WHOLESALE CATALOGUE,

FOR SPRING OF 1871.

We herewith present our *Wholesale Catalogue* or *Trade List* for the Spring of 1871. Our stock is unusually large and fine, and we invite those interested to call and examine for themselves. All orders will receive prompt and careful attention.

We usually commence digging and packing from the first to the tenth of October in the Fall, and about the first of April in the Spring, and continuing to the first of June.

Persons ordering Trees of us should be particular to write their order in full by itself, stating particularly what form they desire the trees, whether Standard or Dwarf, and also give full directions by what route they wish them shipped, and the name of the person to whose care they wish them consigned, *and to send their orders early*. If the whole or part of it is left to us, we will use our best judgment how to forward them, but in *no case* will be responsible for any loss or detention that may occur after shipment unless we are at fault.

If any mistake should be found to have occurred, when plants reach their destination, our customers will notify us of it immediately and we will at once make such amends as lies in our power, so that full satisfaction may be given.

Digging and Packing.—All of our trees and plants are taken up with the utmost care, so that the roots may be injured as little as possible in digging, and packed in firm, secure boxes, with moistened moss, by competent men, who have had many years experience in packing, so that all plants may reach their destination in perfect order. In packing, the cost of boxes only will be charged, except to agents and dealers, to which will be added the cost of labor in assorting and filling the orders; but we deliver packages at the railroad stations and express offices free of charge.

The articles in the following list will be furnished at the prices annexed *only* when the quantities specified, or more, are taken. On smaller quantities a discount from Retail Catalogue prices will be made to the trade, proportioned to the amount of the order.

TERMS, &c.—Terms of Payment must invariably be Cash, or satisfactory note, payable at some Bank for amount of invoice. A remittance is expected to accompany orders from unknown correspondents, by draft or check on bank, payable to our order, (or satisfactory references given,) and may be made, where banks are not convenient, by Express or Post Office order, and in either case at our risk.

CATALOGUES.

The following Catalogues will be sent upon application.

No. 1.—A descriptive and Illustrated Catalogue of Fruits.

No. 2.—A descriptive and Illustrated Catalogue of Ornamental Trees, Shrubs, Roses, Flowering Plants, Bulbs, &c., &c.

No. 3.—A Wholesale Catalogue, or Trade List.
