FALL 1916

**SEMI-ANNUAL
WHOLESALE TRADE
LIST**

FOR NURSERYMEN ONLY.

SHENANDOAH NURSERIES

D. S. LAKE, President

SHENANDOAH, IOWA

For Your Information

To those who are not acquainted with our concern, would say that this business was established in 1870 and is still under the same management.

We are located in Southwestern Iowa, fifty miles southeast of Omaha, Nebraska. The soil here is especially adapted to the growing of a general line of nursery stock. The railroad facilities are excellent. We are on the Wabash, Chicago, Burlington and Quincy, Keokuk and Western railroads; two express companies—the Adams and Wells-Fargo—give us good service. We take pleasure in showing visitors over our grounds at any time.

TERMS OF SALE

SHIPPING—The shipping season in the Fall begins about October 1st. Parties ordering goods should indicate whether they wish them sent by freight or express, also route. In the absence of these instructions, we forward them to the best of our judgment, but in no case will we assume responsibility after consignment to purchaser. When losses occur by delays or other causes of whatever nature while goods are in transit, make claim AT ONCE on the forwarding companies.

TERMS—Cash or security before shipment of goods, except with established firms, when, if unknown to us, satisfactory references will be required before goods are forwarded. Orders to be sent C. O. D. should be accompanied by one-fourth cash.

PRICES—Are limited to Fall 1916, and supersede all previous lists and are subject to change without notice.

CAUTION—We accept all orders upon condition that they shall be void should any injury befall stock from drouth, frost, fire, hail, storms or other causes over which we have no control.

CLAIMS—For deduction will receive consideration only when made within six days after receipt of goods.

PACKING—Prices contained herein are net; cost of boxing and baling will be added.

GRADES—We grade carefully; in some cases by caliper, in others by height. When graded by both caliper and height, the caliper must govern.

CERTIFICATE OF INSPECTION—Will be furnished with each shipment.

GUARANTEE OF GENUINENESS—If any nursery stock, etc., proves untrue to description under which it is sold, we hold ourselves in readiness on proper proof, to replace all such nursery stock, etc., that may prove otherwise, or refund the amount paid, but we shall in no case be liable for any sum greater than the amount originally received for said nursery stock.

FRUIT DEPARTMENT

On our fruits we have followed the nomenclature recommended by the U. S. Department of Agriculture, and adopted by the American Pomological Society. In cases where varieties are better known by another name than the government's we have placed the popular name in parenthesis after the correct name.

APPLE

We have the following varieties of apple for the market, Fall 1916 and Spring 1917. All are well grown and in a good thrifty condition. Those marked "b" we can supply in either buds or grafts. Shenandoah-grown apple have made a splendid reputation, and we sell to some of the most critical buyers in the country year after year. We can please you and your customers. Glad to send you samples.

French Grown

Owing to conditions in France, imported seedlings are scarce this year, especially Mahaleb and Myrobalan. We wish to impress on our customers the importance of sending in their orders early, before any items are sold out.

We are not agents for French nurserymen but have our own representative in France who has our seedlings grown for us on contract by men who make a specialty of growing fruit tree stocks.

We have a storage building in France where the seedlings are inspected, graded and packed. They are then shipped in car load lots to us at Shenandoah where we open every box and carefully inspect the grading and condition of the stock. A government inspector is also stationed at Shenandoah the entire winter and he inspects these seedlings.

We wish to call attention to the fact that these goods are sold NET AT SHENANDOAH, IOWA. We take all risks of transportation from France to this place. This is a very important point for customers to remember. Sometimes there is quite a loss in these long shipments, but this does not affect the customers as we open up the boxes and grade out the damaged seedlings and guarantee our stock to be in good condition when it is delivered to the forwarding agent at Shenandoah.

All goods sold subject to arrival, without engagement, and subject to war conditions.
