Sir : Having been appointed Assistant Secretary of the Smithsonian Institution in September last by the Secretary (Hon. Mr.

As it may, at some future period, be important, if it is not now, that the Regents should be informed of my official action, I most respectfully submit the following statement.

By direction of the Secretary, I caused sundry official documents relative to the Institution, together with the proceedings of the first meeting of the Regents, to be recorded in a large Record book, marked A. Many letters have been addressed to me in relation to the Institution, making many inquiries, but not as I deemed of a nature to make them official.

Every letter received has been answered, giving all the information in my possession as to the subjects inquired about.

With the best wishes for the perfect success of the Institution,

I am, with high respect, your obedient servant,

The Board proceeded to the consideration of the resolutions accompanying the Report of the Committee of Organization ; when

The following of the said resolutions (numbered as they were reported) were read, and agreed to, viz :

[No. 3.] *Resolved*, That the Secretaries of State, of the Treasury, of War, and of the Navy, of the United States, be respectfully invited to furnish to consuls and other public officers, in this and foreign countries, under their respective Departments, such suggestions as they may deem proper, in regard to the procurement, as opportunity offers, of additions to the Museum of the Institution, especially to its Ethnological Department ; that three hundred copies of this report, when printed, be placed at the disposal of each of the above-named Secretaries, as an explanation to these public functionaries of the views of the Institution in regard to a Museum ; and that five hundred dollars be, and the same is hereby, appropriated, out of the accruing interest, to pay transportation,

or other expenses connected with the transmission from foreign parts to Washington, of any collections thus made. And to such contributions, when placed in the Museum, the name of the officer obtaining and forwarding the same shall, in all cases, be appended.

[No. 4.] *Resolved*, That the Secretary of War be respectfully invited to furnish to the Commissioner of Indian Affairs such suggestions as he may deem proper regarding the procurement, from the Indian country, of collections for the Museum of the Smithsonian Institution, illustrating the natural history of the country, and, more especially, the physical history, manners, and customs of the various tribes of aborigines on the North American Continent; that one hundred copies of this Report, when printed, be placed at his disposal, as a means of informing the various Indian Agents of the special character of the collections desired; and that the sum of five hundred dollars be, and the same is hereby, annually appropriated, out of the accruing interest of the Smithsonian Institution, for the procurement and transportation of such Indian collections; and, when placed in the Museum, there shall be appended to each the name of the agent through whom the same may be procured.

[No. 5.] *Resolved*, That the public generally be invited to furnish contributions to the Museum of the Smithsonian Institution; and that all such contributions, when considered worthy of a place, shall be labelled with the name and residence of the donor.

[No. 6.] *Resolved*, That ten copies of the Report accompanying these resolutions be furnished to each member of the Senate and House of Representatives, and that each member be respectfully requested to transmit these to newspapers and to individuals, in his district or elsewhere, who may be likely to take interest in the proceedings of the Institution.

[No. 12.] *Resolved*, That, for the year eighteen hundred and forty-seven, the sum of one thousand dollars be, and the same is hereby, appropriated, for laying out the grounds of the Institution, and for the purchase, transplantation, and temporary fencing of the trees therein, to be expended under the direction of the Executive Committee.

[No. 15.] *Resolved*, That of this Report, in such form as it may be ultimately adopted, five thousand copies be printed, under the direction of the Secretary ; and that he be required to transmit a copy of the same to each of the principal Scientific and Literary Societies, both in this and in other countries ; and also to such individuals, of Scientific or Literary reputation, as he may judge likely to find interest in the proceedings of the Institution.

The Board proceeded to the consideration of the following resolution :

[No. 1.] *Resolved*, That, for the present, out of the interest accruing to the Institution, the sum of twenty thousand dollars be, and the same is hereby, appropriated, for the purchase of books and the gradual fitting up of a Library, and all other incidental expenses relating to the Library, except the salaries of the Librarian or Librarians ; the said appropriation to commence from the first of January, eighteen hundred and forty-eight.

A motion was made by Mr. HOUGH that the same be amended, by striking out "twenty thousand dollars," and inserting "*twelve thousand dollars*."

Which motion was disagreed to.

Mr. RUSH moved that "twenty thousand dollars" be stricken out, and "*fifteen thousand dollars*" inserted.

Which motion was disagreed to.

The question was then put,

Will the Board agree to the resolution ?

And was decided in the affirmative.

The following resolution was then read, and agreed to, viz :

[No. 2.] *Resolved*, That the portion of the Building to be for the present set apart for a Library be of sufficient capacity to contain not less than one hundred thousand volumes ; and that it is desirable that the plan should be such as to render an extension practicable, if hereafter desired.

The following resolution was then read, and agreed to, viz :

[No. 11.] *Resolved*, That, for the present, the sum of four thousand dollars, out of the interest accruing to the Institution, be appropriated, for the purchase of philosophical and chemical apparatus,

models, &c. ; the said appropriation to commence on the first day of January next.

The following resolution was then read, and agreed to, viz :*

[No. 7.] *Resolved*, That it is expedient to include, ultimately, in the plan of the Institution, popular lectures on useful subjects—as on agriculture and its latest improvements ; on the productive arts of life ; on the sciences, and the aid they bring to labor ; on common school instruction, including the proper construction of school rooms, the most improved apparatus for teaching, and the most judicious management, moral and intellectual, of children in common schools ; also, if suitable lecturers be found, on history, natural and civil, including the physical history of the various races of men, and the gradual advance of each to its present state of civilization ; on political economy, in its practical connexion with the every day business of life ; and generally, on any department of useful knowledge not strictly professional.

The following resolutions, Nos. 8, 9, 10, and 14, were read, and upon suggestions that it was desirable that the Secretary elect should be consulted before their adoption, they were postponed until the next meeting of the Board of Regents :

[No 8.] *Resolved further*, That if the funds of the Institution permit, it is desirable that such lectures should be delivered, not only at Washington, but gradually and successively, at different points in all the States of the Union, either by permanent professors, or temporary lecturers, engaged on behalf of the Institution.

[No. 9.] *Resolved*, That if the funds of the Institution permit, there may be properly included in the plan, the publication, periodical or otherwise, of popular tracts on the above subjects.

[No. 10.] *Resolved*, That as one of the most effectual means of increasing knowledge among men, it shall be made a part of the duty of one or more of the officers, who may be engaged by the Institution, to institute original researches in the branch of science to which he may be devoted ; and that it shall be the duty of the Secretary, when such researches eventuate successfully, to com-

Mr. CHOATE, Mr. HILLIARD, and Mr. RUSH were appointed the said committee.

On motion of Mr. OWEN,

SATURDAY, DECEMBER 5, 1846.

The CHANCELLOR laid before the Board a letter from Walter R. Johnson, of the city of Philadelphia, tendering his services for the department of Physical science, embracing Philosophy and Chemistry, with their applications ;

Which was read, and placed on file for future consideration.

The CHANCELLOR also presented a letter from John Jay, of New York, accompanied by a recommendation of members of the Historical Society, of John Romeyn Brodhead, as Secretary of the Institution, which was placed on file.

Mr. BACHE presented a letter from B. F. French, of the city of New Orleans.

Mr. OWEN offered the following resolution, which was read, considered, and agreed to, viz :

Resolved, That the Assistant Secretary cause one thousand copies of the Journal of the Board of Regents from the commencement of its organization to the close of this meeting, to be printed in the same form as the pamphlet already printed by this Board, and that he forward twenty-five copies thereof to each of the Regents.

Mr. TOTTEN offered the following resolution, which was read, considered, and agreed to unanimously :

Whereas, the present meeting of the Board may probably be the last at which the services of Mr. Hough, Regent, from New York, as Secretary, will be required,

Resolved, That the thanks of the Board are respectfully offered to that gentleman for the prompt, valuable, and disinterested service he has rendered as Secretary.

On motion of Mr. BACHE,

Resolved, That the Executive Committee be authorized to arrange with the Secretary the time and manner of the discharge of the duties enjoined on him by law, and by the resolutions of the Regents.

Resolved, That a Committee of three be appointed by the Chancellor, to procure the introduction, if they deem it expedient, of a bill amendatory of the act establishing this Institution.

MR. OWEN, MR. HOUGH, and MR. EVANS were appointed the said committee.

It having been suggested by Mr. EVANS, that, on the minds of one or more of the Regents, a doubt existed as to the passage of the resolution, No. 7, in yesterday's proceedings, or whether it was not to be considered as among those postponed until the Board could meet again, and avail itself of the advice of the Secretary elect,

It was unanimously ordered, that it be considered as among the postponed resolutions, and it was postponed accordingly, till the next session.

The following is the resolution referred to :

Resolved, That it is expedient to include, ultimately, in the plan of the Institution, popular lectures on useful subjects; as on agriculture and its latest improvements; on the productive arts of life; on the sciences, and the aid they bring to labor; on common school instruction, including the proper construction of school rooms, the most approved apparatus for teaching, and the most judicious management, moral and intellectual, of children in common schools; also, if suitable lecturers be found, on history, natural and civil, including the physical history of the various races of men, and the gradual advance of each to its present state of civilization; on political economy, in its practical connexion with the every day business of life; and, generally, on any department of useful knowledge not strictly professional.

On motion of Mr. OWEN,

Resolved, That the Secretary of the Smithsonian Institution be entitled to participate in the deliberations of the Board of Regents, but without vote.

On motion of Mr. EVANS,

Ordered, That when this Board adjourns to day, it adjourn to meet on the second Wednesday of this month, at the room of the Vice President of the United States, in the Capitol, at 11 o'clock A. M.

The Board then adjourned accordingly.

JOURNAL OF PROCEEDINGS

OF THE

REGENTS OF THE SMITHSONIAN INSTITUTION,

AT THEIR SECOND MEETING.

WEDNESDAY, DECEMBER 9, 1846.

This being the second Wednesday of December, the Board of Regents met, pursuant to their resolution of the 9th day of September last, fixing their regular meetings.

Present—GEORGE M. DALLAS, Chancellor, WM. W. SEATON, GEORGE EVANS, ROBERT DALE OWEN, WILLIAM J. HOUGH, RICHARD RUSH, JOSEPH G. TOTTEN.

The number fixed by the act establishing the Smithsonian Institution as a quorum being five, a quorum was in attendance.

At 11 o'clock, A. M. the Chancellor took the chair and called the Board to order.

Mr. HOUGH, from the Committee appointed to wait on the President of the United States, and the other persons named in the fourth section of the act to establish the Smithsonian Institution, and obtain their written consent to the selection and appropriation of the public reservation called the "Mall," west of Seventh street west, in the City of Washington, by the Regents, as a site for the necessary buildings for said Institution, reported :

That on the fifth day of December instant, he called upon the President of the United States and the other persons named in said fourth section of the act establishing said Institution, and solicited their assent to the selection and appropriation by said Regents of all that portion of said reservation lying west of Seventh street west, in said city, as a site for the necessary buildings for said Institution, pursuant to the resolution of the Board of Regents heretofore passed making such selection and appropriation ; but

that he was unable to obtain the consent of all of said persons, although a portion of them signified their readiness to give such consent; and that inasmuch as it seemed necessary that the assent of each and all of said persons be obtained to the validity of such selection and appropriation, the Committee did not deem it of importance to obtain the written consent of such of said persons as signified their willingness to the same, not being able to procure the whole. The Committee, therefore, submit the following resolution for the consideration of the Regents, and recommend the passage thereof.

The said resolution was then read and adopted as follows:

Whereas, the consent of all the persons named in the fourth section of the act to establish the Smithsonian Institution has not been obtained to the selection and appropriation of the public reservation called the "Mall," west of Seventh street west, in the City of Washington, by the Regents, as a site for the necessary buildings of said Institution. Therefore—

Resolved, That a Committee of three be appointed by the Chancellor to confer with the President of the United States and the other persons named in the fourth section of said act, and ask their consent to the selection by said Regents of that portion of said reservation lying between Seventh and Twelfth streets west, in said city, as the site for the necessary buildings of said Institution, and if such consent be given,

It is further Resolved, That said buildings be located thereon, and at least two hundred and fifty feet south of the centre thereof.

Mr. HOUGH, Mr. OWEN, and Mr. EVANS were appointed the said Committee.

Mr. SEATON presented a communication from Mr. George Catlin, accompanied by a printed catalogue of his Indian Gallery, offering his collection of Indian memorials to the Smithsonian Institution, which was referred to the Committee on the formation of a Library.

On motion of Mr. OWEN,

Ordered, That when this Board adjourn to-day, it adjourn to meet on Monday next, at 10 o'clock, A. M.
