FALL PRICE-LIST, 1883,

OF

MOORTON FRUIT GARDEN.

ONE MILLION PLANTS AND VINES.

700,000 SHARPLESS, BIDWELL, MINER, WILSON, CUMBERLAND, AND MAN-
CHESTER, THE SIX GREAT MARKET VARIETIES.

30,000 JAMES VICK, THE COMING BERRY.

The Fall, in many sections of the country, is the proper time to set plants, and especially Grape Vines and Blackberries. The soil works up in better condition than it usually does in the Spring, and there always seems to be more leisure time for this work. Plants set in the Fall live better and make better growth than when set in the Spring.

I ask it as a favor that my friends will write me early and say about what they want for this fall planting. The money can be sent when the stock is ordered to be shipped, any time after October 10th, as our fall shipping will not commence before October. Plants which I sent out last spring are giving satisfaction all over the country, and in my next catalogue, which will be out in January, I will show what my patrons are saying about plants received of me and the manner in which I pack.

I truly thank my friends for their liberal patronage in the past spring trade. I am determined to make my stock give satisfaction in every respect, and I believe lovers of small fruits throughout the country are fast finding this out.

To all my friends, respectfully,

C. BOGGS,

MOORTON, DEL.
