WHOLESALE CATALOGUE

OF

Gladiolus, ✧ Lilies,

✧ TUBEROSES ✧

Miscellaneous Bulbs and Roots,

VEGETABLE AND FLOWER SEEDS,

FOR 1887-'88.

—> GARDEN CITY, N. Y. <—

Seed and Bulb Farm, Jamesport, Long Island.

TO THE TRADE.

We take pleasure in sending you our **WHOLESALE PRICE LIST** of such Bulbs and Seeds as we have now growing on our Seed Farms, and beg leave to state that this is our only Catalogue, and that we confine our sales to those who sell again, and shall make our prices as low as possible. We do not advertise, neither do we issue an elaborate Catalogue, leaving that work for the Wholesale and Retail Dealers, with whom we do not wish to come in competition. We wish to be regarded as Growers rather than as Merchants. Those buying from us will get their stock from the Grower, and secure bottom prices.

TERMS:

All Bills will be rendered on the first days of January and July, without regard to the date of purchase, and all bills not paid by the 15th will be subject to sight draft.

Remittances may be made by **Draft on New York, or by Post Office Money Order on Hempstead, N. Y.**

At the prices quoted for 10,000 no less number than 5,000 will be sent; for 1,000 no less than 500, and for prices per 100 no less than 50 will be sent; per dozen rates not less than six.

Orders from unknown correspondents unless accompanied by a remittance, or satisfactory city references, will be sent by express, C. O. D. We make no deviation from this rule.

All orders will be filled in strict rotation. Those ordering early will secure the finest Bulbs.

No charges for boxes, baskets or packing.

Address,

C. L. ALLEN & Co.,

C. L. ALLEN,)

Garden City

GLADIOLUS.

Having made the growing of Gladiolus a specialty, and spent many years in hybridizing and growing Seedlings, those sent out this season will be superior to any heretofore offered, all being grown under our personal care and supervision. None of the Named Sorts will be sent out that have not flowered, and are known to be true to name and perfectly healthy. Our Mixtures are of a superior quality—having discarded all the older dull colors, and those producing small and poor shaped flowers. Our Light Mixtures are particularly desirable for Florists' use, being almost entirely of the varieties nearly white. We cannot recommend too highly our Hybrid Seedlings in mixture, all grown from seed of the choicest sorts, the greatest attention having been paid to cross fertilization.

Our stock for delivery 1887-88, is simply enormous. We shall harvest this Autumn more than 2,000,000 bulbs, the largest and finest ever grown either in this country or Europe. All bulbs sent out the coming season will be remarkably large and healthy.

[NOTE.—Our customers who wish to list 25 or 50 Named Varieties in their Retail Catalogues, by leaving the selection to us will find it greatly to their advantage, as we have many of the more valuable varieties in large quantities, which will enable us to quote them in collections at very low rates.]

	per Doz.	per 100
Abricote. (1882) Large rounded petals of a very fresh apricot-rose, slightly tinged with lilac; late-flowering variety	\$9	00
Achille. Beautiful currant-red, with white stripe in each petal	1	00
Adanson. Rose, slightly tinged lilac; large blotch on white ground, tinged yellow; edged with carmine, flushed lilac	1	25 \$8
Africain. An entirely distinct variety of quite a novel color—slaty-brown on scarlet ground, streaked with scarlet and pure white, with conspicuous white blotch; a dark colored variety of remarkable effect; dense spike	2	50 16
Agatha. Rose, suffused with lake, flamed with carmine-amaranth; clear yellow spots	75	5
Alexander. Intense crimson-scarlet	1	00 6
Amalthee. Pure white, with large violet red blotch; ground of the corolla velvety-violet, lower petals slightly tinted with lilac	1	00 6
Angele. White; showy and effective	75	4
Anna. Cherry, tinged bright orange; lower petals striped dark carmine on white ground	1	50 10

	Doz.	100
Antonius. Scarlet cherry, slightly tinged with orange, flamed carmine; pure white blotch	\$0 75	\$4
Apollon. Rosy-lilac, with a large light rose blotch, finely striped white in the centre	75	4
Araba Pacha. (1882) Scarlet flower of a very bright shade, with a large ivory-white blotch, golden at the edges	3 50	
Arsinee. Fine satin-rose, flamed with bright carmine	75	4
Astree. Pure white, with distinct violet-carmine blotch; throat suffused with pale lilac	1 50	10
Baroness Burdett-Coutts. Delicate lilac, tinged with rose, flamed rosy-purple; spike very long. flowers unusually large	4 00	
Bernard de Jussieu. Violet, shaded cherry and purple; purple blotch on white ground	75	4
Brenchleyensis. Bright vermilion-scarlet Per 1,000, \$8	20	1
Calypso. Flesh colored rose, streaked darker rose, blotched carmine	75	5
Cameleon. (1880) Compact truss of large slaty-lilac flowers, flamed orange, with white bands down the middle of each petal; large creamy-white blotch, streaked violet	2 00	12
Canari. Light yellow, streaked with rose on the lower petals	75	5
Carnation. Well expanded flowers of a fleshy-white color, profusely tinged at the edges with the richest carmine; lower petals blotched purplish-carmine	1 50	10
Christopher Columbus. Rosy-carmine, flamed red; large violet-red blotch on lower petals, marbled and spotted crimson; fine shape	1 50	10
Cicero. Flowers large and open, of a fine dark rose, tinged with violet-crimson-carmine, flamed with bright carmine; throat white a novel shade	1 50	10
Ceres. Pure white, spotted with purplish-rose	50	3
Charles Dickens. Delicate rose, tinted with buff, flamed and striped carmine-rose	75	6
Crystal Palace. Long spike of finely arranged pure white flowers, with lower petals striped with purplish-violet	1 25	8
Cleopatra. Soft lilac, suffused with violet	1 25	8
Conquete. Bright cherry-red, pure white blotch, upper petals striped rose	1 50	10
Donna Marie. Dark violet, flamed with carmine; carmine-violet feathered white blotch	1 25	8
Diamant. Fleishy-white, streaked carmine	1 50	10
Edith. Flesh colored rose, with darker stripes	75	5
Eglantine. Pure white, tinged with delicate rose and profusely flamed and edged with carmine-red	1 25	8
Etendard. White, slightly suffused with carmine	1 25	8
Elegans. Light cherry, tinged with brilliant orange; white blotch	1 50	10
Elisabeth. Dark rose, flamed with bright carmine-purple; large purple-carmine blotch with white stripes	75	5
Eugene Scribe. Flower very large and wide, perfect; tender rose, blazed with carmine-red	50	3
Felicien David. Cherry, light carmine feathered, white blotch	75	5
Flamingo. Fiery-red, blotch of rich purple; large spike of well-arranged flowers	2 00	

	7 Doz.	7 100
Galathea. Blush-white, with carmine blotch	\$0 50	\$3
Ginerva. Beautiful cherry-rose color, flushed with red; center line of petals pure white; small purplish-carmine blotch on straw colored ground	1 50	10
Grand Lilas. Tall spike of large, perfectly arranged flowers of delicate lilac, shaded dark toward the edges	2 00	12
Grand Rouge. (1882) Large flowers of bright scarlet, with small violet blotch	6 00	
Hermione. (1880) White ground, well covered with delicate lilac and carmine stripes; large white blotch, slightly streaked violet	2 50	16
Hesperide. Profusely blotched and flaked bright rosy salmon, on a pure white ground	1 50	10
Horace. Rich scarlet; large pure white blotch, feathered red ...	1 50	10
Horace Vernet. Bright purple red; large pure white blotch, feathered red	2 50	16
Ida. White ground, slightly tinted with rose, flamed with carmine rose; lower petals light yellow	75	4
Isaac Buchanan. New. The finest Yellow Gladiolus yet introduced for massing	Per 1000, \$25	50 3
Isis. Vermilion-scarlet, with fine pure white blotch	1 50	
James Carter. Light orange-red, with a large pure white blotch.	75	4
James Veitch. Bright crimson, violet blotch	1 00	6
John Bull. White, slightly tinged with sulphur ... Per 1000, \$16	30	2
La Candeur. White, lightly striped with carmine-violet. This is the nearest pure white of any Gladiolus yet introduced, and is the best known variety for forcing.... Per 1000, \$40	75	5
Lamarck (de). Large flowers of cherry color; slightly tinted with orange, blazed with red, centre well lighted, very large pure white stain	75	5
Laura. Light orange-red, tinged and flamed with carmine; pure white blotch	75	5
La France. Pure white flowers, slightly flamed with carmine towards the edges; large amaranth blotch on creamy white ground passing to pure white.	1 50	10
Leander. Large flower of lilac color, beautifully shading off to carmine; distinct white band in the middle of each petal and conspicuous white blotch on lower petals....	1 50	10
Le Poussin. Light red, white blotch	60	4
Le Titien. Very brilliant rosy-scarlet	1 25	8
Lord Byron. Brilliant scarlet, blotched and flaked pure white ...	60	4
Le Vesuve. Intense fiery-red; very rich	2 50	16
Mac Mahon. Satin orange-colored cherry-rose, striped red.....	60	4
Marie. Pure white, with deep carmine blotch	1 00	6
Marie Dumortier. White, slightly streaked with rose, violet-purple blotch	50	3
MARTHA WASHINGTON. A tall and strong growing plant; flowers pure light yellow, of large size in a well arranged spike, lower petals slightly tinged with rose; it is of a branching habit and some of the branches are longer than an ordinary spike of flowers, making this one of the most stately and beautiful varieties yet introduced.....	1 25	8

	Doz.	100
Mathilde de Landevoisen. White, slightly tinted with flesh-colored rose, streaked with carmine.....	\$1 25	\$8
Mme. Monneret. Delicate rose, with white stripe in the centre of each petal; carmine blotch on salmon ground....	50	3
Margarita. White ground, slightly suffused with bright carmine.	1 25	8
Meteor. Very brilliant dark red, large pure white blotch.....	1 00	8
Meyerbeer. Brilliant scarlet, flamed with vermilion; amaranth-red blotch.....	1 50	10
Moliere. Cherry, with large pure white blotch.....	75	5
Mount Etna. (1881.) Long spike of well arranged flowers of the most brilliant velvety scarlet, slightly streaked with deeper scarlet at the edges; white band in the centre of the upper petals..	4 00	
Multiflora. White, tinged with lilac and flamed with rosy carmine; a novelty, having a profusion of good sized flowers all round the spike.....	1 50	10
Napoleon III. Bright scarlet, striped white in the center of the petals.....	60	4
Nelly. White, flamed with carmine-rose; large blotch of dark carmine.....	60	4
Nestor. Light yellow, the lower petals darker, striped with red..	1 50	10
Norma. Pure white, occasionally very slightly suffused with pale lilac.....	1 50	10
Ondine. White, tinted with lilac; small dark violet blotch, slightly flamed with lilac-carmine on the edges.....	2 50	
Ophir. Dark yellow, purple blotch.....	1 25	7
Oracle. Very brilliant cherry-rose.....	75	4
Ossain. Bright rose, tinged with violet and flamed with carmine; light ground.....	1 00	6
Panorama. Large spike of well arranged flowers of a beautiful lilac, shaded and mottled with brilliant carmine; throat creamy-white; centre of each petal banded white; new shade of color.	2 00	
Pegasus. Flesh colored rose; purple blotch on buff ground.....	1 00	6
Penelope. Blush-white, lower petals tinted with yellow, streaked carmine.....	1 00	6
Pericles. Light rose, flamed with carmine-purple; large pure white blotch.....	1 00	6
Pactole. Beautiful yellow, slightly tinged with rose at the edges; blotch of a darker shade.....	1 50	10
Pepita. (1882.) Bright golden yellow flowers, slightly striped carmine at the edges of the petals towards the end of the flowering season.....	2 00

COLLECTIONS IN BOXES.

We make a specialty of putting up Gladiolus in boxes ready for mailing or retailing in stores. These collections are made up from such varieties as we have in stock after our heaviest orders are in, and as a rule they come much cheaper than the regular Catalogue rates. Each bulb is correctly named and described.

LILIUMS.

We would invite particular attention to this class of Plants. The prominent position it occupies in the garden is well deserved, from the fact of their being perfectly hardy, requiring but little care or attention and a proper selection will furnish flowers from June until September. We have added some choice and rare kinds to the lists usually sent out, and have omitted varieties that are of but little interest.

L. Longiflorum are remarkably scarce and the prices rule high. We are enabled, however, to offer a fine stock of our own growing at moderate rates, and imported Bulbs at as low rates, if not lower, than can be bought elsewhere. *L. Candidum* we quote very low, and can give our customers Bulbs of a superior quality.

Lilium Auratum, home grown, are scarce. We have a limited supply only, but expect large importations during the Fall and Winter, and will book orders for delivery upon arrival, at prices quoted, upon condition that the Bulbs arrive in good order. All Bulbs offered are of our own production unless specially noted.

		Doz.	100
L. Auratum.	Home grown bulbs	\$2 00	\$12
"	Imported bulbs. Ready for delivery about Oct. 20.	1 50	10
"	Imported bulbs. Delivery after Jan. 1. Per 1000, \$70		8

" Brownii.	Home grown strong bulbs each \$1		
"	Imported; delivery Nov. 15th. Each \$1.....		90
" Bermuda Lily.	This is offered under a variety of names. <i>Floribunda, Harrisii, &c.</i> 3 to 5 inches in circumference.	\$6 00	\$50
" Candidum.	Fine strong bulbs as imported.....	3 50	30
"	Extra selected expressly for Florists.....	4 50	40
" Candense Flavum, (true.)	Flower bell-shaped, petals not re- flexed, yellow spotted....	\$1 00	\$5
" Candense Rubrum, (true.)	Larger habit, flower more richly colored with red, petals orange-yellow, spotted; three feet	1 00	5
" Candense Rubrum Flavum.	An intermediate form; very fine	1 00	5
" Colchicum. (Szovitzianum)	One of the finest Lilies; large pendulous flowers in shape and style like the <i>L. Candidum</i> ; bright citron-yellow, dotted with black.....	5 00	35
" Carniolicum.	A fine early growing variety, deep orange-red flower. Imported; ready Nov. 15th	3 50	25
" Chalcedonicum.	Intensely scarlet recurved blossoms, resem- bling Turk's caps. Extra strong. Each 40 cents.		
" Chalcedonicum.	Newly imported. Each 30 cents.		

	Doz.	100
L. Columbianum. A variety from the Columbia river; flowers bright reddish-orange; densely spotted with purple dots; a miniature form of <i>L. Humboldtii</i>	\$2 00	\$12
" Concolor. Graceful, slender foliage, with numerous flowers of a brilliant crimson color. Delivery in Nov.	1 25	8
" Coridion. Similar to preceding except in color, the flowers being yellow, with black dots. Delivery in Nov.	1 25	8
L. ELEGANS. Alice Wilson. The flower is of the most lovely form; petals broad and full, with soft and graceful curves and lines; color bright, clear lemon, deepening towards the centre of petals to a rich golden hue, dotted with a few crimson-brown spots; 12 to 18 inches high	6 00	40
" " Bicolor. Deep yellow; 12 to 15 inches high.	1 00	6
" " Billigulatum. Orange yellow; 18 inches high.	1 00	6
" " Citrinum. Light salmon-yellow; 8 inches high	1 25	8
" " Erectum. Yellow, tipped orange; 24 inches high	1 00	6
" " Grandiflorum. Yellow, spotted black; 24 in. high	1 00	6
" " Punctatum. Yellow, spotted	1 00	6
" " Choice Mixture.	75	5
" Excelsum. (Testaceum.) (Isabellinum.) Tall nankeen-yellow; fine for a back row or for mixing with tall growing ferns.	5 00	35
" Hansonii. (Hanson's L.) A distinct and rare species, with small orange-yellow flowers, spotted with brown; the divisions of the flower, or petals have a remarkably thick texture, which makes them very enduring. . . . Each \$1.		
" Humboldtii. (Bloomerianum.) A remarkably fine variety, attaining the height of about five feet, and producing freely fine, large flowers of a golden-yellow color, spotted with purple; a native of California.	2 50	15
" Lancifolium (Speciosum) Album. White	2 50	18
" " " Præcox.	2 50	18
" " " Roseum. Spotted rose	1 25	9
" " " Rubrum. White and red spotted.	1 25	9
" " " Punctatum. White, spotted with salmon	6 00	40
" " " Purpuratum. A new variety from Japan; flowers very dark and distinct	2 00	12
" " " Monst. Album. Pure white; large bulbs	1 50	10
" " " Monst. Rubrum. Red spotted	1 25	8
" Leichtlinii. A beautiful Japanese species, of neat and elegant habit; the flowers are pure canary-yellow with crimson spots; a real acquisition	4 00	30
" Longiflorum. One of the earliest to bloom and best for forcing purposes; its flower is sweet-scented, of a pure white color, 6 to 8 inches long, and of elegant trumpet shape; home-grown bulbs.	1 25	8
Imported Bulbs. November	1 00	6

	Doz.	100
L. Martagon. (Turk's Cap Lily.) Purple.....	\$0 75	\$55
“ “ Dalmaticum. A variety with very dark purple, nearly black flowers; a remarkable flower. Each 75 cents.		
“ “ Newly Imported Bulbs. Nov. Each 30 cts.		
“ Maximowiczii. (Fortunii.) Like a Tiger lily, but more deli- cate and no bublets on the stem	2 00	12
“ Monadelphum. Rich citron color, spotted with black; one of the best of Lilies.....	5 00	35

AMARYLLIS.

- Amaryllis Equestre.** This is a grand old species, but little known, and one of the most desirable for winter and spring blooming, requiring the same treatment as *A. Johnsonii*; the flowers are large, nearly six inches in diameter, borne in umbels of from two to four on tall scapes; color a lively light orange scarlet, with a creamy-white star in the centre \$2 50 \$15 00
Each.
- Amaryllis Aulica.** (Lily of the Palace.) Crimson, shaded with lively green \$1 00
- A. Aulica Platypetala.** One of the most distinct Amaryllis in cultivation, with bright green foliage of a distinctly curved outline; flowers are very large, with broad spreading petals of a rich deep crimson, shaded with maroon; the throat of the flower is of a pale yellow tint; it is an evergreen, flowering in the Winter. Strong bulbs 1 50
- A. Defiance.** This is one of the most remarkable hybrids in cultivation, flowering nearly all the season; flowers very large, petals very broad; color carmine-red, with bars of white running through each petal. Extra large bulbs..... 2 00
- Flowering Bulbs.....** 1 00
- A. Solandraeflora.** Another very scarce and distinct kind, with large bulbs and thick leathery flat leaves; flower spikes often reaching three feet high, surmounted with from 5 to 7 very long funnel shaped flowers, which are borne horizontally; the color is delicate pink or rose, interspersed with fine white lines, and a broad band of white extends through the center of each petals into the very long throat; and are deliciously fragrant; very strong bulbs..... 3 00
- A. Solandraeflora Conspicua.** This is a variety with very dark leaves with a metallic lustre. Flowers similar to the foregoing species, but of a darker pink color; very fragrant 2 00
- A. Johnsonii.** Crimson, striped with white; showy and very free bloomer..... Per doz., \$4 50

DAHLIAS Pompon or Bouquet Dahlias.

Adonis. Rose with white tips and markings.

Fire Ball. Brilliant orange-scarlet.

German Boy. Purplish-crimson, on yellow ground.

Guiding Star (or White Aster). The gem of all the double white pompons, flower very double, pure white; a very prolific bloomer, useful for cut flowers.

Little Beatrice. Light rose.

Little Goldlight. Yellow, tipped carmine.

Little Kate. Deep purple; fine form.

Little Lucy. Light crimson.

Little Prince. Currant-red, tipped white.

Little Valentine. Crimson.

Lurline. Light amber.

Marguerite. It is of perfect double form, about two inches in diameter and of the richest shade of pink; in addition to this, it blooms in the greatest profusion from beginning of August until frost. This quality of earliness is of great value, as many varieties of Dahlias come so late in the season as to greatly lessen their value.

Single Dahlias.

Alba or White Queen.

Paragon. Maroon and crimson.

Gracilis Ardens. Scarlet.

Cactus Dahlias.

Juarezii. Brilliant scarlet.

Lyndhurst. Carmine.

	per Doz.	per 100

TIGRIDIAS.

	per Doz.	per 100
Tigridia Conchiflora. Yellow, large	\$0 30	\$2
Tigridia Grandiflora. Crimson; very fine	40	3
Tigridia Grandiflora Alba. Its flowers are large, of a dead or pearly-white color, marked at the base of each division with large spots of a reddish-brown or chestnut color on a yellowish ground, forming a fine contrast with the white of the petals..	60	4

CANNAS.

Auguste Ferrier. Broad, moderately dark bronzy leaves; medium height.

Caladoniensis. Light green leaf, red flower; 5 feet.

Discolor. Bronze leaf, red flower; 5 feet.

Ehemanni. This is a beauty in every sense. The massive deep green Musa-like leaves alone would make it a valuable acquisition, but when we see its magnificent crimson flowers, over three inches long and two inches wide, suspended from its deep red whip-like flower stalks, it is difficult to find words to express our admiration—so different in general character that it is hard to believe it is a *Canna*. Per dozen, \$2; per 100, \$15.

Gigantea. Very tall growth; dark bronze foliage.

Premices de Nice. Light green leaves, large yellow flowers; medium.

Robusta. This variety, with good cultivation will grow fully 10 feet high; with immense leaves 4 feet long by 1½ feet in width of dark bronze and green colors.

Selvoi. Clear green foliage and stems; red flowers.

The 7 varieties, excepting *Ehemanni*, \$1 per doz; \$6 per 100.

FREESIA REFRACTA ALBA.

Per 100. Per 1000

First Class Bulbs.... \$3 00 \$25

MISCELLANEOUS PLANTS AND BULBS.

	Doz.	100

SPECIAL NOTICE.

We are making the growing of Cabbage Seed a specialty, and have introduced some of the finest varieties in cultivation. Among these are "**ALL SEASONS**," of which we have prime Stock Seed of the original selection, and the **MAMMOTH "ROCK RED,"** of which we have the finest and only true stock Seed.

Surrounded as we are by salt water, our situation is the best in this country for the development of the Cabbage and the perfection of its Seed. We wish it distinctly understood that in this line we are not merchants, and do not keep Seed of any of the varieties in stock, neither do we in growing agree to deliver a given number of pounds. We undertake to grow a given acreage of any desired variety, and agree to deliver the entire product of said acreage. We put away for seed fully developed heads only; such as are fit for marketing purposes, as we do not believe a fit selection can be made from undeveloped heads. We personally superintend the growing, and before stocks are put away in Autumn we go over the fields and throw out all that are unfit for seed purposes, and such as are not true to type. Prices on application.
