DELAWARE.

This is undoubtedly the best hardy native grape in cultivation. It is wholly free from rot, even in the most unfavorable season, and the flavor is unequalled by any other grape.

CONCORD.

This is still the most reliable black grape extant, and certainly as popular as ever, and should be in every collection.

MARTHA.

This will be found the best white grape ever offered to the public. The vines are perfectly hardy, perfectly healthy, and abundant bearers. It ripens about a week earlier than the Concord, and is a much better grape. Our stock is very large, the plants very fine, and the price is now within the reach of every one who wants a good grape.
