daffodil. It is in bloom frequently before the famous early golden Spur and the flowers are much superior to the older variety. The massive blooms held high on solid stems are of a rich golden yellow color. 25c each; \$2.50 per dozen; \$18.00 per 100.

Emperor—Brilliant yellow trumpet, perianth deep primrose yellow. Flowers very large, splendid garden variety and beautiful cut flower. 20c each; \$2.00 per dozen; \$14.00 per 100.

Empress—A magnificent variety, perianth white, of great substance, trumpet rich yellow, one of the best. 20c each; \$2.00 per dozen; \$14.00 per 100.

Golden Spur—Deep golden yellow flowers; the best early flowering variety. 20c each; \$2.00 per dozen; \$14.00 per 100.

Sulphur Beauty—A splendid daffodil with white petals and soft citron trumpet. 15c each; \$1.75 per dozen; \$12.50 per 100.

Large Trumpet Daffodils Mixed. This very choice mixture contains some of the best large trumpet daffodils in all the various shades of yellow, and offers a splendid opportunity to establish a good sized bed or larger planting at very moderate cost. \$1.25 per dozen; 50 bulbs for \$4.75; \$9.00 per 100.

Medium Trumpet Daffodils

Also known as Chalice Cup or Star Narcissus

This class is very beautiful and graceful in form. The following sorts are among the best of this type and are adapted for pot culture as well as garden use. They are of free and easy growth and multiply rapidly.

Barri Conspicuous—Yellow with orange cup. 15c each; \$1.50 per dozen; \$10.00 per 100.

Sir Watkin—Yellow, the largest and finest of the "incomparable" type. 15c each; \$1.50 per dozen; \$11.00 per 100.

Firebrand—A brilliant flower, petals creamy yellow, cup a distinct fire red. 15c each; \$1.75 per dozen; \$12.50 per 100.

Mrs. Langtry—This beautiful and delicately tinted daffodil belongs to the Leedsii type. Petals snow white, prettily crinkled cup of soft yellow passing to white. 15c each; \$1.50 per dozen; \$11.00 per 100.

Lucifer—A striking flower of large size and very freely produced. The petals forming the perianth are pure white while the crown or trumpet is a brilliant orange scarlet. The contrast is so decided that it attracts immediate attention. 15c each; \$1.50 per dozen; \$11.00 per 100.

Leedsii White Lady. An exquisite flower with broad pure white overlapping petals and dainty cup, prettily crinkled, of a beautiful pale canary yellow. Free blooming and fine for cutting. 15c each; \$1.50 per dozen; \$11.00 per 100.

GERMAIN'S IMPORTED Dutch Hyacinths

Classed with the most popular of all imported bulbs, the hyacinth has held a very prominent place in the parks and gardens of America for many years and is ever gaining in favor. The tall spike well furnished with delicate waxy bells is too widely known to need further description. Its well balanced and symmetrical growth lends itself ideally to formal planting, few bulbs being used with such good effect for bedding. In the border, planted in groups, the hyacinths are welcome companions with dwarf iris tulips, etc. and their flowers are as fragrant as they are beautiful.

GIANT EXHIBITION HYACINTH

How To Grow Hyacinths

The bulbs may be planted in the open from October to January in any good garden soil which has been well spaded up. They should be six or eight inches apart and covered six inches or more.

Pot Culture—Plant one bulb in a five-inch pot. A six-inch pot will hold three or four. Use light soil and place a few crocks in bottom of pots for drainage. The top of the bulb should be about even with the surface of the soil. Keep in a cool dark place for five or six weeks until the roots are fully developed, then gradually inure to the light.

In Glasses—Fill the glass with water so as to barely touch the base of the bulb. A piece of charcoal the size of a walnut, put into the water, will keep it pure and obviate frequent changing. Keep in a dark cool place until the roots have fairly started, then remove to the light.

In Bulb Fibre—Bulb fibre may be used to great advantage when growing bulbs for home decoration. As no drainage is necessary, any receptacle can be used to plant them in and there is no danger of water running on furniture or floors.

Top Root Exhibition Hyacinths

These bulbs are of extraordinary size measuring frequently 19 centimeters in circumference. They produce exceptionally strong spikes of enormous size and are ideal for forcing and for growing in Hyacinth glasses. Varieties listed below may invariably be found among the winning entries at the various Exhibitions.

General de Wet—Very fine light rose, a pink form of the popular lavender blue variety "Grand Maitre".

Gertrude—Carmine rose, large spike, a compact grower of a deep rose color, sometimes described as light red.

Lady Derby—Bright rose pink, an excellent variety for pot culture, producing a remarkably fine large spike.

La Victoire—Bright glistening deep carmine red, an excellent exhibition variety.

Roi des Belges—Deep red. Makes a good spike and is probably the best of this color.

Moreno—Bright pink, large bells, an improved form of Norma. The large spikes produce bells in greater number and of a brighter shade of pink.

La Grandesse—Pure white, splendid spike.

L'Innocence—Pure white extra large truss. The best all-round white hyacinth for all purposes, forces well and is equally good for bedding.

Grand Maitre—Deep porcelain blue. Remarkably fine large flower and vigorous grower.

Duke of Westminster—Dark purple bells with white eye. Good strong spike. A most attractive variety.

Lord Balfour—Purplish violet, large, broad spike, dark stem and heavy foliage. Showy and distinct.

Queen of the Blues—Beautiful pale azure blue in color, and perfect in form. Always popular.

King of the Blues—Dark blue. Considered one of the finest of the rich, deep blue sorts.

City of Haarlem—Bright golden yellow. A most attractive variety. Flower large and strong.

Yellow Hammer—Pure yellow, early and a favorite with many.

Mixed—Assorted from finest named varieties.

Price: Any of the above, 30c each; 4 for \$1.00; \$3.00 per dozen; \$22.00 per 100. One each of the 15 Exhibition varieties for \$3.75.

"If I had two loaves of bread, I would sell one of them and buy white hyacinths."—MAHOMET.

LARGE FLOWERING Named Hyacinths

These plump, large sized bulbs send up large full spikes, rivalling those of the "top roots." They can be safely recommended for growing in pots or glasses and for high class bedding. The results obtained for all purposes have been most gratifying.

The ten varieties offered are everywhere in general demand and may be relied upon to give complete satisfaction.

General De Wet—Splendid light rose.

Gertrude—Large carmine rose or light red.

Lady Derby—Excellent bright rose pink.

Moreno—Improved bright pink.

L'Innocence—Most popular white variety.

Grand Maitre—Deep porcelain blue. Fine rich blue.

King of the Blues—Dark blue, one of the favorite blue sorts.

Queen of the Blues—Pale blue, a perfect azure blue.

City of Haarlem—Fine bright golden yellow.

Choice Mixture: All the above colors in fine mixture.

Price: Any of the above 20c each; 3 for 50c; \$2.00 per dozen; \$15.00 per 100.

One each of the ten sorts for \$1.75.

Germain's "Sunset" Named Hyacinths

These are the same high grade named varieties offered in good sized bulbs and may be depended upon to produce fine results. They are excellent for growing in pots or boxes in doors or used for bedding in the open with charming effect. An opportunity to enjoy these splendid and fragrant spring flowers at very reasonable cost.

General De Wet—Light rose.

Gertrude—Carmine rose.

La Victoire—Carmine red.

Lady Derby—Rose pink.

Moreno—Bright pink.

L'Innocence—Pure white.

Grand Maitre—Porcelain blue.

King of the Blues—Dark blue.

Queen of the Blues—Azure blue.

City of Haarlem—Yellow.

All colors. Choice mixed.

Price: Any of the above 15c each; 4 for 50c; \$1.50 per dozen; \$11.00 per 100.

Named Double Hyacinths

The double Hyacinths are not as popular as the single sorts and we offer only a few varieties which we consider the best and well worth growing.

Noble par Merite—Pink, extra fine. Each 30c; \$3.00 dozen; \$22.00 per 100.

President Roosevelt—Bright rosy red. Each 30c; \$3.00 dozen; \$22.00 per 100.

LARGE FLOWERING HYACINTH

La Grandesse—Pure white, very fine. Each 30c; \$3.00 dozen; \$22.00 per 100.

Garrick—Clear blue. Each 30c; \$3.00 dozen; \$22.00 per 100.

Goethe—Light yellow, fine truss. Each 30c; \$3.00 dozen; \$22.00 per 100.

Crocus

Crocus require very little attention and they are one of the first flowers to bloom in the Spring. Planted in masses or 3 or 4 rows arranged in a border, they are very effective. They must not be planted more than one inch deep for if planted too deeply they sometimes fail to bloom. Crocus are often planted in the lawn where they come up very early in the Spring and are practically over blooming before the lawn needs much mowing. This method is more popular in the east and if tried here it had best be done where there is some shade. They are ornamental when flowered in pots.

All Colors—Mixed. Each 5c; 50c dozen; \$3.50 per 100.

All Hyacinths succeed [9] in pots and window boxes

Cloth of Gold—Golden yellow and brown. Each 5c; 50c dozen; \$3.50 per 100.

Montblanc—Pure white. Each 5c; 50c dozen; \$3.50 per 100.

President Lincoln—Deep purple. Each 5c; 50c dozen; \$3.50 per 100.

Sir Walter Scott—White, striped lavender-blue. Each 5c; 50c dozen; \$3.50 per 100.

Yellow Mammoth—Extra large. Each 10c; 75c dozen; \$5.50 per 100.

Germain's Improved Giant Anemones

These are among the most showy and beautiful of spring flowers; of neat and compact growth, with elegantly cut foliage and the most brilliantly colored blossoms. They require but little attention and may be used to great advantage in solid beds or masses or in connection with other plants in the border. Their large velvety flowers are ideal for cutting, lasting several days in water.

Culture—Anemones require a rich, loamy soil. Soak the roots in water for six hours previous to planting. This causes them to swell and enables one to distinguish the crown, which is readily discernible by the fibrous points at the top of the root, the bottom being quite smooth. A sunny place is best. Place a slight ridge around the bed so that the plants may be flooded with water.

Plant any time from October to May. They bloom from February to July.

Price: Extra Large Bulbs, 4 for 50c; \$1.25 per dozen; \$8.50 per 100. Large Bulbs, 3 for 25c; 75c per dozen; \$5.00 per 100. Small Bulbs, 50c per dozen; \$3.50 per 100.

Caladium Elephant's Ear

The leaves of immense size on massive stems grow to a height of four feet. For a tropical effect this plant has no equal.

When planting, leave crowns even with the surface of the ground, water sparingly until they are fairly started, but water abundantly when in active growth.

First Size: 25c each; \$2.50 per dozen. Ready for shipment in December.

Calochortus or Mariposa Lily

These famous California flowers possess much delicacy and brilliancy of coloring. They resemble a tulip.

Mixed, all colors. 10c each; 75c per dozen; \$5.50 per 100.

Calla Lily

Known to every lover of flowers. The callas are free flowering, showy garden plants and are equally successful in doors. Both the yellow and white sorts offered, are improved strains producing fine large flowers and cannot be too highly recommended.

Culture—Callas are very easy to grow, and to be successful they need only be given a good rich soil and an abundance of water. May be planted either in a sunny or half shady place. The white variety may be planted from July to March, and will bloom all year excepting during June, July and August. The yellow variety is ready in December and should be planted shortly afterwards.

Calla Elliotiana (The Yellow Calla Lily)—This is the finest Calla grown; large deep, rich golden yellow color. The leaves are spotted with white, habit like our old favorite White Calla. Ready for shipment January 1st.

Extra Large Bulbs, 50c each; \$5.00 per dozen.

Large Bulbs, 35c each; \$3.50 per dozen.

Medium Size, 25c each; \$2.50 per dozen.

Small Size Bulbs, 15c each; \$1.50 per dozen.

Calla Aethiopica (The White Calla Lily or Lily of the Nile)—Tall growing strain with enormous pure white flowers.

First Size Bulbs, 35c each; \$3.50 per dozen.

Second Size Bulbs, 25c each; \$2.50 per dozen.

Germain's Superb New Giant Amaryllis

This beautiful strain of American hybrid Amaryllis is unsurpassed. The flowers average over 8 inches in diameter and range in color from almost pure white, through rose, carmine, cherry red, scarlet and crimson, to deep maroon. Many are striped and mottled. The flowers are flat and spreading, with full rounded and overlapping petals and usually number 4 to 6 on a stem. The plants are of exceptionally strong growth, the flower stalks are heavy and tall. In colder climates these gigantic blooms are the pride of the conservatory or window garden where they succeed very well, but in our own climate they thrive perfectly in the open and may be used with gorgeous effect in beds and borders or among shrubbery.

The Amaryllis are easy of cultivation. They may be planted in full sun or semi-shade, the soil being first well spaded and adequately enriched with rotted manure or commercial fertilizer. In planting do not cover the bulbs more than an inch or so and do not move them more often than necessary, as they thrive best when undisturbed for several seasons.

Large Bulbs which will bloom first year, 75c each; \$7.50 per dozen.

Second size, 60c each; \$6.00 per dozen.

Amaryllis Bella Donna

"Bella Donna Lily," blush, delicately shaded with pink or light purple, flowering before the leaves appear, very fragrant and fine for cut flowers, lasting fully a week when cut. Plant in a sunny position, leaving the neck even with the surface of the soil.

First Size: 25c each; \$2.50 per dozen.

Second Size: 15c each; \$1.50 per dozen.

New Giant Amaryllis

Amaryllis Johnsonii

A very popular sort producing freely large blooms of a most brilliant red color. Large bulbs, 50c each; \$5.00 per dozen.

Begonia

Tuberous Rooted

This splendid class of begonias is perhaps the handsomest of all bedding plants for a shady or semi-shaded location. Bulbs may be started in pots early in February or in the open later in the Spring. They prefer a rich sandy loam, and should be covered to a depth of two or three inches. Ready about February 1st.

Single, separate colors: Rose, scarlet, yellow, white; or mixed. Each 35c; \$3.50 per dozen.

Double, separate colors: Scarlet, rose, white, yellow; or mixed. Each 50c; \$5.00 per dozen.

This diagram indicates the approximate depth at which bulbs should be planted and gives suggestions for spacing. Hyacinths, Tulips and Daffodils require deep planting and should be set down 7 or 8 inches for best results, the soil being previously well spaded to a depth of 18 inches.

GERMAIN'S EXTRA CHOICE GLADIOLUS BULBS

Gladiolus may be planted practically all the year. They are of the easiest culture and thrive most anywhere. When in doubt, plant more Gladiolus.

GLADIOLUS LOS ANGELES

The gladiolus is invaluable as a summer flower, and its popularity has increased tremendously in the last few years. Our list contains only the best sorts, varieties which have been tried and proven to give the most satisfactory results both as cut flowers and for garden display. When cutting, do so as soon as one or two flowers are expanded. The rest of the buds will open in water if care is taken to remove faded flowers, changing water daily and cutting a piece off the stem each time. The bulbs should be planted from three to five inches deep in any good light or sandy garden soil. They flourish best in an open sunny situation. Gladiolus bulbs ready in November.

Three Superb Novelties

David Starr Jordan. This gigantic new gladiolus stands far above all other red varieties which have come under our observation. The spike is exceptionally tall and the individual flowers are immense in size, many open at one time and their shade is a rich deep crimson. 50c each; \$5.00 per dozen.

Henry Ford. A variety striking in color as well as in the bold and showy appearance of its strong spikes. The flowers which are of a dark rhodamine purple deepening towards the center, are well placed and very large. 50c each; \$5.00 per dozen.

Tinted Wings. A new and artistically colored variety, exhibited and named at our Spring Flower Show. Color is an art shade or subdued ochre yellow, penciled and tinted with rosy crimson. Per bulb, 50c; \$5.00 per dozen.

Collection: One each of the three novelties, \$1.25.

Eleven Peerless Gladiolus

Jack London. This is proving to be one of the most successful cut-flower varieties yet introduced. Good stem, flowers opening well and color a very attractive light salmon with contrasting stripes of bright orange flame. 25c each; \$2.50 dozen.

Captain Boynton. An unusual and rare shade of lavender blue. 25c each; \$2.50 dozen.

Los Angeles. (The cut and come again" glad.) Wonderfully productive. Will produce more full sized spikers than any other variety we know. The flower stalk is very tall and graceful. The color is clear bright pink with deeper pink feather in the throat. "Los Angeles" makes a vigorous plant sending up many strong, tall spikes, but is not heavy or coarse. Graceful in form and exquisite in color, it is outstanding in the flower garden and unrivaled for cutting purposes. 25c each; \$2.50 dozen.

Rose Ash. A most beautiful and unique shade of old rose overlaid with a light purplish bronze tinge very difficult of description, but most striking and artistic. 25c each; \$2.50 dozen.

Black Pansy. (Pansy-face)—This is an ideal flower for the amateur and collector. It is unique among glads. Rich maroon, so dark as to be almost black, but relieved by a pansy-like throat which gives the flower an appeal all its own. 25c each; \$2.50 dozen.

Pythia. A gigantic dark rose red. Individual blossoms extremely large. A beautiful variety which is always scarce. 25c each; \$2.50 dozen.

Orange Glory. A bright and showy flower, well formed with good stem, excellent for cutting. 25c each; \$2.50 dozen.

Carmen Sylva. One of the most desirable of the pure white sorts. It is snow white throughout except for slight lavender markings deep in the throat. 15c each; \$1.50 dozen.

Anthony B. Kunderd. One of our choicest "cream and pink" varieties. Heavily ruffled and a most artistic flower. 25c each; \$2.50 dozen.

Anna Eberius. Bright reddish purple deepening at the center to a dark wine red. It has been a prize winner at gladiolus shows for several seasons. 20c each; \$2.00 dozen.

Imported Japanese Lily Bulbs

We cannot say too much in praise of this elegant class of plants, which are becoming more popular every year. The bulbs offered are of large size, and sound. They come of a famous Japanese strain noted for its immense blossoms, good color and free flowering habit. We list only the varieties which in our opinion are the most beautiful and have the further advantage of being very easy to grow in our locality. These include the popular Easter Lily of which two forms are offered. Formosum and Giganteum, the former being an early flowering kind. They are usually ready in October and November, while the other varieties listed reach here about the middle of December. The Easter Lilies bloom outdoors in April and May; other varieties in July and August.

Candidum—(Annunciation or Madonna Lily). This beautiful garden lily is one of the first to arrive and is usually ready in September. It should be set out in early fall. The flowers are borne on long stems. They are pure white and very fragrant. 35c each; \$3.50 per dozen.

Formosum—One of the best for winter forcing. The flowers are pure white, long and trumpet shaped. Fine cut flowers. 25c each; \$2.50 per dozen.

Giganteum—Large flowering, pure white lily of strong, healthy growth, can be forced into bloom for Easter. 25c each; \$2.50 per doz.

Rubrum—"The Red Lily of Japan." Carmine rose on white ground, spotted with crimson. The most showy of Japanese lilies for the garden and an excellent cut flower. 25c each; \$2.50 per doz.

Auratum—"Golden Banded Lily," the finest and most magnificent of the genus. Flowers white, spotted crimson with a distinct golden stripe running through each petal. 25c each; \$2.50 per dozen.

Regale—"The Regal Lily." A new species of great beauty. In habit it is not unlike the Easter lily, but taller and bearing frequently 10 to 12 flowers on one stem. Color, white suffused with rose and with striking yellow throat. 35c each; \$3.50 per dozen.

Tigrinum—"Tiger Lily," orange, spotted black, very showy. 25c each; \$2.50 per dozen.

Special Bulb Sets

Ideal for Christmas Gifts

The following selections are available from October 1st until January 15th. They are carefully and attractively packed, making charming gifts especially for the holidays.

No. 2B—Same as above but with Ivory Bowl. Price \$1.00.

No. 2C—Same as the foregoing but with beautifully decorated bowl. Price \$2.00.

When ordering sent by parcel post, allow 3 lbs. weight per bowl.

How To Grow Lilies

When planting lily bulbs spade up the soil to a depth of 18 inches, adding some bone meal or old well rotted manure (be careful that no fresh manure is used). Where the soil is very heavy or too wet, a cushion of sand should be placed directly under each bulb. They should be covered to a depth of 6 or 8 inches; extra large bulbs may be planted even deeper.

Lilies are most effective when planted in a border with other perennial plants, or among shrubbery and it is here also that they will do best as the shade of surrounding plants is necessary to their welfare.

Lilies may be grown in pots and in doing so it is best to select at first the smallest pots in which the bulbs will fit, later shifting them to larger pots as the plants progress. A rich and well prepared potting soil should be used. In order to bring in the flowers by Easter, a greenhouse is usually necessary, but small lots are often flowered in time in a sunny window. This requires care and a little experience and many an amateur gardener shows pardonable pride in the accomplishment.

Choice Spanish Iris

The Spanish Irises have been in cultivation for many years. These beautiful ornamental flowers vary in color from white to yellow, violet, blue and purple. Are very easily grown in half-shaded situations, flowers are valuable for cutting. A great favorite with florists. Plant in rows or clumps about 3 inches deep and 3 to 5 inches apart.

Yellow Queen—Large golden-yellow. 20c each; \$2.00 per dozen.

Royal Blue—Beautiful violet blue.

Queen Wilhelmina—Large white, slightly tinted lilac.

Hutchenberg—Very large orange and blue. 20c each; \$2.00 per dozen.

Imperator—Deep blue.

Frans Hals—Falls pale yellow, standards light blue.

Anton Mauve—Uniform pale mauve.

SPANISH IRIS

Ixia

For planting in solid masses or for outlining the edges of walks in the bulb garden, there are no bulbous plants more effective or more easily grown than these dainty flowers. The flowers are arranged in spikes on strong wiry stems and are especially useful for cutting.

Culture—Plant them three inches apart and two inches deep in any good garden soil.

Finest mixed, 3 for 20c; 75c dozen; \$5.50 per 100.

Ismene Calathina

(Peruvian Daffodil)

Large, pure white, Amaryllis-like flowers of unusual appearance. Fragrant and beautiful. Culture same as Amaryllis. 25c each; \$2.50 per dozen.

Good second size bulbs. 20c each; \$2.00 per dozen.

Lily of the Valley

(*Convallaria Majalis*)

The pips, or slender running root stalks should be planted in moderately rich, moist soil in shady situations. Planted from January to March they bloom from April to June. 3 for 25c; \$1.00 dozen; \$7.00 per 100.

Ornithogalum

(Star of Bethlehem)

Arabicum—Beautiful variety throwing a tall spike of numerous star-shaped flowers with a jet-black center and having a distinct aromatic perfume, decidedly pretty when grown in the garden. Large size. 3 for 25c; \$1.00 dozen; \$7.00 per 100.

GERMAIN'S GIANT FRENCH RANUNCULUS

(Persian Buttercup or Fair Maids of France)

The flowers of our selected strain are double with a graceful fullness suggestive of a full-blown rose. They keep fresher and longer when cut than any other flower we know. The colors are surprisingly bright and cheerful, appearing in many shades of rose, red, salmon, yellow, maroon and white. The accompanying picture gives some idea of their graceful form, but it is not possible to portray here their extraordinary brilliancy and variety of coloring.

Soak the roots in water for two hours before planting and cover with two inches of soil. They should be planted rather closely for the best garden display, 4 to 6 inches being an average distance apart.

Large Sized Roots—75c per dozen; \$5.50 per 100.

Extra Large Roots—\$1.00 per dozen; \$7.00 per 100.

Good Bedding Size—50c per dozen; \$3.50 per 100; \$32.50 per 1000.

Small Planting Size—Will bloom: first year. 50 bulbs, \$1.00; \$1.75 per 100; \$8.00 for 500; \$15.00 per 1000.

Montbretia

Montbretia Crocosmiaeflora—Long spikes of showy, orange-colored flowers, with yellow and purple markings in the throat. Price: 3 for 20c; 75c per dozen; \$5.50 per 100.

Oxalis

Handsome and graceful flowers varied in color produced in great profusion during winter and spring—suitable for hanging baskets, pots, window boxes, and borders. Plant them two inches deep in good friable soil from July to early fall.

Grand Duchess Mixed—35c per dozen; \$2.50 per 100.

Buttercup, Yellow—50c per dozen; \$3.50 per 100.

Bowell—A distinct and very attractive sort. The flowers are large and of a most brilliant rose color. 75c per dozen; \$5.50 per 100.

Snowflakes

Leucojum Vernum—Very similar to the English Snowdrop, but with much longer stems. Very early and fine for cutting. 3 for 25c; \$1.00 per dozen; \$7.50 per 100.

Sparaxis

These attractive flowering bulbs are quite novel in coloring, appearing in shades of red, rose or white, with distinct markings of maroon or black in the throat. They resemble the *Ixia* in form and habit and require a similar treatment.

Finest mixed. 3 for 20c; 75c per dozen; \$5.50 per 100.

Tuberoses, Ismene and Pancratiums [16] are noted for fragrance

TRITONIA

Tritonia

Beautiful low growing bulbous plants from the Cape of Good Hope. Flowers a bright orange scarlet. Easily grown in any good garden soil. Plant them three or four inches apart and two inches deep. 3 for 20c; 75c per dozen; \$5.50 per 100.

Tuberose

Double Pearl—Far superior to the old double variety, growing only about two feet high, with large individual double white florets, which have longer foot stalks than the old variety, rendering them more useful for cut flower purposes. Large bulbs. 3 for 25c; \$1.00 dozen; \$7.50 per 100.

Mexican Everblooming Single—Delightfully fragrant, very free flowering and of the easiest culture. 3 for 20c; 75c per dozen; \$5.50 per 100.

Vallota

Purpurea (The Scarborough Lily)—This is a South African representative of the Amaryllis family. It is a bulbous plant with large scarlet funnel-shaped flowers blooming in late summer. Established plants usually produce several flower trusses, each truss bearing from 4 to 9 large flowers. The bulbs of this plant are not plentiful and we are offering only a limited quantity at \$1.00 each.

Watsonia

Similar to the Gladiolus, even in culture. It grows about four feet high and produces a wonderful profusion of flowers which are in bloom about Easter time. Ready for planting in August.

Pure White (Obrienii)—Large snow white. 3 for 25c; \$1.00 per dozen.

Pink (Cerise-rose)—Bright deep pink. 3 for 25c; \$1.00 per dozen.

Clementina—Large and beautiful clear salmon pink. 25c each; \$2.50 per dozen.

Mrs. Ella Birney—Large lustrous rosy red. 25c each; \$2.50 per dozen.

New Hybrids in Choice Mixture—20c each; \$2.00 per dozen; \$15.00 per 100.

Zephyranthes

(Zephyr Flower, or Fairy Lilies)

Very effective for massing or borders, flowering in great profusion during spring and summer; also suitable for pot culture, a few bulbs potted in the fall will give a fine display during the winter.

Alba—Pure white. 10c each; 75c per dozen.

Rosea—Rose pink. 10c each; \$1.00 per dozen.

Prepared Bulb Fibre

Germain's prepared fibre is becoming more popular every season. It is far more convenient than potting soil when planting bulbs indoors, and replaces to advantage the pebbles used in growing Chinese lilies, etc., in bowls as it contains plant food which stimulates the plant and improves the blossoms.

No drainage is needed, consequently any receptacle may be used and bulbs will bloom splendidly in a jardiniere, lily bowl, or dish having no perforation whatever in the base. This eliminates any danger of water and soil running through on furniture, floors, or carpets. The material is clean and free from any odor.

Plant bulbs as you would in soil but do not press the fibre too firmly, nor fill the bowl too full. Keep moist but not too wet or sodden. Start the bulbs in a dark, cool place and bring to the light when sprouted an inch or so. Hyacinths, Narcissus, Chinese Lilies, Tulips, Freesias, Crocus, etc., are grown to perfection in this way.

Price: Packet (enough for 6 or 7 inch bowl) 15c; per lb. 25c.

GERMAIN'S CALIFORNIA FLOWER SEEDS

FOR AUTUMN AND WINTER SOWING

Success in gardening is due primarily to the proper selection of the seeds, bulbs and plant materials used. In the flower garden the best results can be obtained only when seeds of known quality and reliability are planted.

In the production of flower seeds of the highest quality much depends upon the weather conditions during the maturing and harvesting periods. For this purpose the climate of California is unrivalled. As a result and because of the excellence of the strains which have been developed here in all the leading species such as Asters, Zinnias, Sweet Peas, etc., California flower seeds are proclaimed the finest and most dependable in existence.

The selection offered in the following pages includes a number of the most prominent and popular sorts most of which will bloom in winter or early in the spring if sown in late summer or fall in our climate. Even in Eastern states fall sowing of hardy annuals and perennials is becoming a current practice! If planted just prior to the first heavy frosts and allowed to winter in the ground they produce larger, sturdier plants and the blooming season is materially advanced. Alyssum, antirrhinum, calendula, candytuft, Centaurea, Larkspur, Nemophila, pansies, petunias, and dozens more may be fall-sown in cold climates with excellent results.

SNAPDRAGON

(*Antirrhinum*)

Beautiful subjects for perennial borders and beds. They are easily grown in any garden and frequently flower the first year if sown early in the spring.

2542 Carpatia (Carpathian Harebell). Clear blue, splendid for edging; 1 foot.	FER FKT.
2541 Pyramidalis (Chimney Bellflower). Blue. A tall stately perennial, 4 feet in height.	½ oz. \$.10

CALENDULA

(Pot Marigold or Winter Marigold)

One of the best and showiest of free flowering annuals and an "all year flower" in California. In colder climates it is an excellent pot plant for winter blooming. As a garden plant it is very effective in solid beds, borders, etc., and as a cut flower it has remarkable keeping qualities. It is of the easiest culture. Height 18 inches.

Price of the above varieties 10c per pkt.

Collection: One packet each of six colors, 50c.

DOUBLE CORNFLOWER

(Centaurea Cyanus)

An old favorite known also as Bachelor's Buttons, blue bottle, bluet, etc. One of the hardiest of annuals succeeding anywhere and responding quickly to what little care and cultivation may be bestowed upon it. The double sorts listed below are greatly improved both in size, type and range of color and are not to be compared with the old single strain.

2624 Germain's Extra Double Deep Blue. One of the finest blue annuals in cultivation. Flowers very large, fully double, oz. 60c.	FER FKT.
2626 Extra Double Rose Pink. Oz. 60c.	
2627 Extra Double Pure White. Oz. 60c.

Price: Any of the above sorts 10c per pkt.

2642 Centaurea Americana (Basket Flower). A native species of great beauty, growing to a height of 3 to 3½ feet and excellent for cutting. Large Lilac flowers.	FER FKT.
	\$.10

GERMAIN'S CHOICE CINERARIAS

It would be hard to find a flowering pot plant or bedding plant of more resplendent beauty than the Cineraria. It produces gorgeous spikes of large blossoms in the most vivid shades during the late winter and early spring and delights in a cool shady location succeeding wonderfully well even outdoors in Southern California. The seed should be sown in summer or early fall in seed pans.

2704 Germain's Giant Exhibition Strain. This is by far the most beautiful and finest strain we have seen. The flowers of enormous size are borne on sturdy plants about 18 inches in height. The colors range from white and light pink through rose, scarlet and purple, to deep crimson and royal blue.	FER FKT.
2700 Choice Hybrids Mixed. Very beautiful large flowering strain imported from the best European sources.	.50
2705 Stellata (Star Cineraria). A very popular strain producing innumeral star shaped flowers of good size and in a fine range of colors.	.25

DELPHINIUM

GERMAIN'S NEW GIANT CALIFORNIA HYBRID DELPHINIUMS

(Double Extra Large)

FER FKT.

- 2834 We recommend this strain above all others for its tall robust growth and heavy foliage and the extraordinary size and exquisite color variations of the flowers. It has no rival in California gardens. The plant itself is handsome and decorative and a group of the stately clumps in full bloom is a sight not easily forgotten. The colors range from the tenderest opal shades to the deepest royal purple, intermediate tones including delicate mauve, rose, lavender and lilac tints, many exquisitely blended. Offered in packets only at.....\$1.00

NEW HOLLYHOCK STRAIN

- 2829 This striking type is the result of several years of painstaking re-selecting by a noted California Hybridizer. The flowers are large, fully double, well-placed on long, pyramidal spikes; their sturdy growth and general appearance reminding one of a Hollyhock, hence the name. The color range is most pleasing and we strongly recommend it to all who prefer the bright and lighter shades.....50
- 2825 **Delphinium Belladonna** (California Strain). No summertime visitor to California can fail to see this exquisite flower, for every flower store in Southern California displays huge baskets of it through the major part of the season. It is indeed the cut flower "par excellence" among Delphiniums. We have been told that our California strain of Belladonna is of a purer turquoise blue; it is undoubtedly very lovely. The plant grows to a good height, blooms abundantly and is worthy of a place among the best in every garden.....25
- 2827 **Delphinium Bellamosum**. A deep royal blue variety. It is said to be a hybrid between the foregoing and Formosum, but is perhaps a more vivid and intense blue. It has the tall habit and profuse growth of Belladonna and is the finest of the dark blue sorts.....25
- 2832 **Gold Medal Hybrids**. Improved double flowering Hybrids. The plants grow to 5 feet in height and produce large full flowers in a great variety of delicate colors, especially in the lighter shade of blue.....15

IMPROVED ENGLISH HYBRIDS

(Re-selected from Original Importations)

Selections made from many excellent Delphinium varieties recently imported from England have given rise to this improved strain of English Hybrids. They have proved exceedingly successful in California and produce an abundance of flowers of great beauty. It is a strain we can heartily recommend, knowing that it cannot fail to give great general satisfaction.

This strain is now available also in separate shades which are offered below:

- 2824 **Deep Blue Shades**. Rich velvety purple and blue.
2826 **Mid Blue Shades**. Lovely violet and light purples.
2839 **Light Blue Shades**. Delicate turquoise and azure blue.
2840 **Pastel Shades**. Exquisite blendings of mauve lavender, light blue, etc.
2831 **Improved English Hybrids Mixed**. A superb mixture containing the full range of color.

Price: Any of the above 25c per pkt.

DIMORPHOTHECA

(African Orange Daisies)

These are among the best winter flowering annuals. If started in September they begin to bloom in January. The bright daisy-like flowers appear on stems about a foot high and cover beds and borders with a mass of bloom.

- 2891 **Aurantiaea**. Bright Orange. $\frac{1}{4}$ oz. 50c.....\$.10
2892 **Finest Hybrids Mixed**. Colors range from white, cream and salmon to deep orange. $\frac{1}{4}$ oz. 50c.....10
2893 **Golden West**. Superb Golden Yellow. $\frac{1}{4}$ oz. 65c.....10
One packet each of the 3 sorts for 25c.

ESCHSCHOLTZIA

The Golden Poppy of California, a native of our valleys and hillsides, has become one of the favorite garden annuals throughout the world. Many new shades have been obtained and the existing flowers have been greatly improved in size and color through cultivation and selection.

They thrive in any garden soil and should be sown where they are to bloom thinning the plants to 6 or 8 inches apart. Height 1 to 1 $\frac{1}{2}$ ft.

Price of all the above per packet 10c.

GYPSOPHILA

(Baby's Breath)

The Gypsophilas in both the annual and perennial varieties are very popular for mixing with other flowers. The light feathery sprays of tiny white flowers are exceedingly graceful. The annual strain may be started at intervals throughout the year and should be sown where the plants are to bloom. The perennials require somewhat longer to come into bloom, but once established they furnish quantities of flowers each season.

LARKSPUR

(Annual Delphinium)

Old time favorites as they are, there are few annuals in our gardens today to equal the Larkspurs' usefulness and charm. The double stock-flowered strain here offered is a note-worthy improvement on the older forms. The plants are heavily branched, grow to a height of 3 feet or more and produce a continuous succession of bloom from early summer until fall. Invaluable for summer bedding and border planting, they are also one of the most dependable sources of cut flowers over a period of months. Sow in the open in early spring or fall.

Pansies

Pansies are such universal favorites and they are so well beloved by all who take an interest in gardens that a little special care in growing them will be well repaid by the admiration of your friends and satisfaction to yourself.

First of all a good strain must be used—that is all important. The best pansies are shy seeders, which explains the relatively high cost of better pansy seeds. But this small increase in price will seem very insignificant when the results are seen.

SWEET PEA NOVELTIES FOR 1929

(Illustrated in color on front cover of this catalogue)

We take great pleasure in presenting this year four of the finest New Winter Flowering Sweet Peas we have ever offered. These four varieties stand supreme in their individual color class. They have exceptional vigor, size and blooming qualities, producing when well grown, four large flowers on a stem.

Blue Bonnet. Extra large, fine deep blue. The color is evenly distributed with not slightest trace of mauve. Pkt., 35c.

Valencia. The color is bright orange, but of a softer, more pleasing tone than existing varieties, and it possesses what others of this shade lack, immense vigor in growth. The stems are long, the flowers large and the vine itself exceptionally productive. Pkt., 35c.

Radiance. Rich deep rose bordering on red. The immense flowers appear in fours on long, strong stems and are produced in the greatest profusion. Pkt., 25c.

Majestic Rose. Immense brilliant rose pink. In vigor of growth, length of stem and size of bloom it surpasses all other early sweet peas. Pkt., 35c.

One packet each of the above four De Luxe Novelty Sweet Peas complete for \$1.00 postpaid.

VARIETIES OF RECENT INTRODUCTION

- 4244 **Monarch.** Immense lavender, very long stem. Pkt., 25c.
 - 4261 **Santa Barbara.** Mammoth deep orange. Extremely long stems, the queen of darker oranges. Pkt., 25c.
 - 4250 **Superior Pink.** Superb new pink. Pkt. 25c.
 - 4257 **Pink Charm.** Excellent light rose-pink, vigorous grower. Long blooming period. Pkt., 25c.
- One pkt. each of the above four varieties for 85c.

WINTER FLOWERING SPENCER SWEET PEAS

The principal advantage of this new type of sweet peas is their early flowering habit. They are especially valuable for winter flowering, but they are equally successful in spring and summer and flower several weeks in advance of the Spencer if planted at the same time.

- 4201 **All White.** Giant white. Splendid cut flower.
- 4202 **Amethyst.** Royal purple of large size and perfect form.
- 4204 **Asta Ohn.** Lavender, delicately tinted mauve.
- 4205 **Aviator.** A superb dazzling crimson. Large and free flowering.
- 4208 **Blue Bird.** Fine deep blue.
- 4211 **Blue Picotee.** White daintily edged with bright blue.
- 4216 **Chevalier.** Glowing deep rose color, large and long stemmed.
- 4218 **Columbia.** Large wavy pink and white. Beautiful cut flower variety.
- 4219 **Cream.** Rich cream color.
- 4223 **Embers.** A vigorous and free flowering bright salmon Orange.
- 4225 **Fair Maid.** Delightful shade of delicate blush pink.
- 4227 **Fire King.** Showy variety, well formed and of good size; deep Orange Scarlet.
- 4232 **Gorgeous.** Soft salmon rose. Beautiful and pleasing shade.
- 4229 **Glitters.** Glittering cerise. Bright and cheerful; a remarkably fine variety.
- 4233 **Grenadier.** The most brilliant scarlet.
- 4235 **Harmony.** Splendid large lavender. Unusually clear color.
- 4238 **Helen Lewis.** Not new but always popular; rich rosy Salmon.
- 4237 **Hercules.** Mammoth rose. Strong growing, long stemmed.
- 4239 **Illumination.** Splendid salmon cerise. One of the finest bright red sorts.
- 4243 **Lavender King.** Clear lavender of perfect form, large size.
- 4247 **Miss Louise Gude.** Brilliant pink. A lovely variety of uniform shell-pink throughout.
- 4251 **Mrs. Kerr.** Exquisite salmon shade; best if slightly shaded.

HOW TO GROW BEAUTIFUL SWEET PEAS

Sweet Peas are deep rooting. The soil where they are to be planted should be dug to a depth of 18 inches. They are also gross feeders and a liberal amount of fertilizer will insure luxuriant growth and large flowers. Dig the fertilizer well under and see that the soil has settled and is firm before the seeds are planted. This result can be quickly obtained by tamping and watering. The seeds are usually sown in shallow trenches about three inches deep and covered only one or one and one-half inches. The balance of the earth is filled in after the young plants have grown a few inches. In certain heavy soils it is best not to cover the seed more than one inch at any time. Seeds may be spaced one or two inches apart in the trench and the young plants gradually thinned to six inches to prevent crowding.

A support for the vines must be provided early. They require a liberal amount of water. The flowers must be gathered often and should any seed pods form, these must be immediately removed to insure a prolonged blooming period.

In growing sweet peas out of season, the vines are protected with cheese cloth or other light material. If the cloth is stretched above the plants it provides sufficient protection against strong sunshine in summer and chilly nights in winter in California.

SUMMER FLOWERING SWEET PEAS

In California and all Southern States the Summer Flowering Sweet Peas may be started at any time during the fall or winter. They make a vigorous growth during the colder weather and begin flowering in the spring.

- 4370 **Summer Spencer Choice Mixed.** Contains a full range of the most desirable shades. Pkt., 10c; oz., 30c; ¼ lb., 90c; lb., \$3.00.

For complete list of varieties, see our General Catalogue.

VERBENA

The Verbenas are unrivalled for bedding, low borders, parkings, etc., blooming in California practically the entire year. They are perennial but grow very readily from seed, flowering in a few months after sowing. The seed may be started early in boxes and transplanted or out doors in April or May.

GERMAIN'S NEW GIANT HYBRID VERBENAS

Splendid new selections with individual flowers of surprisingly large size and exquisite colors. The plants are unusually vigorous and the immense flower trusses very freely produced.

3998	Hybrida Gigantea Firefly. Brilliant Scarlet with white eye.		25
4001	Hybrida Gigantea Lucifer. Intense Scarlet throughout.		25
4002	Hybrida Gigantea Mayflower. Bright rosy pink.		25
4003	Hybrida Gigantea Stellata Violacea. Deep purple with large white eye.		25
4004	Hybrida Gigantea Mixed. Giant sorts mixed. ¼ oz. 80c.		25

MAMMOTH VERBENAS

Beautiful large-flowered varieties extensively used for bedding, borders, etc., and keeping well when cut for table decorations, vases, etc.

4006	Mammoth Rose Pink.	4008	Mammoth Defiance — Scarlet.
4007	Mammoth Dark Blue.		
4009	Mammoth White.	4010	Mammoth Mixed.

Price: Any of the above, ¼ oz. 50c; per pkt. 10c.

VERBENA

4014	Erinoides (Moss Verbena). A distinct species much in demand for parkings; of trailing, spreading habit and low growth it soon covers a large area with a mass of light purple or violet colored flowers and continues in bloom almost indefinitely. ¼ oz. 60c.		15
------	--	-------	----

VIOLA

(Tufted Pansy)

There are few bedding plants so dependable, colorful and persistent in blooming over a long period as the tufted pansies. While the individual flowers are smaller than the regular pansy, they are produced in such profusion that the beds are a sheet of bloom through the entire season. Like the pansies they are gross feeders and thrive in light but rich soil.

4022	Blue Perfection. Clear Light Blue. ¼ oz. 45c.		15
4028	White Perfection. Large Pure White. ¼ oz. 45c.		15
4025	Purple King. Rich deep Blue. ¼ oz. 50c.		15

4030	Tufted Pansies in Choice Mixture. ¼ oz. 75c.		10

Collection: One packet each of the five colors, 60c.

PERENNIAL BORDER COLLECTION

Perennial plants are enjoying a well deserved popularity in our best garden circles. Germain's have grouped in this selection a number of these long and well beloved flowers which will enable you to grow quickly from seed a well balanced colorful perennial border. The varieties selected excepting perhaps one or two, are hardy anywhere in the country and have been given unusually fine results in California.

During the fall and spring the seeds may be sown in the open according to our diagram, or the varieties may be individually scattered among the existing shrubbery and flowers.

It is to be remembered that, while most perennials make a very good showing the first season, it is after they are established a year or two that the finest results are obtained.

THE COLLECTION INCLUDES:

1. Agnifolia Long spurred Mixed—(Columbine)
2. Arabis Alpina—(Alpine Rock Cress)
3. Agatheae Coelestis—(Blue Marguerite)
4. Campanula Calycanthema Mixed (Cup and Saucer)

GERMAIN'S CALIFORNIA Roses of Quality For 1929

Prepared for Fall Planting

The large size and superior quality of Germain's California Roses are well known to all those among our customers who have had the pleasure to grow them. For those who have not before planted our stock we call special attention to the great care exercised in their production and the special treatment they receive for fall planting.

In our climate roses thrive with bewildering luxuriance and produce a veritable riot of bloom.

It is this robust vitality, this urge to blossom instilled by the maturing sunshine of Southern California which has made this region the greatest rose growing section in America.

Germain's Roses of Quality are produced in our own fields comprising 50 acres in the heart of California's foremost rose district. They are two year old, first grade plants, grown and budded by our own experienced men, and dug when fully matured, every bush selected and inspected by our experts.

In preparation for the fall planting season these roses are carefully pruned and potted in gallon containers early in the spring and become perfectly established during the summer months. In securing and planting these now you receive large plants benefited by several months' extra growth and a fully developed root system.

Rose Culture Leaflet Free

We have prepared a detailed cultural leaflet on the rose which will be included with your order or sent to you free upon request.

How Fall Roses Are Forwarded

The roses offered in this catalog are large, two year old, field grown bushes, thoroughly established in gallon containers. They are in full growth, insuring immediate results and complete satisfaction. In order that growth may not be checked we advise forwarding them in their containers by express, purchaser paying charges on arrival.

Where parcel post shipment is desired we will be pleased to forward in this way, removing containers and part of the soil before packing. When so ordered, additional remittance covering postage must accompany the

order. Parcel post rates will be found on inside front cover of this catalog. Weight when packed averages 3 lbs. for each rose.

For nursery stock generally, including bulbs, we recommend having orders forwarded by express as our experience has shown this method to be most satisfactory, except on small packages.

Three New California Roses

Germain's New Climbing Rose, "The Clara Bow"

This wonderful new climbing Hybrid-Tea rose is one of the most notable introductions of recent years. It is unquestionably the most striking yellow climber we ever have had the pleasure to offer. The color is extremely rich and glowing.

It is a true deep yellow, intensified by a coral flush extending upward from the base of the petals and which is most pronounced on the outside of the buds. These are long and elegant in form and open into a large and fully double flower of exquisite beauty. The plant is exceptionally vigorous in growth and very free flowering. Attractive foliage of splendid texture and a rich glossy green in color, lends an added charm to this superior climbing rose. Price: Each, \$2.50.

Climbing Rose Marie. A perfect pink climbing rose. It is an exact counterpart of the superb bush variety "Rose Marie." The buds are long and pointed as in the original and the color is a faultless shade of pure, even rose pink. Price: Each, \$1.00.

**A
Wonderful
Rose**

**"THE
CLARA
BOW"**

**(Climbing
Hybrid-
Tea)**

Mrs. Lovell Swisher—A new California rose of unusual merit. It is undoubtedly one of the best American raised roses and will take a high rank among America's most popular roses. It is a remarkably vigorous grower, well furnished with excellent foliage and produces freely long, shapely buds with nicely reflexed petals that develop into good double flowers. The color of the buds is a deep coppery salmon at the base, merging to salmon pink at the tips. As the flowers expand the color deepens to a coppery tinge towards the center. They are delightfully tea-scented. Strong two year old plants. Price, \$1.00 each.

Superb New Hybrid Tea Roses

PADRE

The nine choice new Roses in this group are recent introductions by noted specialists in England, France and California. The varieties have been thoroughly tried out by us, and will prove a valuable addition to any rose collection, especially so because of the striking and novel shades which have been introduced.

Imperial Potentate—A splendid new rose of perfect form. Exquisite in bud and developing into large, very double, substantial flowers, very prolific and delightfully tea-scented. The color is a pleasing shade of deep, clear rose pink. It is one of the finest pink roses of recent years.

Mary Pickford—Named in honor of America's favorite screen artist. A California introduction of great merit. The color is novel and distinct, it is a beautiful orange yellow, stained on the reverse of the outer petals with salmon. In habit and growth it strongly resembles one of its seed parents, Souvenir de Claudius Pernet. The long, shapely buds are very freely produced and open to fully double good sized flowers. Delightfully tea-scented.

Mrs. W. C. Egan—The color is a lovely shade of two-toned pink, shading through deep flesh to golden yellow at the base of the petals. The contour of its long, pointed buds and the splendid formation of the open bloom with its glorious combination of colors, its fragrance and robust free flowering habit, will insure for this splendid variety a well deserved and lasting popularity.

Diadem—Large double blossoms of copper orange, tinted salmon and flame pink, freely produced on strong, well branched canes. A splendid variety for cutting. Foliage exceptionally good and hardy.

Etoile de Feu—Very distinct and attractive large, substantial gobular buds expanding to large, cupped, full to center flowers, of a rich flaming orange-pink with flame colored shadings, borne profusely throughout the season. The plant is of vigorous, free habit with attractive glossy foliage.

Felicity—A rose of peculiar distinction and high quality. The large cupped flowers are very freely produced on bushes of strong, vigorous habit; color a beautiful mallow pink, shading to cerise towards the edges of the petals, a rich, warm and attractive shade.

Shot Silk—One of the most beautiful of Alex. Dickson & Son's introductions which was awarded the gold medal of the National Rose Society of England. Color orange-rose, overshot with golden-yellow and flushed soft rose, bud of beautiful shape, the open flowers cupped with reflexing outer petals; growth vigorous and free with beautiful foliage. A sweetly scented rose of exceptional merit.

Sunstar—Deep yellow edged, veined and splashed crimson and vermillion, all colors that attract and vary in tone and intensity as the blooms develop; of medium size, highly scented. Awarded a gold medal by the National Rose Society of England.

Toison D'Or—The bush is of much branched and spreading habit, exceedingly free flowering and especially striking when grown in groups or beds. The new shade of its full, well formed flowers is distinctly different and artistic, being a pronounced orange yellow tinted and flushed with bronze.

Price: Any of the above, \$1.00 each.

Seven Grand Hybrid Teas

These are among the grandest and most popular roses in cultivation and no collection is quite complete without them.

Eldorado (Land of Gold)—In this we have an exact counterpart of Miss Lolita Armour, in the large sized flowers of distinct formation, vigorous growth and free-flowering habit and fragrance, but in color it is of the golden yellow that is peculiar to the climbing Rose Marechal Neil.

Hadley—Rich, glorious red, shading to velvety purple. Flower is double, of fine form, and very sweet. Practically every bloom comes perfect and it is a gem for cutting.

The Wonderful Prize Winning Rose "Los Angeles"—It is a rose without a fault. It is strong in growth, sending out enormous canes clothed with dark, handsome foliage. The foliage is mildew proof. It is hardy, deliciously fragrant and ravishingly beautiful. The buds are long and pointed and expand to a flower of glorious size. Its color is an indescribable tone of flame pink.

Hoosier Beauty—In our opinion, one of the finest red hybrid tea roses in existence. A rose of American origin and one which easily outdistances most others on the market.

Miss Lolita Armour—The color may be briefly described as follows: Chrome yellow at the base, shading to burnt orange and copper. The reflex of the petals is chrome yellow at the base, shading to bright salmon with brilliant copper suffusion. The flower is quite double.

Padre—An exquisite new variety in a color that is distinct from any other. The bud is long and pointed, borne on a strong stem with dark foliage. The color is a beautiful shade of coppery orange crimson with yellow shadings at the base of the petals.

Souvenir de Claudius Pernet—Both bud and bloom are clear sunflower-yellow, unstained by any other color, and are attractively formed. As the flower ages, the outside petals become light sulphur-yellow. A vase full of these glorious yellow blooms is like a bouquet of captured sunshine.

Fourteen New and Famous Roses

On this page we have listed many newer roses and varieties which are famous wherever good roses are grown. Every sort in the collection is a gem in form and color and worthy of a place of honor in every beautiful rose garden.

Price: Strong two year old plants, 85c each.

Constance—With real golden yellow flowers of medium size, of fair, globular form, Constance was a step in advance toward the perfect yellow rose. Bagatelle Gold Medal.

Edel—New. An enormous, bold, stately, well formed flower of great depth and quality. Color white with ivory shadings toward the base, passing to a pure white. The plant is a good grower and free bloomer.

Golden Emblem—Flower with high pointed center; tea perfume. Growth free and branching with splendid constitution, deep glossy green foliage, stout stalks and mildew-proof; extra perpetual flowering. One of the best yellow roses grown.

Isobel—Flowers of large size, single; scarlet-orange with clear yellow center and fading to a clear pink. A delightful rose in early summer and a continuous bloomer.

Lady Alice Stanley—A gem in every way; form, color, size, freedom of bloom and fragrance; in color a beautiful shade of coral-rose, shading to flesh-pink.

Louise Catherine Breslau—Astonishing in color. Salmon-red buds, opening to large flowers of orange-pink, glowing with yellow and copper. Double, but open cupped form when fully expanded.

Lulu—A new rose of English origin and considered by us to be the best of its kind. The color is a pure apricot, the buds being long and pointed, and quite similar to Irish Fireflame in form, but with twice as many petals.

ETOILE DE FEU

Mme. Segond Weber—Very beautiful in its bright salmon-pink flowers of almost perfect form, double, and fragrant. The stems are long, usually strong, and the plant is a very liberal bloomer.

Mrs. Henry Morse—One of the best pink varieties of recent introduction. Color two contrasting tones of pink with an underlying yellow glow, flowers large, full and very high pointed, fragrant and very free flowering.

Mrs. H. R. Darlington—A long felt want in a white rose. Buds are creamy white, but turn to pure white as the flower expands. A rose of delightful fragrance and beautiful form. A very desirable variety in every way. Awarded the Gold Medal by the British National Rose Society.

Souvenir De George Beckwith—A gaily colored Rose of recent introduction, combining salmon-pink and yellow shades. Flowers are large, globular, and quite lasting. It has proved to be a vigorous grower, producing an average number of exquisite flowers that are splendid for cutting as they keep well for a long time.

Souvenir de Georges Pernet—Flower of beautiful Orient red color, the end of petals cochineal carmine, shaded with yellow, very large, full and globular, oval bud carried on erect stem.

Souvenir de H. A. Verschuren—A new variety that is bound to attract a lot of attention. The color is deep golden yellow. Flowers are double and intensely fragrant. Stems are long and stiff. A very fine variety. Stock scarce.

Una Wallace—A beautiful shade of soft cherry rose without any shading. It is a very strong grower and a free bloomer, has excellent foliage and perfect form. It is exceedingly fragrant.

GENERAL COLLECTION OF BUSH ROSES

On this and the succeeding page will be found a complete selection of the best and most popular bush roses in general cultivation at the present time. All varieties here listed have been fully tested and have been found thoroughly successful.

There is not a variety included that we cannot recommend as possessing superior merit and all who wish a supply of extra choice flowers throughout the season can select with perfect confidence any number of varieties from this collection.

THE ROSES IN THIS COLLECTION ARE ALL 65 CENTS EACH

RADIANCE (Page 27)

Yellow Cecil Brunner or George Elger—The long sought for baby yellow rose. Size and habit is the same as Pink Cecil Brunner and this splendid sort is just as free flowering as the pink variety.

Grus an Teplitz—An ideal red Rose for hedge purposes. Blossoms constantly throughout the year. Color velvety crimson, has a splendid constitution, good clean foliage, strong, upright canes.

Irish Elegans—A beautiful single bush Rose of fine form, long and pointed. Color bronzy-orange to pink, shaded to apricot. An excellent Rose.

Jonkheer J. L. Mock—Enormous deep rose-colored blooms, equally beautiful in bud or open flower. Throws splendid canes. An ideal cut flower variety.

Kaiserin Augusta Victoria—A free, healthy grower, with splendid foliage and superb buds. Pure white, occasionally tinted with cream at the center of the open flowers.

Pink Killarney—A lovely shade of clear, soft pink. An ideal cut flower Rose, on account of its splendid bud formation. Deliciously fragrant.

American Beauty—One of the best Roses for the hot interior sections of the Western United States. Does magnificently in Arizona, Imperial Valley, etc. Throws especially fine, large blossoms during early fall and spring.

Betty—Copper Rose, shaded to golden yellow at the base. Buds long and pointed.

Cecil Brunner—This is the popular Baby Pink or "Sweetheart" Rose. In the past year or two this Rose has fairly jumped into popularity. It has become quite the rage. It makes a handsome miniature Rose, coming in sprays of three to five buds. Color, blush, shaded light salmon-pink; distinct and desirable.

Clara Watson—Pearly-white center tinted with pale rosy-peach; a free and continuous bloomer.

Columbia—A Rose which is popular with all cut flower buyers throughout America. In color a delightful shade of rose pink. In outdoor planting the bushes attain a moderate height and blossom freely through a long season.

Crimson Queen—Flowers large, of a bright velvety crimson, a strong grower and a continuous bloomer. Fragrant, and fine for cutting.

Duchess of Wellington—Intense saffron yellow, stained crimson. As the flower ages it becomes a deep saffron yellow. Blooms fairly full, buds long and pointed, very free flowering. Exceedingly fragrant.

Edward Mawley—A gold medal winner. One of the best dark velvety crimson Roses in existence. Color rich and lustrous.

Etoile de France or Star of France—A brilliant shade of clear red-crimson velvet, centering to brilliant cerise; large flowers on long, stiff stems; remarkably vigorous, free-blooming and hardy, with bronze-green foliage.

Frau Karl Druschki or White American Beauty—An ideal hardy white Rose, pure white in color. A remarkably vigorous grower. Free flowering to a degree. In our opinion, the best of all white Roses.

Gen. McArthur—One of the most popular and freest blooming of all red garden Roses. Color is a bright rosy crimson. It is not subject to mildew. Especially valuable for bedding purposes.

George Ahrends or Pink American Beauty—This is the wonderful "Pink American Beauty." The growth and make-up of the plants is superb, while the delicate pink color is unapproachable.

General Jacqueminot—A celebrated and much sought after variety, both for planting out and pot forcing; shapely buds and handsome blooms of bright, shining crimson, rich, brilliant, velvety and fragrant. Everybody knows and wants the "Jack" for its all around good qualities.

Irish Fireflame—A very large, single flower of deep maddery orange, opening from spiral buds, passing to rich satiny, old-gold veined with crimson.

Juliet—A wonderful combination of orange, scarlet, salmon, gold, etc. By way of color is one of the most sensational Roses ever introduced. Hardy in all sections. Especially fine in early Spring and late Autumn.

La France—Silvery-rose, with pink shades and satin-like petals of unsurpassable beauty; large, symmetrical and deliciously fragrant blooms from June until frost; hardy with protection.

Lady Ashtown—Rose-pink, shading to silvery pink, with touches of yellow at base of petals and a silvery-pink reflex; large, full, well-formed flowers with high pointed center.

Roses of Quality

GENERAL COLLECTION—Continued

Maman Cochet—Deep rose-pink, inner side of petals silvery rose; very double. Extra strong grower; fine bloomer. The finest Rose by far that has been introduced for a long time. We can confidently recommend it.

Mme. Butterfly—A sport from Ophelia which it closely resembles, but it is much better in color and blooming qualities. A refined bloom of salmon-pink suffused with apricot and yellow. A splendid cut flower variety.

Mad. Edouard Herriott—The famous Daily Mail Rose. Winner of the \$5,000 prize at the International Horticultural Exposition held in London, England. Buds coral red shade with yellow at the base. Open flowers of medium size, when fully expanded they take on a superb coral red color.

Mme. Abel Chatenay—Lovely shade of salmon pink, especially useful as a winter blooming Rose, in the warmer sections of the country. Buds and open flowers ideal as to form.

Mme. Caroline Testout—Satin pink. Flowers beautifully cup-shaped and intensely fragrant.

Mme. Leon Pain—Flower silvery flesh, center yellowish orange, large, full, sweet, elongated bud opening well. Growth vigorous, very floriferous. Very good.

Mrs. Aaron Ward—Deep rich Indian yellow. Stems constantly throw quantities of beautiful medium size buds. Splendid for cut flowers.

Mrs. Charles Russell—No other forcing Rose except "American Beauty" can compete with it when it comes to counting points. Stems three feet long, stiff and surmounted by grand, rosy-pink blooms of largest size and build.

Mrs. A. R. Waddell—Reddish apricot toned with salmon. An odd type in roses, the petals being somewhat loose and irregular in formation. As a garden Rose it is without an equal. Before the buds expand it is ideal for cutting purposes.

Old Gold—The tint is a vivid reddish-orange with rich coppery-red and coppery-apricot shadings.

Ophelia—A Rose which has made a record for itself as a cut flower variety, and is admired by everyone. It is perfect in form, large in size and of a most pleasing delicate tint of salmon flush with rose shadings.

Paul Neyron—The largest Rose in cultivation. Blossoms often eight inches in diameter. Rich, deep rose in color.

Radiance—A Rose of American origin and to our mind one of the best varieties in cultivation today. Buds long and pointed, expanding to blooms of enormous size. Similar in shape to Caroline Testout, but in color deep rich rose pink.

Red Radiance—A sport from the well known pink form. Flowers equal in size, but of a deep, rosy red color. Buds and open flowers of mammoth proportions. Deliciously fragrant; a constant and free bloomer. An ideal Rose for cut flower purposes.

ROSE MARIE

Rose Marie—Amongst the various Roses which we have had under trial, there are but few more meritorious than this magnificent American novelty. The buds are long and pointed, the petals large and well-rounded, and the open bloom ideal as to form. The color is a delightful shade of pure pink. Highly recommended.

Prince de Bulgarie—Silvery-flesh, very delicately shaded with salmon, long bud opening to full cup-formed flowers.

Ulrich Brunner—Color a rich cherry crimson. Produces its blossoms on the end of the canes. These may often be cut with a stem length of three to four feet. Especially fine during the early spring and late autumn months.

Winnie Davis—Brilliant apricot pink. Reflex has lighter tints giving it a very handsome appearance. Buds are long, of fine form. Foliage bright green. One of the best.

Sunburst—Orange-copper on golden-orange and golden-yellow, all intense shades, giving an extremely brilliant effect. A giant Rose, long stems, long, pointed buds, vigorous free and healthy, with splendid keeping qualities as a forcer and also an excellent bedder.

White Maman Cochet—An exact replica of the pink with the exception of color, which is pure creamy white with tinting of pink.

Wm. F. Dreer—The flowers, which are similar in shape to Los Angeles, and like that variety, beautiful in all stages of development, are at their best in the half-expanded flower. These, in expanding, are of a soft, silvery shell-pink, the base of the petals are a rich golden-yellow which, at certain stages of development, gives a golden suffusion to the flower.

CLIMBING LOS ANGELES

Eight New and Rare Climbing Roses at \$1 Each

Climbing Belle of Portugal—A new variety exceeding in beauty anything heretofore attained. Very vigorous grower, giving immense crops of bloom. Color a beautiful pearl pink.

Climbing Hadley—The well-known rose now in a climbing form. In color it is a deep velvety-crimson, retaining its brilliancy at all seasons of the year. The variety is double and buds are well formed.

Climbing Hoosier Beauty—A new rose, being the climbing form of the popular bush variety. Big torch-like blooms of dusky red, opening from glowing slender buds; quite double, with wide-spreading butterfly petals surrounding an exquisite center.

Climbing Kaiserin Augusta Victoria—A strong and rapid grower. Plants bloom continuously throughout the season, and the lovely white flowers are magnificent beyond description.

Climbing Louise Catherine Breslau—A really astonishing color with coral red buds, long and oval-shaped, opening to large double flowers of a remarkable combination of color, orange pink with a suffusion of yellow and copper.

Climbing Los Angeles—The ever popular bush Los Angeles now in a climbing form with the same extreme beauty of its well-formed flowers, alike attractive in bud and bloom, and showing shades of salmon-pink, apricot and orange almost impossible to describe.

Climbing Mrs. Aaron Ward—This is a most delightful rose, with its frilly petals and varying but always exquisite color. In cool seasons, and on first opening, it is rich, golden fawn, but in bright sunlight it quickly changes to soft pink and white. Flowers are not large, but gracefully formed, fully double, and quite fragrant.

Climbing Sunburst—A true Sunburst of vigorous climbing habit. An entrancing rose of exquisite color—brilliant orange—yellow in center, paling to buff. Can be recommended as a fine climbing yellow.

Climbing American Beauty—Crimson flower 3 to 4 inches in diameter; well formed, fragrant, strong grower, holds foliage late; blooms in May and June and occasionally during the summer.

Banksia Yellow—Small, double sulphur-yellow flowers in clusters. A vigorous grower.

Climbing Belle Siebrecht—This rose is known in England as Climbing Mrs. W. J. Grant. Imperial pink, large and beautifully formed. Sweetly perfumed.

Climbing Cecile Brunner—One of the strongest growing roses. Bright clear pink in color. Probably the most popular climber.

Dorothy Perkins—Too well known to need description. Beautiful deep pink flowers, borne in clusters. Vigorous and hardy.

Dr. W. Van Fleet—A rose which, on account of its dainty color and exquisitely shaped buds and flowers, has become a great favorite. The long, pointed buds are of a rich flesh-pink on stems 12 to 18 inches long; splendid for cutting. A strong, vigorous grower.

Climbing General McArthur—Bright crimson; notable for its fragrance. The buds are well shaped, the open flower usually full and of fair form. It blooms persistently and is especially fine in autumn.

Climbing Frau Karl Druschki or White American Beauty—A new rose destined to prove very popular. Flowers similar to the bush variety.

Gold of Ophir—A splendid climber, color combination of copper, carmine and salmon. Very popular and beautiful.

Climbing Grus an Teplitz—A perfect sheet of crimson when in bloom. It is the same as the bush Teplitz.

Climbing Pink Killarney—A vigorous climber, otherwise possessing all of the splendid qualities of the parent Killarney.

Climbing La France—A beautiful rose with its color of silvery rose and pink shades. Large and fragrant blooms. Similar to the bush variety.

Climbing Lady Ashtown—Similar to the bush variety. Color rose-pink, shading to silvery pink. Long pointed buds, very free flowering. Should be in every garden.

Climbing Lady Hillingdon—Identical with the bush variety except in habit. Long pointed buds of deep yellow, very free blooming.

Climbing Mme. Caroline Testout—Beautiful glowing pink, identical flower with its parent namesake; a rampant climber.

Climbing Maman Cochet—No rose we grow is so popular as Maman Cochet. Here we have an exact counterpart of that popular variety, except that it is a vigorous climber.

Paul's Scarlet Climber—It is a climber with splendid foliage and glorious vivid scarlet flowers. These are borne in wonderful profusion. A plant in bloom arrests the attention at once. Although only introduced a few seasons ago from England, it has already taken a high position amongst hardy climbing roses.

Silver Moon—Pure white with clear yellow stamens. A beautiful single rose, very large and free blooming. Glossy bronze green foliage.

Tausendschoen or Thousand Beauties—Bright clusters of blossoms varying in color from flushed white to rosy carmine. A vigorous, hardy climber with few thorns.

Reine Marie Henriette—Deep cherry-red. This rose takes the lead as a climber.

Climbing Souvenir of Wootton—Velvety red; same in bloom as the bush Wootton, from which it is a sport; vigorous; profuse with splendidly formed flowers.

Climbing White Maman Cochet—Here we have a climbing form that will become as popular a climber as its parent has as a bush rose. Grand, huge white flowers, tinged pink.

Climbing Winnie Davis—A sport from the bush variety. Similar to it in all characteristics. Apricot pink color and long buds of fine form.

GERMAIN'S CHOICE Perennial Plants and Roots

CANNAS

Cannas are the most easily grown and most useful bedding plants we have. They thrive in any soil, but respond quickly to good treatment. Spade the Canna bed to a depth of 2 feet, incorporating any fertilizer that may be handy, and keep the plants well watered. The results will be surprising. The following varieties have proved successful in every way:

The President—The greatest red canna. It is neither a crimson nor a scarlet, but a glowing pure red which colorists call vermillion. Green leaves, 4½ ft. 25c each; \$2.50 per dozen.

The Ambassador—Appropriately referred to as the "Bronze Leaved President," a wonderfully vigorous free-flowering brilliant cherry red. 5 ft. 25c each; \$2.50 per dozen.

Cheerfulness—Its name aptly describes the lively beauty of this charming variety. Bright fiery deep orange florets which are broadly bordered golden yellow. The large trusses are carried very erect over the massive foliage and are produced in great profusion. 4½ ft. 25c each; \$2.50 per dozen.

Rosea Gigantea—Large flowers in great abundance; the individual petals are often 2½ inches across, of a deep rich rose, almost a coral carmine. 4 ft. 25c each; \$2.50 per dozen.

Hungaria—An ideal pink bedder, flowers large in good sized trusses produced very freely, color a beautiful clear rose. 3½ ft. 25c each; \$2.50 per dozen.

Carmine Beauty—Bright deep carmine flowers produced freely in large trusses well above the heavy dark green foliage. 4 ft. 25c each; \$2.50 per dozen.

Dazzler—Masses of fire-red flowers heightened by an orange suffusion completely cover the dark green foliage of this splendid and most effective variety. 3½ ft. 25c each; \$2.50 per dozen.

Uhlberg—Entirely distinct. The flowers expand very fully and are of a soft rosy carmine, the throat of the flower is of a creamy yellow as are also the edges of the petals. 4½ ft. 25c each; \$2.50 per dozen.

Meteor—The rich crimson-red flowers form immense trusses of great beauty. They are borne well above the foliage and are produced in the greatest profusion. Green leaves. 5 ft. 15c each; \$1.50 per dozen.

La France—A beautiful shade of La France rose with a touch of cream in the throat. Green leaves. 4½ ft. 15c each; \$1.50 per dozen.

Queen Helene—Immense flowers of a rich golden-yellow spotted with vermillion. Green leaves. 4½ ft. 15c each; \$1.50 per dozen.

Mrs. Alfred Conard—A popular variety, producing freely large trusses of exquisite shell-pink flowers. Green leaves. 4 ft. 15c each; \$1.50 per dozen.

King Humbert—Perhaps the most widely grown of all cannas. The great orange-scarlet flowers surmount beautiful bronze foliage. 5 ft. 25c each; \$2.50 per dozen.

San Diego—A true orange without red suffusion. Rich and velvety. Bronze leaves. 4½ ft. 25c each; \$2.50 per dozen.

AGAPANTHUS

Umbellatus

Blue African Lily—Bearing clusters of bright blue flowers on stout stalks, similar to the Amaryllis in appearance and culture. Does well in sun or partial shade. 35c each; \$3.50 per dozen.

GERMAIN'S SELECTION OF PERENNIAL PHLOX

Amongst the various herbaceous perennials, there are but few plants which grow with the freedom and blossom over such an extended period as the various Perennial Phloxes. Our collection of these comprise many of the new French varieties, all of which are marvels of beauty.

B. Comte—A splendid shade of crimson purple.

Bridesmaid—Pure snowy white ground, with a crimson eye.

Baron von Dedem—Cherry red.

Michael Buchner—Pale lavender, strong grower.

Mrs. Jenkins—Immense flowered, tall, pure white.

Prof. Scheilemann—Lilac rose.

Rynstrom—A delicate shade of soft pink.

Isahey—A beautiful shade of salmon pink.

Pantheon—Clear deep pink blossoms with a faint halo in the center.

Siebold—Distinct shade of orange-scarlet with red eye.

Price: Any of the above varieties, 25c each; \$2.50 per dozen. The collection of ten complete for \$2.25.

HEMEROCALLIS

Day-Lily

Flava—(Lemon Lily). Flowers lemon-yellow, sweet-scented. Add color and charm to any garden, very free flowering, strong field division. 35c each; \$3.50 per dozen.

Fulva—Coppery orange, shaded crimson. 35c each; \$3.50 per dozen.

MOREA

Grandiflora—Handsome bulbous plants from the Cape of Good Hope. They are allied to the Iris and require the same treatment. The flowers resemble the Iris somewhat, but the standards are absent. In color they are white, shading to a light golden yellow in the center and with occasional touches of purple. 50c each; \$5.00 per dozen.

VIOLETS

Princess of Wales—This popular long stemmed and fragrant variety is considered the best sort, does equally well in sun or shade, pot grown plants. 15c each; \$1.50 per dozen.

Germain's Improved Japanese Iris

(Iris Kaempferu)

The latest improved varieties of this lovely flower obtained from Japan are marvelous in size and beauty. The flowers often reach a diameter of ten inches and the colors are most delicately blended and attractive, the petals being usually shaded, marbled or veined with contrasting tints.

Japanese Iris are very easily grown and form a striking permanent feature, either grouped in single beds, in the perennial border or at the edge of a pool or lily pond. Before planting enrich the soil and spade to a depth of 12 inches. They require a liberal amount of water, especially during the blooming season. It has been found effective and convenient to raise a four-inch ridge of soil around the beds, which may then be flooded whenever needed.

Iso-No-Nami—A suffusion of rose and blue over white deepened towards the gold blushed center to rosy lilac.
Koko-No-Iro—Royal purple with yellow center, radiating into lines.

Moniji-No-Taki—Variegated bright rosy crimson feathered in white, double.

Purple and Gold—Large double purple flowers, gold in center, often ten inches across.

Uchiu—Caerulean blue with golden center and white halo, standards white tipped blue.

Any of the above in strong field divisions 50c each
\$5.00 per dozen

GERMAN IRIS

Twelve Superb Varieties

The varieties offered below, together with the choice varieties described on the next page, form a splendid and complete collection of these lovely flowers.

Caprice—A perfect gem. Chinese violet with reticulations of white and deep purple.

Eldorado—Bronzy violet, reticulated and overlaid with bronze and passing to yellow.

Isoline—Lilac-rose suffused bronze; falls purple and bronze.

Jacquesiana—Standards bright coppery crimson, falls Maroon. Remarkable variety.

Golden Fleece—Large and beautiful variety, color clear golden yellow.

Gypsy Queen—S, bronze; F, deep purple, reticulated at the base. A very showy and attractive Iris that should be in every collection.

Honorabilis—S, golden yellow; F, rich deep brown. Especially fine for massing.

Loreley—Perfect flower, ultramarine blue, bordered and veined sulphur yellow.

Princess Victoria Louise—Standard sulphur-yellow; falls rich plum, bordered cream.

Prosper Laugier—A unique variety, bronzy drab and velvety blackish maroon with pencilings of brown and yellow.

Rhein Nixe—Splendid sort. Standards pure white, falls violet with white margin.

Sherwin Wright—A rich golden yellow without marking or shadings. The best yellow yet introduced.

Price: 35c each; \$3.50 per dozen.

GERMAN IRIS
GYPSY QUEEN

Germain's Superb German Iris

When mention is made of Iris in American garden circles the picture that is brought to mind is far too often merely that of the common purple flag, or at most one or two ordinary variations of it. But as the newer, truly marvelous improved varieties are becoming better known to the more enlightened amateur, an enthusiasm is gripping the country which will place the erstwhile lowly Iris among the queens of the modern American garden. We strongly urge all flower lovers who have not become acquainted with these superb new strains to choose from the selected varieties described below as many as their available garden space will hold. Such a collection presenting many tall and stately flowers often growing over four feet in height, yet of a texture so airy that the delicately tinted petals appear translucent in their iridescent loveliness, is a lasting joy to the owner and a delight to the eye of all flower lovers.

Iris Germanica

German Iris or Fleur-de-Lis

It is in this group that many of the greatest modern Iris are found. The structure of the flowers is Orchid-like in beauty and texture and their wonderful range of colors embraces all shades from pure white through delicate shades of Mauve, Old Rose, Lavender, Pale Yellow to Fawn, Bronze, Mahogany, Purple and Deep Blue. They succeed in any open, well drained, sunny location, with the rhizomes just covered with soil and require little care or attention.

Mother of Pearl

Standards and falls pale bluish lavender, with a faint creamy undertone. Large flowers of perfect form and exceptional substance. The creamy undertone of this exceptional substance often assumes the luster and iridescence which we see in the beautiful lining of many sea shells which produce Mother of Pearl. The plant is tall, a vigorous grower, and a profuse bloomer. The best Iris value of the year. \$1.00 each.

General Collection of Iris Germanica

- Agnes—S, white, frilled and shaded lilac; F, white lilac at base.
- Albert Victor—A great favorite. S, soft blue; F, beautiful lavender. Large and beautiful flower.

- Oriflamme—S, light blue; F, rich violet-purple.
- Othello—S, deep rich blue; F, dark velvety purple.
- Pallida Dalmatica—S, clear lavender-blue; F, deep lavender; very large; a superb variety. One of the finest of its class.
- Pasadena—An old favorite. Pure white.
- Queen of May—A very popular sort, charming light lilac pink in color.
- Stella—An even shade of light blue.
- Walhall—Standards, lavender; falls wine red.
- Zephyr—Very free flowering, lavender blue.

Price: Any of the above, 25c each; \$2.50 per dozen; \$18.00 per 100.

ORNAMENTAL SHRUBS, TREES AND VINES

All plants listed are of gallon size unless otherwise noted. Prices are F.O.B. Los Angeles. Allow three pounds each for weight when ordering by Parcel Post. Except on very small orders it will be found more satisfactory to have all plants sent by Express, customer paying charges on arrival.

ITALIAN CYPRESS

Abelia

Grandiflora—Free-flowering hardy shrub, 6 to 8 feet tall, with small, glossy green leaves. Flowers are tubular, almost an inch long, white flushed, lilac pink. Blooms profusely and continuously all summer. A very fine shrub. 75c each.

Acacia

Baileyana—A small, handsome tree with glaucous green foliage. Flowers in racemes 3 to 4 inches long, yellow. One of the most beautiful of the Acacias; highly recommended for street planting. 75c each.
Floribunda—Ornamental, with very abundant handsome flowers, valuable for lawns, parks, etc. 75c each.
Melanoxylon—A well known black Acacia, now so much used for sidewalk planting. Fine, strong plants. 75c each.

Aralia

Sieboldii—A dainty variety of Aralia with dark, glossy green foliage. It does best in partial shade. May be used also as a pot plant for interior decoration. Strong plants. 75c each.

Arbutus (Strawberry Tree)

Unedo—Handsome shrub with dark green foliage, delicate white flowers, followed in early winter by brilliant red strawberry-like fruit; edible. 75c each.

Buddleia (Butterfly Bush)

A beautiful hardy flowering shrub from China, bearing long spikes of exquisitely colored lilac flowers. They are produced on the ends of long shoots. When the plant is in full bloom it is a thing of striking beauty. 60c each.

Callistemon (Bottle Brush)

Showy flowering shrubs, thriving perfectly in California. Flowers in the exact shape of a bottle brush, which gives the common name. Will thrive in very dry locations with little care or attention. Callistemons are variable in color, usually red, but very frequently run to pink. 75c each.

Chorizema

Chorizema ilicifolia—Australia. 3 feet. An attractive shrub with slender drooping branches, holly-like leaves and orange red flowers in loose racemes. It makes a low dense mat of foliage and blooms throughout the winter and spring. 75c each.

Coprosma

Baueri—A splendid shrub of prostrate habit and brilliant, glossy green leaves. This is an ideal plant for banking against the bases of buildings, etc., or for covering banks. It is one of the handsomest of all foliage shrubs. 50c each.

Cotoneaster

Handsome shrubs of wide use in both the home grounds and public parks; leaves somewhat small, glossy and of varying shades of green; flowers minute, usually white or pinkish white; berries of many hues and colors varying from orange to bright scarlet. Unexcelled for grouping, corner effects and for edging large plantings of shrubby borders.

Pannosa—A very beautiful shrub of upright growth. Branches long, slender and slightly arching. Leaves deep rich green above and covered with silvery down beneath. Berries borne in great profusion in the fall are vermilion red. The branches loaded with berries can be cut and kept in water for weeks. 60c each.

Franchetti—A recently introduced Cotoneaster, bearing during mid-winter, immense quantities of brilliant orange berries. The plant is more or less drooping in habit. A splendid plant for the great Southwest. 60c each.

Microphylla—Low, flat, spreading, bright glossy green, very attractive. Covered in April with masses of tiny pink flowers and in the fall with minute, brilliant scarlet berries. The foliage also turns scarlet in winter. Fine for borders, rockeries or where a low, flat shrub is required. 60c each.

Dracaena

Dracaena Indivisa—Rather more common than australis, and a little hardier; foliage narrower and longer, and of a slightly faster growth. Ultimately reaches tree form with irregular, spreading branches. Small plants often used alone or with other plants in hanging baskets, tubs and porch pots. 75c each.

Diosma

Erioides—Often referred to as Breath of Heaven. Foliage exceedingly fine. Blossoms pure white, minute in character, but borne in great profusion. A shrub which should be in every garden. 75c each.

Cupressus (Cypress)

Arizonica—A handsome blue Cypress of Arizona, unequalled for dry land plantings. Gallon cans, 50c each.

Italian—This well known Cypress is largely used in formal gardens, etc. The plants are columnar in their habit of growth. 60c each.

Macrocarpa—This is the native Cypress found in the district around Monterey. A splendid variety for seacoast planting, invaluable for parkways, etc., commonly called Monterey Cypress. Flats of 100 plants, \$2.75. Gallon cans, 50c each.

Crateagus

Large shrubs adapted to most any soil and situation; admired for their bright berry-like fruits (which remain on the plant until spring), white flowers and firm foliage. The genus is closely allied to the Cotoneasters, but is easily distinguished by their thorny branches.

Lalandi—Highly recommended. A splendid, free growing shrub that bears in fall great masses of orange-like berries. 75c each.

Crenulata—Brighter in the berries than the last named, a magnificent shrub, 75c each.

Yunnanensis—China. 8 feet. A variety of *Pyracantha crenulata*, but a more vigorous grower, with larger leaves. In the fall and winter there is nothing more striking than this plant with its dark glossy green foliage acting as a background for great masses of red colored berries. 75c each.

Eugenia

Myrtifolia—A splendid, bushy, tall growing shrub, closely related to the Myrtle; can be trimmed to any desired shape. Very handsome. 75c each.

Hookeriana—Similar, but larger foliage, more spreading habit and purple berries. Needs more trimming to attain compact specimens, but makes a very attractive shrub, especially when in fruit. 75c each.

ORNAMENTAL SHRUBS, TREES AND VINES---Continued

Genista (Broom)

A fast growing group of shrubs which brighten up the landscape with their brilliant masses of yellow pea-shaped flowers; valuable as a contrast to solid green shrubbery; unusually hardy and drought resistant.

Genista canariensis—"Canary Broom." A free flowering shrub attaining a height of from 6 to 8 feet. The leaves are small and the bright yellow flowers are produced in great profusion. 60c each.

Genista fragrans—(*Cytisus racemosa*). "Sweet Broom." Canary Islands. Six feet. A delightful spring and summer flowering shrub with many small grass-green leaves and absolutely covered when in bloom with pea-shaped bright yellow flowers. The best of all the Brooms for general use. 60c each.

Genista hispanica—(*Spartium junceum*). "Spanish Broom." Spain. Eight feet. A strong, fast growing shrub with many slender, bright-green branches almost devoid of leaves. Bears large, pea-like, bright yellow flowers very sweetly scented. Hardy, heat loving and drought resistant. 60c each.

Hydrangea

One of the most popular shrubs in existence and grown practically all over the world. Produces immense trusses of pink flowers. By the addition of iron to the soil in which they are growing the flower will take on a pale blue cast. 50c each.

Lagerstromia (Crepe Myrtle)

Indica—One of the handsomest of all deciduous flowering trees. Flowers are borne in large racemes at the tips of the new growths during the early Summer. The color is a delightful shade of bright pink. When the trees are in bloom they are simply a mass of color. Strong plants. \$1.00 each.

Laurustinus

An excellent shrub that blooms early in the spring, makes a wonderful hedge plant, or for massing with other shrubs. 60c each.

Lemon Verbena

"Lemon Verbena." A fast growing shrub with delightfully fragrant foliage; bears minute flowers in delicate pyramidal spikes. 60c each.

Leonotus

Leonurus—"Lion's Tail." A very showy soft wood shrub with hairy stems and brilliant orange-red, tassel-like flowers at the joints of the stems. Very fast growing and a novel, distinctive shrub. 50c each.

Leptospermum

Laevigatum—A lovely Australian shrub with long, weeping branches, densely foliated with small whitish green leaves. During the Spring the plants are literally covered with minute white flowers. Attractive both in and out of bloom. 75c each.

Ligustrum (Privet)

Nepalense—This is the most popular plant for hedges, can be trimmed to any desired height. Flats of 100 plants, \$2.50. Gallon cans, 50c each.

Golden Privet—Same as above in form with beautiful yellow and green foliage. Flats of 100 plants, \$3.50. Gallon cans, 50c each.

Myrtus (English Myrtle)

Communis—A splendid dwarf evergreen plant suitable for borders or hedges, also of equal value if allowed to grow into specimens. Bears masses of fragrant pure white flowers. Gallon cans, 75c each.

Communis Microphylla—Identical with the preceding, but with much smaller leaves. Gallon cans, 75c each.

Nandina

Domestica—This shrub from Japan makes one of the most beautiful of all lawn specimens, or it may be treated as a potted plant for indoor ornamentation. The leaves take on rich Autumn colors in the Fall, of red, copper and brown, at which time it is exceedingly attractive. Extra fine plants, 75c each.

Oleanders

These make beautiful specimens in a short time and are practically ever-blooming. They will stand several degrees of frost without injury. Of splendid value for such locations as Arizona, Texas, and generally speaking, the Southwest, where the temperatures do not go too low. We can offer them to you in the following colors: Cerise, Salmon, White, Pink. Price, 60c each.

Pampas Grass

A very ornamental plant bearing silvery white plumes; valuable for certain locations on lawn, among other shrubbery or around pools. 60c each.

Philadelphus (Mockorange)

Very handsome and vigorous growing shrub with large foliage and beautiful flowers, which are produced in great profusion the latter part of April and early May.

Coronarius—(Sweet Mockorange). Flowers pure white, very sweet, produced in great profusion. 60c each.

BUDDLEIA (Page 32)

Pinus

Halapensis—This handsome Mediterranean pine tree is especially adapted to planting in California. It forms a dense growth, withstands drought to a marked degree. Owing to its value we have grown a very large stock of this variety. 75c each.

Insignis—The well known Monterey Pine. A rapid-growing variety with handsome, dark green needles. 75c each.

Pinus Canariensis—"Canary Island Pine." One of the most beautiful and permanent of all pines for California. Extremely long needles in large tufts. The new growth is silvery white. Extremely fast growing. 75c each.

Pittosporum

The bright, glossy green foliage of the various Pittosporums, coupled with their delicately fragrant blossoms, places them in the front rank of medium high garden shrubs. We offer two of the very best.

Undulatum—Handsome undulated foliage, light green in color. Flowers delightfully scented. Strong plants. 60c each.

Tobira—Dark green, glossy foliage. White fragrant flowers. 60c each.

Phoenix (Date Palm)

Phoenix canariensis—"Ornamental Date Palm." Canary Isles. This is easily the best and most popular palm for general planting in California and the Southwest. It thrives under all sorts of conditions, is quite hardy, and grows very rapidly. Its dense, immense crown of beautifully curving leaves, each 15 feet long and of a very pleasing dark green color, and its stately and rapid growth combine to make this species an ideal palm for street, avenue, park and lawn. Can be grown indoors in colder sections. 75c each.

ORNAMENTAL SHRUBS, TREES AND VINES—Continued

CLIMBING AND TRAILING PLANTS

Ampelopsis

Well known deciduous vines climbing by tendrils. All assume most gorgeous autumnal tints.

Quinquefolia (Virginia Creeper)—Very well known. Leaves large with five leaflets. Berries dark purple with a bloom, borne on red stalks. Foliage colors a most intense scarlet early in the Fall. 75c each.

Veitchii (Boston Ivy)—Perfectly distinct from Virginia Creeper. Leaves on very young plants are divided into three separate leaflets, but on older plants are merely three-lobed. Foliage is dense and very glossy. Tendrils furnished with small discs, which adhere tenaciously to brick, stone or even wood. Foliage turns red in Fall. 75c each.

Bignonia (Trumpet Flower)

These beautiful plants are deserving of more attention than they have received. Their flowers are large, showy, of the most delicate shades and colors. For covering walls, rocks, trellis work, or for climbing trees they have few equals. We consider the following the best varieties:

Cherere, Red. **McKennii, Pink.** **Capensis, Orange scarlet.** **Tweddiana, Yellow.** 75c each. **Radicans, Orange red, very hardy.** 60c each.

Ficus

Repens—Extremely handsome evergreen climber with about same habit as the well known Boston Ivy. It adheres closely to walls by its clinging tendrils. Leaves are small, dark green and heart-shaped. Perfectly hardy. Plants in pots. 20c each.

Hedera

English Ivy—The well known species with very dark green, leathery leaves, usually about five-lobed. Old vines have greenish flowers and black berries in clusters on lower part of plant. small plants, 15c each; \$1.50 per dozen; gallon cans, 50c each.

Jasmine

Officinale—Slender vine with finely divided pinnate leaves and numerous small, white, fragrant flowers. Summer bloomer. Partly evergreen. 75c each.

Primulinum—A recent and very valuable introduction. It is not only the fastest growing Jasmine, but the quickest-growing climber. Flowers clear primrose yellow. 75c each.

Honeysuckle

Growth extremely strong. Old leaves dull green. New growth is reddish purple on branches and backs of leaves. Flowers white inside, purplish outside. One of the very best vines where rapid growth and a dense mass of foliage are desired. 50c each.

Muehlenbeckia (Wire Vine)

Muehlenbeckia complexa—"Maiden Hair Vine." Rapid growing, twining vine, with dark wiry stems and tiny round leaves. Strong plants. 75c each.

Wistaria

One of the prettiest climbing vines. Has long racemes of pea-shaped flowers that almost cover the plant in early Spring. Grafted plants in white and purple. \$1.50 each.

FERNS

Asparagus Ferns

Plumosus—Used extensively for mixing with cut flowers, grows best in the shade, responds to good rich soil. 20c each; \$2.00 dozen.

Sprengeri—Used for hanging baskets, etc. 20c each; \$2.00 dozen.

Sword Fern

A great favorite for outside planting as well as for pot culture. 20c each; \$2.00 dozen.

Woodwardia Fern

The Giant Brake or mountain fern grows to a height of 6 feet, requires a moist shady place for best results. 50c each.

Plumbago

Capensis—A tall growing, drooping shrub that is covered practically the entire year with sky blue flowers, does best in a sunny position. 60c each.

Veronica

A compact growing class of shrubs that are hardy and adaptable to sun or shade.

Decussata—Rather dwarf. Leaves medium sized and closely set. Flowers large, violet blue. An excellent plant. 60c each.

Imperialis—Growth strong and rather spreading. Leaves large, dark green with purple margins and midribs. Flowers amaranth red. Very handsome. 60c each.

Weigela (Diervilla)

Hardy, profuse-blooming shrubs of spreading habit. These are among the showiest of the garden shrubs, producing in early April great masses of showy flowers.

Rosea (Pink Weigela)—Flowers are light pink; compact grower, free bloomer. 75c each.

Eva Rathke—Flowers red. 75c each.

"With the coming of the Southland breezes . . . these wilful shrubs burst into a pageant of bloom."—Hugh Findlay.

VIBURUM OPULUS STERILE

Punica (Evergreen Pomegranate)

Punica granatum nana—"Dwarf Evergreen Pomegranate." A miniature evergreen form of the Pomegranate with small fresh green foliage, and covered in spring and summer with bright scarlet flowers and in fall and winter with crimson fruits. Excellent for small specimens and makes a wonderful hedge. Rather tender. Gallon containers, 1 to 2 feet, 75c each.

Spiraea

Medium-sized shrubs of free blooming habit, varying in appearance, color of flowers, and manner of blooming. All have very small flowers borne in compact clusters of different forms. Do well in any ordinary good garden soil.

Anthony Waterer—Dwarf but erect form, growing about three feet high. Flowers bright crimson, in flattened heads at ends of branches. Blooms about midsummer. 60c each.

Van Houttei—Branches arching and drooping with the weight of the flowers, which are borne so freely in Spring as to cover plant completely with a mass of snowy bloom. Very beautiful and extremely hardy. 60c each.

Syringa (Lilac)

These old-fashioned shrubs have been popular for ages. The first blooms appear here the latter part of March. The Lilac will give the best results in fertile soil, moderately moist, but well-drained. Budded plants. Purple and white. \$1.00 each.

Tritomas (Red Hot Poker)

Pfitzeri—A constant blooming variety with spikes four to five feet high. Color a rich shade of orange scarlet. 35c each.

Viburnum (Snowball)

Opulus Sterile—The well-known eastern Snowball does equally well in California, blooms in the early Spring. Beautiful white flowers. 75c each.

VEGETABLE SEED LIST

There are a number of vegetables that can be planted in the fall. We recommend the following varieties knowing that you will obtain excellent results if the seed is planted and cared for.

For descriptions, planting instructions and complete list of Vegetable Seeds, see our general catalogue. A pamphlet giving cultural directions for any of the varieties listed may be had on application.

All prices listed are postpaid.

PREMIUM GRASS SEEDS

FOR LAWNS, ESTATES, PARKS, ATHLETIC FIELDS AND GOLF COURSES

A bright, velvety, well-groomed lawn is the first essential of an attractive home. Furthermore, it adds hundreds of dollars to the value of a home. However, just sowing any kind of grass seed will not produce a lawn of this character. The highest grade of re-cleaned grass seed must be planted if good results are to be expected. If chaffy, light weight and impure seed is sown, a ragged and weedy lawn will result. If heavy weight, extremely pure and thoroughly re-cleaned seed is sown, your lawn will be a thing you will be proud of. Germain's "Premium" Lawn Grass Seeds are thoroughly re-cleaned in our own specially built grass seed cleaning plant, which is the most complete in the West—and are therefore extremely pure, high in germination and free from weed seeds.

VARIETIES OF LAWN GRASS SEED

Kentucky Blue Grass Seed (*Poa Pratensis*)—Premium Grade—Grown from specially selected strains in carefully selected fields, and thoroughly re-cleaned to remove chaff, impurities and weed seeds. This seed will give the highest satisfaction. Plant at the rate of 1 lb. to 200 sq. ft. Price per pound, 75c; 10 lbs., \$7.00 postpaid.

White Clover (*Trifolium Repens*)—Premium Grade—We import our Premium grade of White Clover Seed from European sources, where the finest grades of White Clover Seed are grown—and then thoroughly re-clean this seed to make doubly sure that it is of the highest quality. Plant at the rate of 1 lb. to 200 sq. feet. Price per pound, 80c; 10 lbs., \$7.50 postpaid.

Kentucky Blue Grass and White Clover Mixed—This favorite lawn seed mixture is made up of Premium Grade seeds, mixed in the right proportion. We recommend this mixture as being the most satisfactory in general, for making new lawns. Plant at the rate of 1 lb. to 200 sq. feet. Price per pound, 75c; 10 lbs., \$7.00 postpaid.

Australian or Perennial Rye Grass (*Lolium Perenne*)—While Rye Grass does not produce a lawn of as fine a texture as Blue Grass and Clover, it is extremely hardy, requires less fertile soil and withstands more hardships. It is used to a great extent in Arizona and to an increasing extent in Southern California. Plant 1 lb. to every 200 sq. feet. Price per pound, 35c; 10 lbs., \$3.00 postpaid.

Pacey's or "Pacific" Rye Grass (*Lolium Perenne Pacey*)—Similar to Australian Rye Grass only it produces a finer blade and is therefore often preferred to the latter. Price per pound, 35c; 10 lbs., \$3.00 postpaid.

"Poa Bulbosa" or Bulbous Blue Grass—This variety cannot be planted alone, but should be planted in lawns where Bermuda Grass is present, for it produces a beautiful green lawn in the winter months, from about October 1st to the end of April, when the Bermuda Grass lawns in Southern California turn brown. However, in the warm summer months the bulbets remain dormant in the soil—growing again in the fall. The planting of *Poa Bulbosa*, therefore, results in a green lawn the year round. Write for our special pamphlet on this variety. Where sown on established lawns, mow as closely as possible, rake lightly and broadcast *Poa Bulbosa* at the rate of about 3 to 5 lbs. to 1,000 sq. feet. The surface should then be rolled and kept watered until the grass is well established. Price of *Poa Bulbosa*, per pound, \$2.50; 10 lbs., \$22.50 postpaid.

BENT GRASS SEEDS

(For Fine Lawns and Golf Greens)

Bent Grass Seeds for lawn purposes have been coming into some popularity during the last few years, especially for larger lawns and estates, where much care and attention is given to the lawn. Bent Grasses produce a very fine, beautiful and velvety lawn, but must be cut at least twice a week, as otherwise they will produce a rank and clumpy growth. Bent Grass lawns also should be top-dressed every four months. Mow the lawn closely, mix equal parts of good, rich soil and GROZ-IT brand Sheep Manure and rake into the grass with the back of a rake, covering the grass not over one-quarter inch. Bent Grass Seeds should be sown at the rate of about 4 pounds to every 1,000 square feet. Write for our special pamphlet on Bent Grasses—it gives full details regarding the planting of and caring for Bent Grass lawns.

Of the many varieties of Bent Grass Seeds, we have selected the following as the most satisfactory for lawns in Southern California:

Seaside Bent (*Agrostis Maritima*)—also often called Coos County Bent, because most of the seed is grown in Coos County, Oregon. This is a true creeping bent, and makes a very smooth, uniform lawn. Extreme care must be taken in purchasing this seed, as there are so many swamp grasses and other weed seeds in the district where the seed is grown. Our stock of Seaside Bent is carefully re-cleaned in our own specially constructed seed cleaning plant, and is extremely pure and free from weed seeds. Price per lb., \$2.50; 10 lbs., \$24.50, postpaid.

"Nothing is more pleasant to the eye [40] than green grasses kept finely shorn."—BACON.

WRITE FOR OUR SPECIAL BOOKLET ON LAWN GRASS SEEDS. IT GIVES COMPLETE INFORMATION REGARDING THE MAKING OF AND CARING FOR BLUE GRASS AND CLOVER AND BENT GRASS LAWNS.

Colonial Bent (*Agrostis Vulgaris*)—Also often called "Rhode Island Bent"—characterized by the flat, narrow blades and its slightly creeping qualities which make a very smooth and velvety lawn. Our seed is grown in New Zealand and is carefully cleaned. It does not contain injurious weed seeds and is the biggest grade of Bent Grass available, as far as purity, growth and freedom from admixtures of other grass and weed seeds is concerned. It produces an excellent lawn the year round at less maintenance cost than any other Bent Grass. Price per lb., \$1.65; 10 lbs., \$16.00, postpaid.

South German Mixed Bent—This is an admixture of Bent Seeds, containing mostly Colonial and some Velvet Bent. Our stock of this variety is of the highest quality and is carefully re-cleaned. Price per lb., \$1.65; 10 lbs., \$16.00, postpaid.

VARIETIES OF GRASS SEEDS

Used Principally for Golf Courses—Write for Quantity Prices

Red Top (*Agrostis Alba*)—A fine bladed grass that is often used in mixture with Kentucky Blue Grass for putting greens and tees on golf courses. It also makes an excellent lawn grass. Price per lb., 60c; 10 lbs., \$5.00, postpaid.

Hard Fescue (*Festuca Duriuscula*)—Produces stiff, upright leaves, usually used in mixture with other varieties for golf course greens and tees. Price per lb., 55c; 10 lbs., \$4.75, postpaid.

Red Fescue (*Festuca Rubra*)—Grows well in dry, sandy soils. Produces stiff and upright leaves and roots creep extensively. Used in golf course putting green mixtures, also on tees and fairways. Excellent for lawn purposes. Price per lb., 60c; 10 lbs., \$5.50, postpaid.

Chewings Fescue (*Festuca Speciosa*)—Used extensively on putting greens and fairways and tees on golf courses, and does well on most any kind of soil. It also produces a stiff, upright plant. Price per lb., 75c; 10 lbs., \$6.00, postpaid.

Sheep's Fescue (*Festuca Ovina*)—Produces stiff leaves. Used chiefly on golf course tees, fairways, bunkers and on "the rough." Price per lb., 95c; 10 lbs., \$9.00, postpaid.

Various Leaved Fescue (*Festuca Heterophylla*)—Produces a fine dark green turf. Is excellent for lawns for shady places and on tees and fairways on golf courses. Price per lb., 75c; 10 lbs., \$7.00, postpaid.

Meadow Fescue (*Festuca Pratensis*)—Produces very broad leaves. Used in golf courses on "the rough" and sometimes on the fairways. Price per lb., 50c; 10 lbs., \$4.50, postpaid.

Rough Stalked Meadow Grass (*Poa Trivialis*)—Makes an excellent turf both for lawns in shady places and for putting greens and fairways on golf courses. Leaves are very narrow and flat. Price per lb., 75c; 10 lbs., \$7.00, postpaid.

Wood Meadow Grass (*Poa Nemoralis*)—A very fine bladed grass, medium dark green in color, used in mixtures for shady spots. Price per lb., 85c; 10 lbs., \$8.00, postpaid.

Bermuda Grass (*Cynodon Dactylon*)—A broad leaved creeping grass, used for golf course fairways, polo and athletic fields. Will stand a great deal of hard usage. Price per lb., 75c; 10 lbs., \$6.00, postpaid.

Bur Clover (*Medicago Arabica*)—Used to a great extent for golf course fairways in California. Price per lb., 50c; 10 lbs., \$4.50, postpaid.

Note on Grass Seeds For Golf Courses.

Care must be taken to sow only the highest qualities of re-cleaned grass seeds on golf courses, in order to avoid the trouble and expense of reseeding costs and the weeding of greens, tees, and fairways. Germain's "Premium Brand" seeds have been specially re-cleaned in our own grass seed cleaning plant, which is the most modern and complete in the west, to the maximum of purity and germination and they are unusually free from weed seeds. The amount of grass seeds that should be planted for golf courses will run from about ninety pounds for the small fine seeds to three hundred pounds for the larger seeds, to the acre on fairways. For putting greens we recommend planting on the average of about one pound to every 150 square feet. We have not listed prices on large quantities of grass seed such as are often purchased by golf clubs. These prices will vary according to market conditions and will always be as low as is consistent with the market and the quality. Kindly write us for special quotations in larger quantities than indicated above.

NUVIDA LAWN AND GARDEN FERTILIZER

The verdict of all who have used the Nuvida Lawn and Garden Fertilizer is that it is the most complete and satisfactory Lawn Dressing ever placed on the market. It is manufactured by us and we guarantee that it contains all the elements required and in the proper proportions to produce a luxuriant growth. It is a clean, odorless material and can be applied without offending one's sense of smell or sight. Being quick in action, the effect can be noticed within a very short time by the rich green coloring and that velvety appearance so much sought after. Its superiority over stable manure can scarcely be estimated, as the latter, in addition to disfiguring the lawn by its unsightly appearance, also gives out an unpleasant odor, and always contains weeds and other undesirable seeds. Trial bags for 300 sq. ft., 10 lbs., 60c; 25 lb. sack for 750 sq. ft., \$1.25; 50 lb. sack for 1,500 sq. ft., \$2.25; 100 lb. sack for 3,000 sq. ft., \$4.00. Write for Nuvida pamphlet.

NUVIDA FLOWER AND FERN FERTILIZER

A reliable plant food for flower beds and potted plants, including all flowering plants, palms, ferns, etc. It is highly concentrated and should be used in small doses, following closely directions given on each container. Applications may be repeated, however, from time to time through the growing season. Price, 35c per can.

BERMUDA RAKE

This tool is all machine made, with all working parts detachable, and the metal of each part selected for its particular use. The angle of the teeth, and its weight, keep it in the ground in the heaviest lawn. The sharp blades cut the grass in sections and the cross cutter bar completes the work. A lawn raked and cross raked is free of all runners and the work has left a perfect seed bed to sow clover or grass seed. Brown Bermuda lawns can be skinned in the fall with this tool with a fraction of the labor necessary by any other method. Many lawns burn out in spots because the heavy soil has become impervious. Occasional use of the Bermuda Rake will so loosen the soil that it will again take water. Price, each, \$5.00.

SEMESAN

FOR THE CONTROL OF BROWN PATCH ON TURF

Write for special booklet on this wonderful new preparation. Semesan is dusted or sprayed over the turf infected with this unsightly disease of fine grasses, and successfully controls it. For prices on Semesan, see Page 87.

Upper Left—**PADRE**—A color distinct from any other rose. Coppery orange crimson with yellow shadings at the base of the petals. Long pointed buds, exquisite form and beautiful color. Each 65 cents.

Center left—**KAISERIN AUGUSTE VICTORIA**—Not a new rose but the outstanding white rose. A hybrid tea, blooming frequently with superb buds and blooms of pure white with cream tints in the center of the open flowers. A rose that should be in every garden. Each 65 cents.

Lower Left—**WILLIAM F. DREER**—A rose of the same parentage as Los Angeles. Salmon yellow in color, the yellow suffusing the entire flower, the base of the petals a rich golden yellow. Each 65 cents.

Upper right—**GOLDEN EMBLEM**—In many respects the most perfect yellow rose. Golden yellow throughout with the outer petals stained and striped red. A bouquet of this rose is of marvelous beauty. Each 65 cents.

Center right—**ROSE MARIE**—A magnificent American novelty that is probably the finest pink rose grown. Long and pointed buds with large, rounded petals. Equally effective in bud or open flower. Each 65 Cents.

Lower right—**HOOSIER BEAUTY**—Among the deep red roses there is hardly any that will compare with the Hoosier beauty. A hybrid tea of American origin that attained great popularity at its first introduction. Each 65 cents.
