We offer bulbs imported by us direct from Holland where the finest are grown. The varieties give a wide color range in Breeder, Cottage, and Darwin. Red, purple, yellow, "black", pink, and variegated—a beautiful display of color loveliness. We also offer several of the better double and fringed varieties.

Tulips are most effective when only one variety is used in a bed, but may also be mixed. The Cottage tulips bloom ahead of the Darwins and first size imported bulbs produce the extra large blooms you want. Do not confuse them with second size sold in stores at cheaper prices.

To Our Friends and Customers:

THE HOWARD-HICKORY CO. offers you the bulbs listed on this folder with full assurance that they are all quality goods and that you will be disappointed in none of them. They are guaranteed true to name and up to size, but on account of the small margin of profit there is no guarantee to replace any that may fail to grow. **Order early while a full selection may be had, by September 1st if possible, as it takes time for bulbs to come from across the Atlantic.**

TERMS:—Cash with order or C. O. D. Transportation will be prepaid on shipments ordered by September 15th and accompanied by full remittance. All prices subject to addition of N. C. 3% Sales Tax if sold in this state. Shipment will be made at proper time in the fall season, either November or December. Planting directions will be sent with shipment.

Try Some of all these bulbs—those you do know and those you don't. Each one of them will make you love it next spring.

BULBS, like Perennials and other flowers, are necessary to make the Landscape Picture complete. Without them it is like a lady's dress with no frills, no ornament. Use the bulbs and flowers in front of and between shrubbery along the borders of the lawn or in beds in the flower garden.

To make them show up best you should first have your

Grounds Designed and Shrubby Planted

Landscape Service is the leading specialty of Howard-Hickory. Ever since the nursery began in 1920 it has been serving home owners, mill owners, churches, schools, public and private projects of many kinds over a wide area of North Carolina and neighboring states. Wherever it has served, this concern is proud to say it has gained a reputation for quality goods, expert workmanship, and satisfied customers.

Efficiency obtained through quantity production on the 100 acre nursery, volume of business, and methods of selling, delivering, and planting have enabled it to gain another reputation for reasonable prices, meeting or beating those of its competitors, local concerns, or the many amateurs who now are trying to do landscape work.

Our Landscape Architects working out from our office and our many local and traveling representatives bring our service to your door. Artistic and practical plans are made free of any cost additional to that of the plants and planting. Write today for appointment or further details. Do not wait until our busy fall season begins; plan now for fall planting.

Our Guarantee protects you against undue loss from plants which may not withstand transplanting.

Other Literature is available for the asking. We publish the "Dixie Planter", a descriptive price list of ornamentals and fruits; a Rose and Perennial Folder; a Cultural Information Folder; and have E. H. Wilson's booklet on "How To Plant The Home Grounds."
