Briggs Bros & Co.

U.S. Department of Agriculture
Washington

DESCRIPTIVE
Catalogue

FLOWER, GARDEN AND FIELD SEEDS.

1885.

ROCHESTER, N.Y.

L. M. CASE, Waldron, Ill.: "I feel as if I owe you thanks for the good quality of seeds received of you. You sent me seventy-five packets of flower seeds and twenty papers of vegetable seeds. They were the best and largest papers for the price I ever bought."

MRS. AUGUSTA WETHERN, took first premium on Bouquet of Flowers. Seed was purchased of Briggs & Brother.—Farmington (Me.) Chronicle.

MRS. A. H. CALDWELL took the first premium on the flower display at the late Southern Wis. Fair, the successful products having been raised from seeds purchased from Briggs & Brother. Mrs. C. has taken premiums on flowers raised from Briggs & Bro.'s seeds for the last five years.—Janesville (Wis.) Gazette.

MRS. E. A. NEWCOMB, Waterbury Center, Vt.: "Inclosed please find the award to me of first premium on basket of flowers and second premium on bouquet, grown from seeds purchased from you."

MR. H. DEWEY, of Allegan, made a fine display of flowers, which took the first premium. These flowers were raised from seed purchased from Briggs & Bro.—Allegan (Mich.) Democrat.

DAVID PENCE, of Cross Keys, Va.: "I can say I never saw seeds come better. I shall hereafter plant your seeds and recommend them to my neighbors."

D. S. BURNHAM has a most beautiful show of Asters, the seeds of which Mr. Burnham obtained from Briggs & Bro. of Rochester, N. Y. There were twenty varieties in fifty pots, and all in full bloom. Mr. Burnham was awarded the first premium.—Nashua (N. H.) Telegram.

BEST display of Asters—CASTNER RAPLEE. Seed from Briggs & Brother.—Dundee (N. Y.) Recorder.

BEST collection of Asters; MRS. B. LOMBARD. * * Seed purchased of Briggs & Bro.—Gleaner (Mass.) Advocate.

W. H. CLARK took first premium on Asters. They were raised from seed grown by Briggs & Bro.—Bellefontaine (O.) Republican.

FIRST PREMIUM was awarded Briggs & Bro. on best collection of Asters at the State Fair at Albany, N. Y.

THE premium for best collection of Balsams was awarded to MISS GEORGE LOVELL. The seeds were purchased of Briggs & Brother.—Booneville, (N. Y.) Herald.

MRS. A. C. HAWLY, Jefferson, first premium on Asters. Seed from Briggs & Brother.—Jefferson (O.) Sentinel.

EMMA M. EDDY received first premium on collection of Asters, the seeds of which came from Briggs & Brother.—Palmyra (N. Y.) Courier.

MRS. V. MILLER, Susquehanna Depot: "Your seeds have been the most satisfactory I have ever used, not only the Flower Seed, but also the Vegetable."

THE Montrose (Pa.) Republican says: "MRS. JOSEPH LEWIS obtained the first premium for the best collection of Flowers and Bouquet at the Nicholson Fair. She purchased her seeds of Briggs & Brother."

THE Floral Department was creditable indeed. The flowers entered by G. B. MCGINNIS, were very fine. First premiums were attached to nearly all his collection. The seeds were purchased of Briggs & Brother.—Brooklyn (Iowa) Journal.

THE beauty of beauties was a Bouquet of Flowers raised by Mrs. MARY CLARK, of Maria, from seed procured of Briggs & Bro. It eclipsed anything of the kind in Floral Hall.—State Exchange.

MRS. GEORGE N. JOHNSON, Leroyville, Pa.: "I send you a specimen of the seed I raised from the New Variegated Cockscorn. They were perfect; almost as large again as the colored plate in your Catalogue. As a lady said, it was a perfect beauty."

AT the Winfield (N. Y.) Union Agricultural Fair, S. W. NICHOLS was awarded first premium for best Cockscorn. Seed bought of Briggs & Brother.—West Winfield Standard.

FIRST premium for greatest variety of Flowers, seed from Briggs & Brother. Castner Raplee.—Dundee, N. Y., Recorder.

EMMA M. EDDY received first premium on collection of Cut Flowers, the seed of which came from Briggs & Brother.—Palmyra, N. Y., Courier.

BEST Cut Flowers, MISS CARRIE DOUGLASS. They were grown from Briggs & Bro.'s seeds.—Montpelier, Vt., Messenger.

THE beautiful display of flowers made at the County Fair by Dr. A. SEVERANCE took first premium. The flowers were all grown from seeds purchased of Briggs & Brother.—Great Falls, N. H. Journal.

MRS. A. M. MASTERS obtained first premium on best Cut Annual Flowers. Seed from Briggs & Brother.—Greenville, O., Times.

MR. and MRS. A. W. HULING took forty-one premiums at the Clermont Co., O., Agricultural and Horticultural Exhibition on the products of Briggs & Brother's seeds.

THE premiums awarded to MRS. BELLE RAYNARD on Flowers and Vegetables, were on flowers and vegetables from seed purchased from Briggs & Brother.—Chillicothe, Mo., Tribune.

BEST display of Phlox. MRS. ROBERT WORTS. Seed from Briggs & Brother.—Romeo, Mich., Observer.

P. H. SKAGGS, Blue Sulphur Springs, West Va.: "I must say that the seeds I bought of you are cheaper and of a better quality than I can get of any other dealer."

MRS. S. D. WORDEN, who took first premiums on Pansies, buys her seeds of Briggs & Brother.—Coudersport, Pa., Journal.

LET me say a word about my Camellia Balsams. In the spring I got a paper of seeds of four new varieties, recommended in Briggs' Catalogue as "particularly fine." The low growth and general bushy appearance of the plant have made it no especial favorite of mine. But the engravings of it looked so enticing that I could not resist giving it another trial. And I will long rejoice that I did. I pruned the side branches as directed, giving ambitious shoots constant nipping. And I was not prepared for the height the plants attained, the perfection, doubleness and rare beauty of the flowers. By some they were pronounced unequalled by anything in the garden. On pure white ground were deep brilliant crimson stripes on some—on others, veins, spots and streaks of lovely pink, red, lilac and crimson. Pruned in this way, they were planted very closely, taking little room, and forming a border of wondrous beauty. I never wish to be without them.—JANE BOSWELL MOORE in the American Farmer.

AT the Winfield, N. Y., Union Agricultural Fair, S. W. NICHOLS was awarded first premium for best marigold plant. Seed purchased from Briggs & Brother.—West Winfield Standard.

A. R. WHEELER, at the late fair, exhibited some fine Stocks, La Superb, New Rose and Dwarf Victoria Asters, which were awarded the first premium. All raised from seed grown by Briggs & Bro.—Ypsilanti, Mich., Commercial.

FIRST premium on Pansies, awarded to T. R. CONKLIN. Seed from Briggs & Brother.—Lapeer, Mich., Clarion.

MRS. R. CHAWFORD, best display of Plants and Flowers. Seed from Briggs & Bro.—Belleville, Ky., Telegraph.

MRS. S. B. HARP, who received the premium for the splendid collection of Pansies exhibited, procured her seed of Briggs & Bro.—Pittsfield, Mass., Eagle.

MRS. H. G. JOHNSON, who took premium on Pansies, buys her seed from Briggs & Bro.—Clarksburg, West Va., Sun.

EACH year I bought one dollar worth of seed of you. I never purchased a seed of any one else and am sure I never shall want to, so long as your seed proves so entirely satisfactory. My Pansies were perfect beauties, almost as large as any of which you make mention in your Catalogue. Some of them measured two and three-eighths inches. They are the first Pansies I ever raised. Isn't that doing well!

GEORGE LOVELL
Booneville, Oneida Co., N. Y.

DAVID SANDHOVEL was awarded first premium on Pansies. Seed from Briggs & Bro.—Fulton, N. Y., Patriot and Gazette.

EDWARD A. HAY, Coplay, Pa.: "From the Pansy seed which I received from you, raised the flowers measuring two and one-half inches, and I sold three flowers this day for twenty-five cents. I shall want more seeds for fall sowing."

MRS. A. M. MASTERS obtained first premium on Pansies. Seed from Briggs & Bro.—Greenville, O., Times.

EMMA M. EDDY received first premium on Seeding Petunias, the seeds of which came from Briggs & Bro.—Palmyra, N. Y., Courier.

DR. J. Y. MCKEE, of Center Co., Pa., takes first premium on Phloxes. The seed was purchased of Briggs & Bro.

GEO. L. KABBICHT, writing from Blacksburg, Montgomery Co., Va., says: "The Double Portulaca were admired by all who saw them."

MARY A. THOMAS took first premium on Petunias. Seed from Briggs & Bro.—Fairfield, Iowa, Ledger.

E. M. MARTZ, first premium on Cut Annual Flowers. Seed furnished by Briggs & Bro.—Greenville, O., Journal.

THE flowers of DR. S. W. MORRISON, which secured the first, second and special premiums, were grown from seed purchased of Briggs & Bro.—Oxford, Pa., Press.

GEO. L. KABBICHT, writing from Blacksburg, Montgomery Co., Va., says: "The Sensitive Plant spread out near six feet in the open garden."

BEST display of Stocks, MRS. R. COY KENDAL. Seed from Briggs & Bro.—Romeo, Mich., Observer.

BEST and greatest variety of ten weeks stock, MRS. J. SEWALL. Seed from Briggs & Bro.—Saudusky, O., Paper.

BEST display of Verbenas—CASTNER RAPLEE. Seed from Briggs & Bro. Dundee, N. Y., Recorder.

MRS. H. J. KENFRED, best collection of Verbenas. Seed bought of Briggs & Bro.—Hastings, Mich., Home Journal.

MRS. C. D. BEEMAN, best display of Zinnias and best Bouquet. The seeds were purchased of Briggs & Bro.—Waukon, Iowa, Standard.

NELLIE McJACKSON, first premium on Everlasting Flowers. The seeds were bought of Briggs & Bro.—Waukon, Iowa, Standard.

MRS. A. M. MASTERS obtained first premium on best Ornamental Grasses. Seed from Briggs & Bro.—Greenville, O., Times.

BEST variety of Verbenas, best collection Carnations; best show of Japan Pinks, &c., &c.—Janesville, Wis., Gazette.

"WE know this firm to be perfectly reliable, and anything purchased of them will be found just what it is represented."—Concord, N. H., Independent Statesman.

"ONE of the best establishments in America."—Memphis, Tenn., Independent.

EXTRAORDINARY INDUCEMENTS

Wishing to give *those who may favor us* with their orders *every possible advantage*, we substitute the following terms for those at the head of second page of this catalogue.

Parties remitting \$1.00, may select Seeds <i>in Pkts.</i> , at Catalogue prices, amounting to \$1.25.											
"	"	2.00,	"	"	"	"	"	"	"	"	2.60.
"	"	3.00,	"	"	"	"	"	"	"	"	4.00.
"	"	4.00,	"	"	"	"	"	"	"	"	5.50.
"	"	5.00,	"	"	"	"	"	"	"	"	7.00.
"	"	10.00,	"	"	"	"	"	"	"	"	15.00.
"	"	20.00,	"	"	"	"	"	"	"	"	31.00.

On receipt of the amount of the order, we will be pleased to *send* by *mail* to any address in the *United States*, and *postage prepaid*. The above offer is meant to be for flower and Vegetable Seeds, in *packets only*, and *does not* apply to seeds by the ounce, quart, pint, &c.

Our Packets are full size. We put up one-half size Packets.

Our Catalogue prices of Packets, and the price of all other seeds, we think, are, on an average, from 10 to 20 per cent. less than the Catalogue prices of any other party.

Have in mind too, the fact, that nothing is to be added to *our* prices to cover postage and express charges. *Other parties* require 16 cents per lb., and 30 cents per qt., to be added to *their* prices.

*Our Seeds are not surpassed in an *Fly*.*

NOVELTIES IN VEGETABLES, ETC.

Nothing to be added to our Prices for Postage and Express Charges.

In making up your orders we desire that you will have in mind the *fact that nothing* is to be added to our prices to cover *postage and express charges, as is required* by other parties. At our prices we *prepay charges*, except on *Beans, Corn and Peas at bushel rates*.

BEAN, Cleveland's Round Pod •Red Valentine.—It is claimed that this *improved Valentine Bean is ten days earlier* than any other now known. The *Round Pod Red Valentine Bean* is cultivated for its *tender and very fleshy pods*, which remain long on the plants without becoming hard and tough. They make an *excellent*, brittle pickle, and when cooked are *not excelled* by any other dwarf variety." Pkt., 10c; 1-2 pt., 20c; pt., 35c; qt., 65c.

BEAN, Low's Champion.—Mr. Low says of it: "This *new Bean*, originated by me and sent out for the first time the past season, only in packets, is one of the *best Beans ever introduced*. It is an excellent shell bean and as a string bean has but few, if any, equals. It is abundantly productive, pods are large, long and handsome, and the bean, when ripe, is of a beautiful bright red color, and of the finest flavor either green or dry." Pkt., 20c; 1-2 pt., 35c; pt., 60c; qt., \$1.00.

BEAN, Boston Favorite Bush.—For two or three years past there has been brought into Boston market a very handsome large, red pod bush bean, which has been quickly taken by dealers at high prices. It being so highly esteemed in the Boston market it has been named "Boston Favorite Bush Bean." It is remarkably productive, has a large, red, showy pod, very tender as a string bean, and as a shell bean is ahead of all others. Pkt., 10c; 1-2 pt., 25c; pt., 40c; qt., 75c.

BEANS, Best of All.—This variety, imported by us last winter from Germany, and catalogued at page 32, after testing it the past season, desire *especially to recommend it as a superior string Bean*. It is early and very productive. The pods are of a green color, *large, stringless, fleshy, tender*, and of the *finest flavor*. Try it Pkt., 10c; 1-2 pt., 25c; pt., 40c; qt., 75c.

BEANS, Wonder of France.—An *excellent variety of Dwarf French Bean*, producing *long, straight pods in abundance*, and ripening up *very early*. Pkt. 10c; 1-2 pt. 25c; pt. 45c; qt. 80c.

BEANS, Longsword French.—This *remarkably productive and fine-flavored Dwarf French Bean is the earliest European variety grown*. It is *distinct both in seed and habit*, bearing as many as *thirty to thirty-five pods upon a single plant*. Pkt. 25c.

BEANS, Dwarf Mont d'Or.—See page 31 for this and other novelties in Beans.

BEEF, New Eclipse.—A German variety, claimed by some to be *earlier than the Dark Red Egyptian Turnip Beet* and *superior for market purposes*. Pkt., 10c; oz., 15c; 2 oz., 25c; 1-4 lb., 35c; 1-2 lb., 60c; lb., \$1.00.

SUGAR BEET, Carter's Sugar Cane.—"We challenge any other Beet in cultivation to *equal this in the production of sugar*." So say Messrs. Carter, Dunnett & Beale, the originators. Pkt., 5c; 1 oz., 10c; 2 oz., 15c; 1-4 lb., 25c; 1-2 lb., 40c; lb., 75c.

BEEF, Mangold Wurzel Golden Yellow Mammoth.—A yellow-fleshed variety. This quite distinct sort is a cross between the Long Yellow and Golden Tankard varieties. In form and size it closely resembles the "Red Mammoth." The *flesh, leaf-stalks and mid-ribs of the leaves are golden yellow*. It is a heavy cropper, the root grows about half above the ground, and like that of other yellow-fleshed varieties, is very rich in saccharine matter." Pkt., 10c; oz., 15c; 2 oz., 25c; 1-4 lb., 40c; 1-2 lb., 75c; lb., \$1.50.

CABBAGE, Filderkraut.—See page 34.

CABBAGE, Henderson's Selected Early Jersey Wakefield.—Considered by many as the *best Early Cabbage in cultivation*. Pkt. 10c; 1-2 oz. 25c; oz. 40c. 2 oz. 75c; 1-4 lb. \$1.25; 1-2 lb. \$2.25; lb. \$4.

CABBAGE, Henderson's Early Summer.—One of the best *large Early Cabbage*. About ten days later and heads twice the size of the Wakefield. Pkt. 10c; 1-2 oz. 25c; oz. 40c. 2 oz. 75c; 1-4 lb. \$1.25; 1-2 lb. \$2.25; lb. \$4.

CABBAGE, Henderson's Selected Flat Dutch.—One of the *best Fall and Winter Cabbage grown*. Pkt. 10c; oz. 25c; 2 oz. 45c; 1-4 lb. 80c; 1-2 lb. \$1.50; lb. \$3.

CABBAGE, Improved American Savoy.—The *best Savoy Cabbage grown*. See page 34.

CABBAGE, New Garfield Pickler, Pointed, Red Variety. See page 34.

CARROT, Carter's Gatepost Orange.—Messrs. Carter, Dunnett & Beale say of this: "We now introduce to our clients a *larger Orange Carrot* than has *ever before* been produced, the result of many years high cultivation and careful selection. The roots grow to *immense size*, approaching that of the ordinary *Long Red Mangel*. It is very clean in growth, stands unusually *high out of the ground*, its *enormous size and excellent feeding properties* rendering it of *great value to the stock farmer*. We anticipate a *great demand* for this Carrot." Pkt., 10c; oz., 25c; 2 oz., 40c; 1-4 lb., 75c; 1-2 lb., \$1.25; lb., \$2.00.

CAULIFLOWER, Henderson's Early Snowball.—For forcing under glass during winter and spring, this Early Snowball variety is well adapted, and it may be stated that it does equally well for late planting. In original packets 50c per pkt.

CAULIFLOWER, Early Snowball, True Stock.—Pkt. 25c; 1-4 oz. 50c; 1-2 oz. 80c. oz. \$1.50; 2 oz. \$2.75.

CAULIFLOWER, Italian Early Giant, Erfurt Earliest Dwarf and other choice varieties. See page 35.

CELERY, Solid Ivory.—Messrs. Carter, Dunnett & Beale say of this: "After giving many years careful attention to the cultivation of Celeries we are able to recommend our Solid Ivory as the finest type of a dwarf white celery grown." See also page 35 for prices, etc.

CELERY, Henderson's White Plume.—Our stock of this variety is directly from Mr. Henderson. See remarks, prices, etc., at page 35.

CELERY, White Plume, True Stock.—Pkt. 25c; 1-2 oz. \$1.75; oz. \$3.

CELERY, Henderson's Dwarf White.—See page 35 for this and other choice sorts.

CELERY, Henderson's New Rose.—Stock directly from Mr. Henderson. Pkt. 20c; 1-2 oz. \$1.50; oz. \$2.50.

CELERY, Golden Dwarf and New Golden Heart.—See page 35.

CORN, Early Marblehead.—This is a dwarf variety of Sugar Corn, ears small and the earliest of all the varieties of sweet corn. Pkt. 10c; 1-2 pt. 15c; pt. 25c; qt. 40c.

CORN, Triumph.—Said to be the *earliest of the large varieties*. Flavor *rich, sweet and delicate*. Pkt. 10c; 1-2 pt. 15c; pt. 25c; qt. 40c.

CORN, Egyptian.—A tall, late variety of sweet corn, coming in after Stowell's Evergreen. The ears are *very large* and the flavor rich and sweet. *Superior* in these respects. Pkt. 10c; 1-2 pt. 15c; pt. 25c; qt. 40c.

CORN, Amber Cream.—An excellent, new, second early sweet corn; ears 10 to 14 inches long, with very deep kernels; rich, sugary and tender. Pkt. 10c; 1-2 pt. 15c; pt. 25c; qt. 40c.

KALE, Carter's Welsh.—"A *distinct and superior variety*, the leaves being *exquisitely fringed* and curled to a degree unknown in this useful winter vegetable. The whole of the plant is in a condition for the table, and is of *delicious flavor*. The general appearance of the plant is *most striking and pleasing*." Pkt., 25c.

LETTUCE, Solid-Headed Yellow or Yellow Seeded Butter.

LETTUCE, Golden Spotted.

LETTUCE, Black Seeded Simpson.

LETTUCE, New Salamander.

For above Lettuces, see page 37.

LETTUCE, New Oak Leaved.—Stock from Mr. Henderson, who says of it: "A most distinct and beautiful new variety of Lettuce, offered for sale this season for the first time. The leaves are shaped like those of the oak; the heads are compact, crisp and tender, and it is largely free from that bitter taste peculiar to so many kinds of lettuce. It is claimed also that it is slow in running to seed. Pkt. 15c; oz. \$2.

MUSK-MELON.—For the New Foreign Musk-Melons, Captain Larks, Emerald, Green Gem and Sir Garnet Wolseley, see page 38.

MUSK-MELON.—For the choice varieties, Montreal Market, Hackensack, and Improved Large Green Nutmeg, see pages 37 and 38.

MUSKMELON, Hurff's True Banana.—"This melon grows to the length of *twenty to thirty inches*. The flavor *far exceeds* that of any other Canteloupe, but many with it, as with Bananas, require to cultivate a taste for it. It should always be *very ripe* to be first quality." Pkt., 10c; oz., 20c; 2 oz., 35c; 1-4 lb., 60c; 1-2 lb., \$1.00; lb., \$2.00.

MUSKMELON, Golden Gem.—"This *valuable* new Canteloupe, first named by us three years since, is pronounced by all who have tried it the *best ever grown*. The shape is nearly round, very uniform in size, weighing from 1-2 to 2 pounds each, skin thickly netted, thick meat, flesh of a light green color, inside surface being a beautiful golden yellow. In quality and flavor it is superior to all other varieties, being uniformly rich, sugary and luscious; extra early in ripening, and producing better than any other variety we have ever known." So say the introducers. Pkt., 10c; oz., 15c; 2 oz., 25c; 1-4 lb., 40c; 1-2 lb., 75c; lb., \$1.50.

WATERMELON, American Champion.—"This new Melon, originated in Florida, and was first offered to the public last spring. It is a cross between *Rattlesnake* and *Scaly Bark* Melons. The skin is dark green, mottled with lighter shades; shape slightly oval; size large and remarkably uniform, varying from 25 to 50 pounds; rind very thin, yet remarkably firm; flesh tender, melting, retaining its freshness long after picking. Vines are of extraordinary vigor and astonishingly productive." Pkt., 15c; oz. 25c; 2 oz. 40c; 1-4 lb., 75c; 1-2 lb., \$1.50; lb., \$3.00.

WATERMELON, Pride of Georgia.—This melon originated in the County of Monroe in the State of Georgia. The introducer says of it: "We consider this melon par excellence, superior to all melons of which we have any knowledge. It is a dark green mottled color, nearly oval, ridged like an orange; is firm, will ship well, and when well cultivated in good soil, attains a large size. That which we claim for this melon above all others is, that for crispness and flavor, it stands among all the various types of melons as did Saul among the children of Israel—head and shoulders above them. First time introduced." Pkt., 25c; 1-2 oz., 30c; oz., 50c; 2 oz., 90c; 1-4 lb., \$1.75; 1-2 lb., \$3; lb., \$5.

WATERMELON, Mammoth Iron Clad.—"This melon originated with a prominent melon grower in South Delaware, and resembles in its markings the popular Cuban Queen. In shape and seed, however, they are quite distinct, being deeper and fuller at both ends, with seeds of drab white color. They grow uniformly *very large*, specimens having been grown weighing *seventy-five* pounds each; are *enormous* yielders; flesh *very red* and of *excellent* flavor. The rind is extremely tough and hard, thus rendering them valuable for *shipping*, while their keeping qualities are not surpassed by any other melon." Pkt., 15c; oz., 25c; 2 oz., 40c; 1-4 lb., 75c; 1-2 lb., \$1.50; lb., \$3.

WATER-MELONS, Scaly Bark and other choice and popular varieties see page 38.

WATERMELON, "The Boss."—A *new and distinct* variety. So uniform are they in shape, color and size, that it would be impossible to select one melon which surpassed any other. Skin is black in color; flesh deep scarlet, unusually sugary, crystalline and melting. The rind is very thin and tough; ripens early and is enormously productive. Pkt., 10c; oz., 20c; 2 oz., 35c; 1-4 lb., 60c; 1-2 lb., \$1; lb., \$1.75.

ONION, Carter's New Pyramid Vesuvius.—A *distinct novelty* for the first time offered. It is of the Tripoli type, of mild flavor, most distinct in form, and unique in color, and is certain to secure speedy popularity. Pkt., 15c; oz., 25c; 2 oz., 40c; 1-4 lb., 75c; 1-2 lb., \$1.25; lb., \$2.25.

ONION, Carter's Golden Queen, Carter's Silver Ball, Carter's Golden Globe Tripoli, and White Flat Mammoth. See pages 39 and 40.

PARSLEY, New Perpetual.—A *most distinct* and valuable variety that does not annually run to seed. It has stood without "running away" upon the same land with us for four years, and being of the best curled type, its value is great where a perpetual supply is required. Pkt. 20c.

PEAS.—For Premium Gem, American Wonder, Telephone, Pride of the Market, Stratagem, and other *new* and choice varieties, see pages 40 and 41.

PEA, Cleveland's Rural New Yorker.—This new variety is highly recommended as *very* early, very productive and of excellent quality. We have space for only one of many statements with reference to this pea. "I tested Cleveland's Rural New Yorker Pea in 1883, and found it to be in all respects equal, and in several respects superior, to other strains Eas Peas tested in the Rural experimental grounds. E. S. Carman, Editor Rural New Yorker. Pkts., 15c; 1-2 pt., 25c; pt., 40c; qt., 75c.

PEPPER, Ruby King.—"This new Pepper grows to a larger size than the Spanish Monstrous, and of different shape. The fruits are from 7 to 8 inches long by about 4 inches through, of a bright red color; remarkably mild and pleasant in flavor, and can be sliced and eaten with pepper and vinegar like Tomatoes, making a very pleasant salad. The Ruby King will occupy a similar position among Red Peppers as Golden Dawn among the yellow sorts. Pkt., 15c; 1-2 oz., 25c; oz., 40c; 2 oz., 75c; 1-4 lb., \$1.25.

PEPPER, Golden Dawn. See page 41.

RADISH.—For Olive-Shaped, Globe-Shaped, Turnip-Shaped, and Long Rooted, *new* and other choice varieties of all colors, see pages 41 and 42.

SPINACH, Carter's Market Favorite.—"We highly recommend this for the *American* market. It supercedes all others for its *thick* texture of leaf and *lengthened* durability of plant." Carter, Dunnett & Beale. Pkt. 5c; oz. 10c; 2 oz. 15c; 1-4 lb. 25c; 1-2 lb. 40c; lb. 75c. See page 42 for description but not for price.

SPINACH.—For other *new* and choice Thick-Leaved varieties, see page 42.

SQUASH, Mammoth Chili.—"Grows to an *enormous* size, often weighing *over 200 pounds*. Excellent for all uses." Pkt. 10c; oz. 25c; 1-4 lb. 80c.

SQUASH.—For Essex Hybrid and other *new* and choice varieties, see pages 42 and 43.

TURNIP, Carter's New Purple-top Strap-leaf Yellow.—"A *new* variety of the Dutch type of *quick growth*. The flesh is a *rich* yellow of exceedingly *fine* texture and *delicious* flavor; top *deep purple*, giving it a very handsome appearance. Pkt., 10c; oz., 15c; 2 oz., 25c; 1-4 lb., 40c; 1-2 lb., 75c; lb., \$1.25.

TURNIP.—Would refer the reader to pages 44, 45 and 46 of this catalogue, where he will find a *long* list of the *newest* and *choicest* varieties of turnips, with descriptions and prices.

TOMATO.—For Early Mayflower, Carter's Dedham Favorite, Livingston's Perfection, Livingston's Favorite, Essex Hybrid, and other *new* and choice varieties, see pages 43 and 44.

TOMATO, Carter's Perfection.—"Awarded First Prize—Tomato Show—Royal Horticultural Society, August 26th, 1884." "Undoubtedly the *finest* Novelty in Tomatoes for many years. It is a *prodigious* cropper, *very handsome* in form, distinct in color and of *exquisite* flavor. Immensely superior to any other variety named 'Perfection,' already in commerce. Per pkt., 25c.

NOVELTIES IN FLOWER SEEDS, ETC.

- ABRONIA umbellata grandiflora.** See page 3.
ABRONIA, villosa. See page 4.
- ACROCLINIUM ROSEUM, New Double, Large Flowering.**—A distinct double form of this pretty annual, possessing all the delicate tints and shades of color peculiar to the single variety. For *bouquets* or *wreaths* nothing more beautiful in the way of *Immortelles* has been introduced. Pkt. 10c.
- ACROCLINIUM ALBUM, New Double, Large Flowering.**—White.—Flowers like the *Roseum*, except in color. Pkt. 25c.
- ALYSSUM, Benthami compactum.**—A new and very pretty variety, of the well-known *Sweet Alyssum*, growing to the height of about six inches. Flower spikes pure white. Pkt. 15c.
- AMARANTHUS, Sunrise.**—Comparatively new. A brilliant variety. See page 4.
- ASTER, Victoria, Sulphur Yellow.**—A pleasant, light yellow—a new color in Asters. Pkt. 20c.
- ASTER, Victoria Dwarf, Sulphur Yellow.**—More dwarf than the above; flowers the same. Pkt. 20c.
- BALSAM, "Challenger Prize."**—The most magnificent, perfectly double Balsam in cultivation. The colors are brilliant, comprising Pure White, White shaded with Pale Lemon, Cream White, Salmon Rose, Rich Crimson, Deep Pink, Violet, Bright Purple, Plum, and superbly mottled varieties. Pkt. 15c.
- BALSAM.**—See page 6 for New Carnation Striped, Solferino, Victoria, and Imperialis Varieties. *Splendid.*
- CANDYTUFT, New Dwarf or Tom Thumb hybrids, (Iberis Nana Hybrida), Alba (white), Carnea (flesh-colored), Lilacina, (lilac), Purpurea (purple), Rosens (rose-colored),** These colors *separate or mixed*, each Pkt. 10c.
- COCKSCOMB, Carter's Empress.**—The finest Cockscumb in cultivation. The color is a bright crimson, with a rich velvety appearance. It is extremely double and well formed. Specimens have been exhibited measuring 33 inches from point to point, and 10 inches across. Pkt. 20c.
- CHRYSANTHEMUM carinatum, (tricolor), Eclipse.**—Exceedingly showy, new variety, resembling in form of flower the well-known Chrysanthemum Burdigeanum, but surpassing it greatly by its striking colors which are pure golden yellow, with a bright purplish scarlet ring or center in the ray florets, the disk being dark brown. Pkt. 20c.
- CHRYSANTHEMUM coronarium, Sulphureum Flore Pleno.**—Flowers very double and of a most delicate lemon or sulphur shade. Fine for *bouquets* or for general decorative purposes. Pkt. 20c.
- COBÆA scandens alba.**—A pure white flowering variety. Pkt. 25c. See page 10.
- DOUBLE DAISY, "Longfellow"** (Bellis perennis flore pleno.)—The flowers of this variety are of unusual size and doubleness, and are of a dark rose color. Fine for *bouquets*. Pkt. 20c.
- DELPHINIUM (Imperiale alba flore pleno,) Emperor, Larkspur, Pure White.**—This new pure white flowering variety will be greeted as a welcome addition to the other colored profuse-flowering sorts. Pkt. 25c.
- DIANTHUS Hedewigi Diademata, and Eastern Queen and Crimson Belle,** are the most showy varieties of the annual-flowering Dianthus. See pages 8 and 9.
- EUCHARIDICUM BREWERI.**—A rare and truly magnificent species of dwarf, spreading habit of growth. The color of the flowers is a pleasing purplish rose, shading to white in the center. It flowers profusely and is of the same easy culture as the different kinds of Clarkia. Pkt. 20c.
- GAILLARDIA, New Double-flowering—(Gaillardia Pieta Lorenziana.)** See page 9 for description and price.
- NEW GODETIA, "Lady Satin Rose"**—Admitted to be the most unique introduction of modern times. Unequalled for brilliancy, general beauty. Fine for groups or pots. 10c.
- NEW GODETIA, "Spotted Carpet."**—A charming petite dwarf variety, forming a curious carpet-like bush, bearing myriads of chaste and pretty flowers of pure white ground, with a bright carmine spot at the base of each petal. Pkt. 10c.
- IMPATIENS SULTANA.**—A new perennial Balsam which though specially suited for decorative purposes in the hot-house and green-house, has also proved to be most valuable for summer bedding. Flowers are of brilliant rose-scarlet, and produced so profusely that a plant appears to be a perfect ball of flowers. Pkt. 25c.
- IRIS ROBINSONIANA, (The Wedding Flower of Lord Howe's Island.**—This gigantic species attain a height of 6 feet or more, with large sword-shaped leaves and large pure white flowers, marked with golden yellow on center petals. The flowers are about 4 inches in diameter and quickly fade, but as they are very numerous and quickly succeed each other, the plant retains its beauty for a long time. Pkt. 20c.
- MARIGOLD, Compact French Gold Striped.**—An unequalled variety for bedding; height about 6 inches by 12 inches in diameter; very dense and thickly studded with large flowers regularly striped with chestnut brown on bright yellow ground. Pkt. 10c.
- MIGNONETTE, New Large-Flowering White Upright.**—A vigorous grower and profuse bloomer, producing spikes of bloom 12 to 15 inches in length. An exceeding fragrant, white-flowered variety. Pkt. 10c.
- MIGNONETTE, "Machet."**—A splendid Reseda. The dwarf and vigorous plants are of pyramidal growth, and furnished with very thick, dark green leaves; they throw up numerous stout flower-stalks, terminated by massive spikes of deliciously scented red flowers. A distinct sort. Pkt. 10c.
- MIGNONETTE, Golden Queen.**—For this and other splendid varieties, see page 11.
- MIMULUS, Carter's New Queen's Prize.**—A most magnificent strain of this easily cultivated and brilliant-colored flower. Many of the flowers measure from 2 to 3 inches in diameter, the color comprising exquisite mottled shades of rich purple, crimson, yellow, ruby, etc. Pkt. 20c.
- NEW NASTURTIUM, "Lady Bird."**—A pretty and distinct Nasturtium. The ground color is rich golden yellow; each petal barred with a broad vein of light ruby crimson. It is a charming addition to the Tom Thumb or Dwarf compact section. Pkt. 15c.
- NASTURTIUM, "Empress of India."**—Novelty of 1883. Awarded a first class certificate by the Royal Horticultural Society of London. See page 12.
- NEW NEMOPHILA, Atomaria Atro-Cerulea.**—The color of the flower is a deep ultramarine, fine white center, with a zone of black purple. It was highly praised on the occasion of receiving the first-class certificate at South Kensington. Pkt. 20c.
- PANSIES TRIMARDEAU, (Viola tricolor maxima.)**—An entirely distinct and beautiful new race of this popular flower. The plants are of a vigorous though compact habit; the flowers are carried well and each one is marked with three large blotches or spots. They are of a refined form and present a notable difference from those of all known races in being of a size hitherto quite unattained in this genus. The seed offered was saved exclusively from finely formed flowers of the richest and most varied shades of color. Pkt. 40c.
- PANSIES, Carter's Inimitable.**—The varied beauty of coloring and perfection of outline possessed by this strain of "Inimitable" Pansy has obtained for it general praise. Seed saved by one of the greatest amateur Pansy growers of England. Pkt. 40c.
- PANSIES, Carter's Fancy.**—Flowers large and of the most showy and brilliant colors and markings. Pkt. 10c.
- NEW SWEET PFA, "Adonis."**—This very pretty and distinct novelty supplies a want long felt; the bright, rosy carmine or pink blossoms contrasting most pleasantly with the Pure White, Scarlet and other decided colors already in cultivation. Pkt. 20c.
- PETUNIA, Carter's Emperor, Double Rosette.**—The magnificent double flowers of Carter's Double Rosette Petunias are exquisitely fringed, and represent almost every shade of color. The seed may be relied upon to produce from 25 to 30 per cent of double flowers. Eight distinct varieties, each including a variety of color, fringed, laced, scalloped, etc. Pkt. 75c.

PANSIES, Odier and other splendid varieties, see pages 12 and 13.

PETUNIA, Fimbriata Delicata.—The refined form and the lovely colors of the Single Fringed Petunias afford sufficient reasons for the universal popularity which they have acquired. The present *Novelty* is highly characteristic of this class; its *charming* flowers are *white*, but the markings of the throat, and particularly the deeply fringed petals are of a *most delicate* and pleasing shade of *rosy violet*. Pkt. 50c.

PETUNIA, Large-Flowering Yellow Throated.—(*Petunia grandiflora intus aurea*).—These Petunias constitute a class of *rare beauty*, and have been found to come true from seed. The characteristics are *very large sized* flowers of *faultless* form, with a broad and deep yellow throat which is generally veined after the manner of the *Salpiglossis*. Pkt. 75c.

PETUNIA, (Grandiflora Fimbriata flore pleno.) "Lady of the Lake."—In fecundating the *Petunia fimbriata alba* with the pollen taken from this *magnificent, Pure White, Double Fringed Petunia*, the seed obtained will perpetuate the latter at the rate of about 30 per cent. We now offer such seed and warmly recommend the cultivation of this splendid variety. Pkt. 75c.

PETUNIA, Double Lilliput, (Petunia nana compacta multiflora flore pleno.)—The dwarf, dense bushes, studded with numerous and *exceedingly pretty*, small, double flowers of the most charming colors, are much admired. The flowers are spotted, striped and self-colored, and give to the plants an *uncommonly pleasing appearance*. The seed will produce from 50 to 60 per cent of doubles. Adapted to garden or pot culture. Pkt. 50c.

PHLOX DRUMMONDI.—For *Novelties* and other choice varieties in this class, see pages 14 and 15.

SCHIZANTHUS Pinnatus Roseus.—The flowers of this *really beautiful* new annual are of a delicate rose color, shading at the center to white, whereas the uppermost petal is almost entirely covered with a blood-red spot. This *Novelty* is quite distinct from existing *Schizanthuses*. Fine for masses and borders; continuing long in bloom. Pkt. 20c.

SALVIA, "Blue Beard."—A new and very distinct, hardy annual of branching habit, growing to height of about one foot, with square stems and sage-like leaves. It is a unique and beautiful plant. Pkt. 40c.

STATICE SUWOROWI.—One of the finest and showiest of all annuals, producing branching flower spikes of a very bright rose, with a crimson shade, fully 15 to 18 inches in length, and from 1-2 to 1 inch in breadth. Plants will last in flower more than two months. A whole bed of this lovely plant in full bloom is a truly magnificent sight, being one mass of flowers. Pkt. 20c.

STOCK, Giant Perfection, Ten Weeks.—For this and other fine varieties of Stock, see page 17.

VERBENA, (Hybrida coccinea foliis aureis.) New Golden-Leaved Scarlet Verbena.—An interesting and effective Verbena, with golden foliage, which strikingly contrasts with the bright scarlet color of the flowers. Pkt. 20c.

ZINNIA, New Poupone.—A beautiful new strain. The color of the flowers are bright and showy, embracing all the shades of crimson, yellow, purple, white, rose and orange, usually found in the Zinnia. The flowers are about half the size of ordinary Zinnias, and are most distinct and beautiful, Pkt. 20c.

AGRICULTURAL IMPLEMENTS & MACHINES.

We have on sale the following IMPLEMENTS and MACHINES, and also EXTRAS AND REPAIRS belonging thereto, and also TWINE for Binders.

We store and have the distribution of the following Machines, Repairs, &c., for Messrs. F. PORTER THAYER & SON.

La Dow's Jointed Pulverizing Harrows—Light, simple, durable and flexible. Thousands in use, giving entire satisfaction.

Little Giant Post Hole Digger. A tool of rare merit.

SEND FOR ILLUSTRATED AND DESCRIPTIVE CATALOGUES AND PAMPHLETS.

BRIGGS BROS. & CO.,
ROCHESTER, N. Y.

TO OUR FRIENDS.

We place in your hands our unpretentious-appearing Descriptive Seed Catalogue for 1885, with the request that you will look it through, compare its list of Seeds, its prices and terms, with the lists, prices and terms of other Seed Catalogues, and on your finding that all our terms, etc., are in your interest, trust you will favor us with your Seed orders, which we shall take pleasure in filling promptly.

We confidently believe it will be seen on comparison of our catalogue with others, that ours, though apparently small, contains a *more complete* and *desirable* list of Seeds, *both Flower and Vegetable*, than will be found in *any other* American catalogue, and we think our *prices* and *terms* will *commend* themselves. We have made them as *favorable to the purchaser* as we can possibly afford. In fixing prices, etc., we have taken into account the hardness of the times.

In comparing catalogues please take notice of the *fact* that, *our prices include postage and express charges*, on all Seeds at catalogue prices, except Beans, Corn and Peas at *bushel* rates. *Nothing* is to be added to *our prices* for *postage, etc.*, as is required by other parties. *We prepay at our prices.*

As to the *quality* of our seeds we would state, that our *American* varieties are *largely* grown by ourselves on our own grounds from the *best of stocks* and with the *greatest* care, and the remainder by the *old and reliable seed growers of the old firm of Briggs & Bro.* Our *foreign* seeds are imported *directly* by ourselves from the *most reliable* seed growers of *England, France, Germany, and Italy*, and we procure the *best that cash can purchase*, both of *Flower and Vegetable* seeds.

The *members of the old firm of Briggs & Bro.* are *with us*, one of whom has made *two European* trips, visiting and making the *personal acquaintance* of the *leading* seed growers and seed dealers of the above mentioned countries. This member of the old firm, who has had more than *forty years of practical experience* in seed raising and the importation of seeds, makes our foreign orders and superintends our seed growing, a *guarantee* that all orders we may be favored with *will be filled with seeds of the best quality.*

We should be pleased to have you show this catalogue to *your friends*, that they may take advantage of our *favorable terms and prices.*

Respectfully,

BRIGGS BROS. & CO.,

Rochester, N. Y.

FLOWER SEEDS, NEW AND RARE.

Our list embraces the choicest in Asters, in Balsams, in Candytuft, in Canna, in Celosia, in Dianthus, in Mignonette, in Pansy, in Petunia, in Phlox, in Portulaca, in Stocks, in Verbena, in Zinnia, in Ornamental Climbers, in Everlasting Flowers, in Ornamental Grasses, in Biennials and Perennials and seeds for the greenhouse. *No list equals ours in Pansy, Petunia, Phlox Dummondi, &c., in variety and quality.*

NOVELTIES IN VEGETABLE SEEDS.

We offer NOVELTIES in Asparagus, in Beans, (*a fine list*); in Beets, in Celery, (*would mention "Solid Ivory" and White Plume*), in Cucumber, in Lettuce, (*rich collection*); in Melon, both Musk and Water; in Onion, (*several splendid varieties*); in Parsley, in Peppers, in Radish, in Spinach, (*rare kinds*); in Squash, in Tomatoes, (*all the favorites*); and in Turnip, &c., &c. *Please look through our list.*

EXTRA INDUCEMENTS FOR THE FORMATION OF CLUBS.

There are many in a neighborhood who would not, perhaps, take trouble to get a Catalogue from us, but who would, if it were exhibited to them, purchase seeds to some extent, and, therefore, to induce those who may receive the Catalogue to call upon their neighbors, obtain their orders, and thus assist in enlarging our sales, we make the following *liberal offer* :

Parties remitting \$1.00,	may select Seeds in Pkts.,	at Catalogue prices,	amounting to \$1.20.
" " 2.00,	" " " " " "	" " " " " "	" " 2.50.
" " 3.00,	" " " " " "	" " " " " "	" " 3.75.
" " 4.00,	" " " " " "	" " " " " "	" " 5.00.
" " 5.00,	" " " " " "	" " " " " "	" " 6.50.
" " 10.00,	" " " " " "	" " " " " "	" " 13.00.
" " 20.00,	" " " " " "	" " " " " "	" " 27.00.

On receipt of the amount of the order, the seeds will be forwarded by *mail* to any address in the *United States*, and *postage prepaid*. The above offer is meant to be for Flower and Vegetable Seeds, in *packets only*, and *does not* apply to seeds by the ounce, quart, pint, &c. The *same* terms as the above will be allowed to any *ONE party* ordering.

PACKETS ARE FULL SIZE AND LOW IN PRICE.

By comparing our Catalogue prices of packets with the prices of packets in other catalogues, *it will be noticed that our prices average much less* than those of any other party, and as a consequence, the purchaser of our seeds in packets, would get a *larger number* for a given amount of money than from *any other* party, and we want it understood, that our packets are *full size*—we put up *no half size*. Our seeds are also *unsurpassed in quality*.

NOTHING TO BE ADDED FOR POSTAGE OR EXPRESS CHARGES.

When seeds are ordered from us by the pkt., Oz., $\frac{1}{4}$ lb., $\frac{1}{2}$ lb., Lb., $\frac{1}{2}$ pt., Pt., or Qt., at Catalogue prices, *nothing* is to be added to an order for *Postage* or *Express* charges. Our prices *include* charges when ordered as above. *Please have this in mind when comparing prices*, as by *other* catalogues, parties ordering are required to *add* to their orders 16 cts. per lb., 15 cts. per pt., and 30 cts. per qt., for *Postage* or *Express* charges.

HOW TO SEND MONEY

If the following precautions are taken in the transmission of money, we will take the risk of the safe arrival of the funds, namely by *Post Office Money Order*, *Postal Note*, *Express Money Orders*, *Drafts* on New York, or small amounts in *Registered Letters*, and the *cost* of such *Post Office Money Orders*, &c., may be *deducted* from the remittances.

Sums of *Two Dollars* or less, may be sent by *mail* at *our risk without registering* and may be sent in *currency* or *Post Office Stamps*.

PACKAGES SENT FREE AND GUARANTEED.

We will send small packages by mail, and the larger by Express, Prepay Charges, and guarantee safe delivery. If, after a reasonable time, a package should fail to reach the owner, we will, immediately after being notified of the fact, and receiving a duplicate of the order, with date, &c., refill the same and forward without additional cost to the party ordering.

Parties ordering seeds, will please state whether or not it is convenient to receive packages by Express, and name their nearest Express Office.

SEND MONEY WITH THE ORDER.

Please send pay at the time of ordering, *as we do not keep any book accounts in the Mail Department* of our business.

Please show this Catalogue to your friends and send us combined orders, thereby saving time and trouble to all parties. Our terms for Club Orders are liberal.

Shall be pleased to mail our Catalogues free of charge to any parties desiring to purchase seeds.

ANNUAL FLOWER SEEDS.

THE FOLLOWING ARE FLOWERS THAT BLOOM THE FIRST SEASON FROM SEED.

ABRONIA.

	PER PKT. CTS.

Hybrids, which are fine; a charming genus of dwarf,
half hardy annuals of slightly spreading habit; flowers
small and pretty; foliage fine and beautiful; beds, edg-
ings, rock work, &c.; 1 foot.....

- LIMNANTHES**—Elegant and slightly fragrant flowers; 5
excellent for beds and edgings; yellow, white, rose,
sulphur, &c., mixed; 8 inches.....

- LINUM**—splendid red, rose, yellow and white, mixed; 5
free-flowering, showy slender hardy annuals; beds, &c.,
 $\frac{1}{2}$ feet.....

LOBELIA.

- erinus gracilis**—Celestial blue, trailer, well adapted for 10
vases, baskets, &c.....
- " **speciosa**—True crystal Palace variety; dark blue 10
with clear white eye and dark foliage; splendid.....
- " **speciosa alba maxima**—A large pure white flow- 10
ered showy variety, of drooping, spreading habit..
- " **erecta Crystal Palace compacta**— 20
(BENARY NOVELTY), excellent plant for edgings and
carpet bedding; flowers blue.....
- " **erecta duplex**—40 per cent. of double; new 20
double blue-flowering of trailing habit; long time
in flower; fine for masses, vases, baskets, &c.....

LOBELIA—continued.

- erinus hybrida grandiflora**—Fine; large dark blue flower 10
with white eye.....

- " **Pearl**—White with blue eye; fine..... 15

- " **FINE MIXED** for beds, vases, baskets, &c..... 10

For *Lobelia cardinalis*, &c., look under head of *Bien-nials* and *Perennials*.

The LOBELIA is an elegant and useful genus of dwarf hardy annuals; height 8 to 10 inches; well adapted for rock work, beds, borders, vases, baskets, &c.

LUPINUS (LUPIN).

- affinis**—Blue, white, and purple, delicate colors mixed; 1 ft., 5
albo coccineus—Rich rosy red, apex pure white; 15 inches, 5
nanus—Blue, lilac shaded, and pure white, mixed; 1 foot.. 5
pubescens elegans—Purple, violet and white; $\frac{1}{2}$ feet..... 5
subcarnosus—Ultramarine blue, crimson and purple; richest 5
of colors; 15 inches.....
- sulphureus superbus**—(MENZIESI), yellow, fine, 10

The above varieties MIXED being all of the same dwarfish and spreading habit; foliage fine and colors pure and delicate.

- Cruikshankii**—Blue, white and yellow; 3 feet..... 5
Dunnetti atrovioacea—Violet, brown and yellow; and
Dunnetti superbus, delicate and brilliant colors; pretty; 5
separate or mixed; 3 feet.....

- Hartwegi**—Blue, white, light blue, rose and red, mixed; 3 ft. 5

- hirsutus**—Large white, large blue and large rose, mixed; 3 ft. 5

- hybridus atrococcineus**—Spikes large, beautiful crimson 5
and scarlet, white tip; insignis, dark red; nigrescens,
dark; and roseus, delicate rose; these 4 beautiful varie-
ties mixed; 2 feet.....

- mutabilis**—Changeable colors, roseus and varicolor, mixed; 5
3 feet.....

All the above 6 classes (being about the same height and habit); mixed..... 5

LUPINS are admired for their large spikes of bloom, and the pure and delicate colors of their pea-shaped flowers. The tall growing varieties are exceedingly desirable for mixed flower and shrubby borders, and the dwarfier sorts are useful bedding plants; fine for bouquets, &c.

LYCHNIS.

- chalconica**—Bright scarlet; ALBA, white; CARNEA, flesh- 5
colored, mixed; 2 feet.....

- fulgens**—Very brilliant scarlet; $\frac{1}{2}$ feet..... 10

- Haageana**—(Benary Improved) scarlet; very fine; 15 inches, 10

- " **foliis atropurpureis**—Dark purple, fine; 1 foot.. 10

- " **grandiflora gigantea**—Flowers very large and of 10
scarlet color; 3 feet.....

- " **hybrida**—Fine mixed varieties; flowers large; 1 ft. 10

- " **nana**—(Dwarf), white, red and flesh- 15
colored, mixed; 8 inches.....

- seno striata**—A superb and finely striped variety; 1 ft. 15

- Sieboldi**—New variety, rare; flowers large, white, fine, 15

- viscaria splendens**—(Coccinea); deep scarlet; 1 foot..... 10

The flowers of LYCHNIS are produced in clusters—are extremely brilliant and showy; plants continue in bloom throughout the summer. Hardy perennials. To obtain flowers first season from seed, sow early under glass and put out plants as early in spring as the soil can be worked. Splendid for beds and borders.

PER PKT. CTS.

MALOPE *Grandiflora alba*, white; *PURPUREA*, purple; and *ROSEA*, a new rose-colored variety, mixed. A plant of branching habit, producing large flowers in great profusion.....

MARIGOLD.

Striped and Mottled Varieties —extra fine.	15
Violet, margined with white —Resembling fancy Geraniums.	15
White —(ALBA PURA), pure white.	15
Yellow —Pure Golden, beautiful.	15
MIXTURE of foregoing <i>splendid varieties</i>	15
Belgian Fancy —Large flowers <i>beautifully blotched and striped</i> ; very attractive; mixed colors.	25
Choice English Mixed —"Not to be surpassed, being saved from the best named PRIZE varieties".	40
English Show —The flowers of this class are <i>one colored</i> , and embrace many rich and beautiful shades.	50
French Extra Large-flowering —stained, variegated, striped and blotched; <i>splendid</i>	25
New German Mixed —A <i>splendid strain</i> ; has given the most perfect satisfaction.	25

The PANSY, as is well known, is one of the *most attractive and popular* of flowering plants, hence the long list of varieties we present, embracing as it does flowers of *every conceivable* contrast and shade of color. We desire to *emphasize* the fact that the seed we offer *cannot be surpassed in quality*, it being not only new and fresh, but saved from plants of PRIZE STRAINS.

PERILLA.

PER PKT. CTS.

nankinensis —Fine bronzy purple-leaved ornamental plant.	5
" foliis atropurpureis laciniatis —Dark bronzy ent foliage, elegant.	10
" foliis variegatis —A NEW and <i>very fine variegated variety</i>	15
" macrophylla compacta —NEW, with very large leaves, described as being very ornamental.	15

The PERILLA is a *dark bronzy ornamental-leaved* annual, useful for contrast in bedding with other foliage plants; height about 1½ feet.

PETUNIA.

argentea —Silvery white.	5
nyctaginiflora —Pure white, fragrant.	5
phoenicea —(INTEGRIFOLIA), small purple; original type.	5
hybrida —Mixed, very good quality.	5
" Finest mixed —1st quality.	5
" alba —Fine white.	10
" Countess of Ellesmere —Deep rose with white throat.	10
" illustris —Rose-carmine, distinct, NEW.	15
" kermesina —Crimson, fine.	10
" mirabunda —Very robust, large flowers finely veined.	15
" venosa —Beautifully veined varieties, fine.	10
" Inimitable —(Striped and blotched); flowers with <i>star shaped blotches</i> , and of a most symmetrical shape; <i>splendid strain</i>	15
" Inimitable nana compacta multiflora —This new dwarf <i>Petunia</i> is beyond imitation. Its little bushy plants, 5 to 8 inches in height, by as many in diameter, studded with their <i>many regularly striped</i> flowers are exceedingly effective, whether in masses or in pots.	25

The foregoing small-flowering section are *profuse bloomers* and are admirable for bedding or pot culture.

Petunia, Large Flowering Section.

The German grower from whom we import our PETUNIA seed says: "The *Large-flowering* Petunias constitute one of the *principal specialties* of my establishment; upwards of 20,000 plants were grown on *stages* for the purpose of artificial fecundation, and it is *only* seed thereby obtained which is offered. My strains of the following varieties of the section are *unsurpassed*."

grandiflora alba —Large, pure white, extra.	25
" kermesina —Large crimson, fine.	25
" intus alba —Large, crimson, white throat, extra.	25
" maculata —(Inimitable), blotched and striped varieties, <i>very beautiful</i>	25
" marginata —Fine large flowers, green bordered and veined.	25
" maculata —Green bordered blotched varieties, fine.	25
" Prince of Wurtemberg —Rosy pink, new. Packet of 40 seeds.	25

Petunia, Large Flowering Section.

(CONTINUED.)

PER PKT. CTS.

grandiflora, Princess of Wurtemberg—

Purple, new. Packet of 40 seeds..... 25

20 SEEDS of each of the last two varieties, *separate*, in *tissue bags*, in ONE packet. 25

The last two magnificent varieties produce *splendid* flowers of EXTRA LARGE SIZE, the very deep throat of which is *beautifully veined to the base*.

grandiflora purpurea—Fine dark variety, splendid... 25

" " **intus alba**—Purple with white throat, fine.... 25

" " **rosea**—Very brilliant rose-color, beautiful, 25

" " **intus alba**—Brilliant rose with white throat 25

" " **superbissima**—NEW, NOVELTY; distinct variety; *large, tipped* throat. Packet of 40 seeds..... 25

" " **venosa**—Beautiful veined varieties, splendid, 25

" " **violacea**—Splendid NEW color, EXTRA. Packet of 50 seeds 25

" " **Largest-flowering** in *splendid mixture*..... 25

Petunia hybrida grandiflora.*Fringed Section.*

"Seeds obtained *exclusively* from the flowers of *stage* pot plants artificially fecundated."

grandiflora fimbriata alba—Fringed white, EXTRA..... 25

" " **kermesina**—Fringed crimson, very fine..... 25

" " **maculata**—Fringed blotched and striped varieties, EXTRA..... 25

" " **venosa**—Veined varieties with fringed edges, *charming*..... 25

" " Above *fringed* varieties in SPLENDID MIXTURE..... 25

The foregoing *single fringed* petalled *Petunias* are *very pretty* and deserving of general attention. The seed is from the *finest* flowers, and is purchased of the German grower by *count* and *not by weight*. This is the ease with most of the *grandiflora* varieties and all of the following *doubles*.

Petunia, Double Flowering Section.

Double Striped and Blotched, (DOUBLE INIMITABLE)—*splendid mixed*, producing about 25 per cent. of handsome double flowers. Packet of 50 seeds..... 25

Double Large-flowering, (GRANDIFLORA FLORE PLENO)—Fecundated with scrupulous care, *extra fine*, 40 seeds..... 50

Double Large-flowering Green-bordered, (GRANDIFLORA MARGINATA FLORE PLENO)—Extra fine; packet of 25 seeds..... 50

Double Large-flowering Robust-growing, (GRANDIFLORA ROBUSTA FLORE PLENO)—*Splendid* variety of semi-dwarf, robust, and compact growth. Packet of 25 seeds..... 50

Double Fringed, (GRANDIFLORA FIMBRIATA), mixed; BENARY'S STRAIN. This seed will produce from 25 to 30 per cent. of plants with *charming double fringed* flowers. Packet of 30 seeds..... 50

PER PKT. CTS.

The *difference* in the *quality* of PETUNIA Seed is *very great*. That saved from *out door* plants is *very much* inferior to that from *shelf* pot plants. For pot plants and artificial fecundation ONLY the *finer* sorts are selected. There is more pleasure derived from producing *one fine specimen* than there is from the growth of a *hundred inferior* plants. Our seed can be relied on as being the *best that can be had*.

The PETUNIA is a *much admired* fragrant hardy annual of easy culture continuing in bloom from early in summer until after light frosts. The profusion of flowers of various forms, with their *great variety* of *splendid* colors and their long duration in bloom, places the PETUNIA class of plants among the *most desirable* for bedding grouping and as single specimens.

PHLOX DRUMMONDI.

VARIETIES OF THE OLD SECTION.

There is no flowering plant that gives *greater satisfaction* than PHLOX DRUMMONDI. Its ease of culture; its habit of growth; its *great variety* of *splendid* colors; its *long* duration in bloom; its usefulness for bouquets, ribbon gardening and bedding, make it a *favorite* with all.

ANDROPOGON argenteus — <i>Hardy perennial</i> ; a plant of <i>robust</i> growth and of <i>sub-tropical</i> appearance; 5 feet.....	10
---	----

ANTHOXANTHUM gracile — <i>Elegant</i> and <i>pretty</i> ; 6 inches.....	10
--	----

ARUNDO.

Donax versicolor — <i>Perennial</i> ; <i>strong</i> stem, <i>golden yellow</i> striped foliage; 6 feet.....	10
" foliis variegatis — <i>Perennial</i> ; <i>vigorous grower</i> ; foliage variegated; 6 feet.....	10
AVENA sterilis , (ANIMATED OATS)— <i>Hardy annual</i> ; drooping spikes on slender stems; 2 feet.....	5

BRIZA.

geniculata —A <i>dwarf</i> and <i>profuse</i> bloomer.....	5
maxima —One of the <i>most useful</i> grasses in <i>winter bouquet</i> making; called <i>Quaking Grass</i>	5
" compacta — <i>Quaking Grass</i> ; A <i>compact</i> growing variety of the above; <i>fine</i>	5
minima , (<i>gracilis</i>)— <i>Slender</i> , <i>very delicate</i> and <i>graceful</i>	5
spicata —A <i>NEW</i> variety of the BRIZA, and described as <i>fine</i>	15

The BRIZAS are among the *most desirable* of *ornamental* grasses for *bouquets* and other *winter* ornaments. They are *hardy annuals*, about 1 foot in height, and very *easily* grown.

BRYZOPYRUM siculum—A dwarf hardy annual, with *shining green leaves*; *fine for edgings, bouquets, &c.* 5

BROMUS.

brizaeformis—A very desirable Grass, much like *Briza maxima*; 1 foot 5

macrostachyus—*Fine grass for mixed borders.* 5

madriteusis—A very fine grass for *dyeing.* 5

The varieties of **BROMUS** are hardy, perennial Grasses, and *fine for borders, bouquet making, &c.*; 1 foot.

CERATOCHLOA pendula—Hardy annual, with *fine, drooping long spikes of flowers*; 1 foot 5

CHLORIS.

barbata—Free-bloomer with *tassel-Shaped flowers*; 1 foot. 5

elegans—A slender and *elegant Grass*; 1 foot 5

truncata—*Elegant for bouquets and other winter ornaments*; 1½ feet 5

The **CHLORIS** varieties of grasses are hardy annuals, producing an abundance of foliage and *beautiful silvery plumes.*

CHRYSURUS cynosuroides—Hardy annual; very dwarf, with *golden feathery spikes*; 6 inches 5

COIX, (Job's Tears.)

chinensis—A fine variety from China 5

Laeryma—A very desirable and showy variety 5

The **COIX** is a tender annual, with broad corn-like leaves, and *hard, shining, pearly seeds*, resembling falling tears, and which are often perforated, and used by children for *beads.*

ELEUSINE.

barcinoneusis—A curious looking plant, with stems resembling horns; *elegant for pot culture.* 5

corocana—A very good variety 5

indica—Spreading and graceful 5

obligostachya—Three horns 5

The **ELEUSINE** is a *curious* class of plants, hardy annuals, and about 1 foot in height.

ELYMUS hystrix—Hardy perennial; flowers in spikes; *useful in bouquet making.* 5

ERAGROSTIS.

Abyssinica—An *Abyssinian* grass, *fine for bouquets*; 2 feet 5

amabilis—A most lovable grass for bouquets, &c.; 1 foot... 5

cylindrilora—A most graceful grass; 2 feet 5

elegans, (Love Grass)—An elegant and graceful grass; 1 ft. 6

maxima—A new *Abyssinian* grass; very decorative; 2 ft.. 10

The varieties of **ERAGROSTIS** are hardy annuals, and are *beautiful* border plants, and *indispensable for bouquets.*

ERIANTHUS.

Ravennæ—Much like the *Pampas Grass*, but more graceful, and better suited to Northern climates. The flowers are silvery white and delicately beautiful. 10

ERIANTHUS—continued.

Ravennæ folia variegatis—Foliage variegated; *fine.* 15
“ violaceus—Flowers violet tinted; *fine.* 10

The above are hardy perennial plants with *exquisite plumes* resembling the *Pampas Grass*, will flower the first season, if sown early in the hot-bed or greenhouse. *Fine for lawns, &c.*; height 8 to 10 feet.

EULALIA japonica—One of the *best of* grasses for lawn decoration; hardy perennial; 5 feet 10

FESTUCA altissima—*Fine for lawns, bouquets; &c.*; hardy perennials; 4 feet 10

GYMNOTHRIX.

candata—A *splendid* ornamental Grass; 4 feet 10

japonica—A *beautiful* variety from Japan; 6 feet 10

latifolia—A broad leaved variety; *very striking*; 10 feet, 10

The above are very *handsome foliage* plants; make a fine show as *separate* plants on lawns, and *especially* the *latifolia* variety; half hardy perennials.

CYNERIUM.

argentium—A very *stately* variety, producing *long silken silvery plumes* of flowers 10

“ roseum—Similar in habit and appearance to the above, with *rose-colored plumes.* 10

“ variegatum—Foliage *beautifully variegated.* 10

The varieties **CYNERIUM** or **PAMPAS GRASS**, are half-hardy perennials at the north, hardy at the South, and the *most noble grasses* in cultivation, producing *beautiful plumes* on stems 8 to 10 feet high.

HORDEUM jubatum, (SQUIRREL TAIL GRASS)—Hardy annual with *beautiful purplish plumes.* 5

LAGURUS ovatus, (HARE'S TAIL GRASS)—Hardy annual with *pretty* ornamental heads of bloom, *fine for bouquets, &c.*; 1 foot 5

LASIAGROSTIS argentia—A very *beautiful silvery-white* grass, *fine for ornamental work and grass bouquets*; hardy perennial; 2 feet 5

LEPTOCHLOA arabica—Very *pretty* hardy annual 10

PANICUM.

capillare—A *beautiful* grass; hardy annual, 2 feet 5

Sulcatum—*Palm-formed*; one of the *most elegant* grasses; hardy perennial; 4 feet 10

virgatum—A *very showy* and hardy perennial grass; 4 feet. 5

Extremely decorative and ornamental Grasses, suitable for *bouquets and elegant* in borders.

PASPALUM elegans—*Pretty for borders or shrubberies*; hardy annuals; 2 feet 10

PENNISETUM.

cenchrroides—A very graceful grass; 1 foot 5

longistylum—An elegant and interesting grass; 18 inches. 5

The *most distinct* and beautiful of ornamental grasses, useful for the formation of *winter bouquets and other ornaments*; hardy annual.

	PER PKT. CTS.

VEGETABLE SEEDS.

STANDARD, AND THE NEWER SORTS.

Of VEGETABLE seeds we present a *very full list* of *desirable* varieties required for *Garden and Field*—a list, we think, *more complete* than can be found in any other *one* catalogue.

Our stock of seeds consists of this country grown and imported. The American seeds are largely *grown by ourselves*; those that are not are grown under contract by *our experienced seed raisers*. The Foreign seeds are imported by us from the *best* growers of *England, France, Germany and Italy*.

The seeds we offer are FRESH GROWN. *This can be relied upon*. They will give *entire satisfaction* if properly treated.

We propose to do business on a *small profit*, and therefore, *our prices are reasonable*. Compare with other lists and determine for yourselves.

In *comparing prices* don't overlook the fact that our *prices include postage and express charges*.

NOTHING IS TO BE ADDED TO AN ORDER FOR POSTAGE OR EXPRESS CHARGES.

WE PREPAY CHARGES, whether by mail or express, *on all seeds* ordered by the packet, oz., 2 oz., $\frac{1}{4}$ lb., lb., $\frac{1}{2}$ pt., pt. or qt. at catalogue prices.

Half Pounds or over are sold at *pound rates*; *four quarts* or over are sold at *bushel rates*; *less than four quarts* sold at *quart rates*.

BEANS, CORN and PEAS, when ordered at other than $\frac{1}{2}$ pt., pt. and qt. rates, *charges are to be paid by the purchaser*.

Directions for cultivation are *printed on each packet*.

Our *packets* are FULL SIZE; we put up NO HALF SIZE.

ARTICHOKE.

	Pkt.	Oz.	2 Oz.	$\frac{1}{2}$ Lb.	Lb.
Giant Globe or Crown—An old and standard variety.....	10	.30	.55	1.00	3.00
Naples, Large Green—NEW; of delicious flavor.....	15	.40	.75	1.25	4.00

The above are the best for general cultivation. The heads are boiled and served with butter and salt. A favorite vegetable with the French; not much grown in this country.

BEETS FOR STOCK FEEDING.

French White Sugar—The old Standard sort.....	5	10	.15	.20	.50
Improved Imperial White Sugar—Very fine.....	5	10	.15	.20	.60
White Silesian Sugar, true—Imported, fine.....	5	10	.15	.20	.60
Vilmorin's Improved Imperial White Sugar—Imported, very fine.....	5	10	.15	.25	.75
White Red Top Sugar—Excellent.....	5	10	.15	.25	.75
French Yellow Sugar—Old sort.....	5	10	.15	.20	.50
The Sugar Beets while young are very tender, sweet and finely flavored; excellent for table use.					
Mangel Wurzel Beets are grown exclusively for stock feeding.					
Prize Yellow Globe Mangel Wurzel—A fine variety.....	5	10	.15	.20	.50
Carter's Warden Prize Orange Globe Mangel Wurzel—A splendid variety.....	5	10	.15	.25	.60
Kinver Yellow Globe Mangel Wurzel—Fine.....	5	10	.15	.25	.80
Yellow Ovoide des Barres—Egg-Shaped. A hardy, productive sort.....	5	10	.15	.20	.60
Carter's Improved Red Globe—A hardy, productive sort.....	5	10	.15	.20	.60

All the above Mangel Wurzel are truly desirable. Can't make any serious mistake in selecting. All are enormously productive, flesh solid and nutritious, good keepers. The Beets being Globe-Shaped, crops are easily gathered, as they grow mostly above ground. The Globe and Ovoid shaped are better adapted for shallow soils than the Long-rooted Mangels.

Red Mammoth or Giant Long Red Mangel Wurzel—An enormous cropper.....	5	10	.15	.20	.60
Improved Norbitan Giant Long Red Mangel Wurzel—This is also an enormous yielder.....	5	10	.15	.20	.60
Carter's Improved Mammoth Prize Long Red Mangel Wurzel.....	5	10	.15	.20	.60

Golden Tankard, Carter's Improved—A valuable stump rooted sort of fine form and of very sweet flavor, and of golden yellow color..... 5 .10 .15 .25 .75

The improved *Norbitan Giant* and *Carter's Mammoth*, are very similar. They are distinct from other sorts. Tops are small, roots of good shape and of *mammoth* size, yielding immense crops per acre. Flesh solid and rich.

BORECOLE, or KALE.

Dwarf Green Curled, (German Greens),—extra selected stock..... 5 .10 .15 .25 1.00

Dwarf Green Curled Scotch—First quality 5 .10 .15 .20 .90

Dwarf Purple Curled—*Extra* fine..... 5 .10 .15 .20 .90

Tall Green Curled Scotch—*Extra* fine..... 5 .10 .15 .20 .90

Carter's Thousand Head Kale—"The hardest and most prolific Winter green in cultivation..... 5 .10 .15 .25 1.00

Large-ribbed Thousand-headed—For sheep and lambs..... 5 .10 .15 .20 .90

Culture of Kale the same as for Cabbage. Kale is grown for greens, and makes a delicious dish.

BROCOLI.

Early Purple Cape—A standard early and excellent sort..... 5 .35 .65 1.20

Carter's Champion—A large, latish, close heading variety..... 5 .35 .65 1.20

Superfine Early White—Heads good size, compact, and of creamy white color..... 10 .50 1.00

BRUSSELS SPROUTS.

Carter's Perfection—A new variety of excellent quality..... 5 .20 .35 .60 2.00

Improved Dwarf—A variety producing compact heads of excellent quality..... 5 .15 .25 .40 1.50

CABBAGE.

Very Early Etampes—NEW; "The best of all early Cabbages," so say Messrs. *Vilmorin, Andrieux & Co.* of France, of whom we import." Heads medium size, solid and of fine quality..... 5 .20 .30 .50 1.65

Tourlaville Early—Another very early fine heading sort..... 5 .20 .35 .60 2.00

Paris Market—NEW, very early—One of the finest very early to be found in the Paris markets..... 5 .25 .45 .80 3.00

Early York—A standard old and tried early sort..... 5 .10 .20 .35 1.25

Early Wakefield, (TRUE JERSEY STOCK)—Early, medium size, good quality and very sure header. Popular market sort..... 5 .20 .35 .65 2.25

Henderson's Early Summer, (TRUE AMERICAN)—*Fine* early sort, coming in just after Wakefield. Large, firm heads..... 5 .20 .35 .65 2.25

Large York—An old and popular second early variety..... 5 .10 .20 .35 1.25

Early Sugar-loaf—One of the old, popular, second early..... 5 .15 .25 .40 1.25

Early Wyman—An excellent, second early, hard heading variety..... 5 .20 .35 .65 2.00

Early Winningstadt—First quality. Cone or heart-shaped, hard-heading, second early. This variety has deservedly gained popular favor. Excellent summer, fall and winter. Depending on the time of putting out.... 5 .15 .25 .40 1.25

Early Bleichfeld Giant—"Short-stemmed, heads large and very solid." A second early German sort..... 10 .25 .40 .75 2.50

Imperial French Oxheart—An excellent second early sort..... 5 .15 .25 .40 1.30

St. John's Day Early Drumhead—A very hard heading, medium sized, second early sort, flatish head, fine..... 5 .15 .25 .40 1.20

Early Drumhead—Best French. Fine, late summer, fall and winter variety..... 5 .15 .30 .50 1.50

Fotter's Early Short-Stemmed Brunswick Drumhead—Best American..... 5 .20 .35 .65 2.00

Fotter's Early Short-Stemmed Brunswick Drumhead—Best French..... 5 .15 .25 .40 1.25

Fotter's Drumhead for late summer, fall and winter use, cannot be too highly recommended. The heads are large, compact, crisp, tender, juicy, and of agreeable flavor.

Cannon Ball—A hard heading, Marblehead variety, of medium size. Good fall and winter..... 5 .15 .30 .50 1.50

Filderkraut—Pointed head. A very solid and sure heading variety; good, late summer, fall and winter..... 5 .20 .35 .60 1.75

Early Large Schweinfurt—*Largest* heading, early variety in cultivation; heads tender and crisp; summer and fall..... 5 .20 .35 .60 1.75

Stone Mason—A Marblehead sort. A sure and hard heading variety; excellent fall and winter, or late summer..... 5 .20 .35 .50 1.75

Marblehead Dutch—A close, finely shaped, compact, hard heading variety; fall and winter..... 5 .20 .35 .60 2.00

Premium, Large Flat Dutch, (AMERICAN)—Dwarfish, heads large, solid, broad and flat on top; tender, crisp and succulent; fall and winter..... 5 .20 .35 .50 1.75

Superior American Large Drumhead—Heads large, flattened, white inside, tender, crisp and well-flavored; seldom fails to form large, close, hard heads; for fall and winter..... 5 .20 .35 .50 1.75

Late Flat Dutch—Best French. Excellent fall and winter..... 5 .15 .25 .40 1.20

Large Late Drumhead, (ENGLISH GROWN)—fall and winter..... 5 .10 .20 .35 1.00

Large Flat Dutch, (ENGLISH GROWN)—Fall and winter..... 5 .10 .20 .35 1.00

Large White Brunswick, Flat—Large heading German variety..... 5 .15 .25 .40 1.25

Quintal Drumhead—True French. Large heading sort..... 5 .15 .25 .40 1.20

Marblehead Mammoth Drumhead—One of the largest, close heading varieties extant. An American sort; fall and winter..... 5 .20 .35 .50 1.75

Green Glazed—Much grown at the south..... 5 .20 .35 .50 1.75

Improved American Savoy—Generally the Savoy make loose heads. This variety is a compact and sure hard heading sort. Best Savoy grown. Excellent fall and winter..... 5 .15 .25 .40 1.50

Green Globe Savoy—A favorite early variety, head medium sized, and finely solid. Drumhead Savoy—Heads large, nearly round and tender..... 5 .15 .25 .40 1.50

Fine Blood Red—For pickling and salad..... 5 .15 .25 .40 1.50

Fine Red Dutch—For salad and pickling..... 5 .15 .25 .40 1.50

New Garfield Pickler—Pointed red cabbage..... 15 .35 .60 1.00 4.00

NOVELTY.

"A distinct, early, pointed red variety with solid head, in shape resembling the *Winningstadt*, color being an intense reddish purple; a VALUABLE novelty." If the Cabbage equals description and picture of it sent us it is an acquisition.

CARROT.

	Pkt.	Oz.	2 Oz.	4 Oz.	Lb.
French Horn, Early Very Short Scarlet—Best forcing.....	5	10	15	35	1.00

Wright's Grove Giant White—A very fine English variety. Dwarf and solid.....	5	20	35	60	2.00
Red Giant Solid—Large French sort.....	5	15	25	40	1.50
Solid Ivory—NOVELTY. Does not require "banking" or earthing up. Pkt. 25c.; 1/2 oz. 40c.; oz. 75c.; 2 oz. \$1.25; 1 lb. \$2.00.					

This Novelty, "SOLID IVORY CELERY," is brought out by Messrs. Carter, Dunnitt & Beale, seed growers and merchants, proprietors of several large seed farms in Essex, England, who say of it:

"We have the pleasure to introduce for the first time, not only a new Celery, but what we believe to be the most perfect type of Dwarf White Celery that has ever come under the notice of the cultivator.

"Some of the most remarkable features of this Solid Ivory Celery are its extreme dwarf, compact habit, and beautiful white color throughout; while by reason of its neat growth it is especially valuable as being of the most simple cultivation, inasmuch as it may be planted upon the surface of the ground instead of in trenches, and all that is necessary in the way of earthing up can be done in a very simple manner by the hand, or with an ordinary draw hoe, a little care being taken to bring the stalks close together, and thus assist in its complete blanching. If the heads are also tied with a little rough matting, in the same way as Cos Lettuce, it will assist not only in keeping the Celery perfect, but also in excluding superabundant moisture.

"As a Celery for the use of hotels and other large establishments it is unequalled, there being scarcely any waste in dressing it for table.

"As the name signifies, Solid Ivory Celery has been proved, after repeated trials, to be the most solid, crisp eating, and delicious-flavored variety in use, the peculiar fibrous-nut flavor being most marked.

"Solid Ivory Celery, unlike some other new dwarf Celeries now being offered, is a first rate keeper and not only will it remain fit for use as long as any other variety of celery with which we are acquainted, but it will resist the effects of the most severe winters equally with any other Celery in cultivation.

"This Celery has been placed upon the dinner table on several prominent occasions, when its exquisite quality was spontaneously admitted by all who tasted it."

Our stock of seed of the "Solid Ivory Celery" we received directly from Messrs. Carter, Dunnitt & Beale.

Henderson's White Plume—This variety, it is claimed, does not require "banking," or earthing up..... Pkt. 25c.; 1/2 oz. \$1.50; oz. \$3.00.

Mr. Henderson says of this NEW CELERY: "Naturally its stalk and portions of its inner leaves and heart are white, so that by closing the stalks, either by tying them up with matting or by simply drawing the soil up against the plant and pressing it together with the hands, and again drawing up the soil with the hoe or plow, so as to keep the soil that has been squeezed against the celery in its place, the work of blanching is secured." Again, "Its eating qualities are equal to the very best of the older sorts, being crisp, solid, and having that nutty flavor peculiar to the "Walnut" and some of the red sorts." Again, "Its culture is in all respects the same as that directed for the other sorts, with the exception that we are saved the trouble of high 'banking' or earthing up."

CELERY—Continued.

Celeriac, or Turnip-Rooted Celery—The roots are turnip-shaped, and possess the flavor of celery.....	Pkt. 5	Oz. 15	25	40	1.50
Celery Seed for Flavoring.....		10	15	20	.50

CORN.

THE FOLLOWING ARE THE BEST GARDEN VARIETIES.

	Pkt.	1/2 Pt.	Pt.	Qt.	Bu.
Adam's Extra Early—Earliest variety; kernels large, ears small. Not a Sweet Corn.....	10	15	25	45	3.50
Early Minnesota, Sweet or Sugar—One of the earliest varieties.....	10	15	25	45	3.50
Briggs' Early Sweet—As early as Minnesota. Ears much larger.....	10	15	25	45	3.50
Early Marblehead Sweet—The earliest sweet; ears small.....	10	15	25	45	4.00
Moore's Early Concord—Second early sweet; ears large.....	10	15	25	45	3.50
Russell's Early Prolific—A superior second early Sweet Corn; ears good size.....	10	15	25	45	3.75
Stowell's Evergreen, Sweet or Sugar—Popular late variety.....	10	15	25	45	3.25
Mammoth Sweet or Sugar—Large late sort; 12 to 16-rowed.....	10	15	25	45	3.50
Rice Popping—Ears.....	10	15	25	45	2.25
Connecticut Popping—Ears.....	10	15	25	45	2.25

CORN SALAD.

Common Variety—Cultivated for its tender salad leaves.....	5	10	15	25	.75
Lettuce-Leaved—Cultivated for its tender salad leaves.....	5	10	15	25	.75

CRESS OR PEPPERGRASS.

Fine Double Curled—Excellent variety for salad.....	5	10	15	20	.50
Henderson's Australian, or Golden—Superior for salad.....	5	10	15	25	.75
True Water—Perennial aquatic variety.....	10	30	50		

CUCUMBER.

Briggs' Early Green Prolific—A substitute for all other early varieties. Early and very productive. In shape between the Short Green and White Spine. Superior for salad and pickles. Profitable hot-bed variety.....	5	10	15	25	1.00
Russian Early Short Green—A very early sort.....	5	10	15	25	1.00
Early Green Cluster—Excellent for salad and pickles.....	5	10	15	25	1.00
Early Frame—An old, early, and popular sort.....	5	10	15	25	1.00

CUCUMBER—Continued.

Early Short Green—Prolific. An excellent early sort.....	5	10	15	25	1.00
Boston Pickling—A short and popular pickling variety.....	5	10	15	25	1.00
French Green Short—Imported from Germany. Pickles and salad.....	5	10	15	25	1.00
Russian Shortest Green—Imported, recommended as desirable.....	5	10	15	25	1.00
Improved Early White Spine—A first class sort for hot-bed forcing, and also for garden or field culture; pickles or salad.....	5	10	15	25	1.00
Improved Long Green—A popular variety for pickle and salad purposes.....	5	15	25	35	1.25
Extra Long Green Turkey—A leading long green sort for pickles.....	5	15	25	40	1.50
Small Gherkin, or Burr—Can't recommend it for any use.....	5	25			

ENGLISH AND GERMAN FRAME VARIETIES.

	Pkt.
Berlin Eel—Fine, long, thick, green variety, is also good for the open ground.....	.15
Conqueror of the West—One of the best and highest-priced; packet of 10 seeds.....	.25
Duke of Edinburgh—Pure White. NEW. Pkt. of 5 seeds.....	.25
Giant of Arnstadt—One of the finest, 20 to 25 inches, good bearer.....	.20
Giant of Arnstadt—Snow white.....	.20
Gladiator—A very long, green sort.....	.15
Glory of Erfurt—Snow white, extra, early, very long.....	.25
Goliath—NOVELTY of 1880. Handsome formed fruit, 20 to 25 inches in length; frame and open ground; very prolific.....	.25
Man of Kent—Fine long green. Frame or open ground.....	.15
Noa's Forcing—A very fine market sort, unusually productive.....	.25
Non plus ultra—Green, extra fine, long.....	.20
Rollinson's Telegraph—One of the best and most prolific. Pkt. of 5 seeds.....	.20
Roman Emperor—Fine long, open ground or frame.....	.15
Sion House Improved—Dark green variety, 20 to 24 inches long.....	.15
Swan-neck—Extra, 35 inches long, frame or open ground.....	.15
White-spined—Small-leaved, early, light green, about 18 inches long; one of the finest Cucumbers for frame.....	.25
Sooly Qua—A Chinese variety, growing 5 feet in length. A curiosity, practically good for nothing. It is a variety that does not "coil like a snake.".....	.20

DANDELION.

Common—Cultivated for greens; used same as Spinach.....	5	15	25		
Improved Broad, or Large-leaved—Used same as Common.....	10	25	40		

EGG PLANT.

Early Long Purple—A very early and productive sort.....	5	25	40	75	
Purple Very Early Dwarf—Earliest of all; quality good.....	5	25	40	75	
Long White China—Flesh is more melting and less stringy than other sorts.....	5	25	40	75	
Black Pekin—Blackish violet leaves and large fruit; ornamental.....	5	30	60	1.00	

ENDIVE.

	Pkt.	Oz.	2 Oz.	1 Lb.
Green Curled—The common and excellent salad variety.....	5	15	.25	.40 1.50
Imperial Curled—Very fine, pale yellow, large white ribs.....	5	20	.35	.60 2.00
Moss Curled—Extra fine curled.....	5	15	.25	.40 1.50
Ever White Curled—The finest white curled; large, crisp and tender.....	5	20	.35	.60 2.00
Broad-Leaved Green Batavian—Best variety for soups, &c.....	5	15	.25	.40 1.50

The Endive makes an *excellent* salad.
In France the use is as common as that of Lettuce.

KOHLE RABI, or TURNIP CABBAGE.

	Pkt.	Oz.	2 Oz.	1 Lb.
Large Late Purple—For table and stock... for table.....	5	15	.25	.40 1.50
Purple Early Smooth—A tender and fine sort for table.....	5	15	.25	.40 1.50
Green Early Smooth—A tender and fine sort for table.....	5	15	.25	.40 1.50
Green Earliest Short-leaved Vienna—Early, excellent table variety.....	5	20	.35	.60 2.00
Purple Earliest Short-leaved Vienna—An excellent early table variety.....	5	20	.35	.60 2.00
Late Purple Giant—Often weighs 8 pounds; very tender and of fine flavor.....	5	15	.25	.40 1.50
Late Purple Goliath—Of extraordinary size; weighs 20 to 25 pounds.....	5	25	.40	.75 2.50
White Giant—Like the Purple Giant except in color.....	5	15	.25	.40 1.50

LEEK.

Bangholm Prize Taker—Selected from the Musselburgh and regarded as superior.....	10	40	.75	1.25 5.00
Musselburgh, Large—Distinct from London Broad Flag, and as it grows upright and compact, more of it may be eaten.....	5	30	.50	.80 3.00
Carentan Giant—Hardy, of fine quality and largest of all.....	5	30	.50	.80 3.00
Rouen Very Large—leaves broad and thick; a favorite about Paris.....	5	30	.50	.80 3.00
London Broad-leaved, or Flag—A very strong growing, broad-leaved variety. A standard sort.....	5	15	.25	.40 1.50

LETTUCE.

Early Curled Simpson—Heads large, loose, curled, tender and crisp. Excellent, early.....	5	15	.25	.35 1.25
Black-Seeded Simpson—A compact growing, newish variety of Curled Simpson, producing loosish but much larger heads than the above White-Seeded sort; excellent.....	5	15	.25	.35 1.25
American Gathering—Heads large, quite compact, tender and crisp; leaves tinged with red.....	5	15	.25	.35 1.25
Early Tennis Ball, or Boston White Seeded—An excellent heading sort.....	5	15	.25	.35 1.25
Early Tennis Ball—True Black-Seeded. One of the best sorts for hot-bed culture. It is early and heads large.....	5	15	.25	.35 1.25
Early Hanson—Heads very large, solid, sweet, crisp and tender. Heads green outside and white within. Excellent to succeed Prize Head or Simpson's Curled.....	5	15	.25	.35 1.25
Large India Head—Heads very large, round, white inside, crisp and of fine flavor.....	5	20	.35	.60 2.00
Frankfort Head—One of the best for hot-bed culture, and early market; also fine for garden.....	5	15	.25	.35 1.25

LETTUCE—Continued.

Briggs' Early Prize Head—Heads large, of pinkish color; leaves wrinkled or blistered, crisp, tender and of agreeable flavor. Slow in running to seed. Excellent salad Lettuce, and a beautiful garnish.....	5	20	.35	.60 2.00
Black-Seeded Satisfaction—An English variety. Heads large, compact, white, crisp and tender. Slow in running to seed; stands heat well.....	5	15	.25	.35 1.50
Large Drumhead, or Malta, or Ice Head—Very large, tender and crisp.....	5	15	.25	.35 1.50
All-the-Year-Round—Small, close, crisp heads; a hardy, valuable variety.....	5	15	.25	.35 1.50
Salamander—So named for the reason that its heads withstand drought and heat longer without injury than any other sort. Heads good size, compact and of fine quality. Heads white inside and light green outside.....	5	20	.35	.60 2.00
Solid-Headed Yellow, or Yellow-Seeded Butter—Extra; heads of this variety are large, dense; a beautiful yellow inside and outside; crisp, tender and of fine flavor; slow in running to seed and withstands the drought and heat of summer equally well as the Salamander.....	10	25	.40	.75 2.75
Golden Spotted—BENARY'S NOVELTY of 1882. "Particularly tender, heads large and firm; outer leaves golden-yellow, speckled with brown-red. Has given the most unqualified satisfaction. Most distinct. Imported from Mr. Benary. Pkt. 10c.; 1/2 oz. 20c.; oz. 35c.				
Boston Curled—Excellent for salad and also ornamental.....	5	15	.25	.35 1.50
Early Curled Silesia—A tender, non-heading sort.....	5	15	.25	.35 1.50
Carter's Giant White Cos—A new, large and fine variety.....	5	20	.35	.60 2.00
Paris White Cos—A most excellent sort.....	5	15	.25	.35 1.50

The above are the two best Cos Lettuces grown. Properly grown, the inner leaves are white, crisp, brittle and tender, and of the finest flavor. The Cos Lettuces are much grown in England.

MUSK MELONS.

Jenny Lind—Very early. Small round fruit, delicious flavor.....	5	10	.15	.25 1.00
Long Yellow—A large sort, oval-shaped, deeply ribbed; flesh thick, and of good quality.....	5	10	.15	.25 1.00
Montreal Market—This variety is largely grown in the neighborhood of Montreal. It is a very large, deep ribbed, finely netted, round, flattened at the ends, thick-fleshed, and of the finest flavor; weight 15 to 20 pounds.....	5	15	.25	.45 1.75
Bay View—A long, oval-shaped, large, netted, green-fleshed, fine flavored variety. Very much like Casaba. 10 to 15 lbs.....	5	10	.15	.25 1.00
Casaba—Very similar in shape, size and quality to Bay View.....	5	10	.15	.25 1.00
Lacksack—Highly recommended. It is very large, roundish, deeply-ribbed, netted, flesh thick, salmon-colored, and of the finest flavor.....	5	15	.25	.40 1.50
New Surprise—Skin cream-colored, flesh yellowish, and of fair quality.....	5	10	.15	.25 1.00
Prolific Nutmeg—Round; flesh green, thick, excellent.....	5	10	.15	.25 1.00

MUSK MELONS—Continued.

	Pkt.	Oz.	2 Oz.	1 Lb.	1 Lb.
Improved Large Green Nutmeg — <i>Very productive; fruit large, round, flattened at each end, ribbed, netted, flesh thick, green and of the finest flavor.</i>	5	10	.15	.25	1.00
Skillman's Fine Netted — <i>Similar to Prolific Nutmeg.</i>	5	10	.15	.25	1.00
White Japanese — <i>Thick flesh, musky flavor, fine.</i>	5	10	.15	.25	1.00
Netted Pine Apple — <i>An excellent little sort, oval in shape, netted, flesh thick, green, juicy, sweet and rich.</i>	5	10	.15	.25	1.00

The following are *new English* sorts and now for the first time offered.

	Pkt.	Oz.	2 Oz.	1 Lb.	1 Lb.
Captain Larks — <i>"The outer surface is a delicate cream color, evenly and prettily netted, the inner rind is of a pale green shade, and the deep and solid orange-scarlet flesh is deliciously rich and piquant. It grows to a large size."</i> Pkt. of 5 seeds. 20					
Emerald — <i>"A new and distinct green-fleshed melon of exquisite flavor. It is very handsome in form with a remarkably thin skin; the flesh is melting and most delicious."</i> Pkt. of 5 seeds. 20					
Green Gage — <i>This is a cross between the old Egyptian green-fleshed, and one obtained from Syria. It is the best flavored, most tender fleshed, and the most certain and prodigious cropper of all the sorts I have tried against it."</i> Pkt. of 5 seeds. 20					
Sir Garnet Wolseley — <i>"A new and very valuable green fleshed melon. It is beautifully netted, and of exquisite flavor; a very prolific variety. Average weight 3 to 4 lbs."</i> Pkt of 5 seeds. . . . 20					

WATER MELON.

Phinney's Early — <i>Oval shape; dark skin, mottled with light green; productive; grows to a large size; flesh deep red and of superior quality.</i>	5	10	.15	.25	1.00
Mountain Sprout — <i>Large, longish oval, green, marbled; flesh red and of very good quality.</i>	5	10	.15	.25	1.00
Mountain Sweet — <i>A popular standard sort; flesh scarlet, solid, smooth and delicious.</i> ...	5	10	.15	.25	.80
Peerless, or Ice Cream — <i>(White-Seeded true), Oval in shape, of medium size, light and dark green mottled, thin rind, flesh bright scarlet, solid to the center, and very sweet.</i>	5	10	.15	.25	.80
Black Spanish — <i>Round, skin dark green, good size, flesh red, solid, sweet and rich.</i>	5	10	.15	.25	.80
Gipsy Striped, or Georgia Rattlesnake — <i>A large, oblong, early, green mottled, red-fleshed sort of good quality.</i>	5	10	.15	.25	.80
Cuban Queen — <i>An extra large sort; specimens have been grown that weighed 15 to 80 pounds; oval in shape, rind thin, ripens to the center, flesh solid, bright, red, tender, crisp, melting and sugary, productive, and bears handling well.</i>	5	10	.15	.25	1.00
Odella — <i>Early and productive, about the medium size, round, light green, flesh bright red and of fine flavor.</i>	5	10	.15	.25	.80
Dark Icing, or Ice Rind — <i>Round, very solid, thin rind; flesh solid, and of a rich, luscious, sugary flavor.</i>	5	10	.15	.25	1.00

WATER MELON—Continued.

	Pkt.	Oz.	2 Oz.	1 Lb.	1 Lb.
Orange — <i>Round, medium size, flesh tender, red and sweet; good quality. Rind separates from the flesh when fully ripe like the peel from an orange.</i>	5	15	.25	.40	1.50
Vick's Early — <i>"Long, smooth, rather small, flesh bright pink, solid, sweet, and the earliest melon we are acquainted with."</i>	5	15	.25	.35	1.25
Scaly Bark — <i>A very large, oblong sort, with a dark, hard rind, having a scaly appearance, flesh crimson, solid, sweet, and free from fibre. On account of its quality and tough rind, it is an excellent melon for shipping. Average weight about 35 pounds.</i>	5	15	.25	.45	1.60
Citron, (Red Seeds) — <i>For preserving.</i>	5	10	.15	.25	.80

MUSTARD.

White English — <i>For salads, greens and flavoring purposes.</i>	5	10	.15	.20	.50
Black or Brown Italian — <i>For culinary use.</i> ...	5	10	.15	.20	.50
Southern Giant Curled — <i>Much grown at the South for Salad.</i>	5	10	.15	.25	.80
Chinese — <i>Leaves twice the size of the white, more succulent, color a vivid green, but pleasantly sweet; fine for salad.</i>	5	10	.15	.25	.80

NASTURTIUM, or INDIAN CRESS.

Tall — <i>Dark crimson and rich yellow, mixed.</i> ...	5	15	.25	.40	1.00
Dwarf — <i>Various colors mixed.</i>	5	15	.25	.45	1.50

The Nasturtium is both ornamental and useful. The seeds, while young and succulent, have a warm, aromatic taste, and are pickled and used as capers. The flowers, which are large and richly colored, are used for garnishing. It also makes a rich green covering for arbors, trellises, &c.

OKRA.

Long Green — <i>Pods long and green, late.</i> ...	5	10	.15	.25	.75
Dwarf Green Improved — <i>Earliest and best for the North.</i>	5	10	.15	.25	.75

The Okra is grown and used at the South as a vegetable, being chiefly used in soups and stews.

ONION.

Our stock of Onion Seed consists of *home grown, Wethersfield, California and foreign* grown. The foreign seed we import directly from the growers.

The *home and California* Onion Seeds are *Wethersfield and Danvers* varieties, and grown from *Danvers and Wethersfield* stocks.

The home seed was grown from *pure and carefully selected* bulbs by growers who have had *many years of experience* in onion seed growing for the old firm of Briggs & Bro.

Our stock of *Wethersfield* seed was grown in *Wethersfield, Conn.*, by one of the *oldest and most reliable* Onion Seed growers of that town, and from *pure, first-class bulbs*.

Thirteen years ago Mr. R. W. Wilson left the Iowa seed farm of the old firm of Briggs & Bro. and went to California and began seed growing there for them. Mr. Wilson was the pioneer. The raising of Onion Seed in California *proved a success*, and the growing of it there has *largely increased* year by year ever since. It is now *more than probable* that *all of the large seed houses east of the Mississippi deal largely in California* Onion Seeds.

Crops of onions from California grown seed of Danvers and Wethersfield stocks *ripen earlier* than crops of the *same varieties* from seed grown anywhere *east of the Mississippi* river, if sown at the same time.

Home and Wethersfield grown Onion Seed have one advantage over *California* Onion Seed, and as an offset to this *California* seed has *one* advantage over the more eastern grown.

ONION—Continued.

If the spring is such that eastern grown seed can be and is sown early in spring, and if the latter part of the season should be favorable (not over wet) to the crop ripening up, the crop would be somewhat larger than a crop grown from California seed sown at the same time. The crop from California seed would, however, ripen more thoroughly.

From seed sown latish in the spring, and with rather unfavorable weather later in the season, the California seed would produce a larger number of bushels of thoroughly ripened onions to the acre than eastern grown seed.

The Onion seed crops of 1884 are a good average, not so large, however, as those of 1883. Prices at present rule low with a prospect, as there is considerable foreign call, of their advancing as the spring of 1885 approaches. The quality of the seed is EXCELLENT. Those who may favor us with orders for Onion Seed will be furnished with seed all of the growth of 1884, and of FIRST QUALITY in every respect.

We shall be pleased to give special prices for large quantities.

HOME GROWN ONION SEED.

	Pkt.	Oz.	2 Oz.	4 Lb.	Lb.
Danvers Yellow —Full medium size, thick, skin yellowish brown, flesh white, fine grained, mild flavored, and ripens off well. Desirable for family or market; very productive.	5	10	15	30	.65
Yellow Globe Danvers —Like the above, except being more round or globe-shaped; choice.	5	10	15	35	.80
Large Yellow Dutch —A standard sort, medium size, flatish, skin yellowish brown, flesh white, fine grained, mild, ripens off well, good keeper. Excellent family or market sort.	5	10	15	35	.75
Extra Early Red Wethersfield —A thick flatish sort, is smaller and about 10 days earlier than the Large Red Wethersfield, close grained and a good keeper.	5	10	15	35	1.00
Large Red Wethersfield —More generally grown than any other variety. It is large, very productive; ripens off well if seed is sown early in spring, and fall is not too wet. Though perhaps not so mild as some of the smaller sorts, still it is an excellent and popular onion for both family and market.	5	10	15	35	1.00

WETHERSFIELD GROWN ONION SEED.

Danvers Yellow —Same description, &c., as above.	5	10	15	30	.65
Yellow Globe Danvers —Same description, &c., as above.	5	10	15	35	.80
Large Yellow Dutch —Same description, &c., as above.	5	10	15	35	.75
Extra Early Red Wethersfield —Same description, &c., as above.	5	10	15	35	1.00
Large Red Wethersfield —Same description, &c., as above.	5	10	15	35	1.00
White Portugal or Silver Skin —(American Stock). Of medium size, early; skin silvery white, fine grained, mild, ripens off well, and is quite productive; an excellent sort for family use.	5	20	30	50	1.75
Early Red Globe —A little later than the Extra Early Red, and more globe shaped and larger; a fine sort.	5	10	15	35	1.00
White Globe —Globe-shaped, pure white, solid ripens off with a very small neck; a handsome and choice sort; sells at a high price in New York market.	5	20	35	60	2.25

ONION—Continued.

Southport Yellow Globe —A new, very large, nearly ovoid-shaped, straw-colored variety, of mild and pleasant flavor; handsome, very productive, good keeper and one of the very best sorts.	5	15	25	40	1.50
Southport White Globe —The same as the Yellow Globe, except in color.	10	20	35	60	2.25
Southport Red Globe —The same as the other Southport varieties except in color.	10	20	35	60	2.25
CALIFORNIA GROWN ONION SEED.					
Danvers Yellow —The same as the more easterly grown, except the crops ripen off earlier.	5	10	15	20	.65
Globe Danvers Yellow —Crops from California grown seed ripen off earlier than crops from more easterly grown seed.	5	10	15	25	.80
Large Red Wethersfield —The remarks with reference to the Danvers varieties, applies to the Large Red Wethersfield.	5	10	15	25	1.00

ONION, NEW ITALIAN VARIETIES.

New Queen —A beautiful white or silver-skinned variety, a rapid grower, inch and one-half in diameter; fine grained and solid, "keeping sound from harvest to harvest, retaining to the last its exquisite flavor."	5	25	40	75	2.50
Norcera —An extra early flatish silver-skinned sort of excellent flavor; keeps well, splendid for pickles; much like the New Queen.	5	25	40	75	2.50
Marzajola —A distinct white, or silver-skinned, solid, fine grained, flatish variety of medium size and fine quality. The Italian grower says of it, "By far the earliest onion in cultivation."	5	15	25	40	1.50
Early Flat White Italian Tripoli —An early and beautiful white-skinned variety of rapid growth; mild and fine flavor.	5	15	25	40	1.50
Giant White Flat Italian Tripoli —A new, very large, white, flat variety of quick growth and mild flavor. Specimens of the weight of 24 pounds have been grown.	5	15	25	40	1.50
Large Italian Blood Red Tripoli —Same as first above, except as to color.	5	15	25	40	1.50
New Giant Rocca of Naples —A splendid variety of onion, of delicate flavor, large, globular shape, light brown skin and of immense size.	5	15	25	40	1.50
White Flat Mammoth —NOVELTY OF 1882. Bulbs 64 to 7 inches across, flat in form and silvery white; of particularly mild and fine flavor. A heavy cropper and unsurpassed for exhibition.	10	35	60	1.00	3.00

NOVELTIES IN ONIONS.

"NEW, DISTINCT AND VALUABLE ONIONS."					
	Pkt.	Oz.	2 Oz.	4 Lb.	Lb.
"Carter's Golden Queen" —Messrs. Carter, Dunnett & Beale, say of it, "The most perfect miniature model that has come under our notice. The onions vary from an inch to an inch and a half in diameter; in shape somewhat resembling <i>White Queen</i> , but even more symmetrical than that variety. Skin of a delicate, transparent, golden-straw color. Golden Queen Onion possesses all the characteristics of rapidity of growth and good keeping properties for which <i>White Queen</i> is famous, while the flavor is unusually delicate. Like <i>White Queen</i> , it is a Tripoli onion."	Pkts	15	40	70	1.25 4.00

NOVELTIES IN ONIONS—Continued.

	Pkt.	Oz.	2 Oz.	1/2 Lb.	Lb.
"Carter's New Silver Ball"—Messrs. Carter, Dunnett & Beale, say of this, "A very distinct and handsome silver-skinned Tripoli onion. It grows to the size of a Snowball turnip, almost globular in form, with a beautiful silvery skin; flavor mild and delicious. This variety must prove highly valuable for exhibition purposes. It has been placed before the Committee of the Royal Horticultural Society, who pronounced it to be very handsome." "Silver Ball is a splendid onion in shape and flavor, quite distinct; very small neck.".....	15	.40	.70	1.25	4.00
"Carter's Golden Globe Tripoli"—A very desirable novelty from the south of Europe. It grows to the size of the Giant Rocca, and the flavor is excellent. The skin is of a transparent golden-straw color, closely resembling the imported onions sold at Italian Warehouses. It will be found invaluable in exhibition collections. Suitable both for autumn and spring sowing.".....	15	.40	.70	1.25	4.00

PARSLEY.

Fine Double Curled—A fine dwarf variety with beautifully crimped and curled tender leaves.....	5	.10	.15	.25	.80
Carter's Champion Moss Curled—New and superior; unapproachable for garnishing purposes; excellent for seasoning soups and stews; a pretty edging for the walks of the garden.....	5	.10	.15	.25	.80
Carter's New Fern-leaved—Extra selected. A beautiful variety for table decoration.....	5	.10	.15	.25	1.00
Myatt's—Pale green, extra curled, fine.....	5	.10	.15	.25	.80
Hybrid Moss Curled—Extra selected, of the Moss Curled type; fine table decoration, &c.	5	.10	.15	.25	1.00
Covent Garden Garnishing. A superior variety for garnishing. One of the best of the London Markets.....	5	.10	.15	.25	1.00
Hamburg, or Turnep-rooted—The roots are used for flavoring soups.....	5	.10	.15	.25	.80

PARSNIP.

Abbott's Improved Long Hollow-Crowned—A long, smooth, white, sweet variety of fine flavor.....	5	.10	.15	.25	.60
Carter's New Maltese—A fine, smooth, long-rooted variety, and claimed to be an improvement over other sorts.....	5	.10	.15	.25	.60
Short or Round Early French—A very early French variety.....	5	.10	.15	.25	.60
Sutton's Student—A half long, finely flavored sort.....	5	.10	.15	.25	.60
Parsons' Guernsey—Long-rooted, sweet and sugary.....	5	.10	.15	.25	.60

PEAS.

EXTRA EARLY VARIETIES.

<i>Have in mind that nothing is to be added to our prices for Postage or express charges on seeds ordered by the Pkt., oz., 2 oz., 1 lb., 1/2 pt., 1 pt., or Qt., at catalogue prices.</i>					
Hungerford and Wardwell's None-Such—The earliest and best of the EXTRA EARLY varieties.....	10	.20	.35	.65	7.50
American Wonder—The earliest wrinkled pea in cultivation; dwarf and robust in habit; 10 to 15 inches; great bearer; pods large and well filled, and peas of the finest flavor.....	10	.20	.35	.65	7.00

PEAS—Continued.

	Pkt.	1/2 Pt.	Pt.	Qt.	Bu.
First and Best, or "Best of All"—Very early. A prodigious cropper; pods good size and well filled with peas of excellent flavor; 2 1/2 feet.....	10	.20	.35	.60	5.50
Carter's First Crop—A very early and productive variety; 2 1/2 feet.....	10	.15	.25	.45	3.50
Extra Early Kent—True. A standard, very early and productive sort; pods large, well filled; peas rich and of the finest flavor; 2 1/2 feet.....	10	.15	.30	.55	3.50
Philadelphia Extra Early—So nearly like the Extra Early Kent, it is difficult to determine which is which.....	10	.15	.30	.55	3.50
Improved Early Daniel O'Rourke—A very early, productive and popular market variety; pods fill well; peas of good size and firm quality.....	10	.15	.30	.55	3.50
McLean's Little Gem—The very best, early, dwarf, wrinkled pea grown; about 1 foot in height; very productive; pods large, well filled; peas tender, rich, sugary and delicious.....	10	.20	.30	.50	4.50
Extra Early Premium Gem—Of the type of the Little Gem, a little more robust, but similar in other respects; choice.....	10	.20	.30	.50	4.50
Tom Thumb—True. A very early, robust growing, productive dwarf; height about 10 inches; pods of good size; peas excellent.....	10	.20	.30	.50	4.50
McLean's Blue Peter—A dwarf of the Tom Thumb type, height about 1 foot; prolific; pods large and well filled; peas of exquisite flavor.....	10	.20	.30	.50	4.50
Laxton's Alpha—A blue wrinkled pea of exquisite flavor and remarkable for its earliness and prolific bearing; 2 1/2 feet.....	10	.15	.25	.45	4.50
Waite's Caractacus—A very productive and excellent early variety.....	10	.15	.25	.45	3.50
Laxton's William the First—A new, extra early, green marrow sort of fine quality; about 5 days later than Extra Early Kent; peas large.....	10	.20	.35	.60	5.50
Kentish Invicta—A desirable, early variety, producing straight, handsome, well filled pods of round blue peas of superior richness and flavor.....	10	.20	.30	.50	4.00
Dreer's Extra Early—"The earliest and most prolific variety; an even cropper of excellent quality; height 2 feet. The crop can be gathered in two pickings, a very important item; also for a late fall crop it has few equals; the market gardener's favorite.".....	10	.20	.30	.45	5.00

EARLY VARIETIES.

McLean's Advancer—Dwarf, wrinkled Marrow, very early, only a little later than McLean's Little Gem; pods large, and peas of fine quality; 2 feet.....	10	.15	.25	.45	3.50
Bishop's Early Dwarf—An excellent, second early variety; a prolific cropper; 2 feet.....	10	.15	.25	.45	3.50
Day's Early Sunrise—A very early, large, white, Marrow pea of fine quality; 3 feet.....	10	.20	.30	.50	4.00
Telephone—New variety. Selected from Telegraph from which it differs in the seed being wrinkled, whilst the quality is superior. The pods are immense, and the peas so close together as to appear to be forming a double row in the pod; peas are large and of exquisite flavor; 4 feet.....	10	.20	.35	.65	

PEAS—Continued.

	Pkt. ½ Pt.	Pt.	Qt.	Bu.
"Carter's Pride of the Market" —Novelty, imported from England; "one of the most popular market peas in existence. In length of pod it is equal to Stratagem, from which it differs in possessing a greater depth of color, with round, blue seed. It grows from 1½ to 2 feet high, and bears grand pods well filled with large and fine flavored peas from top to bottom of the haulm.".....	15	.35	.60	1.00

LATER VARIETIES FOR GENERAL CROP.

Yorkshire Hero —A splendid, wrinkled Marrow, and one of the most desirable varieties in cultivation; is very prolific and delicious flavor.....	10	.15	.25	.45 3.50
Champion of England —A standard, and one of the best and most popular wrinkled varieties in cultivation; pods are large, peas green, rich and of the finest flavor; 5 feet.....	10	.15	.25	.45 3.50
Carter's Stratagem —A first-class novelty; "the pea for everybody, whether rich or poor;" the plant is dwarf, hardy and prolific; the pods of good shape and color, and well filled with large, handsome, rich peas; 2 feet.....	15	.25	.35	.65
Forty Fold —This variety is recommended to us as an improvement on the <i>Champion of England</i> , and if it is such, it is one of the most desirable sorts grown.....	10	.20	.35	.60
British Queen —One of the best and most productive of the tall <i>wrinkled marrows</i> ; of delicious flavor; 6 feet.....	10	.20	.30	.55 6.00
Dwarf Blue Imperial —Height of this variety is about 2½ feet; the peas are blue, large and excellent; the pods are short and only a few peas in a pod.....	10	.15	.25	.45 3.50
Large White Marrowfat —A standard, large, late, market variety, with large, broad pods, well filled, of excellent quality; 5 feet.....	10	.15	.25	.45 2.25
Large Blackeyed Marrowfat —A popular market sort; very prolific; pods are large and full; peas are rich and good.....	10	.15	.25	.45 2.25

PEAS—EDIBLE PODS.

Dwarf Sugar —Pods large, broad, succulent, tender, sweet and rich; used like Snap Short-Beans; 2½ feet.....	10	.20	.35	.60
Tall Sugar —Large, tender, rich pods; used as Dwarf Sugar; 5 feet.....	10	.20	.35	.60

ALL PEAS OFFERED BY US ARE HAND-PICKED.

PEPPERS.

	Pkt. Oz.	2 Oz.	½ Lb.	Lb.
Squash or Tomato Shaped —Large, ribbed, flesh thick, mild.....	5	.20	.35	.60 2.00
Sweet Mountain or Mammoth —A large variety, rind thick and fleshy, best for pickling and mangoes.....	5	.20	.35	.60 2.00
Long Red —Fruit brilliant red, three to four inches long, inch to inch and a half in diameter, flesh thick and pungent, fine for pickles, &c.....	5	.20	.35	.60 2.00
Golden Dawn —(A new sweet pepper), in size and shape much like <i>Mountain Sweet</i> , color, golden yellow, flesh thick and mild.....	10	.25	.50	1.00
<i>The foregoing varieties are best of all.</i>				

PUMPKIN.

	Pkt. Oz.	2 Oz.	½ Lb.	Lb.
Large Cheese —A superior variety for table use.....	5	.10	.15	.25 .80
Cushaw, or Crook-Neck —Excellent for table use and for stock feeding; flesh, yellow, solid, fine grained and sweet.....	5	.15	.20	.30 .90
Sugar —Smaller than the <i>Large Field</i> , but of finer grain, sweeter, and very productive; very fine for pies.....	5	.10	.15	.25 .80
Nantucket, or Negro —A small, black skinned sort, flesh yellow, solid, fine grained and sugary; excellent for pies.....	5	.15	.25	.40 .90
Connecticut Field, Large Common Yellow —A very productive sort, grown principally for feeding stock; good for pies. 2 oz., 10c.; ½ lb., 15c.; ¾ lb., 25c.; 1 lb., 40c.				

RADISH.

Shall be pleased to give special prices for larger quantities.

Olive-Shaped White —The olive (oval or oblong) shaped sorts are very early, tender, crisp and of mild flavor. All are well adapted for forcing. They are also very desirable for garden culture. It is claimed that they are not so liable to become wormy in certain soils as the long-rooted varieties. These remarks hold good with reference to all of the short and turnep rooted kinds....	5	.10	.15	.25 .75
Olive-Shaped Scarlet —Like the above except in color. The scarlet is a popular color.....	5	.10	.15	.25 .75
Olive-Shaped Golden Yellow —A novel and handsome color; quality like the other sorts.....	5	.10	.15	.25 1.00
Olive-Shaped Violet, White Tipped —A delicate, pretty color; tender and crisp and mild flavored like the other olive-shaped sorts.....	5	.15	.25	.35 1.25
Olive-Shaped Scarlet Globe — <i>New</i> . Of brilliant red color, short-leaved, flesh fine and white, very mild flavor.....	10	.20	.35	
Earliest Scarlet Erfurt —Short-leaved, extra early, deep scarlet, the finest sort for frame, oval shaped sort; tender, brittle, crisp and of mild flavor. Fast becoming a favorite. Hot-bed or garden.....	5	.10	.15	.25 .75
Early White Turnep —A standard sort for hot bed and garden; fine quality.....	5	.10	.15	.25 .65
Extra Early White Turnep-Rooted —A rapid growing variety, of finest quality, forcing or out-door culture.....	5	.10	.15	.25 .65
Early Yellow Turnep —Like the other turnep varieties except in color; early, mild and pleasant.....	5	.10	.15	.25 .75
Early Scarlet, or Red Turnep —A standard sort; small top, very early, tender, crisp and mild.....	5	.10	.15	.25 .65
<i>Shall be pleased to give special prices for larger quantities.</i>				
Early Purple Turnep —Color deep purple, very early, and of fine flavor.....	5	.10	.15	.25 .75
Early Scarlet Turnep, White Tipped —A fancy sort, of excellent quality.....	5	.10	.15	.25 .75
Grey Summer Turnep —A very early variety, differing from the other kinds in quality and in color.....	5	.10	.15	.25 .75
Golden Globe Turnep —An excellent, early summer variety, of finest quality.....	5	.10	.15	.25 .75

RADISH—Continued.

Early Long Scarlet Short-top—This is the standard sort of long-rooted Radish. The top is small, root bright scarlet, 6 or 7 inches long, grows quick, is tender, brittle, crisp and of mild flavor. Second to none for family, or market garden. 5 .10 .15 .25 .65
Special prices for large quantities.

Early Long Scarlet—Top a little larger than that of Short-top; root the same. An excellent sort. 5 .10 .15 .25 .75

Covent Garden Special Long Scarlet—A favorite of London Covent Garden market. The root is a beautiful scarlet, and of the finest quality. 5 .10 .15 .25 .75

Long Salmon Colored—Similar to Short-top, but of a yellowish red color; fine. 5 .10 .15 .25 .75

Long White Naples Summer—An excellent long-rooted variety; flesh white, crisp and mild. 5 .10 .15 .25 .75

Wood's New Frame—Half long; fine for hot-bed forcing or out door culture; early, mild, brittle and of fine flavor. 5 .10 .15 .25 .75

Long Russian Frame—Extra long white, root 8 to 10 inches in length, an inch in thickness; flesh white, delicate and of fine flavor. 10 .25 .40 .75 2.25

FOLLOWING ARE WINTER VARIETIES OF RADISH:

Chinese Rose Winter—Root short and thick, bright rose color, very smooth, flesh firm and pungent; one of the very best for winter. 5 .10 .15 .25 .75

Chinese White Winter—Same as Rose Winter, except as to color. 5 .10 .15 .25 .80

Black Spanish Winter, Round—A standard sort; roots large, skin black, flesh white and firm, hardy and a long keeper; one of the best. 5 .10 .15 .25 .75

Black Spanish Winter, Long—Like the Round, except in shape. 5 .10 .15 .20 .65

Spanish White Winter, Long—Similar to above, except in color, and said to be milder. 5 .10 .15 .25 .75

California Mammoth White Winter—A Chinese variety, first grown in this country in California. Roots are from 10 to 12 inches long, and about 3 inches thick. A fine Winter sort for salad purposes. 5 .15 .25 .35 1.25

Raphanus Caudatus, or Rat-tail Radish—A Japan sort. It's the pods that are used; they grow from 2 to 3 feet long and are used as a salad, boiled or in pickles; really more curious than useful. 10 .40

Our Radish seeds are all of this year's importation. The Imported is far superior to American grown. The American deteriorates in color.

RHUBARB.

Linnæus—Large, tender and excellent flavor. 5 .15 .25 .40 1.50
Myatt's Victoria—A large, choice and favorite variety. 5 .15 .25 .40 1.50

SALSIFY, OR OYSTER PLANT.

New Blue Flowered French—The root of the New Blue Flowered, is larger, smoother and more perfect in shape than the ordinary and of the finest quality. 5 .10 .15 .25 1.00

SALSIFY—Continued.

Long White—An excellent marked variety. 5 .10 .15 .25 1.00
Vilmorin's Long White—Extra fine French. Choice. 10 .15 .25 .40 1.50

Long Black, or Scorzonera—A black Salsify, inferior to other sorts. 5 .25

Scolymus Hispanicus—A Spanish variety of Oyster Plant. Not much grown here. 5 .25

SEA KALE.

Sea Kale is cultivated for its blanched shoots, which are cooked as asparagus. Not much grown on account of the care required to grow it. 15 .25 .40

SORREL.

Large-Leaved Garden—Used for salads. 5 .30 .35

SPINACH.

Round Leaf, or Summer—The standard market sort; equally good for either spring or fall sowing. 5 .10 .15 .25 .40

Lettuce-Leaved—A new variety of superior quality; leaves, large, thick and deep green. 5 .10 .15 .25 .40

Monstrous Virolay—Extra large round-leaved. A splendid variety; leaves large, broad, round, thick and fleshy. 10 .10 .15 .25 .40

New Zealand—A robust growing variety, producing an abundance of leaves throughout the summer; endures heat and drouth well. Plants should stand 2 feet apart. 5 .10 .15 .25 1.00

Bloomsdale—This variety is said to be an improvement on the Savoy-leaved. The leaves are numerous, succulent, rounded at the ends, bloated and blistered and partially rolled. 5 .10 .15 .20 .50

Savoy Large Round Leaved—Athrifty growing variety, producing an abundance of thick, succulent, crimped or blistered leaves; gardener's favorite. 5 .10 .15 .20 .45

Long Standing Round Seeded—A new French sort; very thick, large, succulent leaves. "Will stand from 2 to 3 weeks longer than any other sort before running to seed." So says Mr. Vilmorin. 5 .10 .15 .20 .45

New Thick-Leaved—Leaves large, tender, and thick. 5 .10 .15 .20 .40

Flanders—A hardy, broad-leaved variety, but not crimped. 5 .10 .15 .20 .40

Carter's Market Favorite—NOVELTY. "This valuable NOVELTY shows a most decided improvement in shape, substance of leaf and duration of plant, remaining in full condition for use a long time after all other varieties sown side by side with it have run to seed and become useless for table purposes." 10 .20 .35 .60 2.00

Shall be pleased to make special prices for larger quantities of any of the foregoing varieties of spinach.

SQUASH.

Early White Bush Scallop—An early, productive, flat sort; flesh light colored, fine grained and of good quality. 5 .10 .15 .25 1.00

Early Yellow Bush Scallop—Like the above except in the color of its fruit. The yellow, however, is generally preferred. 5 .10 .15 .25 1.00

SQUASH—Continued.

	Pkt.	Oz.	2 Oz.	1/2 Lb.	1 Lb.
Early Bush Summer Golden Crookneck —Esteemed as one of the <i>choicest</i> , if not the <i>best</i> , of summer varieties; bright yellow; skin warty and thin; flesh dryish and of good flavor.	5	10	.15	.35	1.00
Perfect Gem —A desirable as a <i>winter</i> , or <i>summer</i> Squash; a strong grower and <i>large yielder</i> , as many as 24 having been produced on a single vine. The squashes are from 4 to 6 inches in diameter, of a creamy white, with thin, smooth shell, slightly ribbed. The flesh cooked, is <i>dry, sweet and rich</i> in flavor. In a dry, cool place, will keep till spring.	10	.20	.35	.60	2.00
Vegetable Marrow —A favorite English sort; flesh white, soft and of rich flavor; summer and early fall.	10	.20	.35	.60	2.00
Turban or Turk's Cap —A good late variety; flesh yellow, thick and fine grained; sugary and well flavored; fall and early winter.	5	10	.15	.35	1.00
Essex Hybrid —A cross between the Hubbard and American Turban, having the shape and fine qualities of the Turban, with the dryness and hard shell of the Hubbard. A good keeper.	5	10	.20	.35	1.25
Marblehead True —Flesh sweet, dry and delicious. Fruit about the size of the Hubbard, and keeps well.	5	10	.15	.35	1.00
Canada Crook-Neck — <i>True</i> . A small early variety of winter crook-neck; one of the best for keeping.	5	10	.15	.25	.90
Boston Marrow —About ten days later than the <i>Bush</i> varieties; a good keeper, flesh orange colored, fine grained and excellent fall and winter; fine for pies.	5	10	.15	.35	.90
Hubbard —A <i>standard</i> variety and a <i>favorite</i> ; flesh, bright yellow, fine grained, very dry, sweet, and of fine flavor, and a fine keeper. <i>The best winter sort</i>	5	10	.20	.30	1.00

TOMATO.

	Pkt.	1/2 Oz.	2 Oz.	1/2 Lb.	1 Lb.
Little Gem —The <i>earliest</i> variety and a very <i>prolific</i> bearer. The fruit is smooth, but too small to be desirable.	5	15	.25	.40	.75
Carter's Green or Golden Gage —A large cropper, <i>very</i> early, fruit a little below medium size, <i>bright golden yellow</i> , <i>perfectly smooth</i> ; flavor <i>exquisite</i> , combining when cooked that of the apple and tomato. A <i>choice</i> variety for <i>early</i> use and for <i>canning</i>	5	15	.25	.40	.75
Early Mayflower —This variety is <i>earlier, larger, and smoother</i> than <i>Gen. Grant</i> , but <i>much</i> like the <i>Grant</i> in <i>color and quality</i> ; color, <i>bright red</i> , <i>ripens up to the stem</i> ; flesh is <i>solid</i> and of a <i>rich</i> flavor. One of the <i>best</i> for general crop, either for family or market.	5	15	.30	.50	.90
Carter's Dedham Favorite —An English NOVELTY. "Awarded a <i>First Class Certificate of Merit</i> by <i>Royal Horticultural Society</i> ." "In Dedham Favorite, raised by Messrs. James Carter & Co., we have a variety that is <i>perfectly distinct</i> , and so <i>remarkably</i> good in <i>every respect</i> that it may be safely described as a <i>most valuable</i> acquisition. The fruits are of <i>large</i> size, <i>globular</i> in form, <i>quite smooth</i> , and of a <i>rich ruby red</i> , and as <i>round</i> as an orange. <i>Flesh solid</i> and of <i>high quality</i> ."—Gardener's Magazine.	10	.30	.50		

TOMATO—Continued.

	Pkt.	1/2 Oz.	2 Oz.	1/2 Lb.	1 Lb.
Livingston's Favorite —Mr. Livingston says of the Favorite: "It is the <i>largest perfect</i> shaped tomato in cultivation, <i>smoother</i> than the <i>Paragon</i> ; does <i>not</i> crack or rot; is a <i>darker red</i> than the <i>perfection</i> ; ripens <i>evenly</i> and as <i>early</i> as any good sort, holding its <i>size</i> to the end of the season.	10	.15	.20	.35	.60
General Grant —This is a <i>superior</i> family and market variety. The fruit is <i>large, smooth</i> , of <i>bright red</i> color; ripens up <i>rapidly</i> and <i>thoroughly</i> , is <i>solid</i> and of a <i>most agreeable</i> flavor, much like the <i>Mayflower</i>	5	15	.25	.45	.80
Briggs' Beauty —A <i>new, superior, large, productive, early</i> variety. Color a <i>beautiful</i> rich, dark carmine red. Fruit is nearly as large as <i>Trophy</i> ; as <i>smooth and perfect</i> in shape as the <i>Excelsior</i> , but <i>larger</i> and of <i>better</i> flavor; round, a little flattened; <i>solid</i> , and, unlike the <i>Trophy</i> , it <i>ripens well</i> about the <i>stem</i> . <i>Excellent</i> for <i>canning</i> or <i>salad</i> purposes.	5	.20	.40	.75	1.25
Early Acme —This is an <i>excellent</i> sort for either the family, market or <i>canning</i> . It is of good, medium size, <i>smooth</i> , round, a little flattened; color, a <i>glossy dark red</i> , with a sort of <i>purplish tinge</i> , <i>ripens up handsomely</i> , and is of the <i>best</i> quality. <i>First class</i> sort.	5	10	.20	.35	.75
Perfection —In shape like the <i>Acme</i> , of the same flavor, fully as <i>early, perfectly smooth</i> , blood red in color and produces large fruit to the end of the season.	5	15	.20	.35	.65
Paragon —A second early; <i>fruit large</i> , color <i>bright crimson, smooth, solid</i> and of <i>excellent</i> flavor; <i>very productive</i>	5	15	.20	.35	.65
Hathaway's Excelsior —Below medium size, will average in shape <i>more perfect</i> than <i>any other</i> variety; of dark red color. A <i>solid and very handsome</i> sort, but, we think, not equal in quality to some other kinds.	5	15	.20	.35	.65
Essex Early Hybrid —A <i>large, very early</i> variety, <i>perfectly smooth</i> , of a bright pink color, ripens up <i>perfectly</i> , and is of the <i>finest</i> flavor. <i>First class. Our seed is choice</i>	5	15	.20	.35	.65
Briggs' Perfection —Nearly as large as <i>Trophy</i> , <i>very smooth and perfect</i> in shape, round, a little flattened, <i>very productive, firm and solid</i> , ripens up well about the stem; color, a <i>beautiful dark vermillion red</i> . <i>Excellent</i> for <i>canning</i> or <i>salad</i> purposes.	5	15	.30	.50	1.00
The Queen —A <i>productive</i> variety. The fruit is <i>large</i> , of <i>bright scarlet</i> color; is <i>solid</i> , and ripens up well. An <i>excellent</i> sort for family, market or <i>canning</i>	5	15	.25	.40	.75
Hubbard Curled Leaf —A <i>very early</i> variety. It is of dwarfish habit and a <i>prolific</i> bearer; fruit is of fair size, <i>irregular</i> in shape, ripens up well, and is of good color and flavor. Its shape is <i>objectionable</i>	5	15	.20	.35	.65
The Conqueror —This is <i>another very early</i> sort; <i>irregular</i> in shape, but on the whole a <i>very fair</i> kind.	5	15	.20	.35	.65

TOMATO—Continued.

Golden Trophy—A sport from the Red Trophy. A rapid grower, very productive, ripening about a week earlier than the Red Trophy, beautiful canary yellow; fruit, solid and of fine quality, like the Green Gage, having an apple flavor.	Pkt.	½ Oz.	Oz.	2 Oz.	½ Lb.	Lb.
Red Trophy—This variety has become a standard sort. Fruit is <i>very large</i> , generally <i>smooth</i> , ripens early for so large a sort, and is of fine quality; <i>very productive</i> .	5	15	.30	.55	1.00	
Island Beauty—This variety is of the <i>Trophy type</i> . It is considerably larger than the Trophy, will average <i>smoother</i> , and with us ripened up better about the stem. The fruit is <i>solid</i> and of fine flavor.	5	15	.20	.35	.65	
Rochester—This is also of the Trophy type. It is larger than the Trophy, and more irregular in shape. Can't give it a very big recommend. <i>Try it</i> .	5	20	.35	.60	1.00	
Garfield—This is the <i>largest</i> tomato grown. It is <i>very irregular</i> in shape and would advise the growing of it <i>only as a curiosity</i> . It is a <i>remarkable</i> sort.	10	.25	.40			
The foregoing list embraces all of the best varieties of the Tomato. We take a good deal of pride, and not a little pleasure, in growing Tomato seed. We allow no tomatoes to be picked for the market and save seed from the finest fruit only. In addition to the foregoing we have the following varieties, which we really consider inferior sorts:						
Red Currant—Pkt., 5 cts.; ½ oz., 20 cts.; Oz., 35 cts.						
Red Cherry, Cedar Hill,						
Yellow Cherry, Tilden,						
Plum-Shaped Yellow, Large Yellow,						
Pear-Shaped Yellow, Early Smooth Red,						
Vick's Criterion, Maupay's Superior,						
Canada Victor, Blount's Champion,						
Broad-leaved Dwarf, Earley's Defiance,						
Oranfield, Keyes' Early Prolific,						
Dwarf Oranfield, Ford's Early Cluster,						
Early Dwarf Red, Belle de Leuville.						
Any of the foregoing varieties not priced, Pkt., 5 cts.; ½ oz., 10 cts.; oz., 20 cts.; 2 oz., 30 cts.; ½ lb., 50 cts.;						

TURNIP.

Teltow, or Small Berlin—Much grown in Germany and France, and especially about Berlin; roots long and small, tops small, skin white, firm, fine grained, sugary and of excellent flavor. The skin has a peculiar flavor, and should not be taken off when used.	Pkt.	Oz.	2 Oz.	½ Lb.	Lb.
New Early White Egg—An oval or Egg-shaped, <i>very early</i> , <i>quick growing</i> sort; skin <i>thin</i> and <i>perfectly smooth</i> ; flesh <i>fine grained</i> , <i>mild</i> , <i>rich</i> and <i>sweet</i> ; skin and flesh <i>snow white</i> ; <i>excellent</i> for table use, and an <i>attractive</i> and <i>desirable</i> variety for the <i>market</i> . Sow seed for main crop about the 12th of August.	5	10	.15	.20	.65
Carter's Early White Six-Week—Carter's Select Garden Stock. A <i>very early</i> , roundish, <i>quick growing</i> , white, smooth skinned, white fleshed variety. Flesh hard, sweet and excellent. Choice for family or market.	5	10	.15	.20	.65
Early White Flat Dutch—This is the old and reliable <i>Early White Flat</i> . It is similar to the White-top Strap-leaf; excellent table sort for early spring or late summer sowing.	5	10	.15	.20	.60

TURNIP—Continued.

Jersey Lily—Unquestionably the <i>most perfect</i> in outline and the <i>earliest white</i> Turnep grown; a clear white root and distinct, small top.	Pkt.	Oz.	2 Oz.	½ Lb.	Lb.
Early Snowball—A very early, handsome, round variety with a snow-white skin, and white, firm, sweet flesh; excellent for table, and its <i>attractive</i> appearance would make it a <i>salable</i> market sort.	5	10	.15	.25	1.00
Jersey Navet—A long-rooted, early, fine fleshed, delicate, sweet variety for table use. It is very popular in the Paris markets where it is esteemed one of the best.	5	10	.15	.25	.75
Early White Stone—A large, early, round, smooth, white sort; flesh hard, white and excellent; fine for table and a good variety for early spring and late summer sowing for market.	5	10	.15	.20	.65
Early White Flat Dutch, Strap-Leaved—An excellent, <i>early garden</i> variety; bottoms <i>easily</i> and <i>rapidly</i> , and under conditions that would cause failure in some other sorts; an excellent kind for the south as well as for the north. It is an excellent table sort being quite solid, tender and sweet.	5	10	.15	.20	.65
Pomeranean White Globe—Latish and very productive. The roots in a suitable soil grow to a <i>large</i> size, often <i>weighing ten to fifteen pounds</i> ; are globular in form; skin white and smooth. Useful for table and feeding stock.	5	10	.15	.20	.60
Large White Globe—The <i>old field variety</i> , grows to a <i>large</i> size; is a big yielder, and a very profitable sort to grow for stock feeding.	5	10	.15	.20	.50
Large White Flat Norfolk—This is the old " <i>Flat Field</i> " sort, green above ground and white below; a <i>heavy</i> cropper, the roots growing on good soil to a <i>very large</i> size. Grown principally for stock feeding, though the roots while young, are very good for table use.	5	10	.15	.20	.55
Long White or Cow Horn—Flesh white, fine grained, sweet, keeps well, and is one of the <i>best</i> for all culinary purposes.	5	10	.15	.20	.65
Long White Tankard—Excellent field or garden, for stock or table; root tapering, 8 to 10 inches long, 4 to 5 thick; green above ground, white below. Flesh white, firm, sweet and of good flavor.	5	10	.15	.20	.50
Long Red Tankard—Like the White Tankard, except that the part of the root above ground is purple or red. It is white below ground and flesh white.	5	10	.15	.20	.65
Extra Early Purple Top Munich—One of the <i>earliest</i> if not the <i>earliest</i> turnep grown. It is regarded as holding the same place among <i>turneps</i> that the <i>Egyptian</i> variety does among the <i>beet</i> family—that of being the <i>earliest</i> of all; flesh white, with bright purplish red top. A splendid variety for first crop.	5	10	.15	.25	.80
Veitch's Early Red Globe.—A fine garden variety, smooth, firm, globular in shape, and of excellent quality for table use.	5	10	.15	.20	.60

TURNIP—Continued.

	Pkt.	Oz.	2 Oz.	4 Lb.	Lb.
Early Flat Purple-Top Strap-Leaved —This variety has become very popular and is now in very general use as a garden and field sort, for both table use and for feeding to stock. It is early, bottoms quick and is more sure to make roots than any other sort we know of. The root is flat, smooth and uniform in shape; the leaves are few and narrow; the skin above ground is purplish red, below white; flesh white, firm, sugary, mild and well flavored; size, full medium. It is the best of Turnips to sow among corn or upon small patches of garden where early potatoes, or peas, or beans have been taken off.....		5	10	.15	.20 .60
Early White Flat Strap-Leaved —Like the Purple-Top Strap-Leaved except in color. An excellent sort.....		5	10	.15	.20 .60
Red-Top Flat Norfolk —An excellent variety for table use and for stock feeding, very much like Purple-Top Strap-Leaved, except in the leaf; the root is handsome, flat-shaped, purple above ground, with small top and tap root.....		5	10	.15	.20 .50
Carter's Improved Purple-Top Mammoth —A very large, quick growing, globe-shaped, productive, purple-top sort; flesh, firm and sweet; good for table and very desirable for stock-feeding		5	10	.15	.20 .55
Grey Stone —Field or garden, table or cattle, round in form, flesh hard and sweet.....		5	10	.15	.25 .75

YELLOW FLESHED VARIETIES.

Early Yellow Dutch —An excellent sort for table use; smallish, flesh yellow, firm, tender, fine grained, mild and sweet. One of the best for garden.....		5	10	.15	.25 .75
Early Yellow Finland —A small, early, flat, garden variety, flesh bright yellow, tender, close grained, of a sweet and sugary flavor. A choice variety for table use.....		5	10	.15	.25 .75
Early Yellow Stone —A most excellent yellow fleshed variety for table use, and good for stock feeding. The roots are of medium size, very firm and of a rich, sweet flavor. A long keeper.....		5	10	.15	.30 .65
Robertson's Golden Ball, or Orange Jelly —One of the very best of the yellow Turnips. It is globe-shaped, skin bright yellow, flesh yellow, fine grained, solid, rich, and of excellent flavor. Its keeping qualities are superior. A first class table variety, and on account of its keeping qualities a very desirable Turnip to feed to stock after Strap-Leaf.....		5	10	.15	.25 .75
Early Yellow Malta —An excellent table variety; roots medium size, skin bright orange yellow, tender and sweet.....		5	10	.15	.30 .65
Yellow Aberdeen, Purple-Top —A very productive, hardy sort, good keeper, globe-shaped; color pale yellow with purple top. Very firm in texture, and closely resembling the Ruta Baga in good keeping qualities; good for either table or stock.....		5	10	.15	.20 .65
Yellow or Amber Globe —One of the best varieties for general crop; flesh very firm and sweet, and keeps well until late in spring; grows to a large size, and is excellent both for stock and table use.....		5	10	.15	.20 .55

TURNIP—Continued.

Sweet German —Seed, best Nantucket grown. A superior variety for table use, and good for stock feeding. The flesh is white, solid, fine grained, firm, sweet and of excellent flavor. It will retain its firmness, and its other good qualities until the next summer. The seed should be sown about the time of sowing Ruta Baga seed.....	Pkt.	Oz.	2 Oz.	4 Lb.	Lb.
		5	10	.15	.20 .65
RUTA BAGA OR SWEDISH TURNIPS.					
White Sweet, or White Russian or Swede —This variety is well adapted for table use, it is also a good kind for stock. Roots are of medium size, quite smooth and even, greenish above ground and white below; flesh remarkably firm and solid, of fine texture. Sweet and of excellent flavor. One of the best, if not the most desirable of all the Swedes for table use. Its keeping qualities are extraordinary, remaining fit for use until very late the following spring.....		5	10	.15	.20 .65
Laing's Improved Purple-Top —One of the earliest of the Ruta Bagas; a productive, handsome variety of superior quality for table use; purple above and yellow under ground; a long keeper.....		5	10	.15	.20 .65
Beck's Improved Ruta Baga —A smooth, large growing variety, bulb firm, good keeper; excellent table and stock.....		5	10	.15	.20 .60
Skirving's Liverpool Purple-Top Ruta Baga —A standard sort, extensively cultivated for table use and stock; roots full medium size, remarkably smooth and even, 5 to 7 inches in length and 4 or 5 in diameter, size depending upon soil and season; grown upon suitable soil the neck is small and short; skin above ground is purple, below yellow; flesh yellow and of solid texture, sweet and well flavored; a good keeper.....		5	10	.15	.20 .55
Waite's Large London —Larger than Skirving's; an excellent long keeping Purple-Top yellow fleshed variety; table use or stock feeding.....		5	10	.15	.20 .55
Shamrock —It is claimed by English growers that the Shamrock is the finest Purple-top Ruta Baga in cultivation, neck is small, top small, root smooth, large and firm in texture, an excellent keeper, and good for table use and stock.....		5	10	.15	.25 .75
Marshall's Extra Fine Purple-Top —A very popular English variety, and regarded as one of the very best.....		5	10	.15	.20 .65
Carter's Imperial Purple-Top Hardy Swede —An English variety, highly recommended as producing extraordinary crops; valuable for stock feeding and also for table use.....		5	10	.15	.25 .75
Bangholm —This is also a superior English variety, and one of the most popular of that country. It grows to a large size, the neck is small, few side roots and is a large yielder; skin yellow with purple top; flesh yellow, sweet and solid.....		5	10	.15	.20 .55
Miner's Improved —This is claimed to be a great improvement on previous varieties.....		5	10	.15	.20 .65
White Red-Top —A French Ruta Baga with reddish purple-top, very tender, fine grained, sweet and solid.....		5	10	.15	.25 .70

TURNER—Continued.

Hall's Westbury—An excellent variety, both in form and quality, and very popular in many parts of England. It grows to a large size and is in other respects very desirable...	Pkt.	Oz.	2 Oz.	1 lb.
Sutton's Improved Champion Swede—A favorite variety with the English. It is claimed to be the <i>heaviest cropper</i> of all—the <i>hardest</i> and most <i>nutritious</i> variety grown.....	5.10	.15	.25	.75

HERB SEEDS.

SWEET, POT AND MEDICINAL.

Angelica—(<i>Archangelica officinalis</i>). Garden variety. Formerly blanched and eaten like celery, now little used.....	Pkt.	Oz.	2 Oz.	1 lb.
Anise—(<i>Pimpinella anisum</i>). An annual herb, cultivated principally for garnishing and seasoning. The seeds have an aromatic odor and taste, and are used for dyspepsia, colic, &c., have a relaxing effect.....	5.10	.15	.25	
Balm—(<i>Melissa officinalis</i>). Principally used for making balm tea for use in fevers; a pleasant beverage, is also made from the leaves called balm wine.....	5.40	.75	1.25	
Basil, Sweet—(<i>Ocymum Basilicum</i>). A native of the East Indies. The young leaf tops are the parts made use of in soups, stews, sauces and salads, their flavor resembling that of cloves ...	5.25	.40	.75	
Borage—(<i>Borago officinalis</i>). A hardy annual. Its leaves are sometimes used in salads or boiled as spinach. Being aromatic, its flowers and leaves immersed in cooling drinks impart an agreeable taste and flavor. Excellent for bee pasturage.....	5.15	.25	.40	
Caraway—(<i>Carum Carui</i>). Hardy biennial. Cultivated chiefly for its seeds, which are used in confectionary, cakes, medicine, &c., and the leaves are sometimes used in soups.....	5.10	.15	.25	
Coriander—(<i>Coriandrum sativum</i>). A hardy annual. Cultivated for its seeds, which are used by confectioners.....	5.10	.15	.25	
Dill—(<i>Anethum graveolens</i>). An annual. The leaves and umbels, which have an aromatic odor, and a warm, pungent taste, are put among pickles to heighten their flavor. The leaves are also used in soups and sauces. The seeds are good for flatulence and colic in children.....	5.10	.15	.25	
Fennel, Sweet—(<i>Anethum Foeniculum</i>). A hardy perennial. The seeds are warmly aromatic, and are sometimes used in confectionary. The seeds are largely used in soups, fish sauce and salads, and for garnishing.....	5.10	.15	.25	
Horehound—(<i>Marrubium vulgare</i>). Hardy herbaceous perennials, with a strong, aromatic smell, and a bitter, pungent taste. It is used in cough syrups and lozenges and for other medicinal purposes.....	5.35	.60	1.00	
Hyssop—(<i>Hyssopus officinalis</i>). A hardy perennial, with an aromatic flavor, and warm, pungent taste. The leafy tops and flowers are gathered and dried for making Hyssop Tea, and for other medicinal purposes.....	5.25	.40	.75	
Lavender—(<i>Lavandula Spica</i>). A hardy perennial. Its long spikes are used for the distillation of lavender water, or dried and used to perfume linen. The plant is delightfully fragrant.....	5.15	.25	.50	

HERB SEED—Continued.

Marjoram, Sweet—(<i>Origanum Majorana</i>). A plant having a pleasant aromatic flavor, and is employed in various ways as a seasoning. The young, tender tops are used green for flavoring, or they may be dried for winter use...	Pkt.	Oz.	2 Oz.	1 lb.
Rosemary—(<i>Kosmarinus officinalis</i>). A hardy perennial; the flowers and leaves of which have a strong aromatic fragrance like camphor. It yields by distillation a large proportion of fragrant oil.....	5.20	.35	.90	
Rue—(<i>Ruta graveolens</i>). A hardy perennial medicinal plant. The leaves are bitter and so acrid as to blister the skin. It is a stimulant and anti-spasmodic, but must be used with great caution, as its use may result in injury.....	5.15	.25	.40	
Saffron—(<i>Carthamus tinctorius</i>). A hardy annual from Egypt. It is cultivated on account of its orange colored flowers which are used in coloring or dyeing and as a nursery medicine.....	5.15	.25	.40	
Sage—(<i>Salvia officinalis</i>). A hardy perennial. It is well, however, to sow seed every second year, as one and two-year-old plants afford finer flavored and a larger and a greater abundance of leaves than older plants. The leaves are used in flavoring and dressing, and for medicinal purposes. Our seed is the "Broad-leaved English".....	5.20	.35	.60	
Summer Savory—(<i>Satureja Hortensis</i>). A hardy annual. A culinary, aromatic herb, used in flavoring or seasoning dressings and soups...	5.15	.25	.40	
Thyme—(<i>Thymus Vulgaris</i>). A perennial, highly aromatic, medicinal and culinary herb. The young leaves and tops are used for soups, dressing and sauce, and a tea is made of the leaves, which is a great remedy in nervous head ache. Although Thyme is <i>perennial</i> , yet after 2 or 3 years it becomes stunted and unproductive, and like Sage, requires to be raised periodically from seed. Our stock of seed is of the Broad-leaved green. The best.....	5.40	.75	1.25	
Wormwood—(<i>Artemisia absinthium</i>). A perennial. The whole plant is very bitter and possesses powerful medicinal qualities. The leaves are used as a tonic and vermifuge; and it is also said to be beneficial to poultry, and should be planted in poultry grounds.....	5.25	.40	.75	
Directions for the cultivation of Herbs, as well as all other plants, are printed on each packet.				

MIXTURE OF FLOWER SEEDS.

The Aster class of Flowers, and the Balsam, Dianthus, Pansy, Petunia, Phlox, Stock, Verbena, and a few others, are the most desirable of annual flowering plants. The difference in the quality of the seed of these various classes is very great. The least desirable plants produce the most seed and the choicest the least. As a consequence bad seed is cheap and the best quality is expensive. Poor plants and flowers are a disappointment, but the finer plants and flowers are looked upon with pleasure. Cheap seed is high at any cost. We import our flower seeds from London, Erfurt and Paris from growers who would not send out a poor article, and still there is a difference in the quality of their seed. That which they grow as mixed is not so desirable as that grown as Separate named varieties or colors, and for this reason we import largely of named varieties, and do the mixing ourselves. Those who buy our mixture will get seed of the best quality that can be had. Of course, the separate colors, each by itself, are desirable, but all can not afford to buy full lines of separate colors, and therefore we mix. See page 48 for some of the separate colors and our mixtures. See mixtures also of Biennials and Perennials &c., &c.

COLLECTIONS OF SEEDS FOR THE VEGETABLE GARDEN.

There are those who do not care to take the time and trouble to select from the Catalogue the seeds required for their vegetable gardens. To accommodate such parties we have made up the following collections, and in doing so we have discounted very liberally from catalogue prices. The assortments of the collections have been arranged with a good deal of care, and we think the varieties are well apportioned. The assortments are arranged with reference to a succession of vegetables throughout the season. We take great care to have all seeds *fresh*, and choice in every other respect.

Collections Nos. 1, 2, 3 and 4, will be sent by express at the expense of the purchaser; Nos. 5, 6 and 7 will be forwarded by mail, postage prepaid by us, to any address in the United States, on receipt of the prices affixed.

We trust many will take advantage of this offer of assortments, by sending in their orders for them.

W. S. RAYMOND, who took premium on Beets, buys his seed of Briggs & Bro., Condersport, Pa., Journal.

AT the Kewanee County, Wis., Agricultural Fair, EDW. BACH took the premium on Beets; seed from Briggs & Bro.—Kewanee Enterprise.

S. G. POSTER took first premium for White French Sugar Beet. Seed from Briggs & Bro.—Lewiston, Me., Journal.

DR. FRED. A. BALLARD, writing from Ozawkie, Kansas, speaks of "Mangel Wurtzel Beets two and one-half feet long and eight inches thick.

BEST Cabbages, MRS. M. C. SOWELS; second best to the same. The seeds were purchased of Briggs & Bro.—Janesboro, Ill. Advocate. J. P. PEASE took first premiums on Cabbages and Cauliflowers. Seed from Briggs & Bro.—Hampton, Iowa, Recorder.

MR. DANIEL VICKERY took a number of premiums on vegetables at the County Fair. Some of these—Pilderkrant and large early Schweinfurth Cabbage and LeNormand Short Stem Cauliflower, know are superior kinds, from having them on our table. The Schweinfurth Cabbage and Cauliflower were very tender and rich.

DR. FRED. A. BALLARD, writing from Ozawkie, Kansas, speaks of "Schweinfurth Cabbage 12 to 15 inches in diameter." Seed from Briggs & Bro.—Lewiston, Me., Journal.

FIRST premium on Turnips, took by F. C. CARROLL, Niles, Mich., Democrat. The seeds were bought of Briggs & Bro.—Niles, Mich., Democrat.

W. H. MILLER, writing from Berrien Springs, Mich., says: "You may look for an order from me next spring, as I can do no better, if as well, with any other house." MR. MILLER took premiums on the product of seeds bought of Briggs & Bro.

Geo. L. KABBERT, writing from Blacksburg, Montgomery Co., Va., says: "The early Sweet Corn was excellent."

ALPHONSO MOUTON takes first premium on Sweet Corn (Briggs' Early) grown in less than three months, from seeds procured of Briggs & Bro.—Brighton, Me., News.

AT the Kewanee County (Wis.) Agricultural Fair, EDW. BACH took the first premium on Cucumbers; seed from Briggs & Bro.—Kewanee Enterprise.

WM. HECK, first premium on Trophy Tomatoes, Cucumbers and Carrots; also on best collection of Vegetables. The seeds were procured of Briggs & Bro.—Greensburg, Ind., Standard.

C. N. DIAL, writing from Fremont, O., says: "Our Vegetables raised from seed purchased of you, carried away the largest number of premiums, although the competition was very strong."

JENNIE PAYRE took premiums on six kinds of Flowers and four of Vegetables. Seed from Briggs & Bro.—Baldwin, O., Sun.

REBECCA GAYER took prize on Leeks. Seed from Briggs & Bro.—Medina, O., Gazette.

THE seeds of the Vegetables on which Miss LIBBIE SIPLE was awarded first premium at the annual County Fair, were procured of Briggs & Bro. This is one of the most reputable seed firms in the country. Any of our citizens wanting garden and flower seeds will do well to send their orders to this firm.—Petersburg, Ind., Press.

"We recommend them as being thoroughly reliable."—Waukon, Wis., Times.

THE most essential point in successful gardening is to have good seed, and we know of none better than those furnished by Briggs & Bro. We know they can be relied on.—Franklin, Ill., Reporter.

Geo. L. KABBERT, writing from Blacksburg, Montgomery Co., Va., says: "The Melons were fine, although the season was very dry. They were the sweetest I ever saw."

SAMUEL WILLIAMSON, of Clay township, took a premium at the County Fair, on Musk Melons. Seed from Briggs & Bro.—Logansport, Ind., Journal.

BEST Water Melon, MRS. L. F. BAIRD. Seed from Briggs & Bro.—New-Hampton, Iowa, Courier.

MRS. A. W. PRESTON was awarded first premium on best variety of Garden Vegetables. They were raised from seed procured from Briggs & Bro.—North Adams, Mass.

MESSRS. LARIMORE & DEAN, writing from Niles, Mich., say: "We shall continue to sell your seeds, as we have for the past ten years, and no others, as we are satisfied that yours are the best."

JAMES B. MOORE, Redwood Falls, Minnesota, took premium at the Redwood Co. Fair, for best White Turnip, Silverskin Onions and White Parsnip. Seed purchased of Briggs & Bro.

G. W. BRADLEY, Secretary.

WE noticed some Onions which excelled anything of the kind grown in this country; exhibited by A. J. EBE, of Walnut township, and were grown of seed procured of Briggs & Bro.—Seymour, Iowa, Republican.

W. E. MATTERS, Jonesboro, Tenn., takes premiums on Beets and Onions; seed from Briggs & Bro.

W. S. RAYMOND, writing from Coudersport, Pa., says: "I exhibited Wethersfield Onions from your seed, seventeen inches in circumference."

THE seeds for the Onions which took first premium at the Fair, were furnished by Briggs & Bro.—Williamsburg, Ky., Sentinel.

THE seeds from which the Onions were raised that took the first premium by K. W. KINGSLEY, were bought of Briggs & Bro.—Manchester, Iowa, Press.

JOHN MCKAY, of Columbus, Columbia Co., Wis., who took first premiums on Onions, at the Columbia County Fair, says, "Out of 600 bushels of onions raised from seed purchased of you, I had not one peck of scullions, which is the grand point in growing onions."

FIRST premium on Garden Vegetables, R. J. R. BAKER. Seed purchased of Briggs & Bro.—Rock Island, Ill., Union.

C. N. DEAL took five premiums on best Red Onions, best Early Kent Peas, best Cabbages, best Pepper Plant, best late Peas.—Cleveland, O., Ind.

BEST and largest display of Garden Vegetables, S. ADAMSON. He is in the vanguard in the line of garden products and buys his seed of Briggs & Bro., Rochester, N. Y.—Waukon, O., Republican.

H. H. WHEELER, Hampton, Iowa. "I got the first premium and diploma on the largest and best variety of vegetables, and they were raised from seed procured from Briggs & Bro., and if I do not this year, why it will be because some one else gets seed from you and has better luck than I do."

BEST display of garden products, embracing all the standard varieties, CHAS. E. WHEELER. The seeds from which these grew were from Briggs & Bro., Rochester, N. Y.—Augusta, Me., Farmer.

G. M. DEL. SMITH, Middleway, West Va.: "My 'Trophy Tomato and Schweinfurth Cabbage, raised from seed about you, command the admiration and wonder of the whole neighborhood. They were the largest and most perfect ever grown here. The fair in this part of our State will be too late for me to place them on exhibition."

SAMUEL WILLIAMSON, of Clay Township, took a premium at the County Fair on Squashes. Seed from Briggs & Bro.—Logansport, Ind., Journal.

M. E. MORRIS, of Augusta, Ark., took premiums on best display of Squashes at Woodruff County Fair. Seed purchased of Briggs & Bro.

BEST Hubbard Squash, JOSEPH BROOKS. Seed from Briggs & Bro.—Lisle, N. Y., Gleaner.

AT the Kewanee County, Wis., Agricultural Fair, EDW. BACH took the first premium on Winter Squash; seed from Briggs & Bro.—Kewanee Enterprise.

MRS. H. FLETCHER ENOCHS, writing from Crystal Springs, Miss., says: "I exhibited the best variety of Vegetables at our County Fair; they were raised from seed procured by our club from you, and I was awarded a special premium."

SAMUEL WILLIAMSON of Clay township, took premiums at the County Fair on Tomatoes. Seed from Briggs & Bro.—Logansport, Ind., Journal.

W. H. FRY, gardener and seedsman, Whitevale Gardens, Whitevale, Ont., says: "The Trophy Tomatoes were splendid. We took both the first and second premiums at our Fair."

MRS. O. N. LEFFANG, Brooklyn, takes first premium on Hathaway's Excelsior Tomato. Seed from Briggs & Bro.

REV. J. L. DOUTHETT took the first premium with his Trophy Tomatoes at the Shelby County Fair. The seeds were obtained of Briggs & Bro.—Shelbyville, Ill., Union.

BEST dozen Turnips for table, L. H. RANDALL. Seeds from Briggs & Bro.—Appleton, Wis., Post.

S. G. POSTER, first premium for Turnips. Seed from Briggs & Bro.—Lewiston, Me., Journal.

BEST half bushel White flat Turnips, C. A. RANDALL. Seed from Briggs & Bro.—Appleton, Wis., Post.

JOHN MCKAY, of Columbus, Columbia Co., Wis., took first premium at the Columbia County Fair on Rutabaga Turnips. Seed procured from Briggs & Bro.

JOHN N. THOMSON, Grattan, Mich.: "When I say that we got no seeds for less money and that every seed grew, or at least so many that we did not miss any, I only state the truth. I tried half an acre of your New Improved Mammoth Purple-Top Turnip, and although the season was dry, so very dry in fact that the crop in question was an almost total failure around us, we harvested nearly three hundred bushels of as nice turnips as I ever saw, and at present writing (Jan. 12th) they are sound and apparently keeping well, or would be if the stock did not consume them with such avidity. I can recommend them."

S. G. POSTER, second premium for Mangel Wurtzels. Seed from Briggs & Bro.—Lewiston, Me., Journal.

THE bouquet of Asters, twenty-five varieties, exhibited by MRS. WARREN BOWMAN, of Topham, drew first premium. The seeds were bought of Briggs & Bro.—Bradford, Vt., Nat. Opinion.

MRS. D. L. BURNAN exhibited exquisite Asters from seeds procured of Briggs & Bro.—Farmers' Cabinet, Amherst, N. H.

BEST display of Asters, MRS. R. COY KENDAL. Seed from Briggs & Bro.—Romeo, Mich., Observer.

J. BURTIE ANNIX, Bricksburg, N. J.: "The seed you sent me, Perennials as well as Annuals, have every one proved of the best and choicest kinds and every one true to name. I have been asked by hundreds where I obtained my seeds, as they would like to send where they could get the kinds true to name."
