Terms and Conditions of Sale

All sales and contracts are made subject to crop losses, or thru other causes over which we have no control.

PRICES—Named in this list cancel all previous lists and quotations and are subject to change without notice.

We are strictly wholesalers and do not invite retail trade.

We will gladly quote special prices on items wanted in larger quantities than listed.

TERMS—We offer the usual terms to those of established credit, or whose responsibility is known to us. Cash, security or satisfactory reference is required from unknown parties. All prices are net and not subject to any discount unless previously agreed upon. Orders to be sent C. O. D. should be accompanied by one-fourth cash.

SHIPPING—We request customers to give definite shipping instructions regarding manner in which they wish goods shipped. In the absence of special instructions, we use our best judgment, but without assuming responsibility. All shipments travel at risk and expense of purchaser. We have the Wabash, Burlington, Keokuk & Western Railroads which enable us to give excellent shipping service.

PACKING—All cost of packing is additional to prices quoted. Bales will be charged for at actual cost of material and labor used; boxes at rates noted below:

FRUIT TREE STOCKS—AMERICAN GROWN

APPLE SEEDLINGS

We are now grading our seedlings and can make prompt shipment. They were not dug until late in November and you can depend upon their being well matured, vigorous and healthy in every respect. Our Seedlings have been well grown, handled right, and graded properly which is worth something to the customer. There is a short crop of Apple Seedlings this season, and we advise early orders as everything indicates there will not be enough to go around. Will be glad to send samples upon request.

FRUIT TREE STOCKS—AMERICAN GROWN—(Continued)

Due to the fact that French Apple Seedlings cannot be shipped into this country after 1930, we have been carrying on an experimental plant in Colorado. We are very much gratified with the seedlings that we have grown out there this past season, and we believe that we have found a place where we can grow seedlings equally as good as the French stocks. We never saw a cleaner, healthier block of Apple Seedlings.

We are anxious for Nurserymen to try some of these seedlings, if only for experimental purposes, as we feel they will give satisfactory results.

FRUIT TREE STOCKS—FRENCH GROWN

Our French stocks come from the best growers in France. The loss that occurs from these long shipments does not affect our customers. We regrade our seedlings at Shenandoah, and guarantee them to be in good condition and up to grade when delivered to the forwarding agent. An important point for customers to remember is that we take all the risk of transportation and pay all charges from France to this place.

All seedlings shipped from Shenandoah are carefully inspected by a government inspector who is stationed here most of the winter.
