NO. 3.

SEMI-ANNUAL

TRADE LIST

— OF THE —

CHARLESTON NURSERY,

CHARLESTON, COLES CO., ILL.

SPRING, 1872.

M. C. McLAIN, Proprietor.

NOTICE.

My stock will be found first-class in all departments and respects. This list is intended for Nurserymen, Dealers and those planting largely. The prices are for the quantities named. On smaller quantities, a discount from my retail prices will be made to the trade.

ORDERS.—Should be, in every instance, written distinctly, on a separate sheet and not mixed up with the letter. In writing letters, be careful to give Postoffice address, county and State.

PACKING.—All orders will be carefully packed in bales or boxes, for which a charge is made, sufficient to cover cost of material and time, and nothing more.

SHIPPING.—Purchasers will confer a favor by naming the route they desire goods sent; otherwise I forward to the best of my judgment, but in no case can I be held responsible for damage caused by carelessness or delay on the part of the forwarders. All goods delivered free of cartage to the depot in Charleston, Illinois.

CLAIMS.—I desire to be notified of mistakes (should any occur) as early as possible, so that I may rectify the same without delay.

TERMS CASH.

FLOWER DEPARTMENT.

I feel confident that the quality of my plants will be found equal to the very best, and in variety not surpassed by any establishment in the West, and prices satisfactory.

My stock of Roses, Geraniums and Verbenas will be found very large, embracing the best varieties yet sent out. In this, as in the Fruit Department, I will not undertake to furnish long lists of selected leading varieties, at wholesale rates, but will in all cases adhere to the order as nearly as possible.

Roses.

My collection of Roses is very complete, embracing most of the old, desirable varieties, as well as many of the more recent introductions. My efforts at fall propagating the Rose on its own roots, were attended with great success, thereby enabling me to send out well-advanced plants, early in April and May, at prices quite reasonable. Plants large enough to give abundant bloom from July until frost.
