Wholesale Trade List

Spring 1917

For Nurserymen
Only

Shenandoah Nurseries

D. S. LAKE, President

Shenandoah, - Iowa

For Your Information

To those who are not acquainted with our concern, would say that this business was established in 1870 and is still under the same management.

We are located in Southwestern Iowa, fifty miles southeast of Omaha, Nebraska. The soil here is especially adapted to the growing of a general line of nursery stock. The railroad facilities are excellent. We are on the Wabash, Chicago Burlington and Quincy, Keokuk and Western Railroads; two express companies, the Adams and Wells-Fargo, give us good service. We take pleasure in showing visitors over our grounds at any time.

TERMS OF SALE

SHIPPING—With the exception of Evergreens and some heavy shade trees we are in position to ship assorted orders all through the winter, and can, as a rule, get refrigerator service, although we do not guarantee this. Can begin to dig trees in this latitude usually about March 10. Parties ordering goods should indicate whether they wish them sent by freight, express or parcel post, also route. In the absence of these instructions, we forward them to the best of our judgment, but in no case will we assume responsibility after consignment to purchaser. When losses occur by delays or other causes of whatever nature while goods are in transit, make claim **AT ONCE** on the forwarding companies. All shipments travel at the risk and cost of the purchaser.

TERMS—Cash or security before shipment of goods, except with established firms when, if unknown to us, satisfactory references will be required before goods are forwarded. Orders to be sent C. O. D. should be accompanied by one-fourth cash.

PRICES—Are limited to Spring 1917, and supersede all previous quotations on stock herein listed and are subject to change without notice.

CAUTION—We accept all orders on condition that they shall be void should any injury befall stock from frost, fire, hail, storms or other causes over which we have no control.

CLAIMS—For any cause will receive consideration only when made within six days after arrival of goods. In no case will we entertain claims made after the goods have been once accepted.

PACKING—Prices contained herein are net; cost of boxing and baling will be added.

GRADES We grade carefully; in some cases by caliper, in others by height. When graded by both caliper and height, the caliper must govern.

CERTIFICATE OF INSPECTION—Will be furnished with each shipment.

GUARANTEE OF GENUINENESS—If any nursery stock, etc., proves untrue to description under which it was sold, we hold ourselves in readiness on proper proof, to replace all such nursery stock, etc., that may prove otherwise, or refund the amount paid, but we shall in no case be liable for any sum greater than the amount originally received for said nursery stock.

WHOLESALE TRADE LIST, SPRING 1917

Fruit Tree Stocks-American Grown

APPLE SEEDLINGS -We left our seedlings in the ground until they were well matured. They are full of vitality and will give satisfaction.

We wish to call special attention to our No. 2 grade. These are very nice, smooth, straight seedlings and are very satisfactory for grafting. Some firms use them almost exclusively. We will be pleased to send samples upon request.

Root Grafts

No part of our business receives more careful personal attention than the putting up of root grafts. Our grafting cellar is located close to our office and the workmanship is inspected personally by a member of our firm.

We have been putting up grafts for more than forty years. We use experienced men, good material and as a rule our grafts give excellent satisfaction.

We are now grafting and it is important that orders be placed at once so we can put them up while we are organized for this work and while our list of varieties is complete.

While we are prepared to do machine wrapping yet for our own use we prefer the hand work.

For list of varieties, write for our Winter Wholesale Trade List.

SHENANDOAH NURSERIES, SHENANDOAH, IOWA

Apple and Crab Piece Root Grafts

Piece root grafts are made by using about six inches of scion and three and one-half inches of root. They are tongued together and securely wrapped at the union, making the entire graft about eight and one-half inches long. This style of graft we use mostly in our own plantings.

1,000 to 5,000.....	75	5 00

Apple and Crab Whole Root Grafts on No. 1 Straight Seedlings

This style of graft is made by using about six inches of scion and the entire seedling making union at the collar and wrapping with waxed thread which holds it firmly until calloused. Many nurserymen prefer to plant this kind of graft, claiming that they get a larger growth owing to the well formed root system,
