PREFACE TO ABRIDGED CATALOGUE.

The present edition, an abridged form of our General Catalogues, has been prepared for free distribution, with a view of drawing increased attention to the very large and complete assortment of Fruit and Ornamental Trees at present under cultivation in our nurseries. All the leading and most desirable varieties of Trees, etc., in both the Fruit and Ornamental Departments are given, but the descriptions are necessarily brief; hence, we earnestly invite all who are interested in the subject of planting, or who contemplate rural improvements, to send for and consult the general Catalogues noticed on the last page of cover. This set of Catalogues forms a useful manual and book of reference, and should be in the hands of every one possessing an orchard, garden, or ornamental grounds. Besides giving lists of the choicest fruit and ornamental trees, much valuable information upon their culture is added. Our experimental orchards are the most complete in this country, and contain—after having discarded hundreds of worthless sorts—368 varieties of apples, 360 of pears, 85 of plums, 55 of cherries, 133 of peaches, 25 of apricots, 16 of nectarines, and 115 of grapes. All promising novelties are added annually, and such as prove unworthy of culture are discarded. These orchards are maintained at considerable expense, but we consider them a necessity, and we intend to keep them up so long as we remain in the business. By this means we are enabled to judge with great accuracy of the values of the different fruits. Special attention is requested to our extensive and superior assortment, suited to various soils and climates, and grown specially for amateur collections. Parties leaving the selection of kinds to us may rely upon having the benefit of our long experience.

To the Department of Ornamental Trees, etc., we have devoted great attention. In extent and variety it is not equalled in this country. Our deep, rich, loamy soil enables us to produce handsome, straight, smooth, thrifty, vigorous trees, with an abundance of fibrous roots. Those interested in arboriculture are specially invited to visit our grounds during the months of June and July, and examine our stock.

Landscape Gardeners, Superintendents of Public Parks, Gardens, Cemeteries, etc., are requested to correspond with us, stating variety, size, number of trees, etc., desired, and we will offer the most favorable terms.

Great inducements are offered to Nurserymen and Dealers, with whom we are prepared to deal on the most liberal and accommodating terms. (See Wholesale Catalogue, issued semi-annually—spring and fall.)

Of Roses we have the most select collection in America. Our stock for the present season is unusually large, and the plants remarkably vigorous.

We have, also, a good supply of the best Clematis.

ORDER EARLY.

As the planting season continues only a few weeks, we are greatly pressed with business at that time. We would therefore esteem it a great favor if parties would send in their orders as soon as possible after the receipt of this Catalogue. If orders are deferred till late in the season the stock of many of the choicest articles is liable to be exhausted, and there is no time left for correspondence, if any be necessary.

PACKING.

We give particular attention to the packing, believing that the future success of the stock depends, to a great extent, upon the care given to this operation.

We pack in bales and boxes, for which a moderate charge is made to cover cost. In remitting, please make allowance for same.

It is needless to add that our shipping facilities are unsurpassed.

CAUTION.

We caution the public against certain persons who are in the habit of using our Catalogues, and representing themselves as our Agents, but who in reality have no dealings with us. The reputation of our establishment has already been injured in several parts of the country by such parties.

All our Agents, and those who purchase from us to fill their orders, have certificates bearing our signature. Those who have no such certificates are to be regarded as imposters.

ELLWANGER & BARRY,

Mt. Hope Nurseries,

Rochester, N. Y.

• •

ADVICE TO CORRESPONDENTS.

(Please read before making out order.)

CORRESPONDENTS will greatly oblige by observing, as far as possible, the following regulations:

1st. All orders should be legibly written out on the order sheet herein enclosed; this will save us much trouble, and at the same time prevent mistakes.

2d. The names of everything ordered should be plainly written out.

3d. In ordering fruit trees, it should in all cases be stated whether *standard trees* are wanted for orchards, or *dwarfs* for gardens.

4th. Where particular varieties are ordered, and particular *ages* and *sizes of trees*, *kinds of stock*, etc., it should be stated whether, and to what extent, other varieties, sizes, ages, etc., may be substituted in case the order cannot be filled to the letter, as happens occasionally in all establishments. Our rule is not to substitute in any case, without being expressly requested to do so.

5th. All trees and plants are carefully labeled and packed in the best manner for any part of the United States, Canada or Europe, for which a moderate charge is made, but no charge is made for the delivery of packages at the railroad.

6th. *It is requested that explicit directions for marking and shipping packages accompany each order.* When it is left to us to choose the mode of conveyance we will exercise our best judgment. We pack in such a manner that fruit trees and small fruits, excepting strawberries, go safely as freight. *In all cases the articles are at the risk of the purchaser after being shipped; and if delay or loss occurs, the forwarder alone must be held responsible.*

7th. *Parties desiring to have stock forwarded to points west of Chicago, are reminded that we are obliged to prepay the freight charges on all goods shipped west of that city.* In remitting, therefore, please send a sufficient amount of money to pay for the stock ordered, as well as the transportation charges.

8th. For shipment abroad, we pack in the best manner, either in close boxes or Wardian cases. Our consignments to all parts of the world have generally been received in good condition, and parties who favor us with their orders may rely upon the same having careful attention. Shipments of this kind can usually be made to the best advantage in the months of October and November.

9th. All orders from unknown correspondents must be accompanied with a draft on some of the principal cities, or post-office order for the amount. Please send no order for less than one dollar.

10th. Our customers are requested to notify us instantly of any errors that may be committed in filling their orders, so that we may at once make ample amends, as we desire to conduct our business in all respects satisfactorily to those who favor us with their confidence.

Descriptive and Illustrated priced Catalogues will be sent free to customers on application; to others, on receipt of postage stamps, as follows:

No. 1.—A Descriptive Catalogue of Fruits, 10c.

No. 2.—A Descriptive Catalogue of Ornamental Trees, Shrubs, Hardy Flowering Plants, etc., 15c.

No. 3.—A Descriptive Catalogue of Strawberries and other small Fruits, free.

No. 4.—A Wholesale Catalogue or List for the Trade, free.

No. 5.—A Descriptive Catalogue of Roses, free.

No. 6.—Abridged Catalogue, free.

ELLWANGER & BARRY.

DISTANCE BETWEEN TREES IN PLANTATIONS.

STANDARD APPLES, 30 to 40 feet apart each way. In poor soils, 25 feet may be enough.

STANDARD PEARS AND CHERRIES, 20 feet apart each way. Cherries will do at 18 feet, and the dwarf growing sorts, Dukes and Morellos, even at 16 feet.

STANDARD PLUMS, PEACHES, APRICOTS AND NECTARINES, 16 to 18 feet apart each way.

QUINCES, 10 to 12 feet apart each way.

PYRAMIDAL APPLES, PEARS, CHERRIES AND PLUMS, 10 to 12 feet apart each way. The greater distance is better where land is not scarce.

DWARF APPLES (bushes), 6 feet apart.

CURRANTS, GOOSEBERRIES AND RASPBERRIES, 3 to 4 feet apart.

BLACKBERRIES, 6 to 7 feet apart.

NUMBER OF TREES ON AN ACRE AT VARIOUS DISTANCES.

At 4 feet apart each way.....	2,729
" 5 " "	1,742
" 6 " "	1,200
" 8 " "	680
" 10 " "	430
" 12 " "	325
" 15 " "	200
" 18 " "	135
" 20 " "	110
" 25 " "	70
" 30 " "	50

The number of plants required for an acre, at any given distance apart, may be ascertained by dividing the number of square feet in an acre (43,560) by the number of square feet given to each plant, which is obtained by multiplying the distance between *rows* by the distance between the *plants*. Thus, strawberries planted three feet by one foot, give each plant three square feet, or 14,520 plants to the acre.

TERMS USED IN DESCRIBING THE HABIT OF GROWTH.

Referring to young trees of two to four years' growth.

VIGOROUS—Being those varieties of strong, rapid growth.

FREE—Varieties which rank next to the above in growth.

MODERATE—Varieties which make a fair growth, some being slender growers, others slow growers.

FEEBLE OR POOR—Varieties of feeble growth. The majority of these require to be double worked on strong growing sorts in order to obtain good trees

FRUIT DEPARTMENT.

SELECT APPLES.

Our principal stock of Standard Apple Trees consists of the following varieties, which have been well proved, and can be recommended as the *best* now in cultivation.

PRICES.

TREES, on free stocks, 5 to 7 feet high, 25 cts. each; \$2.50 per doz., except where noted.

TREES, *extra size* (such kinds as we may be able to supply), 50 cts. each; \$5.00 per doz.

Those marked thus, * 50 cents each; \$5.00 per dozen, for trees of ordinary size.

DWARF APPLES.

Trees 2 to 3 years from bud, 30 cents each; \$3.00 per dozen. Those marked with a *, 50 cents each.

DWARF TREES can be supplied of the following sorts on *Doucin* and *Paradise* stocks. On the latter the trees are smaller, more prolific, bear sooner, and are therefore more desirable for small gardens. They can be planted 6 feet apart, and will bear abundantly the second year after planting. Where large *pyramidal* trees or low *standards* are wanted, the *Doucin* stock is preferable.

Alexander,	Northern Spy,	Summer Rose,
Duchess of Oldenburgh,	Primate,	*Sutton Beauty,
Early Harvest,	Red Astrachan,	Sweet Bough,
Gravenstein,	*Red Bietigheimer,	Tetofsky,
*Jeffers,	Sherwood's Favorite,	Wagener,
*Lady,	*Stump,	Whitney's Crab.

RUSSIAN APPLES.

Price for first class Standard Trees, 40 cents each; \$4.00 per dozen.

A list of the varieties which we cultivate will be found in our DESCRIPTIVE CATALOGUE OF FRUITS.

SELECT PEARS.

The following list includes most of those which have been well tested, and prove valuable.

PRICES,

(except otherwise noted.)

†Petite Marguerite,	Vig.	Medium, greenish yellow, fine, juicy, melting; best of its season.	August.
**Pitmaston Duchess,	Vig.	Large, golden yellow, melting, buttery, juicy; very good; superior to Duchesse d'Angouleme.	November.
Seekel,	Mod.	Medium, brown, juicy, melting, buttery, of the highest flavor.	Sept. & Oct.
Sheldon,	Vig.	Large, russet and red, melting, rich, delicious; very good to best.	Oet. & Nov.
**Souvenir du Cou- gres,	Mod.	Very large and handsome, bright yellow, like Bartlett, but less musky; very good.	September.
Swan's Orange,	Vig.	Large, yellow, melting, sprightly, vinous; good.	Sept. to Nov.
Tyson,	Vig.	Medium, yellow and russet, juicy, sweet, pleasant; very good.	Aug. & Sept.
Urbaniste,	Mod.	Large, pale yellow and russet, melting, buttery, delicious; very good.	Oet. to Nov.
†Winter Nelis,	Mod.	Medium, russet, melting, buttery, rich; very good.	Dec. & Jan.

SPECIAL COLLECTION OF PEARS.

FOR CULTIVATION ON THE QUINCE.

The following varieties are particularly recommended for cultivation on the Quince. All are vigorous and handsome growers, hardy and bear well.

We might add many others which appear to succeed well on the quince with fair treatment. Such are now in our own grounds in a flourishing state, after being 20 years planted. The following, however, cannot fail to make durable and satisfactory trees:

SUMMER—Andre Desportes, Bartlett, Beurre Giffard, Brandywine, Tyson, Pctite Marguerite, Clapp's Favorite.

AUTUMN—Beurre Hardy, Beurre Clairgeau, Belle Lucrative, Urbaniste, Duchesse d'Angouleme, Doyenne Boussock, White Doyenne, Beurre Superfin, Flemish Beauty, Louisc Bonne of Jersey, Seckel, Howell.

WINTER—Beurre d'Anjou, Easter Beurre, Lawrence, Josephine de Malines.

CHERRIES.

PRICES.

STANDARD TREES, 2 to 3 years from bud, handsome, from 5 to 7 feet high, each 50 cents; \$4 per dozen.

STANDARD TREES, 1 year from bud, 40 cents each.

PYRAMIDAL AND DWARF TREES, 2 to 3 years from bud, well branched, 50 cents each; \$4 per dozen.

PYRAMIDAL AND DWARF TREES, 1 year from bud, 40 cents each.

WINDSOR (New Cherry), \$1 each.

SELECT PLUMS.

STANDARD PLUM TREES.

These are generally five to six feet in height, and like all the stone fruits, should have heads near the ground, making what we term Dwarf or low Standards.

DWARF AND PYRAMIDAL PLUM TREES.

These are adapted to Garden culture, being just as easily grown in the Bush or Pyramidal form as the Pear or Cherry. The trees furnished by us, for this purpose, are from two to three feet in height.

PRICES.

STANDARD AND DWARF TREES, 2 to 3 years	50 cents each; \$5.00 per doz.
“ “ “ 1 year	40 cents each.
“ “ “ extra size	75 cents to \$1.00 each.

NAME.	COLOR.	DESCRIPTION.
Syrian,	White,	Bunches of immense size; have weighed twenty pounds.
Trentham Black,	Black,	An excellent grape.
Venn's Black Museat,	Black,	(New). Abundant bearer; thrives well in a cold house under same treatment as Black Hamburgh.
White Museat of Alexandria,	White,	A deservedly esteemed variety.
White Nice,	White,	Very large bunches; showy and fine.
White Sweetwater,	White,	An early variety.
Wilmot's No. 16,	Black,	Seedling of Black Hamburgh, of higher flavor.
Zinfindal,	Black,	A hardy prolific fine sort.

Many suppose it is necessary to have their vines forwarded *in the pots*; but this is an error, except in the *growing season*. For transportation, the plants should be taken out of the pots, and packed securely in cloth or moss. The vines will go safer in this way, and the expense of carriage will be greatly reduced.

FIGS.

Price, \$1.00 each; \$9.00 per dozen.

NAME.	DESCRIPTION.
Adam,	Very large; turbinate; brownish purple.
Angelique,	Medium; skin yellow; flesh rose-colored; very good.

ROSES.

For prices, see page 39.

We separate our Roses into two divisions:

DIVISION I.—Summer Roses, or those which bloom in June and July only.

DIVISION II.—Perpetual or Autumnal Roses, or those which bloom more than once in a season; many of them flower continuously.

DIVISION I.—SUMMER ROSES.

Class I.—Climbing or Sarmentous Roses.

NAME.	DESCRIPTION.
Baltimore Belle,	Pale blush, changing to white.
Bennett's Seedling,	Pure white; double flowers, small size.
Gem of the Prairies,	Red; large, flat flowers.
Queen of the Prairies,	Rosy-red; large foliage, deeply serrated.

Class II.—Austrian Roses.

NAME.	DESCRIPTION.
Persiau Yellow,	Deep bright yellow; small, but prettily formed. Budded plants only, 75 cents each.

Class III.—Moss Roses.

NAME.	DESCRIPTION.
Common Moss,	Beautiful rose-colored buds. Budded plants only; 60 cents; six for \$3.00.
Countess of Murinais,	White, tinged with flesh; very useful.
Glory of Mosses,	Pale rose; large flowers. Budded plants only; 60 cents; six for \$3.00.
Graeillis or Prolifie,	Pink buds, delicately fringed with moss; the best of all. Budded plants only; 60 cents; six for \$3.00.
Princess Adelaide,	Pale rose; good in bud and flower.

Class IV.—Miscellaneous Roses.

NAME.	DESCRIPTION.
Blanchefleur,	White, tinged with flesh; very fragrant; early.
Charles Lawson,	Rose; large, full flowers; fragrant.
Chenedolle,	Bright red; large, double.
Madame Hardy,	White, large, full; a splendid, fragrant sort.
Madame Plantier,	Pure white; fine for hedges and massing.
Madame Zoetman,	Delicate flesh, changing to white.
Oeillet Flammande,	White, striped with rose; the best variegated kind.

DIVISION II.—PERPETUAL OR AUTUMNAL ROSES.

Class I.—Bengal or China Roses.

These need winter protection.

NAME.	DESCRIPTION.
Agrippina,	Velvety crimson; exquisite buds.
Douglass,	Crimson; larger size than above.
Ducher,	Pure white.
Duchess of Edinburgh,	Crimson, turning lighter as bud expands.
James Sprunt,	Flowers much like Agrippina; climbing habit.

Class II.—Bourbon Roses.

A slight protection renders these roses hardy.

NAME.	DESCRIPTION.
Appolline,	Rosy-pink; cupped form; very valuable.
Duchesse de Thuringe,	White, tinged with lilac.
Edward Desfosses,	Carmine-rose.
George Peabody,	Crimson, with a shade of carmine.
Hermosa,	Rose-color; always in flower.
Queen of Bourbons,	Fawn and rose; fragrant.
Souvenir de la Malmaison,	Flesh, tinged with fawn; very large.

Class III.—Noisette or Champney Roses.

In the North these are too tender for planting outside, except in well-sheltered places, and then carefully protected through the winter. Their main value is for planting in conservatories.

NAME.	DESCRIPTION.
Celine Forestier,	Pale yellow, deeper toward the center.
Lamarque,	White, with sulphur center; often in large clusters.
Marechal Niel,	Deep yellow; very large; highly scented. Requires careful treatment.
Pumila,	Salmon, shaded with rose; very free.
Solfaterre,	Sulphur yellow; a most useful kind.

Class IV.—Tea Roses.

More tender than most other classes, and need to be carefully protected over the winter. They well repay extra care.

NAME.	DESCRIPTION.
Bon Silene,	Rosy-earmine; beautiful, fragrant buds.
Catharine Mermet,	Silvery flesh, most beautiful of all.
Countess Riza du Pare,	Bronzed rose; highly scented.
General Tartas,	Buff rose; fine buds.
Gerard Desbois,	Red; fine habit and form.
Gloire de Dijon,	Salmon and buff; nearly hardy; a well-known climber.
Homer,	Salmon-rose, often mottled, and then exquisitely beautiful.
Innoceente Pirola,	(New 1878). Creamy white, something like Niphetos and of better habit. Price 75 cents.
Isabella Sprunt,	Sulphur yellow; beautiful buds.
La Princesse Vera,	Creamy-white, with coppery-yellow. Price 60 cents.
Madame Bravy,	Creamy white; very sweet; superb.
Madame de Vatry,	Red, shaded with salmon; long a favorite.
Madame Lambard,	Reddish-salmon, sometimes rosy flesh.
Marie Dueher,	Salmon-rose; good habit.
Marie Guillot,	White, faintly tinged with yellow.
Marie Van Houtte,	Pale yellow, often whitish; edge of petals sometimes rose.
Monsieur Furtado,	Beautiful little yellow flowers, very full.
Odorata,	Carmine, changing to pink or blush; intensely fragrant.
Perle des Jardins,	Straw-color; large, well-formed flowers.
Safrano,	Saffron and aprieot; lovely buds.

Class V.—Hybrid Tea Roses.

A new group, flowering profusely; hardy as the Bourbons. We offer two sizes: one grown in 4½ inch pots, the other in 2½ inch pots.

NAME.	DESCRIPTION.
Beauty of Stapleford,	Rosy-red, tinged with violet; fine in bud. Large size, 75 ets.; small size, 50 cents.
Cheshunt Hybrid,	Cherry-carmine, with a shade of violet. Price as for common sorts.
Duchess of Westminster,	Carmine-rose, with faint tea odor. Large size, 75 cents; small size, 50 cents.
Hon. George Baneroff,	Red, shaded violet crimson; highly scented. Large size, \$1.00; small size, 75 cents.
Jean Sisley,	Lilac-rose; very large and full. Large size, 60 ets.; small size, 40 cents.
La France,	Delicate silvery-rose. The sweetest of all roses. Sizes and prices as for common sorts.
Michael Saunders,	Bronzed-rose, a very distinct kind. Large size, 75 cents; small size, 50 cents.
Pearl,	Rosy-flesh, very pretty in bud. Large size, 75 cents; small size, 50 cents.
Reine Marie Henriette,	Cherry red, a beautiful, pure shade. A splendid climber. Common prices.
Viscountess Falmouth,	Silvery pink; very large flowers, moss scented. Large size, 75 cents; small size, 50 cents.

Class VI.—Polyantha Roses.

NAME.	DESCRIPTION.
Paquerette,	Pure white, one inch in diameter, like double cherry blossoms. Plants from 2½ inch pots, 75 cents.

Class VII.—Hybrid Climbing Roses.

NAME.	DESCRIPTION.
Climbing Jules Margottin,	Carmine-rose; beautiful buds. Large plants, 60 cents each; six for \$3.00. Small plants, 40 cents each; six for \$2.00.
Climbing Bessie Johnson,	(New). Rosy blush; highly scented. Large plants, \$1.00; small plants, 50 cents.
Climbing Victor Verdier,	Rose, with carmine center.
Princess Louise Victoria,	Soft, salmon-pink; well formed; of exceeding beauty.

Class VIII.—Perpetual Moss Roses.

NAME.	DESCRIPTION.
Madame Edward Ory,	Carmine-red; flowers freely.
Salet,	Light-rose; good buds.

Class IX.—Hybrid Noisette Roses.

NAME.	DESCRIPTION.
Coquette des Alpes,	White, slightly tinged with pink.
Coquette des Blanches,	White; growth more bushy and symmetrical than the others.
Eliza Boelle,	White, delicately tinged with pink; beautiful form. Small plants, 40 cents.
Mme. Auguste Perrin,	Pink; prettily formed. Small plants, 50 cents.

Class X.—Hybrid Remontant or Hybrid Perpetual Roses.

NAME.	DESCRIPTION.
Alfred Colomb,	Brilliant carmine crimson; highly scented.
Anne de Diesbach,	Carmine, a beautiful clear shade.
Baron de Bonstetten,	Velvety maroon; a splendid sort.
Baronne Prevost,	Pure rose-color, large, fragrant; very hardy.
Caroline de Sansal,	Pale flesh-color; large, full flowers.
Charles Lefebvre,	Reddish-crimson, velvety and rich; grand form.
Countess of Oxford,	Carmine, tinged with lilac; fine in bud.
Francois Michelin,	Carmine-rose; fine, globular form; very distinct.
General Jacqueminot,	Brilliant crimson; fragrant; very effective.
Hippolyte Jamain,	Carmine-red; tinged with lilac; rich foliage.
John Hopper,	Rose, with carmine center.
La Reine,	Glossy rose; free-flowering; very hardy.
Madame Victor Verdier	Carmine-crimson; well formed; very fragrant.
Marie Baumann,	Carmine-crimson, of exquisite color and form.
Marie Rady,	Vermilion, shaded with crimson. A superb sort.
Maurice Bernardin,	Crimson, overlapping vermilion; very productive.
Paul Neyron,	Deep rose-color; largest of all roses.
Victor Verdier,	Bright rose, with carmine center; very free.

VARIETIES THAT CANNOT BE SENT BY MAIL.

Certain kinds propagate from cuttings with so much difficulty, that we only grow them as *budded* plants to be sent by express. All parties desiring plants by mail will please consult this list before sending their order:

Blanche fleur,	Common Moss,	Glory of Mosses,
Gracilis (Moss),	Madame Hardy,	Madame Zoetman.
Persian Yellow,		

PRICES OF ROSES---FOR OLD VARIETIES.

This price list applies to all varieties that are not priced separately.

LARGE PLANTS BY EXPRESS.

Single Plants		50 cents.
6	" Six varieties or less	at 45 cents, \$2 70

30	" More than fifteen varieties	at 30 " 9 00
40	" Twenty varieties or less	at 26 " 10 40
40	" More than twenty varieties	at 28 " 11 20
50	" Twenty-five varieties or less	at 25 " 12 50
50	" More than twenty-five varieties	at 26 " 13 00

For any number of plants over fifty, 25 cents each, provided more than one plant of a variety be taken. Special terms will be given to parties wanting 500 or more, the price depending upon the varieties desired. All large planters who have not bought of us are urged to visit our grounds and see the quality of the plants we offer; we are sure they will be convinced of the superiority of our stock, and that the best are the cheapest.

SMALL PLANTS BY MAIL OR EXPRESS.

Grown in 2½ and 3-inch pots. This price-list applies to all varieties except those priced separately.

100	" Fifty varieties or less	at 12 " 12 00
100	" More than fifty varieties	at 14 " 14 00

Special attention is called to the care we have always exercised in keeping our stock true to name, and also, that with a very few exceptions, separately noted, we grow those sorts only that are thoroughly distinct, and of *healthy* habit. Plants that are false to name or are constitutionally of weak growth and sickly habit, are dear at any price.

When plants of this size are sent by express, we add to the number as compensation for the express charges.

PETITE MARGUERITE.

A new summer pear of special merit, succeeds as a standard or dwarf.

PETITE MARGUERITE.

Medium size, skin greenish yellow, with brownish red cheek, and covered with greenish dots. Flesh fine, melting, juicy, vinous, and of *first quality*. Tree a *vigorous*, upright grower, and an early and abundant bearer. Succeeds admirably as a standard or dwarf. *The finest pear of its season, and worthy of special attention.* Ripens latter part of August. 75 cents each. (See cut.)

C. G. W., of Parsons, Kansas, writes December 24th, 1881, as follows, "Your Petite Marguerite pear has fruited with me here three seasons. The last season I picked five (5) bushels and placed them for marketing in baskets ten (10) of which made a bushel. Each basket sold for one dollar, making \$50.00 net for the fruit."

WATERLOO PEACH.

BY MAIL POSTPAID. Price, 40 cents each.

We can offer fine young trees, and parties living remote from express offices should avail themselves of this opportunity to secure this desirable novelty.

Natural size; from a photograph of a specimen, raised in our nurseries during the summer of 1879, weighing 21½ ounces.

An early pear of great size and fine flavor. \$1.00 each.

Ellwanger & Barry's Order Sheet of Fruit Trees, E

Parties in Ordering will oblige us by using this Sheet. In remitting please make allow
for Packing, and give explicit Shipping directions.
